## Daniel To Address Teachers Monday

Neal B. Dillman announces that in-service training for Muleshoe teachers will begin Monday, August 20, and will continue through Friday, August 24.

On Monday, August 20, the local TSTA will host a breakfast honoring the new faculty members in the Muleshoe High School cafeteria at 7:30 a.m. At 9 a.m., Neal Dillman will brief the faculty on general politics, new legislation, curriculum changes and other pertinent educational information.

Eddie Daniel, assistant director of MacArthur Academy of Freedom, Howard Payne College, Brownwood, will be the keynote speaker for the morning session from 10:30 until noon. Daniels topic will be "Whatever Happened to Gene Autry". The speech itself is a powerful portrayal of U.S. domestic and foreign policy, its ups and downs, successes and failures and its future. A brief comparison is made of the paths taken by the United States and the old film star, since World War II. The emphasis is not on the past however, but on the present and future, and the outlook is optimistic. The pathos, the humor, the drama and the conflict that is America will leave the audience breathless.

Daniel graduated from Brownwood High School in 1962 and entered Howard Payne Col-

lege that fall on an athletic scholarship. He was president of his freshman class and became a member of the Alpha Chi National Honor Society. He lettered four years in varsity football, was twice All-Conference, one All-Texas College and captained the Howard Payne Football team in 1965. He became President of Blue Key National Honor Fraternity, was admitted to 'Who's Who Among Students in American Universities and Colleges, 1965-66', and was chosen Mr. HPC in 1966.

He graduated sixth in his class in 1966 with a Bachelor of Arts Degree. He majored in the Douglas MacArthur Academy of Freedom, an honors program in the Social Sciences Division at Howard Payne.

In the fall of 1966, Daniel accepted an academic fellowship to Texas A&M University, and began work toward a Masters degree in the field of government. In January 1967, he became John Conally's liaison assistant during the 60th Session of the Texas Legislature. When the governor retired in 1968, Daniel returned to Texas A&M and graduated the same year with a Master of Arts degree in Government.

He then returned to Howard Payne College as an Assistant Professor of History, Assistant Director of the Douglas MacArthur Academy of Freedom, and Assistant to the Chancellor in Public Relations.

In 1971, he accepted an academic fellowship to North Texas State University and began work toward a Ph.D. in History. He returned to Howard Payne in September, 1972, having completed his course work requirements for the degree.

Ed Daniel is in constant demand as a speaker and entertainer, having delivered some 40 speeches a year, for the past three years, to colleges, civic clubs, teachers'

## Internal Operation Of Public Offices

Fifth in a series by Judge Glen Williams.

Another article in the Jaycee Creed reads "Service to humanity is the best work of life." That this is a true and timely statement will not likely be questioned.

Many years ago the Apostle Paul wrote "Inasmuch as I am the apostle of the gentiles I magnify mine office." Paul evidently labored to do honor to the office he held, rather

than to honor himself. Public service therefore should be rendered with a view to glorifying one's self.

Some public officials do wrong, and, as a result, there is much unrest in the land today, but the overwhelming majority of public officials and employees are honest, loyal, efficient, dedicated, and hard-working people. They have the same basic interests in life that others have - they want to live in peace, to rear their families in good surroundings, to earn a good living, AND make a contribution to the betterment of their communities. This is true on the local, State and National levels.

"Politics" should not be thought of as being a bad word, for, after all, government affairs is about the most important thing we have. No better service can one render than government service. And in the highest sense of the word, a good politician is a good person.

There are occasional misfits and apostates in all professions, businesses, and jobs - among doctors, lawyers, accountants, merchants, farmers, wage earners, politicians, journalists, ministers - all of them. But politicians, by and large, are no worse than the others. Probably no better, but certainly no worse. Thus we say that Bailey County is blessed with good officials and employees - men and women serving their community - and basically doing a good job. For a brief description of those jobs we now consider the internal operations of the several offices. While we cannot follow others around to see what they do, and such would never be given a thought, years of study, observation, and experience labors.

The four County Commissioners are Matt Dudley, Loyd Stephens, Bob Sanders, and Rudolph Moraw of Precincts one, two, three and four respectively. Each of these men supervise the construction, operation, and maintenance of the county roads in his precinct. Each of them have precinct barns where their machinery and equipment is garaged. The barn serves as a place for repair work, and as a headquarters from which they work each day. Generally speaking, the Commissioner gets up early in the morning and goes to the barn. There he consults with the operators, inspects the equipment, makes note of any repairs needed, and plans the day's work. Often the Commissioner will do this before breakfast. He will then return home where he will likely receive phone calls or visitors about matters that need attention - water problems, roads that need repair, county affairs that people are interested in - salesmen will call, or there will be something to claim his attention. He will have an errand to run to town, Lubbock, or somewhere, a meeting to attend at the Courthouse, or maybe he can help one of the other Commissioners in some way. No man can make a good hand in the field, or at a job, and serve as County Commissioner. On the other hand he cannot live on the salary he draws as Commissioner. So it is a difficult job. But it is a rewarding job, and men do it because they want to be of service.

The Commissioners help plan Farm-to-Market road programs, and are instrumental in securing right of way for such roads.

A County Commissioner is

Kathy Lambert was tried in District Court Wednesday before Judge Pat Boone, Jr. She was found guilty of burglary and was sentenced to four years probation.

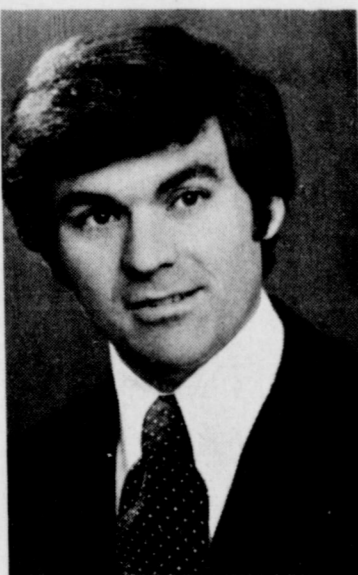

Two students from Muleshoe will receive diplomas from West Texas State University during the summer Convocation. Ceremonies are scheduled to begin at 8 p.m. Friday, August 17, in the Civic Center Auditorium in Amarillo.

Merced Puente, daughter of Mr. and Mrs. Roque Puente, will receive a Bachelor of Science degree in elementary education.

the closest to the people of any elected official. He knows the people, and knows conditions. He has his finger, so to speak, on their pulse. People therefore look to him for leadership, for direction, and for wise judgments. When a Commissioner expresses an opinion, it is well to listen. An aggressive and forward looking Commissioner can be as influential, and have as much voice, in charting the course of County government as any other official.

The County sheriff also fills a difficult position, and a highly important one. Dea Clements serves in that capacity. He has three deputies, two men for outside work, and one lady in the office. They also supervise the dispatching service, which is partially financed by the City. The Sheriff's Department works in close harmony with the city officers, Department of Public Safety personnel, constables, Fire Department, and ambulance services.

They have a teletype machine by which they can transmit or obtain information, such as license numbers, police records, physical descriptions, etc. with virtually no delay at all.

The offices are normally open from 8:00 to 5:00 each day, but officers are on "call" twenty-four hours a day. The sheriff is responsible for safe keeping of the prisoners, and is custodian of the jail. He arranges for the prisoners' meals, and medical attention when needed. He approves appearance bonds, and does probation work. Officers transport prisoners to prison, and travel to other places for prisoners who are being held for crimes committed here. They transport patients to the State Hospitals, and delinquent children to State Schools. They summon and mail cards for jurors, serve citations in law suits, subpoena witnesses for grand juries, and

for court trials, perform bail services for the courts, deliver death messages, locate missing persons, and run other errands of every conceivable nature.

In addition they have the regular duties of police work - answering calls when there is trouble, serving warrants of arrest, and investigating incidents of crime. They work traffic at public gatherings, football games, etc. and escort funeral processions. In all those things they enjoy cooperation from the other agencies.

Monthly reports regarding the teletype are required, and cards are made on all who are incarcerated, finger prints are made when needed, and photographs taken. An interchange of information between different jurisdictions requires considerable letter writing. Thus there is lots of office work.

A little boy recently said that "officers are to arrest people and put them in jail." To this we replied, "no, officers are not just to arrest people, in fact they don't want to arrest people, except when they HAVE to. Sometimes it is NECESSARY to arrest people - to get them off the road, to stop trouble, to protect society, and terminate law violations. Only THEN does the officer want to put people in jail. They much prefer NOT to arrest people. And if people would behave themselves there wouldn't be any arrests."

Thus officers spend much time counseling with people, and working out problems, so as to avoid future difficulties.

(Cont. from Page 1)

Her major is psychology. Coach Sam Davton announces that all seventh and eighth grade football players are to be present Sunday, August 26, at 2:30 p.m. at the Junior High gym for physicals.

In this way they do much good. The best cure for crime is to prevent it.

Officers are allowed to wear guns, carry black jacks, and other items of protection. And they should, for if they do not protect themselves they cannot protect the public. Law enforcement officers deserve the understanding and support of the people. For without that support they cannot do the best job. Young people should be taught to respect officers, not to fear them. They should be taught that officers are their friends. Any good sheriff would much prefer to assist an elderly lady in crossing the street, or to help a little boy or girl stay out of trouble - he would much prefer to those things - than to "put someone in jail."

Jean Lovelady is County Tax Assessor-Collector, and is assisted by two office deputies. The duties of this office are broad in scope, quite involved, and very exacting. Because of the nature of the office, they handle more money than all other offices combined. Most of their business is related to the State, or some other agency, so their books must balance, and their work must be accurate.

The Tax Collector collects every tax-payer and assesses his taxable property by listing it on a rendition sheet, at what she believes is its market value - using guidelines furnished by the Commissioner's Court. In the fall then, she collects the taxes from those individual tax-payers, which taxes are based upon the property rendered, and the valuation and tax rate finally set by the Commissioner's Court. She collects the County taxes. She collects the State taxes. She reports the State taxes to Austin, and the County taxes to the County Treasurer. This, within itself is a tremendous job. Some of the work is now being done by computer, which is better and cheaper.

The tax office also handles voter registrations. Registering voters, re-registering them, keeping the files current regarding those who move in, and those that move out, or from one precinct to another, furnishing voter registration lists to election officials, jury commissioners, and others that need them requires lots of work. And as time goes on it will require more. Jury panels, as dis-

ussed before, are made up from the voter registration lists.

The licensing of automobiles, trucks, boats, motorcycles, trailers, mobile homes, and other vehicles is done by the tax office. This means that the tax collector must see that titles or other papers furnished are in order, that they are properly filled out, the right tags issued, the correct fee collected, AND proper distribution made of the money. No small chore. There are permits to be issued, and various other services connected therewith.

The issuance of titles, and transfer of titles, and motor vehicles is another important function of the tax office. Titles are not actually issued locally, but applications are taken, old titles surrendered, affidavits executed, fees paid, and taxes collected. Then the title comes from Austin. But

the WORK is done in Muleshoe. It involves lots of work, and lots of money.

Thus, in the tax office, records are kept by all motor vehicles, on all registered voters, and on every piece of real estate in the County. Not but records sufficient to expedite the aforementioned services.

Tax Collectors therefore have a tremendously hard job - assessing and collecting taxes. None of us like to pay taxes, but let us remember, that without the Tax Collector we would not have county government. Consequently we would have no police protection, no public roads or highways to travel on, no courts to which we might resort - We would have none of those things that we so often take for granted. In the final analysis, considering the many services at our disposal, and the benefits received, it

is fair to say that we receive as much return from our tax dollars as from any dollars expended. If we don't believe this, let us build our own roads. Let us furnish our own police protection. Let us go to Austin for our license plates, or to transfer our car titles - or let us provide, at our own labor and expense, the countless other services that the tax dollar provides.

Viewed in this light it is readily apparent that collectively we can, and we do, provide many things for ourselves that we could never have individually. This is government. It is County Government. We can make it what we want it to be. Let us therefore make it the best possible.

We will discuss the functions of other offices in the next article.

# Kathy Boren Bride of Franklin Farley

Miss Kathy Lynn Boren and Franklin Curtis "Bill" Farley, Jr. were united in marriage Friday, August 17 at 7:00 p.m. in the First Baptist Church of Muleshoe. Elder William S. Hancock of Bartlesville, Okla. officiated in the ceremony.

Parents of the couple are Mr. and Mrs. Wilford Boren of Muleshoe and Mr. and Mrs. Franklin Curtis Farley, Sr. of Albuquerque, N.M.

The church was decorated in the bride's chosen colors of orange and white. A wedding arch entwined with English ivy and orange carnations was flanked by tree and arnate candelabras decorated in ivy and orange carnations. Miss Becky Sain of Muleshoe was organist with Mrs. Ramond Trieder Jr. of Lazbuddie as soloist. Music selections were "The Lord's Prayer" and "Whither Thou Goest".

The bride, given in marriage by her father wore a formal length gown of white silk organza with chantilly lace. A Victorian collar and bishop sleeves accented the gown. The A-line skirt featured a wide front panel trimmed with chantilly lace. The chapel train was also trimmed in same lace of the dress. The bride's veil was imported silk and chantilly lace which fell from a crown of seed pearls and bows. Her tranquility bouquet was made of white gardenias, orange carnations and baby's breath with streamers of seed pearls.

The traditional something old was her Rainbow Bible, which she carried under her bouquet, something new was her dress and veil; borrowed was an antique heirloom locket watch which was given to Mrs. Ru-

dolph Marow's mother in 1911; and something blue was the blue garter. The bride also carried a sixpence minted in 1930 which her father brought from England.

Maid of honor was Miss Edwina Gurvie of Ojo Caliente, N.M. Mrs. Bennie Joe Roberts of Friona attended the bride as bridesmatron with Miss Carlene Hohmann of Clovis as bridesmaid, Janice Matlock of Albuquerque, neice of the groom, was flower girl. All female attendants wore gowns of two shades of orange knit featuring long sleeves and empire waistline. They carried bouquets of orange and white carnations and baby's breath. The flower girl carried a white basket containing love knots in shades of orange.

Candlelighters were Teri Boren, brother of the bride and Mark Green. Jim Pearson of Muleshoe, Connie Chance of Seminole, and Kenny Frazier of Portales attended the couple as ushers.

Tom Watkins of Albuquerque was best man with John Matlock, the groom's brother-in-law and Ron Chansellor both of Albuquerque serving as groomsmen.

A reception followed the ceremony in the Fellowship Hall at the First Baptist Church. The table was laid with imported linens and hand drawn lace tablecloth. Centering the table was a silver candelabra and silver appointments. The three tiered cake was decorated with orange roses and cupid. Orange punch, mints and nuts were also served. Orange napkins featuring the couple's names engraved in gold completed the table decorations. Presiding at the table were

Mrs. Connie Chance, cousin of the bride of Seminole; Mrs. Jeanne Moore also a cousin, of Lubbock and Mrs. John Matlock, the groom's sister of Albuquerque. Mrs. Rufus Gilbreath also helped with the reception. Guests were registered by Mrs. Jim Pearson of Muleshoe.

For a wedding trip to Cloudcroft, N.M. the bride chose a pink shirtwaist dress trimmed with antique lace at the cuffs and forming a yoke in front. She also wore a corsage lifted from her bouquet and white accessories. Mr. and Mrs. Farley will be at home after August 28 in Keene, Texas.

Guests from Albuquerque, Portales and Clovis, N.M.; Pestersburg, Big Springs, Lubbock, Borger and Seminole, Texas; and Bartlesville and Bristow, Okla. were present at the ceremony.

# College-Bound Coeds

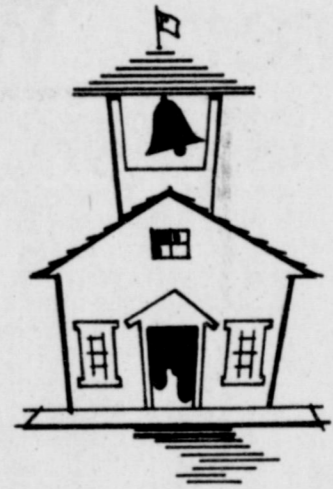

**EASTERN NEW MEXICO UNIVERSITY STUDENT . . . .** Miss Kathleen Jennings, the 18 year old daughter of Mr. and Mrs. James Jennings, will be attending Eastern New Mexico University at Portales this fall. She is pictured above refinishing a chest of drawers for her new 'home', Bernalillo Hall, one of the new high-rise dormitories at ENMU. Miss Jennings, a freshman music therapy major, lists her reasons for choosing ENMU as, "The music department is very well known as one of the best in this area and I also wanted to be fairly close to Muleshoe." She will be playing the french horn in the university's marching band, as well as attending classes and various other campus activities.

**BEHAVIORAL SCIENCE MAJOR . . . .** Howard Payne College at Brownwood is Miss Cassie Precure's destination this fall. She is shown at a local department store picking out a fall coat for campus wear during one of those many "last minute" shopping sprees. The daughter of Mr. and Mrs. Kenneth Precure, she will be majoring in behavioral science and minoring in music. Miss Precure chose the Baptist college because of "the quality of people attending, the fact that it is a small college and that it's located in a very nice part of Texas." A new member of the Howard Payne College band, she lists her hobbies as playing the piano and french horn, working with children and she states, "I really love to work."

**ENROLLED AT TEXAS TECH UNIVERSITY . . . .** Miss Christi Ford, the daughter of Mr. and Mrs. E.T. Ford, is pictured as she begins loading the family car with her belongings for the trip to Texas Tech at Lubbock. A 1973 graduate of Muleshoe High School, Miss Ford will begin classes at the university September 4. Although undecided about her major field of study, she will be taking courses such as spanish, mathematics, english, physical education and psychology. "A good atmosphere and a very good foreign language department," are the main reasons for Miss Ford choosing to attend Texas Tech. Her hobbies include swimming, sewing, reading and singing and she will be residing in Weeks Hall with two other local girls.

**BOUND FOR ANGELO STATE UNIVERSITY . . . .** The daughter of Mr. and Mrs. Clarence E. Mason, Linda Mason, 18, will be attending Angelo State University during the fall semester. A medical technology major, she chose ASU because, "I wanted to go some place that was different and the campus looks like a very nice place to live and study." Besides having hobbies of crocheting and sewing, Miss Mason says that she likes to travel and "just be around people." A 1973 graduate of Muleshoe High School, she is pictured here as she completes one of the many garments that she will wear on the campus of Angelo State.

**A NEW LOOK FOR COLLEGE . . . .** Miss Jennifer Davis, the daughter of Mr. and Mrs. Eldon Davis, is shown here with Mrs. Bettye Oliver getting some tips on makeup and over-all beauty care for her days ahead at the University of Texas Dental Branch at Houston. A dental hygiene major, she is one of approximately 45 women who are selected to attend the dental school. Her hobbies include public speaking and piano. Her selected academic program will last for two years and upon graduation she plans to make dental work a career. When asked about her decision on entering the dental field, she said, "My brother, who is also a student at the dental school, influenced me greatly and I think that this profession is a very promising one for young women."

# An investment in Your Future ATTEND CHURCH

"For where your treasure is, there will your heart be also"

## The RESPECTED WORD

The bible is a book translated into every known language. It is the word that men have died for, in order that it may be available to all men. It is the textbook for God's people.

The bible, itself, is not worshipped, but is respected, for it is the story of God and his relationship to man. It is man's guide for worship and daily living.

Attend church regularly, study, and seek God's will in your life.

*"I wait for the Lord, my soul doth wait, and in his word do I hope."*

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

**STATE CAPITAL Highlights AND Sidelights**  
 by Bill Boykin  
 TEXAS PRESS ASSOCIATION

**AUSITN, TEX.**--The biggest oil and gas lease sale on Texas public lands in a quarter century is scheduled October 2.

Land Commissioner Robert L. Armstrong said 1,348,610 acres in 1,712 tracts will be offered for lease consideration.

Most of the state tracts are submerged acreage in the Gulf of Mexico. Nine hundred and 40 Gulf tracts totalling 998, 610 acres have been nominated, plus 563 tracts in Texas bays and inlets including 267,678 acres.

Oil and gas firms and individual bidders offer bonus payments via sealed bids on leasing of the state-owned tracts for a period of five years to explore and develop minerals. Armstrong said a record high interest is indicated in potential oil and gas production on state lands.

"This will be the largest sale in more than 25 years," said Armstrong.

A sale involving nearly one million acres of land in 1965 brought more than \$39 million in bonus payments to the permanent school fund.

Armstrong said the current sale is doubly significant because leases will enable the state to take its one-sixth royalty payment in gas or oil instead of cash.

A court case is now pending to determine if this can be done on existing leases. The "in kind" provision, specifically allowing the state to take oil and gas as well as cash, will be written into the October bid propositions.

Armstrong said this will permit the state to offer cities the option of buying some of their natural gas directly from the state at fair market value.

**POLLUTION STANDARDS WEIGHED**--Differing state and federal penalties for water pollution control violations have stalled designation of Texas Water Quality Board as the agency to issue federal waste discharge permits in the state.

The federal government will study further authorizing the Board to issue "national pollution discharge elimination system" waste discharge permits under 1972 water quality amendments.

State penalties which apply to both municipalities and industries set a maximum of \$1,000 per violation daily. Federal penalties call for a maximum of \$25,000 a day per violation. TWQB Executive Director Hugh Yantis said the requirement that states have authority to impose \$25,000 daily fines was received after the 63rd Legislature adjourned, and he did not feel a special session was in order on the question.

Yantis argued that the Texas penalties do represent a substantial deterrent. He said it is "inconceivable that approval will not be given eventually to our state program." Yantis noted a \$125,000 fine levied against Armo Steel was "possibly the largest ever collected under any state water pollution law."

**SINGLE-MEMBER LEGISLATIVE DISTRICTS PUSHED**--First legal move in an effort to have eight more counties divided into single-member legislative districts was launched last week.

David Richards, Austin attorney retained by the State AFL-CIO, seeks authority for 10 individuals to intervene in a Tarrant County House redistricting case.

If the motion is approved by the three-judge federal court, judges will be asked to split Travis, Lubbock, McLennan, Jefferson, Nueces, El Paso, Hidalgo and Galveston into single-member House districts. Each of the counties

The city of Muleshoe will accept bids on a wheel loader to be used in the sanitary landfill until 9:00 a.m., September 4, 1973. Whereupon they will be publicly opened. Copies of bid documents and specifications may be obtained at the office of the city secretary, 215 S. 1st, Muleshoe, Texas, 33s-2stc

now has two or more representatives elected countywide. Richards claims this "unconstitutionally dilutes voting strength of racial and political elements.

groups, Chambers of Commerce, and high schools throughout the southwest. His addresses cover a broad range of topics involving Americanism, motivation, teaching techniques, or politics; and some are strictly humorous (all of them are tailor-made for the audience involved.)

Daniel was founder and first president of the Brownwood Optimist Club, which will host the 1973 State Optimist Convention. He was Youth Chairman of the record-breaking 1970-71 March of Dimes Campaign in Brown County and was Publicity Chairman of the only United Fund Campaign in the history of Brownwood to oversubscribe its goal.

In 1971, the Brownwood Chamber of Commerce named Ed Daniel the "Outstanding Young Man of the Year". Since then his credentials have appeared in "Personalities of the South" and "Two Thousand Men of Achievement".

He is an active member of the First Baptist Church of Brownwood, having served as Sunday School teacher in the high school department and as chairman of the Nominating Committee.

Dr. Lewis M. Abernathy, director of Manpower and Industrial Relations, Denton, Texas, will conduct a Career Education Workshop for all teachers from 1-4 p.m. in the high school cafeteria.

A major goal of public education in Texas is to develop economic and occupational competency in students. Meeting this goal means assisting young people to discover and prepare for satisfying, productive means of earning their livings.

Local school districts, therefore, are encouraged to develop and implement career education comprehensively from kindergarten through the 12th grade for all pupils and in all programs.

Fred Michael, Educational Representative, from Bell and Howell, will conduct a workshop on the use of the Language Master from 1-4 in the junior high library.

On Tuesday, August 21, from 8 until 4, William T. Nelson, Chief Consultant Technical Assistant from the Texas Education Agency, will conduct a Civil Defense Workshop. This short course is designed to help all school personnel to learn the best possible techniques of planning for protection in case of disaster.

On Wednesday, August 22, each principal will have campus in-service. At Richland Hills a Basal Reading Workshop will be conducted for grades K-3; at Mary DeShazo School there will be grade level meetings; at Junior High and High School there will be departmental meetings.
