MEXICO AS SEEN BY AN AMERICAN—CONDUCT OF PLANTATIONS ON THE ISTHMUS.

Writing from the state of Vera Cruz, Mex., a correspondent of the Kansas City Telegram gives the following interesting description of Mexico...

America or the United States of the North—a land of wind and snow and frost, of cold-blooded desperados, thieves and robbers, pigs, brutes, gringos.

These are the respective estimates of the sister republics for each other as exemplified by the common people when thrown together in ordinary business intercourse.

This does not comply to the commingling of the better classes, and Volney W. Foster will doubtless have a different story to tell when he returns.

He will say the Mexican gentleman is the finest that can be produced. His lines were cast in clear places, and he had cavaliers instead of "moros" to associate with.

I told him it was also a relief to us all to meet a genuine Mexican gentleman; that our associations here perfume had to be with people of the lower class, as servants and help, whom we had to rule with an iron rod or be vanquished ourselves.

"Mozo" is the term applied on the isthmus to all natives corresponding to the peons of Cuba. The term means man servant, but is applied to all help of the lower class.

HOG AND CATTLE MARKET REPORT...

MAVERICKS.

Very heavy shipments of cattle from Collihu to the Territory have been made lately.

J. P. Collins has resigned his position as manager of the T D ranch near Midland, to return to his own ranch in Stephens county.

Reports from the Pecos country state that considering the long drought range conditions are exceedingly good.

Rufe Slaughter Jr., aged 14, was killed at his father's ranch, fifty miles away from Big Springs, last week.

S. E. Townsend, one of the most prominent stockmen of Midland, died last week. He had been ill for some time.

The Journal has just received information of the recent death of Thos. W. Raggsdale of Paris, Mo., who has long been a patron and reader of the Journal.

A certain ranchman in Borden county had fourteen sections of school land in his pasture, upon which his lease contract with the state expired one day last month.

A cow belonging to M. K. Shiner went mad while being driven from the ranch to the shipping pens at Derby last week.

They are having some lively times out in Kimble county over land on which the leases have expired.

The clerk had announced publicly that he would go to his office at 7 o'clock and would open for the transaction of business at 8.

Such reckless and unfounded vilification of our meat industry is senseless and inexcusable.

"No competition? Do not bid against each other? If our daily newspapers would place a joint representative at any livestock convention...

"The average price for good average beef during the first three months of this year has been averaged 6 1/2¢ per pound live weight.

"The National Provisioner has seen the actual invoices of hundreds of carloads of beef shipped to New York from Chicago.

"Why does the packer kill and sell his meat at a loss? It is simple. Cattle are high, hence meat must be high.

"If it were not for these incidences to the packinghouse business our meat bill would indeed be high.

"The assertion that the same grade of beef that is sold here is sold cheaper by our people in Europe is not true.

TRUCKERS AT ROCKDALE.

Six men and Mr. Robinson, the manager, met for a little talk about the possibilities of truck growing in the community last November.

The lawyer who was not with his bow, seized him by the collar and a rough and tumble would have resulted but for the fact that the lawyer was the most powerful and had the longest arms.

Suddenly the scream of a female in the crowd threw the whole push into a white heat of excitement.

The next minute the captain found himself loose and looked around to find the woman emerging from the clerk's office, having made their files in due course and ahead of all others.

Chas. L. Ware, of Fort Worth, has purchased 20,000 acres of the old T U F ranch in Mitchell county at \$2.25 an acre.

A LAND RUSH IN BORDEN.—The present method of securing home steads under government regulations will certainly go down in history as the most farcical arrangement ever promulgated by a civilized nation or state.

Before beginning it is necessary to say that the attorney referred to is a man of powerful physique and generally regarded as being possessed of a considerable amount of the element commonly called a "strong jaw."

Here is a case in point. In the warm weather early last fall, a herd was driven from below the line to Miami.

He cites Mr. Reynolds and Swenson Bros. These men moved cattle from south of the line to the north of it in the spring with no bad results.

The line has to follow the habitat of the fever tick. This is controlled to a great extent by the elevation of the country.

It was a common remark among farmers twenty years ago, that the danger from Texas fever, caused after frost, some would say hard frost.

It can be tried by taking cattle from the north, south of the line, and seeing them die, as the fine cattle taken from there to the Charleston exposition did.

Every one knows how dangerous it is to take through-bred bulls from the North to southern Texas.

Springer Has Hopes.—President Springer of the National Livestock association has hopes of beating the oleomargarine bill.

"The livestock interests of the United States are not discouraged at the small vote by which they were beaten in the senate on the oleomargarine bill.

"If the senate of the United States can by a narrow margin of eight votes enact a law which strikes down one industry which has been built up under federal enactment, to directly benefit the creamery trust of the United States, then any other one industry can be singled out for destruction, and it would only be necessary to spend enough money and threaten enough congressmen and senators with the farmer vote to completely accomplish the object.

High Priced Meats.—A good deal is being said in some of the daily papers about an alleged "beef trust" and a lot of space is being used to show the nefarious purposes and insatiable greed of this "grinding monopoly."

A FACT ABOUT THE "BLUES" is seldom occasioned by actual existing external conditions, but in the great majority of cases by a disordered LIVER.

THIS IS A FACT which may be demonstrated by trying a course of Tatt's Pills

They control and regulate the LIVER. They bring hope and buoyancy to the mind. They bring health and elasticity to the body.

Cracked corn, as an occasional feed, is good for growing chicks.

Corn meal, it is claimed, often produces bowel trouble among little chicks.

Grit is necessary in raising good poultry—both for the fowls and for the breeder.

Millet is highly recommended, by some poultry raisers as feed for little growing chicks.

The finest incubators made will not turn out good hatches if the eggs are not fertile to begin with.

Eggs produced in spring by a hen that has been laying through the winter are apt to be lacking in vitality.

Poultry fever, like love, or the down on a boy's lip, is sure to break out sooner or later—but it affects some people more than others.

Comfortable quarters and good feed will cause good layers to furnish plenty of eggs...

## MARKETS

**FORT WORTH.**  
(Reported by the Fort Worth Livestock  
Commission Co.)

Fort Worth April 14.—The receipts  
of hogs here the past week were ten  
car loads, and sold as high as \$6.55,  
which was the top price for the week.  
This was a load of 223-lb. and were  
very good. Mixed hogs sold all the  
way from \$6.00 to \$6.30. Market came  
in steady to lower north and with light  
receipts in sight, something fancy  
would sell as high as \$6.75. We look  
for the hog market to continue going  
up and think everything fat will sell  
readily at quotations given below:

In regard to the butcher cattle mar-  
ket we have the same old story to tell  
you, that we are not getting one-fourth  
as many killing cattle as we need and  
besides this we have many orders from  
outside points that we can't even try  
to fill. Our prices have never gone  
down since the early winter advances  
and have steadily gone higher until  
we think fat cattle are netting far more  
money on this market than any other  
in the country. The northern mar-  
kets have gone from 25c to 50c lower  
during last week, but to-day they came  
in strong to 10c higher at Kansas City,  
Chicago and St. Louis 10c to 15c  
higher. The receipts on the three  
northern markets to-day are 4,000 head  
at Kansas City, 18,000 in Chicago and 2600  
in St. Louis.

We quote our market to-day as follows:  
Choice fat steers, \$4.50@5.00; medium  
fat steers, \$4.00@4.50; choice fat  
cows, \$3.25@3.75; medium fat cows,  
\$3.00@3.25; bulls, stags and oxen, \$2.25  
@3.00; canners, \$1.75@2.25; choice  
sorted hogs, \$6.50@6.75; heavy mixed  
hogs, \$6.35@6.50; light mixed hogs,  
\$1.25, up to \$5.75@6.15.

**DALLAS.**  
(Reported by the National Livestock  
Commission Co.)

Dallas, Texas, April 14.—Supplies of  
cattle still continue considerably below  
the requirements of the trade, and  
the market in a good healthy condition.  
Prospects are exceedingly favorable for  
the future market. The northern mar-  
kets fluctuated some during the week,  
closing about steady on the best cat-  
tle, and 10c to 15c lower on the medium  
grades, while our market was steady  
to 15c higher. The early receipts last-  
ed but a few minutes and the late ar-  
rivals sold as fast as yards. The re-  
union is drawing near and with 135-  
000 visitors to feed we must have more  
cattle in order to meet the requirements  
of the trade. The demand is increas-  
ing every day with steady to higher  
prices. If you have anything ready  
for market do not delay to ship, but  
let them come now. We can readily  
dispose of 25 to 50 car loads this week  
at more than satisfactory prices to  
shippers. Receipts of hogs were very  
small, in fact considerably less than  
last Monday's opening. Choice 200-lb.  
hogs would sell at from \$6.40@  
6.70. Northern hog markets closed 5c  
higher, cattle steady, sheep strong.

Quotations to-day as follows:  
Prime steers 900@1200, \$4.50@5.25;  
choice steers, 800 and up, \$4.25@4.75;  
stockers and feeders, \$2.75@3.75; choice  
cows, 800 up, \$3.50@4.00; choice heifers,  
650 up, \$3.25@3.75; medium fat  
cows, \$2.75@3.25; choice mutton, \$4.50  
@5.00; bulls, \$2.00@3.25; sorted hogs,  
200 up, \$6.40@6.70; choice hogs 170 up,  
\$6.10@6.25; mixed packers, 150 up, \$5.95  
@6.05; rough heavy hogs, \$5.70@5.90;

## HORSE.

The Abbot, 2:03 1/4, and Lord Derby,  
2:06 1/4, will go a race of heats at the  
meeting to be held on the Brighton  
beach track, near New York city, dur-  
ing the week of Aug. 11 to 15. The as-  
sociation puts up a purse of \$10,000.

**DALLAS HORSE SHOW.**—From pre-  
sent indications the horse show is to  
be held in Dallas, April 30 to May  
3, under the direction of the Elks' club  
will prove a very attractive one. Stalls  
for a considerable number of horses  
from Kansas City, Denver and other  
points have already been engaged and  
a good lot of high steppers is expected  
from Texas points. Many of the so-  
ciety women of Dallas have interested  
themselves in the show and as a so-  
ciety event it promises to rival the  
shows of larger cities.

Prizes amounting to \$3500 will be  
distributed.  
The officers of the Dallas Elks horse  
show, which was incorporated about  
six days ago, are as follows: W. P.  
Holland, chairman; J. H. Miller, vice  
chairman; P. G. Claiborne, secretary  
and general manager; O. C. Lane,  
treasurer; H. L. Monroe, H. A. Over-  
beck, C. A. Rasbury, M. H. Thomas, I.  
B. Love, W. H. McGrath, C. A. Man-  
gold and E. Farnsworth, committee  
on arrangements.

The judges who have been selected  
with great care are men of national  
reputation. They are: W. V. Gal-  
breath, general livestock agent of the  
state of Kansas and Texas; C. A.  
Pratt of the Rock and John R. Gen-  
try of St. Louis.  
The auditorium, where the horse  
show will be held, will be put in the  
best condition and will be entirely  
safe for the accommodation of the  
largest crowd of animals.

**GENERAL CONDITIONS.**  
Roadsters—Standard or non-stand-  
ard. A roadster, when mature for  
driving, should not be under fifteen  
hands high. Conformation, style of  
going, manners, hook and knee action,  
whether driven with ordinary or heavy  
shoes (for action), all things being  
strained with checking or severe bits,  
and as they are and appear at the time  
of showing in the ring, will be con-  
sidered in judging. No distinction will  
be made between open and top wagons.

In the classes for harness, unicorn and  
high school classes the money will be  
divided 60 and 40 per cent in case there  
are but two exhibitors.  
Harness horses—To be shown before  
suitable vehicles. Harness horses must  
be practically sound and will be judged  
on their ability to do work, and  
vehicles specified in the several  
classes.

In the park classes, horses having  
conformation, quality, style, all-round  
action and ability to go a good pace  
will be especially considered.  
In the classes for horses suitable for  
town work, conformation, substance  
and carriage, whether moving or stand-  
ing, will be especially considered.

Gaited saddle horse—Judges of the  
American Saddle Horse Breeders' as-  
sociation to govern unless otherwise  
specified. All animals must show five  
distinct gaits—that is, first, walk; sec-  
ond, trot; third, rack; fourth, canter;  
fifth, running walk, fox-trot or slow  
pace. Conformation to count 40.

**FIRST DAY, APRIL 30.**  
Park pair of horses, over 15 hands 1  
inch and not exceeding 16 hands, suit-  
able for park use—First prize \$50, sec-  
ond \$30, third \$20.  
High school horses. Conformation,  
beauty and style to count 40 per cent;  
performance in high school to count  
60 per cent—First prize \$50, second \$30,  
third \$20.

Tandem, the wheeler to be 15 hands  
1 inch or under. Wheeler should have  
power, action and pace. Leader should  
be showy and well bred, with good  
all-round action and power—First  
prize \$50, second \$30, third \$20.

Best gaited horse, mare or gelding—  
First prize \$50, second \$30, third \$20.  
Exhibitors in these classes need not  
describe their teams when making  
their entries. Park teams, conforma-  
tion, style, manners and all-round ac-  
tion to be considered—First prize \$100,  
second \$50, third \$40.  
Horses carrying 145 up to 165  
pounds. To be judged by their qual-  
ity, manners, paces, conformation and  
ability to carry the weight specified in  
their respective classes. The gait re-  
quired to be shown will be the walk,  
trot and canter. The right is reserved  
for the judges, if they consider it nec-  
essary, to ride any of the horses shown  
in these classes. (Gaited horses bar-  
red)—First prize \$50, second \$30, third  
\$20.

Horses single over 14.2 and not ex-  
ceeding 15.3 hands. Owned and used  
for private use. To be shown before  
appropriate vehicles. Appointments to  
count 40 per cent. Style and manners,  
going and quality will be considered.

To be driven by a lady. Professionals  
barred—Special prize.  
Best performers in potato race—First  
prize \$10, second \$5.  
Open to all. Performers over fences  
to count 50 per cent, individuality and  
soundness 50 per cent; two at 4 and  
two at 4 1/2 feet—First prize \$50, second  
\$25, third \$20.  
Stallion pacers—First prize \$30, sec-  
ond \$20, third \$10.

**SECOND DAY, MAY 1.**

for park use—First prize \$50, second  
\$30, third \$20.

Best gaited horse, mare or gelding—  
First prize \$50, second \$30, third \$20.  
Tandem, the wheeler to have power,  
the leader to be showy with action—  
First prize \$50, second \$30, third \$20.  
Horses 14 hands 3 inches, and not  
exceeding 15 hands 2 inches. Horse  
single and tandem, conformation, style,  
all round action, pace and good manners.  
Horse must stand without being held.  
Excessive action not essential. Horse  
to count 50 per cent; wagon and ap-  
pointments to count 50 per cent—First  
prize \$50, second prize \$30, third prize  
\$20.

For the best road team. Horses to  
count 50 per cent, vehicles 25 per cent,  
harness 15 per cent and liveries 10 per  
cent—First prize \$100, second \$50,  
third \$40.  
Cobs not exceeding 14 hands 3 in-  
ches—First prize \$50, second \$30, third  
\$20.  
Horse 15 hands and not exceeding  
16 hands. To be shown before a two-  
seated trap. Horse to count 50 per

cent, trap harness and whip 50 per  
cent—Special prize.  
Potato race—First prize \$10, second  
\$5.  
Best performance open to all. Per-  
formance to count 60 per cent, individ-  
uality and soundness to count 50 per  
cent—First prize \$50, second \$30, third  
\$20.

**THIRD DAY, MAY 2.**

has given prominence in history to the now world famous Texas Pan-  
handle. But a few years ago the wonderful possibilities of this region as a

recent is the demand of good liver for "Vernon Cantaloupes," but it's

Dr. Duncan says that the worst diseases are the more easily and quickly cured during warm weather. He cures the worst instance, the worst epileptics and the worst cripples from every cause. He cures the consumption and the asthmatics, all diseases of the stomach and nerves and every female disease in thirty days. Address with stamp, Dr. W. E. Duncan, 300 E. 4th St., Fort Worth, Tex.

**Things at Home and Abroad.**

**Terms Boers Would Accept.**—The Edinburgh News gives prominence to the following statement: "We are in a position to make known the terms formulated by the Boer delegates in Holland as a basis for present negotiations, subject to the approval of the Boer leaders in South Africa. These may be accepted as the subject matter of the conference at Klerksdorp. The delegates in Holland are prepared to accept the following conditions as a basis of peace. "1. They will not make absolute independence the main issue, provided they can come to a satisfactory agreement in regard to the future government of the two states. "2. The proclamation issued by Kitchener, confiscating the property

of those Burghers still in the field fighting against the king's forces after September, 1901, should be canceled, and the confiscated property restored to the original owners. "3. Remuneration for private property destroyed and stock taken by the king's forces. "4. Full recognition of all state debts contracted before and after hostilities, and up to the date of the annexation of the two states by Lord Roberts. "5. The language question to be mutually agreed upon later. "6. Amnesty for Cape rebels and the release of all political prisoners. "7. A date be fixed when all prisoners of war shall be returned to South Africa. "8. That offers of one or two friendly powers should be accepted to superintend the carrying out of the terms of peace agreed to."

**They Want the Soldiers.**—The merchants of Lagony in south Camargne province of Luzon, have sent a message to Gen. Chaffee praying that the American troops be not withdrawn from Lagony. The merchants declare that they are unanimously of the opinion that if they are deprived of the protection of the military they will become victims of the lawless element at the cost of their lives and property. They said that if the American troops leave the town the enemy could reduce the food supply of the inhabitants and retard the advance of the soldiers coming to their rescue and that such action would lead to irreparable damage.

The merchants further declare the local police to be insufficient to guarantee order. This is proven, they say, by the fact that the detachments of American troops have been withdrawn from neighboring towns of Goa, Tiagon and Sanayag and that the local police have been unable to suppress the assaults, robberies, assassinations and forced contributions by gangs of the recalcitrant element in the neighborhood.

**Pension for Mrs. McKinley.**—Last Saturday the house passed the bill granting a pension to the widow of William McKinley at \$5000 per year. It had previously passed the senate and now goes to the president for signature. Although favorable action on the bill was unanimous, an inquiry by Bell of Colorado, as to the precedents for such action led to an animated discussion. Bell contended that many widows of poor soldiers were without pensions, and that Mrs. McKinley had independent means, making a pension unnecessary. Governor Ohio, severely criticized Bell's position. Richardson of Tennessee, and several other Democratic members spoke for the bill as in line of precedent, and Kieberg, of Texas, an old Confederate soldier, supported it on the ground that President McKinley had died out the last vestige of sectionalism.

**Suffering in Southwest.**—Captain Wash Shely, sheriff of Starr county, which is included in the drought-stricken region on the lower Rio Grande, where starvation and destitution exists among hundreds of people, called on Gov. Sayers a few days ago and laid the details of the distressing situation before him. He was instructed by the governor to return to Starr county and arrange for receiving and distributing supplies. When this organization is effected the governor will issue an appeal for aid. "There are more than 11,000 people in Starr county and about 6000 in Zapata county," said Sheriff Shely. "Of this number more than one-half are either in destitute circumstances at this time or will be very soon. The poor people are flocking into the settlements along the Rio Grande ranches. They have absolutely nothing to live upon. No corn has been raised for two years, and in fact it has been that long since any rain has fallen. The drought really began fourteen years ago and has been growing worse year by year. There are probably children several years old in that section who have never seen a real good rain. Not a spear of grass is to be seen; what few cattle are left are too poor to furnish food for the

starving ones. No horses are obtainable, and it is a hard matter to get through the country. I have just made a trip through the worst part of the stricken section, and I know that aid must be given at once or the results will be more terrible than they are now. We want to get the men out of the country and arrange to take care of their wives and children. The destitute region is, located from fifty miles to 100 miles from the nearest railway points. "Sayers has sent a carload of provisions to Laredo for the sufferers in the stricken counties.

**Cholera in Manila.**—The cholera situation in Manila continues much the same, but the conditions of the provinces are becoming alarming. The total of cholera cases in Manila up to last Sunday was 245, while there have been 192 deaths from the disease. In the provinces there have been 418 cases and 318 deaths. Gen. Wades Hampton Dead.—At Columbia, S. C., April 11, Gen. Wade Hampton died from valvular heart disease, having been unconscious for several hours.

The general had just passed his eighty-fourth birthday. Twice this winter he had sustained attacks that had greatly weakened him, but rallied wonderfully.

Gen. Wade Hampton was the grandson of Wade Hampton, member of congress and major general at the battle of New Orleans. He was born at Columbia, S. C., 1818. Finishing college at each age he served as a member of both houses of the state legislature. At the beginning of the civil war he gave his heart and his fortune to the lost cause and commanded Hampton's Legion at the battle of Bull's Run, where he was wounded. He was conspicuous in the following engagements as brigadier general: Seven Pines, May 31, 1862, when he was again wounded; Antietam, September, 1862; raid in Pennsylvania, the following month; Gettysburg, July, 1863, when he was wounded the third time. He then became lieutenant general and commanded a body of cavalry in general Lee's army in 1864. In 1865 he commanded the cavalry forming the rear guard of the Confederate army retreating before Sherman.

He was governor of South Carolina in 1878, United States senator 1879-1891 and became United States commissioner of railroads in 1893. General Hampton attracted much attention a few years ago by declining the offer of a home made by his fellow citizens and admirers.

Great Britain has sent still another purchasing gang into Wyoming to buy up several loads of broken cow ponies for special service in South Africa.

Many so-called "biters" are not medicines, but simply liquids disguised, so as to evade the law. Prickly Ash Biters is not one of this class. It is a strictly a medicine, acting primarily on the kidneys, liver and bowels, and for the dangerous diseases that attack these organs it is a remedy of the first grade. There is nothing objectional in its taste, it has an agreeable flavor and is acceptable to the most delicate stomach.

**THE TWIN TERRITORIES**  
Fruit conditions at Guthrie, Ok., are said to be the best since the opening of the territory.

Heavy rains fell over a very considerable portion of Oklahoma and the Indian Territory last week, placing the ground in splendid condition for crops.

Fire at Ardmore Sunday morning destroyed the livery stable, a brick structure, and contents belonging to T. B. Cathey. Seventeen head of horses perished in the flames.

A challenge, backed by \$1000, has been issued by the friends of J. E. Carroll of Mangum to Fred Baker of San Angelo, Tex., for a roping contest to rope and tie five steers at the Mangum races May 16. Mr. Carroll was the winner of the \$500 prize in the roping contest at the recent cattlemen's convention at Fort Worth, and Mr. Baker was his principal competitor, and the five-steer contest at Mangum is being arranged to settle the world's championship between these two gentlemen.

**OKLAHOMA CROPS.**—The weather bureau crop report says: "The crop season of 1901 closed with fall wheat all sown and coming up in fair condition. The crop was sown in dusty soil and was surrounded by a drouthy condition that continued throughout the fall and winter months. Despite this, however, the wheat made a first steady growth and for a good portion of the winter afforded pasturage to the stock. In January a general deterioration occurred, owing to the continued cold weather and effects of heavy pasturage, and in that month and February the early sown soft wheat failed rapidly in condition, but the late sown and hard wheat, although brown and dead in appearance, continued green at the roots.

"In March heavy and copious rains set in, and the wheat revived rapidly owing to their beneficial effects, and the added warmth and sunshine of the following periods, so that now the crop is in such a condition that a very fair yield may be anticipated. From the reports received the expectation is for a half to an average yield over the various localities of the section. Many fields of early sown wheat, where the plant is thin on the ground, are being planted to corn.

"Oats were sown in March under favorable conditions, and are up to a good stand. Corn planting is in progress, and is well advanced, though delayed some by wet ground. Pastures are greening up, and over some localities stock is out on range. Generally, stock is thin but doing well.

"Early potatoes are planted and coming up well; an increased acreage is reported. Plowing is well advanced, with the ground in fine condition, and the preparation of cotton ground is in progress. Fruit trees are blooming out and all give a good prospect. Some slight damage was done to apricots by recent frosts. As a whole, the section is entering the season under very favorable conditions, and the outlook is promising; all crops are in good condition and mak-

**AN OPEN INVITATION**  
*..To Reunion Visitors..*

Dr. Terrill's invariable custom has ever been, regardless of cost, to take immediate advantage of every advance of science, and although possessing one of the best Static Batteries and X-Ray machines in the South, has added to his already perfectly equipped office department the very latest and finest X-Ray machine and the world-famous Wagner Sixteen-Plate Static Machine at a cost of over \$1,000 for complete apparatus. This is the only static machine capable of 2,000 revolutions per minute and therefore has the power of generating a current of five times greater volume than any other machine to date. This is the first machine of its size to be brought to the State of Texas, and for the benefit of the reunion visitors Dr. Terrill extends an invitation to a free exhibition of the X-Ray every evening, from 6 p. m. to 9 p. m., during the four days of the reunion. Every one is invited to call and view the wonderful ray of light which has given to science the choicest secrets of nature. You are invited to come and look at your own bones.

**Varicocele, Fistula, Piles, Hydrocele**  
Etc., I will refund every cent paid if I do not make my cure so permanent and complete that it is APPARENT TO ANY ONE. If a Varicocele is as large as a hen or a goose egg, I will reduce it and cure it entirely. If there are mucous patches, ulcers and other traces of Blood Poison, no matter how long standing, I will eradicate the poison so thoroughly that these traces at once disappear in a natural way.

**Nervo-Sexual Debility**  
My cure for weak men stops every drain of vigor and builds up the muscular and nervous system, purifies and enriches the blood, cleanses and heals the bladder and kidneys, invigorates the liver, revives the spirits, brightens the intellect, and, above and beyond all, restores the wasted power of sexual manhood.

**Prematurity**  
This term indicates a lack of self-control and a prostatic insufficiency, which may be due to several causes. Of all the sexual disorders this is the most distressing, as it causes much unhappiness and occurs in persons otherwise in perfect health and physical condition. It is fortunate that, considering the amount of distress and disappointment this condition causes, the disorder is always removable.

**Lost Manhood**  
In young men, middle-aged men or old men means nervous debility, drains on the vitality, dizziness, gloom, despondency, a poor memory and a tendency of the mind to wander. It is the result of indiscretions in youth or excesses in mature years.

I have a copyright, given me by the Government, on a remedy for Lost Manhood and Seminal Emissions which never fails to cure. Will give a thousand dollars for any case I take and fail to cure if patient will follow my instructions.

**Blood Poison Cured Forever**  
I cure without saturating the system with poisonous and destructive minerals and alkalis, which are so difficult for nature to remove from the tissues when they once have been administered. My treatment for Blood Poison has the wonderful property of not molesting healthy tissues, while it antagonizes, destroys and expels blood poisons and blood taints. Scrofula, Rheumatism and the countless Skin Diseases which are due to blood poison, yield to the influence of this treatment.

My treatment is purely botanical and possesses such attractive and tonic properties as to exercise beneficial effects, so that it may be taken continuously with safety until every drop of the blood and atom of tissue in the body is rendered normal and pure.

**J. H. TERRILL, M. D.,** Master Specialist in Diseases of Men.  
*Persons coming to Dallas for medical treatment are respectfully requested to interview the banks and leading business firms in reference to the best and most reliable specialist in the city.*

**Stricture**  
My cure dissolves the Stricture completely and removes every obstruction from the Urinary passages, allays all inflammation, stops every unnatural discharge, reduces the Prostate Gland, cleanses and heals the bladder and kidneys, invigorates the organs and restores health and soundness to every part of the body affected by the disease.

**Certainty of Cure is More Important to You than the Cost.**  
I never promise more than I can do. I give a legal contract in writing for patients to hold for my promise and if I do not consider your case curable after a thorough understanding of the same I will honestly tell you the truth and not take your money for useless treatment. My charges are within the reach of all. Both rich and poor alike are invited to have a confidential talk regarding their troubles. CONSULTATION FREE.

I cure 85 per cent of cases of Epilepsy. I cure Catarrh in all stages.

**Home Treatment**  
One personal visit is preferred, but if you can not call at my office, write me your symptoms fully. My home treatment is successful and strictly private. My counsel is free and sacredly confidential.

**30 Years Experience**  
Enables me, after a thorough examination, free of charge, to tell you if your case is curable. If it is not I will tell you so; if curable and I take your case, I will give you a written legal guaranty of a positive cure.
