SURE ENOUGH BIG RAIN

Those new comers that thought it never rained in Terry county got fooled Tuesday afternoon, if they happened to be in or near Brownfield, and the old timers stood in the doors and remarked that it looked like old times again. Exactly 2.63 inches of water fell in just an hour, and while it did not cover a very large territory, most of the county got good showers.

The cloud came up from the south, and seemed to have formed between town and the Brownfield ranch, six miles south, and it seemed that the wind must have veered half a dozen times, and looked quite like it meant a cyclone a little, but there was no further damages than a few wrecked outhouses that were not pinned to the blocks, and one small dwelling was blown off the blocks.

The rain however did more damage. The Brick Garage

rain valleys failed to carry the water off fast enough, and such a column backed up that about twenty feet of the rear part of the roof caved in and came near catching the proprietor, Mr. Flippin underneath. A new roof almost will have to be provided.

All the masonry on the new bank building that was put up that morning and afternoon will have to be rebuilt. The ware room at the rear was flooded, and considerable damage was done to the cement stored in there. Dick Brownfield escaped any damage to his new concrete building under construction.

After the rain was over fun began, and some of the men actually swam in the streets of Brownfield, the water being near waist deep in some portions of west Hardin street. Many photographs were taken of the flooded streets.

The big hole near the Santa Fe trestle of the Lost Draw was between fifteen and twenty feet

deep, but some of the men and boys challenged the waters to take a plunge.

This gives us a precipitation, including melted snow of 7.42 inches this year already, compared with six inches altogether in 1917 in Brownfield.

As we go to press Friday morning it has been raining about 36 hours, and still coming amounting to 2.10 inches counting the big rain Tuesday making a total for the week of 4.75 inches. Eight inches of rain has fallen since the 3rd of May. Showers from now on will assure abundant crops, and fine grass.

Money to Loan on Patented Land, good terms, 10 years. Brownfield Land Co.

Marlin Ellington and family accompanied by J. F. Winston, came in this week from Camp Travis, where the former went to see his brother and the latter his son. They report a delightful trip.

ELLINGTON-HARRIS

We failed to mention in a local elsewhere in this paper that Miss Eva Harris, daughter of Mr. and Mrs. W. H. Harris, of Harris Texas, went to Camp Travis with Marlin Ellington and family last week. But she did however, and J. F. Winston, who also went along, informed us that she and Millard Ellington, who has been in training at the Camp since last September were married last Sunday at 4 p. m., at a Methodist parsonage in San Antonio. Mrs. Ellington returned home with Marlin and family.

These young people were Sweethearts for a long time and many people of old Terry will be pleased to hear that this courtship of this popular pair has thus terminated. The Herald extends hearty congratulations.

J. R. Lindley moved to the Jones place in first addition.

REGISTERED JUNE 5TH

The Local Board handed us the following list of all men that registered in Terry county. Jun. 5th, 1918.

No.	Name	Address
8	Baldwin, Lloyd J.	Brownfield
9	Cathy, Henry L.	Pride
16	Castleberry, Ray T.	Meadow
14	Evans, James A.	Brownfield

LONG WEDDINGS IN PERSIA

Ceremonies, Continuing Several Days, Among Most Curious and Elaborate in the World.

The marriage ceremonies which solemnize a wedding among the Mohammedans of Persia are among the most curious and elaborate in the world. Any American bridegroom who dislikes what men are wont to describe as the "fuss and bother" of a formal wedding should regard the case of his Persian brother and take heart.

The Persian ceremony may take from one to two weeks for its completion. Often the betrothal is a matter of many years' standing, having been arranged by the parents when the principals were still young children. When the time for the marriage arrives the guests are summoned by heralds, who go about the neighboring villages, bearing gifts of apples, cloves and roses to accompany the invitations. When some powerful personage is to be invited, the father of the bridegroom does not send a herald, but goes himself, bearing as rich a present as he can afford to give.

Before the wedding there is also a curious little business arrangement entered into. This is the matter of "kaben," or the price of divorce. A sum is agreed upon in advance by the payment of which the future husband can put aside his wife at any time. When it is desired to make the divorce difficult, the kaben is set at some impossible sum or commodity. The husband may be required to give the bride a hundredweight of mosquito wings, or one of his arms or legs, before he can divorce her, a condition which generally makes the marriage a permanent affair.

The actual wedding festivities extend over days. The guests are given rooms in the house and served with rich foods and sweetmeats. Musicians and dancing girls are hired to entertain them, and if the families of the bride and groom are rich the favorite sport of the Persians may be staged by a pair of professional wrestlers.

After the celebration has lasted three or four days the bride rides heavily veiled to her new home on horseback. She is followed by porters bearing her dowry on their backs. The wedding celebration then continues for several days longer.

High Culinary Education.

Belle—"Oh! yes, Marion is very domestic. She spends a great deal of her time in the kitchen." Bert—"Cooking?" Belle—"No; counting and classifying germs."

A Pedestrian.

"There goes one man who isn't troubled by the high cost of gasoline." "Perhaps he sells it?" "No. He merely smells it. All he consumes is the fumes."

BAYLOR TO GIVE MILITARY TRAINING

Waco, Texas,
May 28, 1918

To Terry County Herald,
Brownfield, Texas

Since every effort is being put forth to train the youth of our country, Baylor has stepped forward and offered her services to Uncle Sam. In that Military Training is again to be instituted in Baylor University. Several years ago it was thought unwise to have Military Training in our schools since Americans had banished all thoughts of another war therefore Baylor, like all other universities discharged it.

Every means will be used to make this successful and we know that anything Baylor and Uncle Sam undertakes will be a success.

Coupled with the usual benefits of Military Training will be the influence of the Christian element that predominates here.

As the instructions of the government are understood this training in Baylor will not be compulsory but it is known that every red-blooded American boy will want to take this training. And is there a father to be found in Texas who does not desire and even urge his boy to take the Military Training?

Army officers will have charge of this training and it will be on the same footing as training at other Universities in the United States. Boys, Baylor is open to every patriotic citizen of our country.

Lois Reeves.

MAN

Man that is born of his parents is of few days and full of microbes. He goeth to school when a youngster and gets the seat of his pants paddled for something he didn't do until he is sick at heart. He groweth up like a weed in the back yard and soon reaches the age when he is composed largely

of feet, freckles and an appetite for pie. About the time he gets to long for short trousers and not long enough for long ones he goeth away to college, learneth how to monkey with a three-dollar mandolin and play whisky poker. He cometh home a bigger fool than ever and marrieth a sweet young thing whose pa is supposed to be wealthy, but whom he subsequently ascertaineth, couldnt buy the prize rooster at a county fair. He worrieth along from year to year, gradually acquiring ofisprings, until his house resembles a Sunday school class just before Christmas. He fretteth through the day and lieth awake at night trying to figure how to keep himself and his dependent population out of the poor house. Efforts are rewarded by his daughters who run off and get married and bring him home a nice son-in-law every few days to feast at his board. His sons grow up and call him governor and set him back a five spot every day or two. About this time he has acquired enough lucre to make it worth while for his heirs to quarrel over, he contracts a cold and is hurried away before he has had time to have a talk with his family. His sons blow in his estate on bad whiskey and plug hats, his wife puts the finishing touches to his career by marrying the hired hand.—Ex.

The F. E. Walters family had a letter from their son, at Ft. Clark, Texas, last week. He is a calvery man.

There are some corrections that we wish to make of the Red Cross report in last week's paper. One is that the unknown turkey was donated by Mrs. H. T. Brooks, who lives north of town, and the collar credited to Mrs. Wm. Peters, and sold to John Raymer for \$6.00 was really contributed by Mrs. John and Mrs. Wm. Peters.

PROF. ZORNS EMPLOYED

We believe that we can say without fear of successful contradiction that the Brownfield Independent School District has in its employ one of the best, if not the best school men on the south Plains in the person of Prof. Zorns, recently of Tahoka, at a salary of \$1,150.00 per year.

Prof. Zorns spent four years at Post City and three years at Tahoka, Texas as superintendent of schools, and gave such satisfaction that he was again reelected at both places.

It is indeed great satisfaction not only to the trustees, but to the entire patronage, that our district has been able to secure the services of Prof. Zorns.

SMOKE YOUR GLASS FOR SOLAR ECLIPSE

Have your smoked glasses ready if you intend to properly see the solar eclipse here Saturday.

This is the advice of Government Observer Landis, who says that the smoked glass medium is the only sensible way to observe the eclipse.

And smoking the glass will be simple. A small piece of broken window glass will serve the purpose. Hold it over a coal oil lamp or burning pine or oily rags and it will get the desired effect. —Star Telegram.

SEE W. G. Harden for all kinds of Notary work.

Miss Ola Bynum left last Saturday for Eastland, where she will resume her duties in an abstract office.

Ask Doek Powell if the plank that blew into the Rafter 4 warehouse did not disturb him, last Tuesday afternoon.

Money to Loan on Patented Land, good terms, 10 years. Brownfield Land Co.

Gladys Green came in Wednesday from Dallas, where he has had a position for the past several months in order to be at home for registration. He says he will work around home until called into the services of Uncle Sam.

Tom May and family returned Sunday from the Concho, where they went to fish, but we have not had him still enough this week to ask him any questions—but don't believe he caught any fish, or he would have volunteered the information.

We are glad to find that Rev. J. B. Vinson has greatly improved in health with his trip to the Concho country, and Okla., and is ready to assume his duties as pastor of the First Baptist Church.

FOR ABSTRACTS, See Terry County Abstract Co. W. G. Hardin Mgr. Office, Court House.

Harry Allen and wife have moved to the Sawyer ranch, which is now leased to Ross Rentfro, and will look after the cattle this year.

Will Ed Harris, of White Mountain N. M., came in this week on business, and was shaking hands with his many friends and school mates here.

We understand that J. W. Spear, who has spent the last several months at the Lubbock Sanitarium, where he underwent some operations and treatment for liver trouble, will soon be back to his home in the first addition.

Mrs. Milton Brown and the girls came in this week from several weeks visit to her parents at Madisonville, Texas.

G. E. Davis, one of our new comers dropped in and subscribed for the Herald, one day this week.

Brock Gist has purchased the Delco plant and Battery Service Station from Lester McPherson and is installing it at the Auto Service Station.

John Penny of Lubbock and Joe Stokes, of Tahoka, have established a wholesale hide business with headquarters in Brownfield.

Frosty Ellington and wife, of the Meadow country, were in after supplies.

H. L. Ware has bought the J. M. Mosley place one mile east of town, and is establishing a dairy out there. Mr. Mosley and family left this week for the Ft. Worth country, but they'll be back.

Allie Smith and hand are putting the finishing touches on the depot, water tank, section houses etc here this week, getting everything ready for regular service, somewhere between the 15th of this month and the 1st of July.

Mighty few country people have been in town this week, as the fine season is keeping them busy planting while some of the crops planted after the big May 3rd rain is ready for work.

Mrs. Darden left Monday for her home at Hale Center, after a long visit to Brownfield and Yoakum county.

Doggie Patterson was here from Seagraves, Sunday. He reports that their bond election for \$10,000.00 to build a High School building, carried without a dissenting veto. Doggie is one of the trustees, and a booster for good schools. He says they have already received many inquiries about the bonds.

A PERSONAL MESSAGE FROM MR. M'ADOO

On January 21st Mr. McAdoo issued a personal message to all holders of Liberty Bonds, in which the following very wise and timely remarks occur. They should be read by every Bond Holder:

"It has been brought to my attention that a large number of patriotic citizens who subscribed to Liberty Loan Bonds of both the first and second issue are being approached from time to time by Agents who have, with too frequent success, induced them to sell their Liberty Loan Bonds and take in exchange securities which in a number of cases have been of a very questionable value.

"I therefore warn investors in Liberty Loan Bonds against exchange of these evidences of their patriotism for any securities or so-called securities. While some of the securities, or so-called securities, offered in exchange for Government Bonds are of sound value, there is no doubt that a large percentage of them are worthless.

"I believe it is for the best interests of the people at large, as well as for their actual protection, that they disregard all such offers and hold fast to the best investment in the world, that is, Bonds of their own Government.

"It is my earnest hope that every purchaser of a Liberty Bond will realize that the only genuine help he gives his Government is by keeping his Bond as an investment as long as it is possible for him to do so. Where because of misfortune or imper-

ative necessity, the holder of a Liberty Bond is forced to sell, there can, of course, be no objection."

SHALL WE SEE IT THROUGH OR QUIT?

The Government is finding it necessary to call upon us three times within a year to provide by subscriptions to Liberty Loans, sums of money hitherto considered of fabulous proportions. These facts should impress upon us as no mere words could do, the intense seriousness, the stern necessities, of the situation.

Continued acquaintance with the more serious aspects of life is apt to breed indifference, and to distort our mental vision. As the soldier shudders with horror at his first sight of carnage, but later becomes hardened, so are we apt to become complacent under conditions which call actually for increasingly strenuous effort.

The Liberty Loan with its original accompaniments of novelty and noise appealed to our national love of a new sensation. In the Third Campaign much of the novelty will be lacking, but the serious purpose behind the campaign will have grown. Our money was needed when both the First and Second Liberty Loans were floated, but it will be more than ever needed when the Third Loan is called for. Our army has grown, our national pay-roll has grown, the needs of our allies have grown, the necessity of forever banishing the unspeakable menace of Prussianism has grown. No longer can we hope that the entrance of this country into the struggle will induce an early peace. More arrogant, more desperate than ever the German Government puts forward its impossible claims upon the rights and life of humanity.

Our Government in its growing need is calling upon us to give up our luxuries, is curtailing the lives of our soldiers, is controlling trade, labor, and prices, with an ever increasing earnestness and firmness of purpose.

The test of our personal strength of character and determination is at hand. Your Government pleads with you very earnestly to preach and practice both before and during the next Liberty Loan Campaign a steadfastness of purpose, an unselfish patriotism, which shall reflect the spirit of a man who having set his hand to the execution of a necessary task would rather lose that hand than draw it back. This is the spirit of our President, of our Allies—it is surely our own.

For Indigestion.

For a severe attack of indigestion there is nothing better than hot water and soda. A cupful of hot water with a teaspoonful of soda in it should be taken as hot as can be swallowed. The remedy can be made even more effective by adding a few drops of essence of peppermint to the hot water and soda. This makes a very powerful "soda mint tablet" indeed. If that indigestion is accompanied by slight nausea, aromatic spirits of ammonia often gives relief. Put half a teaspoonful in a third of a glass of water. This can be repeated at the end of half an hour if necessary. Sometimes the dose is more efficacious if given in half a cupful of hot water, instead of the smaller amount of cold.—Exchange.

Charcoal Made in Dominica.

Charcoal is much used in Dominica, probably because there is plenty of cheap labor to burn it. Most of it is made far up the rivers and brought down then in heavy native dugout canoes. The charcoal is first packed in little bark baskets about the size of a strawberry basket. Several hundred of these are then loaded upon the beam and tied down with some sort of fiber—a man takes his place in the stern and the craft starts on a long journey and the rate of perhaps a mile an hour. To an American it looks as though it must have taken a week to pile up the load, while a breath of wind might knock it all in the water, but the cargo always seem to arrive safely at port.

Gladly furnished upon application

Any erroneous reflection upon the character or standing of any private individual, firm or corporation, will be gladly amended if brought to the attention of the publisher

Says a father of a small family to us, "My boys and girls do not leave the door yard after seven o'clock unless especially detained." We know of others that adopted that same rule years ago and their sons and daughters are today a credit to the town and community. There is nothing elevating in a street education.—Ex.

The following is a very truthful remark: "The man who grows up in his native town is regarded as a boy by his elders until he is well started down the declivity that ends in a hole. The stranger who comes to a place is more often pushed to the front than the young man who has grown up with the town. This is why so many young men become dissatisfied with their home surroundings and long to cast their lot in other quarters.

With the closing of school a number of boys, from 12 to 15, are to be seen on the streets at any hour in the day and far into the night. Only this week we tried to employ a boy for some odd jobs, he said he didn't like that kind of work. With the scarcity of labor any boy could get employment and should be made do so. We know two boys 8 and 11, who are filling a man's place riding a go-devil. They are being given an opportunity to become useful citizens. On the other hand if the boy loafer becomes a good citizen it will be in spite of environments.—Abernathy Breeze.

It was developed at the recent investigation of the German Alliance which was forced to close out its business in the United States, that it was very much interested in Jim Ferguson, and as there was much evidence brought forth that showed that disloyalty, and the use of German propaganda, it puts Farmer Jim in a very uncertain light, in that it meant to use him in Germanizing Texas through her schools and University, and it is a well known fact that Jim did not have much use for the University any way. It is better to kill the public career of half a dozen men like Ferguson, than to put into public trust a man whose loyalty might be questioned.

President R. E. Vinson of the University has received a statement from the commanding officer of the Coast Artillery Training Camp at Fort Moore, Va. advising him that the Officers Training Camp would open at that place on June 6. The course of instruction at the camp will last three months, and those who successfully complete the course

will be given an officer's commission in the Coast Artillery branch of the army. Men who have received scientific training in technical and electrical engineering will be given the preference. Those under 21 will be admitted to the Training Camp provided they demonstrate unusual ability and maturity.—U. of T. News Letter.

Some of the Ferguson papers (and there are very few of them) are making a great ado because Women are introducing Jim Ferguson at various points. They look upon this as an indication that the women are for Jim. They refer to Burnett and Sweet water and Colorado as examples where women introduced the candidate. Now we know from personal acquaintance with the feeling at Sweetwater and Colorado regarding Jim, and we know that if he does not run any stronger over the state than at these last two places he will not know that his name is on the ticket. The women of the west as well as the men are not strong for Ferguson, and you may just put that down on your note book. He will be gloriously snowed under in West Texas. This part of the state is for cleaner politics and they know Jim well enough to know that he is not the boy to do the house cleaning, hence they will not give him the job on the Texas pay roll.—Lubbock Avalanche.

Yes and the women who read, and they all do, still remember that it was former Jim that led the fight against the Woman Suffrage plank in the Democratic National Convention at St. Louis, in 1916. Jim will find the majority of women are not so blank and forgetful after all.

Atty. J. S. Kendell and family of Monday, Texas, arrived here last week, and Mr. Kendell will enter the practice of law, having taken charge of the office of Chas. C. Triplett, for the duration of the latter's stay in the State Guard, into which he recently enlisted. Mr. Kendell is occupying the house recently vacated by J. F. Winston and family.

FRENCH CHILDREN SAVED BY RED CROSS IN FRANCE

How the Red Cross carries on its humanitarian work in France is illustrated in a cablegram received a day or two ago from that country.

At Evian the Red Cross opened a children's dispensary in the garage of an old hotel. It is known as the American Children's Hospital. Ten days before a general hospital was opened at Evian with 70 beds. It is already overcrowded with cases of diphtheria, measles, scarlet fever and whooping cough. American doctors twice daily examine an average of 250 children arriving from behind the German lines and send contagious cases to the American hospitals.

Every contagious case thus stopped may mean that an epidemic will have been prevented somewhere in France.

An American dentist opened a dental dispensary in an old hotel at Evian, using a chair improvised from wine barrels. His first patient was an underfed boy from Lons. The boy's family of seven had been living two years and a half in the cellar of their home, which had been wrecked by the Germans.

Children as Red Cross Workers.

Children in the public schools throughout the country are to help the cause of the Red Cross. Many of the simple articles and supplies needed in the hospitals will be made in the ordinary course of their school work, and this material contribution to the comfort of our soldiers will be of great importance.

Right now—today—is the time to help. Have YOU joined the Red Cross?

Stay in.

She—"I'm actually ashamed to go on the street with my shabby clothes." He—"And mine are so worn out that I'm ashamed to wear em out."

THREE NEW NATIONAL FORESTS

President Wilson has issued a proclamation establishing three new National Forests in the East—the White Mountain in Maine and New Hampshire, the Shenandoah in Virginia and West Virginia, and the Natural Bridge in Virginia. Each Forest represents the final step in carrying out the law passed by Congress in 1911 providing for the purchase by the Government of forest lands on the watersheds of navigable streams. Additional lands have been purchased in the White Mountain and Southern Appalachianians will be proclaimed National Forests as their circulation reaches a point justifying the step.

The Russian Peasants.

The taking over of some of the czar's landed possessions recalls the fact that Albert J. Beveridge, in his book, "The Russian Advance," published a few years ago and in which he gathered political, social and economic facts, states that even then the Russian peasant was looking forward "to a second emancipation, giving them new additions of land absolutely and without any cost whatever to themselves." When the peasant ceased to be a slave he did not comprehend that he was still not free to use his master's tools or to cut from the landowner's forests timber for his use. "The most curious situations," says Mr. Beveridge, "are even yet arising, growing out of this inability of the peasant to comprehend the obligation as well as the benefits of his emancipation. Liberties are taken by the Russian peasant with the property of a Russian proprietor which would not be tolerated for an instant by an American in the same situation. In all of this there is not the slightest impertinence, not the least intention to wrong the landed proprietor, nor the faintest conception on the part of the peasant that there is anything immoral in what he does. He or his fathers did the like before, and he just continues to do the same as a matter of course."

New Medical Marvel.

Of all the remarkable medical innovations, probably the most marvelous is a new antiseptic solution perfected after ten years' work by Dr. Wilfred Fralick of New York; Dr. Oscar Eckstein of the University of Berlin, and Dr. A. C. Allen of the University of Chicago.

It is superior to the famous Carrel-Dakin solution because, in addition to everything that preparation can do, it can be used on the brain and in the abdominal cavity and can be injected directly into the blood without danger.

The last named quality makes it of startling significance in the treatment of blood poisoning.

While to put the Carrel-Dakin solution into the veins of a patient would mean certain death, the new preparation, a chlorinated solution of permanganate of potash, can be run directly into the blood stream without disturbing anything there except the evil elements meant to be attacked.

The Smile of Serenity.

"That man is surely an optimist." "How do you know?" "He smiles continually." "Maybe he's an optimist and maybe he's a diplomat."

Not Quite.

He—"That scene quite took my breath away." She (tartly)—"Well, you had it with you when you came back after the act."

YANKEE DOODLE

(New version of Yankee Doodle)

Old Kaiser Bill one summer day
Was feeling kind of breezy,
Said he, "I guess I'll lick the world,
I think it will be easy.

CHOROUS

Wallop him with peas and beans
Past him with potatoes,
Hammer him with cabbages
And soak him in tomatoes.

And then this chesty Kaiser Bill
Conceived another notion—
He built a thousand submarines,
And thought he owned the ocean.

"No ships with food," said
Kaiser Bill,

"May come across the water,
My submarines will send them
down
To Davy Jones' locker.

"Friend Bill," said Uncle Sam-
uel.

"That's going pretty far, sir,
And if you try a stunt like that
You'll surely get in wrong sir"

Then Uncle Sammy fill a ship
With flour and beans and lum-
ber.

A submarine let drive at her
And blew her all to thunder.

"All right" said Sam, If you

want war,
"By gum, you'll get your fit
Sir;

I'll call two million fighting sons
And make you take your pill,
sir."

And now the boys are coming in
From Maine and Minnesota,
From Iowa and Idaho,
From Texas and Dakota.

They're practicing with aero-
planes,
With guns they're getting
handy—

They'll teach the Kaiser not to
fool
With Yankee Doodle Dandy.
Berdie Grahn.

WATCHES: Largest assort-
ment, greatest value, best prices;

HUNT FOR WAR TIMBER

The War Department and the Forest Service are aiding the Boy Scouts in efforts to find black walnut timber needed for airplane propellers and gunstocks following President Wilson's appeal to the Scouts to locate supplies of the "Liberty Tree." Special report forms have been prepared for use of the Scouts who will submit them for tabulation to the Forest Service, which in turn will report the results to the War Department. The bulk of the standing black walnut is said to be in farmers' wood lots in the Middle West, the Middle Atlantic States, and the Southern Appalachians, and it is mainly these sources that the Scouts will comb in their search for material.

ECLIPSE OF SUN JUNE 8TH

We will have an opportunity to witness an eclipse of the sun about 6:30 p. m. June 8th a natural phenomenon which the present generation will never see again.

This will be almost a total eclipse, ninety three per cent of the sun's rays being shut off from view by the moon coming in between the sun and the earth. The darkness will last about one hour, after which the sun will throw its light upon the earth for a short time until sunset.

The last eclipse of the sun occurred in the summer of 1908.

IS IT ANY WONDER

Is it any wonder that there is no more respect for law and order in Texas? When a man whom every body knows ought to be in the penitentiary can run for governor, and stand a show of being elected by the people of Texas, can one have great respect for their verdict?—Quanah Tribune-Chief.

THE FARMERS' WAR

Let us think for a while how the War concerns the farmer.

We went to war with Germany partly because the rulers of that country refused to let us send to Europe our ships laden with grain and cotton. They sunk the ships and cruelly murdered our sailors. Now suppose we allowed them to stop all our shipping, where would you be? None of your goods would be sold in foreign countries, with the result that you would get nothing like the prices which you get today. This war is being waged partly that you may obtain fair prices for your goods.

What is going to happen if we lose this war? Prices of farm produce will drop; the Germans will impose taxation upon you which will cripple you for the next twenty years. Worse than that, if the Germans get over here, they will treat you in just the same way as they have the farmers of France, Belgium and Italy. In these sections farm houses have been shot to pieces, crops wasted and burned; even fruit trees chopped down, the cattle stolen, the men sent into slavery to work for German masters, their women ill-treated in ways that cannot be talked of in print, their little children have had their hands chopped off in order that they may never fight or do any more useful work again.

You may say "such things will not happen here." They said this in France, in Belgium and in Italy. Such things will happen here just as sure as you are alive, unless we smash the Germans so utterly that they are unable to reach this country. The German fleet and the German army will take just one week to get here if we are beaten. They have made up their minds that America shall pay.

Is there a farmer who will stand forward now and say, "This war does not concern me."

You have money that you do not need at present. Loan it to the government at good interest; when you want the money back again, you can borrow on your bond, or sell it. Uncle Sam will take care of your money until you need it and pay you interest on it.

Go and buy a Liberty Bond tomorrow.

The Banks have some Bonds on hand. They are holding them for people like yourself.

Don't be a slacker, and don't fool yourself with the idea that you are so far away from the war for it to hurt you. Remember 1914, when the Germans upset the world's shipping, and you took what you could get for your products.

Think of the twenty years starvation prices ahead of you, in case we are beaten.

This is your war, and if you won't get in it you deserve to lose your American Citizenship.

Call in at the bank tomorrow, and talk it over.

Nothing to Speak Of.

"Have you taken anything for your cold?" asked the doctor of a long, lank, hungry-looking man, who came to him complaining of being "all run down," his appearance verifying his words.

"Well, I ain't bin takin' much o' anythin', doctor—that is, nothin' to speak of. I tuk a couple o' bottles o' 'Binkham's Bitters' a while back an' a couple o' 'Quackem's Invigorator,' with a couple o' boxes of 'Curem's Pills,' and a lot o' root bitters, an' quinine my old woman made up. I've got a porous plaster on my back and a liver pad on, an' I'm wearin' a 'lectric belt, an' takin' quinine an' iron four times a day, with a dose or two of salts every other day; 'ceptin' for that, I ain't takin' nothin'!"

LEST WE FORGET

Just to keep the record straight Senator McNealus, editor of the Dallas Democrat, sets forth the following facts from the proceedings of the Ferguson impeachment case.

"There exists a deal of misapprehension as to the official acts of which Mr. Ferguson was convicted by the state senate, and the overwhelming vote against him in that body. Of those who voted to impeach Mr. Ferguson, eight of them had made speeches in his favor during his two campaigns. Of the four that stuck to him, despite his proven guilt, two long ago declared for Hobby for governor in the pending campaign.

"Required a vote of two-thirds to convict on any count; and following is the vote for and against impeachment on various charges. Majorities were given against him on three other counts:

"That the governor misappropriated \$5,600 of Canyon City Normal fund to pay his personal debt—27 for impeachment, 4 against.

The governor profited by the deposits of the Canyon City fund which belonged to the state—26 for impeachment, 4 against.

"That the governor derived a profit from the state funds deposited in the Temple State Bank contrary to law 24 to 7.

"That the governor, assisted in deposit of \$259,000 state funds in the Temple State Bank instead of the state treasury as the law required—26 to 5.

"That the refusal of the governor to tell who loaned him \$156,500 in currency constituted official misconduct—27 to 4.

That the governor in 1916 directed the adjutant general's fund to pay for the the Canyon City Normal, to take the place of the place of the \$5,600 which had been used to pay his personal note and interest—27 to 4.

"That the governor induced the Temple State Bank to loan him more money than the law permits, altho he was sworn to enforce the law—29 to 5.

The governor sought to coerce the board of regents of the State University into following his autocratic will—22 to 9.

"That the governor violated the law by seeking to remove regents without cause—22 to 8.

"That the governor remitted a \$5,000 bail bond of Wilbur P. Allen, Chairman of the University of Texas board of regents, to influence his action—21 to 10."

This is the record. The impeachment court which voted these findings is the court of last resort in such matters, under the constitution. And that court decreed that Mr. Ferguson be removed from office and be barred from ever holding office again in Texas.

Money to Loan on Patented Land, good terms, 10 years Brownfield Land Co.

Jot Ackers was here this week from some of the eastern counties to begin the improvement of a section in the Groves community that his father recently purchased from Mr. Joyce. They will also purchase some land closer to town, on which they will build their home. The father and family will be up before long.

GOMEZ

Mij, Inquisitor Phosib, Compiler

Permit me to make an explanation before going any further. We are only asking for a continuation of the space which has been given us for the last many years because we feel like that that there are some things happening here yet would be of interest to the readers of the Herald. However we wish to say that though our efforts to report from here will be put forth to the utmost to make good and then we cannot hope to be the correspondent that West Wind made the people of Gomez. We are hoping that we will live and live as she did, and by practice in the work to become as good as possible and give to the readers of the Herald some things of interest to read about.

A. P. Moore received a wire from Tatum N. M. Sat. that one of the children of Early Key was seriously ill. He and Miss Jewel Key went to Tatum Sat. afternoon, Mr. Moore returning Sunday. He stated that he left the child doing very well. Miss Jewell will stay for several days.

Leslie Surginer and family of Floydada, is visiting Bob Snodgrass and other relatives this week.

Mr. and Mrs. Randolph and children made a trip to Merkel Saturday returning Tuesday. Guss stated that he had pulled mud for two hundred miles, which sounds good to a dry people like we have been.

Miss Madeline Wyatt of Tahoka is visiting with Gomez friends this week.

The Red Cross is preparing a play to be put on at a later date, the proceeds to go to the Gomez Auxiliary. Look for the announcement through the Herald at another date.

Ye Compiler is giving the inside of the schoolhouse a new coat of paint which will add very much to the looks of the building and will be in accordance to the state requirements for state aid.

The singing Sunday night at Tom Glover's was enjoyed by every one who attended.

Mrs. Luther Jones, of Lockney is visiting with Mr. Sam Jones and family.

Mr. Charley Moore left Wednesday for Orange Texas, where he has a position in the shipyard

at that place. Mrs. Moore and children will go later.

Houston Shepherd hied away to Plainview, Texas, last Sunday and brought back a beautiful young lady, which he introduced as his wife. They were married Sunday, and the young lady was a Miss Kaiser. And now Gomez people are bragging that one of her young men captured the Kaiser. Anyway, we all heartily welcome her to Gomez, and offer hearty congratulations.

Misses Elizabeth Whitaker, Minnie Lee Cardwell, and Lona Brooks started to walk into Brownfield from here Tuesday afternoon and got caught in the big rain.

The little Copeland boy that got hurt last week is reported better.

(Compiler starts out good and strong, and we only hope he will keep up the good start regularly week end and week out. Of course West Wind was an exceptional country newspaper correspondent, but where there has been one, another can be developed: There would be a great amount of real good news each week going to waste in and around Gomez without a writer from there, with her splendid school and good church community, we must not permit waste these days. Come each week, Compiler.—Ed.

RED CROSS WAR FUND TOTALS \$166,479.291

Washington, June 2.—The American Red Cross second war fund now totals \$166,439,291, with indications that it may reach a \$70,000,000 over subscription of the \$100,000,000 goal.

In announcing the figures Henry P. Davison said the returns show more than 47,000,000 Americans contributed. Those giving to the fund last year numbered only about 5,000,000.

Not only did every Red Cross division in the country oversubscribe, but one—the Gulf turned in more than three times the amount of its quota, while five others—the Atlantic, Mountain, Northwestern, Southern, Southwestern—more than doubled their allotments. The insular and foreign division quadrupled its \$300.00 quota.

Jake Johnson has moved to the Holt residence.

China's Need—Publicity.

If the Chinese people are awake to their opportunity, they will take a leaf from the book of Japan and establish a publicity organization at home, and, better and more useful than that, they will send to the United States a few men who can, by lecturing, speaking, writing and otherwise getting before the public, establish a Chinese propaganda. All the United States needs is to be informed about China, and who should inform them if not the Chinese? The cost would be negligible, and the results incalculable. China needs the right sort of publicity, and needs it more than any other nation in the world. If China does not take steps to put herself and hold herself before the world in this regard China need have no hope for the future, China is done, for no country will voluntarily take up the cause of China—no people. They must be made to think about China—made to! Otherwise they will never think, nor care.—The Far Eastern Review.

Greater Than Gunpowder.

The European war has proven that gasoline is greater than gunpowder. When the German army rushed through Belgium and were almost within sight of Paris thousands of motor vehicles rushed troops to the aid of the French army, turned the tide and made possible the victory of the Marne. We know that Verdun was saved by the timely use of a great fleet of motor trucks. New York's gasoline army of 318,000 cars and over 110,000 professional drivers will be an important asset as an arm of the national defense, says a New York automobile man.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly . . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three . . . I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children . . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.
