#### IN TERRY TEN YEARS AGO

From The Terry County Voice, Gomez.

There appeared a communication from E. S. McNairy in this number of the Voice, protesting against roping contests.

Sam Belcher got in Saturday from the railroad with a load of freight for our merchants.

Great crowds thronged the streets Friday and Saturday on account of the roping contest. On Friday 1st money went to Houston Bostick, and 2nd to Cliff Patton. Saturday 1st to Cliff Patton and 2nd to Geo. Lee.

A meeting was called for last Saturday to talk organization, and about 30 citizens were present. A vote was taken on asking the next Commissioners court to permit organization; the vote stood 26 for and 2 against. Mr. Rolland was present from Jones county, and a bonus was raised for him to erect a gin. He has purchased three sections of land south of town.

Martin Gordon was in town Monday.

Miss Loula Spinks was on the sick list a few days and Miss Grace Morrell filled her place in the school room.

Miss Nora and Vernon Seitz returned last week from Bowie, Texas.

Joe Lane shipped 41 pounds of butter and 86 dozen eggs to Big Springs this week.

A trapper employed by M. V. Brownfield, and others trapped three lobos on the east side of Terry recently; one of the wolves was almost white with age. Mr. Brownfield paid \$35 toward their capture.

R. Holgate returned Saturday from Brownwood, where he visited relatives.

Mr. Gist of the north side brought in his son Monday and entered him in school.

We learn that two of our enterprising ladies, Mesdames Gainer and Ambler, will soon serve the public with millinery and dress making.

Mrs. Dr. Norris and children are visiting in Gomez.

I have qualified as deputy tax-assessor, and will assess Terry county taxes at Gomez. J. J. Lane.

A correspondent to the Fort Worth Record says the United States must destroy the yellow fever mesquite before the Panama Canal can be built.

D. K. Taylor and wife have gone east to visit the latter's mother, who is quite ill.

#### Strongtread Rubber Comp'ny Dayton, Ohio

W. B. Snodgrass phoned us this week that he had another young Jack out at his place this year. When born it measured 39 inches high, or larger than the average mule colt. He also has 73 mule colts and will have about 84 and about 14 horse colts. He says his colts and mares are all in fine shape, and he has them contracted for fall delivery at \$60 around.

Mrs. R. R. Hughes was in shopping last week.

#### Northwest Texas

The wheat and oat crops are in fine shape, and harvesting is beginning. Practically every county north of the Texas & Pacific railway and west of the Ft. Worth-Gainesville branch of the Santa Fe reports a large acreage and better yields of wheat with little damage resulting from hail and rain. The wheat crop in northwest Texas should be about 130 percent of last year's crop; the oats much less, say 110 percent. The corn and cotton crops are in good shape, and from present indication will make average, though somewhat late yields. There will be practically no fruit in this section of the State. The ranges were never in better condition, and the cattle industry is in correspondingly good shape. Crop conditions in Northwest Texas are relatively better than in any other section, taken as a whole. It is said 300 cars loads of binders will be required in the Wichita Falls territory alone. T. I. More than two hundred and fifty new members have joined the Texas Cattle Raisers Association since the middle of March, according to President Jackson of that organization. Men who have been members in the past and who have allowed their memberships to expire, have asked to be reinstated, and from every section of the State new applications are being received.

This is an age of organization, and "no man liveth to himself alone." In every line of industry there is getting to be more and more a spirit of unity, and co-operation, not competition, is the keynote of the successful association today.—Commercial Secretaries Association.

Jeff Pippin, representing the old reliable Plainview Nursery, came in last week and has been busy as a hunting dog writing orders for trees and vines, ever since. It will be remembered that Jeff delivered near \$1000.00 worth of trees here last fall and we look for him to break the record this fall. It is a demonstrated fact that Plains grown trees thrive much better here and are free from disease buds, and should there be an error they stand ready and willing to correct the same.

The ball game last Saturday between Brownfield and Meadow was quite an interesting game, and the boys on both sides were so fair that every thing moved off like a game should. The game stood 10 to 2 in favor of Brownfield, but they had advan-

age in both size and age besides the fact that they were playing on home grounds. The game developed a good player for the Brownfield boys in the person of O. R. Billings, step son of Mr. Johnson, who recently moved here from Oklahoma. It is said that young Billings' brother plays in the Oklahoma league. We might also add that the Rushing boys, recently from Paradise Texas are also good players. Earl Hill was not permitted to pitch for Brownfield and Billing pitched the first half of the game and caught the last half, while Dub Dickinson caught the first half and pitched the last half

## FARMERS' UNION PLATFORM A CAMPAIGN ISSUE

**President Wilson's Attitude Pointed Out as Corroborating Position of Farmers' Union on Liquor Question.**

### PLEA FOR CO-OPERATION

Ft. Worth, Texas.—The politicians have been putting the farmers upon their platform ever since there was a politician and a farmer, but in this campaign we are going to reverse the arrangement by making our own platform and inviting the statesmen to endorse it.

For the information of the farmers and the friends of agriculture, we are going to publish the names of all legislative candidates who endorse the Farmers' Union platform. We have had many requests for this information from both the cities and the farms, and as soon as we complete the canvass we will make the results public. We have solicited many of them by correspondence and others by personal interviews, and candidates who may have been missed by either of these methods will, please consider this article as a request on our part for them to give us their views so they can be properly classed, and we also ask that they publicly announce their position to their constituents. We want men who will stand squarely and publicly on our platform. We will leave the gum-shoe work to the political henchmen.

The Farmers' Union for twelve long years has been listening to the siren song of the politicians. There has been absolutely no uniformity in either thought or action on the part of the friends of agriculture and certainly no authoritative plan of procedure. Many of these campaign promises made by candidates, if fulfilled, would destroy agriculture. Some splendid efforts have been lost through lack of co-operation and proper comprehension, and the platforms of candidates who genuinely desire to help the farmer have been, in many instances, antagonistic to each other. These various platforms patched together looked like Joseph's coat, and all were lost in the scuffle between factional leaders in the legislature. Many times we have been compelled to sit down and watch important agricultural

measures go up in the smoke of political strife. We shall no longer resign our destinies to such folly.

### Liquor Issue An Obstruction.

This condition rendered it imperative that the farmers adopt a platform which would comprehend in an authoritative way the agricultural needs of the State, and in order to avoid becoming involved in factional controversies, we have gone direct to the people in the July primary. This platform deals with almost all economic problems because they are all a part of the business of farming. It handles the liquor question as an obstruction, for as such it has prevented much important agricultural legislation and has never failed to strike terror to all other bills on the legislative calendar, regardless of their merit. We had as well talk about plowing a battle field during a fight as to think of securing agricultural legislation when the liquor warriors pitch battle in the legislative halls over liquor issues in any of its disguises.

President Wilson has recently advised the Democratic party in Congress to postpone the consideration of the proposed prohibition amendment to the Constitution of the United States on the ground that it would obstruct all other legislation. The president has taken identically the same position in a national way that the Farmers' Union has occupied in the State campaign. We do not

know of any better authority on Democracy than President Wilson and in any event we would prefer to keep company with him in public issues than with some of these "prohibitionists-for-revenue" politicians, who are willing to block agricultural legislation with liquor measures.

**Agriculture is Not a Special Interest.**

No agricultural legislation fundamental in its character can be considered as class legislation, for agriculture is a universal occupation and the farmer cannot help himself without helping others. The farmer is a ruler and all other occupations are in his employ and their welfare is indispensable to his business. He cannot successfully promote his own interests without providing for the welfare of his servants.

We realize that no platform of principles can please everybody. The Union faced the necessity of taking a definite stand on all important subjects and on many of them there has always been, and always will be, a wide difference of opinion, but all subjects were carefully considered and the interests of the farmer protected to the extent of our ability. The platform was unanimously adopted at the State convention of the Farmers' Union at Fort Worth on January 14-15 with over 600 delegates present and it is the official utterance of the Union and the authoritative voice of agriculture and as such the platform is submitted to all candidates for approval and to all voters for support.

The farmers have heretofore, as a rule, divided about evenly on most all public questions, leaving the balance of power in the hands of a minority, controlled in the main, by machine politicians. The inability of the farmers to stand together makes machine rule common and corruption possible. The farmers can never hope to become a factor in public affairs unless they work through organized channels and certainly we had as well settle our differences in our own conventions as to turn them over to the politicians to settle in theirs.

### Rally 'Round the Union.

The questions for the individual farmer to determine are, whether loyalty to his occupation is stronger than popular prejudice, whether fidelity to his interests is greater than sentiment, whether he has more confidence in those authorized to act for him in convention than he has in the politicians who endeavor to destroy the Union; whether our public ser-

vants shall play politics or transact business; whether he will follow the Union or follow the politician.

We want to disclaim any intention of permitting the Farmers' Union to become in any way involved in partisan politics. Our organization, at its annual meeting in Fort Worth last January, made certain legislative demands which we have submitted to all candidates alike and we have listed those whom we consider most favorable to our demands and the opportunity is afforded all candidates at all times to endorse our platform in its entirety. In pursuing this course the Farmers' Union is simply following a precedent of long standing of all organizations of whatever character that desire legislation. The Farmers' Union will stand for principles, never for men, but we must depend upon men to write our principles into law.

The Union has had a larger increase in members during the past six months than during the previous six years and the spirit of unity and co-operation was never greater. A few self-appointed guardians of the Farmers' Union have been publicly warning the Union to keep out of politics. When we want the counsel of politicians we will apply officially for their views.

In our next article we will give a list of legislative candidates who are on the Farmers' Union platform and if that be politics, make the most of it.

W. D. Lewis, President.  
Peter Radford, Ex-President.  
Texas Farmers' Educational and Co-operative Union.

### INEXPENSIVE FARM HOME.

**Department of Agriculture Furnishes Free Plans.**

The farm house is the most important building on the farm, and money judiciously expended in its planning and construction is well invested. The United States Department of Agriculture, through its Bureau of Farm Management, has been investigating conditions in the rural districts and in many instances found that the living apartments were inconsistent in cost with the value of the farm, and very often in striking contrast with out-buildings and farm machinery.

The Department of Agriculture is not only striving to make the business of farming more remunerative, but is also endeavoring to make farm life more attractive. A number of plans for the construction of farm homes has been prepared, and in designing these homes, service, economy and attractiveness have been combined in a frame structure which can be built for \$800 in a community where average prices for material and labor prevail.

The specifications call for a simple four-cornered structure. There is but one chimney and one outside entrance. Another door may be provided by sacrifice of wall and floor space or by increasing the size and cost of the house.

The government experts in planning these homes realized that the comfort and convenience of the farm woman was paramount. They drew their plans accordingly. The kitchen is the most pleasantly located room in the structure. It opens on a screened porch where a large part of the work may be done in the summer.

The water problem has also been carefully considered. Cistern water may be drawn from a bucket pump on the back porch or from a pitcher pump in the sink. Hot water is provided by a reservoir connected with the kitchen stove. The sink with only a drain pipe to be provided, has been found too inexpensive to be omitted.

The living and dining room is combined and affords sufficient space for the longest table the harvest days will ever require. It has two routes to the kitchen which are convenient for serving a large number of workmen. The Bureau of Farm Management is trying to help the farmer and will gladly furnish free plans to farmers contemplating building homes.

### Facts On Temperance

Our prohibition friends are fond of saying that the world would be far better off if the "curse of drink" were wiped out of existence.

We agree with them. But the "curse of drink" means intemperance—drunkenness.

Beer is not conducive to drunkenness, although the association of ideas is so close in the minds of some people that they make no discrimination whatever and, either ignorantly or thoughtlessly, they hold beer fully as responsible for drunkenness as anything else. The fallacy and injustice of this assumption are at once apparent to any fair minded person who considers these facts:

Beer is essentially a drink of temperate people and is the best friend of true temperance. It contains so small a percentage of alcohol as to render it absolutely harmless if taken in moderation.

Many eminent divines who have made a close investigation of saloon conditions and the liquor question in general, declare that the moderate use of beer and light wines should be encouraged rather than discouraged, because they recognize the great truth that moderate indulgence is the only way by which true temperance can be promoted and lastingly maintained.

Rev. Dr. Parkhurst of New York, says:

"I am decidedly of the opinion that the more wine and beer there is produced in this country and the more freely it is transported from state to state, the less whiskey will be used and the smaller the amount of drunkenness."

Can, then, any right thinking person suppose that a light beer—a truly healthful, mild and harmless beverage—is an enemy to mankind—that it can in any way be construed as the "curse of drink?" Yet the prohibitionists assert that it is and they would, therefore, abolish it. But in so doing they would but magnify the evil, drunkenness, they are trying to suppress. —Paid Advertisement.

### W. O. W. Picnic

It has been definitely decided by the local camp, Woodmen of the World that they will pull off a big picnic in Brownfield, July 17, the same being Friday. While the picnic will be under the auspices of the Woodmen, and the program throughout the day will be under their charge, everybody in the county, and out of it for that matter, are cordially invited to be on hand that day, and participate in the varied pleasures. Terry county has a "rep" far and near for feeding the multitudes, and she will not fail on this occasion.

There will be a long dress parade in the morning, and maybe some floats representing Woodcraft and its protection, and all Woodmen who attend this picnic

are invited to be in this parade. The day's entertainment will close that night at the school auditorium with a play at the popular price of 25 and 15 cents. The play is a lodge side degree, requiring one hour to perform, the title being the Ancient Order of Button Busters. If you want some hearty laughs at a low price, don't miss this part of the program.

"Joe the Waif" a real comedy drama play will be put on at the school house on Saturday night June 27th for the benefit of the Baptist Ladies Aid. A troupe of the best home talent will feature the show.

Preaching Sunday 11 a. m. by Rev. Loftin, at the school house and at the Baptist church by Rev. Williams, and singing at Geo. Black Jr's at night. An unusually large crowd at all the services and the singing was splendid. The improvement in singing as a result of Prof. Lewis' school is very pronounced.

Miss Katie Copeland is staying in town the past week; she seems to be improving.

Town is deserted this week, as everybody is killing weeds in the crops and gardens. It is smart men who make two blades of grass grow where one grew before. The spring and summer rains here have made six grow where none grew before, and the crops are growing in the same ratio.

Jim Key and wife were in Sunday, but returned home that evening.

Mrs. Clint Rambo and little Horace spent last week visiting out at Messrs. Rambo and Winn's. Mrs. Winn brought them in Saturday, and paid ye scribe a much appreciated call.

Misses Ergie Rambo and Vivian Winn, spent Saturday night in town, the guests of Mrs. Clint Rambo.

Mr. Holland from southwest Terry was in trading and took dinner at the hotel, Monday. He says crops out there are fine.

Mr. Hardin was out among the voters and took dinner at the hotel last Friday.

W. D. Winn and Bert Shepherd left for Tahoka, Monday.

Misses Clemmie Adams and Zellica Knox were here Saturday.

Lee Johnson's school in south Terry, closed last Friday, and he left Saturday for Tahoka, where he will attend the Normal.

Mr. and Mrs. A. P. Moore went visiting out to Ben Brannons, Sunday.

Mr. Lemley, his father and little Pearl, were in trading, Monday.

Rev. Dixon, of Brownfield has promised to preach at the Baptist church here on Saturday before the fourth Sunday in this month.

Miss Eargie Rambo visited Miss Elma Seitz last Sunday.

Miss Jewell Nichols and Mrs Geo. McWhirter were in town last Sunday afternoon.

Mr. Dale Adams was in Monday. He says the grass is better in Terry now than he has ever seen it in his twelve years residence here.

Mr. Howard and his boys were here last Saturday.

R. W. Glover and wife went over to Bob Snodgrass' last Sunday for dinner. Well, we all know they got a good dinner but listen! in addition to all kinds of fresh vegetables, they had fresh peaches and whipped cream. Well all I have to say is that, if candidates are fed that well, when next election comes they will all be candidates.

A. P. Moore and Walter Gainer went out to W. B. Snodgrass' on

Monday.

To enliven an otherwise dull season, the young people here are going to have a lot of musicales, ice cream socials, recitals and theatricals, during the next two months. There will be a musical and recital next Friday evening, the 19th, at the school house. Everybody invited to attend.

We were were wrongly informed last week; it was Easton instead of Reed Wolffarth, who was bitten by the rattlesnake.

In conversation with Rev. J. C. Lewis, last Saturday, he informed us that he was contemplating the erection of a lot of hot beds next year and will be prepared to supply the public in all kinds of plants here at home. He is going to plant the famous tomato that is attracting so much attention. We are glad to hear of an enterprise like this going on in Terry.
