### JUDGE MULLIGAN PLEDGES SUPPORT IN BUILDING FOR GREATER UNITY OF PEOPLE

#### Lubbock Jurist Offers His Congratulations To Local Man In Congress Race

Judge Clark Mulligan of the 19th judicial district court, Monday issued a statement for publication in The Record in which he expresses sincere congratulations to George Mahon for his victory in Saturday's contest for congress. Judge Mulligan states that he holds the warmest personal admiration for Mahon and all those who elected to oppose him in the campaign.

The Lubbock man offers strong bid for universal support of the new congressman, in that the entire citizenship of the district may work in harmony for an administration that would bring distinction to our chosen representative in Congress. The statement follows:

"This is to thank my good friends and neighbors of Lubbock and all counties of this District for their unswerving loyalty and support in my race for Congress.

"To the victor belongs the spoils, but I assure you the vanquished is equally happy in the knowledge that he fought a good fight and kept the faith and that he has so conducted his campaign as to have nothing to look back upon with regret.

"The people have made their choice. The Democratic Voice has spoken. Now let all of us cast aside our campaign prejudices and feelings and unite behind the young man who assumes the mantle of responsibility, to the end that he may achieve for the common good.

"I salute the first Congressman from the 19th District. I extend sincere congratulations and all good wishes, together with my warm personal friendship.

"To those who have worked and traveled and labored so faithfully and untriflingly in my behalf, I express undying thanks and appreciation. You have been my friends; I assure you I am yours, now and forever.

"To those who opposed me, I have only the highest admiration for your sportsmanship and your fairness. With few exceptions you have been a gallant and friendly bunch, and I have enjoyed the contest of 'trust and parity' with you immensely. There are no scars to heal and no regrets to offer.

"I salute you all, and wish for our united people the hope of the future, which is the attainment of happiness and contentment as our goal of life."

#### Colorado Attorney Leads In 21 Counties. With 35,054 Votes To 19,122

George Mahon, Colorado district attorney, swept the 19th congressional district Saturday to win nomination as first representative from the new district. His opponent, Judge Clark Mulligan of Lubbock trailed in all parts of the district, excepting Lubbock and three other counties.

Total unofficial vote as tabulated by The Record gives Mahon 35,054 votes to 19,122 for Mulligan. The Colorado man carried all of the larger counties excepting Lubbock, running ahead in Hale, Lamb, Crosby, Floyd, Lynn and others adjoining home county of Judge Mulligan.

Mahon received 3,043 votes in Lubbock county to 4,292 for Mulligan. In Mitchell, home county of the successful candidate, the vote was 2,810 for Mahon to 410 for Mulligan. Scurry, Howard and other counties in this part of the district rolled up overwhelming majorities for the Colorado man.

It is of interest to note that Mahon carried Lamb county, home of Senator A. P. Duggan, defeated in the first primary, as also Dickens county, home of Fred C. Haile, another of the eliminated congressional candidates. Lynn county, home of still another congressional candidate in the first primary, too, gave Mahon a commanding lead.

In eastern part of the district Haskell, Stonewall and other counties were swept into the Mahon column with strong majorities.

Friends of the successful candidate here maintain that the victory was one of the most decisive noted in West Texas politics in several years. Mr. Mahon was unknown to a large number of voters in the district prior to the campaign.

Returns giving the totals listed are complete from practically all of the twenty-five counties; with scattering votes to be accounted for in only a few. Mahon's ratio is not expected to be changed materially with compilation of complete, unofficial tabulations.

### OVER THOUSAND ATTENDED ELECTION PARTY HELD AT RECORD OFFICE SATURDAY

#### Results In All Contests Are Known Early; Mahon Lead Brings Applause

The Record's election party staged Saturday night in Walnut street was attended by an estimated crowd of 1,200 to 1,500 interested citizens. Initial report showing count at Colorado was posted on the bulletin board within a few minutes after the polls closed and from then until after 11 P. M. returns were received and tabulated with unusual progress.

Results in practically all races were known at an early hour, as votes from the 11 boxes continued to pour into the business office. Due to shortness of the ballot counting progressed rapidly and complete returns from every box excepting McKenzie had been received by 11 o'clock.

News of results over the 19th congressional district, showing George Mahon leading his opponent, Judge Clark Mulligan of Lubbock, by a ratio of about two to one, brought considerable applause from the large crowd. The Colorado man held consistent leads in more than twenty of the twenty-five counties.

Telegrams offering congratulations to the congressional winner came into The Record office from all parts of the large district. Judge Mulligan wired his congratulations from Lubbock at 9 o'clock, pledging Mahon his sincere good wishes and warm friendship.

A total of 3,221 votes were polled in the county unofficial tabulation by this newspaper Saturday night indicated. In the first primary election a month before the vote was 3,400. At Colorado 1,550 votes were polled, compared to 1,619 in the previous election.

The venture of harvesting mesquite beans for market has come back into vogue at Colorado. The bean crop is unusually good this season and it is reported that local buyers are offering a price of from 60 to 85 cents per bushel for the beans.

Farmers and ranchers have long recognized the high feeding qualities of mesquite beans. It is a rarity, however, that persons engage in the business of harvesting them from the tree and hauling them into town to market.

There are those who will contend that the beans are the equal of maize, Indian corn, and other grains for feeding livestock. The animals seem to have a preference for the beans, it is said.

### SEALED FARM AND RANCH LANDS TRANSFORMED INTO PROMISE OF BETTER DAYS

#### Colorado Soaked With 2.85 Inches; Heavier In Other Parts Of West Texas

Rains ranging from downpours of from 3 to 5 inches in some localities to heavy showers in others, covered Colorado and a wide section of West Texas Thursday night of last week and again Tuesday of this week. Total rainfall here was 2.85 inches.

The moisture served to bring an end to one of the most devastating droights the country has ever experienced, bringing smiles of optimism to faces of the citizenship and adding potential promise to increased crop yields on the farms and a late crop of grass on the range. Farmers and ranchers of the territory are jubilant over the outlook.

The first rain to come swooped down on the area shortly before midnight Thursday. Hundreds of citizens in town and country, left their beds and went out into the open to stand in the downpour. "We were so elated over the rain that such a procedure was adopted as a means of celebrating," to quote a farmer living a few miles south from Colorado. A total of two inches fell here Thursday night and Friday.

Second rain fell Tuesday, adding .85 of an inch to the week's total. Due to fact the moisture fell slowly but steadily, water placed in surface tanks. Water holes, however, are affording ample supply for the present, ending necessity upon the part of scores of citizens to haul water for their livestock.

Along with their country neighbors Colorado merchants are smiling as token of appreciation of the rains. Business here has registered a material upward trend during the past few days, the sequel to a more stable aspect in the general business horizon.

That late feed will be advanced considerably is generally accepted. Farmers now will be enabled to harvest sufficient grain and forage crops to run until another crop. Cotton will be benefited by the moisture, the outcome meaning the addition of several hundred bales above estimate accepted before the rains came.

West, south and northwest from Colorado the rain was heavier. Big Spring reported four inches. Over four inches fell at Midland and in some localities in south Martin county it is claimed that eight inches were registered. The rain covered most of the Western half of the State and practically all of New Mexico.

**J. Brown Of East Hill Will  
Retail Well Known Tires,  
Tubes And Accessories**

Announcement has been made of the appointment of J. Brown, of Colorado, located on East Hill, as a tire dealer for The B. F. Goodrich Rubber Company, to handle the complete line of Goodrich tires and accessories in Colorado.

"Developments in tire engineering, distribution and merchandising by the Goodrich Company in recent months prompted our decision to obtain the Goodrich franchise in this territory," Mr. Brown said.

"Goodrich has manufactured rubber products for 64 years and was America's first tire builder. Many of today's outstanding principles of tire construction were first developed by Goodrich.

"Recently Goodrich research engineers perfected the Life-Saver Golden Ply—said to be the most revolutionary step in the industry since the introduction of the black tread in 1915, also a Goodrich contribution."

The Golden Ply is standard in all Goodrich Silvertown tires, the new dealer said. It is a ply of especially compounded rubber engineered to resist the heat of friction and flexing from penetrating into the tire carcass. This solves one of the outstanding problems in tire manufacture—since the evolution of faster cars, smaller wheels and balloon tires.

"We also will sell Goodrich Cavalier tires, a high quality product bearing the famous Goodrich trademark; Goodrich Silvertown and Cavalier tubes, and Goodrich accessories. The Silvertown line embraces low-pressure, or Flying Silvertowns, the newest balloon tire development to provide comfort and economy in motoring," Mr. Brown stated.

### ESCAPED CONVICT TAKEN SUNDAY WHILE VISITING AT HOME NEAR SNYDER

SNYDER—Surrendered by his wife after their home in northwest Snyder was surrounded, Clarence Brown was transferred to Dickens county jail, from which he had escaped.

Brown and Virgil Stalcup made their way to freedom Saturday, Aug. 18, after menacing the daughter-in-law of Sheriff W. B. (Bill) Arthur with a knife.

Since the escape, Brown had stayed in a pasture south of Snyder, until Saturday, when he went to his home, he told his captors.

J. A. Woodfin, city marshal; S. J. Casstevens, night watchman, and two civilians, J. L. Byrd and G. H. Leath, surrounded the Brown home.

When Mrs. Brown came outside to milk, the officers questioned her. She denied her husband was in the house. After one departed for a search warrant, she retreated and said she would surrender her husband. He did not resist.

Dickens county officers came to Snyder and returned Brown to their jail.

Capture of Stalcup within the next several days was anticipated, Sheriff Arthur said.

Brown and Stalcup awaited trial in Dickens county for holding up a bottling company truck driver. Both are under sentence in other cases.

The pair was caught after a gun-battle near Lawton, Okla.

### CHURCHES

#### FIRST BAPTIST CHURCH

Our fall program begins with next Sunday's services. Our organizations have held up remarkably well through the hot summer months. Now as the revival season closes, and the vacation spirit wanes we expect to see a general advance along all lines of our program. The pastor expects to be at home for all services Sunday and right along through the fall and winter months. The six revivals in which I have represented our church this summer have been successful meetings, and now I am grateful for the privilege of coming home to the routine of our local church activities.

Important announcements will be made next Sunday concerning the annual association meeting which convenes with our church on September 6-7, which will be Thursday and Friday of next week. Not less than 300 people will be here from out of town, and some of the denominational leaders will be heard on the program. Let's have 450 in the Sunday school, and 100 in the B. T. S.

As an expression of our gratitude for the fine rains, let's bring a liberal offering for our church and denominational program.

DICK O'BRIEN, Pastor.

### Campaign For Development Of Highway Plan In West Texas Launched By WTCC

STAMFORD—The development of a regional highway plan for West Texas, to comprehend the present and future needs of the area was launched by the West Texas Chamber of Commerce Monday.

In a letter to the 203 directors of the regional chamber in the 191 affiliated cities and towns James D. Hamlin, president and R. H. Nichols, chairman of the regional chamber's Territorial Development Commission sought their cooperation by giving a statement of the arterial highway needs of each county in the territory.

They said: "For the purpose of being of the maximum assistance in securing for the West Texas territory an adequate state and federal highway system, we propose, with your assistance, to develop and champion a highway plan that will comprehend our area's present and future needs. The principal regional need is the development of arterial highways."

"As a beginning in the development of this plan we must know the state and federal highway needs of your town and county. Therefore, we want you to immediately submit a report giving the needs of your county and section, stating how the report was made and by whom approved and submitted. We suggest you cooperate with your local chamber of commerce and public officials in the preparation of the report. Do not include any lateral or local roads, as we expect to interest ourselves only in promoting development of the major arteries of highway traffic."

"From these reports from our affiliated towns we shall undertake to prepare for West Texas a plan for developing and building our highways. We expect this plan to become a part of the work of the National Planning Board and to assist in the preparation of the plan we have secured the services of Julian Montgomery, well known planning engineer of Wichita Falls, who served for a time with the National Planning Board. When the plan is completed we expect to submit it and advocate it with all possible vigor before the State Highway Commission, with the view of hastening the day when West Texas will have a complete highway system."

Five Colorado men, four of them Legionnaires, helped the Sweetwater American Legion Band, musical organization of the Musicians' Post No. 1 of the American Legion in Sweetwater, win the title of "Official Band" of the State American Legion at the convention in Mineral Wells early this week.

The five men were Marion Hardison, Harry Ratliff, Hall DeGarmo, Frank Pidgeon, and Grady Newman. All but Pidgeon are members of the Legion. Ratliff was recently elected first vice-commander of the post, and DeGarmo is a past commander.

The Coloradoans left with the band Saturday night, giving a concert in Sweetwater before leaving. They played for the bathing revue and in the contest on Monday. ## SPIRITED CONTESTS FEATURE SECOND PRIMARY RACES

### HERRINGTON NOSES AHEAD BY 6 VOTES TO WIN OVER FLOYD QUINNEY SATURDAY

#### Other Campaigns Are Close As Voters March To The Polls In Run-Off

James Herrington of Westbrook managed to emerge winner over Floyd Quinney of Colorado Saturday in one of the most closely contested political campaigns Mitchell county has experienced in years. The Westbrook man won by the close margin of six votes for county clerk.

"Call for Mr. Herrington. He has defeated me and I wish to offer my congratulations," Quinney requested operator of the loud speaking equipment in The Record office after all boxes had been reported complete excepting McKenzie and it was definite that Herrington had won. Herrington received 1,619 votes and Quinney 1,613.

Herrington, mingling among the large crowd of citizens in front of the office, came into the building and the two men walked arm in arm to a nearby drug store to have a drink together.

B. L. Templeton defeated B. N. Carter in run-off for county judge, polling 1,909 votes to 1,350. Carter carried the Colorado box by a vote of 776 to 768. He also carried Spade by 11 votes. Templeton ran up a lead of over two to one at Loraine and carried all of the other precincts.

J. B. Holt, county tax assessor and a veteran public official, was defeated for assessor and collector by Roy E. Warren who emerged from the contest of ballots with a lead of 230. Holt polled 4,504 votes to 4,734 by Warren. Warren led in the Colorado, Westbrook, Spade, Carr, Buford and Hyman boxes. Holt carried Landers, Cuthbert, Loraine, Iatan and McKenzie.

Another interesting county race that held keen competition throughout was that of Roy Davis Coles and Chas. Brazil, contesting for election to the office of county superintendent. Coles, Hyman school principal, won by 1,682 to 1,561.

District Clerk J. H. Ballard was returned for his third term in office with a strong lead over Mrs. Willie May Thompson. The vote was Ballard, 1,874; Thompson, 1,354.

A vaccine for treatment of rheumatism was discovered by Dr. Benjamin J. Clawson of the University of Minnesota medical school.

### 'DUTCH,' FAITHFUL DOG ATTENDING OFFICER FOR THIRTEEN YEARS, PASSES

"Dutch," faithful dog who during thirteen years was the friend and constant companion of T. A. Hickman, pioneer Colorado police official, is dead.

The dog died at the Hickman home Friday night from the ravages of old age. He was known to practically every citizen of Colorado and since his passing it is being universally recalled that one would ever see Mr. Hickman making his rounds as a member of the night police force with Dutch either trailing at his heels or moving a few paces in advance of his master.

That the man and his family who owned the faithful canine had learned to love the dog to an extent seldom realized was evident Saturday morning when news of his passing reached members of the Hickman household. There were tears in the eyes of every one there and those expressions of grief came because of definite sorrow.

Mr. Hickman is going his rounds about Colorado as in other years, but "Dutch" is not with him any more. And there is an expression in the officers' eyes that will tell the observer that the passing of his friend has left a deep scar in his heart.

### REV. ELLIOTT AND SON AT LOVINGTON, N. MEX.

### BIRTH CONTROL ESSENTIAL TO SOCIAL AND ECONOMIC PROGRESS, SPEAKERS SAY

#### Physicians Address Lions On This Problem Friday; Plea For 'Better Babies'

"There are entirely too many children being born into homes not able to care for those children."

"There are too few children being born into homes well able to care for them, lending every facility toward the building of strong citizenship, physically and morally."

"The habitual criminal—man or woman—has no business in becoming the progenitor of children, calculated to develop feeble minded or other types to be felt as burdens on society."

"The man or woman convicted of a crime in this State carrying a term in the penitentiary of ten years or more, should be sterilized before completing that sentence and returning to society."

"There should be a tribunal to pass upon the eligibility of every future bridal couple if the generations to come are to be preserved upon a high plane. If the applicants for marriage are not found to possess financial, physical and intellectual foundation and free from the scar of crime, they should be denied marriage."

Those along with other similar objectives described as essential in preserving the nation's social and economic status were entailed in addresses by Drs. T. J. Ratliff and C. L. Root at the Lions Club Friday. The physicians were presented on regular entertainment feature of the club meeting, under direction of Jno. A. Thompson, chairman.

"We do and say much about the breeding of a higher type of livestock and this worthy program has the endorsement of every good citizen. What about the breeding up of our children?" was challenge enunciated by Dr. Root as he pled for a more universal demand that birth control, properly understood, be invoked in America.

Dr. Ratliff called attention to the fact that it was not infrequent for a Colorado physician to be called to attend birth of a child from parents who were actually on rolls of the Mitchell county relief association. "This condition should not be and I am holding to the proposition that parents in such homes should be in-

### GEORGE MAHON THANKS VOTERS FOR VICTORY IN ELECTION ON SATURDAY

"I feel under everlasting obligation to the people of the 19th Congressional district for the vote given me Saturday. I find myself incapable of fully expressing my appreciation. In the great task that is before us, I solicit the support and good will of all our people throughout the district."

### Howard Davison Is Winner In Contest For Representative

Howard Davison of Rotan defeated Will H. Scott of Sweetwater for representative from the 117th legislative district, complete unofficial returns from the three counties show. His margin was 309 votes out of a total of 10,345.

Heavy vote given Davison at the polls in his home county of Fisher sent him to a commanding lead over Scott, the incumbent. Scott received a strong vote in his home county and in Mitchell county Scott led by less than 300 votes.

County	Scott	Davison
Mitchell	1,663	1,596

**SOAP-BOX RACES ATTRACT SIXTY THOUSAND VISITORS TO DAYTON, OHIO, CLASSIC**

**Eleven-Year-Youth Wins In Championship Sponsored By Chevrolet Cars**

A true soap-box type racer won the Chevrolet-sponsored All-American Soap Box Derby at Dayton, Ohio, August 19, in which the winners of local contests in 34 cities competed for the national championship. The winning car, driven by Robert Turner, age 11, of Muncie, Ind., who built it out of lumber, tin, and scrap iron, rolled on bare wheels and plainbearings to victory over more elaborate creations fitted with roller bearings, rubber tires, springs and automobile type steering devices. One of the winner's wheels collapsed just after he crossed the finish line. Turner, the first national soap-box champion, received as prizes a four-year college scholarship and a hundred dollar wrist watch. Both the Kettering cup, offered for the best constructed car, and the Rickenbacker trophy, for the fastest heat, were won by Jack Furstenberg, age 15, of Omaha, who raced an all-enclosed streamline vehicle. In the final heat, in which the winners of each of the classifications competed on a handicap basis, Furstenberg finished third. The fractional timer showed that in the final his car was 10 seconds slower than in the heat in which he set the record that earned him the Rickenbacker trophy. Second place was won by Claude Alexander of Chattanooga. Crowds estimated at 60,000 persons, most of them in grandstands and bleachers erected along Burkhardt Hill, watched the races. The event, which was singularly free from mishaps, was run on a brick paved hill 3.8-mile long with a grade as high as 12 per cent. The crowd was frequently thrilled by exhibitions of quick thinking and skillful driving on the part of the youngsters, and many a racer who did not cross the line first in his heat received louder and longer applause than the winner, in tribute to some feat of skill or nerve. One such driver was 14-year-old Claude Healy of Detroit. In the semi-final heat, an iron tire broke and curled up, and Healy drove the last 60 yards with his left front wheel jammed to a standstill, yet succeeded in keeping the car from going into the rail. The neatest trick of the race was performed by an unidentified driver. Just as he crossed under the bridge at the finish line, the rubber tire of his right front wheel came off. As the driver overtook the rolling tire he calmly reached out, picked it up, and waved it to the crowd to show that all was well. The races throughout the country were sponsored by the Chevrolet Motor Company and leading newspapers in the various cities. The championship at Dayton, sponsored by Chevrolet and the Dayton Daily News, had the official backing of the leading civic organizations of Dayton in collaboration with Myron E. Scott, Daily News photographer, who originated the Soap Box Derby as a local event last year. The national championship event climaxed a two-day program of continuous racing. It required all day Saturday to run off the Dayton local contest, with 424 entries; and to decide the all-Ohio championship, which was won by Charles Baer, 11, of Akron. The races were broadcast over a

*Doubles*

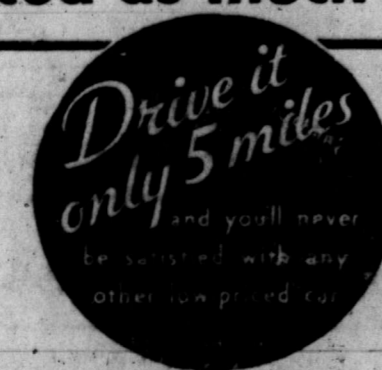

**the pleasure of motoring**

**CHEVROLET** The best way to prove that Chevrolet's Knee-Action actually makes motoring twice as pleasant as before is to drive the new Chevrolet over all kinds of roads. You will find that the continuous jars you used to get even on smooth pavements are ended. The steering wheel is free of vibration. Back seat passengers are comfortable and relaxed. You can maintain higher speeds over rough roads that used to slow you down. ### Dorn Homecoming Sunday Drew Nearly 300; Several Families Were Reunited

Back to the place they once called home, back to the place where loved ones of many of them are buried, people from all over Mitchell County and all parts of the State flocked to the fourth annual Dorn home-coming Sunday, greeting and mingling with

those who now call Dorn their home community.

The home-comings grew out of the reunions of the family of J. M. Dorn to include everyone who has any interest, past or present, in the Dorn community. Some three hundred people were present for the program and barbecue Sunday.

As a feature of the day's program, Dr. J. T. Griswold, now pastor of the Methodist church at Baird, preached at eleven o'clock, filling the same pulpit from which he preached so many times when he was presiding elder of the old Colorado district of Methodism some thirty years ago. He lived here from 1905 to 1909, moving to Sweetwater when the name of the district and its headquarters were changed to that place.

Dr. Griswold was introduced by Rev. Cal Wright of the First Methodist Church in Colorado. Rev. W. C. Hart, a former Mitchell Countyman who came from O'Donnell for the home-coming, also spoke briefly, as did Rev. D. A. Ross of Westbrook, regular pastor of the church.

A central figure of the reunion was J. M. Dorn, who lives in Colorado and for whom Dorn's chapel was named when it abandoned the name of Union years ago. Mr. Dorn lived on the same farm in the Dorn community for nearly forty years, rearing his children there. Mrs. Dorn died nine years ago.

A number of families were reunited for the first time in years during the home-coming.

Dr. J. T. Griswold's three sisters, the only members of his family living in Texas besides himself, were all present. They were Mrs. R. L. Moore of Tulsa, Mrs. J. O. McCreeless of Sap Antonio, and Mrs. John Nash of Breckenridge.

The family of Mr. and Mrs. T. C. Richardson of Dorn was also together for the first time in years. Mrs. Richardson is a daughter of Mr. Dorn. Members of her family present were Mr. and Mrs. Emmett Richardson of Midland, Mr. and Mrs. Ernest Richardson of Big Spring, Mr. and Mrs. Jake Richardson of Colorado, Mr. and Mrs. Vance Phoenix of Houston, Mr. and Mrs. Ray Richardson of Colorado, Mr. and Mrs. W. B. Crockett of Colorado, Mr. and Mrs. Mike Smith of Colorado, and Doris and Douglas Richardson, who are still at home.

E. M. McCreeless of Colorado also had all his children present: Mrs. Leila Turner of Sylvester, Mrs. E. B. McGuire of McAllen, Mrs. Reese Bedford of Colorado, J. D. McCreeless of Stanton, and O. R. McCreeless of Roby.

The late Mrs. J. M. Dorn's only surviving brother, J. O. McCreeless

### Centennial Meet To Attract Number Of Local Methodists

Headed by the Rev. Cal Wright, pastor of the Methodist church and a member of the state centennial committee, and his family a good representation of Colorado Methodists plan to attend the Texas Methodist Centennial Celebration in San Antonio next week, September 4, 5, and 6.

Among those who have made tentative plans to attend from here are Mrs. E. A. Barcroft, Mrs. J. G. Merritt, Mrs. J. W. Shepperd, Mrs. Dick Gregory, Miss Nelda Garrett, Mr. and Mrs. Urda Wulfjen, A. D. Kiker, W. H. Garrett, Dale Warren, and Rev. and Mrs. Wright.

Centennial activities will be in the form of devotional services, both morning and evening, at the San Antonio Municipal Auditorium and Breckenridge Park open air theatre. Prominent church men on the speaking program include Bishops H. A. Boaz, A. Frank Smith, McKinney, Sam R. Hay, Edwin Holt Hughes, Charles L. Mead, and John M. Moore.

of San Antonio, and her only sister, Mrs. M. P. McCall of Colorado, were together during the day.

Nine of those present could hark back sixty years to the time when all of them were living in Mount Hilliard, Alabama. These were Dr. Griswold and his three sisters, J. M. Dorn, Mrs. M. P. McCall, Mr. and Mrs. J. O. McCreeless, of San Antonio, and Rev. W. C. Hart of O'Donnell. J. M. Dorn was the first of the group to come to Texas. The others followed shortly afterward and settled in various parts of the state.

Mrs. N. J. Phenix of Colorado had a special interest in the home-coming, her foster parents, Mr. and Mrs. J. W. Clark, having lived on a farm in the Dorn community forty-two or forty-three years ago. One of her sons, Vance, married a granddaughter of J. M. Dorn.

A barbecue and bounteous basket lunch was served at noon. The beef was furnished by Mr. Dorn, the wood to cook it by Watt Collier, and the barbecuing was superintended by John Costin of Westbrook, Hood and Wylie Formwalt, Mark Bynum, and Pierce Dorn.

Members of the Dorn family present were Pierce Dorn, Mrs. W. J. Chesney, and Mrs. T. C. Richardson, all of the Dorn community; Marvin Dorn of near Westbrook; Mrs. W. E. Thraikill of Stanton, Mrs. T. J. Coffee of Lorraine, and Mrs. R. D. Hart of Colorado. Mrs. B. A. Donaldson of Stratford, Mrs. J. L. Dow of Lubbock, and J. W. Dorn were unable to be there.

Following is a list of those coming from out of Mitchell County: Dr. J. T. Griswold of Baird, Mrs. John Nash of Breckenridge, Mrs. R. L. Moore of Tulsa, Mr. and Mrs. J. O. McCreeless of San Antonio, Mr. and Mrs. Orion McCreeless of San Antonio, Rev. W. C. Hart of O'Donnell, Mrs. Frank Autrey and son, Earl, of Stanton, J. D. ### DAVISON IN STATEMENT TO PEOPLE OF DISTRICT

I am grateful to every citizen in this District for the expression of confidence of the majority of voters in the run off primary.

I am your public servant and being a staunch believer in the preservation of Democratic principles it is my desire to be the "voice of the people" in this District.

I will sponsor, work and fight for any legislation that will be of benefit to the majority in this District.

You have elevated me to a position of public trust. This position always belongs to you and it is my desire, in serving you, to serve you fairly and constructively.

Your State Representative-elect, HOWARD C. DAVISON.

### SMITH APPRECIATES THE SUPPORT GIVEN IN RACE

Jack Smith, defeated by five votes for county commissioner in Precinct No. 1, wishes this newspaper to state for him that he appreciates very much the vote given his candidacy. "I received 777 votes at Colorado, 52 at Buford and 8 at McKenzie, every one of which I appreciate very much," he stated.

### Lady Says CARDUI Eased Pain In Side

Cardui helped an Oklahoma lady, as described below, and many others have benefited in a similar way. "I had a hurting in my side every few weeks," writes Mrs. Bill Stewart, of Dewar, Okla. "I had heard of Cardui and started taking it. It stopped my hurting and built up my strength. I took 11 bottles and I sure felt better." Try Cardui for pain, cramps, nervousness due to a "twisted condition." Thousands of women testify Cardui benefited them. If it does not benefit you, consult a physician.

### Educators Invited To Meet With Miss Mann In Abilene

Miss Sue B. Mann, deputy state superintendent in this educational district, announces through Mrs. Ruby McGill Dodge, county superintendent, that she will be in her district office in the high school building in Abilene Thursday, Friday and Saturday of this week.

She will devote her time those days to meeting those in her district wishing to confer with her on any educational problems which have arisen during the summer.

A number of Mitchell county educators will probably be interested in this announcement. Miss Mann does not plan to be back in this district until after September 10, Mrs. Dodge states.

Recent remapping of districts under the state department of education left this county under Miss Mann's supervision. District No. 3 now includes, besides Mitchell county, the following other counties: Taylor, Nolan, Jones, Fisher, Scurry, Haskell, Stonewall, Kent, Knox, King, and Dickens.

The re-mapping simply moved Miss Mann farther west, her district last year including Callahan, Eastland, Shackelford, and Stephens counties along with Fisher, Jones, Mitchell, Nolan, Scurry, and Taylor.

### MRS. THOMPSON GIVES STATEMENT TO VOTERS

I want to express my sincere appreciation to my many friends who gave me their loyal support in the run-off primary last Saturday.

I feel highly honored to have rated 1346 votes considering the short time I was in the race. I am more determined than ever before to try to be worthy of your friendship and to make new friends in the future.

I want to congratulate my winning opponent on the large number of your friends who expressed their trust and confidence in his services, also on the high plane on which he conducted his campaign. I concede him the election to this office with no ill feeling whatsoever and wish him a most successful term.

Sincerely, MRS. WILLIE MAY THOMPSON.

### HOLT THANKS VOTERS FOR SUPPORT EXTENDED

"I am deeply grateful for support given my candidacy in the recent primary elections and shall ever remember with gratitude the many favors accorded me by the splendid citizenship of Mitchell county," J. B. Holt said Tuesday morning in statement for publication. "I maintain good will for every citizen and shall continue to render whatever service I may for the best interests of my fellow citizens." REV. NICHOLS TELLS OF HOW PRAYER ONCE BROUGHT RAIN

By REV. HOLMES NICHOLS. We read with much interest Mr. C. H. Tompkins' picture of a drought in Western Texas, an account of which appeared in the American last week...

darkness of drought and desolation behind her. Renters headed back east for greener pastures, and still waters, while some of the oldtimers remained with the stuff, and won the day. They lived to see the desert blossom as the rose...

During the drought mentioned above I was pastor of our church in Colorado City, Texas. The following report by a correspondent of the Dallas News tells the result: "Colorado, Texas, May 24.—The praying people of our city held their last of a series of services last night, in which they prayed for rain. Whether their prayers had anything to do with it or not, we can not say, but we believe it did, so shortly after midnight a good rain began falling until we got 3/4-inch rain. This is the first rain of any consequence since last November. We are planning a prayer and praise service to thank God for His refreshing shower...

Did that rain come in answer to prayer? Was it merely a coincidence? Had God arranged a longer drought program, and did He change His program in answer to prayer? Was it brought about by natural law as in New York lately to the surprise of the weather forecasters. Read this, reader, and think: "The weather forecasters in New York did not anticipate a heavy rain one night recently. This was caused by an unusually cold blanket of air—temperature running in the thirties at 10,000 feet—which slowly moved toward the earth. Astonishing as it seems, the downpour which lasted all night came from a height of not more than 10,000 feet." Was this unexpected precipitation in answer to prayer? There are many unanswered prayers recorded in the Holy Book. "Prayer without effort is hypocrisy; effort without prayer is presumption."

tion." All prayers must come within the circle of the divine will. Three times St. Paul prayed God to remove a thorn in the flesh, some bodily affliction, but the request was not granted. Instead, God said: "My grace is sufficient for you." This drought is a thorn in the flesh. I think we should pray God for wisdom, strength, courage and patience to carry on in keeping with His holy will.

The Indians have just closed a meeting in which they prayed their rain gods for rain. A light shower came. Was it in answer to prayer? A tribe in Africa, according to Brisbane, prayed their god for rain, and it rained and rained and rained. It would not quit. So they called in other priests and medicine men to pray for it to quit, and it did! An aged, cultured, but eccentric Baptist preacher, Dr. Kimbrough, was asked by the pastors of Plainview, Texas, during the drought mentioned above, to join them in praying for rain. "Yes, brethren," he said, "but there is no use to pray for rain till the wind changes."

"Weeping may endure for the night, but joy cometh in the morning." Then let us prayerfully carry on to the end. Bro. Nichols was pastor here of the First Baptist church from 1906 to 1910 and of course the above letter was written before the recent rain.

Speaking of the drought this writer has gone into a scientific research and find we all may be made a generation of squinting people. The eyebrows and forehead protect against overhead light, but nature failed to provide protection against the glaring reflection from streets, walls and the earth itself. Greenery in the form of trees, shrubbery and grass tend to absorb light. The drought in addition to causing a surplus of sunbeams has caused an appreciable death of green foliage greatly adding to strain on the eye. Hence we are all squint-eyed these days.

ALPHABETICAL CODES

Last week we received a report from the PWA, NRA and RFC and tried to explain and one of our readers says the explanation is worse than the explained. It takes a good explainer to explain the explanation. To explain in an explanatory manner one must be quite explicit in his explanation. So this week we will try to make it a little clearer by taking the inflated silver dollar. If the nationalization of silver, following the abandonment of the gold standard as a means of experimental inflation to regulate foreign exchange, makes possible an increase in government allotments for under-production of farm products in accordance with the AAA, then how many eggs could a hen and a half, and what effect would this have on a boy going to mill in a Model T Ford.

DROUGHT ADVANTAGES

Even the darkest picture has its bright side, and the non-existent clouds of the prolonged drought have their silver lining. Government entomologists working in Texas report that the long dry spell has resulted in the destruction of numerous insects having a bearing on economic existence. Flies, boll weevils, mosquitoes and even the pesky chigger, accustomed to breeding and flourishing in moist places, are scarcer right now than in a score of years, according to the Government men. Last spring red bugs were a common nuisance, but today they have been starved out over wide areas. Some of the State's worst boll weevil counties report no damage from that billion-dollar bug.

NOT YET

The political situation now looks like NO REPEAL or Horse Race Gambling. The same trend is evident in the

News of Club Girls And Women

Letters have been mailed to the eleven 4-H Club girls in regard to the canning of two jars of relishes for their exhibit in September. The girls that are working for a Dallas Fair trip should make every effort to get good products by bargaining from neighbors, friends, and merchants for vegetables if they do not have them in their own garden. Green tomato relish may be substituted for cucumber pickles also pepper relish may either be made. Square glassed top jars are required if you are working for a Dallas Fair trip.

In case you cannot get them you may call at the office and the agent will see that you get your jars. Mrs. Frank Andrews, who is the clothing demonstrator for the Hyman home demonstration club handed in her report of the clothing account kept for herself this year up to June 1st. Her expenditures up to then were \$4.92. This included expenditures for underclothing, dresses, headwear, footwear and accessories. Mrs. Andrews has helped many in her community to cut collars, sleeves and saved on patterns.

Bedroom Improvement Demonstrator Mrs. Harry Hyman has had more people to visit her room up to the present time than any other demonstrator. This is one of the things in a demonstration that should be observed by every demonstrator, that is: To have your room ready every day to show to any visitor that might change in. A well kept room is like a well groomed person, it is good to look at. Prizes will be given to the women and girls in bedroom improvement work this year that have the greatest number of visitors to see their room. This will be done in October, after the county tour.

Mrs. Marshall Webb, bedroom demonstrator of the Looney club, after visiting the tufted bedspread exhibit at A. & M. College has decided to make a tufted robe like the one exhibited there for her sack project. Each club woman in the county is expected to make an article by using a sack of some kind for her material. Such articles as towels, scarfs, laundry bags, clothes pin holders, cook aprons, robes, shooies, child's overalls, lunch cloths, card table covers, floor pockets for patterns, kitchen curtains, mattress covers, garment covers, ironing board covers, etc. These are to be finished and on exhibit for the tour the last of October.

growing disaffection with 3-2 and its results. Instead of ending bootlegging and ushering in the era of temperance and sobriety, under a 3-2 regime, bootlegging has multiplied, arrests for drunkenness in the large cities have increased upward of 50 per cent, and the Dean law is being openly flouted in that whisky is publicly sold in many Texas cities and towns. The people are not satisfied with the present situation in Texas in the sale of intoxicants. They said so in the first primary when they put two men who are personally dry and who will vote against repeal of the State prohibition amendment into the run-off and made a long-time ardent prohibitionist the leading candidate. The Dean law will not be repealed; the State prohibition amendment is safe in Texas with the present temper of our people.

MISTAKES

Fighting a buzz-saw, hoping to evade death or taxes, believing all one hears or talking back to your mother-in-law are all recognized by most of us as mistakes. We can avoid the mistakes which stand out like a headlight on a Model T. But still we all make many mistakes. If we didn't we would make little progress. A wise man utilizes his mistakes, remembering the costly experience and profiting thereby. He learns how to steer clear of such things in the future. An editor probably gets more blame for a mistake than anyone on earth. A little typographical error can cause more fuss than a jackass in a tin barn.

You may have heard that yarn about the country editor who wrote a flowery obituary when the town miser died. The town miser was influential and had many relatives. The editor did the best he could with the material at hand and he finally concluded by writing that the man had gone to his last resting place. Then the printer made a mistake of setting the type so it read to the effect that the man had gone to his last "roasting" place. The proof reader muffed one and the fracas started. The editor doesn't get a fair break on this mistake business. When a garage man makes a mistake, he adds it to your bill. If a carpenter makes a mistake, well, it is probably just what he expected. When a preacher makes a mistake nobody knows the difference. When a judge makes a mistake it becomes the law of the land. When a doctor makes a mistake, we send flowers. But when an editor makes a mistake—GOOD NIGHT.

Pioneers Who Hunted Buffalo On Plains Of West Texas Long Ago Reunited Here

"Hello, John; it has been a long time since last we were together but I have never forgotten the many pleasant associations we enjoyed more than fifty years ago." That was the greeting by an aged man as he took the hand of John L. Doss at the latter's home on Hickory street the other day. He was Henry Herrin, who in the long ago was associated with Mr. Doss in the business of hunting buffalo on the unchartered plains of the west for their hides. After a brief exchange of greetings the two men recalled that fifty-eight years had passed since they parted. Doss and Herrin were partners in a business that in the long ago proved profitable and thousands of buffalo "bit the dust" from the rifle fire of rugged westerners employed by them. Headquarters were maintained at Fort Griffin, then among the larger federal army posts in this part of the country. "What has become of that old well down the Colorado river a short distance where we used to stop for water in traveling through this immediate part of the country," Herrin asked of his friend. Doss replied that he had not thought of the well in

owns the property where once stood the large army post where the two men became associated in a business way. Herrin looked for familiar places in vicinity of Colorado, but Seven Wells was about the only spot remaining. Even there many changes have come into being with passing of the years. He was impressed to call attention to the fact that when he was familiar with this country there were no farms, few settlers and no railroad. The Texas & Pacific was built into Colorado about six years after the two friends broke their partnership and bid each other good-bye and good luck. Doss recalled Sunday morning that he and Herrin killed their first buffalo near where Colorado City was later established. "The best we can ascertain I think our party shot the animal about where the country club building stands. It was a three-year old cow." The cook used water from the river to make coffee as they prepared their first meal here and it was too salty for use. That was in December, 1876. The value of a black or silver fox pelt reduces 50 per cent if the hide is not removed from the animal within five days after it reaches its maximum gloss and thickness, due to a brown tinge which appears by that time.
