### Henrietta Man Elected S. F. Phillips, Of **Head Texas Masons**

The Texas Grand Lodge, Masons, in session at Waco last week elected State Senator Rogers Kelley, of Ed-

inburg, as head.

Chief Kelley is a State Senator at Edinburg, there he is serving as district attorney. He is a Lieutenant in Aviation, and popular in Masonic

With a membership of 106,028 in 892 active lodges an increase in membership of 2,674 was reported.

Masonic Chief Kelley is a nephew of Mr. Lon Kelley, of Henrietta, Lieutenant Kelley is the first man in active military duty to be elected head of of the Texas Masonic Grand

ers and run a popcorn business

In the first World War he went to Henrietta, Clay County. He worked at a soda fountain while attending St. John's Military Academy at Dela-field, Wis., but before he got out of there at the age of 18 the war

Senator Kelley got his degree at the University of the South at Sewanee, Tenn., and studied law at the University of Colorado, waiting on tables and driving a taxi to pay

his way. In 1926 Kelley established a law firm in Edinburg. He served as district attorney of Hidalgo County, and as State Senator being elected without opposition last Month. Six other members of his law firm

are also in the Army.
Mrs. Kelley, former Lorene Morrow of Mercedes, was a feature writer for the Dallas News before their

marriage in 1931. Senator Kelley does not believe his military duties will prevent his carryng on the work of Grand Master, although a greater amount of the traveling may be assigned to Austin, the deputy grand master. Should Austin enter the armed service, as he is considering Bascom Giles, the new senior Warden, can carry on the assistance.—The Dal-

women 17 to 35 are also needed to take the places of young men who are being called into army service. War industries were handicapped, when they began moving to Texas, by the lack of skilled help to build the planes and ships and munitions which were expected of them on short order and in large quantities.

They were faced with the propositions of the planes and in large quantities.

They were faced with the propositions of the planes and ships and munitions which directs people into these schools andd then into the war plant jobs is the United States Employment Service, one of whose by the planes and ships and munitions which directs people into these schools and then into the war plant jobs is the United States Employment Service, one of whose by the lack of skilled help to build the planes and ships and munitions which directs people into these schools and then into the war plant jobs is the United States Employment Service, one of whose by the planes and ships and munitions which directs people into these schools and then into the war plant jobs is the United States Employment Service, one of whose by the planes and ships and munitions provide this opportunity for people into these schools and then into the war plant jobs is the United States Employment Service, one of whose by the lack of skilled help to build the provide this opportunity for people into these schools and then into the war plant jobs is the United States Employment Service, one of whose by the lack of skilled help to build the provide this opportunity for people into these schools and then into the war plant jobs is the United States Employment Service, one of whose by the lack of skilled help to build the provide the provide the provide the provide the provide the provide the provi

### No. 6631. THE STATE OF TEXAS

To Iva Cado Anderson: GREETING: answer the plaintiff's petitioon at or before 10 o'clock A. M. of the first Monday after the expiration of 42 days from the date of issuance of this citation, the same being Monday the 11th day of January, A. D. 1943, at or before 10 o'clock A. M., before the Honorable District Court of Clay County, at the Court House in Hen-rietta, Texas.

Said plaintiff's petition was filed on the 10th day of November, 1942.

The file number of said suit being

The names of the parties in said suit are: Morris Anderson, as Plaintiff, and Iva Cado Anderson as De-

The nature of said suit being sub-

stantially as follows: to wit:

The Plaintiff alleges that he was married to Defendant, December 29, 1930; That on or about July 1, 1936 Defendant left Plaintiff and expressed her intention ofnolonger living with him as his wife; that such action on the part of Defendant has made further living together impossible; that Plaintiff tried at all times to discharge his duties as the De-

fendant's husband.
Plaintiff prays the Court for a Divorce from Defendant, and such other and further relief as he may show

Issued this the 25th day of November, 1942. Given under my hand and seal of said Court, at office in Henrietta, Texas, this the 25th day of Novem-

ber, A. D. 1942. (seal) May Karsteter, Clerk, District Court, 97th Judicial District,, Clay County, Texas. (Pub. in Leader Dec. 4-11-18-25)

# AND RAIL TRAVEL

UNDER ordinary circumstances, Burlington Lines would view the curtailment of intercity motoring necessitated by gasoline rationing as an opportunity to demonstrate to many confirmed motorists the speed, comfort and convenience of railroad travel.

Unfortunately, we may be prevented from doing this in full measure because:

1 - A large part of our power and passenger equipment is assigned to the all-important job of transporting the armed forces.

2 It is not possible at this time to build or buy new passenger

Largely due to the foregoing, the Office of Defense Transportation has "frozen" the number of passenger trains which may be operated.

Nevertheless, Burlington Lines will devote every effort and resource toward providing the best possible passenger service "for the duration" for all patrons—both old and new—residing along its 11,000 miles of railroad in thirteen

Most effective use can be made of available trains and schedules if passengers will -

- \* Travel during mid-week, whenever possible.
- \* Purchase tickets and make Pullman reservations reasonably in advance.
- \* Travel with no more baggage than necessary. ★ Consult local agent when planning trips.

Burlington Lines are grateful for past patronage, appreciate present patronage, and strive to warrant future patronage.

### DON'T WASTE GAS

The natural gas you save can help to build many implements of war. Ships, guns, tanks, planes, bombs, torpedoes, shells—there's hardly one whose parts do not call for some application of heat. For instance, whole battleship turrets are "baked" in gas ovens as big as a five-room

And in the Southwest, heat means natural gas.

Industry-including over a thousand plants engaged in war work-on Lone Star lines is using more gas than all our 300,000 residential customers, and the demand is mounting. So . . . we ask you: Don't waste gas. Use it wisely and there will be plenty for all winter needs.

1. Repair leaky hot water faucets and save

water and gas.

2. Don't overheat your house. Keep it between 70 and 72 degrees. Close bedroom doors at night if windows are open. 3. Stop heat leaks by weather-stripping

doors and windows; install insulation to save fuel. 4. Learn to cook with low flame in small amounts of water, saving vitamins and

For 33 years we have worked in developing Texas and Oklahoma gas reserves, and in building an interconnected pipeline system to create a capacity capable of meeting extreme emergency demands. Today, we're working harder than ever expanding facilities to keep pace with the Southwest's mounting wartime needs for

As far as Lone Star engineers and production men can see, Lone Star System will be able to meet the wartime demands of all residential, commercial and war customers this winter. A 4,800-mile interconnected pipeline makes: gas available from over 1,000 wells in more than 75 different fields.

pipeline to your local gas company
