DEMOCRATIC COUNTY CONVENTION

The Democrats of Chase County, Kansas, will meet, in mass convention, at the Court house, in Cottonwood Falls, on Saturday, September 2, 1893, at 11 o'clock, a. m., for the purpose of nominating candidates for the following county officers, to be voted for at the ensuing November election, viz: Treasurer, Sheriff, County Clerk, Register of Deeds, Surveyor, Coroner, and County Commissioner for the First District, and for the purpose of electing a County Central Committee for the ensuing year.

By order of the Democratic County Central Committee,

J. R. BLACKSHERE, Chairman. W. E. TIMMONS, Secretary.

People who are unable to pay their advertising bills manage to scrape up a hundred dollars or so, to spend at the World's Fair—Atchison Patriot.

Yes; and you might have added any other newspaper bill.

The Courant predicts that the present congress will pass a free silver coinage bill, placing gold and silver on a parity, and President Cleveland will sign the bill.

Five states—Iowa, Vermont, Michigan, Wisconsin and Illinois—have no interest bearing debt, and there are six or seven other states whose bonded debts are mere bagatelles.

The editor of the Dodge City Democrat was assaulted, while in his office, week before last, by a man who struck him several times in the face, and then cruelly bit off a portion of his nose and spit it on the floor.

The unconditional repeal of the Sherman silver purchase, if it is accomplished, will be the last act in a conspiracy of English and American capitalists to demonetize silver.

The Democrats in the American congress made a vigorous fight for the free coinage of silver, Senator P. B. Plumb, of Kansas, voting with the Democrats, as did Congressman Kelley, in the House.

The Sherman bill provided for the repeal of the Bland law which provided for the coinage of about \$50,000,000 of silver money every year.

Mr. Sherman has stated that the law bearing his name was a subterfuge to defeat the free coinage of silver. Everybody now admits that the Sherman law is a fraud and an outrage on the people of the west and south, and, in fact, everybody except the bond holders and the money changers.

The people of Kansas must not overlook the fact that the unconditional repeal of the Sherman law means the demonetization of silver. This can never be accomplished if all the members of the House and Senate who have been elected by an anti-golding constituency, from the south and west, will remain true to the trust confided to them.

If the Sherman law is unconditionally repealed some of the western and southern men in Congress will have betrayed the people whom they represent. There is no getting around this, and it is just as well to call things by their right name.

THE HIDDEN DOLLARS.

It has often been said that the worst possible use to make of a man is to hang him, and as a parallel truth it may be said that the worst possible use to make of a dollar in these hard times is to hoard it up.

Every man should understand the "hard times" we complain of are temporary. There has been no absolute destruction of values. We have had no plague, or pestilence or famine. Nothing has been burned that may not be rebuilt; nothing has been cast into the sea beyond recovery.

Men—business men—should understand the situation. There is no business sense in exaggerating it or becoming hysterical or panicky about it.

There is nothing in the situation which excuses any man from his ordinary obligations to his fellow men, those among whom he lives and moves and with whom he does business. If he owes a debt it is as much his duty to pay as ever it was.

The sooner men recognize the necessity of manliness in business matters and begin to pay their debts and put their money to its usual and legitimate uses the sooner their temporary trouble will be over.

The day of judgement is not as far off as many people suppose. It is always at hand; it is to-day and to-morrow and next day. When this financial pressure is over—and it may "let up" any day—men will be remembered according to their works.

SPECIAL WORLD'S FAIR EXCURSION.

Many Kansas teachers who did not visit the World's Fair early in the season, have been in attendance upon the August institutes during the present month, and at this conclusion, with contracts for the coming year's work in their pockets, and with first grade certificates to their credit, they are ready to enjoy a two weeks holiday among the wonderfully interesting and instructive sights of the World's Columbian Exposition.

For the benefit of such teachers and their friends, and others who have not availed themselves of earlier opportunities, a special excursion over the Santa Fe line has been planned for Monday, Aug. 28th, leaving Kansas City at 7:00 p. m.

No better educational investment, can be made than in such a trip as this; and teachers who wish to become acquainted or to renew acquaintances with the wonderful aggregation of exhibits now to be seen in Jackson Park, Chicago, are urged to join this special excursion.

For further information, apply to J. J. Comer, local agent.

CAME LAW.

Several persons have asked us the question recently: "What is the game law of Kansas?" For the benefit of those who publish a synopsis of the law:

It is unlawful for any person at any time, to catch, kill, shoot, trap or ensnare any partridge, prairie chicken, grouse, quail, pheasant, oriole, meadow lark, red bird, mocking bird and blue bird, except upon their own premises and for their own use.

It is unlawful for any person, company or corporation at any time, to buy, sell or barter any bird or birds named above. A person may catch or kill any bird for strictly scientific purposes.

SILVER MEETING MONDAY NIGHT

Quite a number of our citizens, irrespective of party, met at the court house Monday evening to express their feelings on the silver question.

A committee on resolutions were appointed as follows: J. S. Doolittle, S. D. Breeze and Aaron Jones.

While the committee were drawing up the resolutions speeches full of sound doctrine were made by Chairman Conway and Secretary Grisham.

Has not legislation already demonetized silver, thereby adding to the purchasing power of gold by decreasing the value of all other property of every name and nature, even to the value of the days work. Look at the price of your wheat, cattle, horses and your lands?

Have not the usurers of the land made of no value the property of six great states and territories in this Union, and bankrupted one fourth of the farmers in twenty of the leading agricultural states of this nation.

What are some of the conditions now existing in the center of this great continent. You see men fighting to get possession of tools to work at reduced wages.

Equity with its flaming sword of truth demands a halt, and commands you imp of inferno back to your dungeons of darkness. We will have renonetization of silver and this will give employment to millions of laborers and will be the means of building up happy and prosperous homes.

Under the single gold standard you create two classes. The silver laugher of the silk clad lady finds an awful echo in the wails of despair from her starving sister in the hut.

Therefore, be it resolved, that we demand the renonetization and free and unlimited coinage of silver, with 37 1/2 grains of the dollar, regardless of the humping idea of parity or intrinsic bullion value.

Second, that we are unequivocally in favor of an American system of finance, which will have renonetization of one hundred and eleven millions of people in the two Americas that an American system of finance is to the interest of America.

Third, we condemn the English system of finance which has been engrafted upon our financial system and the principle cause of the destruction of all property values in the mineral wealth producing states and is fast bankrupting the agricultural states of this Union.

Fourth, we hereby pledge ourselves to vote for the person and party whose platform favors the free coinage of silver at the ratio of 16 to 1 and that we hereby pledge ourselves to vote against any party who seeks to evade the issue and pledge ourselves to do all in our power to defeat the enemies of free silver.

Fifth, Resolved that we hereby condemn the action of congress as trifling with the most sacred rights of the citizens of this republic who are losing their homes by the thousand.

Sixth, Resolved that the secretary of this meeting be instructed to send a copy of these resolutions to our congressional delegation and especially to Hon. Chas. Curtis, Congressman from this district.

Committee: J. S. DOOLITTLE, S. D. BREEZE, W. H. KNOX.
