

The Terry County Herald

VOL. 14.

BROWNFIELD, TERRY COUNTY, TEXAS, FRIDAY MAY 16, 1919

NO. 44

Bank to Buy Brood Sows

In conversation one day this week, Mr. O. T. Halley, cahier of the local bank informed us that he was busy with the organization of a hog club, and if he could succeed in getting a car load, he would go to the hog country and buy a car and let the farmers of the Brownfield trade territory have them at cost. He asked us to help him get the matter advertised, and he never struck more willing help in his life.

Heretofore or big corn crops have found a ready sale in central west and even in central and north Texas, where the people rely almost exclusively on cotton, but this year these people have cut their cotton acreage almost half in two, and as a consequence have devoted that portion cut into feeds, and reports coming from there tell the same story—that they are going to make bumper crops.

We ask you then Mr. Terry county corn grower, what are you going to do with your surplus? This is a serious question, and we want you to ponder it well in the next few days, and reach your conclusion, for the sooner these brood sows are laid down in Brownfield, the better for all concerned, for they are not going to be any cheaper. Many have already come in and signified their willingness to take from one to five, so you will have to hurry.

If these hogs are brought in here right away, it is safe to expect the first litter by not later than the first of August, which can be put on the market by the following February or March, and before Christmas, there ought to be a second litter to help eat up the big corn crop, and any one with any knowledge of market conditions will tell you that there is going to be no cheaper meat soon.

Now, if you are interested, come in at once and let Mr. Halley know how many brood sows you will take. He is so anxious to help you that he is

devoting his own space in the Herald this week to push the matter, and we invite you to read it.

Plans Trade Excursion

Porter A. Whaley, the newly elected General Manager of the West Texas Chamber of Commerce, plans to organize this summer a large trade excursion to visit the middle west early this fall.

It is his plan to esemble about three baggage cars of agricultural and mineral exhibits from West Texas. These will be attached to a Pullman train carrying a party of about 200 representative West Texas Citizens.

The itinerary of the trip has not yet been made up and will be dictated in some measure by the dates of certain of the larger fairs which are held annually in the middle western states. In a general way it is the plan to visit Tennessee, Kentucky, Ohio, Indiana, Illinois, Wisconsin, and Minnesota. The return trip will include Iowa and Kansas.

Arrangements will be made to take along a number of West Texas motion picture reels which have been made during recent years.

DON'T FORGET the Lion's Claw every Tuesday night. It is now getting intensely interesting. Don't miss a single episode.

Commissioner Court is in session this week, and we understand they are considering a fifteen cent tax for good road purposes. If you are in favor of good roads for old Terry, speak to your commissioner, or the County Judge about the matter and help a good thing along.

THE METHODIST Ladies will stage the enthrilling play, entitled, "East Lynn." Watch for the date.

About Our School.

Our trustees seemed to think that we were trying to take them to task in our article two weeks ago, when in fact if there ever was a set of men that has our sympathy, and the exercise of our patience, they are school trustees, for they are doing a thank you job, and all "cussings" are thrown for good measure. We tried only to leave the impression that we were offering some free advice to keep down criticism of themselves from the thoughtless, in that the trustees were not handing out sufficient dope to keep the impatient from raising too much howl.

But we had an interview with at least two of the trustees, and they tell the same story, dear reader, in that they are trying their very best to get things under way, but the main trouble seems to be that so far they have been unable to sell the bonds.

It is a well known fact to even the casual reader that the bond market just at this time is a hard proposition, as every buyer is laying off all school, road, municipal, or other private or corporation bonds until the Fifth Liberty Loan Bonds are all taken, and as that drive is successfully brought to a close, we believe our trustees will now be able to interest some buyers in our bonds, and that means that construction of our school building will start in the no great future.

It might not be amiss to add that the trustees are trying to land the bonds with ever buyer they have known in the past, and if you who are in a big hurry, that knows a bond buyer that is likely to take them, let the trustees know, they will no doubt appreciate your cooperation in the matter. They are just as anxious as any of us, we believe, to get the building under way.

They met one night this week and relected Prof. H. C. Zorns for na-

other term, which we believe is a good piece of work, and one that practically ever patron will agree is the right and best course to pursue, for Prof. Zorns has certainly given good satisfaction in every way. They would not give out further elections at this time.

One Here Too.

While this old world rocks along serenely, curiosities that cause us to wonder come and go. The eighth wonder of the world came to town the other day. While looking after the cattle on the Stonebraker-Zea Ranch the other day, Barse Stonebraker, the manager, discovered a pretty little white face calf which nature had provided with two heads, and he gathered it up and brought it in to show his friends just the kind of cattle the ranch produces.

We have seen many freaks of nature, but never anything just like this one. The calf is perfect in every way from its ears back, but has two distinct heads. Although the two heads are grown together, there are two lower jaws, two tongues, two sets of teeth, four eyes, and from last accounts, the little fellow was able to take care of himself, and was doing nicely.—Guyman (Okla.) Herald.

After all, Okla. hasn't a thing on old Terry in the way of a cattle freak for we have one here—the dead—is a humdinger for show. It was not satisfied just to be a double calf from the ears forward, but was two calves from attic to cellar; from Dan even unto Bersheba; from teeth unto toe-nail, and the same has been mounted by our local taxidermist, John S. Powell, and will soon be on exhibition. Come to Terry.

TRY a package of Life O' Wheat.—Brothers & Brothers.

The Four Amendments

To The Constitution.

There will be four constitutional amendments submitted to the people in the special election called for May 24th.

Governor Hobby has said that he will call the Legislature in special session about June 17th to vitalize the amendments which may be adopted on May 24th. The amendments are embraced in the following joint resolutions:

House joint resolution No. 1: To make Texas dry by prohibiting the manufacture, sale, barter, exchange and transportation of intoxicating liquors.

House joint resolution No. 19: Empowering the Legislature to enact laws permitting the state to lend money to heads of families to acquire and improve rural homes for farming and stock raising. It is the Governor's land for the landless platform.

Senate joint resolution No. 7: To permit women to vote in elections held in Texas. It is the Equal Suffrage Amendment. It imposes the obligation of American citizenship to vote and requires women to otherwise be qualified electors.

Senate joint resolution No. 13: Increasing the salary of the Governor from \$4,000 to \$10,000 each year. At this time there are several state officials who draw more salary than the chief executive of the State.—Ex.

E. W. Moore, of Lubbock, was here this week on very important business and we can prove it by a young lady of the town.

Miss Clara Jones, of Abernathy, Texas, was here this week visiting her sister, Mrs. T. R. Darden. She left for home yesterday accompanied by Mrs. Darden, who will visit up there a few days.

MOVED!

We have moved to the building formerly occupied by K. Carter, on northeast corner of the square. In our new location we will be more comfortably located which will enable us to take care of our fast growing business. We expect to have a stock commenorate of your needs and will add new lines and more variety at once. We have dry goods and groceries. We always pay highest market price for produce. We hope to merit a continuance of your business and guarantee to give you satisfaction in quality, service and price.

Boyce Cardwell, Clerk

H. H. Copeland and J. F. Winston made a trip to Meadow, Tuesday, to see their new school building. Both men are loud in praise of the new building, which is 28x60 feet, and two rooms; modern in every detail, and fully complies with every state law. As stated in these columns once before, the Higginbotham Harris Co., furnished the lumber for the building, and Lee Thompson put it up. Mr. Winston informed us that the building was fully insured, and that the people of the community were going to give a big singing Sunday week, at which everybody is invited, as those good people want to show other communities what they have.

BEFORE ordering your next suit, come in and let us show you the best Woolen, Cool Cloth and Palm Beach suiting made. We have M. Born & Co. Nuf Said.
Scudday & Lilly

The popular firm of Barrier Bros. are moving this week to the A. M. Brownfield concrete building on the northeast corner of the square, recently occupied by the K. Carter store. This is a much larger and a much neater location, and the firm can more readily display their big stock, and we are sure all the old and many new customers will follow them to their new location.

CLEVE Williams announces that he will give a Matinee every Saturday afternoon at the Liberty Theatre for the benefit of out of town people, who come in to shop. All over 60 years old admitted free.

K. Carter, of Lubbock, who purchased the stock of the Brownfield Mercantile some time ago from R. H. Banowsky, packed what was left of it this week, and will ship it to Lubbock. We regret very much to see this stock go, but Mr. Carter says it is impossible for him to maintain the two stores.

ECZEMA!
Hunt's Salve, formerly called Hunt's Cure is guaranteed to stop and permanently cure that terrible itching. It is compounded for that purpose and your money will be promptly refunded without question if Hunt's Salve fails to cure Itch, Eczema, Tetter, Ring Worms or any other skin disease. 75c the box.

For sale locally by
City Drug Store

T. E. Hobbs of the Needmore community was in one day this week and informed us that he was having to do considerable replanting, on account of the big rain that fell just after he finished planting cotton.

FOR SALE, Sumac Cane seed at the Higginbotham Harris yard.

J. J. Lane, and old time rancher of Terry county, now living in eastern N. M., where he owns a fine ranch, was here this week visiting old acquaintances. Joe, we might say, is sorter inclined to be a weather prognosticator, and was here about this time last year giving us some dry dope, but Joe says the goose will for the next few years hang high.

There are no new cases of small

pox in Brownfield, and the only one we had been well for more than a week. Two new families, however, have them at Gomez, but it believed that the entire situation will soon be under control.

ICE COLD Ice in the summer time. Phone your order in to No. 10 before 11 a. m.

J. A. Rix, of the Rix Furniture & Undertaking Co., was down one day last week looking after his business at this place, and gave out the information that he would continue his furniture store here. He incidentally was advertising the Chautauqua that will be in Lubbock about the last of this month.

Mr. and Mrs. Earl Alexander and baby, left this week for a short visit with relatives at Paducah, Texas. Rev. W. B. Hicks pastor of the Methodist church, has taken Mr. Alexander's place in the drug store during his absence.

Mrs. Pearl Allen and children, of Lockney, Texas, who have been here several days visiting her mother, Mrs. M. E. Kinard, left Tuesday for their home.

William Peters, a local citizen, who has for the past several months been working on a patent lighter for an oil stove, came in one day this week and informed us that he now had it pending before the U. S. Patent office at Washington, and that he was now at liberty to proceed in their manufacture. He has succeeded in interesting a Waco concern in their manufacture, and will begin their production in the near future.

We have been asked to announce that Rev. J. T. Bryant will preach a Woodman Memorial sermon the first Sunday in June at the Presbyterian church, after which a good old basket dinner will be served on the ground, after which the Sovereigns will march to the cemetery and decorate the graves of deceased brethren

There was a Mother's Day program very appropriately carried out at the Methodist church last Sunday.

We understand that there is quite a bit of oil excitement at Tahoka as the drill at less than 2000 feet is in oil bearing sand, a sample of which we saw at a local real estate office this week, and were told that several from here had been over and saw it first hand. We also learn that every room and house in Tahoka is taken; this against the fact that there were lots of vacant houses there only a few weeks ago. Uncle Dave Cunningham informed us this week that the Cedar Lake Company in Gaines county were encountering oil, and that indications were good there for a gusher. Let the great South Plains develop.

Rufus Benton, one of our progressive young farmers of the Groves community, has become a reader of the Herald through postmaster W. G. Hardin, who handed in his subscription.

Mrs. Frank Martin, Sr., left last Saturday for Fort Worth, Texas, for a visit with her daughter, Mrs. Fred Benton.

Mesdames W. M. Parks and Rigdon of Gomez, were passengers to Lubbock, yesterday.

Mrs. W. A. Endersen and baby, and Miss. Gertrude Dallas, were Lubbock passengers, Thursday.

In our rounds this week, we noted that Scott Brothers have removed off their mechanical department from the front end, and have added other neat arrangements. Also the Gist Battery service Station has gone arrangements for the care of their business, and to take care for bigger business. The improvements go on.

Mrs. Capt. Anderson and baby left Tuesday for their home in Plainview, Texas, after an extended visit here with her parents, Pappy John and Mother Kate Powell.

LUMBER ADVANCES LEAST

Experts representing the four great building material industries have compiled statistics showing how war conditions affected the market. comparison of price variations cover a period of six years. As was expected, the figures show steel far in the lead of other building materials in its climb skyward since 1912, with an advance of 148.5 per cent. Cement is up 55.5 per cent, brick 38.1 per cent, and lumber only 17.07 per cent.

BRIEF HISTORY OF THE NINETIETH DIVISION

In Two Parts: Part Two.

The Meuse-Argonne Offensive.—Commencing with the counter offensive in July which cleared the Marne Salient, the Allied Armies, particularly the British Army, had steadily driven the enemy back until nearly all the ground gained in his great offensive of March, April, May, 1918, had been recovered. It became evident that the enemy was planning, if not already executing, a general retreat with the Meuse as his pivot, and that if the Allied Armies could continue their offensive and particularly if they could break the enemy's pivot on the Meuse, a decision might be reached. With this in view the great attack of Sept. 26th which developed into the Meuse-Argonne Offensive, was planned and the First American Army was given the honor position on the Meuse with the all important task of breaking the pivot of the enemy's retreat. The part which the 90th played on Sept. 26th has already been described. The first attack met with great success on the entire front of the army. The advance was rapid. Then as divisions became exhausted, communications and supply became extremely difficult and the enemy there with great number of reserve divisions, the advance slowed down and the first stage of the battle was concluded. During the second stage there was continual fighting along the line but no concerted attack was launched by the entire army. The effort was rather on the part of the individual divisions, and corps to straighten out the lines and reach a position from which a second great attack could be launched.

Relief of the 5th Division—Capture of Bantheville.—The 90th Division went into line near the end of this second period. The 179th Brig. relieved the 10th Brig. of the 5th Div. on the night of 21-22 of Oct. The 180th Brig. was held in division reserve. The 3rd Div. was on the right and the 89th on the left. At this time the front line ran from just north of Romange and Cunel around the northwestern edge of the Bois des Rappes. The 89th had pushed forward and occupied the Bois de

Bantheville on the left so that the line of the 90th Div. formed a pocket a little over 2 kilometers in depth in the front of the Corps. In this pocket were the villages of Bantheville and Bourrut. The first mission of the Division was to straighten out the line. The 357th attacked at 3 o'clock on the afternoon of Oct. 23rd, captured Bantheville and the high ground north and north west of that town and established a line from the northeast corner of the Bois de Rappes over the high ground north of Bourrut to the northeastern corner of the Bois de Bantheville where the line joined with the 89th. The 358th Inf. in the Bois de Rappes at the same time extended its left to connect with the 357th north of Bourrut, and the same night two companies of the 358th crossed the Andon Brook and established a line from a point about 500 meters southwest of Aincreville along the Aincreville-Bantheville road to the line held by the 357th Inf. This extremely successful operation, upon which the Division was highly complimented by the Army and Corps Commanders, resulted in giving the Division an excellent position from which it could jump off in case of a great attack. This advance position was held until the attack of November 1 despite many counter attacks and continuous intense shelling.

Attack of Nov. 1st.—With the capture of Bantheville, every thing was in readiness for the great attack by the First American Army and the French Army on the left, by which it was hoped to finally break the enemy's last line of resistance and change his retreat into a riot. This attack was ordered for Nov. 1st. On the night of Oct. 30th the 180th Brig. relieved the 179th which had suffered heavy casualties during its eight days in line and was withdrawn into division reserve. The 180th Brig. went into line and attacked with the 360th on the left and 359th on the right. The 345th Machine Gun Battalion and the 343 Machine Gun Battalion were in position on the front line from which they could cover the advance with overhead fire. On the morning of the first these companies fired more than 1,200,000 rounds and contributed largely to

the very great success of the attack. The plan of the attack was that the 360th on the left, on a narrow front and assisted by a concentration of all available artillery, should drive forward through the Carre Farm and immensely strong wooded position on the left of the sector up to and beyond Andevanne. With this attack a success the 359th on the right would be able to advance across the open ground west of Aincreville without disastrous losses. An extremely heavy artillery preparation opened at 3:30 a. m. on the 1st of Nov. and at 5:30 a. m. the Infantry went over the top. From the outset the fighting was desperate. The best veteran troops available in the German Army were thrown to stop the advance of the Division. Machine gun nests were everywhere, the gunners sticking to their posts until wiped out. The 360th and 359th, splendidly supported by the 155th Field Artillery Brig. (80th Div.) advanced practically without a halt. Grande Carre was taken and mopped up. The woods to the north were cleaned out, Andevanne and Cote. 243 captured and the line pushed a kilometer beyond by the 360th. Chassagne Farm and St. Marguerite Farm were

(Continued on page 5.)

A NERVOUS WRECK

From Three Years' Suffering. Says Cardui Made Her Well.

Texas City, Tex.—In an interesting statement, Mrs. G. H. Schill, of this town, says: "For three years I suffered untold agony with my head. I was unable to do any of my work.

I just wanted to sleep all the time, for that was the only ease I could get, when I was asleep. I became a nervous wreck just from the awful suffering with my head.

I was so nervous that the least noise would make me jump out of my bed. I had no energy, and was unable to do anything. My son, a young boy, had to do all my household duties.

I was not able to do anything until I took Cardui. I took three bottles in all, and it surely cured me of those awful headaches. That has been three years ago, and I know the cure is permanent, for I have never had any headache since taking Cardui.

Nothing relieved me until I took Cardui. It did wonders for me."

Try Cardui for your troubles—made from medicinal ingredients recommended in medical books as being of benefit in female troubles, and 40 years of use has proven that the books are right. Begin taking Cardui today. NC-134

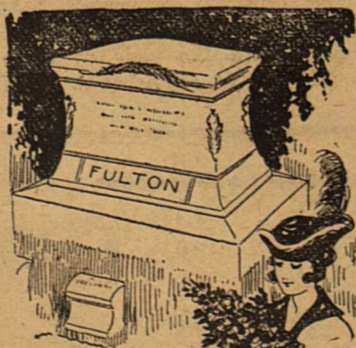

ADLER-I-KA DID IT!

"I had pain in the pit of my stomach, no appetite, sour stomach and very much gas. Doctors could not help me. The FIRST dose of Adler-ika helped me." (Signed) Henry Welp, Lake View, Iowa.

One dose Adler-ika relieves sour stomach, gas and constipation INSTANTLY, Empties BOTH upper and lower bowel, flushing ENTIRE alimentary canal. Remove ALL foul matter which poisons system. Often CURES constipation. Prevents appendicitis. We have sold Adler-ika many years. It is a mixture of buckthorn, cascara, glycerine and nine other simple drugs.

captured by the 359th, and by late afternoon our troops were on and beyond their objectives. The Freya Stellung, the last known enemy position, was definitely and completely broken.

On the 2nd the attack was continued against great resistance. Viler devt Dun was taken and passed, Hill 321 was occupied and the Bois de Raux was put within our lines before night. On the right the 359th advanced more than three kilometers, and one batallion, extending over into the sector of the 5th Division on the right, advanced through the "punch bowl" all the way to the Meuse.

On the 3rd of November the 179th Brig. passed through the 180th Brig. and at 8 o'clock attacked with the 358th Inf., on the left and the 357th on the right. It was evident after a few hours that the attacks of the preceding days had broken the enemy's resistance and that they were completely disorganized. By night the brigade had penetrated the dense woods of the Bois de Tailly and occupied the town of Montigny, Saulmaury, Sassey, and Mont devt. Sassey.

On the 4th and 5th of Nov. the exploitations was continued and the hold on the river towns was strengthened. Hales, Wiseppe, and Laneville were occupied.

The divisions on the left of the 90th were meeting with equal success, and were driving the enemy back to the river Meuse. With the breaking of the Freya Stellung by the 90th Div.

the vitally important railroad from Sedan to Montmedy was brought under our artillery fire and the enemy's hold on the Meuse was broken. The 5th Div. on our right crossed the river Meuse at Dun-sur-Meuse and was forcing the enemy up the right bank of the river. It was evident that the enemy's retreat was becoming completely disorganized and if our pressure could be continued he would break.

On the 9th of November the 179th Brig. crossed the river Meuse at Sassey, and by all night marching occupied Mouzay on the right bank of the river. The next day the 358th Inf. captured Blanc Fontaine, and after desperate fighting secured a foothold in Stenay. At the same time the 357th on the right had advanced over rolling country, swept by machine gun and artillery fire, and reached the heights overlooking Baalon and, later occupied the town. On this day the enemy threw into line against the 90th his last reserve division on the western front.

The 89th Div. on our left had in the meantime, forced a crossing of the river at Pouilly and was ordered to send troops to protect the left flank of the 90th Div. north of Stenay. When these troops were in position, it was planned to pass the 180th Brig. again through the lines of the 169th and to continue the attack in the direction of Montmedy.

The Armistice:— Early on the morning of Nov. 11th, word was received that the greatest battle in which American troops had ever

been engaged was ended by Germany accepting the Allied terms and that hostilities would cease at 11 o'clock. Before that hour patrols from the 358th Inf. forced their way into Stenay and completely occupied the town, the enemy having evacuated after the desperate fighting of the previous day.

From the armistice until the Div. started its march into Germany, the only activity was patrolling along the old front line to collect returned prisoners of war and civilians and to locate and guard abandoned and surrendered material of war.

Shortly after the conclusion of the armistice, Major General Henry T. Allen left the Division to take command of the 8th Corps. Command passed to Brig. General J. P. O'Neal who continued in command during the march into Germany, and until Dec. 30th when he was relieved by Major General C. H. Martin.

March to Germany:— On the 23rd of Nov. the 90th Div. having been designated as one of the nine divisions of the Army of Occupation (of which only one other, the 89th was a National Army Division,) moved forward toward Montmedy. The Division marched from Stenay across Luxembourg to Rhenish, Prussia, where as a part of the 7th Corps it shortly became Christmas and settled into winter quarters along the Moselle River in the vicinity of Berncastel Germany, occupying the krieses of Dann, Wittlich and Berncastel.

Summary:— The average advance

made by the Division in the St. Mihiel operation was six kilometers, in the Meuse Argonne 22 kilometers. The division was under fire from Aug. 20th till Nov. 11th with the exception of seven days occupied in changing sectors. Seventy-five days Without a relief. During this time it went over the top in two major offensives and seven minor operations, and was still advancing when halted by the armistice.

The Division captured 42 pieces of artillery, 36 trench mortars, 294 machine guns, several rifles and immense quantities of ammunition and stores. It took as prisoners, 32 officers and 1844 men. Casualties amounted to 37 officers and 1042 men killed outright; 62 officers and 1257 men severely wounded; 123 officers and 4671 men slightly wounded; 81 officers and 2094 men gassed. Of the gassed there were 17 deaths and 1204 men were evacuated. Exact figures cannot be given on the missing for a search is being made of all this class, and the number is decreasing daily.

The 90th was the 22nd to reach France; it stands tenth in the amount of artillery captured; 13th in the No. of machine guns captured and 14th in both prisoners captured and total advance.

The division received five official commendations for its individual work in the St. Mihiel and Meuse Argonne operations. It won its place in the Army of Occupation by never failing to accomplish its mission and by never giving up a foot

of ground to the enemy.

By Homer Winston.

We have been requested to announce that Chas. E. Metcalfe, of Lubbock, will be here again today, and will preach tonight, tomorrow night and Sunday morning in Brownfield and Sunday afternoon and night in Gomez. Your are cordially invited to hear him.

Among those who have let building contracts lately, we might mention our progressive bootmakers, Frank Martin & Son. They will tear down the two shacks that now are occupied by the shoe department, and that occupied as a residence by Frank Jr., and make a neat boot and shoe shop of the two. further back on the lots, they will have a neat little three room cottage built. These people are progressive in every sense of the word, as well as actually the best boot-makers in West Texas. They have worked hard since they have been in Brownfield, and like the town and people, and aim to make this their future home. As evidence of the popularity of their work, they now send their boots to almost every southwestern state under their very strict guarantee, and only a few weeks ago, they sent a pair to a point in the state of Main. As we stated above, they are hard working men; are sober and strictly attend their own business. Herald wishes for them continued prosperity.

FORD! THE UNIVERSAL CAR

The Ford Motor Company have instructed us to sell the genuine Ford Parts to any and every reliable garage who will pledge their use in the repair of Ford cars. The genuine Ford parts are absolutely necessary to the owner of Ford cars that he may get full service from the car. We carry them, and so, we hope, in a short time will every reliable garage. We solicit your service business because we have the Ford methods, the Ford Parts, the Ford Mechanics and the Ford Prices. Incidentally would be glad to get your order for one or more Ford cars. And do not forget that we are the exclusive agents in Brownfield for the justly celebrated Goodyear Cord Tires.

A Word of Thanks

I take this method of thanking the good people of Brownfield and its magnificent trade territory for their business and the many courtesies during my short business career in Brownfield. I have nothing but the best of feelings for the splendid citizenship of this place and it is with many regrets that we are forced to part with you. Whenever you are in Lubbock, Look up the Carter Store, and we assure you a real welcome. Again thanking you, I remain,

K. CARTER

Produce Fertile Eggs

Poultry experts in a position to know whereof they speak estimate that \$15,000,000.00 are lost annually because of the production of fertile eggs during the summer months.

Fertile eggs will not keep well in warm weather at a temperature of above 60 degrees, and few people in the rural districts are in a position to keep their eggs below this temperature. Infertile eggs will keep for about two weeks in edible condition, which gives time to gather the eggs and get them to market.

Furthermore, during the spring and summer when eggs are plentiful it is customary to eat eggs morning noon and night until one can scarcely stand the sight of an egg, simply because they are plentiful and may spoil.

It would be much better to save these eggs for use when the hens are not laying so bountifully, at which time eggs are at a premium.

This may be done by producing infertile eggs. Drive the rooster from the flock. This will not interfere with the production of eggs. In fact expert poultrymen seem to feel that it helps the production. Kill the scrub roosters, and isolate the pure breeds until fall. Do not place them in a small pen, but rather in a roomy, shady inclosure, where they may get plenty of exercise, grass and insects.

Eggs may be preserved in water glass and kept until winter.

May the 29th has been set aside as the day to banish the rooster from the flock and introduce the great drive for the production of infertile eggs in order to save Texas' proportion of the usual annual loss.

Talk to your County Agent about this great drive or write to the Extension Service, A. & M. College of Texas.

Making a Man out of Milk

Florida has found it difficult to produce enough milk to give the children in the State the amount they need for health and growth. The United States Department of Agriculture and the State college are cooperating in the effort to rid the State of cattle fever ticks and increase the number of dairy cattle. Meanwhile, the value of milk in the diet of the growing child is being emphasized in all parts of the State.

One of those convinced is a man in Manatee County. His son had always been below the standard in weight. At 17, he weighed less than 100 pounds. At length a teacher who was progressive and sympathetic suggested that he drink milk. At first he received at home little encouragement about adopting this "new-fangled idea" but now his father boasts of his sons improved appearance.

"He has gained so much he does not look like the same boy," he proudly told the home demonstration agent of the county.

JUST received a car of White Face Flour.—Brothers & Brothers.

H. W. Stewart, son of A. P. Stewart, of the Tokio community, who has just recently been discharged after overseas service in the army, left Tuesday for Olony to accept a position in a barber shop, after a visit with home folks.

Thrift Speeches Favorites.

Austin, Texas, April 30—Instead of such old-time favorites as "Curfew Shall Not Ring Tonight," and "Horations at the Bridge," Spartacus' "Address to the Gladiators," and Lincoln's Gettysburg Address, several thousand Texas boys and girls will deliver orations or declaim poems on Thrift in the oratorical contests of the Texas Interscholastic League this fall and next spring.

At the request of Frank M. Smith, Federal District Director of the War Loan Organization, the school division of the University of Texas extension department has enthusiastically agreed to recommend Thrift orations and verses to the 2,500 schools affiliated with the Interscholastic League.

A volume of Thrift orations and poems is now being compiled by the publicity department of the Savings Division and at least one copy will be placed in the hands of each principal and teacher of the affiliated schools. Since plans are now being worked out for a thorough organization of all the public schools of the State into Savings Societies, Mr. Smith believes the use of the orations and poems will do a great deal to increase interest in the Savings Campaign.

While there are already War Saving Societies in most of the schools of Texas, District Headquarters is not yet satisfied, as several States already have a Savings Society in every room of every public school. One of these is Montana, which is now leading the country in average sales per capita. Mr. Smith is determined that Texas shall be so

thoroughly organized that this State is second to none in the Thrift movement.

Baptist Worker's Council Closed Sunday Night.

The Baptist Worker's Council, that met with the Tahoka church, Friday, Saturday and Sunday of last week, closed Sunday night. Quite a number of delegates from other nearby towns were present and a most interesting session was held.

Those attending the meeting from outside points were: Mrs. J. Pat. Horton, Mr. and Mrs. Ira Weakley, N. Taylor and wife, Mesdames Mason Boucher and Hume, of Post; Rev. McCaulley of Slaton, Rev. Heath, of Plainview; Rev. and Mrs. Vinson, J. W. Souter and H. T. McGee, of Brownfield; Mr. and Mrs. Timmons, of Meadow; Messrs. and Mesdames Nobles, Hickerson, Edwards and Yates of Three Lakes and Miss Lucile Robinson of West Point.

The Council voted to hold the next session with the Slaton church.

Several important business matters came up for discussion, among the most important being a decision to employ a missionary for the Brownfield Association. A committee was appointed to get in touch with some good man to fill the position.

The delegates to the meeting departed for their homes late Sunday afternoon.—Tahoka News.

C. K. Johnson, one of our westside stockmen, was over this week after supplies, and helped the Herald to keep coming his way by handing in one dollar and four bits of the coin of the realm.

WE HANDLE Magnoline Lubs at 80c per gallon; also a cheaper lub. Scott Brothers Motor Co.

One of the most complete oil cooking stoves that we have seen, are now on exhibition at the Brownfield Hardware Store. It has neither wicks or rings to monkey with, and will burn any kind of fuel oil. It has the added advantage that it is more like a real range than any oil stove exhibited here so far. We understand that a demonstrator will be here in the near future to show its many good points under actual tests.

The average farm implement is only about half worn out by use alone. The rest of the wear is due to rust and decay. The greatest possible profit is made out of machinery when it is used continually for profitable work until it is worn out.

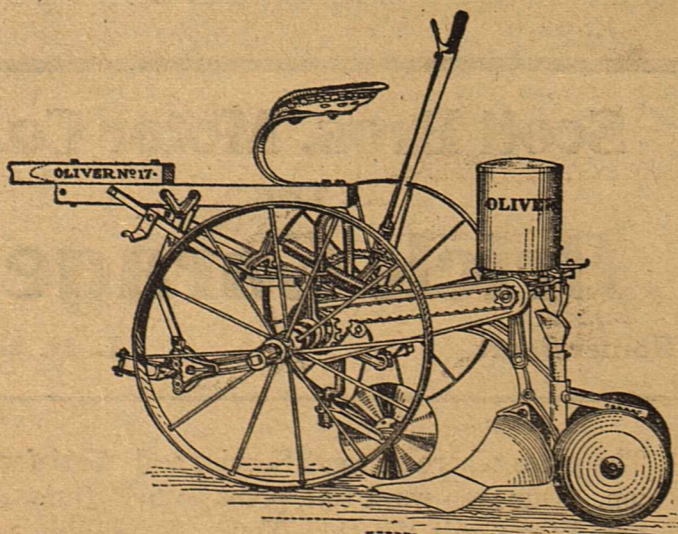

THE LIBERTY Theatre are now showing three nights each week, and will continue to do so on Tuesday, Thursday and Saturday nights. Old people over 60 go in free.

SEEDS

Over 500 Varieties. POULTRY SUPPLIES, INCUBATORS. We can fill your order for any SEED. Poultry Articles, Plant sprays, Insecticides, Fungicides. Prices and quality always right. Prompt shipments. Ask for list. C. E. WHITE SEED COMPANY, Plainview, Texas.

Prof. W. B. Bishop of Gomez, left Tuesday for a few days of visiting, and we imagine to get into the oil excitement at Tahoka.
