 We solicit your business and invite correspondence.

—THE—
Union Stock Yards,
 CHICAGO, ILLINOIS.

The Largest and Best Live Stock Market in the World

The entire system of the Railways of the West centers here, making the Union Stock Yards the most accessible point in the country. The capacity of the yards, the facilities for unloading, feeding, reshipping, or for the sale of stock are unlimited. There is no point in the United States where stock will find as satisfactory market and sale to the shipper as the Union Stock Yards.

The quality of feed and accommodations given cannot be surpassed at any point in the country. The great city of packing houses that are located here, the large bank capital and the large number of buyers for the Eastern market constantly on hand, make this a quick, active and independent market. Cattle from the North, West and Southwest should reach this market without fail, in order to procure the best prices. There is now established a direct Cattle, Hog, Sheep and Horse trade between these yards and the most important markets in Europe. Agents constantly here from London, Paris, Hamburg, Liverpool and Manchester. The daily shipments from these yards to Europe are from one to two steamerloads. THIS IS STRICTLY A CASH MARKET.

N. THAYER, President.
GEO. T. WILLIAMS, Gen'l Superintendent.
J. B. SHERMAN, Secretary and Treas.
J. C. DENISON, Ass't Sec. Ass't Treas.

Co., 406 cows, 839 lbs, \$1.95; Parker, 287 sheep, 64 lbs, \$3.37; 247 sheep, 80 lbs, 2.80; McKenzie, 26 cows, 918 lbs, \$1.85; 65 calves, each \$6; 142 calves, each \$7.50; Gilliland, 60 steers, 663 lbs, \$2.15; Hayes, 187 cows, 850 lbs, \$1.55; 67 steers, 1082 lbs, \$2.60; Sanders, 170 calves, each \$7.50.

ST. LOUIS.

St. LOUIS, Nov. 9.—Market to-day a little stronger on light receipts. Smith & Forsythe had a train of Texas steers of 900 lbs average on the market, which brought \$2.66. Cassidy Bros. & Co. were the sellers.

Scaling & Tamblin sold for Burton & West of Sweet Springs some steers of 970 lbs at \$3, and cows at \$2 About all found sale at that range.

Sheep in light supply. Common dull, good ones scarce and wanted.

NEW ORLEANS.

NEW ORLEANS, Nov. 9.—Full supply of common to fair beef cattle. Beeves in demand, calves and yearlings firm and in light supply. Hog and sheep market fully supplied.

QUOTATIONS.—Choice beeves, per pound gross, 3@3½c; common to fair, 1½@2½c; good fat cows, \$13@16; common to fair, \$8@12; calves, \$5.00@8; yearlings, \$7@12; good fat corn-fed hogs, per lb gross 5½@6½c; common to fair 4½@5c; good fat sheep, each \$2 @3; common to fair, \$1@1.75.

GALVESTON.

[Reported by Wintree, Norman & Pearson].

BEEVES AND COWS—Choice, per lb, gross, 1¼@2c; common, per head, \$8@10; 2-year-olds, choice, per head, \$8@10; common, per head, \$6@7; yearlings, choice, per head, \$6@7; common, per head, \$4@5; calves, choice, per lb, gross, 2@2½c; common, per head, \$3.00@3.50.

SHEEP—Choice, per lb, gross, 3@3½c. Hogs—Choice corn-fed, per lb, gross, 6@6½c; mast-fed, per lb, gross, 5@5½c.

REMARKS.—Market full of common with prices weak and declining. Calves and yearlings in full supply. Fat sheep and hogs in demand at quotations. In fair demand. Market full of common cattle. Calf and yearling market active. No fat muttons offering. Hogs in demand at quotations.

SAN ANTONIO.

The local market has been very quiet, this branch of business being no exception to the general rule of dullness just before election. No new features were developed, but the prospects are that now the movement will be livelier and especially it prices North offer any inducement to shipper to offer fair figures for beeves.

Quotations are as follows: CATTLE—Steers, shippers and butchers, \$14@16; cows, fat, from \$10@14; light, at \$7@10; yearlings, \$3@7.50; calves, \$3@4.

SHEEP—Muttons, \$1.00@2.00. Goats, average stock 50c@1.25 per head. Hogs—Natives \$4.50@5.50

DALLAS.

CATTLE.—Choice fat feeding steers, \$17@20; butcher steers, \$14@18; fat cows \$13@15; choice veal calves, 3c; bulls, 1c; milch cows, \$25@30.

Hogs.—Ready sale at 6c. SHEEP.—Choice fat sheep, 2¼@2½c; goats, \$1.25@1.50.

Good milch cows find ready sale, also good fat butcher cows; feeding steers are in ready demand.

The Earth Torn Up.

PITTSBURG, PA., Nov. 5.—An explosion of nitro-glycerine at Shamokin was felt here, it was so tremendous. The cause of the explosion is a mystery. It is supposed, however, that a tramp who was seen in the neighborhood yesterday, being ignorant of his danger, in some way agitated the stuff and the explosion followed. There was between two and three tons of nitro-glycerine in the magazine, and the concussion shook the very foundations of the houses between Rochester and Pittsburg. The earth was torn up a distance of 500 yards. Trees an eighth of a mile away were rent asunder, and many houses were wrecked. The residence of Goode and William Wilson and Thomas McCoy, situated half a mile away, were completely shattered and the occupants thrown through the windows. Fortunately they were not seriously injured, and as far as can be ascertained no one was killed, with possibly the exception of the tramp. The loss will be heavy, but cannot be estimated.

Buffalo Bill and some of the lords of England are on a hunt in the northern plains of Nebraska. Bison William seems to have been a genuine fit for the sporting nobility of England.

People who went to the shores of the great Yukong river in Alaska expecting to pick up gold and silver have been disappointed. Mining, as they say, did not "pan out well."

Auctioneer, Col. J. W. JUDY.

G. W. HENRY,

171 and 172 Home Insurance Building, CHICAGO, ILL.

100 high-grade Hereford calves, 6 to 10 months old, half each sex, at private treaty, cheap.

ROUND-UPS.

Colorado Clipper:—Barnett & McIntyre this week sold to G. E. Light of Pilot Point, 345 three and four-year-old steers at \$19, and 25 cows at \$12. Mr. Light shipped them to Pilot Point Thursday to feed during the winter.

New Mexico Stock Grower:—The butchers of Southern California maintain that they will find a market for all the serviceable beef that Arizona can supply for the next six months. The necessity on their part to use the healthy beef of that territory is made doubly imperative by reason of the discovery, as will be seen elsewhere in these columns, of diseases among the cattle from San Francisco to Santa Barbara, and which are likely to cut off supplies for the butchers from that entire section for some time to come.

Tascosa Pioneer:—Clay Mann, while at Amarillo last week shipping beeves, transferred his ranch in San Miguel county, New Mexico, to I. T. Ivey, the consideration named being a heavy one. There are those who do not believe it was a real sale, but of the same nature as the delivery to Joe Rainey a year ago. It is hoped that Mann and others situated like himself, who are scarcely blamed for the courses they see necessary to adopt, may come around all right, and be once more mighty cattle kings.

An Idaho paper is authority for the following: "The cattlemen of Southern Idaho will soon have disposed of most of their available cattle to Montana buyers at the present rate of procedure, and consumers may well expect a consequent rise in the market. It is now quite evident that the Montana syndicate, represented in this territory by Conrad Kohrs, the well-known cattle king of that territory, proposes to get a 'corner' on beef. He is still buying up and making large shipments to the ranges of Montana, and our own ranges are becoming correspondingly depleted."

Jersey Bulletin:—The "youngest" Jersey mother is again attracting considerable attention. The latest phenomena hails from Beloit, Wis., and is owned by Mr. H. Bartlett. It is said this heifer became a mother at thirteen months and made seven pounds of butter in a week. We agree with Hoard's Dairyman, whence we derive the particulars, that such precocity is most objectionable. The future usefulness of the animal will be greatly impaired, growth and development dwarfed, and the year that is gained in the beginning will be at the sacrifice of usefulness during the cow's entire life.

San Angelo Standard:—Wm. Vernon of the Berrendo Stock company, has purchased "Duke of Montrose," a fine stallion at Lexington, Ky. He is

a blood bay, full 15 hands high, with black points; is a large, well developed horse and possesses a wonderful turn of speed, having made a mile dash in 1:42½, and in his racing days won numerous purses. He is inbred to Waxy through his famous sons Whalebone and Whisker, and traces through the dams of Vandal and Riric to the famous old Lady Grey, the granddam of Lexington, from whom so many successful sires and brood mares have descended. He will be placed on the Berrendo ranch for breeding purposes, and is expected to arrive in a few days.

N. M. Stock Grower:—Notwithstanding the California market will take a large number of Arizona steers at from 2@2½c per pound, delivered at the railway, which is better by one-half cent per pound than the Eastern markets return, only a limited number of steers will be sold from that territory this fall owing to the generally poor condition the stock there is in, nothing being really fit for beef. This is the case, the Stock Grower is informed, particularly in Southern Arizona. Another fall, however, will find the cattlemen generally with a portion of the herd in condition for the butcher's market, as preparations are everywhere going forward now for the maturing of beef. The "hard times" is teaching the range cattle owner much that will be valuable to his business in the future.

Kerrville Eye:—Mr. Clayton Morris, a nephew of Morris, the owner of that great body of land on the Perdenalis, called on the Eye Thursday to renew his subscription. Mr. C. Morris and his brother are in charge of the valuable property. Twenty-five sections are enclosed and there is more good tillable land within the pasture than there is in the whole of Gillespie county. A blind was put on the fence this year and he says it took 80,000 feet to go round the fence, and cost for lumber, hauling and putting on at the rate of \$25.20 per 1000 feet. Mr. Morris says they are selling off their cattle and are stocking the pasture with fine horses, lately they have received a shipment of five blooded stallions from New York. The animals cost there \$500 each; at the same time, a number of blooded mares were shipped and are doing well, several of the mares have had colts. A one-mile race track is about completed on the ranch and will be used to train up the young stock. This ranch is one of the finest and most valuable properties anywhere in this section. Mr. Morris, the owner, lives in New York, is very wealthy and has not yet seen his valuable Texas property. The ranch lies 12 miles from Kerrville in the direction of Fredricksburg.

CAUTION.—Buy only Dr. Isaac Thompson's Eye Water. Carefully examine the outside wrapper. None other genuine.

An Open Letter.

CHICAGO, ALTON & ST. LOUIS R. R. Co.
OFFICE GEN'L LIVE STOCK AGT.,
ST. LOUIS, July 20, 1888.

The undersigned, as the live stock representative of the old reliable and well-known Alton road, respectfully calls the attention of live stock shippers to the improved fast time now being made by this line from St. Louis, Kansas City and Higbee to Chicago. The cars of this line are uniform in size, and the roof is higher and better ventilated than any other ordinary stock cars now in use on other lines. In addition, the Alton is furnishing more of the improved palace stock cars to Texas shippers than all other lines combined. The Chicago & Alton makes a specialty of the handling of live stock, and in the past five years shipments have largely increased each year, which shows to all fair-minded people that we give attention to our patrons. No other line in the country transports as much live stock as the C. & A. in proportion to mileage. The books of the stock yards at St. Louis and Chicago will verify this. I can say, without fear of successful contradiction, that the C. & A. in the past has done some good work in behalf of live stock shippers so far as rates are concerned. The officers of this company have at all times looked upon the prosperity of stockmen as being beneficial to the road. The success of one was prosperity for both. I respectfully solicit of shippers a good share of their consignments, and promise them good treatment, fast time and rates as low as any first-class road makes.

I sincerely thank live stock shippers for the large patronage given our line in the past, and ask for their friendship and support in the future.

Shippers desiring any information or favors, by addressing me at St. Louis, will receive prompt replies.

JNO. NESBITT,
Gen. Live Stock Agent.

He Got His Money Promptly.

Eufaula (Ala.) Times, Oct. 26.

As stated in this paper at the time, Mr. Jamie Rhodes of Eufaula, Ala., held ticket No. 46,755, in the October drawing of the Louisiana state lottery, for which he paid one dollar. It proved to be a lucky ticket, for it drew the capital prize of \$300,000 and entitled Mr. Rhodes to one-twentieth of that amount, or \$15,000. If the ticket had been a whole one for which Mr. Rhodes

had paid \$20, he would have received the whole \$300,000. On inquiry, Mr. Rhodes found that he held the right number and forwarded his ticket by express, for collection of his prize. It was promptly cashed in a bank at New Orleans, and the money was duly received by Mr. Rhodes in another day or two and it is now on deposit to his credit in the John McNab Bank of this city. Mr. Rhodes is a most worthy young man of about twenty-one years and of moderate means and but recently entered the mercantile business here in company with his brother-in-law, Mr. Ed T. Long. While his big luck was very gratifying, it did not daze or unnerve him, but he took it in a quiet and business like way, and he will handle the money with care and good judgment, as it gives him a fine start in business life. For thirty years his father, Mr. Chauncey Rhodes, has been cashier of the John McNab Bank, in Eufaula, and no man in Alabama is thought more of by his friends and those who know him.

Rock Salt.

Messrs. Turner, McClure & Co. of Fort Worth have en route a car-load of the celebrated rock salt, which is the best salt that can be used for cattle, horses, and all kinds of stock. Cattle like the rock salt and prefer it to all other. They cannot eat enough to hurt them, as it is as hard as a rock and must be licked. Messrs. Turner, McClure & Co. will fill orders by mail promptly, either in large or small quantity. Send a trial order.

TURNER, MCCLURE & CO.

Don't buy the Missouri penitentiary saddle trees, but buy the genuine Loeloff, for sale by L. S. Brackett, San Antonio, Texas.

Forest and Stream Publishing Company are constantly issuing and have always on hand a full series of the newest, most entertaining and instructive American and English books on outdoor sports. If you are interested in Shooting, Fishing, Fine Dogs, Yachts, Boats or Canoes, or in Natural History, Camp Life, Travel and Adventure, you should send for a free catalogue of their publications. THE CLIP.

San Angelo Standard:—W. L. Aldwell has received returns from Boston of his spring clip of 12,000 lbs. It sold in different lots at prices varying from 13 to 21 cents and averaged 11 cents per pound.

Captain S. L. Easley of Tarrant county had a lot of mutton sheep and has disposed of them at 3½c per lb, including bucks. He has now 750 fine Merino ewes and is fattening them for mutton, the intention being to quit the sheep business next spring.

Kerrville Eye:—Kerrville wool sales by Chas. Schreiner on the 27th and 29th of October: 15 bags at 15c; 22 bags, 15½c; 60 bags, 16c; 217 bags, 16½c; 183 bags, 16¾c; 294 bags, 17c; 157 bags, 17½c; 98 bags, 17¾; 38 bags, 18c; 12 bags, 18½c; 3 bags, 20c—total, 1099 bags.

The farmers will not take much interest in raising sheep until the mutton markets call louder for sheep than they have done during the last three months. Sheep are selling better than cattle, but farmers figure that raising cattle is much easier and certain, which is a great error.

San Angelo Standard:—Fall shearing is finished, and the usual number of horses are turning up missing. Tom Green county needs rail connection with Mexico badly. Bird & Mertz sold to W. J. Skinner this week 12 head of Shropshire rams and 9 half Leicester and half Shropshire to C. C. Chamberland of Concho county.

New Mexico Stock Grower:—Vast flocks of sheep are reported to be overrunning the entire country east of the Rio Grande in San Miguel, Valencia and Bernalillo counties that have been driven from Western New Mexico owing to the scarcity of grass and water in that section of the territory. 200,000 head are now at Trinchera lake, in the vicinity of Pinos Wells, and at Fort Sumner 130,000 head are drinking dry all the watering places.

Boston Commercial Bulletin:—Texas wool is very firm. There have been a few sales of spring wool within the range of quotations. The quotations on fall wools are naturally rather high. Nothing can be gotten up for much less than half a dollar and some lots of new wool are held out of the market at 23c or about 54c clean. In spite of considerable sales this week the prospect is that fall wools will be slowly worked off on a 50c basis.

The American Wool Reporter says: "There is going to be a big boom in woolen manufacturing in the United States in the near future. Not only will there be more people to be clothed, but each person will wear more yards of cloth. Mr. Atkinson of Boston, who is never so happy as when he is collecting statistics, has obtained complete figures from clothing manufacturers which prove that the American has really increased in size. The Southerner has gained two inches around the waist since the war."

Colman's Rural World:—It has been the practice for years to buy only young wethers and ranch them for two or three years and sell them, just before they begin to fail in their fleeces, for mutton. There are sheep from the West on farms that are kept the same way until sheared a few times. There is less loss and expense and worry than with a ewe flock. The profits of thus keeping sheep are said to be highly satisfactory. They are sometimes called "mutton ranches," since mutton is the end aimed at.

Boston Advertiser:—Texas wools are attracting considerable attention and the market holds firm. L. is scoured range on 12 months spring 25; about the same as on territories, six to eight

months growth about 2 to 3c less. In some instances better prices are being obtained for fall Texas wools. One sale of 100,000 lbs at 22c is reported. This price is several cents above the market, but it was actually reported as having been made. Another sale of 50,000 lbs is made at 20c, and another of 40,000 lbs at 18½c, showing that the views of dealers in regard to the market are wide apart. Choice fine free wools are quoted up to 50@52½ cents scoured, with inferior lots lower as to quality.

A further impetus has been given to the business of growing mutton in New Zealand for the English market, by contracts which have just been made by the Canterbury Freezing Co. to freight 180,000 sheep annually for the next two years, at a rate not exceeding two cents per pound. The ships employed will now carry from 24,000 to 30,000 carcasses each, against 10,000 to 12,000 carcasses formerly. The exports last year from New Zealand alone were 750,000 carcasses, which were 240,000 in excess of 1886. The other charges between producer and consumer are about two cents per pound, making the total cost to the New Zealand grower of laying his mutton down in the English market four cents per pound. The mutton sells at from seven to twelve cents per pound at wholesale, leaving the grower from three to eight cents per pound, in addition to skins and fat.

Boston Commercial Bulletin:—The market is quieter than of late and there has been rather less inquiry. Barring a little speculation in fine scoured territory, all the wool sold has gone directly to the mills. The market continues exceedingly firm and is certainly in a better condition than it has been for three years at least. Two things underlie present quotations and make holders indifferent sellers. The stocks on hand here and in the country are the lightest for years. It is impossible to replace wool not merely at the price at which it has been sold during the past two months, but to-day's market quotations, the little wool being left in the country is being held and selling at just about the same prices realized in Boston. To this strong condition of things in domestic affairs is added the impossibility of importing cheap foreign wool for at least eight months even if the free wool men are victorious at the coming election.

It is no longer denied that Australian sheep have for years been suffering from the want of fresh blood from other countries. The absurd quarantine laws which prevented the importation of sheep from Europe and America have lately been repealed in most of the colonies, and American sheep can now be sent direct to West Australia, Queensland, Victoria, New Zealand and Tasmania. To be admitted into New South Wales, however, American sheep must be shipped via London, where they are to be quarantined for fourteen days, and if found unhealthy are to be slaughtered without compensation; if all right they may proceed to Sidney, where they will be admitted after a further quarantine if healthy, but slaughtered without pay if any are sick. Owing to the enormous expense of complying with this law, we doubt if any American breeders will attempt exportation. The only shipment made since the repeal of the old laws, arrived at Sidney in February via London. It consisted of 160 head from Vermont and was sold to S. McCaughey of Coonong, Uraba District, N. S. W.

Boston Advertiser:—The condition of the wool market shows very little change from last week. Notwithstanding the fact that nearly every business is affected by the excitement of election, and that the wool issue is as important, if not more so, than any; the market is nearly as active as last week,

and there is a good business being done. The firmness that has prevailed now for some time still continues, and it would take considerable to break the market. The demand seems to be quite good, although dealers as a rule report that manufacturers are not disposed to buy a great deal until after election. If it is a fact that this is so, and that manufacturers are only buying what they actually need, then judging from the week's custom they are needing considerable. There is no special activity to note, however, notwithstanding that the business done foots up to very liberal figures. The reported sales so far this year show an increase over last, and the business is over 31,000,000 pounds greater than last year. The majority of the purchases have been from manufacturers, but a fair amount has been for speculative purposes.

For First Place.

A great amount of political engineering will be done by friends of candidates to secure for their man the first place on the ticket, and the best man will probably secure the coveted place. Then if indorsed by the majority of the people, the election is assured. Electric Bitters has been put to the front, its merits passed upon, has been indorsed, and unanimously given the first place, among remedies adapted to the relief and cure of all Diseases of the Kidneys, Liver and Stomach. Electric Bitters, being guaranteed, is a safe investment. Price 50c and \$1 per bottle at H. W. Williams & Co.'s drug store.

Missouri Pacific Railway and Iron Mountain Route

offer a choice of routes to St. Louis and all points north and east; the Iron Mountain Route through Arkansas and Missouri, and the M., K. & T. through the Beautiful Indian Territory. Pullman buffet sleeping cars run through via both routes without change. This is also the direct line to Kansas City, St. Joseph and Omaha, and the Colorado Short Line from Kansas City to Pueblo and Denver.

SAN ANTONIO.

It is said that a corner on young Texas raised improved stock is attempted. What next in the "corner" line?

THE value of Texas as a sorghum state is two to one of Kansas and other sections of the same latitude as two crops from the same planting can be depended on here, of sweeter cane and three crops are nothing unusual in the extreme southern portion.

Now that the importing season is about here, the STOCK JOURNAL would remind its readers that past experience has proven that prickly pear is the very best feed that can be given to improved Northern stock on its arrival, it being both a preventive and a cure of acclimation and splenic fevers.

A MAN in Flatonia is having 100 listers built in this city after his own ideas, which are a double mold-board, adjustable, and a single one to take their place when desired. As far as the STOCK JOURNAL knows these are the first to be used in Texas, but predicts that in five years the majority of corn planted in the Lone Star state will be in a lister furrow. If listing is good in Kansas, there is every logical reason why it should be better in Texas.

THE die is cast and some are down-cast while others are elated at the result. It is to be hoped that the country exchange can give us some news of interest to the stock industry now that it is unnecessary to extoll the virtues of its favorite for constable, and denounce the corruption of the "court house rings." What interests the readers of the STOCK JOURNAL most is how to increase the profit side of the ledger, and this paper will try to contribute to this end to its fullest extent by furnishing its patrons all the valuable information in its power.

THE fact that Texas improved horses are sought after and bring fully double on an average, over Mexican or scrub Texans, should clearly prove the practicability of horse raising in this portion of Texas. Horses will do better than any other stock without care, so long as you give them plenty of grass and water, and it does not deteriorate fine blood to let run loose under such conditions provided there is timber or other natural shelter in seasons of inclement weather, as nothing is gained by pampering horse stock, hardiness and activity being the two most desirable natural qualities of a horse.

THE Mexicans are getting a little railroad "peculiarity" as well as the Texans. Some time ago the railroads, (Mexican International and Mexican Central) put on a live stock rate of \$100 from points along the former line about the Sabinas river, to the City of Mexico via Torreon. When once a good trade was established the rate was raised to \$280 per car. The completion of the Mexican National is affording some relief for this extortion, and beeves and muttons are being

driven to Lampazos in Nuevo Leon, and from there shipped to the Mexican capital where better prices are realized than in Chicago.

THE STOCK JOURNAL has always claimed that the Texas fever "dead line" was too far north, and while it is yet impossible to exactly define the proper and safe line it believes that the range of hills beginning on the Rio Grande near Del Rio and running northeast to beyond Milam county is about the correct line, and undoubtedly there are many localities even south of this that are free of the latent disease. That cattle north of this line, especially fine cattle, whether acclimated or bred, are subject to take the splenic or Texas fever when placed on ranges with Texas cattle or coming in contact with them there is no reasonable doubt. A proof of this is just now afforded in this city. Some thoroughbred Hereford cattle were taken to Presidio county near Valentine, some two years ago, after having been acclimated near Dallas. There they had quite a number of calves, some of which are now two-year-olds, and were all in a healthy and thrifty condition. Some three weeks ago Mr. James L. Harris, wishing to show them at the San Antonio fair and dispose of them, brought them down and placed them in a pasture near San Antonio, they being most of them native born, he apprehended no danger. Imagine his surprise to find a few days ago that many of them had taken sick and before he could come to their relief 18 head had died. They were immediately brought to the city and put in charge of a competent veterinary surgeon who will probably carry the reader through all right. This should satisfy any reasonable man that cattle from at least Western Texas were of the same physical condition as those of the North, and of course beyond the climatic conditions that are supposed to cause latent Texas fever.

San Antonio Horse Market.

The horse and mule market, considering the proximity of the election has been very good with a preference for cheap Mexican and young mules, which go readily at from \$25@40 per head. These are to fill the demand for stockers, while the call for work mules is yet light, as the season for this class of stock has not yet arrived. The demand for mares and horses is as fair for stockers but for shipping and for range purposes is light. Colts of all classes are dull as it is getting late for this branch of trade. Prices are firm at quotations, with an upward tendency on mules of all classes except young colts. The retail trade has been fair under the influence of exceptionally fine weather.

Quotations are as follows:

Scrub and poor mares, 12 to 13½ hands.	\$ 8@12
Scrub fair conditioned, 12 to 13½ hands.	\$11@ 14
Medium mares, 13 to 14 hands, fat.	17@ 20
Medium mares, 13 to 14 hands, thin.	14@ 16
Yearling fillies, branded.	8@ 9
Yearling fillies, unbranded.	10@ 12
Two year-old fillies, branded.	10@ 13
Two year-old fillies, unbranded.	12@ 14
Texas improved mares, 14 to 15 hands.	30@ 40
American carriage horses, 15½ to 16½ hands.	75@200
Saddle horses, good, 13 to 14½ hands.	20@ 30

HORNS AND HOOF.

J. S. McLendon of Atlanta, Ga., is here after mules.

W. J. Austin from Tunnel Hill, Ga., is buying horse stock here.

Wayland and W. W. Callaway of Dalton, Ga., are here after horse stock.

W. R. Muse, Bell Buckle, Tenn., is in the city looking for a shipment of mules.

E. L. Skittles, horse buyer, is here from Pontotoc, Miss., operating in this market.

Luis Cerna of San Lucas, Coahuila, Mexico, recently sent 500 head of beeves to the City of Mexico.

John J. Young is back from Kleberg, where he went to receive a lot of horse and mule stock for this market.

G. I. Van Meter of Live Oak county, a prominent stockman of his section was in the city during the week.

There are no lack of buyers of stock in this market, but a scarcity of cattle at such figures as they are willing to pay.

Wm. Schooley of Oswego, Kansas, is after some of our horse stock, and finds a good stock on hand to select from.

John W. Noble is back from a visit to his ranch in the Santa Rosa district, Mexico, where he says stock of all kinds are doing well.

The rain on Wednesday morning in and about San Antonio was the hardest for several weeks and again thoroughly soaked the ground.

E. F. Ikard of Fort Worth is here after cattle but as yet he has made few purchases, finding them scarce at such prices as he was willing to pay.

Ramon Vela of Hidalgo bounty arrived on Wednesday morning with 50 head of three and four-year-old mules which went readily before noon at \$36 per head.

Capt. Henry Scott of Refugio county was in town last week. The captain spent some time in Mexico this summer for his health, but says that he received little benefit from it.

Tom O'Conner of Refugio county, was in the city this week and says that they have been having a little too much rain in his section of country so far this fall, but cattle are yet looking well.

Jesse H. Pressnal of the firm of Pressnal, Clark & Scott recently bought 425 head of beeves of the Lewis Bros., from their Uvalde county ranch to be delivered next spring at \$16 per head.

J. E. Price, proprietor of the Traders' National stock yards of this city, and one of the largest horse dealers in the Union, returned from a Northern trip of business and recreation last week, and says that prospects for a good business North next season is flattering.

Morin Bros. report the following as among their sales this week: 28 mules at \$27.50 per head; 27 mares and horses, \$14; 26 mares, \$14; 50 mares and horses, \$15.75; 53 horses and reares, \$14.25; 25 mares and horses, \$15; 22 mares and horses, \$22; 50 mares and horses, \$12.50.

H. B. Clarke & Co., 79 Union street, Memphis, Tenn., are prepared to feed horse stock in any numbers at reasonable prices. All stock transfer-

red free of charge. They solicit the patronage of all who ship by way of Memphis. Call on Ben Darlington, Southern hotel, San Antonio, for information.

Corpus Christi Caller:—Capt. C. C. Heath came into town Thursday from his new residence near Nueces bay and just inside of the city limits. In reply to a question, "how are you making it?" the Captain said: "Fine. I have cut sixty tons of Johnson and Buffalo grass off of my forty acre patch this year and before Christmas I will get 125 tons of grass and cane or 175 tons in nineteen months. I have cut my grass four times this year already and expect to make one more cutting." The Captain likes the Johnson grass; says its advantages over other grasses are great.

Dr. J. B. Taylor is just back from San Angelo, and his ranch at the head of Devil's river. It is now entirely inclosed, comprising 100,000 acres, with a wire and post fence, and nine wells are already down supplying beautiful water, with the machinery at work digging others. He has some 200 head of beeves on it at present. He also expects 50 head of Polled Angus calves from his Kansas farm, which, will be wintered on his McMullen county ranch. They are all full-blood and high-grade, and nothing under three-quarter breed or full-blood Durhams. The doctor is very partial to the black muleys.

There are some 27 stock yards in San Antonio, of these, among the most recently built are the Traders' National yards, near the I. G. & N. Ry., shipping pens, which are the property of J. E. Price. They are among the most extensive in the South, and in conveniences and shelter are second to none in the country. They were opened April 1st 1888, and in the seven months to Nov. 1st, handled 58,641 head of horses and mules, of which 31,878 head were handled since July 1st. This shows a wonderful amount of business done by one business firm and will give a fair idea of the aggregate of business in this branch transacted in San Antonio.

C. G. Hubbard, the well known representative of Denny, Rice & Co., Boston, has a fine ranch in Frio county, on which he devotes special attention to horse raising, and it has proven a successful venture so far. He has the only Cleveland bay stallion in that whole section of country, and is enthusiastic as to his colts, the oldest of which will be two next spring, but already show a development equal to the majority of three years colts. This is one of the strongest points claimed for this breed, is their rapid development, and consequent early utility. Mr. Hubbard thinks that they will fill the bill of an all-purpose horse for Texas, and with plenty of them bred here there will be no necessity of going North for carriage horses.

THE WOOL SACK.

G. Hellemans is here again after a buying expedition to other portions of the state.

Now that the election is over sheep men are ready to buckle down to business for another four years.

It is now generally conceded that mutton is an important factor in the profits of the sheep business even in this distant portion of country.

The sale of wool at Kerrville last week was a decided success. Some thousand sacks were sold at prices equaling the San Antonio prices in the net.

John Adams dropped in on us last week after a trip to Laredo, and other Southern points. He is the most ex-

tensive buyer of those wools in the market.

Harry Francis is back again after running about in Central and North-western Texas. He came back to see what desirable wools had come in since he left.

The wool market has been light for recorded lack of stock and the sales in future will be mainly of wool to arrive. C. F. Adams has recovered from the weakness noted in the last report, but owing to the election very little has been done for several days past.

Piper & Schulthess are headquarters for all kinds of fence wire, 33 and 35 W. Commerce Street, San Antonio, Texas

The Texas Steer.
Texas Siftings.

A week or so ago a Texas steer that was to be slaughtered at a New York barbecue managed to get loose, and he made it very lively for the entire neighborhood. This is not an isolated case. It very frequently happens in the North that Texas steers obtain their liberty and run through the streets with the fragments of leading citizens on their horns.

In Texas there is no animal more docile than the Texas steer. You never heard of anybody in Texas being injured by rampant steers, which are as harmless as a wooden Indian in front of a tobacco store.

It is the bad treatment that he receives on the cars that makes the Texas steer unruly. He is bounced and jolted over two or three thousand miles of rough railroad track. He is not given anything to drink, and that is the kind of treatment even a Texas steer despises.

He, (the Texas steer) is punched, beaten and sneered at as "a long horn" all the way to New York. When he gets there, he is driven to a slaughter pen, and subjected to all manner of insults. Is it a wonder that frenzied and exasperated by such barbarity, hearing all the time that he is an outlaw, and never being invited to take a drink, is it a wonder, we say that he loses patience, and charges through the streets? His real object is merely to get back to Texas where he is appreciated. If people get in his way, he removes them, as he is in a hurry. And then the press denounces the Texas steer as a desperado.

Do the people of the North expect that, after suffering all these wrongs in transit, the Texas steer will go around wagging his tail, like a pet dog, and seeking to kiss the hand that smites him? If they do they will be disappointed, for docile as he is, there is a limit to his patience.

Mr. Ward Would not Kow-Tow.

In the November American Magazine, Mr. L. McIntosh Ward, in his article on the First American Embassy to Peking, thus describes the negotiations about an interview between the American Minister and the Emperor:

The commissioners, however, would discuss nothing but the proposed audience with the Emperor. One of the commissioners stated that the Emperor himself was desirous of conferring with Mr. Ward, having been favorably impressed with that he had heard of America and Americans, and wishing to see the first representative of that nation who had visited his capital. The stumbling block in the way of the audience was the rite called the Kow-tow, which Mr. Ward refused to perform. The commissioners requested Mr. Ward to kneel to the Emperor, and agreed that knocking of the head on the ground would be dispensed with. To this Mr. Ward replied that while he entertained the greatest respect for the Emperor, and in that only felt what the president himself had expressed in the letter of which he was the bearer, yet he wished to declare that highly as he was would regard an audience and important as he deemed it under the circumstances, still he had never asked for an audience, and the treaty said nothing about it, and he could not kneel when he came before

UNPRECEDENTED ATTRACTIONS!
OVER A MILLION DISTRIBUTED

Louisiana State Lottery Company.

Incorporated by the Legislature in 1868, for Educational and Charitable purposes, and its franchise made a part of the present State Constitution, in 1879, by an overwhelming popular vote.

Its GRAND EXTRAORDINARY Drawings take place Semi-Annually, (June and December), and its GRAND SINGLE NUMBER Drawings take place on each of the other ten months in the year, and are all drawn in public, at the Academy of Music, New Orleans, La.

"We do hereby certify that we supervise the arrangements for all the Monthly and quarterly Drawings of the Louisiana State Lottery Company, and in person manage and control the drawings themselves, and that the same are conducted with honesty, fairness, and in good faith toward all parties, and we authorize the company to use this certificate, with fac-similies of our signatures attached, in its advertisements."

Ed. Beaudregand
J. F. Early

Commissioners.

We, the undersigned Banks and Bankers will pay all Prizes drawn in the Louisiana State Lotteries which may be presented at our counters.

TEXAS SIFTINGS.

We have made arrangements with the Texas Siftings Company, by which we can afford to send the *Siftings* for one year to anyone who will secure for us four subscriptions to the TEXAS LIVE STOCK JOURNAL, at our regular price of \$1.50 per year. The subscription price of the *Siftings* is \$4 per year, and it is the greatest humorous paper published, and it is now profusely illustrated. The yearly issue of fifty-two papers contains 820 pages, 3000 columns and 1500 illustrations.

Anybody can rustle four subscribers to the TEXAS LIVE STOCK JOURNAL, at \$1.50 each, and by sending us the \$6, can receive the *Siftings* for one year. Address,

THE STOCK JOURNAL PUBLISHING CO.,
Fort Worth, Texas.

RECENT tests at the experiment station of the college of agriculture in Minnesota upon the comparative value of warm and cold water for stock were decidedly in favor of using cold water.

THE demand for blooded cattle at the Texas State Fair & Dallas exposition was very slim. A pure-bred Hereford bull calf, Texas raised, sold at \$250 and some pure-bred improved Herefords sold at \$125@150 per head.

IN THE week ending October 31, the Kansas City market consumed 17,289 cattle, 58,563 hogs and 8047 sheep against 5999 cattle, 62,448 hogs and 4836 sheep consumed during the corresponding week last year. The hogs are short in common with other markets owing to the limited supplies in the country. In cattle and sheep the increase is remarkable.

TEXAS cattle cannot be bought in Texas at prices realized for fat cattle, or what is supposed to be fat, in Chicago. Feeding steers are selling better than fat steers, and yearlings and

two-year-olds are away above the prices ruling one year ago. This is due to the scarcity of cattle and the necessity on the part of owners of empty pastures to find something to eat the grass.

Alabama As It Is.

"Alabama As It Is" is the title of a work issued under the approval of the state board of agriculture of Alabama, and it furnishes the information most desired by parties who contemplate moving into a country for the purpose of investment or permanent settlement. The work contains a summary of geography, population, climate, mineral resources, and agricultural facts and possibilities, then going into details takes the state county by county, and gives a full description of each county and the principal cities. The work gives account of the agricultural and mechanical college, agricultural experiment station, narrative of traditions of Alabama, a full account of rivers of the state, winding up with the constitution in full. It is a very comprehensive work, and gives a brief and reliable statement concerning the condition of the several new manufacturing centers opened and developed during the last three years.

The Deluge of Cows.

The continued heavy run of cattle upon the market denotes the general demoralization of the cattle trade, and that the disorganized producers of cattle have been so much discouraged that the stock in trade is being sacrificed.

The sacrifice has lasted a long time, longer than almost any one expected and the thoroughness of the sacrifice is due to the seriousness of the situation.

This paper is confident in the assertion that hardly any cattle raised on anything but the cheapest grass has paid a cent profit, if sold during the last ninety days, and even the grass cattle profits have been realized more through the original purchase of yearlings and two-year-olds at low prices than from receiving a profit for the legitimate business of maturing cattle. Of late, cattle have sold uniformly and regularly for less money than the amount required to buy the calf and carry it to a beef cattle age under the most favorable circumstances. The run of cows looks as though it will keep up until all cows are out of shipping condition, then the excessive run will stop, because the canning factories will refuse to buy them for even a cent and a half per pound. Then the winter will regulate the cattle movement to some extent, and give the entire cattle trade a chance to take stock.

Next year the cattle markets will show considerable quantities of choice beef, some very good beef, and a fair supply of ordinary beef, this is because there is plenty of corn in the country. The run of common cattle, heifers, etc., will not be heavy, and before range cattle are shipped in force the packers will again have to go out into the country to fill up the markets.

We contend that beef cattle raising must be restored to prosperity in such states as Illinois and Iowa, and it this is so Texas and the Southwest will

prosper to a much greater extent. The deluge of cows was necessary and it will have a decided effect.

A Packing Town.

A recent issue of Harpers Weekly contains a write-up of Hutchinson, Kansas, which includes the following: "Observing men declared years ago that Hutchinson would one day become a meat-packing center and a manufacturing point of some importance, for the reason that the city was the natural market-place for a large area of thickly settled farming land. This prediction was verified sooner than any one had looked for. Hutchinson's business men took the matter in hand with the same earnestness that had distinguished all of their undertakings, and soon Tobey & Booth's meat-packing establishment, which has a capacity of two thousand hogs a day, was built on the outskirts of the city. With so good a start, it was not long before Hutchinson was negotiating for other works of the same character. A committee of citizens that went to Chicago to interest packing capital in Hutchinson's resources had a hard fight of it from first to last, but the brilliant result more than repaid the time, energy, and trouble involved. On Saturday, September 22d, of this year, contracts were signed in Chicago by which Hutchinson secures the immediate erection of a large lard refinery and cotton-seed oil factory by N. K. Fairbanks & Co., who propose to refine at Hutchinson for the entire western half of the United States, and a pork-packing establishment by P. L. Underwood & Co., who have houses at Chicago and Omaha. The packing firm of Fowler Brothers is connected with the Hutchinson arrangement through the Underwoods. As the Fairbanks-Fowler-Underwood combination is expected to start operations with buildings and plants worth about \$500,000, and to employ a large number of workmen, the great advantage of these concerns to Hutchinson may readily be seen.

Still another new industry recently secured by Hutchinson is the Hutchinson Stock Yards and Salt company, which has already paid out \$98,000 for ground near the city, and which contemplates investing \$500,000 in salt works in the near future. Among the capitalists interested in the project are ex-Governor Beveridge of Chicago; P. L. Underwood, Joseph Sears of N. K. Fairbanks & Co.; Robert Fowler of

Fowler Bros., Kirk B. Armour of Armour Bros., and John Tobey of Tobey & Booth."

A Lawn for the South.

The circular of Gardiner & Son of Philadelphia, seed growers, contains the following:

To have a beautiful lawn for the South, it is necessary to use only those varieties that have proven themselves adapted to high temperatures and long-continued drouths and which mature at such seasons as will give a rich, green grass all the year round. Great dissatisfaction has been expressed with the mixtures usually put up by seedsmen for the Southern states, owing to the unpermanent character of Northern grasses under the adverse influence of the Southern climate and the ignorance of the proper varieties suitable for such latitudes. We have given this matter much thought, and it is our unqualified opinion that Bermuda grass and Texas blue grass meet all the requirements for a perfect lawn all the year round. The Bermuda grass makes a close, beautiful turf all summer, and as soon as it ceases to grow the Texas blue grass commences and keeps green all winter. A lawn formed with these two grasses will make a close, compact sward of a beautiful, rich, dark-green, continuing so during the hottest and driest summers. It will bear the mower well, and keep as smooth as velvet and green as an emerald. No one need go without a nice lawn round their residence, as these two valuable varieties will give as good results as the most expensive mixture of grass seeds will in the Northern states. As they seed very sparingly, it will be found most expedient to propagate them by sets. These sets root at every joint, and may either be strewn in shallow drills and plowed under, or they may be spread thinly broadcast and rolled in. It requires about one barrel of sets to plant an acre. Planting may be done at any time in the fall, up till February for the Texas blue grass, and for the Bermuda grass, any time except during the hottest and driest part of summer.

The Berkshire Record.

Volume IX of the American Berkshire Record is to hand, thanks to Phil M. Springer, secretary, Springfield, Ill. The object of this work is to issue a pedigree record of Berkshire hogs suitable for breeding purposes and to

encourage improvement in the stock. The present volume gives record of 1155 boars and 1845 sows, a total of 3000 or 1000 more than in any of the preceding volumes. The price of the volume is \$5 post paid on receipt of price by the secretary. The following Texas owners and breeders have stock recorded in this volume:

C. F. Adams, Marshall; C. M. Arnold; Bowie; Jno. L. Bonner, Stewards Mill; Thos. Boutwell, Leonard; R. E. Bradford, Marshall; J. H. Buchanan, Lone Oak; R. W. Champion, Farmington; G. R. Cooper, Van Alstyne; D. A. Cypher, Austin; J. D. Daniel, Add Hall; L. B. Giles, Manor; Frank Gillespie, Gallatin; F. Y. Goldsborough, Ennis; S. A. Goodman, jr., Tyler; E. W. Harris, Greenville; A. R. Jago, Sherman; J. Jennings, Sherman; J. H. Jones, Oliveria; R. F. Jones, Oliveria; Thos. Jones, Bowie; Thos. H. Jones, Manor; J. B. Key, Pilot Point; M. Lothrop, Marshall; J. P. Loving & Sons, Sherman; W. W. Manning, Homer; J. A. Martin, Marlin; James Marvel, Howe; Jno. Mattingly, Austin; Jas. Moudy, Greenville; Wm. H. Pierce, Denton; W. L. Rector, Lloyd; C. D. Smith, Merrittown, E. R. Stiff, McKinney; F. G. Stroud, Howe; Silas Teague, Dallas; W. T. Wells, Choctaw.

Their Business Booming.

Probably no one thing has caused such a general revival of trade at H. W. Williams & Co.'s drug store as their giving away to their customers of so many free trial bottles of Dr. King's New Discovery for consumption. Their trade is simply enormous in this very valuable article from the fact that it always cures and never disappoints. Coughs, Colds, Asthma, Bronchitis, Croup, and all throat and lung diseases quickly cured. You can test it before buying by getting a trial bottle free, large size \$1. Every bottle warranted.

Hog Feeding Tests.

At the different agricultural colleges tests are being made to ascertain the cost of making beef, pork and mutton, and to determine the best methods of feeding stock, the relative values of different feeds &c. From a series of these experiments the Wisconsin station compiled a table which has been simplified and published in the Ohio Farmer as follows.

Column 1 shows the number of trials made; 2, the number of animals; 3, the average weight of each hog at beginning of trial, and 4 the number of pounds of food required for 100 lbs. of gain. The letters following the kinds of feed denote the time of year in which the experiments were made; w, winter; s, summer; f, fall.

	1	2	3	4
Whole corn, w.....	3	8	229	784
Corn meal, s.....	5	12	71	534
Corn meal, w.....	3	8	177	517
Barley meal, w.....	4	12	159	567
Shorts, s.....	1	3	58	525
Sweet skim milk, s.....	2	4	66	1,871
Bran meal & shorts, dry, f.....	4	12	137	531
Corn meal & shorts, wet, f.....	4	12	136	431
Corn meal and sweet skim milk, s.....	5	10	95	147 meal 892 milk
Corn meal and sweet skim milk, s.....	4	10	254	379 meal 179 milk
Corn meal and sweet skim milk, s.....	4	10	251	432 meal 216 milk

At present prices of corn and mill feed in this market, the lbs. gain in the first experiment would cost \$7.05; in the second, \$5.07; third \$4.91; fourth, \$8.50; fifth, \$4.72, etc. Skim milk is worth just what can be made out of it. In the sixth experiment, above, if the hogs are valued at \$6 per 100 lbs.,

the skim milk would realize 32 cents per 100 lbs. In the experiments referred to last week it was valued at 25 cents. In the last experiment the meal would cost about \$4.10. Deducting this from \$6, leaves \$1.90 as the value of 216 lbs. of milk, or about 90 cents per 100 lbs. But it is in the next to the last experiment that the skim milk shows best, and its value as there indicated is most surprising. The meal would cost here \$3.60, leaving \$2.40 as the value of 189 lbs of milk, or \$1.27 per 100 lbs. In the bird experiment from the last, the skim milk would realize not quite 52 cents per 100 lbs. These estimates are all based upon the marked value of cornmeal at \$19 per ton. The barley we rated at 75c. per bushel. Of course, these prices are too high for the farm, but estimates are given merely to show how the table should be used.

In his comments upon these trials and their results, Prof. Henry very properly remarks that "stock feeding will always remain more or less of an art, and can not be carried into the domain of exact science," because of the varying quality of food and the difference in the feeding quality of the animals. This latter is the prime difficulty, but it is possible, by taking a large number of trials together, to arrive at a very close estimate of what the average gain costs per pound. We would like to see all the experiment stations in this country attack this question in a series of trials upon a uniform plan, to be continued, say for five years. The results would indicate something positive.

Have You Heard

What Ayer's Cherry Pectoral has done and is doing for thousands in the cure of Colds, Coughs, Pneumonia, Bronchitis, and even Consumption? For this class of complaints, Ayer's Cherry Pectoral stands far ahead of all other specifics.

George W. Dick, of Newton, Mass., says: "Two years ago I took a severe cold, which, being neglected, was followed by

A Terrible Cough.

I lost flesh rapidly, had night sweats, and was soon confined to my bed. A friend advised the use of Ayer's Cherry Pectoral. I began to take this medicine and, before finishing the first bottle, was able to sit up. Four bottles effected a perfect cure."

70 Holstein-Friesian Cattle at Auction

WEDNESDAY, NOVEMBER 14th, 1888.

At Ky. & Ind. Stock Yards, 28th and Broadway, Louisville, Ky.

THE ENTIRE AEOLIAN HERD, Property of Bacon & Botts of Shelby County, Kentucky.

This sale is made to close the partnership, Capt. Bacon having moved to California, and everything must be sold for what it will bring. The foundation stock of this herd was selected with great care, and with special reference to the quantity and quality of their milk records. About 20 cows will be fresh in December, and bred to a son of International Prince and Lady Philpail. Liberal terms will be made to purchasers. Sales will commence at 10 o'clock. A nice free lunch will be set at 12 o'clock. For catalogues apply to

FORT WORTH.**We Solicit.**

We solicit your subscription to the TEXAS LIVE STOCK JOURNAL if you are not already receiving the paper. It is the cheapest and at the same time is the oldest, best and most reliable market reporter in the Southwest. Your postmaster will forward the subscription if you will hand it to him. The price is \$1.50 per annum.

General Range and Stock Notes.

J. M. Dougherty of Abilene recently delivered 700 to 800 feeding steers to Rogers & Starr of Vinita, I. T.

A. S. Nicholson sold 200 head of feeding steers to Friou & Millbanks of Johnson county at 24c per pound.

F. M. Houts of Hereford Ranch, Decatur, carried four cars of Hereford cattle to the San Antonio Exposition.

E. S. Perryman, jr., of Crafton, Wise county, shipped a car-load of horses to R. L. Maupin & Co. of Mobile, Ala.

Jno. S. Powell & Co. of Fort Worth, will ship two car-loads of blooded cattle and horses to the San Antonio fair.

The boys at the Young, Andrews & Kuhen yard call a fine four-year-old English Red Polled bull by the name of Lord Sackville.

Young, Andrews & Kuhen of Fort Worth shipped a lot of horses to Greenville, and sold 20 head immediately on arrival there.

A. S. Nicholson of Fort Worth, spent last week up in the vicinity of Clarendon and shipped a lot of feeding steers to Fort Worth.

Last week Texas cattle sold in market just as they sold during the drouth year, and \$2.90 and \$3 was somewhere about the top price.

Recent transfers of pure-bred Berkshire swine include Jumbo 19,773 by Jas. H. Jones, Floyd, Texas, to J. T. Spaulding, Greenville, Texas.

Messrs. Perryman & Marshall of Crafton, Wise county, sold 130 head of female stock cattle, to Steed & Evans of Post Oak, Jack county, at \$8 around.

Four hundred head of the King cattle from Baird were weighed up at Fort Worth to A. Silverstein of Dallas at \$2.15 per 100 lbs. and were good feeders.

The Chicago Drovers' Journal special cablegram of the 5th inst from London quotes lighter supplies and prices 1/4c higher than last week. Best American steers 12 1/2c per lb.

The butcher demand and quotations in Fort Worth are about the same as last week with an upward tendency—but cows can be had so cheap that steers had better not be shipped in.

Capt. S. A. Hatcher sold 300 head of what he calls the best steers in North Texas to C. Y. McClelland at \$21 per head, or about \$2.20 per hundred. These cattle will be fed in Hill county.

Dave Godwin came in from the ranch to vote and he gives a good account of the condition of the Jones county ranch and the country surrounding it. He thinks the cattle can stand a fair sized winter.

The Chicago fat stock show ought not to be neglected by stockmen. It is the greatest live stock educational establishment in connection with live stock production, and to see the exhibition is

more instructive than to simply read the full facts and reports coming from the press.

The Mobeetic Panhandle says that 13,000 stock cattle have been turned loose on North Fork in addition to the cattle already there and predicts a revival of the bone gathering industry in that section.

J. W. Fray of Marshall, Mo., who has stock at Fort Worth, sold to J. S. Collier, Fort Worth, six head of pure-bred Shorthorns, calves and yearlings, 3 bulls and 3 heifers. They were a very nice lot of young cattle.

Remember that the Texas Siftings costs \$4 per year, and that the subscription to the TEXAS LIVE STOCK JOURNAL is \$1.50. We will send the Siftings for one year to any one who will get us a club of four subscribers.

Col. J. S. Godwin of Fort Worth has several hundred steers, but has about decided to hold them over. He thinks that Chicago prices are too low to induce shipments, and Chicago prices less freight too good a thing for feeders.

Harry Catlett, hailing from Colorado City gives a respectable account of the prospects of range cattle out there and believes that stock are going into the winter in fairly good condition with better than average grazing chances.

Election day passed off quietly in Tarrant county and resulted in the return of Democrats to office, including Captain J. C. Richardson as sheriff. He is receiving congratulations of many friends including the TEXAS LIVE STOCK JOURNAL.

J. W. Fray of Marshall, Mo., sold to Cas Edwards of Tarrant county two Shorthorns—one bull and one heifer—and five high-grade Holstein heifers. These heifers cost \$50 around, and the Shorthorns a trifle less. Mr. Fray goes to the San Antonio fair.

The trading in live stock in and around Fort Worth has been simply nominal during this week partly on account of the election, and partly because a cold rain set in Tuesday and kept going during the week. Some feeding demand developed but transactions were very few.

P. A. Huffman & Co. of Fort Worth sold to the South Side National Bank one lot on Fourteenth and Main streets for \$12,500. This is the new bank started, with Jno. R. Hoxie as president and E. B. Harrold vice-president. The building will be three and one-half stories, 50x100 feet.

Major A. J. McGonnigle, chief quartermaster, department of Texas, U. S. Army, has inserted an advertisement in the For Sale column inviting proposals for cavalry horses. This is an important advertisement and should be read and considered by all the horse raisers and horse dealers in Texas.

The sale advertised by Mr. G. W. Henry of Chicago, is one of extraordinary interest to Hereford breeders and offers some rich specimens of Hereford blood. The herd won eighteen premiums at Toledo and Columbus, Ohio; Indianapolis, Ind.; Olney, Ill., and at the St. Louis fair, a most unusual record.

Mr. W. S. Ikard of Henrietta, who has a good number of choice thoroughbred Berkshires for sale, writes the JOURNAL saying that he has sold a good many pigs this year all through the card he put in the paper for one-quarter. He is now offering pigs for sale from one to five months old. Write him for prices.

The For Sale or Exchange columns of the JOURNAL continue to contain important advertisements connected with the live stock trade and all sub-

scribers and readers are requested to read these columns. If any one desires to sell anything in the shape of live stock, a few dollars invested in these columns will pay.

A remarkable feature connected with cattle ranching is the utter collapse in the demand for saddle horses. Even before the spring round-ups the demand was extremely quiet. This is one of the economies of the pasture system that the cattle can be handled with less men and a smaller number of horses. The ranch companies are buying plows and heavy farm teams, mules, etc.

Mr. S. A. Schott of Ethel, Grayson county, in renewing his subscription, kindly observes that he considers the TEXAS LIVE STOCK JOURNAL indispensable to stockmen. Mr. W. A. Barclay of Barclay, Falls county, also recommends the paper. These are gentlemen who speak from experience and encourage us in the work we are trying to do for the benefit of ourselves and patrons.

Mr. Edward D. Warner of Maple Hill, Kansas, has at the Young, Andrews & Kuhen yards, Fort Worth, 20 bulls, 3 heifers and one two-year-old heifer, all Red Polled cattle out of grade Red Polled cows, or Shorthorn and Hereford heifers. There is also one magnificent Red Polled bull four years old, a pure-bred imported bull. These cattle are looked upon with much interest, and are greatly admired.

Messrs. Polk Bros. of Fort Worth, report the sale of 122 cows, 740 to 990 lbs average to local butchers and others at 1 1/2 cents per pound which appears to be the ruling price. They also sold to Cullen & Gibson of Marshall, 20 cows, average 790 pounds, at 1 1/2 cents; Ferd Slocum sold 30 cows, average 900 lbs., at 1 1/2 cents; Polk Bros. sold for Dunlap, 46 steers, 1000 pounds average, at 2 1/2 cents, and to J. E. Pierce of Matagorda, 2 Jersey bulls at \$150 each, and 4 heifers.

Mr. C. M. Culbertson of Newman, Douglas county, Ill., one of the leading breeders of Hereford cattle in the United States has purchased a property in Montague county, Texas, and will bring down and acclimate three to four hundred head of cattle. Mr. G. W. Henry & William Powell, also Hereford breeders of reputation, are already acclimating cattle in Texas. All this goes to prove that the Southwestern country is being brought into prominence and that practical men are recognizing the advantages of Texas.

Mr. H. T. Keenan, who used to rustle in Texas for the C. B. & Q. railroad, and who is now in Montana Territory furnishes the Miles City Stock Growers' Journal with the following estimate of cattle and sheep shipped from Montana and forwarded from the Minnesota transfer to Chicago, and does not include those sold in St. Paul; or the cattle billed through the South St. Paul yards. Cattle 67,480, counting 20 head to each of the 3374 cars shipped, sheep 131,000, counting 200 head to 635 cars. Sufficient cars are now ordered so that the shipment this season will reach 90,000 head of cattle.

Wool sales at New York reported by the U. S. Economist: 30,000 lbs. fall Texas at 14@17c; 3000 lbs. spring Texas at 21c; 8000 lbs. scoured Texas at 52c; 18,000 lbs. spring and slightly burry Texas at 15 1/2c; 25,000 lbs. Texas one year's growth at 22 1/2@23 1/2c; 2000 lbs. do do at 21c; 88,000 lbs Texas one year's growth, 7000 lbs. bucks Texas.

Armentrout & Frazer.

The agricultural implement house on West Weatherford street, Fort Worth, formerly conducted by Mr. A. Armentrout is now doing business under the name and style of Armentrout & Fra-

Our Great

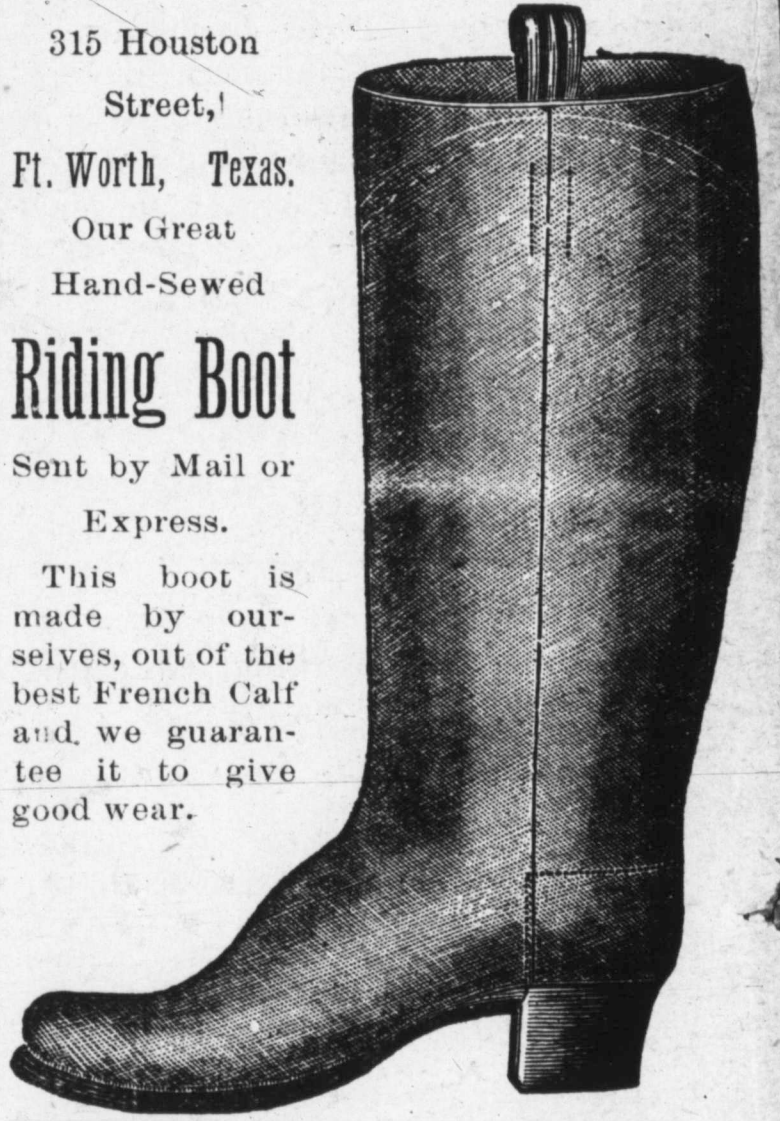

Hand-Sewed

Riding Boot

Sent by Mail or

Express.

This boot is made by ourselves, out of the best French Calf and we guarantee it to give good wear.

zer. Mr. Armentrout having associated with him a gentleman who is well known in Western Texas and as one of the leading citizens of the county. The firm is doing good business and is keeping on-hand a full line of the latest machinery, farm implements, wagons, buggies, sulkeys, etc., of the best makes. They have several important agencies and come right down to business with purchasers, selling goods for cash at bottom figures.

Farmers, Ranchmen and Hotels,

Sending their address to Turner & McClure, wholesale and retail grocers, Fort Worth, Texas, will receive by return mail their very low price list.

The sheep raisers of Texas can be assured that for the present at least, there will be no free trade in raw materials, and they can go on with their business in security provided they will improve the mutton qualities of their sheep. Free trade in wool is bound to come sooner or later and wise men can now commence preparing for it.

Missouri Pacific Railway and Iron Mountain Route

offer a choice of routes to St. Louis and all points north and east; the Iron Mountain Route through Arkansas and Missouri, and the M., K. & T. through the Beautiful Indian Territory. Pullman buffet sleeping cars run through via both routes without change. This is also the direct line to Kansas City, St. Joseph and Omaha, and the Colorado Short Line from Kansas City to Pueblo and Denver.

DALLAS.

DALLAS DOTS.

Milch cows are in good demand and find ready sale here at fair prices.

The goat and mutton markets have been overstocked for the past two weeks.

Carter & Son are building new stock sheds to accommodate their increasing trade.

Forty-five dollars is the price asked for six months' old mules on the streets.

H. Solinsky of Texarkana is here looking for choice butcher stock for his market.

Taylor Bros. of Dallas county are buying a lot of feeders to ship to their ranch in the West.

A great many hogs now on this market consequently the hog crop is not so scarce as was anticipated.

H. G. Brady & Co., wool and hide dealers, reports market on wool, hides and pelts same as last week.

W. F. Chermide of Denver, Col., is shipping from here to San Antonio fair 21 head of registered Devons.

A gentleman from Kentucky says young mules held at forty-five dollars in Texas, only bring \$35 in the blue grass state.

Frank Powell, although in the real estate business, forgets himself occasionally and asks "What's the live stock news?"

The biggest crowd the STOCK JOURNAL has noticed in many a day was around the court house on stray sale day this week.

Auctioneer Smith reported the quality of horses sold on stray-sale day as quite inferior, below the average on such occasions. The number sold not definitely known and prices ranged from \$2@35 each. What's the use doing without a horse?

A Fine Dental Display.

One of the most attractive features in Exposition hall during the fair was the dental display of Dr. Geo. Wilkins of Dallas, Texas. The doctor is one of the finest dentists to-day in America, and has made several valuable inventions that are indispensable to progressive dentists, and his fine display of dental goods is a sample of the enormous stock kept constantly on hand. He is the inventor of Wilkins' new methods of placing teeth without plates, appropriately called bridge teeth, and he is the only dentist in Texas, or the South who does this kind of work, and the fact that his parlors are daily crowded with patrons evidences beyond question the great popularity of his new and even wonderful methods.

Sales of Cattle at Carter & Son's Stock Yards, Dallas, Texas.

J. M. Readman sold 27 cows at \$12.75 per head.

E. D. Hicks of Nashville, Tenn., sold 26 registered Devon bulls to J. B. Wilson at \$100 per head.

W. G. Hays sold 4 milch cows at \$28 per head.

Mr. Penn of Cedar Hill sold a bunch of cows at 1 1/2c per lb., av. 900 lbs.

C. Myers arrived on market with 170 head of goats and sheep and found ready sale.

S. P. Jones sold 8 cows at \$14 per head.

O. R. Riddel of Ranger, Texas, arrived with 2 cars of cows and steers and found ready sale for his cows at \$10@13.

H. Solinsky of Texarkana, Texas,

shipped 2 cars of choice butcher cows Texarkana.

M. B. Cole sold 22 hogs at 6c, av. 180 lbs.

Col. McKennie of Dallas county sold a bunch of hogs to Nussbaumer Bros. at 6c av. 325 lbs.

Mr. Stubbs of Eastland county has a bunch of sheep on market.

Sam Parter sold 5 hogs at 6c av. 180 lbs.

D. P. Murphey sold 19 feeding steers at \$20 per head.

Mr. O'Riley of Wise county sold 4 feeding steers to J. B. Wilson at \$17 per head.

H. G. Coleman sold 14 cows at \$12 per head, also 6 steers at \$14 per head.

J. W. Storey of Mexia sold 1 car of mixed cattle at an average price of \$8.35 per head.

J. F. Stokes sold 11 hogs at 6c per lb., av. 212 lbs.

T. R. Milligan sold 21 hogs at 6c per lb, av. 147 lbs.

L. K. Simms sold 8 cows at \$11 per head, also 5 yearlings at \$6.50 per head.

D. G. Brooks sold 24 sheep at \$2.25 per head, also 18 at \$1.90 per head.

E. L. Hiddings sold 4 cows at \$13.25 per head.

F. J. Ward sold 5 veal calves at 3c per lb, av. 240 lbs.

Mr. C. Riley of Wise county arrived on market with 65 head of good butcher cattle.

Sam Pierce sold 13 hogs at 6c per lb, average 218 lbs.

R. H. Graves sold 3 milch cows at \$25 per head.

C. H. Bird sold 14 steers at \$18.50 per head.

B. C. Smith sold 23 cows at \$11@14 per head.

F. C. Emmory sold 47 sheep at 2 1/2c per lb, av. 83 lbs.

Cattle Ranches of Canada.

The Canadian correspondent of the Morning Post writes as follows:

"The northwest territories of Canada lie west and northwest of the province of Manitoba. They comprise Assiniboia and Alberta on the south, and Saskatchewan and Athabasca in the north. Their collective area, 431,000 square miles, is three and a-half times the area of the British Isles; in other words, it is greater than the combined area of France and the German Empire. Of these territories Alberta has, more than any other, attracted English capital, and become the scene of English enterprise, for it is here that the ranching industry has reached its highest development. Its area, 95,000 square miles, is three-fourths of that of the British Isles, and it is advantageously situated amongst the fertile foothills of the Rocky mountains. At the present time there probably are in Alberta 113,000 head of cattle, 40,000 sheep, and 20,000 horses. In the cattle are included about 12,000 head held by small farmers who are not ranchers in the true sense of the word. An enumeration of the leading ranches will give some idea of the present position of the live stock industry in the territory. The Waldron Ranch company occupy land between the North fork of Old Man's river, Willow creek; and the Porcupine hills; they have 11,000 head of cattle and 600 horses. The Cochrane Ranch company's range on the Upper Belly river, Fort M'Leod, carries 10,000 cattle and 400 horses. The Northwest Cattle company range the land from Sheep creek to Willow creek, and from the mountains to the mouth of Mosquito creek and due north to Big Bow river, with 7500 cattle and 600 horses. The New Oxley (Canada) Ranch company, at Porcupine hills and Willow creek, have 8000 cattle and about 400 horses; the Powder River Cattle company (sold to Sir Lister-Kaye), on Mosquito creek and Little Bow river, 7500 cattle and 200 horses; the Stewart Ranch company, Pincher creek, 4000 cattle and 500 horses; Messrs. Samson and Harford, High river, 3500 cattle and 150 horses; the Quorn Ranch company, Sheep creek, and High river, 2500 cattle and 1000 horses; the Victor ranch (Messrs. M'Dermid and Ross), Willow and Trout creeks, in the Porcupine hills, 2500 cattle and 500 horses; the Winder Ranch company at Trout creek and Willow creek, 2500 cattle and 400 horses; the Military Colonisation ranch, Bow river,

\$1,000 CASH FOR THE BEST GUESS!!

\$10,000 in Cash to be Given FREE to Subscribers.

A quart of yellow corn has been put into one of Mason's quart jars, and sealed. The measure is the ordinary quart measure, and no one knows the number of kernels it contains. The jar has been deposited in the vaults of a New York safe deposit company and cannot be opened or counted until the expiration of this contest, Feb. 1st, 1889. The following 4,889 Presents will then be given to the 4,889 persons making the best guesses as to the number of kernels of corn the jar contains.

1 Present to the person guessing the correct number of kernels,	\$1,000
1 " " " nearest the correct number,	750
1 " " " making the next best guess,	500
5 Presents to the 5 persons making the next best guess,	\$100 each, 500
10 " " " " " " " " " " " "	50 " 500
20 " " " " " " " " " " " "	25 " 500
50 " " " " " " " " " " " "	10 " 500
100 " " " " " " " " " " " "	5 " 500
200 " " " " " " " " " " " "	2.50 " 500
500 " " " " " " " " " " " "	1 " 1,000
8,500 " " " " " " " " " " " "	1 " 8,500

4,359 Presents, Amounting to \$10,000

CONDITIONS:—No guess will be received and recorded except from a person who becomes a subscriber to THE NEW YORK MAGAZINE, and sends FIFTY CENTS for a six-months' trial subscription. The 50 cents is the regular subscription price, and is in no sense a payment for the guess, but for the magazine, which we believe will be so interesting that you will become a permanent reader. The Jar will be opened, and kernels of corn counted and Presents awarded FEBRUARY 1st, 1889. Should no person guess the correct number of kernels the jar contains, the one guessing nearest will receive the present of \$1,000. Should two or more persons guess the actual number, then THE ONE WHOSE GUESS IS FIRST RECEIVED WILL GET THE FIRST PRESENT OF \$1,000, and the next will be entitled to the second, and so on.

TO CLUB RAISERS.—To those who desire to form clubs among their friends, we will send six subscriptions to be accompanied with the guess in plain figures opposite the name and address sent. This offer is made for the sole purpose of advertising and making known one of the most popular publications of the day. THE NEW YORK MAGAZINE is replete with the choicest literature of the day, and contains articles of value and interest from the most noted authors. It is finely illustrated, of high moral tone, and the proprietors are determined and propose to spend a large sum of money in order to place it in 100,000 American homes. As to our reliability we refer to John F. Phillips & Co., Advertising Agents, 29 Park Row, N. Y.; Jos. B. Stillwell & Co., Printers and Lithographers, 20 Cliff Street, N. Y.; Rogers & Co., Bankers, 129 Pearl Street, Boston, or any commercial agency throughout the United States. Money may be sent by postal note, money order or registered letter. Stamps in an amount less than \$1.00. Address: **WASHINGTON & CO., Publishers, 9 Murray St., New York.**

CUT THIS OUT AND SHOW IT TO YOUR FRIENDS. IT MAY NOT APPEAR AGAIN.

2500 cattle and 500 horses; Messrs. J. G. Baker & company, range between the Belly river and the Little Bow, 2000 cattle. The export of live cattle from the Alberta ranches to British ports, an industry that only commenced last year, will probably grow into a large and profitable trade. Alberta possesses an advantage over the Argentine Confederation in that she can place her cattle alive upon the English markets, whereas the Argentine breeders can only send dead meat to Britain. An experienced rancher tells me that it costs a trifle over £6 per head to send three-year-old steers from Calgary to Liverpool, via Montreal, and that the journey occupies one month. Arrangements have already been made for the shipment of over 4000 head of cattle from Alberta this season, including 1800 head from Powder River Cattle company, 1100 from the Oxley ranch, 400 from the Northwest Cattle company, 255 from the Stewart ranch, 250 from the Cochrane ranch, and 250 from Samson and Harford. The general average of prices realised varies from £10 to £11 per head at Calgary."

Diphtheria.

Lime water is an admirable remedy in cases of diphtheria. Its local effect is more useful in cleaning and purifying the fauces, and its mode of application is the easiest imaginable. It requires no spray apparatus, no douching, and no effort at gargling. It is sufficient to have the patient slowly swallow a teaspoonful or more every hour, in order to get good results from its use. This fact is of the greatest importance in treating children, who are too often cruelly tortured in the attempt to make local applications to the throat. Lime water can be given easily, and is taken readily by children; and there are, we believe, few cases of diphtheria which require a more energetic local treatment than the one just described. In fact, we think that an early clearing out of the bowels, with calomel—sometimes in massive doses, followed up after a short interval by the administration of lime water and the use of a suitable tonic and roborant regimen, constitutes a method which comes the nearest to being of universal applicability of any one with which we are familiar; and we think that the use of the lime water is of more consequence than any other part of the treatment, except it be the preliminary purgation. —[Medical and Surgical Reporter.

Profit in Feeding.

An important point was demonstrated in Prof. Henry's article, on fall and spring feeding of young stock, in the October number of the American Agriculturist. He shows the cost per pound of growth during the calves' second winter and spring varies from six to sixteen cents per pound. The big cattle-feeders of the West fully understand this point. They buy cattle from two to two and one-half years old in the fall, paying only two to three cents per pound, live weight, put them up, feed them well and turn them off fattened at a hand-

DR. GEO. WILKINS, DENTIST.

Does everything in the way of dentistry. Besides filling teeth and putting in artificial on he makes a specialty of treating, saving, making useful and able teeth of those who are diseased and badly decayed, such as are generally extracted. Call and see the new method.

Teeth without plates that will not drop or get loose. See samples of porcelain continuous gum teeth, enamel fronts and crowns made to match your own teeth. Porcelain fillings a specialty.

Albany, Texas

some profit. This frame, which they buy for three cents, costs the farmers who purchase it not less than twelve cents per pound as usually grown. This expense is due to the fact that such stock usually get poor care from the time they are one year old until ready to be fattened. And it accounts for the unusual numbers of such cattle being now placed on the market.

Getting All the Cream.

National Stockman and Farmer.

Comparative tests of cream raising are frequently published in which it is shown that more cream has been obtained by one method or apparatus than by another. Extravagant claims of manufacturers are made in their circulars. Where people are properly educated on the subject of cream raising these absurd claims will go in one ear and out the other.

Milk set when first drawn, or at a temperature of 95 or 98 degrees, will yield all its cream as soon as or very soon after its temperature has been reduced to 45 degrees, if the reduction be quickly made. If there is any process, method, apparatus or device, by which more than all the cream can be obtained, it is the duty of agricultural and dairy papers to ascertain what that process is, and let the world know it just as soon as they can.

A comparative test amounts to but little, if it does not show that the process or apparatus producing the most cream obtains it all. However, I do not remember ever to have seen in any published statement of comparative tests the additional statement that pains was taken to demonstrate that all the cream was obtained by the successful competitor. The demonstration the value of any system of cream raising a comparative test is not necessary, nor is it of any value unless the additional feature above mentioned is taken into consideration.

To determine whether all the cream has been obtained, especially where the cold deep setting or Swedish system has been used, the creamed milk should be heated up to a temperature of 98 or 100 degrees and reset—the temperature being quickly reduced to 45 degrees. If no cream comes to the surface it will be pretty good evidence that it was all obtained at first setting. There will nearly always be a slight scum that will come to the surface at such a time, but it will not be cream. There will be no butter in it.

A number of years ago Samuel E. Lewis, Oxford, N. Y., told me he set 400 pounds of milk in accordance with the cold deep-setting system, and after taking off the cream decided to determine whether this scum he had always noticed at second setting contained any butter. With that quantity of milk he succeeded in getting enough so he could churn it. After exhausting all efforts with the churn he failed to obtain any butter. This was an opportunity to demonstrate a fact which could not be demonstrated where a small quantity of milk had been set. Mr. Lewis satisfied himself that there is no value whatever in the slight scum that rises at the second setting of milk, where milk has once been properly set, and the temperature quickly reduced to the proper point.

Any one who has experimented in this direction will readily notice the difference between real cream and the scum mentioned. Any one who is raising cream for butter or other purposes should never be satisfied until they have demonstrated to a certainty that they are obtaining all the cream there is in their milk. F. W. MOSELY.

"I want to thank you," writes a young man to B. F. Johnson & Co., "for placing me in a position by which I am enabled to make money faster than I ever did before." This is but a sample extract of the many hundreds of letters received by the above firm.

Money Made With Southdowns.

Colmans Rural World.

"Do sheep pay?" is a question frequently asked, and often the answer is that they do not. And in keeping with this view many farmers do not keep sheep at all and others are selling off their flocks as fast as they can.

J. M. and F. A. Scott, farmers and stock breeders of Randolph county,

Mo., believe that there is money in sheep, and are breeding thoroughbred Southdowns for those who believe as they do. It is not simply a matter of belief with them, for they have demonstrated quite clearly that it is the case.

Last February just before lambing time they bought 83 head of grade Cotswold ewes, for which they paid \$373.50. They sold the wool from the flock for \$171, and, about the first of last September, sold the lambs, which then averaged 93 pounds in weight, for \$220, making \$391, that had been obtained from the flock or \$17.50 more than its first cost, the entire flock being still owned.

Now how much profit did the \$373.50 invested in ewes yield? An allowance of \$2 per head per annum, or \$166 for the 83 head of ewes and enough added to this for the pasturage of the lambs until selling time to make \$200 will amply pay the cost of keeping. We have then the following results:

First cost of 83 ewes.....	\$373.50
Cost of care and keep.....	200.00
Total.....	\$573.50
Sales made as above.....	\$391.00
One-third profit on investment.....	124.50
Net gain over one-third profit.....	\$58.00

Here is then, after paying the cost of keeping, a net return of 33 1/3 per cent. on the amount invested and a balance of \$58 over to be applied to keeping up the condition of the flock by replacing aged ewes with young ones, an amount more than sufficient for the purpose.

The honor and integrity of the management of the Louisiana Lottery company are now fully established all over the country. All who know anything about it, know that the drawings of the company are held with the utmost fairness and all prizes paid fully and promptly. Thousands are ready of their own knowledge to testify to this.

Largest stock of tin plate, metals, sheet iron, iron roofing and siding in Western Texas, Piper & Schulthess, San Antonio, Texas. We sell at factory prices, only freight added.

Scratched 28 Years

A Scaly, Itching Skin Disease With Endless Suffering Cured by Cuticura Remedies.

If I had known of the CUTICURA REMEDIES twenty-eight years ago it would have saved me \$200 (two hundred dollars) and an immense amount of suffering. My disease (Psoriasis) commenced on my head in a spot not larger than a cent. It spread rapidly all over my body and got under my nails. The scales would drop off of me all the time, and my suffering was endless and without relief. One thousand dollars would not tempt me to have this disease over again. I am a poor man, but feel rich to be relieved of what some of the doctors said was leprosy, some ring worm, psoriasis, etc. I took . . . and Sarsaparilla over one year and a half, but no cure. I went to two or three doctors and no cure. I cannot praise the CUTICURA REMEDIES too much. They have made my skin as clear and free from scales as a baby's. All I used of them was three boxes of CUTICURA, and three bottles of CUTICURA RESOLVENT, and two cakes of CUTICURA SOAP. If you had been here and said you would have cured me for \$200 you would have had the money. I looked like the picture in your book of Psoriasis (picture No. 2, "How to cure skin diseases"), but now I am as clear as any person ever was. Through force of habit I rub my hands over my arms and legs to scratch once in a while, but to no purpose. I am all well. I scratched 28 years, and it got to be a kind of second nature to me. I thank you a thousand times. Anything more that you want to know write me, or any one who reads this may write to me and I will answer it. DENNIS DOWNING. Waterbury, Vt., Jan. 20, 1887.

Psoriasis, Eczema, Tetter, Ringworm, Lichen, Pruritus, Scald Head, Milk Crust, Dandruff, Barbers', Bakers', Grocers' and Washerwoman's Itch, and every species of Itching, Burning, Scaly, Pimply Humors of the Skin and Scalp and Blood, with loss of hair, are positively cured by Cuticura, the Great Skin Cure, and Cuticura Soap, an exquisite Skin Beautifier externally, and Cuticura Resolvent, the new Blood Purifier internally, when physicians and all other remedies fail.

Sold everywhere Price, CUTICURA, 50 cts.; SOAP, 25 cts.; RESOLVENT, \$1. Prepared by the POTTER DRUG AND CHEMICAL CO., Boston, Mass.

Send for "How to Cure Skin Diseases." 64 pages, 50 illustrations and 100 testimonials.

Henry W. Grady to Southern Farmers.

Henry W. Grady in his great speech at Dallas said many things worthy of the closest consideration by Texas farmers, but much of it, as our readers will testify, has been gone over and over again by the STOCK JOURNAL. This does not detract from its merits, it is truth and fundamental in its character—the only key to the final solution of general prosperity among the farmers of the South, and God speed the day when we shall have awakened to a full and complete realization of the fact. We regret that our space will not admit of further reproduction:

First, no one crop will make a people prosperous. If cotton held its monopoly under conditions that made other crops impossible or under allurements that made other crops exceptional, its dominion would be despotism. Whenever the greed for a money crop unbalances the wisdom of husbandry the money crop is a curse. When it stimulates the general economy of the farm, it is the profit of farming. In an unprosperous strip of Carolina, when asked the cause of their poverty, the people say "Tobacco, for it is our only crop." In Lancaster, Pennsylvania, the richest American county by the census, when asked the cause of their prosperity, they say "Tobacco, for it is the golden crown of a diversified agriculture." The soil that produces cotton invite the grains and grasses, the orchard and the vine. Clover, corn, cotton, wheat and barley thrive in the same enclosure. The peach, the apple, the apricot, the Siberian crab in the same orchard. Herds and flocks graze ten months every year in meadows over which winter is but a passing breath, and in which spring and autumn meet in summer's heart. Sugar cane and oats, rice and potatoes are extremes that come together under our skies. To raise cotton and send its princely revenue to the west for supplies and to the east for usury, would be a misfortune if soil and climate forced such a curse. When both invite independence, to remain in slavery is a crime. To mortgage our farms in Boston for money with which to buy meat and bread from Western cribs and smoke houses is folly unspeakable. I rejoice that Texas is less open to this charge than others of the cotton states. With her 80,000,000 bushels of grain and her 16,000,000 head of stock she is rapidly learning that diversified agriculture means prosperity. Indeed the South is learning the same lesson, and learned through years of debt and dependence it will never be forgotten. The best thing Georgia has done in twenty years was to raise her oat crop from 2,000,000 to 9,000,000 bushels without losing a bale of her cotton. It is more for the South that she has increased her crop of corn—that best of grains, of which Samuel J. Tilden said "it will be the staple food of the future and men will be stronger and better when that day comes"—by 43,000,000 bushels this year than to have won a pivotal battle in the late war. In this one item she keeps at home this year a sum equal to the entire cotton crop of any state, that last year went to the West. This is the road to prosperity. It is the way to manliness and sturdiness of character. When every farmer in the South shall eat bread from his own fields and meat from his own pastures—and disturbed by no creditor and enslaved by no debt, shall sit amid his teeming gardens and orchards and vineyards and dairies and barnyards, pitching his crops in his own wisdom and growing them in independence, making cotton his clean surplus and selling it in his own time and his chosen market and not at a masters bidding, getting his pay in cash and not in a receipted mortgage that discharges his debt, but does not restore his freedom—then shall be breaking the fullness of our day. Great is king cotton! But to lie at his feet while the usurer and grain raiser bind us in subjection, is to invite the contempt of man and the reproach of God. But to stand up before him, and amid our cribs and smoke-house wrest from him the magna charta of our independence and to establish in his name an ample and diversified agriculture that shall honor him while it enriches us—this is to carry us a far in the way of happiness and independence as the farmer working in the fullest wisdom and in the richest fields can carry any people. [Applause.]

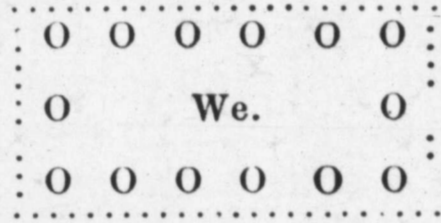

Bucklin's Arnica Salve.

tively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by H. W. Williams & Co.

An Arizona Editor's Courtship.

The following appeared in the Arizona Kicker:—"It is being thrown in our face that old Jim Polhemus kicked us off his premises the other night for making love to his daughter, Honora. An explanation is not only due our readers, but ourself. While everybody in this county knows old Jim to be a sand-papered, oil-finished liar of the fist quality, some recent arrival may hear his story and do us the injustice of believing it. In love with Honora Polhemus! In love with a carrot-haired, freckled-faced, lantern-jawed, lop-shouldered, pigeon-toed knock-kneep, specimen of the female sex who chews plug, spits out cuss words and shakes her fists under her father's nose! Never! Not if we edit the Kicker, and we think we do! The fact is, old Jim has wanted us for a son-in-law ever since we struck the town and opened up. We can say without egotism that we have been the catch of the place. Who urged us to visit his house? Who loafed about our office for weeks? Who threw his lop-eared daughter at our head, as it were? Old Jim Polhemus! He figured that a marriage with us would pull his family out of the quagmire of obscurity and give 'em standing, and he figured right. The following diagram shows how we were received at old Jim's dugout:

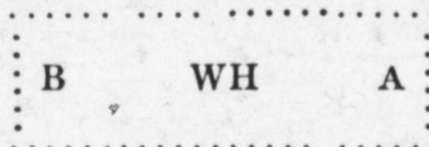

O's—The Polhemus family.

We—Editor Kicker.

"Does this look as if the old long-shanked liar forbid us his house, as he now says he did? We never took to Honora. The eagle cannot mate with the crow. We endured her expecting to get a year's subscription out of her father, and we were polite to her because it is our nature to be polite to everybody. We don't want to spoil the girl's chance for catching a Digger Indian for a husband, but we shall hold ourselves in readiness to sympathize with the Digger.

"We had been visiting Jim's dugout on Rabbit Hill for four or five weeks, when, Sunday night last, the conspiracy against us came to a head. The following postal card shows the situation in the front room of the dugout at 10 o'clock that evening:

A—Door by which Jim suddenly jumped into the room.

B—Door by which he left the dugout.

W—Editor Kicker.

H—Honora.

"It may be further explained to the gentle reader that she had taken a seat on our knee and was trying to feed us gum drops. We repulsed her gently, but with Roman firmness. We were telling her that we did not intend to marry until the Kicker had secured a weekly circulation of 5000 copies, when she threw her arms around our neck, ploughed her nose along our cheek and into our ear, and said her heart was breaking. Old Jim, who had been in ambush in the other room, rushed in at that moment and swore that we had been trifling with Honora's affections. We gently denied it. He said we'd got to marry her or fill an honored grave. We declined both honors. Honora began to bellow and declared she'd die if we gave her the shake, but the editor of the Kicker wasn't rocked in a basswood cradle. We arose to terminate the painful interview and were assaulted by both father and offspring.

"Had the editor of the Kicker descended to the level of old Jim Polhemus, who was only a coyote poisoner before a visit to our office raised him a peg, civilized society would no longer have recognized us. No man can strike a woman, even if she has both hands in his hair. We admit a black eye, a bitten ear, a damaged nose and more or less general diapidation, but, thank Heaven, we came out of the fiery furnace without the loss of a principle. These are the brief facts. Old Jim Polhemus may lug himself around from pillar to

pothouse and tell a new lie at every stopping place, but he can't hurt us any. Honora may call us an unhung villain on every doorstep in town, but the elite won't believe it. Now is the time to subscribe."

A man who has practiced medicine for 40 years, ought to know salt from sugar; read what he says:

TOLEDO, O., Jan. 10, 1887.

Messrs. F. J. Cheney & Co.—Gentlemen:—I have been in the general practice of medicine for most 40 years, and would say that in all my practice and experience, have never seen a preparation that I could prescribe with as much confidence of success as I can Hall's Catarrh Cure, manufactured by you. Have prescribed it a great many times and its effect is wonderful, and would say in conclusion that I have yet to find a case of Catarrh that it would not cure, if they would take it according to directions.

Yours Truly,

L. L. GORSUCH, M. D.

Office, 215 Summit St.

We will give \$100 for any case of Catarrh that can not be cured with Hall's Catarrh Cure. Taken internally. F. J. CHENEY & CO., Props., Toledo, Ohio. Sold by Druggists, 75c.

Open Orders Solicited.

CHICAGO MARKET LETTER.

No let up to the Cattle Run—Sheep Very Low Feeding Demand Strong.

Regular Correspondence Texas Live Stock Journal.

U. S. YARDS, }
CHICAGO, ILL., Nov. 5, '88. }

Cattle receipts last week 64,500, being 12,000 more than were received a year ago.

The market for cattle during the week was dull and bad. Prices for all but choice ranges and good native cattle were the lowest of the season.

Even choice cattle did not sell readily at \$5@5.50. Inferior to fair native beef steers sold at \$3.

Texas cattle sold as follows at the opening of this week: Steers, \$2.10@2.75; cows, \$1.50@2 with one small lot at \$2.25; calves, \$2@3.50; bulls, \$1.40@1.90.

For several days past the interest in politics has totally eclipsed all live stock markets.

The restrictions against Texas cattle are now all removed in this market. "Division D—Texas" or "The morgue" as some of the boys called it is now open to any and all kinds of cattle. By the way this setting apart of a portion of the yards for the exclusive use of Texas cattle has proved to be a benefit rather than a hindrance. Buyers knew exactly where to find the cattle. The butchers after the first day or two found that it was just as handy for them to ship their cattle to the heart of the city as to drive them through the streets.

B. W. Jones marketed 1071 head of 83-lb sheep at \$3.35.

A lot of 2206 Utah sheep av'g 152 lbs, sold at \$3.40.

Some 15 cars of 118-lb Utah sheep sold at \$3.55.

The feeders are still buying a large share of the Western sheep.

The best native muttons sold at \$3.75 @4.15.

Prices for native sheep are lower than for any other kind of stock.

There seems, however, to be a good deal of confidence among feeders that mutton feeding will be all right this winter.

The demand for feeding cattle is also very strong though many men are afraid there will be too many cattle fed.

A. C. HALLIWELL.

ST. LOUIS MARKET LETTER.

About the Same as Before—Not Much Money for Stock.

EAST ST. LOUIS, ILLS., }
Nov. 6, 1888. }

Regular Correspondence Texas Live Stock Journal.

It can be truly said there is no change to note in the cattle market. There is no let up in the receipts, and they are as liberal now as in weeks gone by. To one unacquainted with the vast resources of this county it would seem that all the cattle of the country are being sent to market, so large are the offerings. Range cattle were in abundance, and likewise native and Southwest cows, heifers and light steers. In fact, nothing but light and common stock is offered nowadays, for

which very low figures are obtained. Cow stuff has reached bottom prices—the lowest in years, ranging from \$1.50 @2 per 100 lbs.

Cassidy Bros & Co. sold for L. Peyton, Denton, 20 cows, 818 lbs, \$1.70; Woodward & Richardson, Denton, 22 steers, 953 lbs, \$2.75; S. J. Woodward, Denton, 79 steers, 871 lbs, \$2.55; 47 steers, 962 lbs, \$2.75; P. N. Blackstone, Muskogee, 25 steers, 952 lbs, \$2.70; 26 steers, 929 lbs, \$2.50; 48 steers, 915 lbs, \$2.40; Russell & Morgan, Henrietta, 25 cows, 817 lbs, \$2; Geo. E. Ball, Gainesville, 59 cows, 736 lbs, \$1.70.

Scaling & Tamblin sold for Sanford Wilson, Antelope, 15 mixed, 876 lbs, \$2.10; Wm. Spears, Henrietta, 24 steers, 792 lbs, \$2.15; Hughes & Rathwell, Coleman City, 14 cows, 765 lbs, \$1.70; Geo. Scaling, Hubbard City, 20 steers, 1055 lbs, \$3; 31 steers, 1074 lbs, \$2.75; 21 steers, 1043 lbs, \$2.75; A. S. Nicholson, Fort Worth, 47 cows, 830 lbs, \$1.70; 25 cows, 840 lbs, \$1.90; 15 bulls, 1109 lbs, \$1.40; Webb & Houston, Terrell, 13 cows, 761 lbs, \$2.25; 58 cows, 841 lbs, \$2.10; 55 cows, 798 lbs, \$2; 10 cows, 802 lbs, \$1.70; 23 bulls, 1100 lbs, \$1.55; Mrs. S. E. Newman, Bellevue, 47 steers, 921 lbs, \$2.90; 23 steers, 936 lbs, \$2.80; J. W. Earnest, Tulsa, 78 calves, \$5.50 each.

The James H. Campbell Co. sold for C. W. Turner, 21 cows, 904 lbs, \$2.25; 26 steers, 933 lbs, \$2.85; J. B. Markham, 39 steers, 963 lbs, \$2.75; B. Miller, 35 steers, 1033 lbs, \$3; F. B. Seyers, 11 steers, 1264 lbs, \$4; Tom Farris, 21 steers, 910 lbs, \$2.75; Harold & East, 24 steers, 1050 lbs, \$2.65; 92 cows, 777 lbs, \$1.75; 56 cows, 772 lbs, \$1.75; D. B. Gardner, 24 steers, 906 lbs, \$2.40; 21 steers, 928 lbs, \$2.50; 47 steers, 933 lbs, \$2.50; 24 steers, 900 lbs, \$2.45; M. Fox, 23 cows, 929 lbs, \$1.85; 33 cows, 719 lbs, \$1.65; Welders, 63 calves, \$6 each.

Good fat muttons are scarce and wanted at pretty good prices, but common and medium sheep are dull of disposal at very low prices. Feeders are out of the market, consequently there is no demand whatever for common grades. But few Texas sheep were offered, and the common ones were almost given away, they bringing only from \$1.50 to \$2 per 100 lbs, which is hardly enough to pay freight and commission charges. Fat muttons of 90 to 100 lbs bring from \$3.50 to \$4 per 100 lbs. Of this kind there are none in Texas at present.

Scaling & Tamblin sold for Berry Gatewood of Colorado City, 504 sheep of 70 lbs average at \$2.75 per 100 lbs.

The Texas horse market is about at an end for this season. A few stray loads are coming in, but the market is dull and uninteresting. Sales few and far between, at range of \$15 to \$25 per head. Sam A. White, the superintendent of the horse department of the National Stock Yards, is already setting preparations on foot for next year's trade. It is his opinion that there will be a better market in 1889 than in 1888.

The wool market is quite active, and good Texas wools are in demand and sell well, the tops bringing 23¢ per lb. A fair amount is coming in.

RATTLER.

**Look HERE, FRIEND.
Are you Sick?**

Do you have pains about the chest and sides, and sometimes in the back? Do you feel dull and sleepy? Does your mouth have a bad taste, especially in the morning? Is there a sort of sticky slime collects about the teeth? Is your appetite poor? Is there a feeling like a heavy load on the stomach, sometimes a faint, all-gone sensation at the pit of the stomach, which food does not satisfy?

Are your eyes sunken? Do your hands and feet become cold and feel clammy? Have you a dry cough? Do you expectorate greenish colored matter? Are you hawking and spitting all or part of the time? Do you feel tired all the while? Are you nervous, irritable and gloomy? Do you have evil forebodings? Is there a giddiness, a sort of whirling sensation in the head when rising up suddenly? Do your bowels become costive? Is your skin dry and hot at times? Is your blood thick and stagnant? Are the whites of your eyes tinged with yellow? Is your urine scanty and high colored? Does it deposit a sediment after standing? Do you frequently spit up your food, sometimes with a sour taste and sometimes with a sweet? Is this frequently attended with palpitation of the heart? Has your vision become impaired? Are there spots before the eyes? Is there a feeling of great prostration and weakness? If you suffer from any of these symptoms, send me your name and I will send you, by mail,

SOLID GOLD WATCHES FREE!

We, the Publishers of this paper will give away absolutely Free! 50,000 genuine Solid Gold Stemwinding and Stemsetting Watches (in order to get new subscribers and agents) to 50,000 persons as stated in our advertisement in our paper. These watches come in Ladies' or Gents' size, Hunting Case or open face, in 25 different styles of cases. Each and every Watch will be warranted by us and an American Watch Co., who have been doing business in this country for the last 20 years, to be first class in every particular and to run and keep correct time for 5 years! Also that each and every Watch mentioned above are genuine 14k Solid Gold, or we will forfeit \$1,000 to any School, Church or Charitable Institution in the United States.

This is certainly one of the grandest offers ever made by any living publisher. How can we do it all of this? This is a question that thousands who read our advertisement will ask; we answer—Easily enough! and in order to make everything perfectly plain to you, we offer the following long-jude explanation. All papers of a National reputation spend each year from \$25,000 to \$250,000 in advertising to make known their publication and increase their advertising patronage. Of course, no paper can possibly make money, or even exist without advertising. Consequently by giving away absolutely Free 50,000 Solid Gold Watches (and more if our Subscribers and Agents demand them) we expect to get the largest circulation of any Family publication in the world! Our point is after we get a certain circulation we can command easily from \$25 to \$50 an inch from advertisers for space in our paper—(there's Millions of Dollars in advertising)—to say nothing about the income from subscriptions. See? Then it will be only a question of time with proper management and square, honest and truthful statements to our subscribers that we will be friends with every person in the land. Then again, we know that our elegant Solid Gold Watches and our paper will give such perfect satisfaction that we will get as much as 50 to 100 new subscribers in every town where our paper goes, and as there is something like 55,000 towns in America, you can easily see what an immense circulation we are sure to build up. Remember we are after a large Circulation! We must have it! Even though it costs Two Millions of Dollars! Otherwise our enterprise would be a dead failure. We consider our paper the most reliable and popular Home publication that is printed in this country. You'll say so too, when you see it. It is a complete family paper in every way. Each issue is profusely and beautifully illustrated, containing several complete and serial stories of fascinating interest, and a rich variety of many sketches, anecdotes, news, condensed notes on fashion, art, industries, literature, etc., and stands conspicuous among the illustrated journals of America. When the New York World, Herald, Times, Tribune and other papers have an income of over One Million Dollars each year, why can't we have the same thing? Has a man ever done anything yet that another one couldn't do? Any person with money to invest, can make money! Isn't this true? Now, read the following and secure one of the greatest bargains ever known or heard of on the face of the Globe!

OUR GRAND 30 DAYS OFFER! Upon receipt of a One Dollar Bill, Postal Note, Express Money Order, Registered Letter, or P. O. Money Order we will send you by return mail, post paid, Absolutely Free, as a Premium, This beautiful and elegant Stem-winder as illustrated here, and our paper One Year Free of charge. This advertisement may never appear again So Cut It Out! Nothing is gained by correspondence as everything is fully described above. Reference: All Newspaper Publishers, any Mercantile Agency, Bank, Merchant or Express Agent in this city. Express! We will send Six of these Premiums and Six Copies of our paper for One Year to a club of six persons for \$15. Perhaps you can get Five of your friends to join you and thus get your own Premium and paper Free! A very appropriate Christmas Present. Address THE AMERICAN FAMILY, 169 Fulton St., N. Y.

SUBSCRIPTIONS to the TEXAS LIVE STOCK JOURNAL are solicited upon the ground that the information given is worth the money to any man in Texas who is either raising, dealing in, or feeding any description of live stock in Texas, Louisiana, the Indian Territory, or any section of the range country. The weekly edition costs but \$1.50 per year. We ask those who are subscribers to renew promptly and those who are not subscribers to give the paper a yearly trial. Subscriptions can be sent direct to the TEXAS LIVE STOCK JOURNAL.

The Campaign in Crosby County.
Texas Siftings.

Col. Bill Snort, editor of the Crosby County Clarion and Farmers' Vindicator, having been absent from Crosbyville for several months, has returned and resumed charge of the editorial columns, relieving Judge Dickson, who has been the editor pro tem. On resuming his editorial labors, Col. Snort remarked to Dickson:

"Say, Judge, I'm not posted about Harrison, and before I open the campaign in Crosby county I'd like to know where his sore spots are, so I'll know where to punch."

"I don't think there is much opportunity of making this a personal campaign," replied Judge Dickson.

"Well, hasn't Harrison never stolen anything, or written any letters he wanted burned?"

"No, I believe not."
"That's bad. Goring candidates that are crooked is my stronghold. How is he off for social scandals?"

"I don't think Harrison has ever been mixed up in any social scandal," replied the Judge, meditatively.

"Great Scott! What sort of a fool campaign is this going to be, anyhow? If he had only been divorced I could have squelched him like I did Col. Snickers when he ran for the senate. I hunted up his divorce record, and if he hadn't persuaded me to keep quiet I would have appealed to the moral sense of Crosby county and he would have been badly beaten, but Col. Snickers appealed to me as a friend, so I let up on him. But ain't there nothing in Harrison's record that I can work on?"

"One of his ancestors was hung for signing the death warrant of Charles the First of England."

"Now that's something like. I've got a point at last. I'll just keep on mentioning that several of his ancestors were hung. I'll not say what for, and then everybody in Crosby county will believe that they belonged to a gang of horse thieves, and he won't get twenty-five votes in this settlement. Ain't there something else?"

"I suppose you know Harrison was a Know Nothing?"

"He was, eh? That settles his hash with the German settlement on Crosby creek, and Pat Malloy, who is going to start a saloon, will be down on him. I don't suppose Harrison will poll a single one of the nineteen Irish votes in this county. All the Catholics will vote against him on his Know Nothing record. I reckon I can manage to throw a little life into this campaign after all."

"You ought to go for the Republicans about their platform. They are opposed to reducing the taxes."

"I don't pay no taxes, anyhow, so I can't denounce them very much on that score. I don't believe I'll hit them hard on that sore spot."

"But your patrons want the taxes reduced. Then again the Republicans are in favor of free whisky."

"No?"

"Yes, that's just what they are in favor of."

"I'm in favor of free whisky myself."

I don't believe that a man ought to be obliged to pay anything for whisky."
"But the Democratic party is not in favor of free whisky, and you must keep in line with your party."
"This is pretty tough on me," sighed Col. Snort. "I don't want to go back on my party, and, at the same time, I don't want to advocate taxing the necessaries of life. I never was in such a hideous fix in all my life. Let's go over to the saloon and brace up with a snifter, and maybe I'll see my way out of this nauseating dilemma."

DALLAS - - - - TEXAS.

THE

KANSAS CITY STOCK YARDS

Are by far the most commodious and best appointed in the Missouri Valley, with ample capacity for feeding, weighing and shipping Cattle, Hogs, Sheep, Horses and Mules. They are planked throughout, no yards are better watered, and in none is there a better system of drainage. The fact that

HIGHER PRICES ARE REALIZED HERE

Than in the East is due to the location at these yards of

EIGHT PACKING HOUSES,

with an aggregate daily capacity of 3300 cattle and 27,200 hogs, and the regular attendance of sharp, competitive buyers for the packing houses of Omaha, Chicago, St. Louis, Indianapolis, Cincinnati, New York and Boston.

All the sixteen roads running into Kansas City have direct connection with the yards, affording the best accommodation for stock coming from the great grazing grounds of all the Western states and territories, and also for stock destined for Eastern markets.

The business of the yards is done systematically and with the utmost promptness, so that there is no delay and no clashing, and stockmen have found here, and will continue to find, that they get all their stock is worth with the least possible delay
