The Pit Silo

Agricultural Commissioner With the Rock Island Tells how to Make Inexpensive and Valuable Silos.

(H. M. Cottrell, Agricultural Commissioner of Rock Island Lines.)

Every dry land farmer should get a silo this year. If he cannot afford to buy one, he should make a pit silo and cement the earth walls. If he cannot afford the cement, he can dig a round, deep hole and fill it without plastering. The silage will keep just as well, though the hole will cave in after the silage has been taken

out.

A. C. Tinsley, Seibert, Colorado, dug a round hole 7 feet across and 18 feet deep. Nine sacks of cement costing \$5.05 were used in plastering the walls. He got \$100 more for the cream from his cows than when he fed dry feed. M. E. Roberts, Seibert, made a pit silo 8 feet across and 28 feet deep. Fifteen sacks of cement were used, costing \$8.25. The silage fed 10 cows, that were giving milk through the winter. A 11-inch cutter cost \$25 and was run with a 4 1/2 horse power gasoline engine. He charged his neighbors 30 cents a ton for cutting. E. Wray, of Norton, Kansas, made two pit silos 7 feet across and 25 feet deep. He used 20 sacks of ce-

ment that cost \$8.00. It took 17 days labor for one man to dig and plaster both silos. The silage fed 7 head of cattle and two horses 10 months.

The man with beef cattle needs a silo fully as much as the man milking cows. A herd of beef cattle roughed through will average a loss in weight of 200 pounds per head through the winter. The same herd fed silage will make an average gain of 100 pounds a head between fall and spring.

The pit silo can be built in any soil that is dry and not sand. It takes about three tons of silage for each animal for the winter and one and a quarter tons per head for fattening steers.

The capacity is as follows:

Diameter feet	Depth feet	Capacity tons
12	20	38
14	25	71
14	32	166

Drive a rod in the ground exactly where the center of the silo is to be. Take a string and a spike and with the rod as a center scratch a circle on the exact size you want the inside of the silo to be. Mark another circle using a string one foot longer. Dig out the dirt between these two circles to a depth of two feet, taking care to make the inside line smooth and perpendicular. Fill this with concrete, using one part of cement to six parts of sharp, clean sand. This makes a collar for the silo.

After the collar sets, start on

the inside of it, dig down, keeping the walls smooth and perpendicular. Any bulge or hollow make an air space that causes spoiled silage.

Dig down six feet at a time and then plaster the walls. This saves all expense for scaffolding. Plaster the earth walls one half to three-fourths of an inch thick a mixture made of one part cement to two parts sharp, clean sand. Wet the earth before putting on the plaster and dampen the plaster every day for a week. Plaster that dries slowly is tough.

The Kansas Agricultural College has shown that pound for pound for either beef or dairy cattle, silage from corn, kaffir and cane have the same feeding value, provided each is cut at the right stage. Corn should be cut when the ears are denting. Kaffir and cane should be cut when the seeds are ripe but the stalk still full of sap.

Arrangement Committee Met Monday

The Committee on Arrangements met Monday afternoon in the Odd Fellows hall and transacted some important business in connection with the coming Old Soldier-Woodman celebration. The following committees were appointed:

IN CHARGE OF TABLES; R. R. Hughes, foreman, Walter Scudday, Ben Dixon and Chas.

Hamilton.

COFFEE; J. R. Hill and T. J. Price.

TO ERECT TABLES; J. V. Drinkard and J. C. Green.

Committee to haul seat to and from grounds; Boyce and Olen Cardwell.

TOURNAMENT; W. C. Mathis, Claud Criswell and Geo. E. Tiernan.

J. R. Hill will sell cold drink rights to the highest bidder, on Saturday, July 26th at 4 p. m., with the right to erect a dance platform in connection, and may begin dancing after 4 p. m., Aug. 8th, and continue all night. This is a rare chance to coin money.

Motion prevailed to secure the Lubbock Cowboy Band.

Brownfield, yea, Terry county has the reputation far and near as the best feeders and entertainers in West Texas, and they are coming from everywhere. It behooves Terry county to get their very biggest stir on to hold this reputation. Let us turn the big and little pots to service and cook about twice as much as usual; it dont cost much—but the price of and unfed crowd is tremendous. **WE NEVER HAVE FAILED** and let's not on this occasion.

Children like Dr. Miles' Laxative Tablets because they taste like candy. Try them next time. [Advertisement.]

Don't wait for a headache to go away. Use Dr. Miles' Anti-Pain Pills and save suffering. [Advertisement.]

SUMMER, AUTUMN, WINTER OR SPRING

We keep Coal and have a Plains-wide reputation of keeping the best Fuel to be had, and we aim to hold this 'Rep' Cake and Meal, Stock Salt, Hay, Wire, Post etc. Always ahead; try our Wagon Yard.

Any reflection on the reputation or standing of any private individual, firm or corporation, will be gladly amended if brought to the notice of the publisher.

In the meantime, we don't aim to pause to see what the weather man does, we aim to have every thing in good shape when it rains. Just keep up your dust mulch.

If it were figured out to a gnat's eye and a chigger's tooth, probably it would be found that only about .001 per cent of our people feel like hurrying back to their work from nooning, these days.

Brownfield will soon have two big dry goods and grocery establishments again and will be the best trading point in this part of the country. It is already just as good but two will make it better.

On another page of this issue the agricultural demonstrator of the Rock Island Railway, gives plans and specifications for building an underground silo, and we advise all readers who contemplate such a silo, to read it carefully, as there is plenty time yet to put up late feed and in case you aim to build one next year, clip the article or file away this issue of the Herald.

Seven big steel silos contracted for in Terry, three of which are already in the air, with probably enough wood, concrete and underground silos to make out fifteen. This is pretty good, we think for the first year, when we consider that they were hardly dreamed of last year. But when Terry county stockmen hear of a good thing, they believe in passing it along, for they are all first class business men.

The legislature is taking its vacation at Austin to make some appropriations for the maintenance of the State government, but to hear some people tell it they appropriate millions to much everytime they meet. According to this theory, we will have to send some one along to watch them, and then another spotter to watch the first watcher. Aint it h—l, people, how we did get so many robbers of the people's funds together in one bunch?

The amendments have all lost by majorities that will probably run to something like four to one throughout the State. It stood a little more than nine to one against in Terry county, the Meadow box only, showing a majority for the amendments. The

friends of education have not called for the sponge, nor give up the ghost. Other measures will be substituted from time to time, the amount of issue being specified, as the supposed unlimited amounts being the main grounds of hostile attack from many prominent and influential personages, but humanity is also prone to have an excuse to fight any measure that tends to make a stab at their bank accounts; their hearts are tender and tears of pity drench the orphans, the blind, mute and deaf like summer showers, but their purses are invulnerable, an adamant, the rock of Gibraltar. Seeing the legislature has never heretofore hurt itself in over appropriating but rather tried hard to make a 'rep' for economy. Now, we believe the issue will be so clear cut in the next submission of an educational measure that the antis will have to make a clear cut fight against education and not form of procedure, and not many politicians will do that.

Reckless Waste.

Longview Times-Clarion: What would a man say to his wife if she were to leave her \$50 sewing machine out in the yard over night in a rain storm? Well, he would do a plenty if she persisted in leaving it out in the weather. And yet the same lord of creation has left his farm machinery standing in the fence corner. Many of these costly tools will stand out unprotected all winter. What should your wife, Mr. Farmer, do to you? She should get a rolling pin after you and make you house them properly. You can save a \$10 bill any day by acting on this suggestion.

It is very hard to imagine a woman's leaving her sewing machine in the weather. A woman has so much more sense than that. She wouldn't leave even her coffee mill or her meat chopper to be rained and shined on alternately by the out-of-doors elements. It takes a man to be guilty of such folly as is compatible with refusing shelter to the implements of his trade. A man will sometimes whip his boy for losing a dime on the way to the store, but the old reprobate would consider it all-fired hard to be himself walloped for having permitted a hundred dollar mowing machine to rust and wrap through a long summer on a weedgrown turnrow. There are in Texas at this very minute

ten thousand costly pieces of farm equipment, mowers, wheeled rakes, cultivators, planters, wagons and buggies, and one hundred thousand spades, hoes, plows and pitchforks, unused and unsheltered, going rapidly to decay. Implements that ought to last ten years are permitted to become useless in two years solely for lack of a little care.—State Press

Business is Business.

But to continue in business, it is very necessary that we collect the money we sell the goods for. Therefore customers owing these past due accounts must come in and make settlement. All please note this fact and make prompt settlement. Very Respt. May & Wright.

Yoakum County Items

From The Yoakum Co. News.

The Commissioners' Court did a fine business Monday counting and paying for Jack rabbit scalps. Men and boys were on hand with bags full of ears, and the total number brought in was 1214, amounting to \$60.70.

Rev. B. F. Dixon filled his appointment in Plains last Sunday and spent three or four days here during the week. On Monday morning he commenced circulating a subscription list to raise funds to build a Baptist church house here, and by night he had \$450 subscribed, about half the amount needed for the building. He now feels assured of the balance of the money, and says the house will be ready for use by early winter.

Painfully Burned

Mrs. G. E. Lockhart met with a very painful accident Wednesday morning shortly after Mr. Lockhart had left for Post City to attend district court. She poured some gasoline into a tub of boiling clothes which boiled over and immediately the room was a mass of flames. Her first thought was that her apron was burning and she jumped behind the door to be out of the draft, but discovered that her apron was not on fire and no damage done except her right arm was blistered from the hand to the elbow, which while painful is not serious.—Lynn County News.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell."

I tried most every kind of medicine, but none did me any good. I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it.

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.

Write to: Chattanooga Medicine Co., Ladies' Advisory Dept., Chattanooga, Tenn., for Special Instructions on your case and 64-page book, "Home Treatment for Women," in plain wrapper. N. C. 124

ts From Tokio.

it Clare was at Tokio making arrangements for a telephone line from Harbin to Tokio. He says nearly all the telegrams from here to the east will be put in phones. He expects to have the line up in a few days.

Mr. Burnett, father of John Burnett, was here Monday, and John Burnett's little boy, who had an attack of infantile paralysis is improving fast under the treatment of a Dr. in Sweetwater. He said the child could walk about the room by holding to something.

Mr. Joel D. Wrotan and family, accompanied by Miss Ella Wrotan, is spending a couple of weeks visiting and prospecting in N. M.

Rev. Lovelady, of Post, took dinner with H. L. Ware Saturday. He has been over a considerable portion of N. M. and says there is a good opening for men with some stock but does not think a man ought to go there unless he expects to raise stock, or engage in some other business besides straight farming.

Miss Orié Ware is spending this week with her cousin, Mrs. R. E. Burnett, east of Brownfield.

A light rain fell in this part of the country Sunday, sufficient to make the moisture meet, and everybody seems to think we will make good crops in this part of old Terry.

Grandpa Burnett is on his way to N. M. to file on land. He said he heard a man could take up a section of land there now, and he expects to be one of the first to take advantage of the new law.

Thank you Mr. Editor, for your kind invitation to be among the pen-pushers at the reunion. I for one will be glad to attend if it is so I can.

Digger

Withers—Crain

Clerk D. J. Broughton issued marriage license to Sam Withers and Mrs. B. B. Crain, Monday, afternoon and they were immediately united in marriage by Judge Geo. W. Neill.

Sam is an old timer in Terry, and therefore is well known here.

Mrs. Withers recently moved here from Jones county.

Herald wishes this couple much happiness.

Roswell Wet Nearly Two To One

Roswell, N. M., July 18.—After three years of prohibition, Roswell was voted wet by nearly two to one in the hardest fought elections ever held in this state. —Amarillo Daily News.

The 1912-13 catalogue of the University of Texas, including the Medical Department, has just been issued from the press. It is an imposing volume of five hundred and fifty four pages. This constitutes the most imposing catalogue that has ever been issued by the University. The catalogue gives all the rules and regulations of the University and the various courses in the different departments and schools are carefully outlined. Copies of the catalogue may be obtained by addressing the Registrar, University, Austin, Texas.

CARE OF DAIRY HERD

Eliminate Animals That Run Dairyman Into Debt.

Cows Must Have Best of Care and Comfortable Quarters if They Are to Give Best Results—Sunlight Is One Essential.

(By R. G. WEATHERSTONE.)
To increase the profits from our herds or decrease the profits of production we must eliminate the cows which individually run us into debt.

In the second place we must feed our cows more intelligently. The feeding of a dairy herd to produce profits more economically is a hard proposition to put to a man at the present time. Under the present conditions the only way to produce butter fat at less cost than we did last year is by increasing the efficiency of our home-grown dairy foods.

The feeding value of our home-grown foods will depend largely upon their palatability. By feeding a variety of feeds we make our rations more appetizing and palatable than a few foods.

Ensilage and roots are more palatable than dry fodders. Cows that are fed these appetizing feeds with clover hay will eat more hay than when confined to clover alone.

Early cut hay is more suited to the ration than late cut hay and the cows

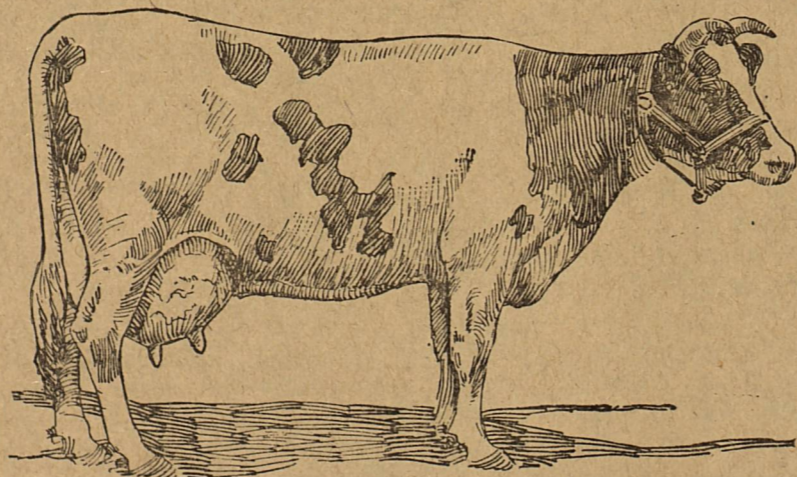

The German standard of feeding calls for one and one-quarter pounds of protein to every ten or twelve pounds of milk.

Another principle is that feeding mineral matter increases the value of the manure and much of the profits from high feeding must be made through the fertility brought onto the farm by the increased value of the manurial fertility.

But, high feeding is not always the most profitable. This is a matter that must be worked out by the man himself according to his farm and conditions. Conditions are not the same on two farms. The difference in cows, the kinds and amount of available home-grown foods, the market prices of dairy products and dairy foods, compel each man to work out the problem as it applies to his own particular farm, always watching the milk flow, increasing the foods and protein until a point is reached that yields the most profit.

Cows must have good care and comfortable surroundings if they are to respond to intelligent feeding. The great problem in connection with the stable is to keep it warm and well ventilated at the same time. Pure air is just as necessary to the cow as food. Sunlight is another essential. Dark stables where sunshine never reaches breed disease. Sunlight is a tonic, a stimulator and invigorator to all animals.

There seems to be a wide diversity of opinion among dairymen as to how much exercise the dairy cow should have, and I wish to say that I am not a member of the class who believe

Profitable Milk Type.

will consume larger quantities of it in feeding home-grown feeds we must feed such foods in a practical way, as will induce the cows to eat more.

The more easily digested the ration the larger the milk flow. A certain amount of energy is required to prepare these foods for assimilation. In feeding coarse foods we find this is a large per cent.

Tender pasture grass is more easily digested than dry fodder. Again we see that succulent foods are more easily digested than dry fodders; that early cut hay is more easily digested than late cut hay and that grain and concentrates are more easily digested than hay and coarse fodders.

We can make a balanced ration from corn ensilage and alfalfa hay, but such a ration contains an excess of coarse fiber and requires too great an expenditure of energy to digest and assimilate it.

Such a ration may be greatly improved by the addition of a few pounds of concentrates.

Cows that are giving milk must have an abundance of protein. The more protein we feed up to a certain point the larger the milk flow. It is the amount of food over and above that required to maintain the body that goes to stimulate the milk production.

in shutting in the cows from October until June without turning them out for exercise.

There is a muscular tone and vigor that must be kept up to maintain health. With all our present-day methods of ventilation and improved methods of tying the cows, we must give the cows some outdoor exercise if we secure the best results of production and procreation.

If we look upon the cow as a milk producing machine alone and do not place a value upon her ability to bring a strong and vigorous calf, it may be more profitable for us to keep her inside all the time where she can turn all of her energy toward the producing of milk alone and be discarded in two or three years and another cow take her place.

Such practice may pay the milk producer but not the man who is trying to build up a herd of economical butter-makers.

If any man thinks a little exercise a waste of energy let him shut himself up in a close room kept at the right temperature all winter and confine himself to just such kinds of food and see if he comes through the winter in condition to start a hard spring's work.

If the experiment worked well by himself why then he might be justified in trying it on the cows.

Notice the change in the Odd Fellow directory, Claud Criswell is now N. G. and W. G. Hardin is secretary.

Mrs. Joe DeLhozo returned last week to her home in Lubbock, after a week's visit to her mother, Mrs. C. E. Moore.

Geo. Black, Jr., of Gomez, was here Monday, with as fine lot of grapes as anyone would wish to see. This is one fruit that is sure at home in Terry, and never fails to bear.

Tiernan & Scudday recently purchased a bunch of steers, that they are pasturing in Mr. Tiernan's pasture, northwest of town. They are reported to be real fine.

C. S. Cardwell is building a large cellar at his place, in which

WHAT IS A SILO?

It might be said in answer that it is a device whereby a farmer may turn his live stock into a field of green corn, kaffir, milo, cow-peas or alfafa every day in the year.

The Ames Portable Silo is to feed stuffs what the preserving jar is to food stuffs. It preserves them while they are in season for use when they are out of season. Green feed placed in it is preserved and retains its succulence indefinitely.

With an Ames Portable Silo a farmer may keep on a few acres as large herds as his neighbors without a silo can keep on a large ranch. Silage is a fattening as well as maintenance ration.

Two years ago a government test of feeding value of silage was made in Donley County. One lot of 25 steers was fed silage with a little cotton seed meal. Another lot of 25 was fed cotton seed meal and hulls. The silage fed lot gained a little more than two pounds per day while the meal and hull fed lot gained a little less than two pounds. The silage fed lot sold at \$6.25; the meal and hull lot sold at \$5.95. The net profit on the silage was \$10.27 per head; the net profit on the meal and hull lot was 67 cents.

The farmer who does not own an Ames Portable Silo cannot compete with his neighbor who is up-to-date and provides cheap green feed for his live stock every day in the year.

The Ames Portable Silo can be taken down and moved from rented ground or from place to place on the farm or ranch and it will not blow down or fall to pieces from shrinkage.

Texas Portable Silo & Lumber Co.

LUBBOCK

TEXAS

to store fruits and vegetables. This is something everyone who raises gardens, potatoes, etc., to build, as they are hard to keep without such a protection.

If you want a Ford Automobile see the Brownfield Hdw. Co. They sell them.

Among the many other attractions that will be here Aug. 8th, a gentleman from Lockney will bring a merry-go-round for the young people's diversion.

Russell Jones came in Monday from Lubbock, where he went to see his sister, who recently underwent an operation for appendicitis. He reports her on the road to rapid recovery.

The editor saw a couple of crops Sunday, that of Uncle Joe Hamilton (part) and V. E. Hargett, and was agreeably surprised to find things so green and flourishing after the hot, dry winds.

FOR SALE OR TRADE: East 1-2 of the W. T. Clifford home section near Meadow. Fine land, price right. Write W. I. Thompson, Aberuathy, Texas.

The big basement for the Merc. building was finished last week and this; trenches were dug and concrete laid for the foundation, and we expect is to look quite "housey" by the time the Herald reaches you.

An effort will be made to get Brownfield and Lubbock to buy the Brownfield Lubbock Auto road and make it a free line as tourist are beginning to roar about the \$1.00 that is charged to run over it.

We understand that Noah Bell will likely buy one of the Ames siloes. Noah believes in so combining stock raising and farming that he will get more profit on same amount of labor expended. He figures right, too.

Sam C. Arnett was down from the ranch last Saturday, and informed the Herald man that he would likely erect a large concrete silo this summer. Sam

is a progressive ranchman, and if there is anything good going, he gets it.

Many people with sour stomach find relief in Dr. Miles' Laxative Tablets. Try them yourself. [Advertisement.]

M. V. Brownfield and others had large quantities of the white dirt, obtained at the bottom of the Merc. put on the sidewalks over town that not only add to their looks, but will be highly appreciated when it rains.

LOST strayed or stolen, in T— pasture near two wells, one black more branded C on left jaw, blind in right eye, about 10 years old, sixteen hand high, hauler and short piece of rope on when last seen. Notify Jno. S. Powell, Brownfield, Texas.

Two gentlemen from Snyder, representing the National Highway Association were here this week, and after perfecting a permanent organization, they left for Roswell and intermediate towns. M. V. Brownfield was elected President and Judge Neill, Secretary.

NOTICE: The Arrangements Committee of the Old Soldiers Reunion will offer for sale, on Saturday July 26th at 4 p. m. to the highest bidder, all the rights to dispense cold drinks, confections and novelties on the picnic grounds, during the day and night of August 8th.

Mr. Thompson, of Yoakum county, came in Sunday and began Monday morning to put up the Merc. building. Mr. Thompson is regarded as one of the best contractors on the Plains, and we expect to see a well built as well as a pretty building.

Harris Happenings.

On last Tuesday while S. B. Johnson and son, Wood, were putting some cows out of their pasture Mr. Johnson's horse fell with him almost breaking his neck. He was unconscious for an hour or more and his neck was very sore and stiff the next day.

Raymond Simms came out last Saturday night and attended church here Sunday. He visited at the home of W. H. Harris.

Messrs. W. H. Harris, B. C. Christainson, B. Clare, Hub Hooker and Spears put in phones last week. We expect to be connected up with the high line in a few weeks. Mr. Kelly has promised to put us in a switch at Wares.

J. E. Fitzgerald rounded up and branded last Wednesday. Mrs. Fitzgerald prepared a splendid dinner and had her neighbors come in and enjoy the day.

Bro. Dixon preached two good sermons for us Sunday. There was dinner on the ground and every body enjoyed the day immensely. Bro. Dixon announced that he would begin a series of meetings here the 5th Sunday in August.

Mr. and Mrs. E. E. Simms and little Miss Naomi came out, from Gomez Monday and are now visiting Mr. and Mrs. W. H. Harris and family.

Some of our neighbors received a good shower last Sunday afternoon but most of us missed it.

Mr. McMillan branded his yearlings and calves last Friday.

Sand Bur

Primrose.

My! We had an old time norther Sunday morning; the farmers were wishing it was rain instead. While the crops are not suffering for rain, a good shower would help the crops very much, just now.

The normal girls have returned from Tahoka, Miss Robinson returned on Thursday; Misses Carrie Jackson, Clara Cowan Grace Ellington, came in on Saturday. All report a good time, lots of hard study, and some fun mixed with it. All that too; the examination have a high hope of passing all right.

Mr. and Mrs. Smith made a visit to Lamesa last week to see his brother and brought Miss May home with them. Mr. Smith is thinking of breaking up housekeeping as Mrs. Smith's health is so bad she cannot do her work, and it seems impossible to keep competent help.

A. W. Blankship made a business trip to Lubbock last week.

Lee Cowan went to Lubbock and hauled out lumber and post and made a new correll. He and Mr. Christopher branded cattle last week.

Mr. and Mrs. Hope Timmins carried a lot of frying sized chickens to Lubbock, to sell, last week.

We failed to mention in our last items, that Mr. and Mrs. Volney Farris has a little cowboy to take up board at their home recently. Now if he can beat his daddy throwing a yearling, he will be going some.

Mr. and Mrs. Lence Price went to Hall county after plums

last week, and returned Sunday with their wagon loaded with something near 20 bushels.

Fred Robb has left Meadow and is now working at Lorenza, Texas.

Miss May Park who has been staying with Mrs. Boyd for six months, has returned to her home at Fluvanna.

Mr. Herring, from Lubbock, have moved into the Garner house at Meadow. There is to be an ice cream supper and a dance there Friday night. All young folks are invited.

Cricket

Two gentlemen, representing the Texas Sunday School Association lectured at the Baptist church Tuesday night. A good crowd attended, and we understand some good advise about the organization and management of Sunday schools was dispensed.

James Parks accompanied by Mr. and Mrs. Luther Key, came in Sunday afternoon on their way to Tahoka, and all spent the night at W. G. Hardin's. Here Mr. Hardin and family joined Mr. and Mrs. Key and will accompany them back to Parker county, where Prof. Hardin will visit his mother and participate in his old alumni school at Springtown.

A large bunch of people with four wagons, a buggy, about 100 head of cattle and twenty five head of horses, all from Kent county, camped in Brownfield Tuesday night. They were on their way to New Mexico where they will dwell in the future. They represented every age from childhood to old grand-father, and will be apt to do well in N. M., as they had plenty of stock.

Messrs. Ames, Phillips, and others of Lubbock, were here Tuesday in the interest of the Texas Portable Silo. While it is rather late in the season, we understand that several contracts will likely be made in Terry county. We have examined several silos, but will have to acknowledge this the superior of anything yet seen. Notice Mr. Ames, the inventor's ad in this issue.

Requests have been sent out to superintendents of public schools in the State for names of deserving boys who desire a chance to go to the University of Texas for one year. It is hoped that the most deserving boy in the State can be found in order that he may be awarded the \$250 scholarship awarded by Hon. Cullen F. Thomas of Dallas. The award will be made to some boy who by no other means could gain a University education.

Uncle Joe Hamilton, Jimmie Green, Otis Harper and the Herald man all went up to see Dick Brownfield's silo last Sunday afternoon and were shown over the grounds by Judge Neil. We want to register the fact right here that an article that holds over 300 tons of green feed is no snide affair. Its by for the biggest preserving jar we ever put our peepers on. We understand that Dick contemplates the erection of a huge barn 40x140 in the future, to match his big silo Hurrah! for Dick.

KIND PEASANTS OF BRITTANY

Will Willingly Share With You Contents of Cupboard and Will Not Ask for Pay.

In Brittany all peasants carry their own knives; and as for forks, they have no use for them. George Wharton Edwards tells, in "Brittany and the Bretons," of a visit to an inn where he met with the proverbial Breton hospitality.

An old withered Breton woman sat at the fireside, busily knitting at a jersey of blue wool, and three men sat at a table, playing some sort of game with dominoes.

The men gave no apparent heed to our entrance, but I knew we were being discussed in their patois.

We asked for bread, butter and a pitcher of cider, which was forthcoming, but no knives were brought. Noting our predicament, the three men at once produced their knives, immense horn-handled affairs, and after wiping them very carefully and considerably on their coat sleeves, they opened and proffered them to us.

"And now, madame," said I, "what shall I pay you?"

"Five sous for the cider, m'sieur. There is no charge for the bread, for is not that the gift of bon Dieu?"

Thus it is throughout this strange land of Brittany. One may travel from end to end away from the large cities, and everywhere meet with the same hospitality. The peasant will willingly share with you what he has in the cupboard, and will not ask for pay.

I left an offering of silver upon the window sill among the balls of woolen yarn.

Qualities That Make for Success.

"The qualities of honesty, energy, frugality, integrity, are more necessary than ever today, and there is no success without them. They are so often urged that they have become commonplace, but they are really more prized than ever. And any good fortune that comes by such methods is deserved and admirable."—Marshall Field.

Defects That Cause Failure.

"Failures which a man makes in his life are due almost always to some defect in his personality, some weakness of body, mind or character, will or temperament. The only way to overcome these failings is to build up his personality from within. It is only those efforts that man himself puts forth that can really help him."—John D. Rockefeller.

A regular time for salting the cows summer and winter will keep you from forgetting this chore.

Cold DRINKS and CONFECTIONS

Our aim is to handle the best drinks, confections, tobaccos and cigars going and to please the people. Let us make that old SUIT look new. Do it NOW.

GOMEZ DOTS

Present prospects are that Prof. B. W. Speed, of Gustine, Tex., will be our school Principal here for next term, although no contracts are signed yet.

Mr. Will Black has purchased a silo, and will have it erected just as soon as possible.

Mr. Jim Williams and wife, of Seminole, were with a party of autoist who were in Gomez last Saturday, enroute to Lubbock.

Mr. Bob Snodgrass has purchased one of those nice canopy top surries, at the Gomez Hardware Store.

The Methodist meeting closed on last Friday night.

Preaching here last Saturday and Sunday by Rev. Hicks, the pastor of the Primitive Baptist church.

Mr. A. V. Taylor and family, came in visiting last Saturday.

Mr. Horace Adams, came over last week and fenced his quarter section of land that lies just east of the graveyard.

Little Opal McPherson has the mumps.

Mr. Will Wallace passed through here Sunday afternoon, on his way to his home in N. M. He had carried his wife back east to visit her mother. He reports crops where he had been as injured by heat and drought.

Dr. Maddux and wife, and Mr. A. P. Moore and wife went out to Mr. Nichol's one day last week, visiting. They report an unusually pleasant time, and brought back some specimen of plums that are as fine as we ever saw. Some limbs 8 to 10 inches in length having 30 or more plums on them.

Well, in regard to that "get acquainted meeting" of the Herald correspondents in Brownfield, on August 8th, will be there and we truly hope all the rest will.

Rev. Balch from Lubbock, opened the Baptist meeting here on Monday night; the service will continue this week and next.

Mrs. Whisenant, who has been visiting her sister, Mrs. Simon Holgate, for the past week, returned to Mr. Jim Burnett's Sunday.

Mr. Ed Moore and wife, left Tuesday for a trip to Chattanooga, Tenn., and Atlanta Ga. Mr. Moore's parents live near the latter place. They will be gone a month or longer.

Mr. Earnest Hicks left Monday for a visit to his former home in Virginia.

The Children's day services has been postponed indefinitely.

Mr. and Mrs. J. M. Hays, passed through last Saturday enroute to Brownfield, where Mrs. Hays will spend some time visiting her son, John.

Walter Gainer left for Lubbock, Tuesday, for freight.

Tom James came in this week, from Tatum New Mex., and his sister Mrs. Foreman returned home with him.

For Pure Drugs

Mortgages are far too popular as cover crop.

Because a bad habit exists is no sign it is right.

Farmers succeed only through ability, energy, co operation and useful effort.

The know-it-all in agriculture is like fruit-the soonest ripe the soonest spoiled.

Reduced to its lowest terms, good farming is good reading, good thinking and good work.

The biggest obstacles in the way of the Texas farmer is our present system of rural credit.

The problem to deal with is not the high cost of living but the high cost of marketing.

The farmers problem is everyone's problem. What affects the farmer also affects the consuming public.

Give the farmer a square deal and a chance to prosper and our rural problems will solve themselves.

The average market basket has 54 cents worth of leaks in it. The producer gets only 46 cents of the consumers dollar.

The rise and fall of prices is dependent upon market conditions. A prosperous agriculture depends on a good market.

The drudgery of old-line farming has embittered many a farmer with his calling and induced him to give up the fight and move to town.

There is no nobler task in civilization than building a home.

Farm peasantry is the most alarming spectre that confronts the public of Texas today.

Two-thirds of our farmers are tenants and fifty-one per cent of them move every year.

FOR SALE: All leather side saddle, good as new. To sell quick will take \$5.00 for same. Box 74, Brownfield, Texas.

Take One Pain Pill, then— Take it Easy.

For Neuralgia, nothing is better than **Dr. Miles' Anti-Pain Pills** Used by thousands for a generation

Those who have suffered from neuralgic pains need not be told how necessary it is to secure relief. The easiest way out of neuralgia is to use Dr. Miles' Anti-Pain Pills. They have relieved sufferers for so many years that they have become a household necessity.

"I have taken Dr. Miles' Anti-Pain Pills for five years and they are the only thing that does me any good. They have relieved neuralgia in my head in fifteen minutes. I have also taken them for rheumatism, headache, pains in the breast, toothache, earache and pains in the bowels and limbs. I have found nothing to equal them and they are all that is claimed for them."
