To Young and Middle-Aged Men.

A SURE CURE.

The awful effect of early vice, which brings organic weakness, destroying both mind and body, with its dire ills,

PERMANENTLY CURED.

Palpitation of the heart, timidity, trembling, nervous discharges, so much to be feared, forgetfulness, lack of ideas, sadness of spirits, ugly imaginings, dislike to social life, and brooding melancholy.

Married Men, or those entering on that happy life, aware of physical debility, excitability of the nerves, organic diminution, or other irregularities, quickly assisted.

No Minerals Used.--Young people losing their health and spending time with those unskilled and unqualified, causing fatal disorders so the head, throat, nose, liver and lungs, stomach and bowels, speedily cured.

Let not false modesty deter you from calling at once on

DR. WASSERZUG,

Consulting Rooms 734 Elm St., Dallas, Tex
Office hours from 8 a. m. to 9 p. m.

All Private Matters Cured.

Prompt attention is given to all correspondence. State symptoms and medicine will be sent C. O. D. everywhere. Dr. Wasserzug is a regular graduate of 15 years' practice. Diplomas in office. Two years residence in Dallas.

Capital \$2,000,000,

Corner Austin and Commerce sts.,

DALLAS - - - TEXAS.

We make a specialty of large Ranch Loans.

SHORTHORNS & HAMBLETONIANS

Hambletonian stallions colts from New York mares, sired by Dictator Jr. He by Dictator sire Jay-Eye-See and Phallas. These colts are one to three years old and raised in Parker county.

High-grade ones, twos and three year-old Shorthorn bulls, Texas raised from Registered sires and selected dams. Prices reasonable. J. B. BOWNE, Weatherford, Tex.

MY FINE STOCK FARM FOR SALE.

2400 acres in a solid body, about four miles west of Fort Worth; 100 acres in cultivation, 4500 suitable for cultivation; balance of the tract fine grass land. Improvements good: 3 houses, 3 wells, wind mill, fences, barns, corrals, etc. Water plentiful. For sale on easy terms and cheap. Write to or see TOBE JOHNSON, Fort Worth, Texas.

Saddle Horses, Mares and Stock Horses.

We have been appointed agents of the well-known Northwest Texas Horse company's horses, and have for sale: 4000 to 5000 stock horses, 1500 to 2000 mares, 400 to 700 saddle horses, 200 to 250 broke saddle horses. This stock of horses have been located in Northwest Texas for from 10 to 15 years, and they are all natives of this section. There are no better horses raised in Texas, as they are free from Mexican or Spanish blood and combine all the qualities to be found in a stock that has been bred up for years. J. N. Simpson of Dallas, W. R. Moore, G. T. Reynolds and R. E. McNulty of Albany, as well as many others, have purchased from this stock, and they know their superior quality. Those desirous of buying can see this stock by coming to Albany, Texas, when we will be pleased to show them. We offer them at rock-bottom prices. Write or call on WEBB, CAMPBELL & HILL, Albany, Texas.

THREE PASTURES FOR LEASE.

Three pastures, known as the Adams & Wickes, containing respectively 2800, 800 and 4000 acres, situated on the Leon and Medina, in Bexar county, from 7 to 10 miles southwest of San Antonio, well fenced, watered and good grass, leased by the year. Good pens in each pasture for cutting and sorting stock. For terms apply to HENRY LAAGER, Adams & Wickes Building, Alamo Plaza, San Antonio, Texas.

ONE OF THE BEST FARMS IN TARRANT COUNTY.

I offer for sale my farm, 7 miles south of Fort Worth, on reasonable terms and at low price. Solid body of 700 acres, all splendid agricultural land; 250 acres in wheat and oats. Good improvements, plenty living water on the place. The land lies level and in good shape to cultivate, and is one of the best farms in Tarrant county. Address or call on TOBE JOHNSON, Fort Worth, Texas.

FOR SALE.

300 head of extra good Texas-raised rams, ages from 1 to 3 years; shearing quality can't be excelled. Also, 100 head of imported rams and 6000 head of good young Merino ewes. Address, HOWARD BLAND, Fairview Ranch, Taylor, Texas.

Land and Cattle.

I want to trade land in Williamson, Burnett, Lampasas, Hamilton, Hays, Rusk, Haskell and Wise counties for steer cattle. Tracts run from 160 to 900 acres. R. A. SMITH, Ballinger, Runnels county, Texas.

LARGE MERINO RAMS FOR SALE

At Oakland Farm, East Bethany, N. Y. Merino rams, great, big, strong, plain two-year-olds, at almost mutton prices. These rams we will sell delivered at any railroad station in the United States. Write for particulars. GEO. A. & R. I. PAGE.

FOR SALE OR EXCHANGE.

CHEAP LANDS FOR SALE.

Situated in Clay, Archer, Jack and Young counties, in tracts from 320 to 5000 acres, suitable for farming and grazing purposes. Small cash payment, balance on LONG TIME and LOW RATE OF INTEREST. Address, C. E. WELLESLEY, Dallas, Texas, or J. J. CHITWOOD, Antelope, Jack county, Texas, Who will show the land.

HOLSTEINS FOR SALE.

J. A. Vance, Formosa, Ills., 18 miles from St. Louis, offers for 60 days his splendid little herd of Holstein cattle, 15 head. They have taken premiums over some of the best herds of America, at St. Louis and elsewhere. Write him for catalogue.

DIAMONDS.

Raymond Gregg, Diamond Broker, Equitable building, 6th and Locust streets, St. Louis, Mo., also makes a specialty of

FINE WATCHES.

Rubies, Emeralds, Sapphires and Pearls; also repairs fine American and foreign watches. Will be pleased to communicate with stockmen and their ladies.

J. R. JETER,

Land, Loan and Investment Agt.

Fort Worth, Texas, has for sale: No. 1. 45,000 acres solid body in Wheeler county, Texas, within 12 miles of Kansas Southern railroad, and near where the Frisco line will enter the Panhandle. This is a fine body of land and can be had on easy terms. Price \$2.50 per acre.

No. 2. 10,000 acres in Clay county, on line of Fort Worth & Denver railroad. Well sell in bulk or divide it to suit purchaser. Price in bulk, \$3.50 per acre. Terms to suit.

No. 3. 17,654 acres from 1/2 to 10 miles north of Henrietta, in several tracts. Watered by Little Wichita, Turkey creek and five tanks. One of the best ranches in the county; all under fence and cross fences; some timber. \$3.85 per acre. Sold in one body, \$10,000 cash, balance on long time. About 3000 acres fine bottom land that can be sold in small bodies.

No. 4. 631,360 acres of fine ranch land in the state of Coahuila, Mexico, fronting about 70 miles on the Rio Grande and within 20 miles of the Southern Pacific railroad. Perfect title. Price 25 cents per acre.

No. 5. 21,000 acres timbered land in Walker, San Jacinto and Montgomery counties. Price \$1.50 per acre.

Also, a large quantity of other farm, ranch and timbered lands.

REAL ESTATE.

We control extensive lists of city and suburban property, farms and ranches, also large tracts of grazing and agricultural lands in Western Texas and the Pandangle.

We offer immense bodies of grazing lands in New Mexico, Arizona and Old Mexico at very low figures.

We make a specialty of exchanging real estate or merchandise and have effected many large trades of that kind to the satisfaction of our customers.

We are doing a live business, and being in the lead intend to maintain our position by prompt attention to business and fair and courteous treatment of customers.

We are always in a position to offer real bargains to both speculators and investors, and cordially invite such to call on or correspond with us.

MORPHY & HICKEY,

304 Main St., FORT WORTH.

ST. LOUIS.

Special to the Live Stock Journal.

St. LOUIS, Sept. 16.—With unfavorable reports from other points and liberal run here prices on Texas and Indian cattle are fully 10 cents per 100 lbs lower to-day. Fair to good and heavy cattle sell well enough, but thin cattle dull at very low prices. Sales were at \$2.50@3 for Texas steers; \$2.70@3.50 for Indians, and \$1.60@2.10 for mixed stuff and cows. Thin and scalawags \$1.25@1.50.

Sheep in fair supply. Good 90-lb Texas sheep brought from \$3.50@3.75; heavy at sheep would bring more.

Sheared Texans are now coming in. Sales of 60 to 65-lb Texas sheared sheep brought from \$2.40@2.70 per 100 pounds.

KANSAS CITY.

Special to the Live Stock Journal.

KANSAS CITY, Sept. 16.—Official receipts first three days of the week 13,115 head. Quality mostly common. Values on best grass range 15c lower than last week. Common and thin stuff a drug on the market and hard to sell, except at ruinous prices. Only tops should be run at present.

NOTE.—We are obliged to go to press with only part of the Kansas City market report on account of delayed telegram.—Ed.

NEW ORLEANS.

Special to the Live Stock Journal.

NEW-ORLEANS, Sept. 16.—The only improvement to note in the condition of the market is in good fat beeves and fat yearlings. Good fat beeves in light supply and in demand. Common to fair beeves and cows continue in full supply, and prices low. Calves in very large supply, with prices low. Poor stock hard to sell. Yearlings in moderate supply. Good stock in fair request and prices steady. No change in condition of sheep market. Supply large and no demand. There is an ample supply of hogs, and market quiet.

QUOTATIONS.—Choice fat beeves, 3 to 3½c; common to fair, 2 to 2½c; good cows, \$10 to \$16; calves, \$4 to \$7; yearlings, \$7 to \$10; good cornfed hogs, 5 to 5½c; good fat sheep, \$1.50 to \$2.50 each.

SAN ANTONIO.

The local beef market continues very fair under the circumstances and time of year. It has been quite bare of calves, and good fat cows sell readily at quotations. But the warning to ranchmen not to rush in without first consulting some responsible commission firm must be repeated.

CATTLE—Steers, shippers, \$1.90@2.00; butchers, \$14@17.50 per head; cows, fat, from \$10@14; thin, at \$8@11. Yearlings, \$5@6.50. Calves, \$3@4.50.

SHEEP—Muttons, \$1.80@2.00.

DALLAS.

At the cattle yards exchange there is a good supply of butcher stuff; fat cows 1½@1¾c, with the market overstocked. There are very few steers and substantially no demand for feeders.

Hogs—5@5½c and very scarce, and, indeed, none on the market.

SHEEP—2½@3c.
GOATS—At \$1@1.50 with full yards.
Milk cows are in active demand, bringing good prices. There have been no shipments out of the state during the week.

GALVESTON.

[Reported by Z. T. Winfree & Co.]

CATTLE—Choice beeves 2@2¼c; inferior \$12@14; cows, ditto 1¾@2c; inferior \$8@10; calves choice 2@2¼c; inferior 1¾@2c.

SHEEP—Choice 2½@3c; inferior 2@2¼c.

Hogs—Corn-fed 5½@6c.

Stock in pens Tuesday, Sept. 13, '87:

Cows and beeves 123; calves and yearlings 125; sheep 234; hogs 63.

Market fairly supplied with all classes of stock with fairly active demand at quotations for the better grades. Inferior stock dull sale, and hard to dispose of at any price. We advise shippers to send only good stock to market as inferior stock depresses the market and keeps down prices of good stock.

FORT WORTH.

CATTLE—Steers, 2 cents for good fat steers; cows 1½c; calves sell at \$4@6 each.

Hogs—3½ to 4c per lb.; not much demand.

SHEEP—From 2@2¼c according to quality.

CHICAGO MARKET LETTER.

Salesmen Hoping—Prices Picking up—Poor Stuff from Texas.

U. S. YARDS, CHICAGO, ILL., Sept. 12, '87.

Regular—Correspondence Texas Live Stock Journal.

The receipts to-day were 7000 cattle, 13,400 hogs and 5500 sheep. The supply of cattle to-day was 5000 less than Monday, and salesmen began to take hope. The run of 50,000 last week, coming on the heels of the tremendous big runs, caused the market for all common stock to flatten out in a way that was discouraging, but a better feeling developed before the end of the week, and to-day prices were 10c higher on all desirable kinds of stock.

Quotations for Texas cattle are: Inferior to fair steers, \$2.25 to \$2.50; medium to good, \$2.75 to \$3; choice, \$3.20 to \$3.50; cows, \$1.50 to \$2.25; bulls \$1.50 to \$1.95.

The native cattle market has lately been a bad one on common stock, but prices are now picking up and the very best native beeves lately sold at \$5.40, as high as at any time lately. There will be no trouble about good prices for good cattle, and the general supplies are decreasing. Large receipts of range cattle and small receipts of native cattle are looked for this week.

Among the cattle sales were the following: James H. Campbell & Co. sold for Klopfer, 97 Indians, average 1014 lbs. at \$3.45; for Groves, 51 cows, 713 lbs, \$2 10; for McClure, 72, average 928 lbs, \$2.65; 23, average 1036 lbs, \$3.50; 64, average 1009 lbs, \$3.40; 26, average 808 lbs, \$3; and 21 bulls, 1072 lbs. at \$1.65.

Lee & Dunham sold for Towers the following trashy cows and mixed Texas cattle: 27, average 906, \$2.20; 24, average 803, \$2; 30, 713, \$2; 24, 824, \$1.70; 29, average 694, \$1.45.

Hunter, Evans & Co. sold for J. F. Harris, 51 steers, 841 lbs. at \$2.50; 15 cows, 884 lbs, \$2.35; 10 bulls, 1049 lbs, \$1.50; for Wells, 26 cows, 797 lbs, \$2; 32 cows, 730 lbs, \$1.50; Day Bros., 105 steers, 1037 lbs, \$3.10; 37, average 1201 lbs, \$3.10; for A. J. & C. P. Day, 160, average 1095 lbs, \$2.90.

Greer, Mills & Co. sold for J. J. Hoffman, 24 cows, 803 lbs. at \$2.15.

Paxson, Shattuck & Co. sold for B. G. Anderson, 24 steers, 952 lbs, \$2.90; 80, average 782 lbs, \$2.65; for Merchant &

Co., 19, average 863 lbs, \$2.60; 120, average 817 lbs, \$2.55; for G. W. Cotter, 27 steers, 789 lbs, \$2.40; for Collins & M., 309, average 873 lbs, \$2.25; 25 stags, 1096 lbs, \$1.50. Gregory, Cooley & Co. sold for J. A. Brakebill on Saturday, 414 sheep, 90 lbs. at \$3.95; to-day, 241 sheep, 90 lbs. at \$4.20. These were not only the finest Texas sheep, but the finest sheep of any kind on the market to day. They also sold 592 head of 84-lb. sheep for Wammel at \$3.75; for G. Greathouse, 125 steers, 943 lbs, \$2.70; 45 cows, 755, \$2; G. W. Gill, 32 steers, 910, \$2.70; 43, average 917, \$2.70; W. Rush, 126 steers, 880 lbs, \$2.70.

Lots of common Texas cows, bulls and stags are coming from Texas. It would be well to go a bit slow on this kind of stuff, as prices for them are extremely low.

Send along the good cattle and good sheep as fast as they can be got ready.

A. C. HALLIWELL.

San Antonio Wool Market.

The fall wool market is now at hand. Receipts are beginning to come in lively, and some 1000 bags are in store in this city, with increasing daily receipts.

The only sale this fall was that of six sacks by a small grower in a camp yard, to Col. T. H. Zanderson. The price was "p. t." which the colonel claims was between 14 and 15 cents per pound, and the seller says that it was fully 16 cents per pound. The quality was not very good; being uneven, and much was greasy and dirty.

TALEQUAH, I. T., Sept. 9.—Spade Sunshine was hanged here to-day for the murder of Long John last Christmas night. He acknowledged the crime but said he done it in order to keep from being killed himself.

SAN ANTONIO.

PECANS are opening here at 5 cts. per pound, with fair prospects of a large trade this fall and winter.

Now that another cattle pool is to be organized, the "carpers" will have plenty of material for denunciatory editorials for another six months.

If the Houston refrigerator does not materialize, there will be no one to blame except the stockmen themselves. Houston's offer can never be improved upon by any other town in Texas.

WITH the same amount of money spent in Southern California for irrigating a larger area of country could be just as highly cultivated in Southwest Texas, and nearly the same varieties of fruit raised.

KANSAS has forty state and county fairs this fall, Iowa sixty-one, Nebraska twenty-three, Missouri thirty-three, and Texas one. Is there any wonder at the want of improved methods of agriculture, horticulture and stock raising in this state?

THERE is a cannery running in New Orleans, consuming 200 beeves a day, the majority of which are from Texas. When will we begin to practice a little economy and establish institutions for the preparation of some of our abundant products, instead of sending them to others to make a living from?

DID it ever occur to you that the temper of a man's horse was a pretty fair indication of his own character. The owner of a vicious, sour-tempered horse is seldom a kind-hearted, benevolent man, providing, of course, that he drives or takes care of the animal himself. When you see a sanctimonious, carping man, who always is free with his moral and religious counsel who is afraid of his horse, you can safely put him down as a hypocrite and seldom miss the mark.

TEN years ago a San Antonio sewing machine man traded a machine to a Uvalde county ranchman for ten head of goats, and left them with him on shares. He had forgotten all about it till a few days ago, when he received a letter inquiring what should be done with his, (the sewing man's) goats, as they were now so numerous that not enough range could be found for them,

and that if he wanted to dispose of them a check for \$25,000 was at his disposal. The sewing-machine man took the money and went to California, where money could be made easier than in this drouthy country. This item is offered to the San Antonio boom committee without royalty.

THE indications are that there will be a very large shipment of beef cattle from Southwest Texas the coming winter and spring. Nearly every body is now holding off till that time when prices are always the highest of the season. From the present outlook the majority will be grassers, as prospects for good winter pasturage were never better this time of year, but where grass will be short prickly pear and cottonteed meal will be fed to fully mature the stock. It is almost the universal intention among the ranchmen of Southwest Texas to mature their own stock in future, and sell no young cattle except at prices over and above those reasonably to be expected to be realized on fat cattle.

The Vitality of the Cattle Industry of Southwest Texas.

Now that the cool and deliberate business man claims to see a rift in the clouds of adversity that has for five years hung over the cattle industry of Southwest Texas and a new era and more prosperous season is beginning to light up the sky of a long and dark night of anxiety and disaster, it may not be without profit to cast a glance back over the road to see what has been passed over, so as to fully appreciate the possible extent of our resources.

It is claimed that the cattle industry of Southwest Texas has shown more vitality than any other legitimate industry of the United States. Although cattle have been raised in that section for many years, six years ago it became a legitimate industry, before which time it was a sort of nomadic speculation. Men claimed to have brands of stock running somewhere, and to secure the benefits of them they had parties of men armed to the teeth and provided with branding-irons; who rounded up a herd for the Northern trade, branding what had no brand, and keeping account of those of the other brands, and swapping accounts when their owners met, if ever they did. Six years ago the more sagacious clearly foresaw the speedy change coming on, when every man wanted his own, and when men were to be held to a strict account for appropriating to themselves what belonged to others. Then lands were bought, costing thousands upon thousands of dollars; fences were made, stretching away miles upon miles over hill and valley, and gates were put in on all roads. This necessitated the providing of water, as the running streams would be found inclosed in a pasture while equally good grass lands lay out on wide but dry plains, and thousands of more dollars were needed to dig wells, make tanks, and erect wind mills and pumpingjacks; thousands of more dollars were spent and many lost in the importation of improved stock, for breeding up the common herds; but the heaviest tax of all was the depreciation of the prices of cattle which began about this time, and from year to year they have become cheaper, until now a beef that sold five years ago for \$50 will not bring \$20. In addition, with the flush times habits of extravagance were acquired that have cost the cattlemen millions of dollars.

But in the face of all these drawbacks almost any one of which would have broken many legitimate and prosperous branches of industry, very few failures

have taken place, not as large a per cent. as in the general merchandise trade, and from present prospects there are very few if any to be expected. We find the country divided into pastures with good substantial fences; we find good permanent water in convenient locations on the great majority of ranches; on many we find elegant residences, barns, sheds and corrals; and we find many well improved cattle worth double what the original native herds were, and the system of breeding to maturing beeves nearly completed. While we are not yet all out of debt, the great majority of cattlemen are enabled to pay interest on their obligations and inspire the holders with a proper confidence to secure sufficient grace to continue their business with very fair hopes, with improved prices of soon ridding themselves of all incumbrances.

This is not a high-colored immigration document, as no immigration is sought, but a fair and practical view of the industry as it now is. Is it reasonable to presume that such a combination of circumstances will arise against it in the same short space of time? and if it has so successfully withstood them all, is it not right to claim that ranching in Southwest Texas is the safest and best paying legitimate business to be found in the United States? With prices for beef where they were three years ago, for three or four years only, Southwest Texas will be one of the most prosperous and wealthy sections in America.

San Antonio Horse Market.

The market has been fairly active for common stock, but prices are low, with no prospect of a betterment soon. Mules are selling more readily with a fair prospect for a good trade in this class of stock later on. The shipments were 1608, which is a decrease of 25 head from the week preceeding.

Quotations are as follows:

Scrub and poor mares, 12 to 13½ hands, \$10@12
 Scrub fair conditioned, 12 to 13½ hands, 12@16
 Medium mares, 13 to 14 hands, fat, 20@28
 Medium mares, 13 to 14 hands, thin, 13@18
 Texas improved mares, 14 to 15 hands, 30@40
 American carriage horses, 15½ to 16½, 75@200
 Saddle horses, good, 13 to 14½ hands, 20@28
 Saddle horses, poor, 13 to 14½ hands, 15@22
 Unbroke horses, 13 to 14½ hands, 16@25
 Mules, Mexican, 12 to 13½ hands, 22@35
 Mules, improved, 13½ to 14 hands, 25@30
 Yearling mule colts, improved, 25@30
 Two-year mule colts, improved, 30@40
 Yearling mule colts, Mexican, 15@20
 Two-year mule colts, Mexican, 20@30

HORNS AND HOOFS.

Marfa New Era.—An old stockman informed us a few days since that a good winter range is assured beyond doubt and that stock of all kinds are in excellent condition to stand the severest weather; that he never before saw better prospects for the stockmen than now. The percentage of the calf crop branded this year was about the same as last, but only reached 60 per cent of what it should be, but evidently the spring crop will far exceed the most sanguine expectations.

Beeville Bee.—Western ranchmen may be a little slow to make a move towards combining agriculture with stock raising, but when they take a start, it can only be expressed by saying that they come down with both feet. Last season Mr. W. T. McCampbell, one of the most progressive young ranchmen of this and Goliad county, had in cultivation 175 acres of corn, and gathered 300.0 barrels last week. He intends to utilize the surplus in feeding beeves this winter and is on the market for the purchase of 800 2-year old steers to feed and graze for the market. He is so well pleased with the yield of the past crop that he is now preparing 800 or 900 acres more for cultivation next season, which he is desirous of renting to good farmers on reasonable terms.

The San Antonio horse trader has no superior in the world. He not only sells horses by the carload with as little

fuss as the majority sell single animals, but he never is left with "nest eggs." As a fair sample, it is said that recently one of our traders took several carloads of Mexican mules to the coal regions of Pennsylvania on a contract. There was some hitch, and the mules were left on the trader's hands. Nothing daunted, he struck out to other parts, and soon made a "Pennsylvanian" believe that they were sucking, high-bred mule colts, and sold them at a good price, although there were none less than six, and many were fully ten and twelve years old, and all covered over with Spanish brands. The next thing in order is to sell them for jack rabbits.

The Sunset road will erect large and commodious stock pens at Eagle Pass to accommodate the rapidly growing trade at that point, and especially that with Mexico in connection with the Mexican International, which will very soon be completed to a junction with the Mexican Central in the state of Durango.

Chas. E. Hicks is back from a trip to Bee county, and it is rumored that mules is what took him there.

Don Camilo Saens, the extensive ranchero of Starr county, who for years has been a large horse operator on this market, is now closing out a bunch of 200 head, when he will quit for the present year, and begin to ship beeves to the North. He has not sold any for three years past, and will keep some of the railroads busy hauling the big longhorns.

A. Hosmer has just received 100 head of running W (King) brand of horse-stock, which he put on the market.

Frank Rabb, the extensive young ranchero of Nueces county, is here with his wife.

Thos. Welder of Bee county is in town.

T. P. Lenoir of Fort Worth is doing the Alamo city.

San Antonio Express: Sunday morning Deputy United States Marshal Bell seized 60 head of horses at the International and Great Northern depot. The seizure was made on telegraphic information received here from Laredo to the effect that the animals in question had been shipped by rail from Pena. There were no papers or bills of sale with the animals except a bill of lading, in which the name of Marteo Leal appeared as consigner and consignee. No arrests have been made at present. The horses are held over here to await the arrival of the United States revenue collector.

Beeville Bee.—Richard King shipped 12 car loads of beeves this morning to St Louis. They were accompanied by Gus Staples, of Lagarta.

F. O. Skidmore has moved from Bee county to the ranch which he recently bought of Thornton, seven miles northwest of this city.

Continued complaints come from Medina county as to the narrow roads and no blinds to the wire fences as the law directs. Much stock is ruined by these fences, and the land owners should be made to pay for it.

S. N. Dobie, of Lagarto, the Live Oak county horse man, was in town last week.

B. F. Darlington of Taylor is here for some horse and mule stock.

The Keyston Land & Cattle company of Frio county is shipping some cattle to the Northern market this week.

F. W. Hubbard, of Milwaukee, Wis., who some time ago bought the N Mackey place west of San Antonio, is now making arrangements for erecting an elegant winter residence. He is boring for permanent water and has already reached a depth of 400 feet.

John J. Young went down to his ranch, the Santa Anita, Hidalgo county,

and you will soon hear of Chicago being glutted with his shipments of big fat beeves. John says that they grow so fast that he must do something with them or take a slice of Mexico.

The Willett Bros. shipped a train load of beeves from their LaSalle county ranch to St. Louis.

THE WOOL SACK.

Marfa New Era.—Humphris & Co. had a large force of Mexicans at work shearing Blanks & Gaither's sheep the latter part of last week. On Sunday they took the shearers to their sheep ranch in order to commence shearing their own sheep Monday.

J. M. Campbell has just put in one of the Alamo Iron Works' Texas pumping-jacks and pump on his ranch in Val Verde county, and is now delivering over 4000 gallons of water per hour.

Nath. Knight was up last week for some bucks for his ranch in Encinal county.

Cotulla Ledger.—A number of wool-growers of this county have completed arrangements and will commence shearing their sheep on Monday next. A few are shearing now. With favorable weather the fall clip will be in sacks and ready for shipment by the 25th inst. We are glad to see them getting at it early, as all indications point to early cold weather this year.

G. Hellemanns is here for the fall trade. He is an advance guard of the ever-welcome wool buyers, and it is to be hoped that the main army may be grand and anxious to buy wool.

D. M. Clarkson of Star ranch, Kinney county, is in the city.

Dr. Pierce's "Pellets"—the original "Little Liver Pills" (sugar coated)—cure sick and bilious headache, sour stomach, and bilious attacks. By druggists.

ST. LOUIS MARKET LETTER.

Lively Trade—How Texans Sold—More Sheep Wanted.

EAST ST. LOUIS, ILL., Sept. 13, 1887.

Regular Correspondence Texas Live Stock Journal.

We had a pretty lively trade throughout the past week, and at the present writing prices are higher all round, but most notably on fair to good and prime Texas and Indian steers. The receipts were large but not up to those of the week previous. Again the bulk of the offerings consisted of range cattle. In fact, but comparatively few native cattle—Missouri, Illinois and Western steers—were offered and nearly all of the buyers must depend altogether on range cattle. One thing is certain, the native cattle crop for the fall and winter of 1887 will be short—the shortest in years—and Eastern and interior shippers will be forced to take range cattle. They are doing that now, but will be forced to do that much longer. The drouth and the remarkably low prices for fat native steers prevailing the past four months has stopped a great number of farmers and feeders from fattening cattle, consequently the supply of fat cattle will be small until next spring.

This is not prophesying or predicting. It is stating a plain fact and the reader can draw his own inferences. These are facts as we find them and nothing more.

The past week fair to good Texas steers of 800 to 975 lbs. brought from \$2.60 to \$3.10 per 100 lbs. with the bulk of sales going at \$2.75 to \$2.75 as there were but extra fat drovers offered. Good and prime Indian steers of 900 to 1100 lbs. brought from \$3 to \$3.35 per 100 lbs. Texas mixed stuff brought from \$2 to \$2.50 per 100 lbs. Cows from \$1.40 to \$2.15 per 100 lbs. according to quality. Common

and thin Texans dull and neglected.

Here are some sales;

No.	Av.	Pr.
60 Texas steers	960	\$3 05
41 same	965	3 00
80 same	925	2 75
15 same	844	2 50
42 same	815	2 55
40 same	929	2 70
22 same	773	2 40
45 same	906	2 35
50 same, cows	737	2 00
26 same	681	1 75
24 same	701	1 55
17 stags, same	1010	2 00
20 same, bulls	1007	1 40
48 Indian steers	1160	3 20
114 same	1102	3 20
40 same	920	3 10
113 same	916	2 80
259 same	1014	3 15
30 same	774	2 75
35 same	980	2 60

It is the continuation of the same story in the sheep market. Offerings were again moderate, while the demand was liberal and come from all classes of buyers. Sheep salesmen have had a pleasant time of it these many months as all kind of sheep could easily find disposal and at pretty satisfactory figures. Eastern shippers on many occasions could not obtain all the sheep they wanted. Prices paid in extremes ranged from \$2.25 to \$3.65 for medium to pretty good Texas muttons. Bulk of sales at \$3 to \$3.20 per hundred pounds. The supply of Texas sheep was moderate.

There is no change of any consequence to note in the wool market. Offerings fair and demand only moderate.

RATTLE.

Good Wages Ahead.

GEORGE STINSON & Co., Portland, Maine, can give you work that you can do and live at home, making great pay. You are started free. Capital not needed. Both sexes. All ages. Cut this out and write at once; no harm will be done if you conclude not to go to work, after you learn all. All particulars free. Best paying work in this world.

Use Silver Loaf Baking Powder.

San Angelo Standard.—W. L. Locklin, from the head of Rocky, was in town yesterday, and feels elated over his good fortune in obtaining 63 feet of excellent water in his 75-foot well. He says the supply is enough to water at least 5000 head of sheep per day. W. L. Carlisle has erected him a 100-barrel tank and a No. 1 windmill which Mr. L. says gives splendid satisfaction.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low-test, short-weight alum or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 108 Wall St., N.Y.

DALLAS.

The next meeting of the Consolidated Cattle and Horse Growers' association will be held at Kansas City and the session begins on October the 31st. The meeting ought to be attended by the best possible material from Texas and a strong representation of the state and district associations should be sent to actively co-operate with the representation of other states in the deliberations of the National body. This meeting held in the great market of the Southwest will mark the turning point from depression to activity on the cattle raising business.

A Remarkable Well.

Gus Volkus, residing a couple of miles west of Dallas, contracted for a well about ten days ago. The digger struck solid rock within a foot and a half of the surface. This was blasted into to a depth of 44 feet and 4 inches when a strong vein was struck. The water immediately arose to the top of the well and has remained so since and in fact flows from the top. It is argued that the water vein was struck at its terminus.

DALLAS DOTS.

J. B. Wilson bought a fine pair of sorrel mare mules Tuesday. They were about 16 hands high, heavy built and in good selling condition. Price paid \$350.

Col. J. B. Simpson writes from Edinburgh, Scotland, to a friend in Dallas: "I have just returned from a fishing excursion at Loch Loven castle. The scenery is grand and the fishing the finest in the world. I will return home about the 1st of October."

A novelty in the way of a silver wedding memento has just been turned out by Tabor Bros. manufacturing jewelers this city. It consists of a solid silver horse shoe with solid gold plate corks—heel and toe. It has eight nails, each heavily gold plated, and a letter upon each nail, spelling when together, Epstein, the name of a gentleman in the Sanger Bros. establishment. Upon the corks appear handsomely engraved the dates 1862 and 1887, representing a lapse of twenty-five years. Upon the toe of the shoe appears the letters "L. H." It is a beauty and a befitting testimonial of the spirit compassing the occasion in store.

W. D. Cobb, a stockman from Lawrence, Texas, was in Dallas Monday. The gentleman evinces a desire to make a deal of some kind. Indeed, it is sufficient to say that he would part with a hundred or two head at a fair price.

Thousands of women bless the day on which Dr. Pierce's "Favorite Prescription" was made known to them. In all those derangements causing backache, dragging-down sensations, nervous and general debility, it is a sovereign remedy. Its soothing and healing properties render it of the utmost value to ladies suffering from "internal fever," congestion, inflammation, or ulceration. By druggists.

Texas Resources.

Texas has millions of acres of fine farming lands at from \$1.50 to \$3. The population of Texas is almost 2,500,000. The area of Texas is 274,356 square miles, or 170,099,200 acres. The taxable wealth of Texas is \$520,000,000. Texas has 46,302,500 acres of timbered land, with about 77,508,506,000 feet of standing timber. Texas expended \$3,200,000 for main-

taining her free public schools in 1886. Texas has 3,000,000 acres in cotton, yielding 1,500,000 bales.

Texas has 3,000,000 acres in corn, yielding 63,416,300 bushels.

Texas has 375,000 acres in oats, yielding 9,238,600 bushels.

Texas has 5,500,000 head of cattle, valued at \$137,000,000.

Texas has 1,305,000 head of horses and mules, valued at \$36,000,000.

Texas has 7,000,000 head of sheep and goats, valued at \$17,500,000.

Texas has 2,000,000 head of hogs, valued at \$7,000,000.

Bargains in kid gloves in different shades of tan and grey, 35c a pair, worth \$1.00.

RANDALL & CHAMBERS Co.

Evidence of Merit.

The best evidence of the merit of any article offered for sale to the people is its popularity—that is, the readiness with which it sells. If a baking powder, for instance, fails to give entire satisfaction in any particular, the cook never fails to complain and it becomes unsalable. Nobody has ever complained about Silver Loaf Baking Powder because it is full strength, absolutely pure chemically, and makes the most wholesome bread of any powder on the market. The guarantee of J. H. Brown is in itself sufficient to make it go like hot cakes.

Piper & Schulthess are headquarters for all kinds of fence wire, 249 Market Street, San Antonio, Texas.

George of St. Lambert 17300,

from the Jersey Bulletin.

Mr. Chas. E. Hill of Denver, Colo., proprietor of the Rocky Mountain herd of Jerseys, at the Valverde farm, seems determined that his herd shall be second to no other herd in the West. He has spared neither time nor money in selection and breeding, the latest acquisition being the pure St. Lambert bull, George of St. Lambert—the only one at present owned in Colorado—purchased to cross upon the heifers of Ace 13,953; the Stoke Pogis-Rotter bull that heads this herd. George of St. Lambert was bred by Valancey E. Fuller, at Oaklands, Hamilton, Ont., the home of Mary Anne of St. Lambert. His sire is Canada's John Bull 8388; his dam, Pearl of St. Lambert 5527, is a daughter of Buffer 2055, who sired the dam of Mary Anne of St. Lambert, and has several daughters in the fourteen pound list, and eleven granddaughters averaging 21 lbs. 5 oz. each. Fifteen hundred dollars has recently been refused for Pearl of St. Lambert. She tested 14 lbs. 2 oz. under very unfavorable circumstances, and Mr. Fuller believes her capable of at least eighteen pounds. She is dam of Cill of Glen Rouge 13,818, who tested 16 lbs. 6 oz. with her first calf. Mr. Fuller says of her: "She is the sort of a cow that I wish to retain at Oaklands as a foundation cow, from which I hope to build up and intensify the reputation of the herd." George of St. Lambert was advertised in the Bulletin, and our readers are familiar with his pedigree. He has 43% per cent. actual blood of Stoke Pogis 3d. His sire is more closely related to Mary Anne of St. Lambert than any bull in service. This is not only a valuable addition to Mr. Hill's herd, but to Colorado Jerseys also.

The latest styles of fall goods, the most novel and active productions of Eastern factories, have begun to arrive at the B. C. Evans Co. store, and will be sold at the cheapest prices consistent with legitimate business.

Tackabery, Shaw & Co. of Fort Worth own the cowboy lightning girth fastener.

Dress Goods.

Before you decide what you shall buy for your fall dresses, give us a call and see our remarkable exhibition in this line

RANDALL & CHAMBERS Co.

912 Main St., Dallas, Texas. Hats blocked while waiting. Stiff, soft and cleaned and to new. Best state. Work warranted first-class. Orders by mail or express promptly attended to.

CAPITAL LOOKING TOWARD TEXAS.**The Llano Iron Syndicate.**

Dallas News, Sept. 11, 1887.

A letter from Col. Geo. M. Wakefield of Milwaukee, Wis., who is at the head of the syndicate now investing in iron property in Llano County, has been received by Col. Geo. F. Alford of this city, and as a matter of state interest we give it to our readers. Col. Wakefield is known to be one of the iron kings of America.

MILWAUKEE, Sept. 6, 1887.

Gen Geo. F. Alford, President Dallas, Archer and Pacific Railway, Dallas, Tex:

My Dear Sir—Yours of Sept. 1 received and carefully noted. Also your prospectus and accompanying papers. And I wish to say to you that of all the prospectuses that I have ever seen I have never read one drawn with more care and that set forth the country in better shape. Your undertaking is a safe one, and I think you will succeed. I know something of the value of that country, and I do not hesitate to say that I believe your state as a state has the best future before it of any spot on this continent. My visits to your state have convinced me that the people of the North and East had very poor conceptions of the immense wealth of your country and the hospitality of your people.

I have recently undertaken, with other gentlemen, the developing of what I believe to be the greatest iron district in the known world, in Llano and Mason counties of your state. I have not gone to work at this for the purpose of "booming" and making some money and then getting out of the country. Far from it. It has been my business for twenty years to select and develop mineral lands in Northern Wisconsin and the upper peninsula of Michigan, and it is well known in this section that I have done as much as any other man in the Northwest to develop said district, and in doing so have made well for others as well as for myself.

The district that I have taken hold of down there comprises an iron belt, commencing about sixty miles northwest of Austin, and continuing in a northwesterly direction through Llano and portions of Mason counties, and the quality and quantity of the same is not equaled in any other district that I have any knowledge of on this or any other continent.

In addition to the iron, which is of the finest Bessemer quality, there are manganese, water-power, limestone, etc.

This undertaking will require all the means and energies that I have for years to come, and I cannot take part in anything else. I shall probably undertake later the building of a railroad, to get some outlet for an iron district that I claim will, with three years' mining, produce, without trouble, 4,000,000 tons per year.

I write you of this district more fully, perhaps, than you will care for, but I know from the tone of your letter and the document sent me that you are a live man and have surrounded yourself with that class of men in your undertaking, and I am not at all afraid of the outcome. You will certainly meet with success. In my undertaking it will require more time and a larger amount of means. My estimate is that from \$3,000,000 to \$10,000,000 of capital should be invested in Llano and Mason counties in the manufacture alone of iron and steel, and if I live I expect to see it invested and the manufacturing carried on.

I am simply perfectly surprised that such a district should remain for years undeveloped, and especially as it has been known to some of the leading men of Austin.

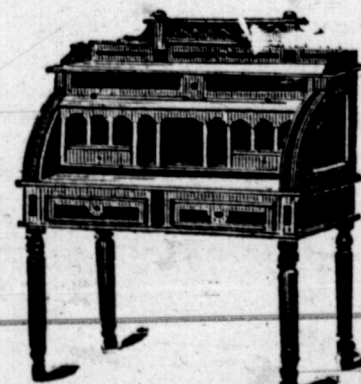

I would be very glad, indeed, if you would send me a box of the iron ores that you speak of on the line of your contemplated road. It certainly will work you no harm, as I shall do everything to assist you in any way that I can in your enterprise. Yours truly,

GEO. M. WAKEFIELD.

THE CLIP.

Messrs. Kirkpatrick & Whitaker of Knight's Ferry, California, say that in California sheepmen are prospering and their flocks are in splendid condition. They extend greetings to the sheep raisers of Texas, with hopes of continued improvement and prosperity.

Most of the Texas sheep at Chicago last week sold at \$3.25@3.60, the tops going at \$3.90. Not long ago the fall quotations were \$1.75@2.45, the tops going at \$2.75. Certainly the sheep business is greatly improved and there is money in it.

GARY, D. T. Sept. 2.—A syndicate composed of J. E. Smith, James Pettijohn, M. F. Greeley, and others received to-day 1000 head of sheep from Wisconsin and Illinois, which were divided into flocks of fifty and 150, and distributed among the farmers in this vicinity for breeding purposes.—[Drovers' Journal.

Having brought wool smuggling to a fine science, the importers are now smuggling sheep shears by changing the classification.

New Zealand mutton is quoted wholesale in London at 7½ to 8c per pound. Texas could make a profit at 6 cts. delivered.

San Angelo Standard.—Capt. Ed Duggan of Tom Green county recently purchased George Bird's Menard county ranch and a few days ago started 2500 ewes to it.

SAN ANGELO, TEX., Sept. 13.—Capt. Rice of North Concho came in to-day with the first fall clip of wool, consisting of fifty bags, and it was taken in charge by the manager appointed by citizens' executive committee to see to storage. The citizens have made the same arrangement in the matter of free storage, free handling and freight paid to the railroad on all wool sold that they did last spring. A large quantity of the wool is assured to this market. Many sheepmen who held back on the spring to see what prices the fleecy staple would command here and having now been satisfied on that score will ship here from now on.

The U. S. Economist reports the sale at New York of 30,000 pounds Texas in grease, 16,500 pounds do scoured, 137 bags domestic noils on private terms; 4500 lbs medium washed fleece at 36½c; 20,800 lbs fine unwashed do, 4000 lbs fleece (bucks), and 2600 lbs scoured Texas on private terms; 1200 lbs low Texas sorts at 14c; 7800 pounds scoured Texas at 45@54c; 200,000 lbs Texas in Boston, year's growth, at 19c (there is an actual loss of \$8000 on the sale); 2000 lbs fall Texas at 16@18c; 5000 lbs choice fall Texas, year's growth, at 22½c; 10,000 lbs Mexican at 14½c.

Mr. A. L. Richardson of Parma, Mich., gives the sheep breeder weights of three grade wether lambs, Shropshire-Merino cross, at 9 months old. The average was 116 lbs; at 10 months 123 lbs; at 11 months 141 lbs; at 12 months 155 lbs; and at 13 months 173 lbs. They sheared 33½ lbs wool on May 1st when a trifle over 12 months old.

The Sheep Breeder;—The large sheep are only adapted to rich land. They are great feeders, and the old rule of eight sheep requiring as much pasture as one cow does not apply to them. Sheep eat clover so closely that they entirely destroy it. On timothy and other grasses they are very uneven feeders, unless they are pastured very closely. As soon as grass gets a little coarse it is rejected and left to grow without check, while other parts of the pasture is eaten down to the root. Fine-wooled sheep will stand the excessive pasturing that seems to be necessary with this stock; but large coarse sheep will grow poor on it. This is the reason why the large breeds of sheep must generally be kept in small flocks, so that each can get enough to eat.

Sheep Breeder:—The Oxford Down pen that wins the first prize at St Louis will be presented with a gold medal by the association. This method of inducing the best of breeders to exhibit their stock should be followed by every association. It deserves the highest praise.

Colorado Springs (Col.) Gazette:—Nearly all the sheepmen in this neighborhood are still holding their wool in anticipation of an increased demand and higher prices. We have yet to learn of a single clip that has been disposed of at a price anywhere near that obtained last year. The inactivity in wool is ascribed to the stringency of the Eastern money markets.

Davidson Bros. of Tom Green have sold 200 fine bucks to Charles Schauer for \$3000, and 20 head to Jim Currie for \$300.

Colorado Clipper:—Flights of ducks going south the first of this week caused many predictions of an early fall among the weather prophets.

Henry Burns of San Antonio is about the only Texas man buying rams in Vermont. He has purchased a choice lot from the flocks of E. A. Birchard & Son, Byron Smith, M. K. Barbour and W. R. Remelee, the transfers being reported in the Middlebury Register.

Mr. and Mrs. M. B. Williamson of Vermont are on the way to Texas, where Mr. Williamson owns a sheep ranch in the vicinity of Colorado City.

The Vermont shipment of sheep to Buenos Ayres arrived safely, with the loss of one ewe.

The wool market continues quiet. Texas wools in Eastern markets are mostly in hands of dealers, and held strongly.

Although the wool market is reported in buyers' favor, the facts are in sellers' favor.

Mr. R. T. McCulley of Lee Summit, Mo., a very prominent breeder and exhibitor of Spanish Merino sheep, died recently at Garden City, Kansas. He was a very earnest man, and had unlimited faith in the improved Spanish Merino, and several times broke the shearing record with his choice stock.

Unless the sheep breeders brace up a little and determine to make a strong sheep exhibit at Dallas, the sheep interest will again be the tail end of the Dallas fair. The premium list is a good one, and can be obtained by application to Sydney Smith, secretary, Dallas, Texas.

A WRONGED MAN.

A Sterling Drama Soon to be Presented for the First Time in America.

Chicago Herald, Sept. 4, 1887.

A. E. Geismardo, the celebrated French author and actor, under management of H. R. Moore will begin his first tour in America, opening at Kansas City, Mo., on Sept. 12th, with his new and powerful drama, "A Wronged Man." He will be supported by the gifted and beautiful French actress, Eva de Lariviere, and a first-class American dramatic company. The play includes four acts, is emotional and humorous, threaded by brilliant veins of bright and original thought, and characterized throughout by a high moral tone and plenty of specialty lines introduced. The play is copyrighted, and will now be first produced in this country. The play is meritorious in itself and will be presented in such manner as to prove a phenomenal success, artistically and otherwise. Mr. A. E. Geismardo's permanent address is Kansas City, Mo., care of William Bales, Esq., Safe Deposit and Savings Bank. Prosperity to the new dramatic venture.

THE PANHANDLE.

A Special Edition of the Stock Journal.

The thirty-two page Monthly Edition of the TEXAS LIVE STOCK JOURNAL will be issued between September 25th and October 1st and will be devoted to the resources of the

PANHANDLE OF TEXAS.

The issue will contain a new map of the Panhandle district, showing the Fort Worth & Denver road and connections, and will also contain a description of the country, character of the soil, rainfall, products, etc., together with the land laws of the state and other important laws affecting the settlement of the country. It will be a text-book of the Panhandle and of Northwest Texas.

The Panhandle Construction company, together with the Fort Worth & Denver railroad, takes several thousand copies of the paper, and the entire edition will exceed

FIFTY THOUSAND COPIES.

Land owners and merchants who are interested in the development of the country on the line of the Fort Worth & Denver railroad and in the Panhandle should take this opportunity to advertise their properties and to purchase a number of the papers to send to their connections at a distance. Such an investment will pay large dividends to land owners in the development of the country in which they have an interest.

LLANO COUNTY, Texas, with its immense iron deposits, is attracting the attention of the Iron Kings of America. Read Colonel Wakefield's letter to General Alford in this issue of the JOURNAL.

THE U. S. consul at Picton, Nova Scotia, reports that a dangerous disease exists among the cattle, horses and sheep of that province. It is con-

tagious, and the whole of Canada is threatened, and if not guarded against in time it may be carried to this country. Collectors of customs along the frontier line of the United States and eastern Canada have been instructed to prohibit, until further notice, all importations of animals and hides from the infected provinces.

The New Scheme.

Mr. Armour of Chicago is going to kill cattle for cash and sell meat on commission. A meeting was held at Denver on Monday last to consider a proposition of this character that Armour & Co. had made to stockmen and to form a pool of cattle raisers to accept the proposition. Mr. A. S. Mercer, editor of the Northwestern Live Stock Journal, who conducted the negotiations with Mr. Armour, president, and Mr. G. L. Brooks of Socorro, New Mexico, was chosen secretary. The proposition of Armour & Co. as outlined by Mr. Mercer was to receive, kill and sell the cattle of the pool on commission, charging \$2.50 per head for killing and the entire proceeds of meat, hides, offal, etc., less freight and aforesaid commission, to go to the shippers. The meeting was attended principally by members of the Colorado Cattle Growers' association, and passed the following resolutions:

Resolved, that incorporation papers be taken out under the laws of the state of Colorado, establishing the association for mutual benefit in handling and disposing of beef cattle after shipment from production.

That the name of the association shall be "The American Beef Pool."

That it shall issue no capital stock, declare no dividends and seek no profits as an organization.

That its object shall be only to accomplish a thorough organized effort and united action for an increase of net value upon beef products to its membership and to the individual advantage of its membership, and its affairs shall be wholly governed by directors through the management to be composed of a president, vice-president, secretary and superintendent, to be elected or appointed by the board of directors, according to the by-laws of association.

That any person eligible for membership must be a producer and shipper of beef.

That there shall be no membership fees or annual dues, and that only the charge to the membership for the support of the organization shall be 50c per head upon all beef cattle shipped to or through it.

A Good Business, After All.

The Chicago Drovers' Journal concludes an article on "Overproduction," saying: "The point we wish to make is that through the development of the early-maturity idea, making 1600-lb beeves at two years old, when a few years ago they used to be considered good to weigh that much at twice the age, and the numerous ways, new and old, of multiplying herds, there was an overproduction of cattle. For the past year or two the tide has been setting in the other direction; heifers have been spayed by the thousands, and every possible means of reduction

has been resorted to. Between the efforts of ranchmen and breeders and the more potent efforts of the elements of natural heat and cold, calf-making has been cut down in a most astonishing manner. It will begin to tell pretty soon. Nebraska complains of a comparative shortage of feeding cattle, and the supplies of young cattle throughout the feeding belt are smaller than for many years past. There is no overproduction now. That period has been passed, though the markets still feel the effects of it, and lots of people who are now doing some miserable croaking will begin to think before long that cattle-raising is a pretty good business after all."

Kansas City at Work.

The enterprising people of Kansas City are going to work at once, preparing for the entertainment of the National Cattlemen's convention on Oct. 31st. The Kansas City Journal of the 8th inst. gives these particulars of the preparations:

"The directors of the Live Stock Exchange met yesterday afternoon to consider the National Cattle Growers' convention to be held here, beginning October 31. After canvassing the matter carefully in all its phases, it was deemed proper to consolidate the committees usually appointed for such occasions into one grand committee, with absolute power to act on all questions and propositions that may arise. The committee was then selected, and consists of C. F. Morse, S. B. Armour, H. P. Child, R. P. Woodbury, whose duties it will be to look after invitations, advertising, hotels and an opera-house in which to hold the convention. A finance committee was appointed to solicit subscriptions to a fund to defray expenses. They are L. A. Allen, R. S. White, W. G. Peters, A. S. McCoy, George R. Barse, William Epperson, John F. Gregory, J. R. Stoller, George Campbell. The committee will not, however, go outside the stockmen for their money. They will be able without any trouble to secure all the money that they will need without asking assistance elsewhere. This they prefer to do. Later, when the initial preparations have been made, committees on reception and entertainment will be named.

"The members of the Live Stock Exchange are going to work with a zest. They do not propose to be outdone by any other of the many fall attractions. The exact number of delegates as shown by the apportionment cannot as yet be ascertained, but were the number known it would be no index to the many stock dealers and raisers who will be in attendance, as the proceedings of the convention will be as important to stockmen who are not delegates as to those who are. The hotels have promised that they will take care of them, and the fact that the exposition will be open will not interfere."

Pure Ingredients.

The widespread popularity of Shur Loaf baking powder is due to the strength and purity of the ingredients that enter into its composition, and repeated chemical tests place it side by side with the most popular brands in the market and show it the peer of any powder yet offered the public. The manufacturer asks only a trial with other brands, and is willing to abide the result.

FROM THE PANHANDLE.

Stock Notes and News, for the Stockman Farmer.

MO BEETIE, Sept. 12, 1887.

Special Correspondence Texas Live Stock Journal.

Mr. J. F. Evans of Sherman one of the cleverest and most enterprising of Texas stockmen has been looking after his interests in the Panhandle for the last week. He is an enthusiastic believer in the future of the Panhandle, which he predicts will be marked by unexampled prosperity and development. Questioned about the Houston refrigerator project Mr. Evans expressed the opinion that it would prove highly beneficial to the stockmen of Northwest Texas, even though they should not adopt the Bayou City as a market, because it would divert from the Eastern markets the cattle hitherto shipped to them from Southern Texas, and to that extent lessen the danger of "a glut." He added that if the project was successful agents would probably be stationed at such points as Fort Worth and San Antonio, to purchase beeves for the refrigerator, thus creating good home markets in those places.

Mr. R. P. Perrin of Cleburne arrived in Mobeetie last Thursday, and is now making a tour of exploration in the in the upper neck of the Panhandle. This is his first visit to this section, and he avowed himself most agreeably surprised in the character and productions of the country. Said he, "if our people only knew thy truth about the Panhandle, it would get a heavy immigration from Central Texas, where land no better, if as good, is worth three and four times the price of the lands here. You have the most delightful climate, I have ever enjoyed. When I left home the heat was so intolerable one couldn't get a decent sleep, but here I find a blanket comfortable at night. All in all I believe the Panhandle is the best portion of Texas I have seen."

Jo-pe-de-ah, a Kiowa chief, whose subjects, visible to the naked eye, consist of two bucks and numerous squaws, made a raid on Mobeetie last week. Instead of the tomahawk, which is slightly out of date, he presented to his victims a subscription paper, accompanied with the guttural explanation that his squaws were "heap hungry" for "chuckaway," (grub). Jo-pe-de-ah is a magnificent specimen of physical manhood, about six feet high, weighing perhaps 250 pounds and handsomely proportioned. With a little training he ought to be able to cultivate a hundred acres of ground without calling for assistance from his squaws. He got but little "chuckaway" here. Poor Jo dislikes work more than he does the pale face, and, begging expeditions from the Territory are not infrequent.

There is a good demand for private lands in this section, and the agents of the big holders are kept busy.

Uncle Sam paid off the soldiers at Fort Elliott last Wednesday. Some \$50,000 are distributed here quarterly from this source.

Maj. White of Seguin is here on a prospecting tour. He says the Panhandle is the best part of Texas.

James McKenzie of the Cresswell ranch in Gehiltee county was here last week and made a favorable report on the cattle interests in that region.

Some cow-boys out of a job secured Francklyn company's farm in Roberts county and put it in oats. They will harvest 5000 bushels or more.

Preparations are being made by a number of farmers in Wheeler and adjacent counties to sow wheat this fall. On account of the poor facilities for marketing and the absence of

mills, no wheat has heretofore been raised in this country. The coming of the railroads will make it one of the staple products of the Panhandle. The success of other small grain here shows the adaptability of the country to wheat.

The seventh newspaper in the Panhandle made its debut last week at Timms City, Lipscomb county. Its name is "The Texas Tribune."

Peaches were sold in Mobeetie last week, raised in this vicinity. Those who have experimented with this fruit have been rewarded with good success.

Mr. Robert Rosenthal of Garden City, Kansas, passed through Mobeetie Saturday en route for Farwell, Hansford county. He is one of the stockholders of the town company which started Farwell, and will remain there as its local representative. He was accompanied by Mr. Hughes, a young limb of the law, who will probably locate in Farwell.

A Chataquau club was organized Friday night at the residence of Hon. J. N. Browning.

Maj. Van Horn, post trader at Fort Elliott has gone East to be absent several weeks. He will be accompanied home by his wife who has been summing at Saratoga.

Dr. Newton, surgeon at the Post, and wife have gone on a visit to relatives in Louisville, Ky.

Missouri Pacific Time.

PARSONS, KAS., Sept. 6, 1887.

Mr. L. D. Voak, Live Stock Agent.

DEAR SIR: I give you below statement, showing average speed of stock trains over the M., K. & T. division north of Denison, during the week ending Aug. 31, 1887.

HANNIBAL SECTION.

Number of trains, 12; distance, 142 miles; average speed per hour, 19.28.

PARSONS SECTION.

Number of trains, 16; distance, 90 miles; average speed per hour, 23.20.

CHEROKEE SECTION.

Number of trains, 22; distance, 93 miles; average speed per hour, 23.76.

DENISON SECTION.

Number of trains, 14; distance, 157 miles; average speed per hour, 18.41. Average speed per hour whole division, 21.08. Yours truly, J. J. FREY, Superintendent.

"A few years ago," writes a New York tribune correspondent, "I saw a dog permanently cured of sheep killing. Its owner tied him to the neck of an old ram, leaving the rope between them about six feet in length; not long enough to permit the dog to jump over the fence and hang himself, and perhaps strangle the sheep too. It occurred in a small field. The sheep made several passes at the dog, which the brute successfully dodged, the dog all the time pulling and working his way to the fence; arriving there, he made an effort to scale it, but the rope held him, and at that moment the sheep gave him a whack which made him "ki-yi" for certain. The dog then settled down in a corner of the fence, growling, and apparently bidding defiance to his antagonist. The sheep stepped back, got the range of the canine, and like the "animated battering ram" he was, gave that dog a blow which sent him out of his corner in a hurry. The dog then kept in the open field as the safest place. After a little more skirmishing the owner unyoked this unmatched team. The dog lived for several years after, but never molested sheep again."

Hunter & Evans' Circular:—Under more liberal receipts the general sheep market has ruled active and firm, though prices are a shade lower on lambs and thin stock. Fat sheep are in steady demand at good round prices

and are freely purchased to extent of receipts by Eastern shippers, local butchers and the dressed beef interest. Thin stuff has been hard to place and stockers must evidence considerable quality to find a buyer at anything like decent prices. Texas sheep, sheared, are 50 to 75c lower than those carrying the fleece, and shippers of this class of mutton must be prepared to accept the difference in price as noted.

Is There a Cure for Consumption?

We answer unreservedly, yes! If the patient commences in time the use of Dr. Pierce's "Golden Medical Discovery," and exercises proper care. If allowed to run its course too long all medicine is powerless to stay it. Dr. Pierce never deceives a patient by holding out a false hope for the sake of pecuniary gain. The "Golden Medical Discovery" has cured thousands of patients when nothing else seemed to avail. Your druggist has it. Send two stamps for Dr. Pierce's complete treatise on consumption, with numerous testimonials. Address, World's Dispensary Medical Association, Buffalo, N. Y.

Chicago Wool Journal:—The country has experienced since the clip was shorn a more protracted period of stagnation than ever before during the summer months. It is now happily over, and will, in the natural order of events, be succeeded by a corresponding season of activity, culminating perhaps in excitement and higher prices as the stock becomes reduced. Should the reaction occur as we anticipate, it can only result in a higher range of prices after the visible supply has become largely reduced. To hold for the advance would be to stop trade altogether.

Hunter & Evans' Circular:—We this week sold for Mr. J. T. Harris, the premium grass Texas steer. He weighed 1450 lbs and brought 4c. per pound.

VITIATED BLOOD,

Scrofulous, Inherited and Contagious Humors Cured by Cuticura.

THROUGH the medium of one of your books received through Mr. Frank T. Wray, druggist, Apollo, Pa., I became acquainted with your CUTICURA REMEDIES, and take this opportunity to testify to you that their use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians in the country. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar maladies may be encouraged to give your CUTICURA REMEDIES a trial. P. S. WHITLINGER, Leeburg, Pa.

Reference: Frank T. Wray, druggist, Apollo, Pa.

Scrofulous Ulcers.

James E. Richardson, Custom House, New Orleans, on oath says: "1870 Scrofulous Ulcers broke out on my body until I was a mass of corruption. Everything known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed; was in constant pain and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the CUTICURA REMEDIES, used them and was perfectly cured." Sworn to before U. S. Com. J. D. CRAWFORD.

One of the Worst Cases.

We have been selling your Cuticura Remedies for years, and have the first complaint yet to receive from a purchaser. One of the worst cases of Scrofula I ever saw was cured by the use of five bottles of Cuticura Resolvent, Cuticura, and Cuticura Soap. The Soap takes the "cake" here as a medicinal soap. TAYLOR & TAYLOR, druggists, Frankfort, Kan.

Scrofulous, Inherited,

and contagious humors, with loss of hair, and eruptions of the skin, are positively cured by CUTICURA and CUTICURA SOAP externally, and CUTICURA RESOLVENT internally, when all other medicines fail. Send for pamphlet.

CUTICURA REMEDIES are sold everywhere. CUTICURA, the great Skin Cure, 50 cts.; CUTICURA SOAP, an exquisite Skin Beautifier, 25 cts.; CUTICURA RESOLVENT, the New Blood Purifier, \$1. Prepared by the Potter Drug and Chemical Co., Boston.

PIMPLES, Blackheads, Skin Blemishes and Baby Humors use Cuticura Soap.

HOW MY BACK ACHES

Back Ache, Kidney Pains and Weakness, Soreness, Lameness, Strains and pain relieved in one minute by the Cuticura Anti-Pain Plaster—infalible.

J. B. LITTLEJOHN, Manager Insurance Department.

THOMAS P. MARTIN, Attorney-at-Law, Manager Land Dept.

LITTLEJOHN & MARTIN,

Insurance, Loan and Real Estate Agents,

513 Main Street, Fort Worth, Texas.

Buy and sell (on commission only) lands in all parts of Texas and City real estate. Property rendered and taxes paid on same. Lands examined and divided. Patents obtained, titles examined and perfected. A specialty made of business with the different state departments at Austin. A general land business transacted. Commissions reasonable. A. S. NICHOLSON is interested with us in handling Fort Worth and Tarrant county property.

R. E. MADDOX & CO.,

Successors to MADDOX & POWELL,

Importers, Breeders, Feeders and Dealers

IN FINE HORSES AND JACKS, CATTLE AND HOGS.

We are well prepared to feed or pasture your stock at very reasonable rates. We can furnish anything that you may desire in the way of Stallions, Jacks, Jennets, Mules, Saddle, Harness or Work Horses, Milch Cows or Hogs. STOCK YARDS and BARN centrally located Corner Rusk and Fourth Streets, Office at Yards. FORT WORTH, TEXAS

S. A. HATCHER.

J. P. WOODS.

HATCHER & WOODS,

Dealers in Ranches, Cattle and Lands,

FORT WORTH, TEXAS.

We can furnish any number of ones, twos or stock cattle on short notice; also, horses or mares. We have several fine ranches and a vast amount of wild lands for sale; 35,000 acres in Hockley county, price \$1.60 per acre; also, 2300-acre pasture in Erath county, price \$3.50 per acre. Parties having stock or lands for sale will do well to place them with us. We have 20 years' experience in stock business, and guarantee satisfaction.

Polk Stock Yards.

Situated between Missouri Pacific Santa Fe and Fort Worth & New Orleans railroads, with side tracks from each. We make a specialty of feeding all classes of stock for shippers and traders. Blooded cattle can be loaded, and unloaded in our yards without coming in contact with others. Besides box and stalls, we have pens 24x40 feet, all under roof, with water in each. We keep constantly on hand for sale singly or by the car load, Herefords, Polled Angus, Galloway, Short Horn, Jersey, Holstein Cattle, Saddle and Harness Horses, Stallions, Brood Mares, Mules and Jacks.

POLK BROTHERS.

Fort Worth,

Texas

DULANY, WILSON & MAUPIN,

FORT WORTH, TEXAS,

Dealers in Live Stock

Cow ponies, work and saddle horses, stallions, jacks, jennets, thoroughbred and grade bulls can be had at our yards, corner Rusk and Eighth streets. Contracts for any class of live stock for future delivery solicited.

We have purchased Andrews Bros. & Co.'s Stock Yard.

ALBERT MONTGOMERY,

Commission Merchant for the Sale of Live Stock, Stock Landing, Postoffice Box 3006, New Orleans, La.

FLENNER & GAUSE,

UNDERTAKERS

FORT WORTH NOTES.

The latest rains reported are at Quanah and above on the Denver and in the Pecos district on the T. & P.

Mr. S. H. Bromley, who came down the Denver from Quanah reports rather slow shipments during the current week, but stockmen are fixing for a strong movement later.

Business is looking up a little. It is not the time for trading in range cattle in large numbers, and ordinarily at this time the enquiry is not brisk. Some timid purchasers are in sight for two-year-old steers at very low figures considering intrinsic values, and a few feeder purchasers are on the outskirts expecting to get respectable steers for less than two cents. Feeder buyers are not hurrying themselves.

Local butcher trade is about the same all the summer through, cows are cheap so that any man having fat cows should not bring them to Fort Worth unless disposed to be very reasonable.

Captain Richardson offered one cent per pound for a lot of cows, which the owner declined. The Captain expected the man would pull a gun on him for a cattle thief, but it so happened that the man had received liberal offers before and was disposed to be thankful, even if he did not sell.

Mr. J. F. Wares of Chicago was at the Mansion hotel during the week, coming from the West, which territory he considers in good condition and capable of sending forth some good fall beef.

If there was anywhere near as much money in live stock circles as there is confidence in the cattle business reviving and getting on a strong upward plane at once, then there would not be an unsold two-year-old steer in the state of Texas in two months from to-day. Although cattle are low none are given away.

Texas lands also are low. There are estates in Texas offering to-day, at from two and three dollars up to five dollars per acre, which by an ordinary course of development will show an extraordinary appreciation in value. There was a time when some of the beautiful loan lands of the Panhandle were sold at 50 cents per acre. Now the state price is two and three dollars. The time that "was" was four years ago.

Fort Worth real estate men have on their books tracts of land, equal in dimensions to some of the European principalities. The lands are bargains, bargains now because men are carrying more land than they want—still every tract sold takes one not sold off the market. Land owners of Texas are sometimes inclined to sell one tract in order to obtain means to improve another.

From Denver, Col., we learn that Mr. W. T. Jackman of Presidio county, sold to Charles Limberg of Leadville, Col., a string of two-year-old steers at \$12 around.

Mr. Lomax, manager of the Espuela ranch, has sold all his yearlings and two-year-old steers, delivered the same to Jud Brush of Denver, Colorado. Mr. Lomax will return home in a few days.

Thorp Andrews has returned from Denver, where he went in the interest of the bureau of animal industry, and more particularly in connection with the Texas cattle movement for next year.

Edgar Stilson, of Stilson & Case, Tom Green county, was in town during the week, coming from the north.

Messrs. R. E. Maddox & Company had a consignment of picked mules bound for California, and sold them to the Southern Pacific Railroad, near Deming. The railroad smashed them up

in a collision and killed all but one. John S. Powell, who accompanied the mules, was in the caboose, and his bones were rattled up badly, but he was not seriously hurt.

Cattlemen are trying very hard to keep up the heavy receipts at Chicago, but last Tuesday only nine thousand were mustered at the yards.

Mr. R. H. Sellers has gone to Lexington, Va., to settle up some affairs and will return to Fort Worth in about two weeks to pursue the real estate business in all its branches, but specially selling paying city property and choice farm and ranch lands.

Major Burgess, of Burgess & Estill, was in town on Wednesday and appears very little the worse from his late accident. The firm sold twenty-five Hereford and Durham bulls to Leslie Combs, manager of the Moyné Cattle Company, for \$50 per head.

S. B. Burnett is back from the range and reports grass and water abundant and the prospect of cattle wintering very good.

Dr. J. B. Elliott is back from the Matorador ranch, having spayed 1300 heifers and cows.

Nelson Maxfield and J. L. White, of Hillsboro, were in town on Thursday wanting prices on 800 two-year-old steers.

G. W. Weaver & W. E. Smoot, from Collin, were skirmishing at Fort Worth for feeders.

Mr. A. Maupin of Dulany, Wilson & Maupin, live stock dealers of Ft. Worth, is about to carry to his old home at Middle Grove, Mo., a very good consignment of Texas mares and young horse stock. Mr. Maupin will probably bring back to the state a selection of blooded horses and cattle.

Mr. F. M. Houts of Hereford Ranch will establish Hereford headquarters at the Dallas Fair, and exhibit a car-load of pure-bred bulls, heifers and grade fat steers.

Walter Parker of Rutherford bought of T. K. Blewett a small bunch of stock cattle and put them in Wichita county.

Blewett, Uhlman & Co. sold to J. J. Lang of Decatur 975 head of steer yearlings, and no one would mention the price.

Cut This Out.

Northern seed rye and barley, Johnson grass and alfalfa seed. Hay and grain in car-loads.

W. F. PATTERSON,
Fort Worth, Texas.

An Invitation.

We solicit subscriptions to the TEXAS LIVE STOCK JOURNAL at \$1.50 per annum. If this item is marked please consider it an invitation to examine the paper. If you consider it worth the money, please send a postal note and address the STOCK JOURNAL, Fort Worth, Texas.

Gilberts' dress flannels in stripe and plaids, 56 inches wide, \$1 a yard. Cheap at \$1.25.

RANDALL & CHAMBERS Co.

The lightning girth fastener can be had of Tackbery, Shaw & Co.

Dairymen Make no Money.

Texas dairymen, farmers and butter-makers complain that they are not making money. The reason is because they do not use the best dairy appliances. Farmers of Missouri and Illinois do make money from dairy products and receive only half the prices Texas dairymen obtain. The nearest firm to Texas carrying all the latest improved dairy goods in large stock is H. McK.

Wilson & Co. of 112 N. Second street, St. Louis. This firm will send catalogue and make prices on anything in the dairy-goods line.

SAN PATRICIO OR BLOOD.

With a Decided Preference for the Former.

SAN ANTONIO, TEX., September 8.—Among the many laws passed by the last legislature of Texas was tacking off a slice of San Patricio county and taking it into Aransas county. Both were settled years ago, both are filled with wealthy citizens, both are intensively conservative and both are on the shoot in obedience to this act which went into effect on July 4, a legal holiday by-the-by. In submission to numerous guidings from other officials, the surveyor of Aransas county went out two days ago and proceeded to mark off the portion of San Patricio which belonged to himself and colleagues. He set his chains and was squinting through his instrument when his attention was attracted by choice English on his left. He looked around and into the muzzles of some half dozen Winchester, to the calibers of which at that time his eye looked large and gloomy. At the other end of the guns were some prominent and highly positive members of the St. Patricio Society. The Aransas surveyor postponed proceedings and telegraphed Governor Ross at Austin. He received a reply which said: "Be sure you are right, then go ahead. If you are not able to do the work, state troops will be sent you."

The red-headed surveyor says he will take some of San Patricio or blood. San Patricio taxpayers say he will get blood. Up to the latest advices the survey had not gone on. The action of the executive is awaited with interest.

EL PASO, TEX., Sept. 9.—There is a report from Paso Del Norte that Mexican Judge Zubia has been suspended. The report lacks confirmation, but the general impression is that the report is true. The difficulty with Consul Brigham had nothing to do with it.

WACO, Sept. 9.—Another petroleum well has been discovered two miles from Eddy in this county. The oil was struck at a distance of 215 feet from the surface. The well also emits large quantities of natural gas. This find is on the farm of Mr. Walter Erath, who will take steps to develop the well, or gas, or both.

NEW YORK, Sept. 10.—An instance of the betting craze hereabouts is reported from Mount Vernon, a suburb on the New Haven road. A dead body was found alongside a fence there. It lay all day awaiting the Coroner, and hundreds of people looked at it. Some thought it was a peddler called French John, living a few miles back in the country. Opinions differed, and bets were laid at from 50c to \$50. A messenger was sent to French John's house. When he returned with him about \$1000 changed hands among villagers.

\$200 REWARD.

\$100 for the Horses and \$100 for the Thieves.

The following described horses were stolen from Endee, San Miguel county, New Mexico, on May 25, 1887:

One blue roan mare, 14½ hands high, branded (fish) on left shoulder, 8 (inverted B) on right shoulder

One bay horse, branded JV on left shoulder, has white star on forehead.

One bay horse, branded JV on left shoulder, three white feet, on one fore foot in an old scar from cut of barb wire.

One bay horse, branded VXA on left hip and slit eared.

One roan horse, branded (fish) and (W) (running W) on left shoulder.

One dun horse, branded (OK) (OK connected) on left hip.

Anyone knowing their whereabouts will please address A. S. C. FORBES, Care Day Bros., Endee, San Miguel Co., N. M.

THE STATE OF TEXAS, To all persons interested in the administration of the estate of Jonathan Petty, deceased.

P. S. Browder, administrator, has filed in the county court of Dallas county, final account, showing the condition of said estate of said Jonathan Petty, deceased, which will be heard at the next term of said court, commencing on the first Monday in November, A. D. 1887, at the court-house in the city of Dallas, at which time all persons interested in said estate may appear and contest said account if they see proper.

Witness, W. M. C. Hill, county clerk of Dallas county, Texas.

Given under my hand and the seal of said court, at office in the city of Dallas, this 1st day of September, A. D. 1887.

W. M. C. HILL,
County Clerk, Dallas County, Texas.

By L. H. HUGHES, Deputy.

FACTS

Concerning the Eclipse Windmills and the Stars.

COLORADO, TEXAS, Sept. 5, 1887.

People who are interested can easily ascertain by writing to the management of the XIT (Capitol Syndicate) ranch, Yellowhouse, Texas, via Colorado, Texas.

1. That the Star mill has not proved satisfactory on the ranch.

2. That this Kansas City purchase of three car-loads of Star mills and fixtures was not based on the merit of the mill, and that that purchase was the one that occurred in the confusion incident to a change of management, in fact was among the last acts of the former manager.

3. That the new management have placed orders for the Eclipse mill to the extent of two car-loads, and fixtures to the extent of eight car-loads. And that these orders were based entirely on the superior merit of the Eclipse mill and fixtures over those furnished by the Star company.

4. That large quantities of Star fixtures have been thrown away and their places filled by Eclipse fixtures of superior merit.

5. That the superintendent of windmills who made the glowing report in favor of Star mills was at that time an agent for the sale of the Star, and that his report was not founded on facts.

6. That cattle did break into an inclosure within which there was an open well sixteen feet square and twelve feet deep, that many were crowded into the well and drowned, and that a horse-power and not a windmill was located at that well.

7. That it is upon such stale and unfounded rumors that the Star folks base their vague hints about large losses of cattle.

Now we challenge the Star people to come forth from their car-loads of fixtures and name the number and size of mills sold to the different ranches.

If they will produce a ranch owner of any note who will say over his own signature that he has used both Star and Eclipse mills and prefers the Star, we will refer to five who have adopted the Eclipse after using both, and who will say that their action is based on the superior merits of the mill.

We can name railroad companies who are using in the aggregate over 1400 large Eclipse mills.

We challenge them to name and locate more than ten of their mills in use on railroads in the United States.

Railroads select and use the best. We answer their questions:

To the first of Flint & Walling Co.'s questions propounded in last week's issue, we will simply say, no.

To their second, third, fourth and fifth we say, Mr. B. F. Williams has been engaged in making a collection of views of the ranch houses, cattle, pumping appliances, etc., for the purpose of furnishing such collection to the owners of the ranch at Chicago. While on a trip for this purpose, among others he took a view of the wrecked Star mill. It was not done at our instance, nor for the purpose of furnishing us with a copy. We have a copy, however, which our Mr. Marshall procured, but without Mr. Williams' knowledge or consent.

6. The wrecked Star mill was erected under the direction of the former superintendent of windmills. The first Eclipse mills on the ranch were also erected under his direction. We have positive proof that he ordered the counter-balance placed on wrong side of wheel on the Eclipse mills, while he ordered them placed in their proper positions on the Star. Any mechanic acquainted with windmills will know that this would handicap the Eclipse mills fully 30 per cent. Now will the Flint & Walling company explain to the public certain letters written by the superintendent regarding commissions on sales of Star mills in other places.

We are glad that the Flint & Walling company make these interrogations, for by them the public will see that they are well acquainted with certain peculiar methods of procuring trade. They may be adepts at these methods; we do not practice them.

The Eclipse windmill is guaranteed by the Fairbanks Scale company. This is sufficient guarantee for most business men in the United States that its manufacture, introduction and sale is conducted squarely and honestly.

JONES & MARSHALL, Agents for Eclipse Windmills in North Texas.

The latest styles of fall goods, the most novel and attractive productions of Eastern factories, have begun to arrive at the B. C. Evans Co. store, and will be sold at the cheapest prices consistent with legitimate business.

School Lands.

The following letter is of extensive interest, as it contains specific instructions regarding applications to purchase school lands:

A. D. Tomb, Esq., County Clerk, Oldham County, Tascosa, Texas.

"Dear Sir:—Herewith is handed you a list of the unsold public free school lands in Oldham, Potter and Deaf Smith counties, showing the classification and value of each survey, in accordance with chapter 99, general laws of Texas, acts of the Twentieth legislature, pages 83 to 91, approved April 1, 1887.

"Section 6 of said chapter makes it your duty to record said list in a well bound book, which shall be kept in your office open to public inspection.

"You will please acknowledge receipt, furnishing this department with a certificate showing the date said list was filed in your office for record. So soon as this list shall have been filed in your office, the lands therein described are on the market for sale, upon the terms and conditions prescribed by law.

"Inclosed forms of application and affidavit to purchase, with obligation attached, must be followed strictly by applicants to purchase.

"For the information and guidance of said applicants, the following instructions are given, to-wit: Any bona fide actual settler, residing on any of this land on the 4th day of July, 1887, has six months from date of filing of this list in your office in which to make his application to purchase land classed as agricultural, or watered. He may purchase not less than one quarter nor more than the whole of one section.

"If two quarters are purchased, said two quarters must constitute a given half of said section.

"Of lands classed as dry grazing he may purchase not less than one quarter nor more than four sections.

"A part of two sections cannot be purchased without taking the whole of one of said sections.

"A part of three sections can not be purchased without taking the whole of two of said sections.

"A part of four sections cannot be purchased without taking the whole of said sections.

"If two or more sections are purchased, such sections must be contiguous, or as nearly so as the classification and other circumstances permit. The above refers to leased and unleased lands alike.

"Leased lands are subject to sale as follows, to-wit: All bona-fide actual settlers who were residing on said lands at the date said lease was filed for record in the county clerk's office may purchase the same as if said lease did not exist, and will be allowed six months from the date of filing the appraised list of said lands in the county clerk's office in which to make application to purchase.

"All lands classed as agricultural, except such sections as have improvements thereon belonging to the lessee to the value of \$100, are for sale.

"All lands classed as grazing are not for sale except, as hereinbefore specified, without the consent of the lessee.

"All persons entering upon leased land for purpose of settlement must make application to purchase within thirty days from date of settlement, otherwise said lands will be for sale to another applicant.

"All applications not in accordance with the foregoing instructions will be returned for correction before filing in this office. Respectfully,

R. M. HALL, Commissioner General Land Office.

The Wise Man,

With a little money in his pocket and a family to furnish, goes to B. C. Evans Co.'s to buy his fall goods, for it is there that he can make his cash go the longest and get the tastiest goods to be had anywhere in the state.

THE STARS STILL SHINE.

One year ago we only had one Star mill on the Capitol Syndicate company ranch. Our competitors had twenty five times as many. Afterwards two more Stars were gotten, but during the spring two out of three were wrecked. In spite of the wrecks, and in spite of the fact that they had twenty-five times as many as we, and were given quite an order to partly make up a loss of a number of thousand dollars on a well contract—with these advantages to hold the field in their favor, we now have nearly one-third as many STAR MILLS on the Capitol Syndicate company ranch as our competitors.

What a commentary on their self-boasted superiority!

In the winter of 1886 we learned that the Capitol Syndicate company were going to sink wells and would probably put up about one hundred wind mills. To get an order of this size would be a prize worth working for.

We found that our competitors had already sold them twenty-five mills, and had gotten a large well contract. The latter, however, proved to be a losing venture.

The management believed our competitors' mill as good as any. With these points against us, we decided to work for the prize in every honorable way. Convinced that the STAR would win its way (as it always has in every competition), we succeeded in getting one on trial; then two more were gotten, and we felt that with the opening of 1887 we had a fighting chance. But some strange coincidences were to take place, or were they fatalities? The management informed us that the mill had done all we had claimed, and we were entitled to pay for it. This was on his way to the ranch, and about time to want some mills. On arrival at the ranch word was brought that a Star mill was wrecked; that stopped our sale, and our competitors got an order for four or five mills.

Time passed on. Again the manager was returning to the ranch, and we were accompanying him. More mills were needed, but strange coincidence or fatality, we learned another Star mill was wrecked. The only two fourteen-foot Star mills on this ranch wrecked, when we had them on ranches adjoining south and east, and the hundreds and hundreds we have had up for years, strange fatality or coincidence, these were the only two we have ever had wrecked. Of course our sale was off, and our competitors got orders for ten or twelve more.

We sent our own erector to replace the mill. The superintendent of wind mills on the south end of ranch told him they could put it up. The erector replied he was sent to put it up, and was told that they had no time to take him there, and if he went it would have to be by our own way and expense. Our erector applying to the manager, he was at once sent to the place. But strange coincidence, the superintendent of mills appeared on the scene (though he had no time), 70 miles away, and took a negative of the wreck before our erector could get it down.

And strange coincidence or fatality, in a few days (unbeknownst to the superintendent of mills) our competitors had a copy and were showing it, hoping to damage our sales, as we suppose.

The superintendent, or assistant manager, on the north end of the ranch placed an order for THREE CARLOADS OF STAR WIND MILLS AND FIXTURES, but we would not place the order on our books until we were assured that they would only be used on the north end of the ranch, as we were getting suspicious of the strange fatality that seemed to only strike our mill on the south end.

We published this order to counteract the effect of the photograph, and to show that the Star mill was not condemned, and was still winning its way.

Strange coincidence, the superintendent of wind mills on the south end wrote a letter to our competitors to publish, denying that such an order had been given on the south end of the ranch. (We never said it had). Wonder if he wrote it unbeknownst to himself.

And we are also led to wonder if the same fatality would have clung to us if we had solicited another order on the south end, and the third mill been wrecked too.

And now, with the prize in view, we being on the outside, trying to get in, with our competitors already on the inside, remembering that all of the coincidences or fatalities happened, and all the injuries were upon the Star mill, and not one on our com-

petitors, we leave it to the public to judge which used any snide tactics or unfair means, if any. And since receiving another carload order, making nearly one-third as many mills as our competitors, would ask if we cannot properly claim a victory for the STAR.

We will say that the former superintendent of mills (who is absent from the state) never sold a Star mill until after leaving the syndicate's employ; that he has never received a nickel or any other compensation in any form or manner from us for any services of any kind before or while he was in the employ of the syndicate. After tendering his resignation he did write us in regard to commissions we would allow him if he could sell any mills, as he had fallen in love with the STAR, to which we replied.

His differences with the company were adjusted, and he remained with them some time afterwards, but did not sell a mill, nor to our knowledge did he try to, until after leaving their employ. Since then he has shown his faith in the STAR by selling it, not, however, on a salary.

We asked who erected the Star mill? Was any change made in it? If so, by whom, and for what purpose? They tell us under whose direction it was erected, but dodge the question, "WAS ANY CHANGE MADE IN IT? IF SO, BY WHOM, AND FOR WHAT REASON?" for if that question was answered truthfully, the public might find an explanation of one of the strange coincidences.

Their silence answers yes to our seventh question, to-wit: That the management did know of the wrecks (and considered that it was in the fault of erection, and not otherwise) before placing an order for three carloads.

Growing from the smallest to the largest windmill factory in America, we have not been able to make all the mills we could sell, and we have had no need of soliciting the railroad trade. But to satisfy J. & M.'s curiosity will say that a number of railroads having found out the merit of our goods, are now placing their orders with us without solicitation.

Answering their statement that five parties who had used both mills would decide in favor of their mill, will say that after starting our branch house in this state we found that our twelve-foot mill needed strengthening in two or three places to do the heavy work required of them, which we have done. Again, some of our fixtures, while giving satisfaction North, were not adapted to the wants here, and we furnished the change free of cost to those who made their complaints known to us. Those who have staid by us have been fully satisfied without trying any other mill.

And yet there may be five out of the hundreds of ranchmen we have supplied who could not wait a little on an overcrowded factory, and have placed their favors elsewhere. To such we would say, a little patience and you would have found that our goods were giving the best of satisfaction.

If we wished to adopt the tactics of our competitors, would inform them that for every place where they would show that an Eclipse had replaced a Star of our manufacture, we would give address and location of a hundred places where a STAR has replaced the Eclipse.

We can furnish an Eclipse now that was not up four months. A STAR now occupies the same tower, and gives satisfaction to the owner. To those that wish, we can send a photo of the only Eclipse (a total wreck) left standing of the goodly number that were put up in the city of Fort Worth four or five years ago, which plainly shows that an Eclipse is but a shadow that soon passes away.

We never knew general agents, or even agents, that manufacturers held themselves responsible for their actions to sell two different mills. We have always held Fairbanks & Co. in high esteem in business and otherwise, and never knew of their using snide tactics in any competition, nor do we consider them responsible in this instance.

We regret very much that we have seen the necessity to pay any attention whatever to what has been done, viz: To the charge that we were misleading the public. Those interested can very readily find out which is the best mill by testing them side by side, with exactly the same conditions. They would then soon see why the STAR has had such remarkable success, which is sold strictly on its merits, and all our patrons are our references.

FLINT & WALLING M'FG. CO., Manufacturers of Star Wind Mills, pumps, etc., Fort Worth, Texas.

Good Agents Wanted.

Ladies and gentlemen to canvass for 2500 different newspapers and magazines. Good pay. Send for 100-page catalogue. Address John R. Reed, box 85, Canton, Ohio.

Stock News in Tom Green County.

San Angelo Standard.

Messrs. Cartledge, Littlepage, Childress, Walter and L. B. Harris started a herd of 300 mixed fat cattle from their Colorado river ranch to Chicago, via Ballinger, Monday. Frank and Ralph Harris and Bud Littlepage will go through.

Jonathan Miles started a herd of 86 fine mares from his ranch adjacent to town Monday. They will be shipped via Ballinger to Kansas City.

Inspector Herf Buchanan informs us that a herd of 322 beeves belonging to the Iowa and Texas Cattle company left the San Saba School Land pasture Wednesday. They will go to Chicago via Colorado City.

Wilson & Tankersley shipped 500 7D cows from Colorado City Monday. They made a train of 21 cars. Five cars will proceed to St. Louis, and the balance will be unloaded in Dallas county and fed during the winter.

S. J. Blocker received 1300 young steers at his North Concho pasture Monday.

Last Week—Hinde Bros. & Campbell sold 900 muttons to E. R. Jackson at \$1.75 per head.

Commodore Foote will stall-feed 25 head of select steers at his Lipan ranch this fall and winter. He will feed them 100 days on sorghum and then put them on the market.

Davidson Bros. sold to Comer Bros. Monday 75 bucks and to B. F. Bird 12, all at the rate of \$15 per head.

Robt. Duncan, manager for Capt. Duggan, left this week with 2500 ewes for Geo. Bird's old Menard county ranch, which the captain recently purchased.

Nubb. Pulliam will ship about 500 cows to Chicago near October 1st.

FROM MEDINA COUNTY.

Scrubs and Newspapers—Local Trading.

DEVINE, TEX., Sept. 13, 1887.

Editor Texas Live Stock Journal:

The great stock interest of West Texas has retrogrded, until it lies dormant for want of some man, who has time, money and brains, to develop a more profitable way of raising stock; therefore we have but little to report this time, for this enterprise is not very promising at present, and no news to be got on this subject. But time is developing our case, and we are being aroused to a sense of feeling for all who are engaged in this enterprise. 'Tis more preferable if a more radical change could be wrought here in order that those who are engaged in this business at present may be able to stand until the change is made. This change is to raise finer stock and less of them.

We behold our East and North Texas neighbors have been made to see their error and have departed from it. They are rich while we are poor. They have fine stock while we have scrubs. And is it possible that we have had meal sacks over our eyes and could not see the error of our way? Ah! my friends, when I ask you to subscribe for the STOCK JOURNAL, only those having good stock respond to my call. Why do you say you have no money to spend for so valuable a paper as the TEXAS LIVE STOCK JOURNAL, when the error of your ways as stock-raisers is clearly shown you in that paper?

Fifteen years ago our lands had no other fence around them than the Rio Grande and the Gulf of Mexico; today fences are all around us. Can you raise a six-dollar cow any cheaper than one worth fifty or more? If you can, continue in your way and see if your doom is not cast now for a poor man the remainder of your days. Every man who makes farming his vocation knows that West Texas is especially adapted to the raising of grasses, and why raise scrub stock when you have feed and a climate especially adapted to the raising of stock that will make you rich in this world's goods? I hope

this change may be made soon, for the good of all.

We can't say our interests have all died. Messrs. Herring & Thompson of Devine have gone to Georgia with two car-loads of mixed horses, where they anticipate a ready and profitable sale. Messrs. J. E. Long and Thompson just returned from New Orleans, where they made ready sale of their cow stock. Mr. R. F. Morris, our old merchant, has gone to Little Rock to sell a car-load of horses. Many others are engaged in this business here.

We are glad to state that our cotton and corn farmers have begun to vary their crops, and success has been their lot. They have shipped this season two car-loads of melons to Kansas City.

We think that in order that our stock raisers and farmers may advance financially their cotton and corn patches will have to be moved further east. Advancement is our motto.

To buyers: We want to sell our fat scrub stock, in order to raise money to purchase fine stock. Come and give us a call, and see if we have stock fit for market. M. W. D.

Largest stock of tin plate, metals, sheet iron, iron roofing and siding in Western Texas, Piper & Schulthess, San Antonio, Texas. We sell at factory prices, only freight added.

Every live cowboy has on his saddle the lightning girth fastening.

| Corns, | Cracks. | |

THIS GOOD OLD STAND-BY

accomplishes for everybody exactly what is claimed for it. One of the reasons for the great popularity of the Mustang Liniment is found in its universal applicability. Everybody needs such a medicine. The Lumberman needs it in case of accident. The Housewife needs it for general family use. The Cannaler needs it for his teams and his men. The Mechanic needs it always on his work bench. The Miner needs it in case of emergency. The Pioneer needs it—can't get along without it. The Farmer needs it in his house, his stable, and his stock yard. The Steamboat man or the Boatman needs it in liberal supply afloat and ashore. The Horse-fancier needs it—it is his best friend and safest reliance. The Stock-grower needs it—it will save him thousands of dollars and a world of trouble. The Railroad man needs it and will need it so long as his life is a round of accidents and dangers. The Backwoodsman needs it. There is nothing like it as an antidote for the dangers to life, limb and comfort which surround the pioneer. The Merchant needs it about his store among his employees. Accidents will happen, and when these come the Mustang Liniment is wanted at once. Keep a Bottle in the House. 'Tis the best of economy. Keep a Bottle in the Factory. Its immediate use in case of accident saves pain and loss of wages. Keep a Bottle Always in the Stable for use when wanted.

ROUND-UPS.

Col. C. C. Poole, one of the proprietors and manager of the Main Concho Land & Cattle company, has returned from Austin, where he closed the trade with Holloway & Adams for the purchase of a 44,000-acre ranch in Borden county, forty miles northwest of Colorado City. This ranch has four permanent springs, the best grass in Texas, three houses, and is inclosed by a strong barbed wire fence. It will immediately be stocked with 4000 LT cows and steers.—San Antonio Standard

San Angelo Standard:—Some of Wm. S. Kelly's sorghum will cut 7 or 8 tons to the acre, and he will have altogether 300 or 400 tons. He is making arrangements to fatten about 50 steers on sorghum, after feeding upon grass, and if successful, the experiment will certainly revolutionize cattle fattening in this section.

Hunter & Evans' Circular:—A dozen Elgin people are going to engage in cattle raising. They have leased of the State of Texas 40,000 acres of land and will fence it. It lies between the estate of M. W. Du Boise, an Elginite, who took a competency there and doubled it, now owning 42 square miles of well stocked land, and the 300,000 acre pasture of a Mr. Gibbs who is interested in the venture. A company has been incorporated and \$50,000 will be invested in cattle to begin with. Just now the law requiring the fencing of ranches driving the less wealthy herders out of business and cattle may be picked up very cheap.

San Angelo Standard:—Col. C. C. Poole, one of the proprietors and manager of the Main Concho Land and Cattle company, has just returned from Austin, where he closed the trade with Holloway & Adams for the purchase of a 44,000-acre ranch in Borden county, forty miles northwest of Colorado City. This ranch has four permanent springs, the best grass in Texas, three houses and is inclosed by a strong barbed wire fence. It will immediately be stocked with 4000 LT cows and steers.

Dallas News:—At the grounds of the Texas State Fair at Dallas there is exhibited a freak of nature, it being a bullock with the hind half of a calf grown out of its right shoulder. The muscular action of the calf seems to be independent of the bullock.

Cheyenne Journal:—Fred Hasbrough of the Panhandle of Texas, was a caller at the Journal office during the week. Mr. H. is the confidential representative of the English shareholders of the Espuela Land and Cattle company (limited). He is practical, common sense young man and instead of being a spy in the ranks is an active co-worker. This company owns half a million acres of land in Dickens and Crosby counties, Texas, and it is all under fence. The range is an extra good one and fully stocked with well graded cattle. The calf brand last year was 15,000 and this year run up to over 18,000. S. W. Lomax is the general manager and one of the most energetic and pushing men in the south. Under his management the affairs of the company are prospering, notwithstanding the low prices at which they are this year having to sell the surplus young stock. The company is fortunate in having so active and practical a man as Mr. Lomax in charge and so long as he is at the helm there will be success.

Denver Range Journal:—Col. W. T. Holt this week purchased one of the Texas herds which has been holding in Colorado. He paid \$12 around for 2000 head of twos and threes, steers. They will be run on his Hugo range.

W. W. Tuttle is in Denver, with a herd to dispose of.

An attachment has been run on the Wiren interest in the Nichols, Wiren & Jones cattle on the lower Gila, Arizona. Mr. Jones owns a one-half interest in the cattle, of which there are over 3000.

The cattle are now being rounded up. Only a few years ago Mr. Wiren was considered one of the wealthiest men of Texas. His present trouble was brought about by being on a note as security for the Peacock Brothers, who failed a few months since for several hundred thousands of dollars.

Denver Range Journal:—Mr. Thorp Andrews of the bureau of animal industry is in Denver. He says he is now passing as one of the low-price sufferers.

A Novel Bet.

While I am not a betting man, said F. J. Cheney, of the firm of F. J. Cheney & Co., I considered it my religious duty to make that follow a bet. You see, he was about dead, and I guess he would of died before spring if I had not of got him on the bet. You know some men had rather lose their life than lose a hundred. Well, he was one of that kind, and we both came near being out, but I saved my hundred and it only cost him ten dollars. How's that? He sent for me one day and said the doctors had all given him up to die, with the catarrh. I told him that I would bet him \$100 that Hall's Catarrh Cure would cure him, or I would give him \$100 if it failed. He took the latter proposition. This was three months ago; you see how he looks now, don't you? As well as anyone, and a dandy.—American, Toledo, O.

THE FAMOUS
Custom-Made Plymouth Rock \$3 Pants

Why was it that over half of our mail orders for the first six months of this year were from customers who had ordered before? There can be but one answer: Because they were satisfied with the quality, fit and wear of these justly famous goods. To fully satisfy these patrons, we have added a Coat and Vest Department, so that we are now making complete suits to order, and overcoats also. Full line of samples mailed upon receipt of 6 cents, including self-measurement blanks and (if you mention this paper) a good linen tape-measure. If you want a pair of these Pants, and cannot wait for samples, send us your waist, hip and inside leg measures, together with \$3, and 35 cen. to cover postage (or prepay express) and packing, and we will take all risk of pleasing you. We refund money for any cause, if buyer wishes to return goods, or, if desired, we make another pair. The American Express Co. (capital \$20,000,000) will cheerfully reply to any inquiry about us addressed to their Boston office.

Good Advice to Stockmen.

It stands a stockman in need to exercise economy in his household expenses, as well as other persons. The days of spendthrift generosity, when no thought was had of a hundred or so dollars, is no more. The wise purchaser saves money where he can, and gets the best goods for as little money as possible. Therefore, after pricing goods elsewhere, he usually stops at B. C. Evans Co.'s and lays in his supplies, as there he can get the latest and most fashionable goods for his family at prices that competition cannot meet. The fall stock now on hand is especially worth an inspection, as it embraces the novelties of the season and is offered at the lowest legitimate prices. Call at their store, when in Fort Worth, and see for yourselves.

Silver Loaf.

Is properly named. Bread made with this baking powder is as light and nutritious as it is possible to be made. It never fails when the directions are followed, hence there is never a word of complaint heard against it. The inexperienced cook is able to make as good bread with it as the professional baker, simply because its ingredients are so compounded as to make failure impossible when the directions are followed; a trial is all that is necessary to make it indispensable to all well regulated households. J. H. Brown guarantees this.

No saddle is complete without Tackabery, Shaw & Co.'s lightning girth fastener.

To the Afflicted.

We call the attention of our readers to the advertisement of Dr. J. R. Pollock in this issue of the JOURNAL. To those who are afflicted with rectal troubles we can recommend the doctor as a specialist in that particular; he having effected some remarkable cures in cases which had become chronic. Dr. Pollock successfully treats consumption, bronchitis, catarrh, dyspepsia and all other chronic diseases with oxygen and electricity. Correspond with the doctor if you need the services of a reliable physician who can give the best of references.

Don't Waste Time.

With poorly manufactured or impure baking powder. Buy a package of Silver Loaf and give it a fair trial. If you do this you will never regret it. How many disastrous failures in making bread cause troublous vexation in the household! This can all be obviated by a trial of Silver Loaf. J. H. Brown guarantees its purity, strength and efficiency.

Just Lovely.

Those watered velvets at Randall & Chambers Co.'s.

Worth Your Attention.

Cut this out and mail it to ALLEN & Co., Augusta, Maine, who will send you free, something new, that just coins money for all workers. As wonderful as the electric light, as genuine as pure gold, it will prove of lifelong value and importance to you. Both sexes, all ages. ALLEN & Co. bear expense of starting

you in business. It will bring you in more cash, right away, than anything else in this world. Anyone anywhere can do the work, and live at home also. Better write at once; then, knowing all, should you conclude that you don't care to engage, why no harm is done.

A full line of Zeigler's kid shoes for ladies and children at Randall, & Chambers Co.'s.

Agents Wanted.

We call attention to the advertisement of S. B. Kirby, agent for the new Wilson sewing machine, 212 West Markham street, Little Rock, Ark. Mr. Kirby wants local agents in every town in Texas and elsewhere to sell the new Wilson, and offers extra inducements. Write him for particulars

Dr. B. A. Pope.

Formerly of New Orleans, late of Galveston. Practice confined to diseases of the eye, ear, nose and throat. Office 912 Elm street, Dallas. Office hours from 9 to 1 and 2 to 4.

Use Silver Loaf Baking Powder.

For Rent.

Fenced pasture of 45,000 acres in Wichita county, Texas. Good grass, splendid winter protection, 6 miles of front on both sides of Big Wichita river. Will rent for one or two years. Possession given at once. Ranch house, horse pasture, etc.

R. E. HUFF,
Wichita Falls, Texas

If afflicted with sore eyes use Dr. Isaac Thompson's eye water. Druggists sell it at 25 cents

ROUGH ON RATS
TRADE MARK
DON'T DIE IN THE HOUSE

Gone where the Woodbine Twineth. Rats are smart, but "ROUGH ON RATS" beats them. Clears out Rats, Mice, Roaches, Water Bugs, Flies, Beetles, Moths, Ants, Mosquitoes, Bed-bugs, Insects, Potato Bugs, Sparrows, Skunks, Weasel, Gophers, Chipmunks, Moles, Musk Rats, Jack Rabbits, Squirrels. 15c. & 25c.

HEN LICE.

"ROUGH ON RATS" is a complete preventive and destroyer of Hen Lice. Mix a 25c. box of "ROUGH ON RATS" to a pail of whitewash, keep it well stirred up while applying. Whitewash the whole interior of the Hennyery; inside and outside of the nests. The cure is radical and complete.

POTATO BUGS

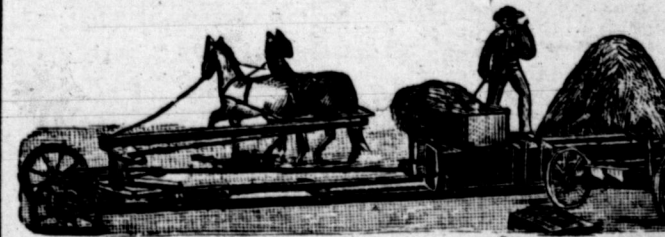

For Potato Bug, Insects on Vines, Shrubs, Trees, 1 pound or half the contents of a \$1.00 box of "ROUGH ON RATS" (Agricultural Size) to be thoroughly mixed with one to two barrels of plaster, or what is better air slacked lime. Much depends upon thorough mixing, so as to completely distribute the poison. Sprinkle it on plants, trees or shrubs when damp or wet, and is quite effective when mixed with lime, dusted on without moisture. While in its concentrated state it is the most active and strongest of all Bug Poisons; when mixed as above is comparatively harmless to animals or persons, in any quantity they would take. If preferred to use in liquid form, a tablespoonful of the full strength "ROUGH ON RATS" Powder, well shaken, in a keg of water and applied with a sprinkling pot, spray, syringe or whisk broom, will be found very effective. Keep it well stirred up while using. Sold by all Druggists and Storekeepers. 15c., 25c. & \$1. E. S. WELLS, Chemist, Jersey City, N. J.

Price Currents mailed regularly on application. For further information apply by letter or telegram.

KANSAS CITY STOCK YARDS,

Are by far the most commodious and best appointed in the Missouri Valley, with ample capacity for feeding, weighing and shipping Cattle, Hogs, Sheep, Horses and Mules. No yards are better watered, and in none is there a better system of drainage.

HIGHER PRICES ARE REALIZED

Here than in the markets East. All the roads running into Kansas City have direct connection with the yards, which thus afford the best accommodation for stock coming from the great grazing grounds of

Colorado, New Mexico, Texas and Kansas,

And also for stock destined for Eastern markets. The business of the yards is done systematically and with the utmost promptness, so that there is no delay and no clashing, and stockmen have found here, and will continue to find, that they get all their stock is worth, with the least possible delay. This company has established in connection with the yards an extensive Horse and Mule market, known as the

KANSAS CITY STOCK YARDS COMPANY

HORSE AND MULE MARKET,
