Newspapers vs Preachers.

Newspapers received an unusual and marked tribute the other day when the Rev. Charles A. Eaton, pastor of one of the largest churches in New York City and one of the foremost clergymen in the country, resigned his charge in order to carry on his chosen work, not in another pulpit, but through the press.

It is Dr. Eaton's belief, shared by many others, that public opinion in this country must be awakened to its responsibilities in the readjustment which is bound to follow the great war. Dr. Eaton will preach this subject, but not from the pulpit. The newspaper will carry his message to the world in future. In relinquishing his post the eminent clergymen said:

"At present the newspapers are preaching better than the preachers, and it is through the press that I hope to work. In common with the rest of the world, America is entering upon a new age, and I feel it my duty to help in forming public opinion and in interpreting the vast and complicated problems which confront us."

The foregoing is but another proof of the growing influence and power for the spiritual as well as material good of the community exerted by the newspaper today. In not so many years ago that any close connection between the clergy and the press was sufficient cause for a considerable raising of the eyebrows among the reverend gentlemen and their followers.

Time and experience and, it must be admitted, a higher standard among newspapers have changed this attitude.

The press and clergy are today working hand in hand, as they should work, and preaching religious as well as civic righteousness through the newspaper is an accepted fact, for while the pulpit addresses itself to hundreds, the newspaper speaks to thousands.—American Press

Ed Moore has a young sow that brought fourth eleven pigs, all alive, one day this week. We call this prolific, but Terry is prolific in every sense of the word. But J. T. Mav goes the above two better. He says he has a sow with thirteen. This is a very unlucky circumstance, and if we were a candidate we would kill number thirteen or give it to some country editor in the community.

THOSE who failed to get the Star-Telegram during bargain days, can now get it the rest of this year for \$2.75, or 100 days for \$1.00. See the Herald about it.

Trees on the Plains Fertsch Suicide at Wilson Saturday.

Trees are changing the appearance of the plains. More of them will help change the character of the plains. Trees will overcome one of the few disagreeable conditions; trees will take the sting out of the spring winds that prevail in very dry seasons.

It is settled through experience that trees will grow all over the plains. A large variety of trees have been tried successfully. But after all the tree with a tap root may be the most satisfactory. The variety of fruit or shade tree that one plants may depend all together on the taste of the planter.

A little family orchard is both useful and ornamental. It furnishes good things for the table, breaks the wind, and provides delightful shade. The shade tree will in time furnish fuel, posts, and stays for the fence, break the wind, and provide a picnic shade.

The initial expense is not great and the care required will not be a burden. However, planting trees and forgetting them, is waste of money and time at the same time that it is bad advertising for the country. Some people still argue that trees do not grow well on the plains and every neglected tree is nuts to the knocking pessimist.

Right now is the time to plan a little tree planting for the farmstead in the way of a family orchard and ornamental and shade trees. First look around the neighborhood to see what others are doing and then consult the catalogues of reliable

Saturday morning the citizens of Tahoka were shocked to hear of the death, by suicide, of Ed Fertsch, of Wilson.

At the inquest, held probably two hours after the tragedy, the particulars were ascertained to be as follows: Mr. and Mrs. Fertsch and small son, Arthur, slept in the southeast corner room on the second floor of the Fertsch hotel in Wilson. Their other son, Erwin, slept in the bath room, opening out of the northwest corner of the room.

Saturday morning, Mrs. Fertsch had risen and went downstairs to prepare breakfast, and Mr. Fertsch and the two boys were still in the bedrooms. Probably a few minutes before sun up, Arthur noticed his father get out of his own bed and take a six-shooter from the dresser drawer. Not wishing to hear the report, he drew the cover over his head, never once thinking that his father contemplated turning the gun against himself. Perhaps less than a minute elapsed when he heard the report, and looked to see what his father had fired at. He screamed when he saw that his father had shot himself. Erwin ran in from his bed room

and gave the alarm through the house. The deceased was lying in bed in a very natural position, with the covers tucked about him, his head propped upon a pillow saturated with his own blood. His right hand lay across his chest, and the fingers still gripped a Colts 38 six-shooter. He had placed the muzzle of the gun in his mouth and pulled the trigger, the ball came out just above the curl of the hair. It was asked Monday morning that the body be buried by the Woodmen of the World at Lubbock. Mr. Fertsch was a member of the Tahoka camp.—Tahoka News.

Through the courtesy of the Library and Historical commission, of Austin, Texas, we have just received the annual report, or the Handbook of Texas Libraries, No. 3, for 1915, and we find the following concerning the Brownfield Library: "Brownfield; population 300; Brownfield

Public Library, subscription library, established in 1909. The library was founded six years ago by the Maids and Motrons' Club, a study club of this place. It has gradually but slowly grown. We have a room donated by Dr. T. L. Treadaway, but we hope to have a building some day. One dollar a year is the subscription fee. The library is open one hour each week." Besides this, Brownfield has the usual school library, which comes well up to schools over the state in towns of like population, and in advance of some. Our people believe strong in good books, and are willing to sacrifice some thing to put them in the hands of people not able to own them. According to a map enclosed in this bulletin, only four more towns on the plains support a public library and they are Plainview, Amarillo, Hereford and Memphis. This is an important matter, and other towns should take it up. A whole years reading of good books for one dollar is very, very cheap reading indeed.

There is just one thing in the history of Texas that is really disgraceful in the history of our great and rich Texas, and that is her ignoble attempt to house

and properly care for her insane. We believe there is no other State in the Union but that tolerably respectfully cares for its insane. Self respecting people will not allow their insane relatives to go to jail, but lots of friendless people with unbalanced minds, have to eek out their existence behind cold bars, and often foul, unsanitary cells in the county jail. If they were criminal insane, that is, those who had taken the life of their fellow man and hid behind the cloak of insanity, it would not matter, but they are usually rich or influential, and are hustled right off to receive expert attention. It is only the poor and innocent who have to live behind steel bars in filthy jails, and it is a crime and a disgrace on the fair name of Texas. If their folks have to take care of them at home and no one to offer medical attention but the family physician, and generally speaking he can come just about as near handling a case of insanity as a country editor can print and bind the Congregational Record during a busy session. We build and maintain splendid universities, normals, and various other state institutions for the sane. Our big cities, churches and lodges build big hospitals for the treatment of various diseases, but not one cent do they spend for the poor insane. Is this the Christian spirit? Readers, if you have a spark of humanity left write or tell your State Representative in no uncertain language that he must cut so much hot air and politics and build more hospitals for the insane. We also hope the papers in the district will help the Herin in its fight for "Justice Toward the Helpless Insane."

Born to Mr. and Mrs. Edgar Chisholm, of near the Brownfield west ranch headquarters, a girl, the first of the week.

We had a letter from Judge W. R. Spencer this week, and among other things said he would be a candidate to succeed himself to the office of Judge of the 72nd Judicial District, and that a formal announcement will be forthcoming in the near future.

We are sorry to report Mrs. Jim Lewis on the sick list.

There is more Catarrh in this section of the country than all other diseases put together, and for years it was supposed to be incurable. Doctors prescribed local remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Catarrh is a local disease, greatly influenced by constitutional conditions and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is a constitutional remedy, is taken internally and acts thru the blood on the Mucous Surfaces of the System. One Hundred Dollars reward is offered for any case that Hall's Catarrh Cure fails to cure. Send for circulars and testimonials. F. J. CHENEY & CO., Toledo, Ohio. Sold by Druggists, 75c. Dr. May informed us this week that his bill of drugs and sundries would arrive next week, and he would be ready for business by the last of next week, and that he would endeavor to conduct a first class drug store, or fully as good as the town would support. Dr. May is a first class young man, and we feel sure that with the present growth and prosperity of the county, he will make good, and that the country will support two drug stores.

There was a gentleman here last week from Slaton that bar gained for land to the tune of something like 35 sections. There are various rumors about the matter. One is that he is going to colonize it with settlers from the north, and another is that it is the Santa Fe railroad buying it, as all papers are to be sent to the Santa Fe attorney at Lubbock. The deals have not progressed far enough to report for a certainty, and we are not going to give out the names of any parties. However, we are going to get a road some of these days, as sure as you live, and those who get on the ground floor are the ones that are going to make good. Come to Terry.

Moore and Broughton put down a well this week for Mr. Bassham, in the wagon yard. Mr. Bassham's father arrived last week from Cottle county, and is temporarily occupying the Jack Head house.

We learned recently that D. B. Watson, one of our old friends and subscribers, at Plainview, Texas, had taken unto himself a bride. Congratulations.

RECIPE FOR GRAY HAIR.

To half pint of water add 1 oz. Bay Rum, a small box of Barbo Compound, and 4 oz. of glycerine. Apply to the hair twice a week until it becomes the desired shade. Any druggist can put this up or you can mix it at home at very little cost. Full directions for making and use come in each box of Barbo Compound. It will gradually darken streaked, faded gray hair, and removes dandruff. It is excellent for falling hair and will make harsh hair soft and glossy. It will not color the scalp, is not sticky or greasy, and does not rub off.

Uncle Jack Coble and a force of workmen, were busy the first part of the week setting back the wagon yard fence several feet north, to take the rest of his land.

N. D. Goree was over this week from Tahoka, looking after the interest of his branch store here. He had the misfortune of breaking a car wheel on his way over.

The P. & O. No. 111 Lister

This Lister is known by farmers wherever sold as P. & O. No. 111, but the improved type is called No. 111 on account of important improvements.

There are more of them in the hands of farmers than all other makes combined—over 2,000 sold by one dealer in one county in West Texas. The special features on this Lister made it deserving of its immense sale. Its use is not confined to preparing for row crops; it is now almost universally used for plowing, for small grain crops by listing and re-listing, leaving the ground in oval waves, which not only catches and holds the moisture but prevents the loose soils of the West from blowing away.

The adjusting link on front end of beam is an important exclusive feature on the No. 111, absolutely preventing the point from running below the desired depth. The wheels are provided with dust-proof boxes, an immense help in the sandy lands of the West.

The feeding device absolutely deposits one seed at a time of any of the row crops, besides can be equipped for both corn and cotton. You will have to see this wonderful improvement to appreciate it. The tilting hoppers allow change of plates without emptying them. Furnished with either disc or shovel covers.

This Lister has embodied many other important features that will convince you that it is the best on the market.

The P. & O. No. 123 4-Wheel Lister

This Lister has all the advantage of the No. 111 and in addition has rear wheels. This is desired in many localities as it enables the operator to see the seed as planted. The rear wheels have cushion springs to hold them in line with the row and following the unevenness of the ground and conform to the ridge without straining the rear frame, compelling, also, the Lister to remain in proper working position at all times. The friction lock disengages automatically, allowing the wheels to castor and turn round in a very small space.

Gomez

By West Wind

Gomez Public School now has 111 pupils enrolled and we know of three families, all having children in school age, that are now moving to the town and vicinity, so the present prospect is we will have plenty of money next year to employ four teachers without any special contributions from our local citizens. So far as we know everything is moving along perfectly satisfactory at the school here at this time.

A Valentine party at Mr Simon Holgate's last Saturday night, Misses Bessie Knox and Ada Riley being the hostess. A good crowd was present, games were played, music helped pass the pleasure laden hours, and delicious refreshments were served. Altogether it was a delightful occasion and every one present seemed to enjoy the evening.

R. W. Rambo and wife went to Sweetwater, Tuesday, to visit Clint. Mr. Randolph went too, and A. P. Moore said he just went to be going somewhere. Well maybe he did, and from the way A. P. looked we think he would have gone oo; if they had invited him. See! Most of us are like the fox, holler "sour grapes" when the other fellow gets ahead.

Will Moore of Pottsville, returned home last week after several weeks visit to his parents here.

Yoakum is a fine county all right but just the same Terry's corn and maize have been hauled out there to feed on every winter for the past ten winters. And that is not all, Terry has had feed to sell every one of those ten winters. Not a bad showing for a county just beginning to farm ten years ago.

SEVERE PUNISHMENT

Of Mrs. Chappell, of Five Years' Standing, Relieved by Cardui.

Mt. Airy, N. C.—Mrs. Sarah M. Chappell of this town, says: "I suffered for five years with womanly troubles, also stomach troubles, and my punishment was more than any one could tell.

I tried most every kind of medicine, but none did me any good.

I read one day about Cardui, the woman's tonic, and I decided to try it. I had not taken but about six bottles until I was almost cured. It did me more good than all the other medicines I had tried, put together.

My friends began asking me why I looked so well, and I told them about Cardui. Several are now taking it."

Do you, lady reader, suffer from any of the ailments due to womanly trouble, such as headache, backache, sideache, sleeplessness, and that everlastingly tired feeling?

If so, let us urge you to give Cardui a trial. We feel confident it will help you, just as it has a million other women in the past half century.

Begin taking Cardui to-day. You won't regret it. All druggists.
