LAST HOURS WITH WILLIAM HOWARD

Evacuation Hospital No. 1.
American E. F.
From L. O. Mather,
To Mrs. Howard, Brownfield,
Texas.

Subject: Wm. Howard, No.
2249195, Co. F, 359th Infantry,
Private.

Dear Mrs. Howard:
You must have already heard
from the army authorities of the
death of your son, William How-
ard, in this hospital.

I have just come here as the
Red Cross Representative and
though I was not in time to see
your boy before he died, I have
heard his nurses talk about him
and I want to tell you some of
the particulars of his illness.

He was severely wounded in
the left chest on Sept. 26th while

in action, was carried immedi-
ately to Field Hospital No. 30,
for a few hours, then was
brought here.

Everything was done for him
that could be done by doctors
and nurses. His injuries were
too serious however, and on Oct.
5th, at half past four in the
morning, he died.

His nurse, Miss Adeline
Brown, said he used to talk so
sweetly with her about his fam-
ily. He wanted his mother to
know he was glad to have been
with the boys over here, that it
was "all right" with him, that he
did not mind dying. He wished
his mother to have his \$10,000
army life insurance and his little
brother "Buddie" to have "my
saddle and all I've got". "Send
good-bye to them all and make
them surely feel that I am all
right". He sounds like the
dearest kind of a boy—I wish I

had known him.

He was buried the next day
in our hospital cemetery and
given a very impressive military
funeral. A cross marked with
his name and military connect-
ion is placed at the head of his
grave. Others were buried at
the same time and the Chaplain,
Mr. Billings, formerly of the
Groton School, conducted the
service. Afterwards a salute
was fired over his open grave,
and taps were sounded, once by
a bugler near by and again as an
echo by another bugler hidden
in the woods a little farther
away. It was a most dignified
and beautiful ceremony.

With our deepest sympathy,
Yours very sincerely,
Lucy Olcott Mather.
Home communication Service,
American Red Cross.

We ask you to read the Auto
Service Station in this issue.

A RED CROSS STORY--- THE TRUTH.

Last spring when the big Red
Cross drive was on in Terry
county, lots of us were dead
broke, and had to promise some-
thing later. You know there
were no crops in old Terry last
year.

J. A. Rushing of the Tokio
community happened to be one
of the broke fellows—or at least
he said so—but says he, I will
give the returns from an acre of
ground, but the incident was al-
most, if not entirely forgotten.

But he had not forgotten, and
Saturday came driving in with a
load of corn, good corn too, de-
spite the fact that Tokio suffer-
ed from drouth this year beyond
the suffering of any other com-
munity, there being ten bushels
or more on the wagon. Jno. B.

NOTICE TO FARMERS.

I have been authorized by the
Commissioners Court of Terry
County to issue this notice to all
who either bought feed, seed or
both, through the Commission-
ers last spring to come in at
once, and make settlement. This
is urgent.

The Commissioners Court was
good enough to stand by you in
need, and now you can return
the favor by a prompt attention
to this matter.

J. N. Lewis, Tax-Collector

Miss Annie Hamilton made a
trip to Lubbock, last week.

King conceived the idea of a
raffle, and it made the corn bring
the neat sum of \$28.39, and the
Santa Fe section foreman, Mr.
Lanham, got the corn for 61 cts.

Christmas Goods

We are headquarters for nice things for Xmas. Be sure to see what we have; priced very reasonable. TRAVELING BAGS BOOKS STATIONERY COMBS and BRUSH TIES IVORY HOSE MIRRORS BABY SETS DOLLS and CLOCKS. The above mentioned articles are only a few of the nice things we have for you. Come and see.

PLEASURE IN THE WINTER TIME

We have a tank car of Winter Gasoline which is a higher test.

If you haven't got a fill of it, do so and see what a quick get-away that car of yours has and that popping, jumping habit it is into will stop. And say, don't that Oil Stove cook better and smoke less when you fill with good old Magnolia Oil? Don't forget the definition for Lubrication—"MAGNOLENE." We you use once, you will use no other. If you don't get the best blame yourself, for we are always ready to give you quick service. Call Magnolia, Phone 10.

MAGNOLIA PETROLEUM CO.

Spring is here and we are ready to clip that hair. Smooth Shaves, Shampoos, Massages, Tonics and Baths. Let the Panhandle Laundry do your work

CITY BARBER SHOP

SAVE 16,000,000 BUSHELS OF WHEAT THAT FORMERLY WAS LOST IN THRESHING

Farmers, Urged by Food Administration, Provide Seven Extra Loaves of Bread for Every American.

By adopting cleaner threshing methods and by literally combing harvest fields to gather grain formerly wasted, threshermen and farmers of the United States this year saved fully 16,000,000 bushels of wheat, estimated as equivalent to about seven one-pound loaves of bread for every person in the country. This result, accompanied by corresponding savings of barley, oats, rye and other grains, is shown by reports from 23 grain states to the U. S. Food Administration. Other states, although not prepared to furnish definite figures of conservation in the grain fields, report greatly reduced harvest losses.

This rural food saving achievement, accomplished in scarcely six months' time, was in direct response to requests by the Food Administration, which asked farmers and threshermen to reduce harvest losses from about 34 per cent.—the estimated average in normal times—to the lowest possible minimum. Country grain threshing committees carried into every grain growing community the official recommendations for accomplishing the results desired.

In numerous instances drivers of racks with leaky bottoms were sent from the fields to repair their equipment and frequently bad order threshing machines were stopped until the cause of waste was removed. But in proportion to the number of persons engaged in gathering the nation's grain crop, cases of compulsion were comparatively rare. The Food Administration freely attributes the success of the grain threshing campaign to patriotic service by farmers, threshermen and their crews. Incidentally grain growers of the United States are many millions of dollars "in pocket" as a result of the grain saved.

MEAT PRODUCERS DID FULL DUTY

Increase in American Hogs Will Help to Meet World Fat Shortage.

FARMERS SAVE SITUATION.

Government Justified in Stimulation of Pork Production—Sevenfold Increase Over Pre-War Exports.

Through increased production and conservation we will be able this year to export seven times our pre-war average exports of pork products. With the heavy demands added in caring for the millions who have been freed from German oppression, the Department of Agriculture and the Food Administration are justified today in our every action of stimulation of hog production. In the coming year the greatest world shortage will be in

fats, and pork will help to save this situation. The efficacy of the policy of stimulated production has built up in this country supplies which will enable us to supply a very large part of the fat deficiency of the world. In beef there must be a shortage in Europe, due largely to limited refrigerator ship capacity. All freezer ships available, however, will be filled by America, Argentina and Australia.

The contribution made by the producers of this country to the war program as applying particularly to animal food products is illustrated by the following:

Reports compiled by the U. S. Department of Agriculture indicate an increase in cattle of 10,233,000 head and 12,441,000 hogs. These figures were compiled to January 1 last.

In this period there was a decrease in sheep of 819,000 head. The indications are that this decrease will show an increase, according to recent reports.

Since January 1 unofficial information indicates an increase in hogs of not less than 8 per cent, and not more than 15 per cent, as compared with one year ago, with an increase in the average weight.

Following the request of the U. S. Food Administration for an increase in hog production for marketing in the fall of 1918 and the spring of 1919 the increase may yield not less than 1,000,000,000 pounds more of pork products than were available last year. Without this increase the shipping program arranged by Mr. Hoover regarding animal food products would have been impossible.

The dressed hog products during the three months ending September 30, 1917, amounted to 903,172,000 pounds, while for the corresponding months of 1918 the dressed hog products totaled 1,277,589,000, an increase of over 374,000,000 pounds for the quarter.

During the same period for 1917 the records of inspected slaughter of dressed beef showed 1,263,000,000 pounds as against 1,454,000,000 pounds for the three month period ending September 1, this year.

Sending to Europe 141,000,000 bushels of wheat from a surplus of apparently nothing was the outstanding exploit of the American food army in the critical year of the war.

GREATEST OPPORTUNITY WOMEN EVER HAD.

It was given to the women of this country to perform the greatest service in the winning of the war vouchsafed to any women in the history of the wars of the world—to feed the warriors and the war sufferers. By the arts of peace, the practice of simple, homely virtues the womanhood of a whole nation served humanity in its profoundest struggle for peace and freedom.

FIRST CALL TO FOOD ARMY.

This co-operation and service I ask of all in full confidence that America will render more for flag and freedom than king ridden people surrender at compulsion.—Herbert Hoover, August 10, 1917.

A year ago voluntary food control was a daring adventure in democracy; during the year an established proof of democratic efficiency.

A MILITARY AMAZEMENT.

Baird Star: The Americans did turn the tide of war in favor of the allies, but we Americans must not claim all the credit. It has been well said that the English are the most stubborn fighters in the world and that the French are the most brilliant, and both have proved this in this war, but the Americans have also proven, man to man, they are the equal of the best trained troops in the world.

General Foch always had it in mind to begin an offensive as soon as it was certain that he had men enough to keep it up. He never had that certainty until on or about the eighteenth day of July, nineteen-eighteen. Before that date he feared that if he threw his armies into an offensive without sufficient reserves to keep up a sustained effort he would be compelled to abandon his forward movement and perhaps begin a disastrous retreat. He bided his time, much to the dismay of some of us here in our watch towers and much to the satisfaction of the enemy, who thought he didn't do because he couldn't do. When it became obvious to the Generalissimo that reinforcements from America were in sufficient number, and that their quality was all he could ask, he started the fireworks. And from the first gun on the morning of July 18 until the last echo at 11 a. m. Nov. 11, he did not give the enemy a moment's rest. He wore out and wore down, he out-fought, outgeneraled and outdid the hosts of Hindenburg on every foot of the ground. It was the most artistic, compelling, astonishing military campaign ever conceived and directed and completed since the world was populated by mankind.—State Press.

We have been informed that there will be an old fashion turkey shooting here tomorrow.

Mike Barrier, of Lubbock, is here this week, helping to wait on the rush of holiday buyers at Barrier Bros. store.

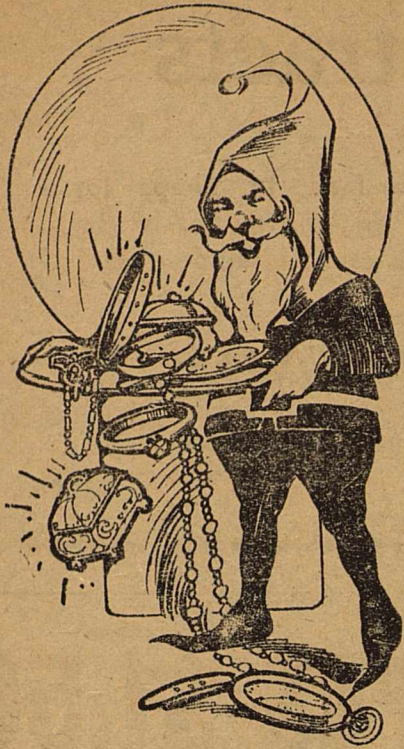

SEE Tom May at the Oil house if you want to sell field seed.

Walter Gainer, a prominent stock-farmer, weather and war forecaster, was in this week from Tatum, N. M., after supplies.

LOST: A Ford top cover. The finder will please return to G. B. Swan and receive reward.

Harry Allen and wife were in this week from the ranch. Harry now hopes that his brother, Terrell, was not killed, having recently heard in a round-about way that he was in a hospital, seriously wounded, which happened a few days after Philip was killed.

TOM May will buy your Sudan Seed.

Gladly furnished upon application

Any erroneous reflection upon the character or standing of any private individual, firm or corporation, will be gladly amended if brought to the attention of the publisher

Bollies are now rolling in, showing that some are getting the cotton crop almost gathered, but there will be many a bale in the patch at Christmas.

It is reported here that the Kaiser attempted suicide by shooting himself in the head, during a fit of despondency. We hope his fit didn't interfere with the hit.

Despite the fact that "flu" keeps cropping out, our school is moving right along at an even gauge, and the children are getting the maximum instruction at a minimum cost. But both teacher and pupil are thinking of the beautiful school building they aim to occupy next term.

We call your attention to the many Xmas ads in this issue, and ask that you do your holiday shopping in Brownfield. The merchants have gone to no little expense in getting a good display of Christmas presents suitable for all people, and it is only right and just that you give them the preference. And justice is just what we have been fighting for.

The Herald man has been acting in the capacity of local employment chairman for Terry county for some time, but as hands were scarce, and plenty of work, there has been nobody here without a job who wanted one. But now, with the end of the harvest in sight, and from now on, the almost daily return of our boys from war, there may happen to not be jobs for all. In the course of the next few weeks we aim to have a man at every post office in the county, working in co operation with us, and every man will have a job, if it is possible to get one in the United States. For the Federal Employment Bureau covers that much territory. Every man, woman and child in the county are urged to assist in every way, that re-construction and readjustment of our pre-war schedule can be attained without deranging present programs, as much as possible.

PRESBYTERIAN CHRISTMAS BAZZAR AND FOOD SALE.

In office of Judge Neill or Temple of Titles, Friday and Sat., afternoons Dec., 20 and 21. Knitted articles, crochet, fancy and plain sewing, dainty and useful gifts. Delicious home made candies, cakes, pies and salads. Coffee and sandwiches. You are invited to come in.

ONE WAR GARDEN FILLS 1,418 CANS.

Down in Texas the girls and women have been doing their best to help feed our boys at the front. Incidentally they have won prizes and much commendation at the home products exhibit recently held in Houston, according to a field report to the States Relations Service of the United States Department of Agriculture. The prizes were awarded for quality production, but even had they been given for quantity they would have been merited. For instance, here's the output of one girl from Fairbanks, the entire product raised on her half acre war plot: 1,080 cans of tomatoes, 150 cans of beans, 60 cans of English peas, 78 cans of tomatoes and okra, and 50 cans of sweet potatoes—1,418 cans in all. At this exhibit, which is reported to have surpassed those of previous years, the girls' club had unusually fine displays of canned, dried and preserved vegetables and fruit.

Miss Elma Duncan, who is teaching the Meadow school, came down on the train Monday, and spent the night with her sister, Mrs. J. W. Nowlin, returning Tuesday morning in time to take up school.

Rev. J. B. Vinson returned one day this week from the Baptist Convention at Dallas. He says they had a great time together, and that he got to hear a great religious singer from Chicago, and also heard Billy Sunday address the Convention. Rev. Vinson, like the editor of this sheet, cares very little about hearing a man preach that verges on swearing and calls God and Jesus Christ, the old guys. Bro. Vinson said that he had rather hear that great singer in one great gospel song, than to hear Sunday preach a half dozen sermons, although admitting at the same time that Billie is as sharp as a briar.

FOR ABSTRACTS, See Terry County Abstract Co. W. G. Hardin Mgr. Office, Court House.

Mrs. S. Johnson and married daughter, of the Tokio community, left Tuesday on the train for Lubbock, where the latter will receive treatment at the Lubbock Sanitarium.

KEYS found: A bunch 5 on a spring chain. Pay for this ad and get them.

J. E. Shelton has been to Stevenville the past two weeks, attending the bedside of his father who is not expected to live.

FOR SALE

About 20 tons of bundle cane, feterita, white and red maize, well headed and full grain; will sell worth the money, if all sold together. I haven't time to drib it out in small lots or to deliver. See me at McAdams lumber office.

**COMFORTS, SMILES AND CAKE
LIKE MOTHER USED TO MAKE**

**Thus Every Red Cross Canteen Becomes a Bit of Home
for Our Soldiers in France.**

What could possibly be more gladdening than the sight of real American doughnuts, lumps of luscious pie,—real lumps? Nothing—unless it might be the sight of an honest-to-goodness American girl. And the combination of the three, and maybe a couple of mugs of good hot coffee thrown in for good measure—nobody but a really tired, hardworked Yank can really appreciate this food for the gods and comfort for the heart of man.

"It ain't the coffee nor the pie nor the doughnuts, not even the pretty girls," said one young soldier; "it is the sight of a woman who looks like your mother—with her little cap a trifle askew sometimes, and maybe a lock of hair straightened out of curl—just like mother used to have hers come when she was hurrying too hard—that's the thing that makes a fellow glad he happened to be with this particular bunch. And when that woman says, 'Here, son, have another piece of pie!' it goes right through your heart and makes you feel that if you ever do get back to the old U. S. A. again you'll not forget mother's birthday and you'll remember to say the kind things every single day of your life."

The Red Cross serves the lads of all the nations, of course, but it is particularly partial to the khaki clad youths with a bit of slang and the call for the matches and the cigarettes. They are the ones who appreciate the American crackers and jam.

There are the canteens close to the trenches, of course, and the huts where the men may go and bathe and have their clothes freshened up, and the

railroad station canteen service, and the big canteens with the writing rooms and showers and libraries, and lounges where a fellow can rest a while, but the boys who have been there insist that they love the little rolling canteens that just naturally spring up where you least expect them, most of all.

Many well known names are on the lists of canteen workers, for American women were quick to seize the opportunity for service. The poorest soldier on his leave may be served by an American woman whose hospitality was formerly dealt out by her maids and butlers—and whose guest lists included only the most fashionable names in the social register. Now it is she who hands over the pie with her own hands and then gathers up the dishes—yes, and oftentimes washes them when help is scarce, for they have to be washed and made ready for the next lot of soldiers—and one cannot disappoint the boys who are never too tired to respond to the call of duty.

Another part of the canteen service is the "store," where the soldiers are supplied with their needs, where things they have lost in the heat of battle are replaced, tooth paste handed out, razor blades, towels, toothbrushes, all sorts of things, not forgetting the post cards to send home and the ever wanted packages of cigarettes.

Taking it all in all, the canteen does far more than fill the stomachs of the men—it puts something worth while into their hearts.

**AMERICA'S WOMEN JOINED
IN ANTHEM OF SERVICE**

**Millions of Red Cross Workers Do Multitude
of Little Things at Home Which Enable
Our Boys to Do Great Things in France.**

Under the banner of the Red Cross American women are working in homes, churches, clubs, schools, shops, theaters, factories, hospitals and in thousands of Red Cross work-rooms. The hum of sewing machines, the whizz of muslin torn to accurate strips, the rat-tat-tat of volunteer typewriters, the purr of boiling kettles in canteens, the rumbling of automobiles of the Motor Corps, the soft click of knitting needles in lonely cabins and farmhouses, all blend into a great anthem of service.

About 8,000,000 women working through Red Cross Chapters and branches are making with their hands relief supplies—surgical dressings, knitted articles, hospital and refugee garments—or working as volunteers, subject to any call day or night, at 500 railroad stations throughout the country and at the ports of embarkation, or serving in volunteer Motor Corps. Truly here is an army with banners—banners of a red cross on a white field.

For the period up to the first of July, 1918, American Red Cross Chapters, through their work-rooms, had produced 192,748,107 surgical dressings, 10,134,501 knitted articles, 10,786,480 hospital garments and other hospital supplies and refugee garments, making a total of 221,282,338 articles of an estimated aggregate value of at least \$44,000,000.

Last spring, during the Red Cross war fund drive, when thousands of women workers in cities in every state formed their great symbolic processions, those who looked on saw them as the representatives of all our American women working in this war, and heard in "The Battle Hymn of the Republic," to which they marched, the

varied sounds of all their eager labor. The things they made, which carried a message of love from the women of this country, quite apart from their great money value, went from their work-rooms on great adventures. They have gone into front line trenches, to emergency hospitals in foreign villages and into the most modern operating rooms. They have wrapped lost and frightened children in warmth and sheltered aged refugees from the cold. They have gone overseas into strange and sad places, into Russia and Serbia and Palestine and Italy and France. They have gone into our own huge cantonments for our own young soldiers.

The Department of Nursing of the American Red Cross is the great recruiting agency of the United States Army and Navy Nurse Corps. By the first of October it had assigned over 18,000 graduate nurses to active military service at home and abroad. It has provided over 700 nurses for the Federal Public Health Service and the Red Cross Town and Country Nursing Service, which co-operates with the local health boards in the communities which it serves.

The statement of the Home Service of the American Red Cross to all of our fighting men that it is prepared to help in any emergency that may arise in their homes—help in legal ways, medical ways, business ways, friendship ways—would not be possible without the vision and the active co-operation of thousands of American women. In every division of the Red Cross, from coast to coast and from Canada to Mexico, they have seen this service as the elemental right due from the American people to their defenders.

**BARRIER BROS. DRY
GOODS CO., INC.**

As per announcement in this issue, Barrier Bros., have bought out Lubbock Dry Goods Co., the present stockholders in the Lubbock Dry Goods Co., however, retaining a good portion of stock with the new concern. The two stocks will be consolidated about Jan. 1st, and Barrier Bros., will continue in charge.

All three stores of the Barrier Bros., will be under one corporation and will continue to run at this place, Lubbock and Floydada. G. C. Barrier will be general manager and manager of the Lubbock house, while R. and Paul Barrier will be managers at Brownfield and Floydada, respectively.

The Lubbock store will soon be located in a large, modern, building with steam heat, and all other conveniences of an up-to-the-minute department store. There is no better location in Floydada than the store there has, but while the store in Brownfield is well located, it is looking for larger quarters.

Barrier Bros. are merchants of no small repute, having run as many as three stores in the east before locating on the Plains. There are six of the brothers, G. C., R., A. B., (who is not in the store, but looks after their real estate interests), Bob and Cliff, (who are in France) and Paul. There are more growing up. They have been here something more than a year, and have been getting their share of the business right along. G. C. is only 34 years of age, and with all the boys of such good substantial business qualities, we predict for them and the outside capital interested with them bountiful profits.

Manager Fred Smith, of the Cicero Smith Lumber Co., made a trip to Meadow this week to superintend the unloading of a car of coal he sold up there.

Uncle Joe Hamilton and son, Chock, are installing a grist mill this week, at the Stinson coal and grain yards. They will not only make corn meal, of which Uncle Joe has had much experience, but will be prepared to crush and thresh grain.

OLD PAPERS for sale at the Herald office at 25c per 100, or will exchange 100 papers for 2 pounds of clean rags.

Stafford Day and family left this week to make Houston, Texas, their future home, having sold his farm and crop to O. T. Halley. Watch these columns for announcement of Staffs' return to old Terry.

W. W. Mays, of Roscoe, who some time ago, purchased the old Yates place just over in Yoakum county, was up this week looking after his property.

CLOSING OUT SALE

We have a large and complete stock of DRY GOODS, SHOES and READY-TO-WEAR Clothing for the whole family, that is going in this sale, beginning December 7th and ending December 24th.

If you are needing first class Merchandise, or if you are in shape to anticipate your future needs and buy ahead for several months; then it will pay you **Big to attend this Great Sale**, and to do so as soon as possible, before our lines are broken in sizes and while you can obtain the best selections. We quote just a few prices so you will know what to expect when you come, and remember that items not mentioned below will be sold at from **ten to fifty percent below the regular retail price, excepting O. N. T. Thread**, which will go at exactly **wholesale price**.

Red Seal Ginghams, regular price 35c, Sale Price 25c.

Other Ginghams regular price 30c, Sale Price 20c.

Cotton Flannels---Good---regular price 35c, Sale Price 20c.

Dress Goods, Woolens and Silks 1-5 to 1-3 of regular price. All Underwear at 25 percent discount of Regular Prices. Stetson Hats going at 25 percent discount. All other hats and caps at from 25 to 33 1-3 percent discount. Outing Flannel—the Best—lights or dark at 25c the yard— All Gloves for EVERYBODY going at 20 percent discount off. 10 to 50 percent off on all LADIES' READY-TO-WEAR. 20 percent off on all Men and Boys' Dress or Work Shirts. 20 to 33 1-3 discount off on ALL SHOES. 20 to 33 1-3 percent discount on all Men and Boys' Suits. One-third off on Blankets and one-fourth to one-third off on Quilts.

Remember that space will not permit us to quote further prices here, but the above should be sufficient to convince you that we are **Actually Closing Out Our Stock** and the time of the sale is short. **So come early and bring the cash and get the goods at far less than to-day's Wholesale Prices. Terms Cash; No Refunds.**

SANITARY BARBER SHOP

THANKS HERALD.

Dallas, Texas, Nov. 22, 1918.
To the Editor,
Dear Friend:

I want to thank you most heartily for the splendid co-operation rendered by you and your newspaper during the United War Work Campaign and during the publicity program which preceded the actual drive.

The newspapers of the Southern Department certainly were faithful to the cause, and I speak for the United War Work Campaign organization, and am sure for the sailors and soldiers to be benefitted, when I send you this word of sincere appreciation. Your paper should feel a personal sense of gratification over the fact that the Southern Department led the entire nation in prompt over-subscription to this great fund, inasmuch as you had a conspicuous part in bringing about these satisfactory results.

I hope to have the pleasure of seeing you at some future time and personally expressing to you and your staff my appreciation for your kindly attitude toward me in the responsibility that I had for the publicity of the Campaign in the six southwestern states of the Southern Department.

Sincerely your friend,
A. P. OAKES,
Major, Detached Service Director of Publicity, United War Work Campaign.

THE RURAL SCHOOLS

It will be well for the friends of rural public schools to study how to advance the schools. There is likely to be a disposition to economize when war taxes begin to fall upon taxpayers. Some well-meaning citizens may be so anxious to relieve their own burdens of taxation that they will be willing to withhold their authority to extend the local school tax to the limit of the law. This will be a grave mistake. The schools must not be hampered for want of revenue.

In order that our rural public schools may meet their obligations it

will be necessary for the voters of the district to get together and provide whatever funds are necessary to erect good buildings, get the required equipment and employ teachers who are qualified and who understand the people of rural districts and are in sympathy with them. These things will be necessary if our schools are extended and our boys and our girls are given advantages they deserve.

The rural schools are our "cradles of liberty." As inefficiently as we have maintained them they are largely responsible for the ideals and sentiments so powerful in the progress of the world. They are fundamental in our system of public education and we should be proud of them. That we have not realized this sooner is no credit to us. But it is never too late to begin for the future.—Farm and Ranch.

THE RE-UNITED STATES.

Is America a united country? Well, judge for yourself by the following letter written to the Stars and Stripes, the official publication of our armies in France, by an American private:

"About this pro and con argument relative to Yank' as a monicker for the American Expeditionary Force.

"I come from a line of rebels who boast that they did not surrender. Until I was quite a husky chap I believed that 'damn Yankee' was one word and Republican its synonym, and knew the rebel yell as a college boy knows his college yell.

"In our own antebellum days I wore the typical according to Northern writers, Southern slouch hat, rode horseback and shot squirrels. I still think that 'Dixie' should be our national air, pronounce 'corn' as 'cawn' think that Robert E. Lee was the world's greatest general and Jefferson Davis, suh, the world's greatest statesman.

"Speaking for myself and a not-overly small group of fellow rebels, I am exactly satisfied with the honest, hard fisted, seemingly-inevitable nickname of 'Yank' and say with one of the papers back home: 'Let Yank

be the battle name of our boys and the rebel yell their official battlecry.' Are we a united country? Ask the kaiser and the German-American Alliance.

M. AND M. GLUB.

The Maids and Matrons Club met with Mrs. E. G. Alexander, Tuesday Dec. 3rd. A large membership present with Mrs. Randal presiding. A very interesting program on "World Relief Work," was carried out. Delicious refreshments were served by the hostess.

Club Reporter.

CHRISTMAS is coming; the Plainview Nursery is already here with a good stock of Virginia Cedars and Arbervitaeas suitable for your Christmas Tree. Also, fruit trees for the orchard and shrubbery for the lawn. Will trade nursery stock for second hand sacks. Order early. Plainview, Texas.

See Dick Brownfield some time soon about that mule team you are going to need.

The gin has been going steady for the past two weeks, and are grinding out lots of cotton.

Maize and corn are being put on the market these days, and the old Terry county farmers are bulging their bank accounts.

NOTICE, readers of the Star-Telegram. We have been notified by the publishers of that paper, that since the removal by the War Industries Board, of the restrictions on print paper that you can get the Daily and Sunday Telegram from now till Jan. 5th for only \$6.50 instead of \$7.50. If you haven't already ordered the Star-Telegram, give the Herald your order for 1919.

Mrs. C. L. Williams left this week for Brownwood, where she goes to attend the bedside of her sick sister, Mrs. Bettie Anderson, who had the misfortune to lose her baby, last week.

BROWNFIELD

Our exports since this country entered the war have justified a statement made by the Food Administration shortly after its conception, outlining the principles and policies that would govern the solution of this country's food problems.

"The whole foundation of democracy," declared the Food Administration, "lies in the individual initiative of its people and their willingness to serve the interests of the nation with complete self effacement in the time of emergency. Democracy can yield to discipline, and we can solve this food problem for our own people and for the Allies in this way. To have done so will have been a greater service than our immediate objective, for we have demonstrated the rightfulness of our faith and our ability to defend ourselves without being Prussianized."

NO ONE SUFFERED HERE.

The marvel of our voluntary food-saving, now that we are "getting results," is that no one ever actually suffered any hardship from it; that we all are better in health and spirit and better satisfied with ourselves because of our friendly self-denial.

Tom Taylor was in from his farm near King, N. M., last week, with a bale of cotton. He sold it for 25c per pound, and did considerable trading with our merchants, while here.

Can any thorough bred American read the letter in this issue from the Red Cross worker, concerning the death of Guy Howard, and not have a tender feeling for that organization? Can they?

A copy of a telegram was received this week by local chairman, R. H. Banowsky, from the National headquarters of United War Work Campaign, stating that Texas would be permitted to name two huts in France, one for her percentage of oversubscription and the other for being among the first States to raise her quota. Rah! for Texas.

TONS OF DATES FOR SAILORS.

Tons of dates, the crop grown by the United States Department of Agriculture in the date-testing gardens at Indio and Mecca, Cal., will be supplied to the Navy Department for the use of crews on board destroyers. In supplying these dates to the Navy Department the specialists of the Department of Agriculture will obtain valuable data on the keeping qualities of the varieties being tested, as well as on the effect of the different maturation processes and methods of packing used in preparing the dates for shipment—information that will be valuable to the rapidly developing date industry in the southwest. The dates, a confection rich in sugar, the department specialists say, are of great value as a concentrated food.

FOOD AND FARMING

The wheat field of the United States in 1918 was four-fifths the size of the Kingdom of Austria and more than eight times the size of Belgium.

In response to a statement recently issued by Frederick Eby, professor of the History of Education in the University of Texas, he has received numerous letters from young men who are seeking positions as teachers. The recent demobilization of many men in army camps is said to be the reason for this sudden unexpected supply of available teachers. Mr. Eby would be glad for the school authorities at those places where there may be vacancies at this time to communicate with him in order that he may place them in touch with the young men desiring such positions.

Per capita consumption of wheat for all purposes during the 10 years,

Pipe Threading Machine

We have just received the latest thing in pipe threading and we are prepared to thread large and small pipes, both standard and casings. When in need of proficient, correct threading, call on us

A. G. McAdams Lumber Co.

Brownfield, Texas

1902-1911, averaged 8.80 bushels in Belgium, 6.31 bushels in the United States, 6.21 bushels in Italy, 6.17 bushels in the United Kingdom, 4.60 bushels in Austria-Hungary, 4.29 bushels in the Netherlands, 3.38 in Germany (rye consumption being high) 0.85 bushel in British India, and 0.52 bushel in Japan, rice consumption being high in the last two countries.

The large amount of low-grade cotton in the crop of 1917 is explained by the estimate that nearly a million bales were damaged by the frost. Of this amount about 550,000 bales were bollies, the remainder being either "snapped" or picked. Some of the cotton where there was no machinery for ginning bollies was beaten out with flails and afterwards ginned. The Bureau of Crop Estimates has recently estimated that there were 250,000 running bales of bolly cotton in Texas, 170,000 bales in Oklahoma, 40,000 bales each in Arkansas and Tennessee, and 50,000 bales in other states.

Mean wheat production per acre in the 15 years, 1899-1913, was 42.5 bushels in Denmark, 35.4 bushels in Ireland, 35.1 bushels in Belgium, 31.5 bushels in Great Britain, 29.7 bushels in Germany, 20.2 bushels in France, 19.1 bushels in Austria, 18.1 bushels in Hungary, 16.7 bushels in Rumania, and 14.1 bushels in the United States. Bushels of measure are taken for Denmark, France, Great Britain, Ireland, and Roumania; of 60 pounds for the other countries.

It is authoritatively announced that military training at the University of Texas will continue, notwithstanding the armistice. The Naval branch of the S. A. T. C. numbers 168. Two lines of work are open to men in this section. Some are taking engineering courses which will fit them for service, others are studying in the academic department with the view of becoming candidates for the commission of ensign. The engineers will probably be kept in Austin as long as possible in order that they may receive most of their training at the University. A football squad has been organized among the prospective seamen which boasts three letter men from the best State colleges.

One fifth of the world's crop of wheat was exported during the five years before the war, 7 per cent of the corn, 34 per cent of the tobacco, 12 per cent of the rice, 66 per cent of the cotton, and 40 per cent of the sugar.

When the Indians taught the white settlers of this country how to raise corn, no flight of the imagination could have foreseen the crop of 1918, covering nearly 173,000 square miles or nearly as much land as there is in Germany.

A number of the American Submarine chasers have returned home from the war zone, there being no more German Subs to chase.

BROWNFIELD AMAZED BY SUDDEN ACTION

The quick action of pure Lavoptik eye wash is startling. A school boy had eye strain so badly he could not read. A week's use of Lavoptik surprised his teacher so much she used it for her old mother. ONE WASH showed benefit. A small bottle is guaranteed to benefit EVERY CASE weak, strained or inflamed eyes. The QUICK result is astonishing. Aluminum eye cup FREE.

and other pieces of furniture broken by allowing children to jump and play too roughly on them.

SAN ANGELO REMAINS DRY.

In the prohibition election in Tom Green county last Saturday, precinct No. 1, which includes the city of San Angelo, went dry by a large majority.

The vote, with the exception of two small boxes, stood 603 for prohibition and 367 against. The precinct heretofore has been wet by a majority of more than 100.

Mrs. Leila A. Fisher of Pride, received a telegram from Adgt. Gen. Harris on Monday that her son, Jas. B. Fisher, had been severely wounded in action. Mr. Fisher is a brother of Mrs. Guy Simpson. We sincerely sympathize with these good people and hope a later message may bring news of his convalescence. He used to carry the mail here and many are his friends who will join with the Reporter in its regrets.—Lamesa Reporter.

YOU can't do much farming without good teams. See Dick Brownfield about those mules.

The election of officers at the Odd Fellows Hall last Friday night, resulted as follows: Jno. Scudday Sr., N. G.; Walter Scudday, V. G.; and J. C. Green, Secretary.

GLAD TO TESTIFY

Says Watoga Lady, "As To What Cardui Has Done For Me, So As To Help Others."

Watoga, W. Va.—Mrs. S. W. Gladwell, of this town, says: "When about 15 years of age, I suffered greatly . . . Sometimes would go a month or two, and I had terrible headache, backache, and bearing-down pains, and would just drag and had no appetite. Then . . . it would last . . . two weeks, and was so weakening, and my health was awful.

My mother bought me a bottle of Cardui, and I began to improve after taking the first bottle, so kept it up till I took three . . . I gained, and was well and strong, and I owe it all to Cardui.

I am married now and have 3 children . . . Have never had to have a doctor for female trouble, and just resort to Cardui if I need a tonic. I am glad to testify to what it has done for me, so as to help others."

If you are nervous or weak, have headaches, backaches, or any of the other ailments so common to women, why not give Cardui a trial? Recommended by many physicians. In use over 40 years. Begin taking Cardui today. It may be the very medicine you need.

WILL DO MISSIONARY WORK.

Tahoka, Texas.
Dec. 5th, 1918.

The greatest blessing that has come to the people of the U. S. this year is the victory on the battlefield for the principles of Democracy and Christianity against Militarism and Imperialism, and with this great victory comes a great responsibility.

A new day has dawned upon the Church of Christ that will bring us face to face with the greatest obligation on earth; viz to preach "Peace on Earth, Good Will to Man."

About the 1st of Jan. 1919, I am going to begin a co-operative work under the direction of the Church of Christ, in Terry, Lynn and Dawson counties, also in the eastern part of New Mex. I want every true Christian to have fellowship in the work and each congregation in the bounds of this district to write me about the condition of the Church and if you need preaching or a bible school taught, I am ready to assist you.

I take this method of informing the Churches of my work here, who, perhaps do not read the "Firm Foundation" and save time and trouble in writing so many personal letters.

Now brethren, please do not let this pass you in neglect and make an excuse by saying, we are not able. The work should be done and will be done, so take it up and lets all pull together.

R. T. Harris,
Evangelist.

ARE YOU GUILTY OF THESE MISDEMEANORS

The want of thought in the care and use of equipment is often the cause of its short life. Some of the apparently trifling mistakes which cause utensils and tools to wear out before they should are the following:

Contents of saucepan and kettles boiled dry and the meat overheated.

Handles, screws and fastenings of knives, forks, egg beaters, etc., loosened from having been left in hot water.

Metal utensils put away wet, causing them to rust.

Covers put away wet with steam as they are taken off the saucepan.

Brooms and brushes used continually on one side and worn to a point.

Brooms allowed to stand on the floor until their weight bends or breaks the straw.

Glasses broken because the bottom instead of the side is put into hot water.

China dulled because of washing it in too strong soap suds.

Liquids spilled on rugs or polished surfaces because the container was too full.

Contents of the saucepan boiled over on the stove or in the oven because allowance was not made for the expansion of liquids by heat.

Burners of oil stoves clogged and useless by burned food.

Rugs torn by having been held by the edge while shaking and cleaning.

Glazing of porcelain and enameled sinks, tubs and wash towels scratches and broken by cleaning with coarse materials.

Finish on furniture marred by placing hot dishes, medicine bottles and by spilling liquids on it.

Furniture cracks and parts loosened because the oil bath and rub are not applied regularly.

China broken in the refrigerator by placing heavier dishes over it.

Dish towels scorched and stained when used for oven cloths and to lift hot saucepans from the stove.

Varnished and oiled woodwork spoiled by washing with soap.

Springs in beds couches and chairs
