WHAT TEXAS UNIVERSITY IS DOING

Austin, Texas, Sept. 9—The war activities of the University of Texas have progressed until they are now far greater than any other educational institution in the United States. This statement is born out by the official records of the universities and colleges in the matter of training men for the army. President R. E. Vinson of the University since the declaration of war, has devoted his time and energy constantly toward building up a military training establishment here. Many of his ideas are along these military educational lines have been adopted by the War Department, and are now in practice by educational institutions over the country. It is stated by Dr. Vinson that not

withstanding the big scope of its military schools, all departments of the university will soon be open and conducted as usual at the coming regular session. There may be a modification of re-adjustment of some of the courses to meet existing war conditions. The constructive ideas of Dr. Vinson which paved the way of the establishment of the different military schools at the University, with the hearty support of the Board of Regents of that institution. He devised the plan by which an expenditure of nearly \$1,500,000 will have been made for building and equipment for these military schools reimbursement for this expenditure to be obtained from the Federal Government by the feeding, housing and instruction of the students by the University.

The latest addition to the mili-

A UNIVERSITY BUILDING AND RADIO STUDENTS

tary vocation schools of the University will be situated just south of Austin, upon a tract of 310 acres of land, where there is being erected an administration building, six barracks buildings

and a mess hall. All of these will be of brick construction of permanent type. They will be occupied by the Radio School which the University is now conducting. Besides these buildings

four hangars for air planes will be erected. The cost of the improvements will be approximately \$450,000, it is stated. This will be born by the University which will be reimbursed later by the Government for the outlay. The Radio School of the University was established several months ago and has been conducted in the Engineering Building of that institution. When the new plant is finished the attendance will increase from 400 to about 4,000 and the course of training will be enlarged.

In addition to this war work, the University recently completed the construction of a number of barracks buildings, administration on building, mess hall, shops and lecture buildings at Camp Mabry, Austin, for the accommodation of the school, of Autom-

GIN MACHINERY HERE

A fifty foot furniture car came in this week with the gin stand etc., for the West Texas Gin Co., direct from Birmingham, Ala., as Mr Vaughn, the construction manager said he liked the Birmingham products better than the Dallas products of the same company.

So it will not be long now till the big whistle will tell the farmers of Terry county, and the Brownfield trade territory in general, that the best gin in west Texas awaits their commands. This company usually puts up the best gin in town wherever it goes, but seems to have out done its self in Brownfield.

LOOKING FOR OIL

S. M. Hester, A. D. Payne and Rob E. Downy have organized a company to drill for oil and have leased several thousand acres around Cedar Lake in Gaines county. Geologists' reports are decidedly flattering. The company will be capitalized for \$100,000 fully paid up, and as soon as the charter is granted a limited amount of stock will be offered for sale and actual work will begin. Several companies had representatives in the field securing leases but the Abernathy company got the choice land in the Cedar Lake field. Operatives in the proven fields are discussing Cedar Lake as a possibility.—Abernathy Breeze.

SHEEP IN TEXAS PAY

County agent T. C. Cobb of San Patricio county, reports a demonstrator who has demonstrated that sheep in Texas pay. C. M. Porter of Marth's, Texas from a flock of 96 head sheared 841 pounds of wool for his spring clip. These sheep are full bloods of the Ramboulett breed, and offer another proof of the profit in pure bred animals over grades.

The Government has not asked any body, except the boys in khaki and the fathers and mothers of those boys to give anything up to this time. The boys have been asked to give their life's blood and the parents have been asked to give up those manly boys, the pride of their hearts. No one has been asked to give money. The government has only asked that you loan it your surplus money and will pay it back to you with interest. So where does your kick come in? Any man who is allowed to remain here with his family—with

out sending a son into that hell across the sea, and complains at his lot, he is too contentible to be respected by loyal liberty neighbors. Yet most of the complaining is heard on this side and from people who haven't a loved one in the service. Every such person should be transported to the front lines and allowed to feel the hot lead and the cold steel and to breathe a little of that mustard gas. We guarantee it will work a permanent cure.—Celina Record.

MAIDS AND MATRONS

This club met at the first regular meeting Sept 3rd with Mrs. Dick Brownfield.

The following new officers were elected:

Mrs. Randal, president; Mrs. Brownfield, vice president; Mrs. King, secretary; Mrs. Stricklin, treasurer; Miss Daugherty, Parliamentarian; Mrs. Brownfield, Mrs. Bell, press reporter.

Quite an interest and enthusiasm was shown in the work for another year. The subject for study will be European History. The Club decided to move the Public Library to the Brownfield Mercantile.

The club will meet Tues. Sept 17th promptly at 3 o'clock with Mrs. Will Adams. A full attendance is urged as matters of importance will be attended to.

MARRIED

Another couple of our popular young people surprised the town Sunday evening by deciding it was just as cheap for two to live as one, and so license were secured for the marriage of Mr. Theo Smith to wed Miss Ila Holt, and the Methodist pastor tied the knot.

Theo is the eldest son of Mr. and Mrs. M. A. Smith, one of our popular grocers, is a boy of good intelligence, refinement and integrity that goes to make up an ideal young man.

Miss Ila is one of those rare beauties, that has made Terry famous, and she has been brought up by one of those western mothers that turn out such ideal housewives.

The Herald joins their many friends in extending congratulations.

A LETTER FROM CLIFTON BARRIER

Camp Dix, N. J.
Sept. 5th 1918

Dear Mr. Stricklin:

Have been getting the Herald regularly and sure do like to see the little package held up and my name called. I can tell it is for me every time without their calling my name.

Have been at Camp Dix a week and have scarcely had time to ask you to change my address to Co. A. 134 Inf., Camp Dix N. J.

Wish I had some of those fancy elbertas you spoke of in the last issue of the Herald.

The paper sure looks good to us boys the last two weeks, but just wait until the 34th divi-

sion gets over. It will make your mouth water to be in the game.

Be sure and keep the boys there on the right trail until I get back.

Keep the paper coming regular and you will keep Clif in the army with a bigger heart.

With best regards to you and family.

Yours truly,
Clifton Barrirr.

WILLIE ADAMS SERIOUSLY HURT

While breaking a horse for Gus Randolph, Wed. afternoon, late, the horse pitched into a wire fence and fell on its rider, Willie Adams, the 17 year old son of Mr. and Mrs. Orel Adams, of Gomez, and for some time it was thought he was dead.

Dr. Treadaway hastened over there, and after close examination, said his skull was fractured about five inches on the left side, and advised taking him to the Lubbock Sanitarium.

A message from Lubbock yesterday, was to the effect that he was resting well, but still unconscious and that Dr. Ponton agreed with Dr. Treadaway about the fracture. He will not be operated on until he gets over the shock, and not then, unless it is necessary.

NEW INDUSTRY FOR BROWNFIELD

We saw some darymen busy unloading an emigrant, car yesterday, and went out to investigate. We found that it was Mr.

Gaines Pierce, of Snyder, Texas, unloading an up-to-date vulcanizing and retreading outfit, which he is installing in the Brick Garage.

This outfit took care of all such business in a place like Snyder, before that town blowed up with drouth, and is complete in every detail.

This will mean more families and more payrolls in our little city, which is now attracting the investor from every corner of the good old U. S. A.

Watch for their ad.

E. W. Maddux brought us a fine mess of "roaseners" as State Press calls them, all the way from Gomez. Thanks friend; we think with plenty of good old corn on the cob for dinner and supper, and oats for breakfast we ought to be able to put on a little flesh.

Nearly everyone who has a friend or relative over seas, heard from them Monday, all wanted to know how the other fellow's soldier boy was getting along. Their cheerful letters enthuse us and we should be careful not to give them the tear stuff from

home. Write cheerful letters to them; they have enough of the other stuff to contend with. One of the boys wrote that while he didn't know anything about the matter, he would either spend Christmas in Berlin or Brownfield. We hope he is right, but it don't look altogether that good from this distance.

KNEW THE RED TRIANGLE

Her dress and her features testified that she was of Italian birth. The little blue stars beaming from a tiny enameled pin showing between the folds of her shawl testified that she was a true American mother.

She trudged along the hot and dusty Texas road which connects Seabrook and League City. She carried a suitcase and three large bundles. The loud clanking of a Ford sounded behind her and she drew to one side.

The car stopped. Private Dowd and 'Y' Secretay Mundy were the only occupants. On the windshield was printed a red triangle bisected by a strip of blue with the letters Y. M. C. A. Private Dowd jumped out and asked her if she would care to ride. She couldn't understand him.

Suddenly she saw the emblem on the windshield. Excitedly she pointed to it.

"I no speaka Engaleesh vera good," but I knowa heem!"

As they helped her into the car and lifted her bundles for her, they could scarcely make out what she was saying. When she at last was seated, she began fumbling in her purse, and finally got what she was looking for. It was a letter. In the corner of the envelope was the Red Triangle of the Y. M. C. A.

"I gotta two boys over in France she explained. "I see the same thing on the car what lies on the letter. I writean' tella my boys that he is vera good to their old mother."

W. M. Souther left Monday for Dallas to visit his daughter.

As he promised us three weeks ago, that he was going straight home and load his car for Brownfield, J. W. Collier and family came in Monday, and his two larger boys and another young man are coming through with two wagons. The stock and household goods came through in an emigrant car. Mr. Collier informed us that his cotton crop at Rochester, Haskell county, got about two inches high and his feed stuff about a foot high, when the hot winds scorched it to death and he turned his stock in to keep them from starving, and this is about like most of the pitiful stories that come from that country. Oh! if all west Texas had only made a crop this year but it didn't. He had a 250 acre farm down there, which he has rented for another year, and he will improve his place northwest of Gomez.

Mrs. A. W. Enderson and baby accompanied by her cousin Miss Lola Watts, who has been visiting Mrs. Enderson this summer, left Tuesday for the home of Miss Watts, at Temple, Texas, for a visit.

CALL MEETING

All those who are interested in having a fair this year will meet at the Court House Saturday afternoon at 3 p. m., to discuss the matter. Let a representative bunch of Terryites be present, and let's show the world what Terry county is doing this year.

A stranger remarked in our presence one day this week, that Terry county was now one of the best advertised counties in west Texas because it produced a good crop this year, being one of the few in all west Texas, and he admitted that he never heard of Brownfield or Terry county scarcely until recently.

Every train is bringing in loads of prospectors and grass hunters and the public highways are burdened with passengers coming to Terry and Yoakum counties. Now lets show them with a fair that our renowned prospects are no put up jobs.

We have at least one progressive young farmer in Terry county, even if his dad is a cow man, pure and simple, and that is Arthur Scudday, who lives out near Tokio. We saw a fair sample of his broom corn this week, which people who know broom corn will class A1, and will bring between \$300 and \$400 per ton. He has about ten acres in and will get two and one half tons off the ten acres. This crop alone will net this 15 year old boy around \$800. Come to Terry.

The Woman's Club will meet in the Court room Friday afternoon Sept. 20th at 5 o'clock. The members are all urged to be present. Mrs. J. E. Shelton, president.

Just 254 men and boys between 18 and 21, and 31 and 45 registered in Terry County, yesterday, as follows: Brownfield 177; Gomez; 34; Meadow 13; Scudday 10; Tokio 12; Harris 3 and Dummas 5.

FOR SALE: Four room house in east part of town; good location; new house and barn. See Homer Ingle for particulars.

For the benefit of Bro. Stricklin of the Brownfield Herald we will state that upon our recent visit to his fair city it was at the hour of 12 on a peaceful Sunday when the populace was at church and the only person we saw was a mild eyed gent who dispenses gas. We would enjoyed fraternizing with the Herald editor.—Abernathy Breeze.

The restrictions are more lenient on the purchase of flour. You can now buy all the flour you want to (if you have the cash) but you must buy also twenty percent of substitutes and after the present supply of flour on hand is consumed you will not be required to buy substitutes, for it will already be mixed with the flour.—Slatonite.

UNIVERSITY OF TEXAS CONCLUDED

Automobile Mechanics which is conducting for the Government. These buildings were erected at a cost of about \$500,000, and plans have just been adopted for the enlargement of the School by additional building and equipment which will cost about \$130,000. The attendance at the School of Automobile Mechanics is about 3,000 and it will be increased to about 6,000 when the new buildings are finished.

The University is also conducting a School of Military Aeronautics, with the attendance of about 1200, for the Government. It expended \$167,000 in building and equipment for that school. Advices just received from Washington are to the effect that the School of Military Aeronautics here is to be greatly enlarged. This may necessitate the erection of additional building by the University. The plant to cost \$20,000 is to be built at that school.

The University has also just taken over the Theological Seminary at Austin, and is converting it into a modern military hospital at a cost of \$100,000. Besides its other war work, the University will conduct a Students Army Training Corps, beginning with the opening of the regular session of that institution. More than 2700 students and former students and about 50 members of the faculty of the

University are in the army. Most of them are already in France. Several hundred of these young men went through officers' training camps and received commissions as officers. (And this is the Institution that some of our great (?) politicians want to destroy.—Ed.)

RESOLUTIONS

God in His Wise Providence has seen fit to remove from our midst one of our most faithful members, in the death of sister W. Morman. The Tokio Sunday School has been called to mourn for one who was always at the post of duty, having taught for some time in the Sunday School. Her mission here is ended, her suffering over and she has gone to her reward.

As a Sunday School extend our sincere sympathy to the bereaved ones. We pray that God's sweetest comfort may be theirs. Let us walk carefully before God, not knowing how soon we also will be called to meet our eternal reward.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly . . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three . . . I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children . . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.
