THE STATE ASSOCIATION.

President's Address-Delegates to
Denver-Harmony Talk.
Proceedings, Etc.

Special Correspondence LIVE STOCK JOURNAL
AUSTIN, TEX., January 12th 1886.
The association was called to order in the hall of the house of representatives this morning by Mr. John Simpson, president. He made a short talk as follows:

"It might be well to look back and see what the past year has been of good and evil to the stock interests; how it has affected these interests and what caused that effect. It is unnecessary to call attention to quarantine. All know its operations; it is unnecessary to say anything about the trail and its troubles, for you know all about that matter. I will only call attention to one thing and that is the want of friendly and united feeling among the stockmen of our state. I believe that the bickerings and prejudices, and I might say the want of real good business management upon our own part, has done us more real harm than all the quarantines that other states and territories have established against us. I believe that if the stockmen of Texas would unite for the common interests of the whole state, laying sectional prejudices and differences aside, all our troubles with regard to trails and quarantine would be done with. We had a meeting of the stockmen of the state at Dallas last spring, and the trouble then was as great as it ever can be again. That meeting was composed almost altogether of stockmen from the northern part of the state. There were only two or three southern stockmen present. In calling the convention to order I called attention to the fact that South Texas was not represented, and that it was part of the state and had as much right to representation and consideration as Northern Texas. At this convention I see there are a few men from North Texas here. There are nine out of ten from South Texas, but that ought not to make any difference. This is a state convention, and you cannot pass any resolutions against one section. Your action is for the entire state, and you should forget all sections, and should work for the common good of the entire live stock interests of Texas, as I believe was done at Dallas." [Applause.]

Will Lambert, secretary, called the roll of officers and members, when the following were found to be present: John N. Simpson, of Dallas, president; H. B. Stoddard of Bryan, first vice president; William F. North, of Austin, second vice-president; Jno. E. Lytle, of Lytle, third vice-president; Will Lam Austin, secretary; C. E. Anderson, of Austin, treasurer; F. M. Maddox, of Austin, sergeant-at-arms; G. W. Littlefield, of Austin, chairman of the executive committee, and Messrs. J. M. Day, of Austin, A. H. Pierce, of Galveston; Jno. T. Lytle, of Lytle; O. H. Nelson, of Clarendon; and L. M. Kerkemote, of Gonzales, members of the executive committee, and the following members: B. F. Buzard, of Uvalde; J. I. Clare, of Beville; C. Crosby, of Mason; C. F. Cade, of New Iberia, La.; S. P. Cunningham, Dr. A. E. Carothers, of San Antonio; W. L. Crawford, Austin; R. W. Crawford, Houston; A. L. Casparis, Round Mountain; J. W. Driskell, W. V. Driskell, J. J. Day, P. Day, Austin; Thos. F. Fisher, Galveston; W. L. Gatling, J. M. Gatling, Waco; D. W. Hinkle, M. Hall, San Antonio; John Hancock, Austin; W. B. Hamilton, San Antonio; Henry Jones, Corsicana; A. R. Johnson, Burnett; J. K. Johnson, Johnson City; L. M. Kerkenote, Gonzales; M. H. Kennedy, Glendale; W. H. Kyle, Victoria; C. W. Lewis, Mason; C. B. Lucas, W. J. Lott, Goliad; Charles G. Levi, Victoria; A. W. Moore, Bastrop; W. J. Moore, Galveston; E. Menielle, T. F. Mitchell, Austin; T. J. Moore, Click; Ike T. Pryor, Austin; A. H. Pierce, Galveston; J. H. Pressnell, Floresville; A. G. Terry, Round Mountain; W. A. Pease, Waco; A. P. Rachel, Corpus Christi; E. R. Rachel, San Antonio; C. M. Rogers, A. M. Robinson, Austin; W. B. Sayers, Gonzales; James W. Taylor, F. Scott, San Antonio; Henry Seligson; Galveston; F. J. Smith, James W. Taylor, R. M. Thompson, Austin; Sid Tuttle, Lenore; H. G. Williams, Austin; B. F. Youkam, San Antonio.

Secretary Lambert reported membership fees, dues and assessments collected \$968.85.
G. W. Littlefield, chairman, presented the executive committee's report. It narrates the work of the committee in regard to the pleuro-pneumonia scarce last year, the action of the committee on trail matters and the embarrassment of the committee in raising funds to pay expenses in these matters and agencies to counteract hostile efforts to legislate against Texas in Northwestern States. The report describes the condition of cattle last winter and the trade since in range stock. It recommends that the executive committee next spring keeps the members of the association posted about trails and quarantine, and the chances of getting Texas cattle to market; also that the constitution making Austin the permanent place for the annual conventions be changed to "each year they be put at a different place." The committee complimented Texas representatives in the National Stockmen's Convention, advertising to the change in the cattle industry by the practice of winter feeding. The committee expresses the conviction that the valleys of all Texas rivers should be devoted to raising feed for stock and become the great feeding ground for the cattle breeders of the state. Texas can compete with any country in feeding cattle. The committee notes that better feeling exists between cattlemen and farmers; mutual rights and interests are better respected as to leasing school lands. The committee recognizes the duty of users of land to pay for that use, and only ask the Land Board to act in a more business like manner; to place an adequate rate upon the lands, but one which

stockmen can afford to give. It recommends that a committee be appointed to investigate closely and fairly to reach a conclusion as to the interest of the state and the stockmen in leasing the land.

A letter from Dr. Salmon of the National Bureau of Animal Industry, was read. He cannot be present at the convention. He has sent Col. Cunningham here instructed to get information but not to commit the bureau to anything. Dr. Salmon writes that he has been pained to see local papers trying to show that the bureau is hostile to Texas interests. He admits that the bureau has been powerless to enforce regulations to protect Texas stock interests, but hopes to see protecting regulations enforced.

On motion the executive committee report was received and referred to standing committee—and routine business was transacted.

Afternoon session was opened by reading a letter announcing that Beeville and San Antonio would have a barbecue over railroad connection before April 1st and that cattle traffic would commence about that date. The Hon. John Hancock was invited to a seat on the stand with the president. Then the convention had a little talk about the Denver meeting and figuring on the basis of representation concluded that if Texas sent the full number of delegates the territory was entitled to a fair share at Denver would be the consequence and as the Texas Live Stock association had nothing against the city of Denver as a city or against the cityizens of Denver as citizens, they preferred not sending the full number of Texas delegates and would cut the number down to one hundred and eighty head, giving the delegation power to cut the number down still further if upon arrival at Denver it should appear that the representation sent would dwarf to insignificance the proper representation of other states and territories. Mr. Henry Seligson, of Galveston, spoke feelingly against anything like ostentation on the part of the great and wealthy states of Texas. He said that as Texas had always acted with the utmost consideration of the rights of others; the security of the outlet for Texas cattle now virtually conceded should be an additional reason for the Texas delegation to mingle with their friends of the North and assist them in the formation of an association that could voice the sentiments of the whole range industry. Mr. Seligson then, in speaking of the Panhandle Association eulogized Mr. Goodnight and his associates for not only establishing a trail on the east and north of the Panhandle, the Dallas trail—but for a second trail on the west which is well defined after reaching the Goodnight range, reaching northward to the end of the state lines and only needs a little more work on the south to bring it to the crossing of the Texas Pacific road where no restrictions are necessary. Thus said Mr. Seligson, Texas is a unit—walking hand in hand on the only subject it ever differed over and is prepared to face the Denver music without going in full force or with an ax to grind. Mr. S. even proposed to cut down the comptrollers report to only seven millions of cattle in order to decrease the representation from Texas.

Our reporter asks indulgence for not reporting Mr. Seligson in the elegant language of his oration but hopes that he has the substance correct.
Mr. Simpson supposed the basis of representation would be on the estimates of Mr. Nimmo, which gave the whole west 17,000,000 head of range cattle, and gave Texas 9,000,000 of that whole number. He supposed the same ratio would hold as to number of horses which would give Texas a clear majority. Mr. Simpson thought Texas would have a clear majority, and from expressions he heard in Colorado he was satisfied there is a friendly feeling for Texas and a disposition to do justice to all interests.

Mr. Buzard read from a report showing the correctness of the estimate made by Mr. Simpson.
Mr. G. A. Rogers thought Texas would have a majority at Denver, and though in our home conventions Texas cattlemen have sometimes divided up, when we send them out of the State they are united solidly for Texas interests. Take them from the South, North, and West Texas and send them to Denver, and they will stand together as one man and fight for the rights of the State if necessary.
A resolution by Col. S. P. Cunningham, provided for a delegation of seventy-five at Denver, was adopted as amended by North, fixing 100 as the number. Representation at the Chicago convention was then discussed. A resolution by Mr. Seligson was adopted, that thirteen delegates be appointed to Chicago, to pay their own expenses. This, in addition to three delegates at large, two to be appointed by the Governor and one the convention.

mean scrub stock; that class of stock never paid any one.

mean scrub stock; that class of stock never paid any one. It costs no more to raise a well-bred calf or colt or hog or any other animal than it does to raise a native or scrub. Then, when you have it raised, it is worth double what the scrub would be worth and is always salable.

GREATE

TEXAS LIVE STOCK JOURNAL Subscription \$2 per Annum. FORT WORTH.

MAINS OFFICE: TEXAS LIVE STOCK JOURNAL, FORT WORTH, TEX., Jan. 16, 1886.

The crop of calves last year in the state throughout was one-third to one-half short. The stockmen who drive from the South will drive less than usual.

In the next issue of the Texas Sittings will commence a novel entitled From the Chapparral to Wall Street. It is considered the best story of the kind that has ever been printed.

THE LIVE STOCK JOURNAL has at different times referred its readers to its legal, land and live stock agencies, now advertising in its columns, and we again call attention to the same.

Mr. J. W. CARTWRIGHT, our agent and traveling correspondent, will in a few days visit El Paso, and other prominent points along the Texas & Pacific railroad.

ATTENTION is invited to new advertisements appearing in this issue. Chas. Moran, Jr. of the Waco Farm association offers for sale the famous thoroughbred stallion Hospodar.

Mr. F. P. Forbis, of Beulah, Johnson county, says he can raise hogs and feed them as profitably here as in any state in the corn belt.

Mr. G. W. Angle was in Fort Worth during the week as usual on land business; he was busy and failed to make his usual friendly and appreciated call on the JOURNAL.

Mr. L. P. Forbis, of Beulah, Johnson county, says he can raise hogs and feed them as profitably here as in any state in the corn belt.

Mr. F. P. Forbis, of Beulah, Johnson county, says he can raise hogs and feed them as profitably here as in any state in the corn belt.

For a Week Texas experienced one of the long cold snaps unusual in this latitude. Unusual, because almost entirely unaccompanied with snow or sleet or any great unpleasantness, for ten days.

Panhandle there is no bad news; from Gainesville, the report is that stocks are doing finely; at El Paso the cold weather causes little remark.

FORT WORTH And General Range Notes.

Jerome Harris arrived from San Antonio and remained in town. Colonel Cunningham returned from the convention on Thursday evening.

Mr. Thorp Andrews has returned from the North, but will go again to the Denver meeting.

John Harris, of the United Trading company, Colorado City, passed on ward during the week.

Charles Moss and B. F. Moss of Carriza, Tapaca county, were visitors of the JOURNAL Saturday.

C. W. Merchant, of Abilene was at Pickwick Hotel Tuesday, en route to Dallas. Will go to Convention at Denver.

Mr. N. R. Powell has been North for the purpose of getting together the balance of the Hereford bulls sold to Mr. H. B. Sanborn.

E. F. Thrash of Auburn, Ellis county, was in town. He desires to put up a few hundred yearlings for the spring, and was looking around amongst the dealers about prices.

Mr. G. W. Angle was in Fort Worth during the week as usual on land business; he was busy and failed to make his usual friendly and appreciated call on the JOURNAL.

We have a letter from Tack Boaz dated Davenport, Iowa. He talks about sun dogs and such things, but the principal subject is cold weather.

Lenoir's Jacks, advertised in this issue are superior animals. "Black Satan" is a fine animal well known in this country where he has sold to show, the others are equally good stock.

F. B. Hopkins state agent of the Mutual Accident Association has an advertisement in the JOURNAL. Yearly dues for this class of insurance amount to very little. It is a good class of insurance to carry.

Mr. L. H. Akers, of Whitesboro, Grayson county, wishes to place five or six hundred head of Grayson and Collin county yearling steers for spring delivery or would put up a lot of mixed steers and heifers.

C. W. Merchant purchased of Jno. S. Powell & Co. 2 Galloway grade bulls. N. R. Powell is just back from Missouri, and has on the way a carload of jacks and jennets. The jacks will be sold from \$300 to \$600.

The old Cattle Exchange saloon is gone by the board, and A. J. Anderson, the gun man of Fort Worth, has fitted the building up in elegant style, and is ready to increase his large business in all lines of sporting goods.

I. N. Payne, of Mathis & Hutcheson Cattle company, ranching on open range in Troomorton county just down from the ranch; says cattle are in excellent condition, cold weather having done no perceptible damage.

Geo. A. Bassett a breeder, of blooded horses at Bedford, Taylor county, Iowa, stopped over Monday and Tuesday at J. T. Wilkes stable to rest his stock of fine blooded stock, black Norman stallions, en route to buyers in San Antonio.

The feeders are looking towards the New Orleans market. There the prices are controlled by the supply. Late advice is to the effect that the outlook is promising and Texas and Western beeves quotable at 4 cents and above.

F. M. Houts, of Hereford ranch, DeCATUR, returned home on Friday, and reports 23 head of pure bred and registered Hereford cattle to follow from Fowler & Van Natta, Fowler, Indiana. Mr. Houts is very well pleased with the purchase.

Messrs. Wilson and Cotnam are feeding 400 steers and 380 hogs near Hillsboro. Mr. Wilson who was in the Fort recently reported cattle and hogs doing unusually well and fattening fast. He also renewed his subscription to the JOURNAL.

Mr. J. G. Taylor, of Burlington, Kansas, arrived in town on Wednesday with a carload of Hereford grade bulls which he claims to be the best ever brought to Fort Worth. The bulls are with Messrs. A. F. Truitt & Co. in the city yards.

Mr. A. H. Peacock, of Fort Worth, breeder of Jersey Red Hogs sold to Jack Esterly of Grapevine, Texas, one aged boar for \$50 one sow for \$30 and gilt at \$15. Mr. Peacock is now importing a selection of the best hogs of this breed to improve his stock.

N. I. Powell of J. S. Powell & Co. returned from the land of his youth, Missouri, whether he and T. T. D. Andrews had been to purchase 60 head of Hereford Bulls for the fine stock farm of H. B. Sanborn near Whitesboro. While there they bought for J. T. Stovall 150 fine Hereford bulls.

J. S. Powell & Co. have sold quite a lot of Hereford bulls both Texas and Northern raised. Also some fancy Polled Angus and Holstein. Last week they received from Bates county, Missouri. One carload of fancy Durham's mostly 2 years old; they will exchange a few for young steers.

J. A. Montgomery of Bells, Grayson county, was in town Tuesday, just down from Greer and Wichita country. He was on the range during the late storm and says that it did no damage. Mr. Montgomery reports cattle on the range in better fix than he has ever seen them at this time of year.

A telegram from Mr. Ike Dahlman from New York was to the effect that he had received a cable from the English company that they would make final arrangements next week. Mr. Dahlman is anxiously looked for by his friends here, but all agree that it is best to have matters fixed for permanent work before opening the refrigerator.

M. O. Lynn, of Palo Pinto, having recently purchased 42,000 acres in Haskell county where his cattle are, has now a handsome and well watered range of 75,000 acres. Many of the hills with ample cattle to stock it makes him one of the solid single owners of land and stock in Texas. Mr. Lynn was in Fort Worth a day or two since and said he would drive a few thousand cattle in he sold them.

A letter from the firm states that Campbell, Lancaster & Co., and Andy J. Snider & Co., of Kansas City, have consolidated under the firm name of James H. Campbell & Co. Messrs. Lancaster & Snider retiring from their respective firms. The firm will do business at Chicago, St. Louis and Kansas City. Mr. J. H. Campbell, head of the firm, makes a periodical trip through Texas where he is very popular.

Mr. O. H. Nelson called on the way from the Panhandle to Austin. His firm, Finch, Lord & Nelson, of Burlington, Kansas, are prominent breeders and have sold many carloads of bulls to Texas parties for range purposes and recently sold five hundred head to the Matador company. The firm ranch in the Panhandle is stocked with blooded cattle and will become one of the largest permanent breeding farms in the state.

Mr. J. G. Johns, of Dallas returned from a trip to Kansas city and reports a grand boom there. Eastern capitalists double and triple millionaires having purchased largely of real estate. He conversed with many prominent gentlemen there who expressed their willingness to assist in railroad construction into the Texas Panhandle and to give Texas another outlet and close connection with the great city of the northwest. Texas wants these connections badly for there is a vast amount of rich and undeveloped country only supplied by ranch and small hill trains. It is time something was waking to the importance of the Texas trade but with all due deference to the alleged enterprise of Kansas City, Texas has waited a long time and expects to fill the gap herself.

THE STATE ASSOCIATION. Continued from First Page. The transportation committee then reported a better condition of railway facilities and improvement in rates.

The finance committee then reported that in a small way the association was in St. Louis fix—and Major Sayers, of Gonzales proposed to clean it up but as it developed that more were coming and some has not paid up assessments, to lay the matter over until Tuesday. The convention at the instance of Mr. Austin Robinson then passed a resolution endorsing the basis of representation at Denver. The Association then adjourned.

Advised, Tex., Jan. 13.—The Texas Live Stock association met at 10 a. m. A telegram was read from Denver, Col., from H. M. Taylor, saying that the cattle associations in the range country will send a full delegation to the Denver meeting, one delegate to every 60,000 head of cattle.

James F. Scott, chairman of the committee on protection of stock, reports a continued decrease of the deprecations on cattle, and that the laws, properly administered, afforded ample protection.

Mr. Henry Seeliger, for the committee on public lands, submitted the following: At St. Louis, Jan. 13, 1886.—To Hon. John N. Simpson, President Texas Live Stock Association: Sir—Your committee appointed on public lands, after due consideration of the subject, beg leave to report as follows:

INVESTIGATION OF DOCTOR PRENTICE.

The Specialist of Eye, Ear and Chronic Diseases, Who is Doing Business at the Hotel Pickwick, Fort Worth.

The president of the State Board of Health Dr. J. C. Anderson determined to ascertain for himself and the good of humanity if the reports concerning Dr. Prentice were true.

So accompanied by a number of physicians he went to Dr. Prentice's office. He says "I was simply astounded; in 30 minutes Dr. Prentice straightened eleven cross eyes. Not a moan or cry of pain was heard. Each case took the Dr. no more than a minute. He is a wonder. I cannot say too much of Dr. Prentice as a gentleman and thorough physician. We as a profession look upon Catarth as incurable. But I am convinced that Dr. Prentice can cure any case. I am acquainted with many that his treatment has snatched from the grave."

Dr. J. M. ANDERSON, Pres. State Board of Surgery. Mansfield, Ohio.

Two Blind Sisters. Dr. Prentice, the oculist, who has done a great deal of skillful work in our city, is now in Lima again, for a few days before leaving for Europe for his wife's health.

Forever cured, in one treatment, without using the knife, caustics, or any burning, ligature or crushing. Suffering is relieved at once, and the disease cured for all time in just one treatment.

NEW ORLEANS, Oct. 23, 1884. To those afflicted with Catarth: I had the disease myself for many years, which has made not only my life disagreeable to myself but those who were around me, so I made up my mind to seek the Sunny South, after being advised to do so by doctors of the North, who had given me up and said there was no other hope for me except to get in a mild climate.

After I arrived here and found no relief for about six months, I went to Dr. Prentice, of 18 Dryades St., who treated me for about two months, I had relief at once, and at the end of two months I was totally restored and felt a new man. The doctor then asked me to give him a testimonial. I refused, as I thought the relief was only temporary. Now he has returned from Europe, and I am totally cured and well satisfied that the disease will not return, and I give this testimonial cheerfully and recommend all that are afflicted to visit the doctor immediately.

Now he has returned from Europe, and I am totally cured and well satisfied that the disease will not return, and I give this testimonial cheerfully and recommend all that are afflicted to visit the doctor immediately.

NEW ORLEANS, Oct. 23, 1884. To those afflicted with Catarth: I had the disease myself for many years, which has made not only my life disagreeable to myself but those who were around me, so I made up my mind to seek the Sunny South, after being advised to do so by doctors of the North, who had given me up and said there was no other hope for me except to get in a mild climate.

After I arrived here and found no relief for about six months, I went to Dr. Prentice, of 18 Dryades St., who treated me for about two months, I had relief at once, and at the end of two months I was totally restored and felt a new man. The doctor then asked me to give him a testimonial. I refused, as I thought the relief was only temporary. Now he has returned from Europe, and I am totally cured and well satisfied that the disease will not return, and I give this testimonial cheerfully and recommend all that are afflicted to visit the doctor immediately.

INVESTIGATION OF DOCTOR PRENTICE.

The Specialist of Eye, Ear and Chronic Diseases, Who is Doing Business at the Hotel Pickwick, Fort Worth.

The president of the State Board of Health Dr. J. C. Anderson determined to ascertain for himself and the good of humanity if the reports concerning Dr. Prentice were true.

So accompanied by a number of physicians he went to Dr. Prentice's office. He says "I was simply astounded; in 30 minutes Dr. Prentice straightened eleven cross eyes. Not a moan or cry of pain was heard. Each case took the Dr. no more than a minute. He is a wonder. I cannot say too much of Dr. Prentice as a gentleman and thorough physician. We as a profession look upon Catarth as incurable. But I am convinced that Dr. Prentice can cure any case. I am acquainted with many that his treatment has snatched from the grave."

Dr. J. M. ANDERSON, Pres. State Board of Surgery. Mansfield, Ohio.

Two Blind Sisters. Dr. Prentice, the oculist, who has done a great deal of skillful work in our city, is now in Lima again, for a few days before leaving for Europe for his wife's health.

Forever cured, in one treatment, without using the knife, caustics, or any burning, ligature or crushing. Suffering is relieved at once, and the disease cured for all time in just one treatment.

NEW ORLEANS, Oct. 23, 1884. To those afflicted with Catarth: I had the disease myself for many years, which has made not only my life disagreeable to myself but those who were around me, so I made up my mind to seek the Sunny South, after being advised to do so by doctors of the North, who had given me up and said there was no other hope for me except to get in a mild climate.

BRANCH OFFICE. TEXAS LIVE STOCK JOURNAL. Office 707 Main Street. W. A. Garner, Business Manager. Frank Powell, Correspondent. DALLAS, TEXAS, Jan. 15, 1886.

Delegates to Denver.

The following delegates were appointed Friday by the Northwest Texas Cattle Raisers association to attend the Denver meeting: W. R. Curtis, T. J. Atkinson, W. S. Ikard, J. M. Lindsay, W. F. Lewis, S. B. Burnett, J. N. Simpson, A. P. Bush, E. C. Seng, C. C. Slaughter, L. B. Collins, E. F. Kcard, W. A. Garner, C. E. Odem, J. P. Smith, A. P. Belcher, J. C. Loving and Frank Powell. Extensive arrangements are making for Dallas to be the starting point for the Denver convention, all going are to meet there and leave Monday 23rd via Kansas City. Three sleepers are contracted for; the round trip to Denver and return will cost about \$38. Full particulars can be had by addressing J. G. Johns at Dallas.

Big Sales.

The unusual quietude in stock circles was broken Saturday in this city by the announcement that Mr. Geo. H. Goddard of the Valley National bank, St. Louis, had disposed of his entire ranch properties on the Pecos, consisting of 16,000 head of cattle with all ranch equipments, Mr. Jno. N. Simpson of this city being individually the purchaser. The price paid is one of the mysteries of the transaction, in that neither of the parties to the trade has permitted himself to speak, though severely asked to unbosom on that particular point by the JOURNAL representative, believing that actual figures made by these leading lights of the range would be carefully noted by the many readers of the JOURNAL. It is current, however, that the figures were moderately low for it is stated on good authority that within 30 minutes after the verbal agreement had been reached an advanced offer of \$7,500 was tendered and it is within the limit, almost of a certainty that it would have been run up to \$15,000 and perhaps \$20,000; but Mr. Goddard said "No! my word is out and no amount of money would interfere with the terms as agreed upon with Mr. Simpson." The purchase aggregates over a quarter of a million dollars.

Mr. Goddard's work in the stock business in Texas, reaches back over a period of about four years, commencing by a purchase from the Carter Bros. of 6,500 head at \$15 which he soon afterwards increased with a purchase of 3,900 well improved cattle, costing \$28 per head. In round numbers, the plant or basis of his ranch properties cost him \$181,000 exclusive of equipments. At the conclusion of his operations he finds an increase in his herd

of 6,500 head besides the beeves sold out.

The cattle are run upon range fronting on the Pecos, and leased from the railroad and the state in a solid body. The cattle are so situated as to require less work to round, gather and brand, than is usually the case. The herd will turn out considerable beef next spring. Mr. Goddard sold at considerably less money per head than he paid. He also paid for his range before such payments were the fashion, he gave a ranch manager a liberal working interest, which he afterwards bought out at a high price, and yet it facts were all known Mr. Goddard realized his invested capital and has made liberal interest on his money for each year he ranked among the cattle men of western Texas.

Simultaneous with this ripple along the line, comes the news of Mr. Simpson's disconnection with the Exchange bank, disposing of all of his stock, consisting of 309 shares to Mr. Royal A. Ferris, the present cashier of that institution. Mr. Goddard left for St. Louis Wednesday morning, and disclaims any truth in the published report that he carries his hands with him. Judging from the apparent confidence he has in Texas investments and our business men, generally, it is fair to say that he left, to say the least, the great bulk of his accumulation invested in Texas.

SCOTT'S EMULSION OF PURE Cod Liver Oil, With Hypophosphites.

In Scrofulous and Consumptive Cases. Dr. C. C. Lockwood, New York, says: "I have frequently prescribed Scott's Emulsion, and regard it as a valuable preparation in scrofulous and consumptive cases, palatable and efficacious."

DALLAS DOTS.

Chas. W. Rice, a young stockman from Plano was registered at the Grand Windsor this week. He reports quite a number of cattle being led there and that the spirit of improvement runs high.

It is "officially" announced here that "Jim" Simpson of the Aztec Cattle Company, Arizona, will be married this p. m. (Thursday) to Miss Betty, the accomplished daughter of Mr. and Mrs. A. J. Hood, of Weatherford. It is since announced that he has done so.

Messrs. Gano Bros. of the Estado Land and Cattle Co. purchased Saturday from a McKinney breeder, 25 head of Hereford bulls which they will ship shortly to their ranch in Presidio county. These gentlemen are improving their native stock by the introduction of Hereford and Shorthorn bulls and their experience and observation in the furtherance of their chosen work, warrants an outcome worth the having.

J. S. Hamm, a prominent stockman of Wills Point, was registered at the Live Stock Exchange Tuesday. He has large interests in Greer county on the North Fork of Red river—the disputed territory. He says a great many squatters have recently located there

and that the recent heavy influx of cattle have not visibly lessened. It is not necessary to say that Mr. Hamm is about to make a deal—coming events cast their shadows before. He returned to his first love—the LIVE STOCK JOURNAL, which item is sufficient of itself to warrant that much of genuine happiness is in store for him.

C. Whitehead, of Greenville, is at the Grand Windsor. He returned recently from the Cedar Grove ranch, Grant county, New Mexico, where he went to make a delivery of cattle. His conception as to the feeling of the stockmen in that state on the quarantine against Texas, have been materially modified by close business relationship with them and says they are unanimously in favor of suppressing the unsavory measure. He reconciled its existence and further tolerance, only upon the ground, that the old parent citizenship of the country do not take to the new order of things, and look with a degree of suspicion upon the grazing of the lands. He says grass and water are fine and that he will shortly make a delivery of cattle which will be followed up by other shipments.

Grand Jury Work.

Attorney W. A. Ledbetter of Gainesville is in the city and was met by a JOURNAL reporter at the Windsor. He is just in from the Panhandle, Donley county, where he appeared in the district court, Tuesday at Clarendon in the interest of the Red River Cattle company, defendants in a suit brought by Alfred Sulley, a New York capitalist and who owns extensive land and cattle interests in Donley and Gray counties. It appears that the Red River Cattle company sold to Mr. Sulley in 1883 several thousand head of cattle with the guarantee that a stipulated number should be shown up on the range. It was a mixed or stock lot and the price agreed upon was \$22.50, but Mr. Sulley set forth in his petition that the terms of the purchase were in no plausible measure complied with and by way of response to the failure of the agreement, he asks damages to the amount of \$38,000 and appeals to the judicial powers to see that he is not lacking in a return that will make good the default. The case embodies varied and sundry features and will furnish the basis for a warm exhibition of legal thunder. The case has been removed to the Federal court in this city.

Mr. Ledbetter also informs our reporter of some new and interesting features in the development of the work of the grand jury in session at Clarendon. It is a well understood fact that the illegal fencing of lands in the state and more especially in West and Northwest Texas has been a vexed problem for solution for some time and to break it up has seemingly been next to impossible. Donley and attached counties have been no exception to the rule and the grand jury having the statutory demands before them and the fever of the Lord, perhaps, in their hearts, went bravely to work, to make a clean sweep of everything that bore the least semblance of crookedness, and up to Saturday last, over two-thirds of the members of the grand jury found themselves indicted at their own hands. As many as eight bills have been found against Charles Goodnight, foreman. The body was composed entirely or

CAMBRIA LINK BARB WIRE. The Best Wire for Fencing in the World for the Following Reasons. 1st. It is a perfect chain with barbs which is the correct principle for a wire fence. 2d. It is perfectly rust proof being galvanized. 3d. Does not infringe on any fence wire patent. Dealers and consumers can buy it with the utmost confidence that they are protected by law and right. 4th. It makes a more visible fence than the ordinary twisted wire. 5th. The barb cannot slip or come off as it is a part of the link itself. 6th. It is portable, can be taken down and reeled up for transportation without tension. 7th. It is the easiest and quickest to erect and the handsomest. 8th. It can be stretched by hand to a perfectly straight line. 9th. Does not have the life pulled out of it by stretchers and teams to get it straight and free from kinks. 10th. Gates can be made anywhere in the fence without injury to the wire by binding or kinking. 11th. Barb is same size as wire not smaller. 12th. When unloading from the spool it comes off like a chain, perfectly straight, and does not kink and fly about, and is not unpleasant to handle. Address all orders and communications to B. F. Avery & Sons, (Plow Manufacturers), State Agents, Office and Sample Rooms 723 Main Street, Dallas Texas. Postoffice Box C.

SANCER BROTHERS. EXTRAORDINARY AND UNPARALLELED Grand Midwinter Clearing Sale.

Our motto is to positively close out the stock of one season before opening that of another. The proper time to force the sale of goods is in the season, and the proper way to do it is marking down the prices; hence we have MARKED DOWN WINTER GOODS IN JANUARY. We can afford to do this. When we inventoried our present winter stock, we cut into the values, and the result showed that on account of our very large sales in 1885, we made enough money to let all remaining goods go without profit. EVERY ITEM IS A GENUINE REDUCTION. READ THE PRICES. COME AND SEE THE GOODS WE OFFER

SANCER BROTHERS, DALLAS. SANCER BROTHERS, DALLAS. SANCER BROTHERS, DALLAS.
