CURED BY

A MICHTY POWER!

The Secret of The Soul, Combined With Magnetic Medicines, the Mightiest Power Known, Cures So-Called Incurable Diseases.

DIAGNOSIS, FULL INSTRUC-TIONS AND A GRAND BOOK FREE

The phenomenal cures made by Dr. J.

M. Peebles, the eminent scientist of Battle Creek, Mich.. have astonished physicians and scientists throughout the DISPELS ALL DISEASES and gives permanent health, vigor and strength to all who desire it. His work is indeed blessed and wonderful. His power comes from the fact that he has discovered the ecret of the soul, which he terms PSYCHIC; this he combines with magnetic medicines prepared in his own aboratory, making the strongest healng combination known to the world. his wonderful man has so perfected his nethod that it now reaches all classes of eople, for it ANNIHILATES SPACE and cures patients at a distance in the privacy of their own homes without the knowledge of anyone. If you are in any way sick and will write to Dr. J. M. Peeles, telling him your leading symp-oms, he will through his psychic power diagnose your case and send you full in-structions free of any charge; no matter what yourdisease or how despondent you mayfeel, there is hope for you. Hundreds of womer who suffer the many irregurities common to their sex, have been ared through Dr. Peebles' method after ey had been told their cases were inable. The same can be said of men who were debilitated from early indiscretions

DR. J. M. PEEBLES.

digestion, stomach troubles, catarrh, weaknesses of all kinds, and in fact all disses succumb to this wonderful man's method of healing. Remember, it makes no ases succumb to this wonderful man's method of healing. Remember, it makes no ifference how hopeless your case may seem, or how many have pronounced it incurble, Dr. Peebles can help you, and it COSTS YOU ABSOLUTELY NOTHING to recive his diagnosis and instructions. He also sends you FREE OF ANY CHARGE, its grand book which will be of invaluable service to you. You also receive a long ist of testimonials proving beyond a doubt that his method is revolutionizing the rt of healing the sick and despondent. Address Dr. J. M. Peebles, Dept. 42, Battle reek, Mich. REMEMBER, it costs you nothing.

DASPAIR NOT, THERE IS STILL HOPE FOR YOU! you are taught Psychic and Magnetic Healing, also Occult Powers, which wi rand Science, will be sent FREE to all addressing DR. J. M. PEEBLES. Depart

THE CONVENTION.

The twenty-fifth annual meeting of the Texas Cattle Raisers' Association, in San Antonio, last week, was truly a silver jubilee. It was the occasion of the meeting of many of the old-timers

lished. At the late meeting the cattle- ministration just closed. men were practically agreed beforehand on all the questions submitted. without due consideration.

Over the next place of meeting there was a very lively but at the same time a very friendly contest. Fort Worth and El Paso were the only places considered, although Dallas also extended an invitation to the convention to become its guest. Fort Worth won on a fairly close vote, but El Paso's exceedingly graceful manner of taking her defeat made for her many friends who ed States in 1900 amounted to 6,671,561.

tion a disappointment. That was in less. the small amount of trading which the meeting brought about. Both would-be sellers and buyers were numerous, but they could not "get together" on prices. Stockmen who had cattle to sell were generally willing to make some concessions from last year's prices, but the The salary of Mr. Schwab, president W., Ft. Stockton, Tex.—Benjamin cipher, had "been through" her geogcessions from last year's prices, but the buyers wanted a greater cut than the of the new steel trust is to be \$1,000.

in the Panhandle of Texas FOR SALE

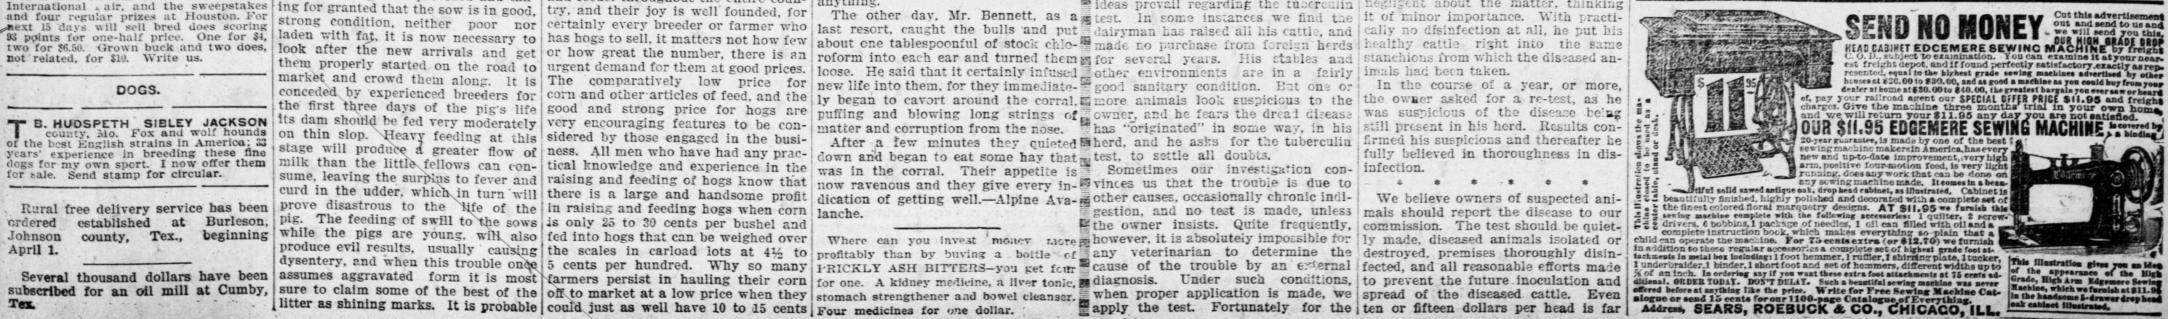

IN TRACTS TO SUIT.

The land is largely chocolate or black sandy loam, deep, rich, capable of producing forage crops in great abundance. It is thickly coated with buffalo, mesquite, grama, sedge and other choice grasses. Rainfall ample for production of forage crops, grasses and fruits. Admirably adapted for Grapes, Pears, Peaches, Apples, Plums, Melons, etc. An inexhaustible supply and excellent quality of water is procurable at an average depth of 125 feet.

The altitude varies from 2300 feet at the south to about 4700 at the north. The temperature is equable and the climate unexcelled for healthfulness. This is the best cattle and stock breeding country in the world. Panhandle cattle are of very superior quality, a carload of steers bred on this Ranch having been reserve number for the grand champion carload of fat steers at the International Live Stock Exposition in Chicago, December, 1900. The stock subsists on the pastures the entire year, finding very nutritious food in the cured native grasses. This is an unprecedented opportunity for those desiring to engage in the stock farming business or for investors willing to hold for appreciating values. The small ranchmen in the Panhandle have made more in recent years for the capital and energy invested than the farmers in any section of our country The Ft. Worth & Denver City Ry. traverses the north end of this land, the Pecos Valley and Northeastern Ry. FREE BOOK ABOUT WINDMILLS

When you want a Windmill, don't buy the first you see. Learn all you can about them. Read our book.

We have issued a book that tells all about windmills. It begins with the Dutch windmills of 1400, and ends with the Aermotors of 1901. It contains 125 pictures to show you what windmills should do and what they should be. It tells all that invention has done for them. When you read this book you will know all that anyone knows about windmills. You will know the right kind from the wrong kind, and know all the differences. To avoid a mistake, don't buy without reading it. The book is free -- simply write for it.

COVERED BY FIFTY-FIVE PATENTS

When you know all about windmills you will buy none but the Aermotor. That is why we publish this book. We learned what it tells you before we made the first Aermotor. We learned it by making 5000 accurate experiments with 65 kinds of windmills. We have proved to a certainty just what is needed to get the utmost out of a windmill. We have discovered some hundreds of facts that no one else knew, and we have covered our discoveries by 55 patents.

We thus make a windmill that gets power from the slightest breeze. That is why the Aermotor is known as "The wheel

that runs when others stand still."

We make a windmill that regulates itself; that calls for no attention, save oiling. In a zephyr or a gale the Aermotor pump maintains the same speed. A simple attachment stops it automatically when tank is full and starts it when the water lowers. And it lasts. Durability is of enormous importance in a wheel that may revolve 200,000 times daily.

HALF THE WORLD'S TRADE

We came into a field occupied by many great makers of windmills, backed by millions of capital. We came in without money, and in twelve years have captured half the world's windmill trade. Countless thousands of Aermotors now dot every country of the earth. We have done that by simple merit; by making what no one else can make.

We now make so many, and have so much labor-saving machinery that no one can compete with us, even in price.

WRITE FOR THE BOOK

Our book tells the features that control for us half the world's trade in this line and will win your trade when you know them. And if you buy without knowing them, you will never cease to regret it.

For your own sake we ask you to read what our book tells about windmills, before you select. Write for it now, before you forget it. A postal card will do.

AERMOTOR CO., 1219 TWELFTH STREET, CHICAGO

We have another book about Power Aermotors for doing all sorts of work—for grinding, for sawing, for cutting feed, shelling corn and running many kinds of machinery. This book is free, too. Also a book about Pumps, Tanks, Substructures, Pipes, Fittings and all sorts of Water Supply Goods. We make 160 Tons of Piping daily. Our plant occupies more than 30 acres. This is considered a pretty good sized farm in New England.

United States and the case is there pend-charge at Chicago. From this decision penses of handling traffic at the place at ing. It was expected that upon motion sudge Grosscup dissents, holding that which it originates and is received for we would procure an advancement of the Walker-Keenan case does not apply shipment. the case so as to have it set down for to the facts as presented in this case and greatest importance, not alone to the Cat. the case so as to have it set down for argument out of its regular order. That is not correct as a rule of law to govern a decision in the case. The court of appart of the matter was being looked after by the attorney for the interstate commerce commission, and while he thought at one time that he would be able to get the case advanced, he has recently informed us that he would not be able to do so, hence the case will not the facts as presented in this case and greatest importance, not alone to the Catter in the court of appart of the commission, but to every ship plant in the commission found that the commission found that the terminal charge was unreasonable; the findings of the commission are made prima facile evidence; the railroads offerently informed us that he would not be able to do so, hence the case will not the facts as presented in this case and is not correct as a rule of law to govern the Catter in the country. The interstate to the case upon record and briefs presented, and it was remarked by Mr.

Justice Brown, who rendered the opinion from the bench upon the conclusion of the day of the argument, that the case would be any but seek to avoid it by mere argument, but to the facts as presented in this case and is not correct as a rule of law to govern the Raisers' association, but to every ship ping interest in the country. The interstate to the commission found that the terminal charge was unreasonable; the terminal charge was unreasona able to do so, hence the case will not the argument that the case would be appeared to the supreme court, and it appears to us, and it was stated by one of

court of the United States, and it is now in the hands of the printer, after which the railroad will file their brief and the case upon the law and the facts unquestionably we ought to win case will be ready for hearing.

The matter a thorough consideration. As we have reported to you heretofore with attempt at concealment. The negro and punishment on account of the inability of the state to prove ownership ownership ownership ownership ownership ownership ownership ownersh the railroad will file their brief and the case will be ready for hearing.

We desire to remark that the decision of the court of appeals was rendered without that court having considered the record in the case, of some 400 pages, or ed by the majority of the court that the briefs of counsel, it having announced by the majority of the court that the was peaceful and the same priciple upon which this terminal charge is mposed, impose an additional charge for all the bridge toils upon the walker-Keenan case decided a few the walker-Keenan case decided a few the majority of the court of the walker-Keenan case decided a few the majority of the court of the walker-Keenan case decided a few the majority of the court of the walker-Keenan case decided a few the walker-Keenan case decided a few the majority in the court of criminal charge for all the bridge toils upon the flames leaped up around so the flames leaped by surrounded by his friends. President the owner that the decision of his Ex-President Benjamin Harrison died. Whether we will or not, the same pricipal was not at the same pricipal was not surrounded by the flames leaped by surrounded by the flames leape A FAR AWAY GOLD MINE in fargely increasing the yield. Invented by practical farmers, they are also indorsed by many farmers.
