STOCK SHOWS are good for bringing people to a countywide event and helping cement community spirit and as a vehicle for showing that youngsters can do. But they sure are dirty. Those animals don't have much cough, meaning they don't mind where they do what. And they stir up a lot of dirt (we understand there is a move on to a concrete floor, though, at the show).

The animals at the Lynn County Livestock Show kicked up so much dirt last week, especially Wednesday and Thursday, that there was dirt all over town. Some said there was even dirt in station, Brownfield and Lamesa.

The show brought out lots of folks, and everyone worked hard to see that things went smoothly to be congratulated, along with all the youngsters who won awards.

A WOMAN we know last week bought some highly-advertised diet pills for her husband. They look and possibly react like amphetamines, only you're not supposed to be able to buy those without a prescription.

I told her the pills didn't look very appetizing, and probably would be a poor substitute for steak and potatoes and ice cream. However, they might not taste too bad if you put whipped cream on them.

KNOTHOLES in the Woodwork: Inflation continues to zoom out of sight, and we read the other day another prediction that gasoline would go up to \$2 or more per gallon before the end of the year. One possibly bright aspect of any critical gasoline shortage might be that more folks would stay at home instead of going to Lubbock to do errands. It could help local business, and we might even learn to visit the neighbors next door again... We received a Mail-Gram from General Telephone Co. Monday. They could have called me, but I guess their phone doesn't work... Anybody interested in a good job that pays money may now file for the school board or city council, by next Wednesday.

More Items Stolen From County Farms

Lynn County Sheriff's Dept. this week was investigating five more reports of thefts of items from farms.

On Tuesday Maurice Huffaker reported theft of a quantity of aluminum pipe from a farm seven miles

north of Tahoka. Kenneth Cawthron, 14 miles east, and Bryan Wright, 15 miles north and two west of the city, also reported aluminum pipe stolen during the last week.

On Feb. 20, E.C. Smallwood of Slaton reported tractor weights stolen from a farm south and west of Southland. And on Monday Johnny Paul Lawson reported an air compressor and tractor equipment stolen from a site seven miles east and five south of Tahoka.

Last Thursday Freddy Thomas of Tahoka reported to city police that a Canon camera and accessories had been stolen from his car.

During the week police issued two tickets each for careless driving and no drivers license, and one each for running red light.

Wednesday Deadline On Elections

Next Wednesday is the last day to file for city council, school board or Lynn County Hospital board, with some of the vacancies still needing candidates by Tuesday of this week.

On the city council terms of James Roberts, Jim Solomon and Richard White are expiring, and as of Tuesday, only candidates who had

filed for the three posts were incumbents Solomon and White. Candidates should file at the city hall before 5 p.m. next Wednesday.

Three school board seats are up for election. Terms of Mrs. Bettye Green and Joe Brooks and of the late Othell Meeks are to expire. Mrs. Green and Brooks have filed, as have Joe Hays and Kenneth Scott. Candidates should file at the school business office by 4 p.m. Wednesday.

Or, the hospital board the terms of Larry Hagood, Julian Pirtle and Roy Lynn Kahlich are to expire. No one had filed as of Tuesday but candidates may file at the hospital by 5 p.m. Wednesday.

All three elections will be held April 5 at the school cafeteria.

Livestock Show Is Big Success

The annual Lynn County Livestock Show and Sale was judged a big success by its promoters after the four-day event last week which drew a good turnout of exhibitors and spectators.

The sale brought in a total of more than \$52,500, which was several thousand dollars more than the previous year's premium total.

Exhibitors from O'Donnell dominated the show, with O'Donnell youngsters showing the grand champions in all three divisions and winning all three showmanship awards. Two reserve grand champions were shown by New Home FFA members.

BARROW WINNER--Benny Gass, O'Donnell 4-H member, had the grand champion barrow in the county stock show.

Casondra Brewer of O'Donnell 4-H showed the grand champion lamb, a heavy weight Suffolk, and Shawn Ballard of New Home had the reserve grand champion.

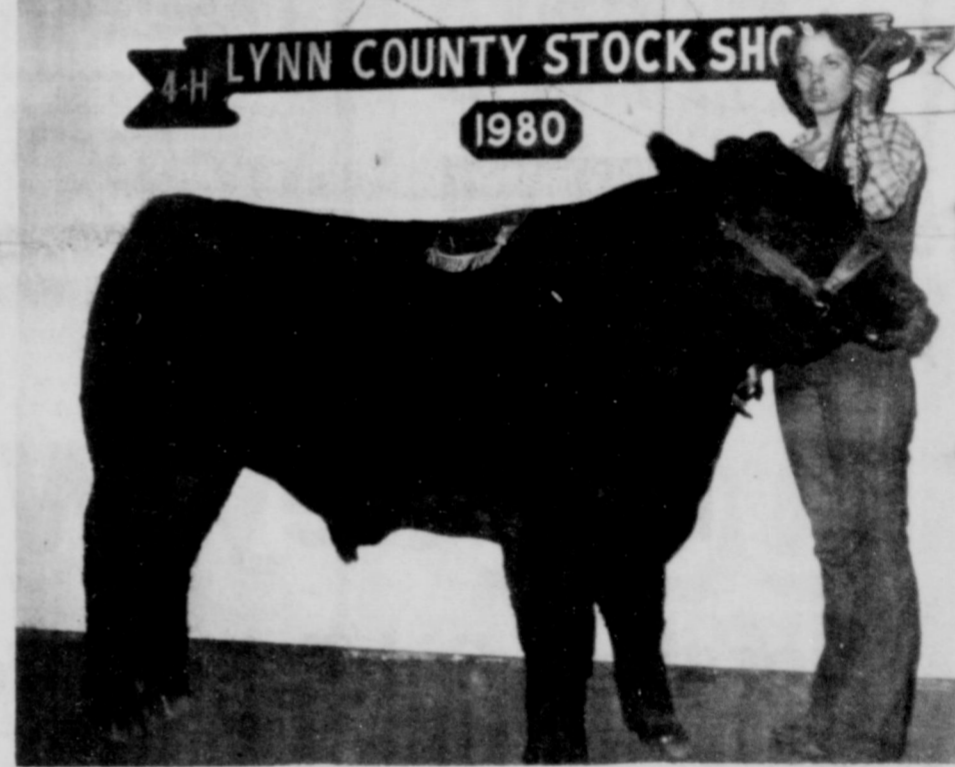

A heavy cross steer shown by Debra Sanders of O'Donnell 4-H was judged grand champion in that division, with Sherry Barton of O'Donnell 4-H showing the reserve grand champion.

Benny Gass of O'Donnell 4-H showed a heavy Hampshire which won the grand champion barrow award, with Todd Ballard of New Home showing the reserve grand champion barrow.

Showmanship awards went to Wayne Barton, lambs; Debra Sanders, steers; and Benny Gass, barrows. All are O'Donnell 4-H members.

excessive speed and failure to yield right of way.

Six persons pleading guilty of driving while intoxicated were fined in county court Tuesday. Judge Melvin Burks assessed fines varying from \$125 up, plus court costs.

County Revises Rules On Tax Exemptions

Lynn County Commissioners made a slight change in a newly-enacted policy on granting homestead exemptions this week as they voted to allow veterans with service connected disabilities an

exemption in addition to the 65-over exemption if they qualify. Any person 65 or over who lives in his home in Lynn County may apply for a \$3,000 homestead exemption

up to \$3,000, depending upon the percentage of disability. And if such disabled veterans also are over 65, they may get both exemptions.

force the county to re-draw commission precinct boundaries, as Judge Melvin Burks reported a hearing on the suit is scheduled in federal court on March 28. Plaintiffs in the case are a Mexican-American organization alleging the present boundaries are discriminatory.

Commissioners meeting Monday at the courthouse also voted to continue taxing automobiles, with a minimum tax of \$5 per registered vehicle for older models.

Brooks New Administrator For Hospital

John Brooks, administrator of Groom Memorial Hospital for the last 13 years, has accepted the position of administrator of Lynn County Hospital effective March 3.

He succeeds Gerald Moore, who resigned the position here to take a similar job at Seymour.

Brooks and his wife, Juanita, have been active members of Groom Methodist Church. They two married sons, Leonard of Groom and Johnny Rhea Brooks of Pampa.

Prior to taking the job at Groom, the Brooks family lived in El Paso, where he was with Sun Towers Hospital and R.E. Thomason General Hospital for a total of nine years.

A native of Jacksonville, Tex., Brooks is a graduate of Lubbock High School and Hillsboro Junior College. At Groom he was a member of Lions Club and Masonic Lodge.

Rep. Rudd Gives Warning Of Higher Property Taxes

A grim warning to farmers and property owners that their taxes will be going up soon as a result of the new statewide uniform tax appraisal bill was given last Thursday night by Jim Rudd, state representative for this 77th district, as he spoke to Wilson Lions Club members, guests and wives.

"Some of the taxing authorities will tell you they are going to cut your tax rates after the appraisals are raised to full market value--and this is true--but most people still will be paying higher taxes," Rudd said.

Emphasizing that he fought the measure in the legislature and voted against it, Rudd discussed the statewide setup and pointed out that the cost of administering the new system will be borne entirely by the local taxing jurisdictions year after next.

He explained that the first year's expenses mostly would be paid by the state, which appropriated \$2.8 million for setting up the

appraisal boards this year, but plans to give a lesser amount next year and none the following year. It also was pointed out that local taxing groups already have to pay for the appraisals.

Speaking to the group in the Wilson High School cafeteria just after two days of terrible dust storms, Rudd joked that Terry County was "sending Lynn County a bill for \$6,342 for topsoil" which had been blown east.

Lion Boss Ronnie Nettles also introduced Bob Price of Hollywood, Calif., who said he had been blind for 20 years and then had his sight restored two years ago by transplant of an eye donated through the Lions Club eye bank program. He now goes around over the country speaking to Lions Clubs and signing up people for the eye bank program. Anyone who would carry a card indicating they are willing to donate their eyes after death is urged to get in touch with any Lions Club member anywhere.

Scott Is Top Scorer For Dogs

Kenny Scott hit 170 field goals in 418 attempts and 38 of 58 free throws during the basketball season just ended to lead scoring for the Tahoka Bulldogs with 378 points, statistics compiled by Coach Mike Williamson revealed this week.

Charles Bryson was second in scoring with a total of 293 points and also led the team in rebounds with 257 for the year, playing in 25 of the 27 games. Bryson's field goal percentage was 48, with 119 of 250 hit from the field. This was the top percentage for regular players on the varsity.

Clifford Oages had 154 points and was second in rebounds with 215. Brad White had 173 points and 170 rebounds.

Jacky Jolly scored 111 points and had 120 rebounds. Todd Brown scored 56 points and pulled down 45 rebounds.

Other season point totals were: Ricky Chapa 34, Lance Bevers 20, Doug Barham 18 and Ralph Huffaker 16, and Richard Payne 36.

Payne is a sophomore.

Bryson and Jolly are juniors, and all the other players are seniors. The team scored a total of 1502 points, an average of 55.6 per game, in a 20-7 season.

Census '80 Information

Full time, temporary jobs as census takers in this area are still available, Mitzi Jordan, Manager of the local 1980 census office, said today.

"We're counting on you if you can work a 40-hour week visiting households and interviewing the residents," the manager said, adding that some evening and Saturday work will be required.

Census takers will begin work soon as part of the 1980 Census of Population and Housing. They will attend a training session for which they will be paid. Most census takers will be paid a piece rate for the number of household interviews completed. In a few instances, pay will be by the hour. For all workers, pay will average \$4 an hour or more.

Census takers must be able to follow printed instructions, do simple arithmetic, and read maps for which they will be tested before hiring. They should be able to walk a considerable amount, climb stairs, and ought to have good eyesight and hearing. They should have a home telephone and many will need a car, for which mileage will be paid when it is used in census work.

The Census Bureau is an equal opportunity employer. Inquiries may be made at Metro Tower Bldg., 3rd Floor, 1220 Broadway, Lubbock, Tx 79401 or call 806-762-7511.

Far East Is Target: A U.S. cotton trade team will depart April 14 for a schedule of activities to build export markets in The Philippines, Indonesia, and Thailand. U.S. cotton sales to these three countries already total some 600,000 bales. The group will be composed of representatives of the American Cotton Shippers Association, AMCOT, Producer Steering Committee of the National Cotton Council, Foreign Agricultural Service, and Cotton Council International.

Maid to Visit Canada: Maid of Cotton Melissa Mock of Altus, Okla., will travel to Canada February 29 to begin

a busy two weeks of promotion and merchandising activities on behalf of U.S. cotton. The Canadian Cotton Council, market development cooperator of Cotton Council International (CCI), is arranging the schedule. Activities in Toronto and Montreal will include fashion show promotions with leading department stores, contacts with garment manufacturers and government officials, and media interviews. CCI is the overseas arm of the National Cotton Council.

Exports Reported: New sales of upland cotton were reported at 66,700 running bales for the week ended February 10, bringing the season's total to 8,544,900. The major buyers were Korea, 29,300 bales, and Japan, 19,400. The record week's exports hit 313,300 running bales (135,700 to China) compared with 201,300 a week ago, to bring the total to 3,981,100 for the year. The week's sales for 1980-81 delivery reached 30,700.

Conferees Agree On Target Price Bill: House-Senate conferees have reached an agreement on a bill raising 1980 target prices for wheat and feed grains. Under the agreement, target prices for wheat will be raised to \$3.63; corn, \$2.35; grain sorghum, \$2.50; and barley, \$2.55. The conferees also agreed to Senate language extending the disaster program for cotton, wheat, feed grains, and rice through 1980.

Three Complete Law Officers School

Three Tahoka men last week completed 240 hours of classroom work in Basic Law Enforcement School, a class which included 21 student officers and which was held at Reese Air Force Base. Starting in mid-January, the men went to class from 8 to 5 daily except weekends.

Completion of the course by Joe Bryan, Marvin Pierce and Robbie Roberson meets state requirements for certification as law enforcement officers.

The students elected Roberson president of the class. Bryan received a certificate for having the best notebook.

Commodity Market Is Rotary Subject

Dealing in the Commodity Market was the subject of a talk at Rotary last Thursday noon by Shelby Bolton of Lubbock.

He warned that anyone entering the commodity market field that there are hazards that should not be overlooked, and that much caution and judgment is required for success. He warned against jumping in and out of dealing in futures.

He thinks that cotton commodities will jump back up some in future months, and also wheat has prospect of being a good investment.

Gold and silver are attracting much interest, but could be hazardous to the investor. Gold and silver bought before the price rise has proven a good investment. In this day when the U.S. Government is printing up more and more paper money, however, this gold and silver could be a good investment.

Diamonds bought now are a poor investment, he declared, but diamonds bought years ago are now worth considerable more than the buyer probably paid for them.

The long time investor in commodities must be an optimist, he said.

Jim Marcus was in charge of the program and introduced the speaker.

Of the 30 million living ex-military personnel, the Veterans Administration estimates that four per cent, or 1.2 million of them reside in Los Angeles County, Calif.

Cumulative Veterans Administration expenditures to date for Vietnam Era veterans total \$46 billion. This includes compensation and pension payments, readjustment benefits, medical care, loan guaranty and administrative expenses.

Highway Department Questionnaire

Questionnaires will soon be distributed to all agencies and organizations which are known to be furnishing public transportation in District 5 of the State Department of Highways and Public Transportation. The information to be secured in the questionnaires is critically needed in the development of both rural and urban transportation systems in Texas.

There are four categories of transportation providers to be canvassed: municipal transit systems, taxicab systems, human services, and miscellaneous providers. Miscellaneous providers may include governmental and welfare agencies, social organizations and commercial carriers. Transportation for the elderly, the handicapped, the disadvantaged, and those persons unable to furnish their own transportation by privately owned automobiles is of special concern.

If any provider of public transportation does not receive a questionnaire within the next two weeks, or if assistance is needed in completing the form provided, please call Mr. Glenn Johnson at the State Department of Highways and Public Transportation in Lubbock, Texas at telephone number 745-4411.

Public Comment Sought On Soil Program Plans

The U.S. Department of Agriculture is seeking comments from the public on seven proposals for possible changes in the nation's soil conservation programs.

Eual Davis, Soil Conservation Service, said a meeting will be held at 9:30 a.m. Tuesday, March 4, in Lubbock at the Civic Center. USDA officials will present the seven alternative strategies for soil conservation that

the department has developed. Also to be discussed are results of a two-year study and appraisal of the nation's soil and water resources.

The strategies include a proposal for making soil conservation mandatory through national and state laws; a suggestion that farmers be required to carry out soil conserving measures before receiving crop insurance, price support pay-

ments or other help from USDA's farm programs; and a proposal for offering landowners stronger incentives to practice soil conservation through tax reductions, cash bonuses, low interest loans, and other methods.

Lubbock is one of 18 cities in which USDA is conducting meetings to seek public reaction to its proposals and resource appraisal information. Davis suggests that all interested land users and any citizens attend the above meeting to become better informed.

Interested persons can also review the material available at the Lynn County USDA offices, Davis said. "After learning all you can of the proposed program, then write your comments on paper and send them to the following address:" Response Analysis Center Box 888 Athens, Georgia 30603

Comments must be signed and postmarked no later than March 28, 1980.

The USDA's proposals for conservation and the provision for public review and comment are a result of a 1977 law, the Soil and Water Resources Conservation Act of 1977. The law requires an appraisal of resource conditions and a revised conservation program to address soil and water problems.

Cotton Production Meeting

The Lynn County Crops Committee will sponsor a cotton production breakfast meeting Thursday, March 5 at 7 a.m. in the Tahoka Cafeteria.

Dr. James Supak, cotton specialist, will be here to discuss general cotton production techniques. Marvin Sartin, Area Economist, will discuss economic outlook, contracting and other related subjects. Also, Dr. James Leser will review the cotton insect outlook and new controls.

All programs sponsored by the Texas Agricultural Extension Service is open to anyone regardless of socioeconomic levels, race, color, creed, sex, age, religion or national origin.

L.C. Unfred Will Head Cotton, Inc.

Lynn County farmer L.C. Unfred has been named chairman of Cotton, Inc., the cotton industry's research and promotion organization.

A native of Rannels County, Unfred has farmed in the New Home area since 1947. He began farming after serving in Europe during World War II. He was unanimously elected by the directors of Cotton, Inc. at a meeting in Raleigh, N.C.

Unfred also is president of Plains Cotton Cooperative Assn., which developed the electronic marketing system known as Telcot. He also is president of American Cotton Growers, whose members market cotton as a pool and own a textile mill.

He is president of New Home Co-Op Gin, on the board of Farmers Co-Op Compress, director of the Texas Federation of Cooperatives and of Producers Exchange Insurance Co-Op. He and his wife, Natalie, have one son, a daughter and a grandson.

Cotton Meet Slated Here

Lynn County cotton producers are invited to a meeting of Plains Cotton Growers, Inc. at 7:30 p.m. Tuesday in the Lyntegar Room in Tahoka.

Staff members from the Lubbock office will be on hand to present the program, according to PCG President Joe D. Unfred.

A businessman representative to the organization will be elected at this meeting. Current representative is Dwain Lusk of First National Bank of Tahoka.

Cotton Prices Turn Around

Cotton prices declined during the week ended February 21, after advancing for twelve consecutive weeks, according to Paul R. Dickson, Area Director for the Texas High Plains Cotton Division Offices.

High Plains growers sold mixed lots of mikes 30 - 32 around 1500 points over 1979 loan rated, down 175 points compared to a week earlier. Mixed lots of mostly mikes 27 - 29 brought around 1200 points over 1979 loan, down 150 points, Dickson said.

Trading was slow most of the week as demand slackened. Growers had sold an estimated 75 to 80 percent of 1979's crop by the end of the week.

High Plains Cotton Division Offices graded about 27,000 samples in the week ended February 21. This brought this season's total to 2,428,000 had been classed by the same date last year.

Predominant grades for the week were grade 32 at 26 percent, grade 42 - 37 percent and grade 43 - 14 percent. About 11 percent of the samples were reduced one grade because of bark and two percent for grass.

Predominant staple were staple 30 - 29 percent, staple 31 - 41 percent and staple 32 - 19 percent.

Micronaire 30 - 32 accounted for 35 percent, 27 - 29 amounted to 39 percent while 26 and below was nine percent.

Modules stored in fields moved to gins slowly due to high winds and blowing dust most of the week.

Scanning Social Security

By JIM LATIMER

The Social Security Administration observed a very significant anniversary on Jan. 1, 1980, as that day marks the beginning of the second year that we have processed W-2, W-2P, and W-3 Forms instead of the Internal Revenue Service. Before this time, the Internal Revenue Service processed all of these forms and furnished the SSA with the information.

From the W-2 form we get information to credit wages to be posted to a worker's account. These postings are credited under the worker's name and social security number and are used at any time an application for disability, death, or retirement benefits is filed. The amount of benefits payable directly results from the credits received when the W-2 is posted to each individual's record.

Smile—It Won't Hurt Your Face!

a representative of the gin sign the card.

1979 Cotton Deficiency Payment --It has been announced that there will be no deficiency payment for the 1979 crop of Upland Cotton. The weighted average market price received by farmers during the calendar year for cotton has exceeded the target price of 57.7 cents per pound. The average price was based on cotton sold over the nation.

1980 Wheat --If you have wheat that failed come by the office before you plow it up. You need to sign the forms before you plow and then if Congress passes the extension of the disaster program you could be eligible for payment.

1980 Farm Program --As of this date Congress has not completed action on the disaster part of the farm program. Before the disaster part can continue an extension must pass Congress. Before the insurance type disaster program can go into effect Congress must take action. The rest of the farm program will continue without action by Congress. I will forward information about the disaster program as soon as I receive it.

Change in Farm Records --It is important to inform the office of changes of address and operator or owner changes so you will receive any information we mail about that farm. Your help will be appreciated.

Report of payments to Producers

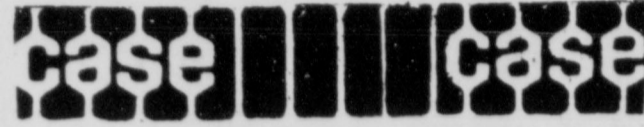

--The form sent to producers showing the amount of 1979 program payments reported to IRS have been mailed. The reverse of this form states that resale storage payments you may have received are not included in the amount shown on the farm. These payments are included in the amount shown.

Eligibility for participating in all programs administered by the ASCS is established under law without regard to race, color, creed, sex, or national origin.

On-farm tests proved it...

Lockett 77

\$42 more made per acre.

In 56 comparisons over the last three years, certified Lockett 77 from Pioneer produced an average gross income of \$309* per acre... giving it a \$42 per acre advantage over competitive varieties.

Why such an advantage? Outstanding seedling vigor with excellent cold tolerance and seedling disease escape help Lockett 77 make a good stand. Added to that are multiple disease tolerance, hardy plant characteristics, and early maturity... a combination that helps Lockett 77 deliver outstanding performance.

Farmers who've grown certified Lockett 77 are well pleased with results. Jack and Paul Hopper at Knott recorded a lint yield of 1,553 lbs./planted acre in 1979. Ben Roming at Lariat got 830 lbs./A. And over the last four years at Tell, Texas, Clinton Halford averaged 975 lbs. of lint per acre with certified Lockett 77.

Ask your ginner or Pioneer dealer to show you performance data for Lockett 77 from your area. Then order your share for 1980 planting.

Chamberettes Plan Spring Style Show

The Tahoka Chamber of Commerce, Women's Division met for a noon luncheon, Feb. 26 at the Tahoka Cafeteria.

New officers were elected. They are Nadine Dunlap, president; Genny Halford, vice president; Ann Roberts, secretary; Joy Brookshire, treasurer; and Virginia House, project chairman.

Plans were discussed for a Spring Style Show. Watch the Lynn County News for further details.

Decorations were discussed for the annual Tahoka Chamber of Commerce Banquet to be held March 6.

Tickets may be purchased from any chamber director or at the door.

Cub Scouts Hold Pinewood Derby

More than 150 Cub Scouts from Brownfield, Tahoka, Lamesa, Seminole, Denver City, Plains and Wellman are expected to race their "Pinewood Derby Cars" on March 22. Races and registration will begin at 9:15 a.m. at the National Guard Armory in Brownfield.

A Pinewood Derby is a model car race - the cars are built by Cub Scouts, with the help of their dads. The race is held on a 30 foot reclining track and all cars are built to exact specifications. According to Ben White of Brownfield, the 1980 Quannah Parker District Pinewood Derby Chairman, the event should be a fun filled day for boys, families and friends, as well as the general public. Trophies will be awarded to first, second, and third place in three age categories (eight year olds, nine year olds and ten year olds). A trophy will also be awarded in the consolation race.

For more information, contact your local Cub Scout Leader or White at 637-7442, or the Scout Service Center in Lubbock, at 747-2631.

Drug Abuse Prevention Is Area Campaign Goal

Gov. Bill Clements and the Drug Abuse Prevention Division of the Texas Department of Community Affairs has launched a new campaign against the state's drug problems that aims to involve people at all levels of society in Tahoka and all across Texas.

Drug Abuse Prevention Division Director Richard T. Spence says, "we want to avoid scapegoating...Drug

abuse is not just the problem of the user or the fault of his family. It is a problem to employers who may be losing valuable work hours and personnel, to friends who see valued relationships suffer, to children who see other family members abusing drugs or alcohol, to parents who see children suffering the effects of drug usage, and to society as a whole in the cost of lost productivity of its member. If each individ-

ual will ask himself or herself what he or she can do, then real progress will begin." Drug abuse figures show that the pattern of drug abuse in Texas is changing in some areas. Heroin has increased in price, become less readily available and the quality is very poor. As this has happened, narcotic addicts have turned to legally or illegally obtained synthetic narcotics, such as dilaudid.

In connection with the shift in abuse patterns, law enforcement agencies have noted a sharp increase in the theft of synthetic narcotics during the past two years. As price and popularity of these drugs increases, so does theft and burglary. At the same time, there has been an increase in polydrug abuse; that is, the use of a combination or variety of drugs. Polydrug users rely heavily on legally or illegally obtained prescription drugs such as sedatives, tranquilizers, barbiturates, synthetic narcotics, analgesics and amphetamines.

tionally abuse their... The problem of the abusers continues to be a major concern to Spence, the Drug Abuse Prevention Division. Young people the most susceptible introduction of through their peer networks. They spend hours a day outside homes in the company of their peers. Parents always quickly aware their children may be using drugs, and, all too often, the problem becomes before it is recognized. The abuse of inhalant becomes a real concern in Texas. Spence "young people are sniffing because it is difficult to obtain they are inexpensive they are accessible." Inhalant abusers are males. Inhalant abuse produce permanent damage.

SAFETY AWARD--(L-R) O.D. Hearn, Brownfield Division manager; Robert Gilmore, service facilities supervisor - installation and maintenance; W.C. Wells, Western Area vice president - general manager; and R.W. Britt, General Telephone Company of the Southwest president.

Although the patterns are changing, Spence believes that it is probable that there are not fewer drug abusers in Texas. "These shifts from one drug to another may be the result of pricing changes in the street, safety and even what is in vogue in the drug community."

While heroin use has declined, the abuse of methamphetamines has risen slightly. Methamphetamines, or speed, can be illegally manufactured and presents serious health and physical hazards to those who use them.

Indicator data suggest that there is an upswing in deaths and emergency room treatment of individuals combining different drugs or drugs and alcohol.

According to Spence, "we are seeing people who have not traditionally been associated in the public mind with drug abuse. That is, businessmen and women who abuse prescription drugs like tranquilizers, anti-depressants, and sedatives. These drugs, when combined with alcohol, can result in death."

Spence said elderly people who frequently take a variety of medicines may become dependent on them. They may inadvertently or inten-

we can show we care - for ourselves, our company and our customers. "Safe driving habits help ensure the employees' physical well-being as well as the well-being of those around them, and this is a primary concern," he said. "Plus, it is one way our employees can exercise cost control so we can continue to provide quality service at reasonable rates."

Telephone Safety Awards Presented

Brownfield Division employees of General Telephone have received the company's highest safety award for 1979.

General Telephone Company of the Southwest President R.W. Britt presented the President's Trophy to O.D. Hearn, Brownfield Division manager, during a recent awards ceremony at Brownfield.

The employees compiled the company's lowest composite accident rate in winning the award. They operated during 1979 without a lost time accident and with only one motor vehicle accident, driving 1,242,679 miles and working 293,925 hours.

Britt praised the group's effort, noting that observing safety in all aspects of operations is beneficial to employees as well as to the company.

Hearn also commended the Brownfield employees, noting that safety "is one way

Sherry Etheredge Says...

If you eat a good breakfast, you'll work and study better. Why not include a cup of old-fashioned cocoa to make breakfast a meal no one can refuse? To make four cups of the beverage, mix one-fourth cup each of cocoa and sugar with one-half cup of water. Bring to a boil and cook one minute, then add three and one-half cups of milk and one-half teaspoon vanilla. Heat to serving temperature, beating with rotary beater to make it frothy, thus keeping skin from forming on top. Serve with a fluff of whipped cream to make it irresistible. If you keep house carefully, you freeze any leftover cooked vegetables promptly after a meal. When you have one and one-half to two cups, add them to some thin white sauce for a delightful soup. Thin white sauce uses two tablespoons each of butter and flour with two cups of milk.

SWISS CUSTARD PIE

Pastry: 1 cup all purpose flour 1/4 teaspoon salt 3 tablespoons butter 3 tablespoons vegetable shortening 3 to 4 tablespoons milk Filling: 8 ounces sliced Swiss cheese 2 tablespoons minced onion 5 eggs, slightly beaten 1 3/4 cups milk 1/2 teaspoon salt 1/2 teaspoon nutmeg 1/8 teaspoon cayenne pepper

For pastry, combine flour and salt. Cut in butter and shortening until mixture resembles coarse crumbs. Sprinkle in milk, 1 tablespoon at a time, mixing until flour is moistened. Shape into a ball. Roll out on lightly floured surface to form a 13-inch circle. Fit into a 9-inch pie plate; flute edges. Preheat oven to 400 degrees F. For filling, cover bottom of pie pastry with Swiss cheese, overlapping slices. Sprinkle with onion. Combine eggs, milk and seasonings; blend thoroughly. Pour over cheese in pie shell. Bake 40 to 45 minutes or until knife inserted near center comes out clean. Let stand 10 to 15 minutes before serving. Serves 6.

Since the first GI Bill became effective in 1944, some 17.7 million veterans have taken some form of training under the Veterans Administration program, 7.5 million of whom served in the military during the Vietnam Era.

ACCORDING TO THE BIBLE

BIBLE Answers for BIBLE Questions
By DOUG CARTER

Question: How can we be sure there is a God?
Answer: (Part 3) The religious nature of mankind does not worship according to the truth; worship and a belief in deity is found throughout the generations. Only two alternatives are possible: (1) Man dreamed up the idea of God, or (2) there is a God! Man would never dream up the notion of worship if we would not want to give up our freedom and submit over all things to God... so the only explanation of concept of God came from is that there really must be a God. And so Paul the apostle declared in Athens that he determined and decreed that "they (men) should worship (Acts 17:27). We seek God and believe there must be a God because He created us and made us this way."

Another excellent argument for God's existence is argument. Everywhere in all cultures men and women are in a right and wrong. Where did morals come from the concept that some things are right and some things are wrong? There is a higher standard by which men are judged? Though other alternatives have been offered, only thoroughly reasonable explanation for this belief and wrong is that there is a God who determines what is right and wrong. He created mankind with this moral "oughtness" which makes the same argument in Romans 2:14,15.

Finally, we can know there is a God because He revealed Himself to mankind as the pages of the Bible give evidence.
