## TERRY COUNTY TEXAS

Its Resources, People, Products Stock, Schools and Churches, Land, etc.

Terry county was organized in 1904, and was named for Capt. Terry, one of the most noted of our Texas rangers. Upon its organization, it received \$5,000, from the State and four leagues of school land situated in Gaines county for school purposes, of which we will speak later. Part of the \$5,000 was used in building a court house, buying records furniture, etc. So you see Terry never has been in debt, has always had the cash and her checks are as good government bonds.

Its bounded on the north by Hockley county, by Lynn on the East, Dawson and Gaines on the South and Yoakum county on west. It is in the very heart of the South Plains, and it is an un-disputed fact that she has more good level land than any county in the state and that is saying something. There are no creeks or rivers, but a few draws cross the county that are valuable for alfalfa, and their cliffs are lined with a white rock when crushed and wet almost equal concrete for side-walks, etc.

#### THE SOIL

Ranges from one to five feet in depth and from a mixed bread (or hard land) to a deep shinnery sand land. On any section one is able to find almost invariably

any kind of land found in the county, thus making it an ideal country for diversification.

#### THE GRASS

Not so very long since, the writer found seven distinct native grasses growing in a space not over ten feet square. The principle ones however are; gramma, mesquite and sage. Upon these grasses stock thrive the year around; only just occasionally do people feed in the very roughest weather. Our yearlings are larger than the two year olds back east or north that are not stall fed.

#### CROPS

Terry is the stock farmer's "paradise found" as he is able to raise abundantly (without irrigation) all those feeds and grains so essential to avoidupois on horses, cattle, porkers, sheep etc. Corn will average 22 bushels per acre, and maise and kaffir corn will reach an average of a ton per acre every year. Cotton does fairly well, but has not been extensively tried, but generally averages around one third bale per acre. We took 2nd prize on kaffir and maize at the Dallas Fair last year.

#### FRUITS AND VEGETABLES

Terry is an ideal place for the fruit grower, a poet's favorite as trees are free from blight and

other diseases, worms, etc, and as the ground contains no alkali or other injurious minerals, trees attain a ripe old age. We have seen Elberta peaches that measured 13 inches in circumference gathered from Terry county orchards, and the best part of it is we've never found a wormy apple, peach, plum or pear since we have been here. Grapes bear profusely and never fail. Plums cluster the limbs and pears never disappoint the grower and apples do almost as well as they do in Ark. and Mo. We took 1st prize on Limber Twig apples and Elberta peaches and the best collection of peaches. As to vegetables, they all do well and a good farmer rarely ever has to resort to the paper sack.

#### LIVE STOCK

For many years, Terry county has been famous for the number and quality of her bovines that she has shipped out to feed the nations and with the advent of farming, that industry has been augmented rather than retarded for whereas the big ranchmen once depended altogether on the grass, the stock-farmer with the aid of feed produced on the farm or ranch, is able to produce two cows where one once grew and put them on the market sooner and in better condition. Horses do splendidly, and there is almost a constant stream of mule buyers in our county. All kinds of pure blooded horses are to be found on our ranches, noticeably free from disease. Sheep have only been tried the last few years but they are a surprising success. Some of our ranches saved more than 100 lambs for each

100 ewes this spring, and the wool being free from burrs and other foreign matter, bring fancy prices. No rots, scabs or other diseases peculiar to sheep in other localities, found among them. To our gentle lady readers, we want to add that poultry grow off rapidly and to perfection almost without attention. There being plenty of small grain wasted around the stack-lots, you are abundantly rewarded with nests of eggs under almost every bush, trough, box, barrel and brush pile. Turkey and Indian runner ducks do extra well. No diseases scarcely.

#### THE PEOPLE

Finanly, let us come to the most important part of this article. The people are the best white representatives of almost all the states, but principally grand old Texas, and a few foreign countries. The reason we say best, is that only the fittest would take their families from all modern conveniences and land them 100 miles from a railroad at that time, in order to build up a county of real moral people that don't have any jails and don't need any. To say our people are moral and law abiding is putting it lightly. There is not a criminal case on the docket, and has not been one in a long, long time, and there are between 1500 and 2000 souls here. If you will come and see the good roads they have built, and are building, you need not be told that they are progressive. The clayed road across the county to Tahoka, our nearest railroad point, 23 miles distance

from Brownfield, are the talk and comment of everybody who passes over them. Several others are planned.

#### RAILROADS.

Lubbock and Tahoka are at present our nearest railroad points, but they are not destined to remain so long, for the following roads are looking with longing eyes to the harvest fields and stock pens of Terry county: Santa Fe, Roscoe-Snyder & Pacific, Texas Central, Acme-Quanah & Pacific, Altus, Roswell & El Paso, and whenever they do, the present price of land—from \$6 to \$15 per acre—will be doubled and thribbled, and you are going to see the county settled like magic. Better buy early.

#### SCHOOLS AND CHURCHES.

The school is the long suit of Terry county people. They believe in having better building longer terms, more competent and better paid teachers than any county. There is one country school, which at that time had less than twenty pupils, that has the reputation of running its school without a break for 13 months, though the majority run only 6 to 8 months. There are two high schools of the first class in the county; at Brownfield and Gomez. There are two rural high schools of the third class. There are several schools that have real model buildings that makes one feel proud to look upon. The funds from our four leagues of school land, besides our state pro-rate, makes our

### CHEAP MONEY

The Borrowed Dollar Patriotic. Volume of Texas Money Too Small.

Cheap money is the fount that makes the brook of industry flow. Under its nurturing influence, the germs of civilization flourish and bloom like the tree of life and its blessings fall upon the land like the dew of prosperity. Withdraw it from circulation and industry withers, civilization blights, prosperity stagnates and poverty stalks over the land.

The borrowed dollars vaults heavenward with its magnificent skyscrapers, delves into the bowels of the earth in search of hidden treasures, spans the prairies with bands of steel, thrills the air with the scream of factory whistles and searches land and sea on its mission of commercial adventure.

The borrowed dollar is the most patriotic of our circulating medium. No declarations of war are made without its approval; it fights our battles, dictates treaties of peace and at its bidding nations have sprung into life or sunk into oblivion. It is the first to answer the call "to arms" its voice is in the roar of cannon; it fills the knapsack of the soldier and it cares for the widows and orphans and is one of the best friends Uncle Sam ever had.

In times of peace, it performs deeds of industrial heroism by rescuing sinking enterprises and lifting up fallen industries and no worthy enterprises ever appeal to it in vain. Cheap money means prosperity to the people.

If, by inviting cheap money to Texas, we can reduce the rate of interest only one per cent, we have a net saving to the borrowing public of \$10,000,000 per annum and cheap money will enable many gigantic enterprises to spring into life by making it possible to finance them.

Equal rights of money is as important to our growth and development as equal rights of the individual, for money is power. We do not increase the wealth of the State by transferring money from one individual or corporation to another. It is in bringing money into the State from the outside that our increase begins. The volume of Texas money is too small; we must get development money from the outside.

Lodges that do not wish to pay these prices will please notify us at once.

### A Good Fair

Although there was not quite as much produce on exhibit this year as common, the samples were somewhat superior. This

### COLD DRINKS

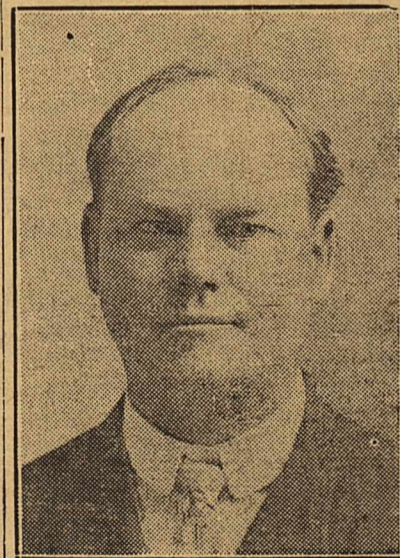

I carry the best line of drinks this side of of the railroad; all kinds Notions, such as tablets and other school accessories. I give a \$'s worth and want your trade.

CLEVE WILLIAMS, the confectioner

is owing to the fact that Terry county people are unusually busy, and did not have time to come in and bring their products but there were plenty and good ones which will be immediately boxed and shipped to Dallas to be put on display at the State Fair.

With the magnificent day, a good dinner, good natured crowd and good products, stock, poultry, needlework and pretty babies etc, the 4th Terry County Fair was a success from every standpoint.

A thorough report with a list of awards will be printed next week.

#### High Cost of Marketing Farm Products.

Tyler Texas, September - Mr. S. A. Lindsey, chairman of the sub-committee on Production, and Marketing of Farm Products, has been conducting an investigation into high cost of marketing, on behalf of the welfare Commission. There have been shipped out from this city this year 1,571 carloads of peaches to out-of-state points and the last end of the crop rotted on the ground for want of a market, although the consumer was anxious for the fruit.

A great deal of the Texas product goes to Colorado and Mr Lindsey is investigation into

market conditions at Colorado points shows peaches that the Texas producer gets sixty cents per bushel for packed and delivered f. o. b. Tpler at the cost of seventy seven cents for picking packing add hauling sell to the Colorado consumer of \$3.75 per bushel and when the market drops to \$3.42 per bushel, the Texas farmer gets nothing for his peaches. The cost per bushel of marketing a bushel of peach in Boulder, a common point with Denver, is distributed as follows Picking, 2 cents; packing, 2 cent; package, 20 cents; hauling, 3 cents; freight, 40 cents; iceing, 15 cents; handling after reaching Colorado, \$2.60. total \$3.42. It follows that peaches which sell to the Colorado consumer for 3.75 brought the Texas producer 33 cents.

The cost of handling the peaches after they get to Colorado is more than four times the cost f. o. b. Tyler, and nearly five times the cost of the freight and icing charges added together.

This situation exists to a greater or lesser degree with all perishable farm products, and many that are not strictly perishable.

The high cost of marketing reflects its results upon Texas producers in that it lessens the consumption of the quantity and reduces prices below the cost of production.

The following who get their mail at Gomez, have recently become subscribers for the Herald, are R. I. Puckett, R. W. Rambo, E. A. Key, Mrs. D. M. Ward, W. A. Fulton and W. J. West. At this rate we are going to have the rest of the non-subscribers on the westside before long. Wellevary oneshould take their county paper.

A ball game between the school boys of Brownfield and Gomez Thursday afternoon, resulted in a victory for the Brownfield boys by a score of 12 to 0.

## The Play

For a long time, those who have been treating the public to plays at the school house have run altogether to comedy, but in the last instance, they decided on that most popular of tragedies East Lynn, and to merely say it caught the public, is like comparing a gentle zephyr to a cyclone; it completely carried them by storm. These unsalaried but enthusiastic actors and actresses, have gone ahead and planned and perfected a stage that will accommodate almost any ordinary play, nicely. A lady who attended, and who has traveled extensively, and who has seen the play staged a number of times in our large cities, remarked that with the exception of very costly costumes and scenery, she had never seen East Lynn played better.

Each and every one did their parts well and the very best compliment we could pay them individually, would apply collectively. But we might mention that Misses Stewart and Hamilton did extra well, not to say anything about little Carmon Almon, and we want to add that the entire troupe should have the hearty commendation and encouragement of the community. We did not learn what the total receipts were as the play was stage again Thursday night for the benefit of those who did not see it the night before. A full house greeted them Wednesday night, but there was only about half so many as were on hand the night before.

Almost any green beans can be canned, but the stringless beans are probably the most satisfactory. String them if necessary, and if they are large break into pieces about one and one-half to two inches long. Place in a wire basket or some other kind of a perforated metal tray or a piece of a flour sack and dip in boiling water for five minutes. The fire should be hot enough that the water will continue to boil after the beans are put into it. Then put in the can and pour over them a hot brine made of one and one-half pounds of salt to twelve and one-half gallons of water and seal the cans at once. A very good way to keep green

beans fresh is to take a wide mouth jar, lay on the bottom of it some freshly gathered snap beans and over them put a layer of salt. Fill the jar up in this manner with alternate layers of beans and salt. They will keep good for a year. When preparing for use soak in fresh water for several hours.

### WAS NO FAULT OF HIS

Pioneer Californian Explains How He Came Into Possession of Gambling House.

When I was in California in the wild and woolly '70's," said the man who is now perfectly respectable, "I was the owner of a gambling house."

He allowed one minute and thirty-nine seconds for horror and the expression thereof. Then he resumed: "I assure you that it was through no desire of my own. It came about this way:

"Back in those days people weren't particular in California about the company they kept, so I was thrown in with all sorts of chaps about whom I asked no questions. And one day, when I was seated in a restaurant partaking of supper, one of these casual acquaintances dashed into the place in a violent hurry and cast his eye around till it lighted on me. He rushed over to where I was seated.

"'Dave,' he said, 'lend me fifty dollars. I have to leave town—just as quick as I possibly can.'

"I handed him the money. He seized it and made for the door on the double-quick. On the way he turned.

"'You'll never see me again,' he announced. 'I leave you my business in payment of the debt.' He mentioned his business address. 'Run around there after supper and take charge,' he added. With that he vanished.

"Five minutes later a posse arrived, expressing a desire to lynch him. But he had made his get-away.

"Finishing my supper I walked to the address my acquaintance had given me and found that it was—a gambling house."

### HOW THEY CARE FOR GUESTS

Conveniences of New York Hotels Show Great Consideration Given to Comfort of Ladies.

New York hotels may charge high prices for their restaurant and dining room service, but they are more than

generous in some of the conveniences they furnish their women guests. Dressing rooms are equipped with the finest of soaps, the most delicate of toilet powders, ice water, abundance of hand towels of choice linen, hair-pins, pins and cold cream, all for the free use of the fair. There are hand mirrors and whisk brooms galore and even hair brushes and combs, if one cares to use them. That nobody ever does is apparent from their impeccable newness. There is always a neat maid in attendance, who will furnish needles and thread for a consideration and even help you with your hair or mend your glove if it has played you false in an hour of need.

In one of the most fashionable of these benevolent hostleries a neat device is well worthy of imitation. It is a small celluloid box or jar with a hole in the cover. The box is filled with fine, white absorbent cotton, which is accessible through the opening. This is to be used in applying powder to the face instead of the customary powder puff. The guest picks out her little piece of cotton, powders her benign countenance and then discards the scrap when she is through with it. The idea is eminently sanitary and shows what careful consideration this hotel gives to every item affecting the welfare of its guests. Above the dressing table is a card bearing the significant inscription, "The conveniences of this room are for the use of paying guests only."

### Gone to Stay.

Booth Tarkington was telling stories to a group of college graduates in a New York club, when one of the party suddenly inquired: "What has become of Davis?"

"He has gone out of town on business for a few days, I guess," replied another of the party.

"He has gone for a long while," observed Mr. Tarkington, with a smile. "Davis is one of those men who leave unmistakable evidence of their purposes. Whenever Davis goes away to stay a long period he takes with him an old mouth organ, which he loves dearly to play while he occasionally nibbles at gingerbread. I have made an investigation of Davis' room, and have found that the mouth organ disappeared with him. The presence or absence of that instrument is enough to tell me what Davis' plans are."

The party learned soon after that Davis had left for Wisconsin to reside permanently.

### Growth of St. Petersburg.

That St. Petersburg is rapidly growing in population is evidenced by the census taken in December, 1910, which showed the population, including certain suburban villages formerly not covered, to be 1,907,708. It is pre-eminently an "office town" and also a seaport for six or eight months of the year.

The principal industry is the manufacture of cotton textiles, although its advantage as a port of entry for the interior is gaining recognition. A line of steamers has been established to Libau, connecting there with a trans-Atlantic line to New York. This enables American shippers to send goods direct to this port without the delays of transshipment in foreign ports

Poorly fed flees will not produce very good wool, nor good mutton.

### JOKE WAS ON THE MOTHER

Buy Straw Hats for Her Tribe of Hopefuls at the Harness Shop.

Edmund Roberts of the "Salvation Nell" company, tells a good story and tells it well. He has the faculty of seeing the funny things in the little happenings of every day life.

"Last season, in a one night stand in Pennsylvania, I met an old school chum, and not having seen him for years, I was more than pleased to spend as much of my one day with him as I could," says Mr. Roberts. "He was in the harness business and I spent the best part of the day in the back part of the shop keeping him company, while he worked.

"During the afternoon he had occasion to go to the bank and left me in charge of the place until his return, with a joking rejoinder to sell all I could during his absence.

"He had scarcely gone when in came a lady with four small boys in quarter sizes, she took four straw hats out of a basket and placed one on each small head and handed me a dollar, as there was a sign in the basket stating that they were 25 cents each. She tied the strings under each small chin and left the store.

"I was naturally somewhat elated at my ability as a salesman and when my friend returned, told him of my sale and gave him the dollar. Then

he informed me that those hats were for horses during hot weather and he had a good laugh on me. Well I sold a dollar's worth of hats and if the lady ever discovered that the hats were for horses and not for small boys I was not there to hear the finish."

### Her Cradle a Pumpkin.

A giant pumpkin which four-year-old Miss Rolls of Santa Paula uses as a cradle was raised by C. C. Teague, manager of the Blanchard ranch, and is particularly wonderful from the fact that on the same vine were twelve others weighing an average of 180 pounds each.

As this weighs 230 pounds a little figuring shows that there was over a ton of pumpkins on one vine—2,390 pounds, to be exact. It received no fertilizer or special cultivation. This pumpkin measures seven feet eight inches around the "waist," stands six feet nine inches high and measures in circumference lengthwise ten feet eight inches.—London Strand.

### Some Success.

"Did you find the promoter of that get-rich-quick concern?" asked one detective.

"Yes," replied the other.

"Arrested him?"

"No, not yet. He's a mighty ready and convincing man. But I managed to avoid buying any stock from him."

## DOWNING & HILL

Wants to supply Terry County people with their winter fuel. We handle both the Niggerhead and Maitland coal, and respectfully await your order. All kinds of grain.

# WHITE CREST FLOUR

"The best that money can buy"

When you go up to Lubbock, make your headquarters at MARTIN & WOLLCOTT'S store. They keep a nice stock of fresh groceries and will make you close prices. We want to get acquainted with you and want you to feel at home in our store. We occupy the rear of the Citizens National Bank building, east front.

Martin & Wollcott

Roleigh Martin, Mgr.

Lubbock, Texas

ASK the Lubbock Grain & Coal Co., about cotton seed cake Old Bro. W. M. Bridges, was in this week and sent two more Herald's to Mississippi.

IF you want bran or shorts, see Brownfield Merc. Co.

Good showers fell over the county this week that is pushing the grass quite lively.

WANTED—Someone to do the washing for a family of two. Ap- at the Herald office.

Mrs. Leach left yesterday for her home at Galveston.

LOST—A double barrel 10 gauge shot gun between Plains and Gomez. Finder please notify H. C. Crie, Tahoka, Texas.

Earley Key, who is teaching the Winn school, closed Thursday to come and permit his pupils to attend the Fair.

Editor H. C. Crie, of the Lynn County News, of, Tahoka, passed through here the first of the week on his way to New Mexico, to carry his mother-in-law home.

THE Lubbock Grain & Coal Co have just received a large supply of fresh cotton seed cakes.

Mrs. Irene Cosby, of Lubbock is visiting her sister-in-law, Mrs. Chas. Copeland, this week and attending the Fair.

WILL pay \$10. per ton for dry maize.

J. S. Wells, Tahoka, Texas

J. E. Bryant, of Groves Chapel neighborhood visited the Herald family during the Fair.

Mr. and Mrs. Moody, formerly, Miss Flora Robinson of this place, but who now reside in Sweetwater, are visiting M. V. Brownfield and taking in the Fair.

DONT buy your ready to wear skirts and long coats till you see what the Brownfield Merc. Co. has.

Mr. L. L. Cobb, of Seminole, was attending the Fair this week and come after his wife, who has been visiting her parents, Mr. and Mrs. A. B. Bynum for the past two week.

THE CHEAPEST and best reading you ever heard of is a combination of The Herald, Farm and Ranch and Hollands Magazine; \$3.00 worth of papers for only \$1.75. Get this combi- for your summer, fall and winter evenings.

WILL pay \$10. per ton for dry maize,

J. S. Wells, Tahoka, Texas.

Mrs. Garrison, of the west- side, was in attending the Fair Thursday in company with Mrs. M. D. Williams and family, and while here Mrs. Garrison re- newed for the Herald and the Dallas News.

GIVE the Lubbock Grain & Coal Co. your order for fresh cotton seed cakes. They can supply them in any quantity.

The frost that fell last week was about the earliest on record. It killed some young feed and potato vines, where they were very damp. Old settlers do not look for any more frost till about the 20th.

SEVERAL are taking advantage of our low rate of Herald, Hollands Magazine and Farm and Ranch for \$1 75. What are you going to do about it?

By request of several parties, we are republishing the article on Terry county that appeared last week. As several have re- quest sample copies to send east and north, we are printing several extra copies.

WILL pay \$10. per ton for dry maize.

J. S. Wells, Tahoka, Texas.

LOANS—If you wish to bor- row money on your land on long time in sums of \$2500 or more, write to me describing security, and state whether or not the land is patented. Ranch loans of \$10,000 and more a speciality.

R. A. Underwood, Tulia, Tex.

Geo. W. Bowman, of Moors- ville, Texas, who owns five fine sections of land in Terry county was here this week attending the Fair. He expressed himself as more than pleased with our ex- hibits—well enough to plank down \$2.50 to send our exhibits to the Dallas Fair.

WILL pay \$10. per ton for dry maize.

J. S. Wells, Tahoka, Texas

Jno. S. Powell sold 900 head of lambs to J. J. Adams & Sons last week for immediate delivery receiving \$2.40 around for them. These with others purchased of Pam Stanford of Yoakum, and some Lubbock county parties, makes them a nice little herd of 2100 head.

Dr. Ellis has just returned from Fort Worth, where he went to carry Arch McPhaul to a sanitarium for an operation for ap- pendicitis. The Dr. reports that Arch stood the operation splen- didly and had good hopes for his recovery, although he was quite weak when he left him.

Mr. William Dennis, of Asper- mont, who recently purchased land on the McKenzie draw, in Yoakum county, has rented one of Mr. Rippetoes houses and will move his family up in the near future to put his children in school. We certainly welcome this good family to Brownfield.

## Sheriff Sale.

STATE OF TEXAS } In the  
County of Terry } District  
Court of Lynn County Texas.

Victor L. Scott, et al, Plain- tiffs vs. J. H. Fancher et al, de- fendants.

Whereas, by virtue of an exe- cution issued out of the district court of Lynn county Texas, on a judgement rendered in said court on the 3rd day of June, A. D. 1912, in favor of J. H. Fancher and M. C. Russel, and again- Victor L. Scott and Bertha Lackey, No. 30. on the docket of said court, I did, on the 17th day of September, A. D. 1912, at 10 o'clock a. m. levy upon the follow- ing described lots, tracts or parcels of land lying and being situated in the county of Terry, and the State of Texas, known and described as follows: Survey No. 1. Cert. No. 146 in Block No. D. 9. situated about eight miles north of the town of Brown- field, and containing six hun- dred forty acres of land, levied on as the property of the said Victor L. Scott and Bertha Lackey; and on the 4th day of November, A. D. 1912, being the first Tuesday of said month, be- tween the hours of 10 o'clock a. m. and 4 o'clock p. m., on said day at the court house door of said county, I will offer for sale and will sell at public auction, for cash, all the right title and interest of the said Victor L. Scott and Bertha Lackey, in and to said property.

Dated this the 17th day of September, A. D. 1912.

Geo. E. Tiernan  
Sheriff of Terry county Texas.

It Would Undoubtedly Be Worth Hundreds of \$\$ this Fall & Winter. Ask For Best Price

### Harris Happenings.

Oct. 2nd.

Our farmers have begun to gather their crops. There are some good ones in this part of the county.

Mrs. J. C. Dooley, Miss Lottie Rickels and Mrs. Robison and little ones called on Mrs. B. Clare last Tuesday.

Mr. Baker helped T. J. Conley head maize last week.

Bill Willey and family, of New Mexico, passed through Sunday enroute to Oklahoma.

McPhaul Bros. sold their steers to Higginbotham last week. We failed to learn the price per head but others are selling at \$32 per head or near it, so we suppose McPhaul's received something like that.

Mr. Robison and family has moved to Gomez. We have only known the family for a short time but we feel like congratulating Gomez.

Arthur Cotton is vaccinating his yearlings this week.

Mr. and Mrs. J. C. Patterson and little ones, of Loop, Gaines county, came up Saturday to spent a few days visiting her sister, Mr. and Mrs. B. Clare and baby.

Miss Virgie Davis celebrated her twelfth birthday last Saturday with a splendid dinner. A number of her friends were present. Ye scribe was not present, but we know of Mrs. Fitzgerald's skill in the culinary art and know the dinner was all it should be.

Brit Clare made a trip to Gomez last Friday.

Mr. McMillan went to Gomez Sunday returning Monday.

Arch McPhaul's friends here were sorry to learn that his illness was pronounced appendicitis. He is still in Brownfield.

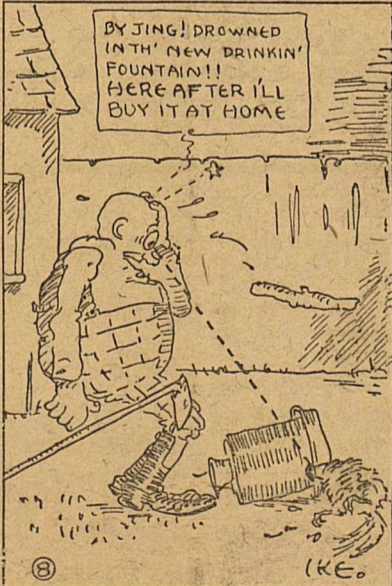

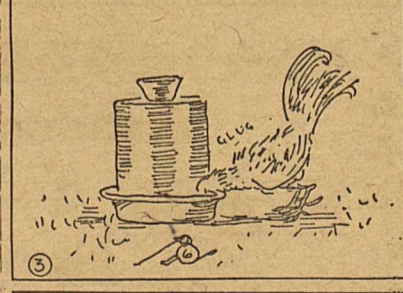

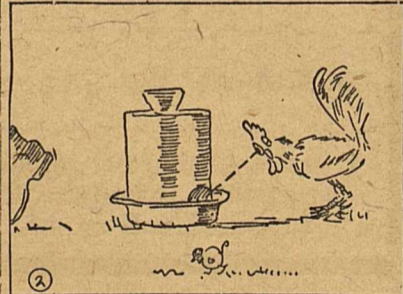

Sand Bur.

Among the visitors to the Fair were Messrs. Cooper and Gilliman, of Snyder. To say these men were well pleased is putting it lightly. Mr. Gilliman has about concluded to purchase land here and Mr. Cooper already owns a nice section. Mr. Cooper has a very large family and would move his family up for school this winter but could

not get a house large enough, but will no doubt move up to his place next spring. Why don't some one build some good rent houses.

Mrs. J. I. Bingham, of Kill- een, is visiting her sister, Mrs. J. C. Green.

### "BUY IT AT HOME"

Pigs that are allowed to pile up will come out in the morning sweating, and be sure to be more or less troubled with colds and snuffles.

Where hoed crops are intended to be grown between young trees the ground should be manured freely or the growing crop will injure the trees.

Neglected fruit trees are not worth the ground they occupy; they are an eyesore, and when pest-infested they are a positive menace to the neighborhood.

Tahoka, Texas.

THE HERALD \$1

schools the very best. Of the churches, all the principal denominations are represented, such as Methodist, Baptist (both kind) Christian, Presbyterian and Holiness. Many of them have modest but modern buildings of their own, but all are very tolerant of each other, those having building lending to those who have not. All have good memberships and are moving along nicely.

**FINALLY**

What is above written is true and the estimates are all very conservative, and we believe the people will without a single exception sustain us in our assertions. We hope you have read this carefully. We have not the space to tell you how poor farmers have come here and paid for their land with two crops. We have not told you of our splendid water in irrigating quantities, we have not told you of our exquisite healthfulness and hundreds of other advantages not offered elsewhere. You have seen our exhibits; you understand the genuineness and superiority of them; you saw no artificiality. All we ask of you is to see our county and interview its farmers. They will not only tell you how good Terry is, but will take pains to show you their graineries and smokehouses; their stock and poultry. Isn't that real fair? Just come to Lubbock and take the daily stage or an auto for Brownfield. The glad hand of true Western hospitality awaits you; the most fertile, level plains of the world await your touch. The virgin soil is awaiting gladly for the magic touch of your hand and will greet you with a magnificent and smiling harvest. Come and live a life of joy and pleasure upon the bosom of the Great South Plains.

**GOMEZ DOTS**

Mr. Whitla returned from Gorman, on last Thursday where he was called to the bedside of his father, who died with paralysis.

Mr. William Dennis, of Aspermont, after prospecting in the south Plains country for several weeks, has purchased several sections of land on the McKensie draw, in Yoakum county, near Sligo. He passed through Gomez on the 27 inst on his return east to move his family out here. He said he would place his family in either Brownfield or Gomez for the benefit of the school. This writer has known Mr. Dennis for several years, and he is an honorable gentleman and will prove a desirable citizen in any country.

Miss Phyllis Holgate, who attended the Normal at Canyon city and afterwards visited relatives at Brownwood, will return here this week and will immediately enter upon her duties as a teacher in our school; as the school is so crowded that the service of a fourth teacher is a necessity. Prof. Harrison says his room has the ages from 14 to 41 and they are getting along fine, only there is more work than time and he will certainly appreciate another assistant.

Earley Key and wife, were in town Saturday trading and visiting. He is teaching the Winn school west of here and say they are getting along fine.

Mr. Yeates brought in a big

**WE WANT YOUR BUSINESS**

**Texas Needs  
Great Men**

**XVIII. INSPIRATION**

WHEN General Sam Houston would pass down the streets, it is said that strangers would instinctively turn and inquire, "Who is that man?" The history of Texas is made up of strong men whose brilliant thoughts and noble deeds have attracted the admiration of the whole world, and caused nations to inquire, "Who is that man?"

We need in government, industry, philosophy, art, science and literature men whose walk through our lives will inspire us to high and mighty deeds and fill the Southland with a golden glow and cause future generations to instinctively pause and inquire, "Who is that man?"

**WHO IS THAT MAN?**

Let those who would hold the wondering attention of men live a life so powerful that it lifts until it awes and dumbfounds, through the brightness of their intellect into the dark caverns of civilization and crown the age in which they live with a golden wealth of progress. Texas needs great men.

load of fine watermelons from Yoakum last week. They were very large and sure did look fine but on Saturday evening the men begin to sample them on A. P. Moore's gallery and they were green. They kept cutting until the gallery floor was covered with green melons—well the town cows had a feast.

Joe Lane spent last Friday in town.

Miss Clemmie Chisholm, who spent several weeks here visiting her sister, Mrs. Kelley, has returned home.

A letter from Mrs. Bragg, at El Paso, states that she is in good health and enjoying life. George will leave here in a few days to join her and will perhaps locate there permanently as he has sold his land in Yoakum county.

Matt McPherson spent a portion of last week breaking some fine young horses he purchased

from A. P. Seitz. They were raised on the Seitz ranch east of Gomez and are as fine specimen of horseflesh as any county can show.

We spent part of last week in Seminole and find that town "chock full" of business everybody there seem to be decidedly "all alive". The citizens there signed up a railroad contract on the 25th for a road to be built north to Seminole and then on north. My understanding of the plan was they would build where they could get the best bonus to help finance the road.

The crops and grass along the route from Gomez to Seminole is fine and stock are all fat. Business will detain us in Seminole again this week so we will miss the Terry county fair, but hope it will be as all others have been, a success,

West Wind.
