## A GOOD SLOW RAIN

**A Real Cold One, but Any Old Kind Looks Good These Days.**

A splendid slow rain is falling today (Wednesday) at 3 p. m., that has been falling pretty regular since 9 a. m., which looks good to mou. While it is most to late to do grass much good unless we have an unusually late winter, it will be a good time to sow rye and winter wheat, providing of course that we get a season, and the indications are good for one, as dark ominous clouds are hanging low, and as a seaman would put it, "it looks squally."

It will be quite a shock to cattle, as we have had an unusually dry, warm fall up to now, and the way this keen northwest wind is cutting down on us we would not be surprised to find snow on the ground in the morning. Most all the cattlemen are agreed that a wet winter is better for cattle than a dry one, and if so, we say just "let 'er fog."

We have been promising our farmers an ideal crop year next season, and already the weatherman is aiding us by beginning a deep winter season which is one great essential. So mote it be.

### Among the Greasy Gushers.

Perhaps some readers of the Herald may think this scribe an optimist. Well, an optimist is one who sees only good and believes all will come out well in the end. If we did not this we would join the pessimists and go off and live in a cellar and mope and whine and worry and fret and starve with plenty in sight. Good Lord deliver us from the poor pessimist and his gloomy cellar. John Wesley said, "I had as soon steal as worry," and a greater than John Wesley said, "Be not anxious for tomorrow, for your hairs are all counted." Providence pity poor pessimists; please.

The third point we have seen in a month is the new famous Caddo oil field in the extreme northwestern corner of Louisiana. To tell of this affair we fear will make some of our Terryites wonder like some Louisianans did about twenty years ago: In one the back number parishes down there; one hot summer time, they sent an old fellow delegate to some sort of a convention or union down at Baton Rouge, the state capital. When their delegate got back he told as how "he seed in July, lumps of ice a foot thick and three foot long." He was dealt with by the brethren of his church and voted out on the spot for down right lying.

"How many wells have you folks," we asked a little Yankee lady bookkeeper at Caddo.

"I think we have ten now in,

but we have twenty-four new ones going in, which will make us 34," said the little lady.

"Where are you from, lady?" "Ohio; my husband has been up in Pennsylvania field, but we came south."

"Your husband is an oil man?" "Oh, yes, he is part of the company. But he is under the Doctor now. You see it's so hot down here and malaria is fearful."

"Tell me of your best wells, what do they bring in?"

"We, we have but three real good well; I mean flowing wells. We have some very good pumpers; seven of them. Our No. 2 gives us 5,000 barrels a day, No. 3 10,000, but our great well, No. 6 gives us 25,000."

"My dear woman, you say 25000. Are you not mistaken?"

"Oh! no, no. Our trouble is to take care of it. Don't you see how greasy the world is all around here?"

"Lady, how about this land; what's it worth?"

"Well, that depends. On other section it is \$300 to \$500 an acre.

One thousand dollars an acre will not buy this section. We don't sell, but lease, with royalty."

"What is this oil worth?"

We have been selling at 75 a barrel, but it's a little under now."

Now, begone to the poor, puny pessimist. Let him crawl out of his dark dingy cellar and smile.

If the diamond diggers and the gold getters of the Ozarks have millions in sight; if the Caddo lady's oil gang can catch \$30,000 a day and if in an almost stone's throw, there are fourteen million tons of salt, surely we are safe on raw material.

J. W. LIVELY.

## ROBERT M. WEBB OF COLORADO CITY

**Republican Candidate for United States Congress from this the 16th District**

When a man by reason of personal achievement or preferment at the hands of his fellows, steps into the limelight of publicity, there is always an interest attaching to him such as his personality, his habits, etc., and people ask, who is he, where was he born, how old is he, and what has he done? as an evidence of what we may expect in the future.

The subject of this sketch, could no more help being a Republican than he could help being born in New York City in 1863—there are generations of Republicans behind him, so that he is in his natural element politically.

Mr. Webb came to Texas in 1881, and settled near Buffalo Gap, then the county seat of Taylor county. The Texas & Pacific railroad only came as far west as Weatherford in those days, and he had to come to Eastland on a construction train, finishing this trip to Buffalo Gap by mail hack, via Belle Plain, then the county seat of Calahan county. He re-

moved to Michell county in 1883, where he worked on the Van Tuyl ranch for some time. He was called to New York on the death of his mother and returned again in 1897 to Colorado City where he has lived up to the present time, gaining a vision of the vast state and its needs.

In 1899 he acquired the Colorado Water Works, which had been closed down for some time. Two years later he took over the Colorado Light & Power Co., and in 1902 he organized the Texas & Pacific Telephone Co., building the exchanges in the towns along the T. & P. R. R. from Abilene to Big Springs, connecting them with toll lines.

These three properties brought up from almost nothing, are today worth over \$150,000.00 of which he owns a substantial interest, and his efficient management of these public utilities has been one of the strong points of Colorado's success as a town of civic pride and progress.

His efforts to advance his party have not been without honor. In 1902 he held his first political position, being appointed road overseer by the Mitchell Co. Commissioners and he gave Colorado the best cleaning up it has had before or since.

At about this time he organized the Colorado Fire Department which there was serious need of, and he was its first President, holding that place for over six years.

In 1906 Mr. Webb was elected chairman of the County Republican Organization, and two years later was promoted to the chairmanship of the District Organization, the largest district in the state.

In 1908 he was elected President of the Commercial Club, having been its secretary for a year, and during his presidency the club reached the height of its usefulness and the high water mark of its popularity.

He is as progressive as he is loyal; is an ardent admirer and close follower of Mr. Roosevelt, and attended the banquet and love feast given him some years ago.

Mr. Webb is a strong believer in "my policies" in clean politics and a "square deal," and is in thorough sympathy with the insurgents. He is a man of action, one who does and is doing things and has worked hard to help build up his own town and the West.

There is a great many things needed in this great Western country, such as Federal buildings in many of the towns, new laws for the relief of the cattle industry, and the possibilities of irrigation in this dry section of ours needs only Federal aid to make it equal to the irrigated sections of her states. In view of the fact that Mr. Webb has lived here in Texas so many years, is familiar with the crying needs of the West, and in harmony with the administration at Washington, it is only natural to suppose that he would be able to secure the aid needed for our natural development, and we commend him to the voters of the 16th Congressional District as a candidate for Congress.—Ex. Abilene Daily Reporter, Oct. 4.

Entered at the Post-Office of Brownfield, Texas, as second-class mail matter, according to the Act of Congress of March 3, 1879.

See Jake Johnson Brownfield, Texas

If we had to be a passenger on the Wellman voyage, we would also hope that there HAD to be a huge net across the Atlantic. We like to sport with the finery tribe alright, providing we are holding the bank end of the rod, but acting the bait role always makes us feel craw-fishy.

We want every farmer in Terry county to try a small acreage of cotton and broom corn next year. Not too much because we dont want our farmers to become cranks on any one line, but rather broad, conservative crop diversifiers, and something will always hit. We heard a Yoakum county citizen say not long ago that he hoped they'd hang the first man that planted cotton in that county. We don't; neither do we whnt to see them suspended between earth and sky if they oai't plant it.

## A BROOM FACTORY

For several days we have been hearing this and that one speak enthusiastically of the broom factory, and Tuesday of this week we went down ourselves to investigate. Right here we want to say that the inventor of this broom making machinery is the same person that so successfully made and put in operation the Brownfield Steam Laundry. We are reliably informed that there are at least three tons of broom corn in the county this year that can be obtained very handy, and instead of hauling it several miles to a railroad, Mr. Harris proposes to make it up right here at home and save transportation both ways. He has ordered the necessary wire, handles etc. He has not perfected the machinery yet, but will do so as soon as his supplies arrive, when he aims to manufacture something like twenty dozen brooms per day.

Mr. Harris is a great help to our town and county and should be encouraged along these lines and more, he should have your hearty co-operation that he may be even more useful. He is put-

ting the products of both brain and brawn into our town and must be recompensed.

Everyone who has inspected the machinery pronounce it o. . . There were a few skeptics when the laundry was mentioned, but they no longer ex st. If the invention is a genuine success, and we believe it is, it will be needed and used more and more each year, and will no doubt prove a great stemulus to the broom corn industry in Terry county. The farmers should plant enough to give it a big headway next year, and should there be no sale here the marts of the world are ready and willing to purchase it of you.  
Plant broom corn.

B. B. Noles, living near Mason Mich., has a litter of marathon pigs which should be fleet of foot if feet count. Two of the animals each have eight legs, two have seven and four have six apiece.

**THE Remington AUTOLOADING SHOTGUN**  
REMINGTON genius combined safety and shooting comfort in the Auto-loading Shotgun. The Remington Solid Breech Hammerless Idea places a wall of thick solid steel between your face and the smokeless powder. The recoil does all the work of reloading. You have five shots under control of trigger finger, giving three shots to get cripples which otherwise would die unrecovered. In the Remington Autoloading Gun you get the most up-to-date and modern ideas embodied in any gun in the world, yet the price is moderate. If your dealer can't show one, write us for catalogue. The REMINGTON ARMS COMPANY, Ilion, N. Y. Agency, 315 Broadway, New York City

# OUR NEW BUILDING

A New York beggar manages to exist on \$32 a day, which he collects from a sympathetic public.

Jno. Bryant was a pleasant caller last week. Just called in to see how the new press and engine was working.

The polo-men secured four fine ponies in Terry county last week for which they left the sung sum of \$775.00.

M. D. Williams brought in a nice lot of tomatoes and pickle pepper this week. He was afraid they would freeze and he brought them in green and readily sold them for chow chow purposes.

Mr. Anderson, a banker of Knox City, is up prospecting this week. He owns considerable property in Knox City that he is desirous of turning into Terry county real estate.

A party of gentleman from Midland were up this week buying polo horses. They secured four fine specimen in Terry county and paid handsome prices for them.

Attys. Spencer & Spencer are attending District Court at Plains this week. We understand that they have several important cases to come before that body this term.

640 Acres, Section No. 141, Block No. D-11. Terry County, for sale or lease. Don't ask me what I want, but make me proposition.

G. S. Thompson, Owner. 407 Moore Bldg., San Antonio, Texas. Land merchants get busy on this.

Miss Maggie Mallard who has been in New Mexico for the past few weeks with her sister-in-law, who has been seriously ill, returned home Monday. Miss Mallard informed us that her sister-in-law had died. Her little nephew returned with her to spend some time visiting.—Lubbock Avalanche.

Mr. and Mrs. Mallard at one time resided in Brownfield, and we are sorry to learn of her demise. Jack Drinkard, a brother of the dead, lives her at present.

Neil H. Bigger went to Plains this week to attend court. He spend a few days at home while in Yoakum county.

We heard of a man the other day who when sued for divorce pleaded temporary insanity and proved it by tholove letters he had written.

Sam Walker, passed through town Monday morning on his way to Coke county for a short visit. Sammy says he's sure going to get a good mess of rabbit while there.

Mr. and Mrs. R. H. Bough have sold the Arkansaw House at Lubbock, and are visiting in Terry county this week, but will leave in the near future for Abilene where they will engage in business.

Mr. Dave Broughton and family, passed through Brownfield last week on their way to Abilene where they go to put their children in school. Mr. Broughton informed a Herald man that he was only moving down there temporarily.

"Judge" French encountered a huge rattle snake down in front of the bank one day this week and after a terrific combat, finally succeeded in inducing him to pass in his check. The rattler didn't have more than 371 rattles and a card of buttons.

Judge L. S. Kinder and L. C. Penry, District Judge and Attorney respectively of this District, of Plainview, Texas, spent Saturday night in Brownfield, on their way to Plains where they opened court Monday morning. They were accompanied by Mr. Baker the District stenographer.

John Waldrop, a member of one of Brownfields goat riding fraternities, sent a very fine specimen of watermelon to the Old Soldiers reunion and Fair at Gomez. We learn from a very authentic source that the melon weighed somewhere in the neighborhood of something less than nine hundred pounds, which is very probable.

T. O. Shelton the "land man" left this week for Dallas, where he has secured a lucrative position. We sure did regret to give up this excellent gentleman, but he promised to return in the future.

WANTED—Land from \$1.00 to \$10. per acre, from owners only. I advertise extensively and have many buyers. I can sell your land if cheap. I don't ask exclusive right to sell. Send postal card for listing blanks. J. J. Snyder, Austin, Texas. Reference, Austin National Bank.

It is said that the best way to preserve apples in winter is to wrap them in newspapers so as to exclude the air. The exception is made, however, that the newspapers must be on ones on which the subscription has been paid, else the dampness resulting from what is "dew" may result in spoiling the fruit.

COTTON! Bring your cotton to us and get the highest market price. We have a good buyer who gets the market daily and will pay you highest market prices. You will also find the best line of dry goods and groceries at our store and we will make you prices to suit the hard times.

THE FAIR, Tahoka, Texas

Prof. Herring, despite the fact that the game law was still in session, took roundance on a supposed bunch of black birds sitting in a mesquite tree, shut both eyes, took fire and aimed. when the smoke had cleared away he found he had killed three wild ducks. Of course it is perfectly natural for ducks to roost in trees, therefore his excuse is acceptable. "Doc" Powell happened to be an eye-ball witness of this stunt and says: The ducks were fighting Dave and he had to kill 'em in self defense."

Our local box at the post-office has already paid big dividends and we hope its popularity will grow with age. We are indebted to it for the excellent showing of the Brownfield post-office receipts, contributed by J. N. Gunter. Also to a highly esteemed townsman we are are under many obligations for the locals about the Waldrop melon, the Herring hunt and Judge French's encounter with the rattle snake. All are splendid, and it would have been simply awful to have missed them.

### JURY LIST

The following is a list of Grand and Petit Jurors summoned to serve at the coming

term of District court which convenes here next Monday:

GRAND JURY  
W. H. Long, J. L. Randal, Will McPhaul, W. H. Gist, Ben Broughton, D. S. Cunningham. Bud Jones, H. F. Adams, A. M. Brownfield, R. G. Way, Ben Hurst, Jno Burnett, Brit Clair Ebb Ivey, Jack Bryan, W. D. Wynn,

PETIT JURY  
T. M. Biles, S.L. Hunter, W. B. Snodgrass, W. N. Ross, J.E. Bryant, J. N. Farris, A. R. Brownfield, M.K. Lindsey. Dad Ellis, S. B. Johnson, R. W. Glover, W. A. Shepperd, M. B. Sawyer, Joe Hamilton, C. M. Benton, B. M. West. G. A. Whitley, J. L. Clark, S. W. Abbott, S.E. Hamilton, J. B. Newsom, W. J. French, Will Dixon, J. A. Long, S. H. Key, Sam Arnett, Cleve Williams, Doc Walker, W. R. Bridges, Will Moore, O. M. Daniels, J. C. Scudday Jr, I. M. Hudson, E. T. Stapps, Daniel Sparks, Lester McPherson,

### Last Services.

The last service for the conference year will be the services next Sunday morning and evening. Let every one who can, attend.

The fourth quarterly conference will convene next Monday evening at 7:45 o'clock. Please let every official, and as many others as can, attend. There is important business to transact.

V. H. Trammell, P. C.

### Post Office Gains

To show the growth of the post-office business at Brownfield during the six years this has been a money order office I find that the amount of money orders issued for the first half of October as follows:

1905	\$76.22
1906	\$333.49
1907	\$569.43
1908	\$330.82
1909	\$228.65
1910	\$687.86

This shows an increase of \$311.14 in 1910 over 1905 besides the increase in the money order business some of the other departments show a much larger growth.

J. N. Gunter.

## A STATEMENT

Plains, Tex., Oct. 20th, 1910.  
Whereas a report has been circulated that the District Attorney, L. C. Penry, was bought off by the suspected parties, in the investigation of the death of Cliffie Patton; I desire to make the following statement, to-wit:

I am Justice of the Peace in and for Precinct No. 1, Yoakum county, Texas, and held the inquest over the body. Mr. Penry took the evidence of all of the witnesses that even general rumor indicated knew anything about the case. He took in writing more than three thousand words of testimony, and had the same signed and sworn to by the various witnesses. I begun inquiry before the arrival of Mr. Penry and I thought it best to hold the same privately, and Mr. Penry continued the investigation behind closed doors.

After we were through with the inquiry, Mr. Penry suggested that we pretend that there was very little in the case and by that means it would make some of the people mad, and perhaps some one, in his anger toward us would tell something that would be of benefit to the state. This plan was followed.

The fact that Mr. Penry proposed to make enemies, right in heat of the campaign, for the interest of the State, is my reason for making this statement.

This statement is entirely unsolicited, and is made by me without even the knowledge of Mr. Penry or any of his friends.

Respectfully,

J. R. Long

Justice of Peace, Precinct No. 1, Yoakum County, Texas.

I wish to state that I voluntarily publish the above statement. Ed. Herald

## Introductory Offer.

The Pacific Monthly, of Portland, Oregon, is a beautifully illustrated monthly magazine which gives very full information about the resources and opportunities of the country lying West of the Rockies. It tells all about the Government Reclamation Projects, free Government land and tells about the districts adapted to fruit raising, dairying, poultry raising, etc. It has splendid stories by Jack London and other noted authors.

The price is \$1.50 a year, but to introduce it we will send six months for fifty cents. This offer must be accepted on or before February 1, 1911. Send your name and address accom-

panied by fifty cents in stamps and learn all about Oregon, Washington, Idaho and California.

Address, The Pacific Monthly, Portland, Oregon.

## MAKING BUTTER IN HOT WEATHER.

According to a well known dairyman, buttermaking on the farm in hot weather has always been difficult, and the same holds true in most of the creameries. Heat injures the grain or body of the butter directly and the flavor indirectly.

Butter with poor body and poor flavor is displeasing and unprofitable. A good body can be secured at any time of the year if the temperature of the cream is low enough. Ice will take care of that. If ice is not used, well or spring water will answer the purpose if cool enough.

A few farmers have cellars so clean and cool that churning can be done successfully all summer. Those who churn on the ground floor can do vastly better work by churning early in the morning. The early morning air has almost magic gifts in this respect.

**Avoiding a Bad Flavor.**  
But how avoid a bad flavor? More than 200 different kinds of germs have been found in milk by scientists. Most of them are harmless; some are beneficial. But even the helpful germs, the lactic acid germs, will spoil the cream if given time enough. Ripe cream makes delicious butter, but when overripe has a nauseous flavor. The secret of the whole matter is to churn before it becomes overripe.

There are three practices that have been proved helpful: First, churn early and often, so that fermentation will not have time to progress too far; second, hold the cream cold enough to retard souring; third, skim a rich cream with as little milk in it as possible. It is the milk serum, not the butter fat, which is food for the germs.

**Working in the Dairy House.**  
A dairy house is needed and a cement floor is the better. A small gasoline engine will run the separator and the churn and pump water. Turn the separator screws so as to skim a thick cream. Set the can of cream in a tank of cold water in the dairy house, this water being kept fresh and cold by the engine and the overflow running out for stock use.

Twice a week take the cream cans out of the tank, mix the cream thoroughly and let it warm up. At night set it back in the cold water tank and early next morning churn it. This method will work successfully. In a large dairy churning can be done every day, and ripening vats and combined churns are in order.

If you have not a good cellar for ice or cold water, making good butter in hot weather is out of the question. Do not try. Failure is sure. Get the conveniences. The essential conveniences are few and simple, as mentioned above. Get them and become master of the situation.

**Treating Horses' Corns.**  
For corns in horses the only remedy is to protect the affected spot from the pressure of the shoe. Frequent shoeing, with careful paring away of the hardened hoof or corn, so that this particular region will not receive any more of the weight bearing, that is absolutely unavoidable, is the point to be aimed at. In addition to this the hoof should be kept as soft as practicable by applications of moisture to the whole foot. It is seldom that a complete cure is obtained, but

# LISTEN! Terry Co. Pe

**Higginbotham-Harris Co.,** GEO. SMALL,

TWO BLOCKS EAST OF SQUARE

TAHOKA, TEXAS

with care little inconvenience will result from ordinary corns.

A work shirt made of black or other dark stuff is much warmer when worn in the sunshine than lighter colored shifts of the same weight for the reason that instead of reflecting the rays of the sun it absorbs them, thereby greatly increasing the heat. It is true that the black shirt doesn't show the dirt as do shirts of lighter color, but this is the only thing that can be said in its favor.

One who has had extensive experience in the matter of fly poisoning recommends a wash made by adding ten or twelve drops of carbolic acid to an ounce of distilled or rain water. Another who has also had experience suggests a paste made by moistening soft wood ashes with water and applying to the affected parts. Both the remedies are good and can be easily compared.

According to a statement of a leading stockman at the meeting of the National Live Stock Association it requires from 20 to 30 bushels of home state to pasture a steer a year or five sheep, the average area required being about 2 1/2 acres. Changed conditions in our dairy areas make beef production and the conditions unprofitable. This is the farmer in reason in the cost of production, and also the quality of the beef of the future will be poorer than the present one. The production of beef is economically one of the staples and of the greatest importance.

In the recent oleomargarine case before the agricultural committee of the house of representatives in Washington it developed that practically 92 per cent of the oleo as it goes to the consumer is artificially colored to look like yellow butter, yet only 3 per cent of all the oleomargarine this sold pays the ten cent tax. The Great law now present in force, provides that all oleomargarine artificially colored to look like butter shall pay the ten cent tax, yet from the above figures it appears that about 77 per cent of the colored article pays no tax at all, which would seem to show that while the present law ought not to be repealed for the sake of the beef tallow and cottonseed oil producers, it ought to be patched up to protect the dairymen and ultimate consumer.

That a federal pure seed law should be enacted to buttress the laws at present operative in some of the states has recently been emphasized by some seed investigations which have been conducted by the Indiana experiment station. In samples of alfalfa seed collected in several counties thirty different kinds of weed seeds were found. In the seeding of one acre of ground at the rate of sixteen pounds per acre it was found that only the three purest samples of seed would deposit less than 10,000 weed seeds, while the worst would put into the soil as high as 175,000 seeds per acre. It is high time that the tillers of the soil were uniting in a demand for a national pure seed law which will free them from this sort of fraud and outrage, and one of these days some farseeing legislator will insure for himself a large place in the agricultural history of the country by leading the campaign for the enactment of just such a law. Of course unprincipled seed houses will have their lobbyists at Washington when the time comes, but they will only be able to block proceedings for a little while.

## Selling the Best Groceries

### We Employ Every Facility and Adopt Every Method to Insure Highest Quality

We operate what is undoubtedly the largest and most successful retail grocery store in the world. Our business for the first three months of 1910 exceeded one million dollars in this department alone. This tremendous volume of business has grown from almost nothing because of our exceedingly low prices and our splendid qualities. With the growth of the business we have adopted the most advanced methods and our grocery and food products measure up to the highest standards required by the national and state pure food laws.

You can't buy such groceries as we sell from day to day anywhere else in the world at such low prices as are quoted by us. You can't get better qualities anywhere, no matter what price you pay. We can save you one-third on the price you pay in the average retail store, and at the same time give you better goods, more satisfactory groceries than you can possibly get of the small retail dealer.

### Our Stocks are Always Fresh

The enormous volume of our business insures freshness in every article sold by us. Groceries of every description pass through our hands so rapidly that there is no opportunity for them to become stale or shelf worn. Our volume of business being so large, we go to the first sources of supply and therefore get the goods direct from the producer or manufacturer, which is also an insurance of freshness and quality. Much of the merchandise sold by us, especially in manufactured articles such as baking powders, flavoring extracts, sodas, washing powders and many others of this character, are put up by us in our own modern laboratories. Goods not manufactured by us are subject to analysis by our chemists and so you see we surround the sale of groceries with every safeguard which makes for quality and purity.

### We Have No Open Stocks

Our groceries are not kept in open bins, boxes, barrels and cases sitting around the floor as you are accustomed to see them in the country grocery store. Instead our grocery department is operated on the package basis and almost all bulk goods are put up by automatic weighing, bottling and boxing machinery. The original packages as they come from the producer and manufacturer are emptied into great hoppers and pass through automatic weighing machines into sacks, boxes, cans or bottles without being touched by human hands. Receiving merchandise of guaranteed quality it is so handled in our house that it passes on to you in the same fresh, wholesome sanitary condition. Ask any customer of our grocery department about the kind of goods we send on our orders and they will unite in telling you that they never bought better groceries anywhere at any price.

### Write Today for Our Free Grocery Catalogue

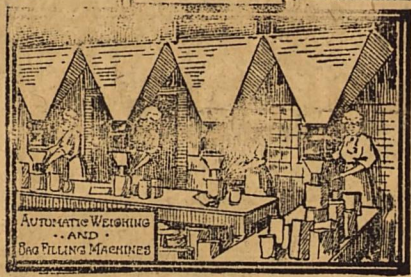

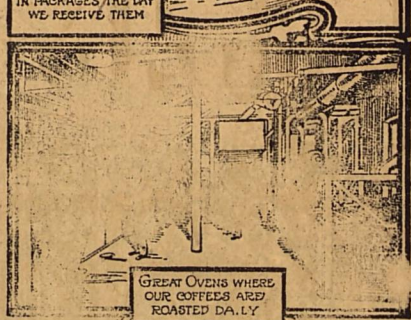

We issue a new grocery catalogue every 60 days. We have a new one now, just from the printer's hands, and we will be glad to send you a copy free and postpaid by return mail if you will write us a letter or a postal card and ask for it. It quotes everything in groceries and shows you how you can reduce your grocery bills at least one-third and in many cases one-half. This free book will show you how to solve the high-cost-of-living problem. It will show you how to get better, fresher, more satisfactory groceries at a big saving in price. We want to send you a copy now and if you will write us a letter or a postal card and say: "Please send me your latest grocery list" addressing your letter or postal card to us at either Chicago or Kansas City, whichever city is nearest to you, we will send the book at once, postpaid.

### UNCLE SAM'S MONEY LAUNDRY

Ever hear of our money laundry at Washington? The Government maintains such a laundry, wherein soiled and dirty green backs are washed and ironed. The "life" of this paper currency is thus prolonged and the country is saved a considerable expense each year because of the laundering process, which has now passed the experimental stage. Arrangements are now under way for the installation of improved machinery and when this is in operation the money laundry will be equipped to turn out more and even better work than is the case today.

It actually costs Uncle Sam \$13.50 per thousand notes (regardless of denomination) to manufacture and put them into circulation. This is equal to an annual interest of almost 11.5 per cent on the \$1.00 notes which have an average life of only fourteen months. The life of small notes is very much shorter than of the larger denominations, because of the greater amount of handling therefore the greater part of the expenses of our paper currency circulation is incurred with the smaller denominations. This is better understood when we learn that the \$1.00, \$2.00 and \$5.00 notes excluding National bank currency

compose about 90 per cent of the number of notes in circulation. The larger denominations are fit for circulation much longer after they are first issued than the smaller ones, hence do not have to be redeemed so soon thereafter. —Macks National Monthly.

### DAIRYING IN THE SOUTH.

Dairying is growing in popularity among the farmers of the southern states. They are learning that the dairy cow can do for the cotton grower of the south what she has done for the wheat grower of the north, i. e. increase the fertility of the soil in addition to making most satisfactory returns for labor and money expended for feed.

The U. S. Department of Agriculture has been giving particular attention to the question in the southern states in the past few years and a great service has been rendered. A great impetus has been given to the dairy movement until now there are thousands of influential dairymen singing the praises of the dairy cow and demonstrating by actual experience that dairying is the salvation of that country.

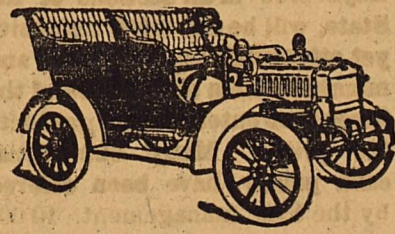

Certain politicians, in order to create an issue by which they might retain office, have greatly retarded the development of

dairying in the cotton states by creating the impression there that the interests of the cotton growers are opposed to those of the dairyman. It has been brought about in this way: Cottonseed oil is used in the manufacture of some kinds of oleomargarine. This has been used to prejudice the cotton producer against any and all legislation which in any way regulates or restricts the sale of oleomargarine.

A careful estimate compiled from government reports shows that through the sale of cottonseed oil which was used in the manufacture of oleomargarine last year, the cotton growers of the south actually received one and 12 cents for every acre planted to cotton! For every dollar's worth of cottonseed oil used last year in making oleomargarine, one hundred and seven dollars worth of butter was produced in the same cotton growing states.

There are the facts which every cotton producer should consider before lending his support to any movement which is intended to retard the growth of the dairy industry in the south.

The National Dairy Union,  
E. K. Slater, Secy,  
St. Paul, Minn.

## The International Fair.

With the date of the opening day still thirty days off, the directors of the San Antonio International Fair Association announce that all is in readiness for the greatest Fair in the history of the Association. The smaller details of the great exposition are now being worked out, but few of the many departments remain that have not all the arrangements complete.

The greatness of the Fair at this date is indicated by the many space hunters in every department. Room has been at a premium in the agricultural Hall and some of the stock barns and pens; additions and remodelings have been done to many of the buildings; still the cry is for more space. From the entries it is easily gathered that the quality of this year's exhibits will be much higher than in years past. All of which is gratifying to the management, and assures many thousands of visitors to the Fair this year from all sections of Texas, many of whom never heard of the International Fair before.

The live stock department of the great exposition will be materially strengthened this year by exhibits of blooded cattle. Among this class will come the Herefords. C. R. Thomas, secretary of the American Hereford Record Association of Kansas City, has given out the information that he has aided the International Fair this year, and expects to attend. Mr. Thomas is especially interested in securing a monster showing for this year's Fair of pure Herefords, and indications are that his hopes will be realized. Some fine specimens of this blood will be brought from all the cattle raising districts of the State, according to the entry books. The American Hereford Association has contributed \$800, which will be distributed in prizes to the breeders of Hereford cattle this fall at the Fair. Besides this the Fair management has offered several substantial cash prizes in this particular breed of the live stock department.

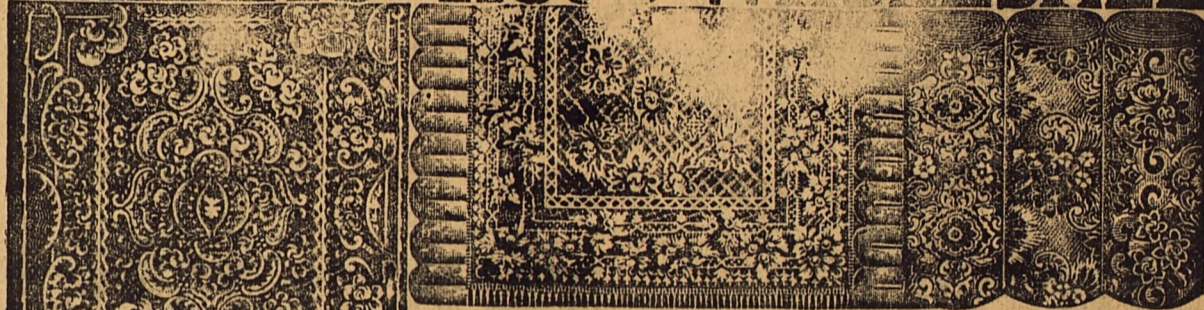

Mexico will out do anything done in the way of sending exhibits to the International Fair

directors. Albino R. Nuncio has again been appointed commissioner of Fomento by the Mexican Government, and will again superintend the showing of the Mexican products at the Fair. He has been at the head of the Mexican exhibits at the Fair for a number of years, and has the Fair's interests at heart. Indications are that many more visitors from Mexico will come this year than in the past. This is because of the extremely low rates offered by the Mexican National Railway lines every day of the Fair, especially "Mexico Day," and with Mr Nuncio at the head of the exhibits from Mexico, the people of Texas are assured that he will collect for showing in San Antonio the best products ever shown outside the Republic.

It is expected that 5,000 boys, all members of the Texas Boys' Corn Club will visit San Antonio during the Fair. There are 10,000 members in the State, and it is the opinion of J.L. Quicksall, organizer and head of the Clubs in the State, that half the membership will visit the International Fair. The Show, made up of the products of the Boys' club in all sections of the State, will be the most extensive yet attempted by the boys, and members from all corners of the State have entered their products for prizes. Many substantial cash prizes have been offered by the Fair management. 10,000 yellow corn badges have been provided by the Association, and just that number of boys are wearing them throughout State—each a walking advertisement of the Corn Show of the Fair.

Exhibitions and practical demonstrations in good road building will be one of the strongest new features of the Fair in November. The Association will set aside a day to be known as "Good Road Day" On this occasion L.W. Page, director of Public Roads of the U.S. Agricultural department, will deliver an address, and accompany his remarks by demonstrations. Mr. Page is authority on highway engineering in America, and will come as a special representative of the government. Many prominent persons throughout the country who are interested in good roads movement have been

## CARPETS AND RUGS WHOLESALE

### From the Mills to the Customer

Buy your Rugs, Carpets, Curtains, Draperies and Furniture at Mill Prices this fall, and keep one-third to one-half of the regular retail store prices in your own pocket. When you buy house furnishings in the ordinary retail store remember that the price you pay not only carries a profit to the manufacturer, the jobber and the retailer, but also all the cost of traveling salesmen, railroad fares and hotel bills, clerk hire, high rentals, and the hundred and one other expenses of the ordinary method of retailing. When you buy house furnishing goods from us you get the brightest goods, the newest styles and patterns, the highest qualities direct from the largest mills and factories at about the price equal goods bring at wholesale. This means such a big saving to you that you can't afford to buy a carpet, a rug, a pair of curtains, a piece of furniture of any kind until you have first seen our catalogue with its big stock of house furnishing goods at wholesale prices.

### Write for a Free Copy of Our Rug, Carpet and Furniture Catalogue

Just a postal card saying "Send me your new Rug, Carpet and Furniture Catalogue," with your name and address, will get this fine catalogue by return mail free and postpaid. It shows thousands of articles: everything almost that you can think of to add to the comfort and convenience of the home; wide varieties, ranging from the most inexpensive for the homesteader on the western claim to the finest articles for the best city homes, and at prices you can't equal anywhere else, quality considered. This complete catalogue of more than 100 pages of house furnishing goods, splendidly printed, profusely illustrated, now ready to send to anyone who will write for it is easily the most valuable book of the kind ever published. If you intend to buy anything in Carpets, Rugs, Curtains, Draperies, Furniture and House Furnishing Goods this fall we urge you to write now for a copy of this free book. Address us at the store nearest you—19th and Campbell Streets, Kansas City, or Chicago Avenue Bridge, Chicago.

**Montgomery Ward & Co.**  
CHICAGO AND KANSAS CITY

invited to attend the Fair "Good Roads Day," and participate in the program.

### Notice of Final Account.

The State of Texas  
To the Sheriff or any Constable of Terry County—Greeting:  
Daniel Sparks, Administrator of the estate of Frank Duffau, deceased, has filed in our county court his final account of the condition of the estate of said Frank Duffau, deceased, and you are hereby commanded, that by publication of this writ for twenty days in a newspaper regularly published in the county of Terry, you give notice to all persons in-

terested in the account for final settlement of said estate, to file their objections thereon, if any they have, on or before the November term, A. D. 1910, of said county court, commencing and to be holden at the Court House of said county, in the town of Brownfield, on the 7th day of November, A. D. 1910, when said account and application will be considered by said court.

Given under my hand and seal of said court, at office in Brownfield, this the 5th day of October, A. D. 1910.

[Seal.] T. J. PRICE,  
Clerk County Court, Terry

County, Texas.  
A true copy I certify.  
GEO. E. TIERNAN,  
Sheriff Terry County, Texas.

Here is a puzzle that puzzles everybody: Take the number of your living brothers, double the amount, add to it three, multiply by five, and add to it the number of your living sisters, multiply the result by ten, add the number of deaths of brothers and subtract 150 from the result. The right figure will be the number of deaths, the middle will be the number of living sisters and the left will show the number of living brothers.

We handle  
high grade  
building  
material.

#### The Guaranteed Haberdasher

#### AN EL DARADO FOUND IN WEST TEXAS.

Interesting Piece in Snaday's  
Fort Worth Record. A Few  
Blunders

A correspondent of the Fort Worth Record signing the initials "J. B. G.," wrote a long article on our display at the Dallas Fair, and then branches out and gives a good description of our land, climate, water etc., together with a splendid write-up of our principal products which he gathered from the representatives at our booth. This is all good and we certainly appreciate any efforts of the correspondents of the big city dailies in giving us such a send off gratis. It does us untold good, reaching as it does, thousands of anxious readers in and out of Texas, many of whom may have contemplated a move for years and meeting such a description as this in a large paper not partial to any section, may cause such a reader to investigate its plausibility further and finally locate him as a citizen.

It is almost ungenerous to offer criticism to such an article, coming as it does voluntarily and gratis, but there are a few points The Herald begs to correct as many of our readers also take the Record. We believe the first sentence uttered is far from the truth and we believe it does the two counties an injustice. It says: "Few people had ever heard

of Yoakum and Terry counties until the Dallas Fair." Now we doubt not that millions have heard of these counties but have never taken pains to investigate their merits personally. It may be true that lots of people in and around Dallas had never seen actual products from these counties, but many had heard of them in an off hand way. It may be that they have before heard of the Eldarado of the South Plains, but through the message of a fine spun theory of some land promoter and soon forgot the incident until they saw with their eyes and touched with their hands the mighty evidences of prosperity in these two banner counties.

Again, when the average reader had completed the article he would almost swear Terry county was sixty miles from a railroad, which is correct in the case of Yoakum, but Terry lying between Yoakum and a railroad makes us only thirty miles from a railroad. Quite a difference.

Again we will say that we appreciate any effort put forth to further the interests of our counties, but we like to keep the record straight.

#### A Severe Penalty.

The postal authorities at Washington, recognizing the liability of postmasters to make mistakes in getting letters in wrong boxes have fixed a penalty of \$200 on persons taking mail out of the office other than their own and not returning it at once. This

law also includes newspapers. The excuse that it is the postmaster's fault, "cuts no ice." If you have been getting other people's mail you had better quit you might get yourself into trouble.—Lubbock Avalanche.

O. M. Daniels has rented a residence belonging to M. V. Brownfield near the Brooks' blacksmith shop in order that M. B. Sawyer might move into the one now occupied the former.

"Always referred to as the best"

W. N. COPELAND.      G. M. COSBY.  
**LUBBOCK TEXAS**

**GOMEZ DOTS**

Thursday evening: Just a wee bit cold today as our part of the world has a mantel of snow wrapped over it, and the heavy clouds gives promise for more before this melts off.

Walter Gainer got in from Lubbock at 11 o'clock Monday night with an auto load of passengers. He reported that they had to run through water several inches deep for quite a distance in coming through the Meadow community, owing to a very heavy rain there that night.

S. W. Jenkins, came in from Wellington, Texas last Monday and went on to his home in the Southwest part of the county Tuesday. He reports that land values are advancing fast North and east of here, and yet claims that this is a much better farming country than Collingsworth county and land there is now selling at \$30 per acre.

Attorney G. E. Lockhart was attending to business here Tuesday evening.

Booth Hays was in town Tuesday evening on his way home from court.

Singing at the Hotel last Sunday night. There was good music, so of course everyone in hearing enjoyed it.

J. C. Dooley, from Fisher county, who bought a section of land from Mr. Cherry last spring, moved through here Wednesday on his way to his land.

Mr. and Mrs. Ben Hurst, are in town visiting Mrs. Hurst's parents, Mr. and Mrs. Glover.

Messrs King and Miller, from the Southwest part of the county were in town Tuesday.

On the 31st the young folks had a grand time; it was All Halloween and our quiet streets were the scene of a troop of ghostly visitors, almost ever house in town were visited by the tall white phantoms with the mysterious nodding heads and the firey eyes; and the shouts of juvenile laughter that lasted far into the wee small hours attested the fact that the youngsters were having a royal good time.

Messrs. Lum Hudson and Tom Bess, of Plains, were at the Hotel Thursday night.

Clint Rambo went into the Hotel Thursday evening and ordered an extra good supper "because you see" he said I am to join the Odd Fellow's tonight and I don't know how hard a job its going to be to ride that goat, and I don't want to get weak and fall, I might fall down those steps.

On last Sunday morning Gomez's first street car, "The Blue Bell" made her first passenger trip with Roy Green for motorman and Alvin Key conductor. Now if you want to know any more about this ask those boys what become of Bob Holgate's wheel barrow.

Cold! cold! but not much coal.

Mr. Alleu Shepherd and family leaves for San Patricio county on next Monday.

West Wind.

West Wind, please get your article in by Wednesday if you can and by Thursday morning at the outside. It will make things much easier on the printers.—Ed.

 **TEXAS NEEDS GREAT MEN**

VIII. PROPAGATION.

**C**APTAIN John Smith brought the seed bag of Europe to America and Luther Burbank propagated new varieties of agricultural products. The songs of the sower and the joys of the reaper have inspired civilization since the beginning of creation and the progress of every country on the globe has been advanced by men who transplant and develop products adapted to the soil and climate of localities.

AGRICULTURAL DEVELOPMENT.

Much of our land has not yet felt the modifying influence of human skill in shaping its agricultural destinies and we need men to bring to Texas products peculiarly adapted to our natural surroundings and to make new products spring into life. In no country on the globe are the processes of nature so easily interpreted and the veins of new and bountiful industries so easily tapped as in Texas and men who can reason with nature will find a profitable field of endeavor in agricultural pursuits. Texas needs great men.
