NORTH-SOUTH ROUTE WILL BE BUILT ULTIMATELY, IS BELIEF OF C-C SECRETARY

Greene Will Urge Delegation Return To Austin Next Month For Parley

Ultimate construction of Highway 101, extending north and south through Colorado, is seen by Jim Greene, chamber of commerce secretary and who, during the past several months, has devoted considerable attention to the project. Pressure is being brought upon the highway commission by a number of important West Texas communities, he states, and it is apparent that this influence will convince members of the State governing body of importance attached to the route.

"It is imperative that we begin now our plans for sending a representative delegation to Austin to confer with the commission at its regular meeting in October, since invitation that such be done has been extended by a number of the board," Greene stated in this newspaper Friday.

"Judge W. R. Ely, popular West Texas member of the highway commission, recently suggested to me that our delegation be in Austin then to discuss further the matter of this highway."

It is probable that the highway may be designated by the way of Robert Lee, rather than the previously favored route through Sterling, according to information recently received by the chamber of commerce and county officials. "This is due to strong pressure being brought by San Angelo and Robert Lee."

"We are facing opposition in this undertaking but I feel that this obstacle may be overcome if the citizenship directly concerned will take active interest in the project and give members of the state highway commission the impression that we mean to extend every cooperation in this program," Greene declared.

Out of every eight students enrolled in Texas colleges and universities this fall and winter, one may obtain a relief job, according to information recently received at the local county administrator's office from E. A. Baugh, Austin, chief engineer of the Texas relief commission.

The jobs will pay an average of \$15 per month from September to June. Positions will be available to 12.5 percent of the students at each college on full time enrollment.

Specific information will be given upon application at the office of Jim Greene, county relief administrator.

Names Overlooked In College List Printed Last Week

Names of several young Coloradans who are entering colleges and universities this fall were unintentionally omitted in the article listing a number of such students in last week's Record.

All those going to A. & M. were left out and it happens that this college is claiming more from Colorado than any other school of the state. Red Church and Elvey Stagner, members of the 1934 graduating class, left here some time ago for A. & M. and have made the freshman football team. Allen Bloodworth and Jewel Paughtry have entered the college for their second year. Lenn Bodine, J. L. Galey, and Don Blassin game are freshmen.

Miss Guy Moseley will be a senior in Texas Tech, leaving here about October 2 to enroll. For her final year's work there.

George Otis Witten's name is added to that of John Elliott, who was listed last week as being the only Colorado youth going to an out-of-state school. Witten left Monday morning of this week to enter Park College of Parkville, Missouri. Elliott is enrolled in Maryville, Tennessee.

Miss Frances Elaine Price is to enter Texas Tech as a freshman.

Miss Minnie Sporer, nurse at U. L. Ross Hospital for some time, has enrolled in John Tarleton, Stephenville.

Mr. Slaton, general superintendent of the Sunday school, is leading in this program. Out of this visitation we hope to increase the interest in all our departments.

All regular services will be held next Sunday, with the pastor in the pulpit at both preaching hours, the Lord permitting. Come worship with us when you feel like it.

Chevrolet Motor Establishes New Production Mark

Chevrolet Motor Company established a production record for the month of July, building 92,947 passenger cars and trucks, the highest July production since 1929, according to an announcement made by H. C. Howard, Zone Manager, Dallas Zone.

To meet the demands of dealers, which continued on a high level during the month, the heavy production schedule was maintained. In the last four full working days of the month, 16,901 units were produced with a record of 4,953 cars in a single day.

Handicapped by a late start in the early part of the year, Chevrolet production set a pace during March and April which was maintained through June, July and the early part of August. It is significant to note that at the close of production on Saturday, August 4, Chevrolet had surpassed last year's total production figure, building 626,277 units as compared with 626,277 units for the entire 12 months of 1933.

July sales rivaled the June record in reflecting the current demand for Chevrolet cars. Deliveries made during July totaled 86,570 units, Mr. Howard said. Retail sales for the month, as compiled from dealers' reports and Canadian and export deliveries, were the basis of this announcement.

Dispute Over The Governor's Office Not New In Texas

Dispute of Attorney General James V. Allred's legal right to appear on the Nov. 6 ballot as a candidate for governor, is likely to add more wrinkles and, perhaps, bring a few gray hairs to Henry Owsley, brother of the U. S. Ambassador to Rumania.

Owsley's desk in the secretary of state's office, has the duty of certifying ballots. The injunction against certification of a ballot with Allred as the nominee, came just while he was in the midst of other ballot problems.

The legal right of the entire Republican state ticket to go on the ballot can also be contested. There are two questions that can be raised. One is if there was sufficient compliance with the statute requiring a party that has polled 100,000 votes in the last preceding general election to nominate by primary. The other is if the primary returns were canvassed at the right time and place.

The canvass was made in Dallas on August 13. An amendment to the election law directed that the canvass be held at Austin and on August 11.

Communist and Socialist tickets for State offices have been filed. The Communist party of Texas reported that its ticket, headed by Enoch Hardaway, Breckenridge, for Governor, was nominated at Houston. The Socialists reported that at San Antonio they nominated W. B. Starr, Cisco, for governor, and others for Statewide offices.

The business of campaign expenditures, raised in the Allred contest, is complicated. How many times the law was violated will never be known. How many know that every person who made any contribution to any campaign is a law violator, if he failed to file a report of it within ten days after the election? The provision is in the law—article 3145. Another article limits expenditure by assistant or county campaign managers to \$10 for each 100 voters on the poll list of the county. Citizen groups are limited to \$50 in defraying the expense of local political meetings. Individuals may expend \$10 and they may contribute their services and their traveling expenses.

WOMEN, GIRLS' CLUB NEWS

By MISS EMMA GUNTER, Home Demonstration Agent

With water to use from a windmill, Louise Ohlenbusch 4-H garden demonstrator for the Loraine girls club was able to raise her beets and peppers for her pickles and relishes. Also cucumbers. Louise had this part of the family canning budget to fill and she will also have learned how to care for the vegetables and then how to preserve them for table use. She grew the sweet bell peppers, the Detroit dark red bell peppers, the Davis Perfect cucumbers. Her canning record has not been handed in but will be quite above the standard for this year's canning. They have canned peaches, peas, corn, peaches, beets, cucumbers, berries and juice, relishes, jams and jellies, spinach and jars of other things, which they kept stored in a well built cellar. Louise is exhibiting two jars of her relish and pickles, in the girls exhibit for September 29th.

Another garden demonstrator that has succeeded with both sweet bell

pepper and hot peppers is Mrs. C. C. Black, garden demonstrator of the Looney Club. Mrs. Black has a reputation of being a pepper grower and last year sold \$15.00 of peppers. She also irrigates and works her garden often. She has the seasoning peppers as well as the small pepper sauce peppers and the sweet bell peppers for her relish making. Mrs. Black also raised some very fine white Bermuda onions this year. She said they would not last until Christmas for they were so well liked by the family in salads and with vegetable dinners. A new planting of fall vegetables has been made by Mrs. Black but so far the growth has been very slow.

Mrs. Frank Andrews of Hyman with the assistance of neighbors canned peas last week. She is fortunate indeed to have them fresh now.

Mrs. M. A. Webb of Looney remarked Saturday that they would be eating turnip and mustard green soon that have been sown in the garden and watered since the rain.

Mrs. A. A. Andrews of Seven Wells sent in fresh corn and peas this week to town. The corn was well filled out and very well flavored.

Louise Ohlenbusch of Loraine gave the agent a nice lot of White Velvet okra that has been producing all summer. She plans on canning a few No. 2 cans of fried okra this fall and to save some seeds for next year as it is the most desirable for canning purposes.

Mrs. Ross Duckery of Conway was in the agent's office this week to talk of a pattern for a quilted bedspread. She has made one and is to begin her second one soon.

Mrs. Tom Daughtery of Plainview got her spread drawn off with the assistance of Mrs. Lee M. Jones. She is using unbleached domestic with dark blue and natural colored yarns and a diamond pattern.

Mrs. Keith Miles, of Looney, has begun to ask her friends and neighbors for discarded woolen clothing to make a hooked rug. Others are to be made.

SPECIAL GROCERY SALE OPENS FRIDAY MORNING AT MOSER'S SUNBEAM

A special sale on grocery needs is to open at the Sunbeam Grocery, operated by Virgil Moser on Elm Street, Friday morning. Mr. Moser advertised that special prices are to obtain throughout the building.

"We have purchased large stocks of staple and fancy groceries for the sale and feel that every patron calling during the sale will be impressed with the bargains offered," Moser said Thursday.

The sale is to continue through Saturday, September 29. Prices are listed in a page display advertisement in The Record.

Mr. and Mrs. Elmer Lay Powell of Stanton and Mr. and Mrs. B. C. Tippitt of Tulsa, Oklahoma, visited Carl and Cavern over the week-end. Mr. and Mrs. Tippitt have been visiting Mrs. Tippitt's parents, Mr. and Mrs. Lay Powell.

Rehabilitation Headquarters Are Established Here

Mitchell County has been declared eligible for rural rehabilitation work and Colorado designated as headquarters for a four-county district in this work, according to a letter received early this week by J. H. Greene, county relief administrator, from J. E. Stanford, state director of rural rehabilitation.

W. A. Brench of El Paso arrived in Colorado Monday to assume his duties as district rural supervisor of rehabilitation work in the four counties, which include Mitchell, Scurry, Borden and Howard. He works under J. C. Smith, supervisor of a still larger district with headquarters in Stamford.

A portion of the communication from Stamford to Greene read: "You may be interested in knowing that your letter was the deciding factor in getting Mitchell county declared eligible for rural rehabilitation work."

Dunn Doings

Mr. and Mrs. Pete White of China Grove were week-end guests of Mr. and Mrs. Fred Farrar.

Clinton Anderson of Abilene is visiting in the home of his uncle, Rev. Grady Anderson.

Mrs. J. A. Buchanan and Miss Katherine Buchanan of Colorado visited in the W. C. Hooks home Sunday.

Mr. and Mrs. W. C. Hooks were Lubbock visitors Thursday.

Boyer Gimes left Thursday for A. & M. College.

The W. M. S. met Monday with 14 members present. Mrs. W. C. Hooks presided over a short business meeting, and Mrs. Ollie Richardson gave an interesting discussion on Child Welfare.

Mr. and Mrs. Onie Ross left Sunday for Stephenville to accompany their son, Wilson, to John Tarleton where he will attend school the coming year.

"Sports" Bowers left Sunday for Trench for an extended visit.

Mrs. Ray McFarland and daughter, Miss Edith, were guests of Mrs. Ruby West Monday.

Jack Johnson has opened the Dunn Cafe and is doing an excellent business. He invites the public to try his hot barbecue.

Paul Johnson has gone to make his home with his mother in Houston.

Miss Sayer will have charge of the chapel program, Wednesday, next morning at 8:15 o'clock. The patrons are urged to attend the chapel programs this year.

The enrollment is larger this year than that of last and more enrolling every day.

The new school bus is due the 20th and will make the route by China Grove and the route covered by the yellow bus last year. It will seat some 60 students.

The Senior class was organized Thursday of last week with Miss Julia Casey as president and Miss Leona Elberd as secretary-treasurer. There are six in the class.

Mr. and Mrs. O. Farrar accompanied their son Clark to Alpine Saturday where he will attend Sul Ross College.

Pep Squad Of 55 To Cheer Wolves In Friday Game

A pep squad of fifty-five girls will be on hand to cheer the Wolves in their initial game Friday afternoon with the Roscoe Plowboys.

Directed by Miss Velma Barrett, the squad was organized early this week and has been drilling daily. One formation which they expect to have perfected by Friday is that of spelling out the word "Wolves."

The squad uniform this year will consist of a red sweater with black tam and skirt.

Sara Melton has been elected pep leader, with Melba Slaton and Jean Cox as her assistants. Personnel of the squad is as follows:

Conaway Begins Year's Work In Improved School

Beginning a new year's work in a school building which has been modernized and improved in many respects during the summer, Conaway school opened Monday morning.

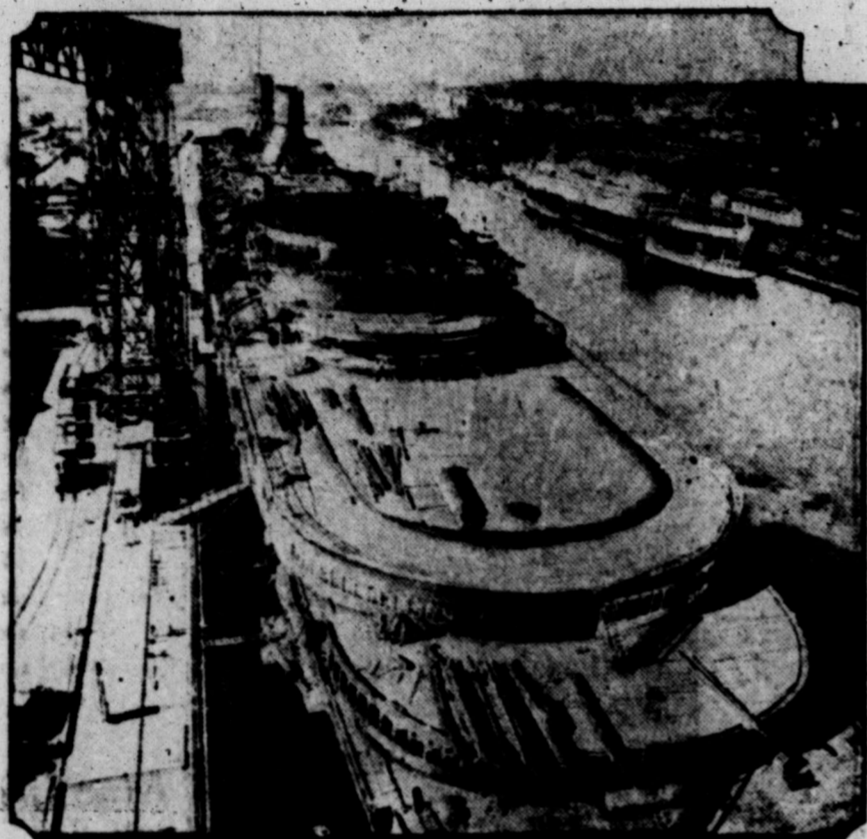

The percentage of scholars enrolling was the highest in the school's history for the opening day, according to Lynn Halbert, principal. Other members of the faculty are Mrs. Halbert, Miss Winnie Fae Gressett, of Westbrook, and Miss Selma Rue Blair of Denton.

No opening program was held, that being deferred until Thursday evening. Speakers at that time will probably be James Herrington, Sam T. Howell, and Benton Templeton. The Parent-Teachers association, which is headed now by Mrs. Witt Hines and Sam Jones as president and vice-president, will be reorganized at that time.

The school will work toward affiliation in eighth and ninth grade work this year, Halbert states.

Improvements made in the school during the summer include a windmill and tank, water piped into the building, and fountains and laboratories installed.

Poems By Mrs. Sam Majors Appear In Magazines

Two short poems written by Mrs. Sam Majors of Colorado have been published in the recent past and two others are to appear in the near future.

An issue of the El Paso Times about three weeks ago carried her "Thunderclouds," which was written and published elsewhere several years ago.

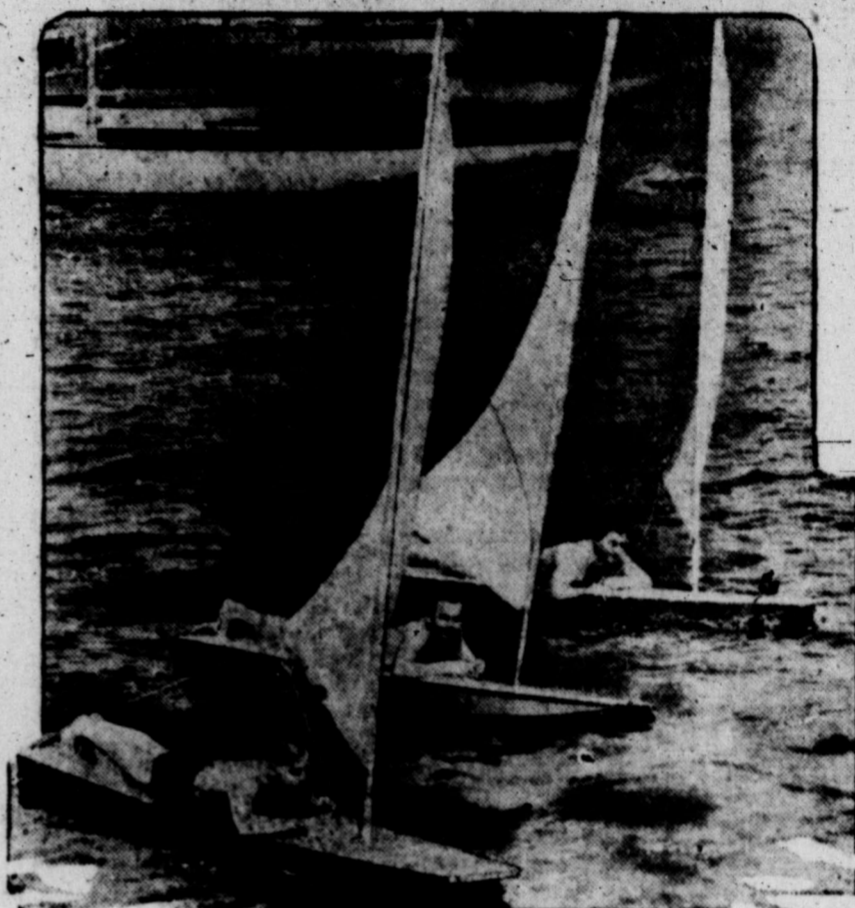

"New Mexico" was the title of the poem published in the July number of the New Mexico magazine, which designates itself as "The Sunshine State's Recreational and Highway Magazine." This poem reads as follows:

"Amigos Mios, come with us
To the Enchanted Land
Where friendly people welcome you
With cordial, mystic hand,
Poco tiempo it will hold you
As it weaves its magic spell,
With its romance and its grandeur
And its ring of mission bell."

The two poems which are slated to appear in the near future will be in nationally read magazines. Better Prose and Poetry, published in Milwaukee, Wisconsin, will use "Loss" in its fall issue, and Verse-maker, published in Chicago, will use "Wheel I Embark."

Mrs. Majors writes under the name of Edna Coe Majors.

FAIR TO EXHIBIT BEST DROUTH CROPS

DALLAS.—Results of many years of experimental work in drouth resisting crops will be one of the principal features of the farm show at the 48th annual exposition, State Fair of Texas, it has been announced here by J. A. Moore, superintendent of agriculture, who has been working with officials of Texas A. & M. College and other agricultural agencies of the state in gathering such exhibits.

Special preparation of the soil, special drouth resisting seeds, and special means of cultivation are necessary for these crops and all of these methods and results thereof will be shown in the State Fair Agricultural Show. One feature of this method of farming will be an exhibit of corn where under the terrible drouth conditions the farmer raised a thirty-five bushel corn crop, while his neighbors corn across the road was a total failure.

Agricultural agencies of Texas have been experimenting with such crops for several years, but the 1934 season has provided the first real test for them and the results will be exhibited for the first time at the fair, opening Saturday, Oct. 6 and extending through Sunday, Oct. 21.

More Bantam chickens than were ever shown in the South before will be on exhibit at the 1934 State Fair of Texas Poultry Show. The Bantam Show this year will be three shows in one—the Southern Show of the American Bantam Association, the Southwestern Bantam Association, and the regular Bantam show of the State Fair. Bantams will be shown during the second week of the exposition, Oct. 13 to 21.

LOCAL SAFEWAY STORE GIVES TIPS ON SCHOOL LUNCHEES

The local Safeway Store tells of some interesting ways to vary school lunches this week in their Family Circle Magazine, the weekly periodical that the store gives away to their customers every week. Ira Bailey Allen, homemaking authority, is the author of this article.

With school season starting, mothers are already beginning to wonder what to pack in school lunches. Wise mothers have learned that these lunches must be as tempting and tasty as they are nourishing, and many a plain sandwich has been thrown away, after the sugar or jelly had been licked off.

This week marked the second anniversary number of the Family Circle, which is now given away by food stores to 1,300,000 people every week. Irvin S. Cobb has written a special fiction story, illustrated by Tony Saig. Thirty famous actors, authors, and artists have sent personal messages to the Editor, Harry Evans, famous movie critic, and these are reproduced.

Copies may be obtained by asking at the Safeway Store.

RESOLUTIONS ADOPTED BY THE MITCHELL-SCURRY BAPTIST ASSOCIATION IN SESSION AT COLORADO, TEXAS, SEPT. 7, 1934

We, your committee on resolutions submit the following:

Whereas there is a great let-down in the morale of all our people, and whereas the social fiber is corroded and honeycombed with superficialities and positive wrong doing, and whereas the religious conscience is benumbed and deadened by the paralyzing effects of social, economic, political, and religious sin.

Resolved, therefore that: First, we the Mitchell-Scurry Baptist association, go on record as being in hearty accord with the State prohibition forces as opposing the liquor traffic in any and all forms; that we uphold and support enforcement of the Dean Law, which is a State Prohibition Law; that we give our best support to enforcement officers, thus bringing about more efficient law enforcement and more respect for the majesty of Statutory law;

Second, that we oppose legalized race horse gambling as was permitted by our State Legislature a year ago, and that such opposition be expressed by our clerk to our State Representative and our State Senator;

Third, that we call our Baptist people to a more reverent regard to the observance of the Christian Sabbath;

Fourth, that we oppose all lawlessness, violence, crime, economic wickedness, and political corruption in both high and low places, and that we follow the injunction of Paul to pray for those in authority who rule over us;

Fifth, that we heartily approve the plan of work as outlined by our State Board through District Missions, and that we accept as a goal toward which to work the indicated amounts suggested for the District budget rally at Midland, September 26.

Sixth, that we extend a vote of appreciation to the host church, First Baptist Church, Colorado, for their generous hospitality in entertaining the Association, and furthermore, that we give a vote of thank to the First Methodist Church for the use of its auditorium in which was held the Pastor's and Layman's Conference.

FINAL ACRE-CUT REMITTANCES PROMISED PLANTERS

FARMERS OF COUNTY DUE TO RECEIVE \$125,000 ON COTTON CONTRACTS SOON

Second Rental And Parity Installments Combined By Federal Order

Cotton planters of Mitchell county are due to receive approximately \$125,000 in October under terms of acre cut settlement announced by the Agricultural Adjustment Administration in Washington Saturday. \$85,000 of the amount will represent second installment of rental payment and \$40,000 will include the third or parity payment, originally set for payment in December. The two have been combined to facilitate distribution of the voluminous number of checks to make settlement of the farmer accounts.

The parity payment to contracting cotton producers totals \$28,000,000 in obligations to cotton growers of the South, and the second installment of the rental payment is approximately \$44,000,000.

C. A. Cobb, chief of the cotton production section, stated that tenants and share croppers had an interest in the parity payments and to delay settlement until December, the usual season for many of these to move to other farms, would cause unnecessary complications.

MAYOR SADLER ASKS ALL COLORADOANS TO OBSERVE 'FIRE PREVENTION WEEK'

Annual Observance To Open Sunday, October 7th, For Entire Week

Every citizen of Colorado is urged to make practical use of "Fire Prevention Week," to open on Sunday, October 7th, in proclamation issued Saturday by Mayor J. A. Sadler. The mayor not only calls upon the citizenship to observe the annual event during the week but throughout the year to follow in that fire hazards in Colorado may be reduced to the minimum.

Proclamation of the mayor follows:

Fire Prevention Week is again at hand. The object of the occasion is to remind the public of the seriousness of the large fire loss of this country, both as to life and property, and to bring to the attention of everyone the fact that nearly all of this destruction could be avoided if greater care were taken in the construction of buildings; if litter and rubbish were removed from homes and places of business; if children and grown people were thoroughly educated in the handling of fire and taught the importance of extreme carefulness.

NOW THEREFORE, I, J. A. Sadler, Mayor of Colorado, in cooperation with the nationwide movement for the elimination of preventable fires, do hereby designate October 7 to 13, 1934, as Fire Prevention Week in this city.

On those days I ask our civic and commercial organizations, our school officials and teachers, and our fire department and our city fire marshal in arranging meetings and exercises for a study of ways and means of preventing fires, as well as to impress the seriousness of the wastage that it causes and the need for utmost care for the protection of life and property.

During Fire Prevention Week I urge that a thorough inspection of the entire city be conducted for the purpose of locating and removing fire hazards, and that the work thus inaugurated be hereafter expanded into a Fire Prevention Year.

Brother Colorado Women Died Here Thursday Night

Claimed by death after a lingering illness, Walter West, 42, died last Thursday night at 11:20 at the home of his sister, Mrs. Aubrey Herrington.

Funeral services were held Friday morning at ten o'clock at the Herrington home. Rev. Cal C. Wright, pastor of the First Methodist Church, officiated, with Rev. Wallace Jones of the First Christian Church and Rev. W. M. Elliott of the Presbyterian Church assisting. During the services tribute was paid to the unselfish life of Mr. West, the statement being made that he had lived fully 95 percent of his life for others.

Immediately after the services the remains were taken to Cisco, former home of the deceased, for burial.

Born in Wise County, West moved to Eastland county with his parents when about two years old. He lived in and near Cisco until coming to Colorado about two years ago. Since coming here he has been associated with his brother-in-law, Aubrey Herrington, in the garage business.

Survivors include his mother and step-father, Mr. and Mrs. Timothy Matthews of Cisco; eleven sisters—Mrs. Leonard King, Mrs. Robert Walker, Mrs. John Nicholas, Miss Della Matthews, Miss Maudie Fae Matthews, and Miss Janie Matthews, all of Cisco; Mrs. Raze Frambrough of Breckenridge and Mrs. Mack Reed of Midland; Mrs. A. A. Herrington, Mrs. Dick O'Brien, and Mrs. Hugh Millington of Colorado. One brother, James Timothy Matthews of Cisco, also survives.

STRONG CHARACTER BUILT THROUGH INFLUENCES BOY SCOUT UNITS, LIONS TOLD

Church And School Leaders Urge Consideration Of Troop Organization

Influences of the Boy Scout program is to be reckoned as a material factor in building strong character in the life of the youth and as such should be entitled to reasonable support by the business and professional interests of Colorado, speakers addressing the Lions Club Friday outlined.

The Rev. Cal C. Wright, pastor of First Methodist church, delivered the principal address on this subject. High ideals about which the Boy Scout program is centered and the environment usually thrown about life of the youth because of his identity with the International organization were cited. Strong appeal was offered that the Lions Club sponsor organization of one or more troops.

John E. Watson, superintendent of the schools, Dr. C. L. Root, local surgeon, and W. W. Porter among the lay leaders in First Christian church, were others to speak on the subject, adding their plea that Scouting be brought back into active being in this community.

Colorado sponsored the Boy Scouts program liberally through several years following organization of the Buffalo Trails Council some ten or twelve years ago. This community supplied leaders in the organization and financial budget assigned to Colorado were readily paid. There are no active Scout troops here now.

This was the second time within recent weeks that members of the Lions Club heard speakers offer appeal that something definite be done to bring influences of Scouting back to the youth of this community. It is accepted that plans looking to realization of that ambition will soon be mapped.

Freight Rates Cut In Order Passed At Austin on Saturday

The Texas railroad commission Saturday re-established emergency drought relief freight rates on cattle and livestock feed for Mitchell and 238 other counties of the State. The reduced rates became effective Monday and are to be in force sixty days.

The action was ordered under provisions of the emergency powers given the commission by law when it was contended the railroads had declined to make voluntary reductions.

Tariffs showing the new rates may be seen upon application to your local freight agent. The tariff on hay was cut fifty percent.

PROTECT LIFE AND LIMB OF SCHOOL CHILDREN IS SLOGAN SPONSORED HERE

With the thought in mind that popular sentiment demand every consideration for safety of the school boy and girl as they return again to their class room work, public spirited citizens here and in other communities of the county are joining in campaign to drive such a slogan home to the motorists.

"We are soon to observe 'Fire Prevention Week' and it is fitting that such a worthy program receive consideration by every citizen, but nothing is of more importance than the safety of our children, now to be placed on the street and public highway as they attend school," was the comment of a Colorado school official Monday.

SCARLET FEVER MENACE TO CHILDREN THAT MUST BE CURBED, STATE SAYS

Scarlet fever continues to be a menace to children. It is treacherous and undesirable, and the only good thing about it is that if you can avoid it until grown, the chances of never getting it are excellent, Dr. John W. Brown of Austin, State health officer, states in communication to The Record.

Every precaution against development or spreading of the disease should be adopted, Dr. Brown says. Children becoming suddenly ill with fever, sore throat, vomiting, and showing a fine, red rash, should have medical attention at once, he suggests. Children under ten years of age are usually susceptible to scarlet fever.

HOME OF RECENT BRIDE IS DESTROYED BY FIRE

Little more than a week after they had begun housekeeping to themselves, Mr. and Mrs. E. S. Brashear of Wichita Falls lost practically everything in a fire which destroyed their apartment last Friday, according to word received here by Mrs. Brashear's parents, Mr. and Mrs. R. L. Spaulding.

The fire was thought to have originated in defective wiring, Mrs. Brashear's letter stated. Mr. and Mrs. Brashear, who were married here several weeks ago, had rented the apartment furnished. All their linens and most of their wedding gifts were either destroyed or ruined. Mrs. Brashear was Miss Alice Spaulding before her marriage.

Jack Cox was home from Abilene Christian College for the week-end.

WOLVES' SEASON OPENS FRIDAY IN GAME WITH THE ROSCOE PLOWBOYS

Tentative Lineup Of Wolves Announced By New Coach

Football season opens for Colorado Friday afternoon when the Wolves are to meet the Roscoe Plowboys on Cantrill Field. The game which is non-conference will start at three-thirty.

Roscoe's Plowboys, according to their coach, are as strong this year as last, if not stronger. The Wolves defeated them 7-0 last year in a hard-fought game, which should make the outcome of Friday's game a good indication to the strength of the Wolves.

The Wolves began intensive practice under their new coach, Jim Reese, last Thursday afternoon only a few hours after his election. Tentative line-up for Friday's game is as follows:

Right end, Ed Morrison; right tackle, Mumpsey Wallace; right guard, Joe Cox; center, Regal Porter; left guard, Buster Aycock; left tackle, Roy Miller; left end, Joe Cooper; halfbacks, Francis Connell and Paul Kniff; quarterback, Red Morrison; fullback, J. C. Piester.

Officials of the game will probably be Speedy Moffett (Texas Tech), Big Spring; George Brown (A. C. C.), Abilene; and George Bass (Canyon), Big Spring.

Second Blue Eagle Slated To Show Up Within Near Future

Through a new blue eagle appeal NRA is attempting to quicken its consumer support.

Nationwide distribution has been started of a poster pledging the public to support blue eagle business establishments. Code authorities and local NRA committees are counted upon to aid its distribution.

The plan is to accompany the internal reorganization of the recovery administration, as decided upon by President Roosevelt and Hugh S. Johnson, the NRA administrator. Authority is to be split three ways instead of the present one-man control. Johnson is expected to continue in an important post. Separate agencies will be in charge of policy framing, administration and deciding controversies.

The next step probably will be the issuance of executive orders by President Roosevelt placing the changes into effect.

The NRA poster is described as intended to give "inspiration to the business firms and individuals who are not only living up to their NRA codes but making active display of their faith in the president's recovery program."

Beneath a blue background with a blue eagle in a white circle is this pledge:

"In the national effort to bring security to all, I will encourage and patronize those business establishments in which the blue eagle of NRA codes is displayed"

Thousands of Women Benefited By Cardui

The benefits many women obtain from Cardui give them great confidence in it. "I have four children," writes Mrs. J. L. Norred, of Lagrange, Ga. "Before the birth of my children, I was weak, nervous and tired. I had a lot of trouble with my back. I took Cardui each time and found it so helpful. Cardui did more to allay the aches at these times than anything I have ever used. I am in very good health and believe Cardui did a lot of it." Thousands of women testify Cardui benefited them. If it does, not benefit YOU, consult a physician.

Three Clubgirls To Go To Dallas Fair Are Named

The three Mitchell County 4-H club girls, adjudged winners of trips to the Dallas Fair this year have been announced by Miss Emma Gunter, county home demonstration agent.

They are Dorothy Thompson of Lohney, Jaures Burford of Rogers, and Sophie Smith of Silver.

Passes to and from the Fair will be given these three girls by the Texas and Pacific Railway. They will leave Colorado Monday, October 8, and spend the time from their arrival in Dallas that night until Friday morning, October 12, in the Educational Camp at the Fair. They will see the exhibits, hear speakers of note in addition to taking part in games, songs, stunts and other things planned for them.

Miss Gunter chose the winners after careful investigation of the work of all club girls during the past several months. Some of the requirements they had to meet to win were fulfilling clothing work program, working over a chair for their bedroom, adding bathing facilities to rooms, canning two jars of relish for exhibit, attending Rally Day, showing a special interest in club work by manifesting a willingness to help others and attend meetings, and making a history of their year's work.

'SNAKE MEDICINE' LEFT
IN RIGHT PLACE VICTIM
RATTLER'S BITE STATES

After all, there might be some merit in that old contention that liquor is to be reckoned as a panacea for snake bite. There is at least one Mitchell county citizen who stoutly maintains that such is the case.

A few days ago this particular citizen came into possession of a pint of corn. He hid the booze under a bush near his home. Dark came and thoughts of a swig or two lured him to where the liquor had been left.

As he reached to retrieve the bottle the man was startled by a muffled noise and the subsequent stinging sensation in palm of his hand. By the aid of a flashlight he discovered he had been bitten by a rattlesnake.

"I had heard that corn was an effective snake bite medicine and lost no time in giving myself a liberal dose," he commented later in recalling the incident. "After some more doses I went into the house and bathed the hand in kerosene. I felt no ill effects."

That was one time that the "snake medicine" was in the right place, suggested a neighbor.

Regular Council
Meeting Of 4-H
Clubs Saturday

With all clubs represented, the County Home Demonstration Council had its regular monthly meeting in the office of Miss Emma Gunter, county home demonstration agent, Saturday.

Those present included Mrs. Frank Andrews of Hyman, chairman; Mrs. Carl Lowry of Hyman, Mrs. Jack Gullet of Itard, Mrs. J. C. Shepherd of Plainview, Mrs. Tom Daugherty of Plainview, Mrs. Dewey Webb of Looney, and Mrs. M. A. Webb of Looney.

Business taken up during the afternoon included reports of the team demonstrations for each club, progress report on such articles, announcement of the names of yeast bread demonstrators for each club.

October 20 was announced as the date for the tour to be made to the various communities where work has been done by members of the girls' and women's clubs. This is to be made an all-day affair, and invitations are to be sent to adjoining communities to take part in the tour.

Team demonstrations are to be given before each club in October and before the council in November. Later they are to be given in communities where there are no clubs as a part of the expansion program for this year. Demonstrations chosen by the various clubs include making hooked rugs, cookies for school lunches, Christmas sweets, etc.

Letters from Mrs. Maggie W. Barry, Extension specialist, concerning subject matter for 1935 year books were read.

Miss Gunter read off a list of subjects she had compiled for club study next year and asked that each club discuss them at their second meeting this month, deciding of the ones in which they are most interested.

PESIMISTIC

In any question of any importance there is always two sides for discussion—the pessimistic and the optimistic—and in the analysis of living conditions in Mitchell county this year compared to last year we publish both sides, giving the pessimistic view first.

All last year's wonderful depression and followed by an unprecedented drought has caused the farmer and laboring man to seriously think about the bread and meat question. A conservative estimate by the best posted cotton men in the county is about 8,000 bales this year, against 25,000 last year. Practically no feed raised in the county. No gardens, no home canning, no poultry, no pasture for cattle, hence but little milk and butter. Not a single day's labor job in the county, not a new plank nailed up, not a new road built and hundreds of people on the relief roll.

There is not a landlord in the county the past two years made enough profit on his land to pay the taxes. No farmer or renter has made enough to pay his grocery bill, nobody has paid the bank and for that reason cannot borrow.

A renter, out here south of town, will probably make four bales of cotton. One bale goes to the landlord, leaving three bales to buy his winter's clothing, groceries and feed for the stock. One fourth of the people are wondering how the other three-fourths are to get by.

I have all this year been trying to figure out how long it will be until the whole world goes broke and the sheriff sells this mundane sphere to Mars or some other planet. The Southern farmers are selling cotton for less than it costs to produce it. The Western farmers are selling wheat for less than it costs to grow it. The rice farmers are selling rice for less than the cost of production. The cattle raisers are selling cattle for less than it costs to feed them. The merchants are selling goods for less than they paid for them. The railroads are earning no dividends on their capital stock and the subscription price of newspapers is less than the cost of the blank paper.

With everybody losing money how long will it take to force the whole country into bankruptcy?

This is the situation. The New Deal says the farmers of the South must grow less cotton to maintain prices. The farmers of the West must produce less wheat to maintain prices. The factories of the East must reduce the output of their mills to maintain prices, and organized labor must work fewer hours to maintain wages. All classes must adopt lower production as a defensive measure, but it remains to be seen what economical effect will follow the clogging of the arteries of commerce by shutting down production.

For the benefit of the pessimistic

viewpoint we will here introduce a new word—"grouser"—sufficiently sanctioned by usage to have a place in the dictionary. Everyone knows the grouser. He is the chap who is always ready to grumble, whose outlook on things, both in general and particular, has the morning-after-taste. Nothing is ever quite right. Everything is always somewhat wrong. Speak pleasantly even about the weather and you release the hair-trigger of his resistance to a derogatory rejoinder.

The tribe of grousers is legion—in Mitchell county and especially in Colorado. In this age of organization, it is but fitting that we should give them an alphabetical code—AOCG—Ancient Order of Confirmed Grousers. But, perhaps, the reason why the grumblers haven't yielded to the flocking instinct is that, after all, they haven't so very much to organize for. Probably not much more than the forgotten collegian who immortalized "Doctor Fell" had against the worthy soul. You remember the lines:

I do not like you, Doctor Fell!
 The reason why I cannot tell;
 But this I know, and know full well,
 I do not like you, Doctor Fell.

Now comes the other side.

OPTIMISTIC

The best posted cotton men in the county, O. M. Mitchell, H. Bosse, J. M. New and Bill Dorn, all give the county an estimate of 15,000 bales. Cotton selling now at nearly 11c and seed at \$38 to \$40 makes a bale this year worth nearly three last year, which will give us a normal crop. Then you count all the relief and government money sent into the county, plow-up checks, cotton option checks, land rental funds, corn and hog money, cattle money, sheep and goats and other funds amounting to thousands and thousands of dollars into the farmers pockets and a close, careful view of the situation makes the county affairs worth about 3 to 1 against last year. That is, a half dollar last year is worth three half dollars this year.

All business is far better than at this time last year. Piggly Wiggly reports the sale of \$5 bushel of pears last week. J. C. Penney Company report exactly 50 percent increase. The Red and White Stores and Safeway and Sunbeam Stores all report an increased trade. The cattle market and horse and mule market, optimistic for the future. The hardware and implement trade is picking up. The automobile people report the sale of more gas and an increased trade in used and new cars. The theatre attendance has increased. More marriage license are issued and churches are better attended. Everybody seems happy. Don't wear a solemn face—laugh. Laugh, even if your rich bachelor uncle has died and willed all his property to an orphan asylum—even if your mother-in-law has come to spend the winter with you—even though you are henpecked, or an undertaker, or an Englishman, or any other kind of a solemn and unsmiling case—you can laugh over the fact that the gubernatorial campaign is over in Texas.

When you hear the voice of a knocker
 As you list to his hammer fall,
 Remember the fact that the knocking act
 Requires no brains at all.

Right where you are, if you'll get up and git
 And hustle and rattle and do,
 And put your heart in it, and never say quit—

There's plenty of good things for you,
 The prizes are waiting right there to be got;
 You'll find them where'er you are
 By proving if you're a "go-getter" or not
 A "flash-in-the-pan" or a "star".

The croakers are croaking about the "hard times"
 And how things are hopelessly "punk,"
 They're mourning the shortage of nickles and dimes,
 But that kind of junk is the bunk,
 And while they are buzzing about biz being bad

The "wise ones" are hopping about
 And copping the prizes right here to be had,
 And putting old "hard times" to rout.

It's always hard times, if you're thinking that way,
 And prospects are gloomy and blue,
 But while the sun's shining if you will make hay
 You'll get what is coming to you,
 Don't let hard times floor you, and steal your good rep,
 Don't dream about "green fields afar"

We know you are a winner, now show us some pep,
 Make good on the job where you are.

LETTERS FROM THE PEOPLE

The following letter was handed to us this week by Mr. N. E. Simpson, of Rt. 1, with the request that it be published:

Mr. N. E. Simpson, Route 1, Colorado, Texas.
 Dear Mr. Simpson:
 This is in reply to your letter of January 12, addressed to Secretary Wallace.
 According to your letter there

School Patrons And Teachers Brought Together By Friday Evening Program

Many patrons of Colorado schools availed themselves of an opportunity to become acquainted with the teachers who are to have charge of a great part of their children's lives during the next nine months when the Junior High School Parent-Teachers' association sponsored a program and get-together at the band shell in Ruddick Park last Friday evening.

The faculty of the schools was present nearly one hundred percent. Harry Kattiff acted as master of ceremonies. He introduced John E. Watson, superintendent of schools, who in turn introduced the four principals—C. A. Wilkins, Hayes Holman, Miss Yandell Daniels, and Miss Laura Martin. The principals each introduced their teachers.

After the introductions were completed a program was given, beginning with several numbers by the Harmonica band of the Hutchinson school, Miss Cal Yates and Miss Margaret Cook, directing. Bobby Wright, son of Rev. and Mrs. Cal Wright, sang to the accompaniment of piano music by Archie Mohler, son of Mr. and Mrs. J. P. Mohler. A good imitation of a "one man band" was given by Donald Burrus, son of Mr. and Mrs. T. E. Burrus, who played his drums and horn at the same time and then separately. Ross Glover, son of Mr. and Mrs. Tom Glover, gave a harmonica solo.

The program closed with numbers by the Charley Watson family, including the father, Charley Watson; two daughters, Frances and Florence; and a son, Charley, Jr.

Closing the evening's entertainment Tommy Dawes led the audience in singing "America."

The program committee of the Parent-Teachers' association responsible for preparing the evening's entertainment included the president, Mrs. John T. Howgill, Mrs. O. B. Price, Mrs. Ray Hyatt, Miss Durrell Davidson, and Mrs. L. B. Elliott.

there should be no difficulty in determining when a tenant is a managing share tenant. We appreciate the facts that the term "Managing share tenant" is not in common use. It was created to fit those cases of independent share tenants defined at the bottom of Page 3 of the contract.

Replying to your last question, we hope we have made it plain that landlords who are deliberately delaying the renting of their lands will not in any way change the status of the tenant who produces the cotton.

On all rented farms where the tenant qualifies as a managing share tenant according to the definition as found at the bottom of Page 3, and further interpretation mentioned above, the contract should not be accepted without the signature of the owner as owner and tenant as producer, as provided for in the contract.

Very truly yours,
GEORGE BISHOP,
 Regional Consultant, Cotton Production Section, Commodities Division, Department of Agriculture.

THE best way to get at the truth behind the fine things you hear and read about the new Chevrolet, is to get in the car and drive. You have heard that Knee-Action makes bad roads good, and good roads better. A ride will prove it. You have heard that Chevrolet provides shock-proof steering, Synchro-Mesh gear-shifting, a remarkably flexible 80-horsepower engine, and cable-controlled brakes. A few minutes at
