

SECOND 'COURTESY DAY' WILL ATTRACT 5,000 VISITORS?

MITCHELL COUNTY SCHOOL LEADERS SMILE AS STATE FUND IS BOOSTED BY OIL

Million Dollars More Than For Any Previous Year Is Record Noted

Trustees and other school officials of Mitchell county are displaying smiles all because they are looking to better days for the institutions they represent. In communication received by The Record from George H. Sheppard, State comptroller, it was shown that the State common school fund had just received \$8,496,212 as its one-fourth "cut" of Texas gasoline tax income for the fiscal year ended August 31.

The amount finding its way into general school fund of the State for the fiscal year is nearly \$1,000,000 more than the total ever received for this account during any previous period of the same duration, the comptroller pointed out.

"This information brings added possibilities for continued advancement in the Colorado schools and I am sure that the appropriations to be allotted will relieve tension of the financial difficulties faced by many of our educational plants during the past many months," John E. Watson, superintendent of the Colorado schools, stated Monday afternoon.

Proportionate bonds went to the Board of County and District Road Bond Indebtedness, which also receives one cent of the tax, and the highway fund, which gets the remaining two cents.

Working his first full fiscal year with an adequate field force under the state's strong new "anti-bootleg" law, the comptroller boosted gas tax income \$4,076,815 above last year to an all-time high total of \$33,984,848, his annual report showed.

He attributed almost the entire gain to record enforcement activity and the educational campaign of the Texas Good Roads Association. In his State-wide drive against the tax stealing "facket", his 50 field men filed 39 felony and 71 misdemeanor charges during the year, he reported.

The \$33,984,848 income is broken up into three parts. In addition to the \$8,496,212 for schools, another \$8,496,212 goes to county tax relief in the refunding of county road bonds. Whereas the fund last year was able to pay all interest on such bonds but only 30 per cent of the principal, the increase will permit paying this year of all interest and at least half the principal maturities. If not more, Mr. Sheppard estimated.

The remainder of the tax, or \$16,992,424, is still devoted to the original purpose for which the tax was invented—construction and maintenance of State highways.

TRADE IN COLORADO FOR SAKE OF SAVING, C. OF C. SAYS IN NOTE TO BUYER

Following statement, addressed to the public of this territory, was issued Wednesday afternoon from the chamber of commerce:

Water seeks its own level unless some artificial barrier is interposed. Many folks without realizing it construct a dam to hold back the flow of goods across the counter of their home town stores. They spend lots of money and waste perfectly good time visiting distant cities to buy merchandise that Colorado stores would have furnished with no more trouble than you take in hanging up your hat.

We say it's your privilege to shop anywhere you want—but we believe it's to your advantage to buy the goods you need in Colorado.

Colorado merchants don't want your patronage simply because they are your neighbors, but because they are conducting modern, efficient, retail establishments, offering goods and services to satisfy your every need. And the prices are right, too.

PROJECTED LEGAL CHANGE ASSURES JEOPARDY TO ALL SCHOOLS, WATSON CLAIMS

Colorado, Alone, Would Lose \$14,000 Annually Through Proposed Amendment

Projected constitutional amendment to be voted upon in the November election promising to restrict the total amount of revenue which the State shall be authorized to collect during each biennium from taxes, licenses, permits and fees to a given amount is one of the most dangerous legislative phases ever before the people of Texas, John E. Watson, superintendent of the Colorado schools, declared Wednesday afternoon.

"I have gone into the projected constitutional amendment thoroughly and find that the Colorado Independent School district alone would lose \$14,000 in annual allotment from the State, reducing our present income from that source from \$21,000 to \$10,000," Watson declared. "The deficit would of necessity have to be provided for through an increase in our present property values of more than 100 per cent."

Sensing that adoption of the amendment would bring disaster to the public schools of Texas and handicap highway construction in the State through curtailment of funds now going into these items of governmental expense, the State convention of the democratic party assembled recently in Galveston strongly urged that the people of Texas defeat the proposal. Mitchell county was represented at the convention by B. L. Templeton and C. C. Thompson.

In its edition for September the Texas Outlook, official publication of the Texas State Teacher's association described the amendment as being "without parallel in the tax machinery of any State."

Men and women prominent in affairs of education and government throughout the State have within the past few weeks united in concerted effort to defeat the amendment at the polls, information coming to of-

LONG ILLNESS RESULTS IN DEATH FOR PIONEER CITIZEN OF COLORADO

Van Wirt King, 66, Died At Family Home Here Wednesday

An illness of several months resulted in death early Wednesday for Van Wirt King, 66, at his home in Colorado.

King was a native Texan, born in West, McClellan county, on January 2, 1868. He was married to Miss Ava Anthony of West, and they came to Colorado twenty-nine years ago. During all his active years King followed the trade of contractor and carpenter.

Funeral services were held Thursday morning from Kiker's Chapel with the Rev. Cal C. Wright, pastor of the First Methodist Church, officiating. He was assisted by the Rev. L. A. Webb of Hamlin, former pastor here. Pall bearers were Oscar Price, Everett Winn, Burt Smith, J. L. Pidgeon, L. A. Costin, Clark Melton, and Dick Gray. The Daughters of the King class of the Methodist Church, of which Mrs. King is a leading member, was in charge of the flowers.

Survivors other than Mrs. King include the following children: Miss Eril King, Mrs. Conrad Watson, Miss Clarice King, Gordon King, Mrs. E. B. Willbanks, Miss Ava Bea King, and Van King, Jr., all of Colorado; Cloize King of Dallas. A sister, Mrs. Jim Marks, and a brother, Sam King, live in Hillsboro.

Funeral arrangements were in charge of Kiker and Son.

Musical Treat

(Continued From Page One)

Four junior clubs from the Colorado Music Club.

The only business session of the senior music clubs will be held following registration at the Colorado Hotel on Friday morning. This will be in charge of Miss Lucille Skinner of San Angelo, district president. Delegates from Orson, Snyder, Cisco, Eastland, Abilene, Sweetwater, Coleman, San Angelo, Brownwood, and the fine arts departments of Simmons and McMurtry, Abilene, are to be present.

At noon there will be the luncheon at the Colorado Hotel, with several numbers given by the high school choral club under direction of Mrs. Meskinen.

From noon until time for the tea which is being given by federated study clubs of Colorado, at the Country Club at four-thirty, rehearsals for the massed choruses to be sung on the Fine Arts program in the evening will be held. The Colorado Music Club is preparing two choruses for the program. They are Karsukof's "Song of India" and Katherine Manning's "In Luxembourg Gardens."

Two distinguished visitors during the convention will be Mrs. I. D. Celes of Amarillo, state president of Texas Federated Music Clubs, and Mrs. Grace Godard of Amarillo, corresponding secretary.

Saturday the senior members will step into the background, devoting themselves to guiding junior club members in their first convention. Much the same program will be followed, with a luncheon at the hotel at noon and rehearsals following the luncheon.

Several junior members from Colorado are to be heard on the Fine Arts program at two-thirty in the afternoon. A feature of the program will be a massed viola choir. Detailed programs for the two-day session will be given in full next week, according to statements made by Mrs. W. R. Martin, club president; Mrs. Cecile Meskinen, program chairman; and Mrs. Monroe Dawson, publicity chairman. Preparations are being made to care for some 150 visitors.

Bauman News

There were fifty in Sunday school last Sunday. That was a good attendance. A number of the people went to Silver for the singing. We are still expecting one hundred in Sunday school. If you are not attending Sunday school some other place, then you have a special invitation to visit the Bethel Sunday school.

This Saturday night is regular preaching and conference night. Sunday is regular preaching time. You are invited to attend these services.

Mr. Belmer Moore happened to a serious accident while cutting up a beef late last Friday afternoon. Mr. Moore was attempting to saw a bone held by Mr. O. B. McAdams. Mr. McAdams also was holding a sharp butcher knife in his hand. The saw slipped and Mr. Moore struck the knife about two and a half inches into his right hand severing about five arteries. He was given immediate treatment by Dr. W. L. Hester of Lorraine.

Miss Margaret Watson had her tonsils removed last Friday at Lorraine. Dr. W. L. Hester assisted by Mrs. Hester did the operation. Margaret was back in school Monday morning.

Mr. and Mrs. C. L. Hale and family spent the week end at Winters and Bradshaw visiting relatives and friends.

Mr. and Mrs. D. C. Stubblefield and family are visiting relatives in California this week.

Mr. and Mrs. M. D. Cheek returned home last Friday from Glenrose where Mr. Cheek had been undergoing treatment for the past ten days.

Mr. and Mrs. Clyde Slaughter and little daughter from Wastella visited with Mr. and Mrs. Jim Lee from Friday until Sunday.

SNYDER LIONS RUN OVER LOCAL CLUB TO HOLD 10 POINT LEAD IN CONTEST

The Snyder Lions Club soft ball club proved to be stronger in every quarter than the mound performers marshalled by J. Ralph Lee from the Colorado service organization as the two teams met in a seven-inning game at Cantrill Field Tuesday afternoon. The score was 24 to 11.

The bout had been advertised as a donkey show, but due to inability of Ben Smith, charged with responsibility of supplying the mules, to deliver, the game was played sans mounts.

Some good plays—and some rotten ones—featured the battle. It was a good show for sideline customers, if the brand of chatter turned loose by fans is to be taken seriously. Jake Snyder, editor of the Scurry County Times and past president of the Snyder club, was the outstanding star. Officials were John Baze and Rev. Cal C. Wright.

AXTELL GOES TO WIFE'S BEDSIDE IN NEW YORK

H. A. Axtell, superintendent of the production department of the Magnolia Company at Laramie, left by plane Sunday night for New York City in response to a message that Mrs. Axtell was in an alarming condition at Rockefeller Institute, where she has been a patient for about two months.

No word of her condition on his arrival there had been received here late Wednesday.

The Axtell children, Jane, Jo, and Ann, are with a sister of Mrs. Axtell's in Cleveland, Ohio.

MEMORY OF MRS. T. H. ROE IS GIVEN HONOR

An airmail letter, special to Mrs. Jarold Riordan, failed to reach Colorado Wednesday in time to accomplish what its author had meant it to, but its contents will be put to a use of which she will surely approve.

The letter was from Mrs. Anna Roe Keith of Richmond, Kentucky. It contained two dollars with which Mrs. Keith wanted flowers bought and used at the district meeting of the El Paso Presbyterian here Wednesday in honor of her mother, Mrs. T. H. Roe, who was a charter member of the Presbyterian.

Reaching here after the meeting ended, the money could not be used for flowers and it was added to the collection taken during the meeting for payment on the encampment at Kerrville.

Cotton Production Estimated At Over Nine Million Bales

A cotton crop of 9,443,000 bales was estimated Monday in report issued at Washington by the department of agriculture, registering another hike in Uncle Sam's guess at the country's yield in 1933. A month before the estimate was 9,252,000 bales and two months back the crop was indicated at 9,192,000 bales.

Condition of Texas crop was given at 47 per cent of normal with an indicated yield of 2,345,000 bales.

Ginnings prior to October 1, the report stated, totaled 4,958,349 bales. In Texas the total ginnings were 1,718,983 bales.

DR. GRISWOLD, PIONEER IN METHODIST MINISTRY LOOKING TO RETIREMENT

Dr. J. E. Griswold, among the pioneers in West Texas Methodism, stated to a group of friends in Colorado Tuesday afternoon that he planned retiring from the active ministry with close of the present conference year. He is now pastor of First Methodist church at Baird.

Dr. Griswold has been active in the Christian ministry for many years. In the long ago he pushed out into remote communities of West Texas to carry the gospel to practically isolated families. He developed into one of the most forceful preachers this conference has ever known, taking leading part in development of denominational schools along with the church.

He is well known to the people of Colorado. He was presiding elder here several years ago immediately preceding transfer of the district headquarters to Sweetwater.

Snyder, who told "Why the American Magazine Has So Many Friends." Mrs. Snyder also read two articles from recent issues of the American magazine, one of them about Vice-President Garner and the other by him. It was brought out in discussion of the magazine that it carried the Scattergood stories by Clarence Buddington Keland, considered among the best and cleanest short fiction of today.

MISS GUNTER AND CLUB WOMEN TO CONFERENCE

Miss Emma Gunter, county home demonstration agent, and two of her clubwomen, Mrs. Dewey Webb of Looney and Mrs. Lee M. Jones of Plainview, were among committee men, home demonstration club women, and county farm and home demonstration agents from seven counties meeting at Ballinger Monday morning for a conference and educational meeting.

Of special interest to the women was a conference after lunch for home demonstration agents and the new district agent, Miss Kate Adele Hill, who succeeds Miss Gertrude Blodgett. Miss Blodgett resigned to marry August 20.

MISS GUNTER TAKES CLUB GIRLS TO DALLAS FAIR

Unable to find them any other way to Dallas after the original plan to give railroad passes had failed, Miss Emma Gunter, county home demonstration agent, took her three prize-winning club girls to Dallas Sunday, leaving them to spend this week at the clubgirls' encampment at the Dallas Fair.

Miss Gunter will return to Dallas after them Friday, returning home Saturday. The girls who met requirements for winning passes to the fair were Jauree Burford of Rogers, Dorothy Thompson of Lorraine, and Sophie Smith of Silver.

Rogers Ramblings

The Rogers Parent-Teachers' Association will meet Friday night, October 18, for its regular monthly meeting. An enjoyable program will be arranged for that time. The public is cordially invited to attend. A business session will be held after the program.

The Rogers Senior class will present a three-act play "One Minute of Twelve," in the near future. Watch for the date and do not miss it.

The girls organized a choral club to be sponsored by Miss Tommie Barrier. Miss Laverne Carpenter was elected president and Lena Mae Ritchey was selected as secretary-reporter of the organization. The club pianist will be Opal Wilson and Ruby Gordon Coe as assistant. The members of the club will receive special training in music and will be presented in programs during the year.

Several students are absent from school this week.

The boys and girls basketball teams will be ready to play match games with other teams soon.

CHORAL CLUB ORGANIZED

Rogers Choral club met and organized October 4. There were sixteen members present and the following officers were elected: Laverne Carpenter, president; Lena Ritchey, secretary and reporter; Opal Wilson, pianist; Ruby Coe, assistant pianist; Miss Barrier, sponsor.

SCHOOL PER-CAPITA DUE ON LAST YEAR'S PLEDGE PAID IN FULL BY STATE

Mitchell county school officials have been advised that payment of the last installment of 50 cents on per capita allotment for last year has been paid by the State, bringing total received by the schools during the fiscal period of 1933-34 to \$16 per student.

Receipt of the funds will serve to ease financial stress that during the past several months has been felt by some of the schools.

Accepting that allocations for the present school year are to be paid promptly, trustees and teachers are looking to terms of uninterrupted progress.

State Education Officials Due To Be Here Next Week

Miss Sue B. Mann, deputy state superintendent of public instruction and supervisor of District Three, and Miss Edgar Ellen Wilson of Austin, second assistant state superintendent, are to arrive Monday to visit state aid schools of Mitchell county, according to Mrs. Ruby McGill Dodge, county superintendent.

Both Miss Mann and Miss Wilson will be present and speak at the mass meeting of teachers and school patrons at Colorado High School next Wednesday evening at seven-thirty.

Extensive Highway Program Planned For Next 2 Years

D. K. Martin, San Antonio, member of the State highway commission, announced plans at Dallas recently for a road building program to cost approximately \$20,000,000 in preparation for the Texas centennial celebration.

Martin said the federal government would be asked to make available as soon as possible the \$15,000,000 allotted to Texas for 1935 and 1936 in order that highways may be put into shape for the centennial. The State will match this amount.

Instead of waiting for the money to be paid in two amounts, the commission is working on a plan that will give the state the \$15,000,000 to be used in 1935, Martin explained.

A highway beautification program will be undertaken, particularly on state and federal roads leading into Dallas where the principal celebration will be held. Martin did not announce the amount to be spent on this project.

"The highway department's first concern in making ready for the centennial," he said, "will be to fill the gaps on all primary roads." Roads from Oklahoma also will be improved, he said.

REDUCED RATES TO FAIR ANNOUNCED BY THE T-P

The Texas and Pacific Railway is offering a special week-end fare of one-cent a mile each way for the State Fair at Dallas, which, according to Frank Jensen, general passenger agent, "is one of the lowest State Fair rates we have ever put on."

"This very low rate," Mr. Jensen said, "should be particularly attractive this year because of the race meet being held along with the Fair. This is the first time races have been held at the State Fair in more than twenty years."

Such a low fare should also appeal to people who can attend the fair only on the week-end or who can spare only a day or so at the fair. Week-end Fair tickets are good in chair cars and coaches on all trains arriving in Dallas Saturdays or up to 3:30 P. M. Sundays during the Fair. Return limit to leave Dallas before midnight Sunday. Tickets are on sale at all Texas and Pacific

BEEF COOKERY EXPERT IS AUTHORITY FOR FACTS ON PREPARING BEEF ROASTS

Annual 'Beef Week' Observed By Colorado Store Proves Success Throughout

This rather surprising fact is brought out in a recent bulletin on beef cookery prepared by the Homemakers' Bureau of Safeway Stores. Modern scientific methods have disproved many of the old rules of roasting, according to Mrs. Julia Lee Wright, director of the Bureau.

For one thing, the roast is not to be "dressed" or covered. "The use of a lid on the meat," says Mrs. Wright, "causes 'steaming' instead of roasting, and the result is much less tender. Another fact is that basting has also gone out of style, along with the use of both flour and water.

"Salt no longer has to be added before roasting, and, if desired, can be left off entirely until the meat is ready to be served. The value of searing, except for the purpose of forming a crust, has also been minimized. It has been found that searing makes no difference in the tenderness or juiciness of the roast."

Apparently, the only "dressing" which the beef roast of 1934 will wear is a liberal coating of fat, applied by market men in a process known as "larding."

Not all of the discoveries in beef cookery, however, concern the matter of dressing. Of even greater importance is the new knowledge that low temperatures (300 degrees F.) are far more successful than the hot ovens advocated by older cook books.

While pork and applesauce have shared the same menu from time immemorial, it is only recently that cookery experts discovered the many appetizing combinations in which fruit can be used with beef.

Mrs. Julia Lee Wright, director of the Homemakers' Bureau was interviewed recently on this subject, and revealed nearly a dozen interesting ways in which fruit is especially suited as a relish for various cuts of beef.

"With porterhouse," said Mrs. Wright, "plum jam is very tasty. Spiced peaches or grape conserve make an excellent team with sirloin, while pickled pears are recommended with tenderloin. Spiced apples go well with chuck or cleft, and fruit salad adds appetite appeal to brisket or plate.

"Broiled bananas," Mrs. Wright continued, "go best with flank. Spiced prunes, on the other hand, are favored with rump. Orange juice or raisin jam are good with either heart or tongue. Lemon juice lends flavor to liver, and either mint peas or currant jelly can be used with meat loaf."

Mrs. Wright believes that the Beef Campaign now being conducted by Safeway Stores will do much to assure the public that good beef is still available. "With so many helpful discoveries recently of new ways to cook and serve beef," she said, "housewives will be cheered to know that first-quality cuts are on the market."

Every housewife would be her own beef expert if she followed a simple judging plan suggested by Mrs. Julia Lee Wright, director of the Safeway Stores Homemakers' Bureau.

"It isn't necessary to take the butchers' word for it," says Mrs. Wright, if the beef checks with these four tests of quality:

1. Is the flesh of fine grain and

velvety texture, and a good red color?

2. Is the fat liberally distributed along connective tissues and between muscles, flaky in texture, and creamy white in color?

3. Is connective tissue evident in only a small amount?

4. Are bones fresh looking, porous, and pink in color?

It takes only a second to make the test, and hundreds of experiments show that it is reliable. Mrs. Wright announced the test in conjunction with the Safeway Beef Campaign, for which the finest beef available has been obtained.

PASSES, PLUNGES LEAD WOLVES TO WIN AT MIDLAND

KENNEL CLUB FAILED TO SCORE WHILE LOCALS RAN OFF WITH 2 TOUCHDOWNS

Annual Clash Between Two Clubs Staged On Friday Night At Midland

BY R. C. HANKINS

Sports Editor of Midland Telegram

MIDLAND.—An imposing young man who passes, runs and punts under the four-monikered handle of L. "Red Moon" Morrison led the 1934 edition of the Colorado high school football squad to a 12-0 win Friday night over the fast-improving squad of Head Coach Maurice "Dutch" Baumgarten.

The Red-haired one tossed a pass to Cooper for a touchdown in the third period, and pushed one over from the one-yard ribbon in the final quarter. His running and passing to Cooper made each marker possible. As a matter of fact, about three of every five times the ball was handled it was the Red Moon who either sent it bulging to Cooper, spiraling off his instep or took it around end or through the line. The team's offense was built about him. Able support from Connel, No. 1, gave the red-thatched No. 4 able assistance.

The first half of the game was of the proverbial nip and tuck variety, with first Colorado then Midland driving into the other's territory. Both teams apparently were wasting little time feeling the other out. They seemed evenly matched, except for the Colorado aerial, which elicited with increasing precision as the moments drew out. Midland showed ineptness at getting backs who drifted through to the flat zone for Morrison's heaves, and especially in the last two periods. Midland ends and backs developed a tendency to muff passes shot unerringly at them.

In spite of general ineptness in pass offense and defense Midland's running game showed excellent timing and speed at times, and the stands were up and down with cheers when intricate passing combinations were carried through without hitches, sometimes resulting in surprising yardage gains. One such play began with Midland with its back to the

Colorado To Play First Conference Tilt Friday Night In Contest With McCamey

The Wolves are to formally open another Class A Conference season Friday night when they meet the strong McCamey eleven on the latter's grid. The game is to be called at 8 o'clock p. m. and will be second consecutive night battle participated in by the locals this season. The other game was at Midland a week ago.

Encouraged by their victory over the Midland Bulldogs, Coach Jim Reese and his men are expecting to win over the McCamey eleven. Last year the Wolves defeated McCamey 7 to 6, and two years ago the score

was 12 to 6 in favor of the locals. In 1932 McCamey routed the Wolves to the tune of 42 to 6.

Twenty men are to be taken to McCamey for the official opening bout. The team, accompanied by the coach and other officials, are to leave about noon, traveling in a special bus.

Starting line-up for the Wolves is announced as follows:

E. Morrison, re; Wallace, rt; Aycock, rg; Porter, c; Roy Miller, lg; Joe Cox, lt; Cooper, le; Connel, rh; Warren, lb; L. Morrison, qb, and Priester, fb.

goal and wheeled the ball to the Colorado 45.

First downs were: Colorado 21, Midland 11.

The crowd was drawn in large number, attracted by reports of Coach Baumgarten's imparting of new and vigorous team spirit and by the newly installed lighting system. The game was the first grid set to ever played at night here.

Colorado kicked off, but Midland after being given an offside penalty, kicked back to its own 40, where Colorado fumbled and Midland recovered. Each club received penalties and Clyde Chandler broke over line for 15 yards and another first down. Colorado elected to take the loss when Midland fumbled on an off-side play. Chandler got off a rolling punt to the Colorado 17. Colorado started a drive that was halted on the Colorado 28, and Morrison punted a roller to the Midland 25. Cloo Brown, new back with the Bulldogs, tossed a pass from a crouching play that Jones gathered and was downed on the Colorado 45. Brown made a first down at the line. Midland was given an offside penalty, and a Midland pass was intercepted, Cope slowing down the runner so he could be tackled. It appeared for a moment he was loose, but the runner was ransacked. The ball was brought back and a clipping penalty assessed against Colorado the ball being placed on the Colorado 19. The Morrison to Cooper pass set tipped on the Colorado 20, where Chandler bulldozed the runner.

Colorado opened the second quarter with passes that carried to the Midland 30, Cooper and E. Morrison dragging them down. Morrison and Connel began a series of quick thrusts into the line, but the Colorado drive mired down on the Midland 10, where Midland gained five yards by a short heave to White that was to have been a triple pass. Midland bogged down in its running at tack after getting out of dangerous territory and punted to the Colorado 30, where the ball was downed. Mr. Cope, taking a lateral, danced to the Midland 40, where he was forced out of bounds by Clyde Chandler. Morrison passed to Cooper on the Midland 32, and made first down on a stab at the line. Morrison raced to the Midland 11 for another first down. A pass intended for Cooper failed and Colorado received an offside penalty. A pass from Morrison to Cooper was completed on the Midland 7, but fourth down found four yards to go and Morrison fumbled, the ball going over on the Midland 17.

It was here that Midland puled the most sensational play of the game. Chandler lateraled to Cope who lateraled to Collins as he was about to be tackled, and Collins took the ball while stumbling, and broke up the right sideline to the Colorado 45 before he was cut down. The stands were up to the last man, hysterical at the brilliance of the play and at the gamble behind it. It would have been a sure scoring run had not Collins missed several strides before he got his feet clear under him certainly. Passes failed and the gun for the half sounded upon fourth down and five to go on the Colorado 40.

Midland kicked off and the ball was downed on the Colorado 19. Morrison did most of the carrying as a drive carried to the 43. Priester, Connel and Lee forming fast, closely-knit interference. The fleet Colorado general then began mixing an assortment of passes, sweeps and dives off tackle that resulted in the first score.

The scoring play was a pass launched by Morrison, who stood on the Midland 30-yard stripe, and taken by Cooper, who snagged it in the flat zone, cut to the left and went over.

Try for added point failed as the Midland line charged the Colorado kicker and blocked his effort.

Two attempts of Colorado to kick off to safe territory failed, the ball going out of bounds. Midland was given the ball on its own 40. Midland lost five yards on a penalty, but after passes failed, Roy Jones made a first down before another series of passes failed and Midland punted to the Colorado 30.

Morrison fumbled but the quarterback came back with a 6-yard plunge over the line, and on the next play rammed to his 44. In three more dashes, the running threat of the visitors had penetrated to the Midland 15. Adams broke up an attempted pass and three more plays failed against the frontal bulkhead, the ball going over at that point.

Colorado opened the second quarter with passes that carried to the

Kin Mayor Sadler Given Surgery At Dallas On Tuesday

Two close relatives of Mayor and Mrs. J. A. Sadler were given surgery at Baylor hospital, Dallas, Tuesday morning. Dr. O. Lindley of Breckinridge, brother of Mrs. Sadler and the son of Mrs. M. E. Lindley, taken to the hospital Sunday by Mr. Sadler, was operated upon at 10 o'clock and Mrs. W. J. Lamkin, sister of the city's chief executive, went under the knife an hour and thirty minutes before.

Mr. Sadler left for Dallas Monday night at 10 o'clock after presiding at session of the city council. He arrived here from that city at midnight Sunday, after having attended his sister and brother-in-law.

Prominent Doctors Will Be Heard In Health Meet Here

Addresses by prominent doctors of the state are to be features of the West Texas Tuberculosis conference to be held here at the Palace Theatre on October 24, according to Mrs. Jeff Dobbs, Mitchell County member of the board of directors of the Texas Tuberculosis Association and one of those in charge of arrangements for the meeting.

Dr. J. E. McKnight of Carlsbad Sanatorium will be one of the principal speakers. Dr. R. S. Norris, superintendent of the children's hospital at State Sanatorium, will lecture during the morning session and illustrate his lecture with slides. Others to be heard during the day are Dr. Charles Bivings of Big Spring, Dr. John B. Thomas of Midland, Dr. E. W. Frothro of Sweetwater, and Dr. Earl Sellers of Abilene.

The morning session of the conference, beginning at ten o'clock, will be open to visitors and mothers are especially urged to attend, Mrs. Dobbs states.

Health officials from Taylor, Nolan, Mitchell, Howard, and Midland counties are to be in attendance.

BLACK CATS AND OTHER SPOOKS DUE TO ARRIVE LAST DAY IN OCTOBER

October is the month in which the spirits of Halloween make their annual visit to folk throughout the country and Colorado will be no exception to this universally recognized occasion. Halloween is to be celebrated on October 31.

It will be the occasion for black cats and other creatures bent on making one see things in the night. No doubt a few gates and some downtown signs will be mysteriously moved from their accustomed place through will of the grotesque creatures.

Other events of importance coming this month include October 4, when the first railway was built in the United States (1833); October 12 (1492) when Columbus discovered America, and October 27 (1858) anniversary date of Theodore Roosevelt.

FORMER COLORADO MAN GIVEN PLACE IN 'HALL OF FAME' BY MAGAZINE

Champ Carter of Fort Bayard, New Mexico, has been added to the "Hall of Fame" roster of the Southern Pharmaceutical magazine, trade journal published in Dallas, "because he is a distinguished veteran of the World War; because of outstanding service in the field of pharmacy," and other reasons.

Carter, a son of the late Judge M. Carter, was reared in Colorado. He was seriously injured in France during the world war when a truck in which he was riding featured in a wreck. He spent about two years in the hospital.

HEALTH RECOVERY IS PROMISED DR. ROOT AT MARLIN HOSPITAL

Root Hospital To Be Closed To The Public For Next Thirty Days

Friends of Dr. C. L. Root will be glad to learn that physicians at Marlin, where he is under treatment, have assured him of the recovery of his health within four or six weeks and have promised him that he will be able to resume his work in that length of time.

Accompanied by Mrs. Root, Dr. Root left on Monday for Marlin and plans to remain there about thirty days. He previously had made a trip to Dallas.

During Dr. Root's absence his hospital here will be closed, according to Mrs. Nell Scott, superintendent, who makes the following statement:

"The C. L. Root Hospital will be closed thirty days 'due to the fact that Dr. Root is taking a much-needed and long-delayed rest. He expressed regret before leaving that he could not talk personally with each patient who was under his care."

Dr. Torbett, who owns the sanitarium where Dr. Root is resting at Marlin and who was a school friend of the Colorado physician, diagnosed his condition as resulting from "lack of sense in overwork and too little recreation."

TECH EXTENSION CLASS BEGINS STUDY OF NOVEL

The class is to meet each Tuesday afternoon at five o'clock henceforward, according to announcement made at Monday night's class. About fifteen are enrolled.

Helpful Hint To Fish
 To the poor little Fish the school

THINGS YOU MAY NOT KNOW... ABOUT YOUR TELEPHONE

The telephone had its birth 58 years ago in a makeshift Boston research laboratory, where Alexander Graham Bell watched a tiny straw attached to the eardrum of a human skull trace a wavering line on smoked glass.

Since then, telephone history has been told in countless scientific problems solved. Bell Telephone Laboratories, research arm of the telephone service, is the reason you now may talk across continents and seas, that most telephone wires are underground, that a single long distance line may carry four simultaneous conversations.

Research scientists at the Laboratories search constantly for inventions and

improvements that may be devoted by the Southwestern Bell Company, and the other Bell operating companies, to keeping the price you pay for telephone service low.

Back of this fundamental policy is the belief that in an undertaking planned like the telephone service for the long pull, what is best for the telephone user becomes in the end the policy that will bring us the soundest, more enduring measure of success.

SOUTHWESTERN BELL TELEPHONE COMPANY

year has been smooth sailing so far. It is not known by the Fish but next week, some very rough water will have to be passed over—the six weeks exams.

Just before the exams some of the Fish will have to make up in study hall instead of sleeping soundly for the whole period.

Another great mistake made by Fish is the one of asking the teachers "why" when told to do something. Some very painful scenes have resulted from the simple word "why." If Mr. Foster or Mr. Croslin tells one to "get out" it will show great intelligence on your part to "get" and not ask "why." If you don't believe this, try it at your own risk. (It won't be tried but once.)

LOSS OF A FRIEND

Everyone in school, especially the Senior class, is sorry to see Miss Jennings leave. She resigned here on Tuesday in order to fill the position of County Demonstration Agent at Roby in Fisher county. We are sure that she will be as well liked there as here.

No new teacher has been decided upon as yet but one will be hired as soon as possible. Until one is found Miss Dulaney will substitute.

ASSEMBLY PROGRAM

On Wednesday the 3rd, we were honored and pleased to have Rev. O'Brien speak to us. His subject for the talk was "Do Thyself No Harm."

In this talk he urged that we watch ourselves and keep ourselves from hurting us. He urged that everyone refrain from using tobacco and strong drink especially. Also our social and mental habits show on us; they either tend to build us up or tear us down.

On opening his talk Mr. O'Brien told of a speaker who though high school audiences were dumb. Possibly the speaker had been here.

COMMERCIAL NEWS

The Commercial Department, both Vocational and high school, are making great strides in their work this year. Although the classes are full, they are doing the best work that has ever been done in this department.

The high school bookkeeping department has learned to journalize, post, make Trial Balances, Balance Sheet, and Profit and Loss Statements. This week they are learning to make Working Sheets.

The high school typing class will soon be able to do work for anyone down town who needs work done, call on them.

The new members of the Vocational Commercial Classes are: Lois Pond, Ben Smith, and Sadie Shepson.

The beginning class in typing in the Vocational Commercial Classes are writing straight matter. This is unusual progress in a month's time.

The Vocational bookkeeping classes are so full that some of the pupils go to other rooms in order to work.

Last year's post graduates are showing what they are made of by working from 8:00 A. M. until sundown. They have made great progress in this work.

COLORADO F F A

The Colorado chapter F. F. A. staged a barbecue October 5. This was the first time that we have ever tried one in the fall of the year. Due to unfavorable circumstances a

number of other events interfered and we did not make any money. However we wish to express our appreciation to those that dined with us for their loyal support.

Thursday of this week, October 11, we are planning our annual initiation ceremony. Our campaign for new members began last week and will continue through this week. After our campaign we wish to have a 100 per cent chapter for 1934-35. However, a boy may join any time during the year. A well planned program will be arranged after October 11, and some future events of the year will be decided upon during the year.

BILLY HENDERSON.

LA TERTULIA

The Spanish III club met Monday, October 8, with George Kiker, vice-president, presiding. A report on "The Religious Life of Spain" was given by Estelina Chivers. We find Spain to be a very religious nation as a whole, but they have some ways and customs that seem very queer to us. It is nothing unusual to hear Jesus or Dios used as a common word by the natives of Spain. One of their well-known songs translated into English is this: "But I have such a stunning pair of whiskers! The best that have ever been seen since those of Jesus Christ!" This was a Spanish boy singing to his sweetheart.

Frank Blassingame gave a report on "The National Characteristics of Spain." The Spaniards are a very courageous and dignified type of people. Although the term "hasta manana," which means "never do today what you can do tomorrow," is quite commonly used, they are beginning to be more industrious.

The play "La Criada Nueva" was read and translated by the class.

THIRD YEAR HOME ECONOMICS NEWS

The third year Home Economics girls have been giving reports on the book, "Family Relationship."

They have also made reports on their diets and how they can gain more rapidly. Each girl has been given a diet that suits her particular case. Most all of the girls have gained at least one pound in the week that they have brought little lunches to be eaten at 10:00 and 3:00 o'clock at school. The girls are still on the diet and those who haven't gained will be given a physical examination.

ARABELLE SORRELLS.

SENIOR NEWS

Last week an appointed committee met with Mr. Coffman, a sponsor of the Senior class, and discussed definite plans for a Senior scrapbook. With the cooperation of the class, we hope to make a yearbook that the High School library will be proud to possess.

We Seniors certainly have no time for play between studying History and English.

It seems that the would-be-blonds didn't go over so big. We pity the Senior boy who is being rushed off his feet by two of the fairer sex. Poor Charlie!

Miss Evelyn Jennings our Senior sponsor and Home Economics teacher has resigned to take a position of Home Demonstration Agent at Roby. We are very sorry to lose her but we wish her much success in her new position.

JUNIOR NEWS

The Junior girls who are taking Home Economics are without a teacher. We are very disappointed because Miss Jennings left us.

Arabelle Sorrells seemed to have quit N. T. Berry quite suddenly. We wonder why!

Some of the Juniors have quite a crush on some of the Seniors, especially Burdine and Cooper in the fifth period study hall.

SOPHOMORE NEWS

Hazel Jim Gray, Mary Eleanor Rogers, June Cox, Etta Fern Harkins, and Tad Pole Wyatt attended the football game Friday night at Midland. Some of our Sophomores playing in the game Friday were Joe Cox, Ed Morrison, and Ewing Lee. We are glad to say they played a good game.

We hear Leroy Shepherd went to Lorraine Friday night.

The Mackey-Girvin case ought to be given attention.

The Pidgeon-Wulfjen case is said to have reached its crisis. A turn for the better is predicted.

Lorene Grissome has been ill for the past week and we are very glad to have her back with us.

Mary Jane Hampton and Estelle Harper went to Big Spring.

Lovene Conaway has a new fame such as Oatho Rice.

The impossible: To see Coach not grinning; To see Ed Morrison not wise cracking.

Weldon Nuckolls is singing "The Man on the Flying Trapeze" to Mary.

FRESHMAN NEWS

Chick Carter went to Stamford Tuesday night for a brief visit.

Billie Mann said he loved all beautiful girls regardless of size.

"Cats don't work, but who wants to be a cat?" said Mr. Croslin.

Lewis Hughes, our student from Seven Wells, who recently had an ap-

pendicitis operation, is very much better and we hope he will soon be back in school.

Mr. Foster said: "I can park anywhere I want to. I am a school teacher."

Billie Miller said he was always looking for a new way to say "I love you" to Marie O'Brien.

We had a very interesting lesson in English Monday. It referred to a chart of all pronouns.

A FISH IN THE FOODS LAB

One of the most important events which occurred in the first year Foods class of the Home Economics department last week was concerning the foods laboratory. This group went into the lab Friday to prepare different kinds of uncooked cereals.

Before preparing these cereals we found some interesting facts concerning them. There are three groups of cereals. They are: cooked, uncooked and semi-cooked or partially cooked. Corn flakes, puffed rice, and shredded wheat come under ready-to-eat or cooked cereals. Oatmeal and cracked oats are uncooked cereals. Semi-cooked cereals are such as rolled oats and rolled wheat.

Cereals are very healthful. They aid in building and repairing the body, giving it energy or heat, regulating body processes, and in making it grow.

In the foods lab we prepared a good many of the uncooked cereals. Many of us found new ways of preparing cereals. We prepared plain malt-o-meal, and malt-o-meal served with dates, plain cream-of-wheat, rice with raisins, and oatmeal with cooked apricots.

This experience was new to some of us, but we enjoyed it to the highest extent and are looking forward to our next venture into the bright and sunshiny land of "cookery."

JANE MESKIMEN.

SUPERSTITIONS OF BEXAR COUNTY

Most of the superstitions recorded here have been gathered among the German farmers of Bexar county. Some of these beliefs have descended directly from the German colonists who settled there generations ago; others have been formed or modified by contact with negroes and Mexicans; many are the common property of folk all over America; many, also, belong to universal folk lore.

The superstitions play such a living part in the lives of the Germans of Bexar county that they accept the sayings without question and repeat them without comment. The weather, as everywhere else, is a favorite topic of conversation, and some farmer in a group around the country post office will be heard to remark: "Well, the pigs have been carrying straw all morning; so I guess we'll get something in the way of weather right soon." Another man will yawn and remark: "I saw the pigeons flying high yesterday and that's a sure sign of rain."

Some of the people believe in these superstitions so strongly that they'll actually swear that they have never known them to fail. On the other hand, many of the superstitions are frankly acknowledged as such. For instance, the cat may be asleep on the doorstep with its tail curled around its feet. "Go and see who is coming," the mother will say to one of the children, then turn and smilingly explain to the stranger, "It is just an old saying among ourselves that company will come from the direction towards which the cat's tail points."

Listed below are some of the most exaggerated weather beliefs of the people.

"If a pig has a straw in its mouth, rain is coming soon."

"If the rooster crows after dark, rain will come."

"If the moon has a halo, the next day will be foggy."

"Where the lightning strikes there is gold in the ground."

"If the spot on the bottom of the coffee pot burns, it is going to rain."

Here are other superstitions pertaining to other things.

"If you dream of a snake and a friend in the same night, the friend will die."

"If you move a cat, you will have bad luck."

"If a rooster crows behind the back door, company will come."

"If you drop a dishrag, company is coming."

If the palm of your hand itches, someone is talking about you.

If you get a hiccup, someone is thinking of you.

"A girl should never drink out of the spout of a coffee pot; if she does so, she will get a cross-eyed husband."

"If you wink at a girl, she will become your sweetheart."

"A boy that picks up a rose dropped by a girl will become her sweetheart."

"If you build a fire and it does not burn, your wife will be as ugly as mud."

"If the full moon shines in a person's face while he sleeps, he will walk in his sleep."

"If you see a red-haired girl that is cross-eyed, take three steps backward and turn around before passing her. (Better watch that she doesn't slap you when you pass, too!)"

"If a bug gets on a girl, she will get a dress the color of the bug."

"The foot of a rabbit that has been killed by a cross-eyed negro on the night of the full moon at twelve o'clock in a cemetery near the grave o-

RESOLUTION FLAYS BEER SALES BY GIRLS AS RAP TAKEN AT LIQUOR TRADE

Denunciation of the Sweetwater Baptist association, in annual convention last week, of the fact that the "most beautiful young girls of the city are recruited" for the position of dispensing beer and the further charge that race gambling is becoming a more serious handicap to religious progress found approval here later by the Revs. Dick O'Brien and Cal Wright, pastors respectively, of First Baptist and First Methodist churches.

"That is but another of the many problems about which our people are jointly concerned and are facing together," was comment of the ministers.

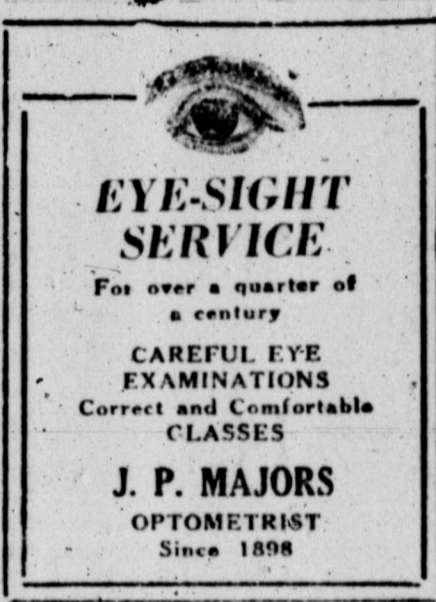

In resolution adopted during the session legalized sale of beer and other agencies that "attack the moral and civic ideals of our people" were denounced.

The resolution provided that "we engage to make known our opposition from the pulpit, the press, in our Baptist schools, on the public platform, the ballot box and in our lives and personal conduct."

DEATH CLAIMS H. J. ASKINS, PROMINENT LORAINÉ CITIZEN

Mr. Askins, though seemingly in robust health, closed his mercantile

business and retired from active business in the midst of prosperity; due to condition of his health several months ago.

He became quite ill Tuesday. Even though all was done by Lorainé and Sweetwater physicians he died suddenly Saturday night, his death being attributed to acute heart failure.

Funeral rites held from the Methodist Church Monday afternoon were attended by Lorainé business men and scores of friends in tribute of respect for one esteemed highly, and known for the honest business integrity he maintained in the several years of his dealings here.

The service was conducted by the pastor, Rev. C. B. Meador, who read Paul's letter to the Corinth Church and admonished the living from the written word in the book of Job 1:14: "If a man die, shall he live again?"

On Sunday, October 7, the Fidelis class of the Baptist Sunday school enjoyed a dinner at the lovely home of Mrs. R. E. Bennett. P. T. A.

The P. T. A. open house was well attended Thursday evening, October 4th and the enrollment in the organization increased.

The eleven room mothers acted as hostesses and tables were placed in the hallway where guests registered for each room they had children enrolled according to their grade.

The program was opened with a band concert under the direction of W. L. Leggett. The numbers were well rendered, the band looked very snappy in their uniforms and the audience was very appreciative.

Gloria Martin gave a beautiful tribute to childhood as she read "A Child Am I" which was followed by the highlight of the program, an address by Rev. Dick O'Brien, "The Home Start."

Rev. O'Brien never fails to leave with his audience the very best of the highest ideals of living. He is a forceful speaker, humorously interesting and so human that he pleases young and old alike in his messages of idealism. We were indeed fortunate in securing Rev. O'Brien for this program.

Mr. Bennett invited the guests

Special prices and attractive deferred payments, effective this month, offer a real inducement to look over these improved gas circulating heaters. You'll find them in many smart new models in various sizes to meet your particular heating needs. See them, and install this month if you would save!
How to save GAS
1: Don't turn gas up so high that flame goes over top of any heater. This wastes gas and makes bad air in the room.
2: Don't open doors and windows to cool the room; turn the gas down instead. A thermometer will assist in keeping correct temperature.
3: Don't try to heat too much space with one heater. An additional heater will save gas consumption.

Big Spring Sports Writer Gives Comment On Colorado-Midland Bout, Played Friday

The following comment on the Colorado-Midland grid contest, staged Friday night in Midland, is offered by sports writer on the Big Spring Daily Herald:

Just to save the Midland people embarrassment it might be well for them to bring four-bits the next time they want to see Big Spring play a game. One of the Colorado school officials told us that Jim Reese, the new Wolf coach, is going over great. The official added that the boys are just now absorbing Reese's method of coaching, which he said is quite different from the tactics used by Cantrell.

Colorado has high hopes of defeating the McCamey Badgers in a conference game Oct. 15, and after seeing the Wolves perform for six minutes we don't doubt but what they'll give the Upton county grid-ders all they can handle.

Wolves Win

Midland's plugging game and attempted pass failed, and Chandler's punt was partially blocked. The ball rolled to the Midland 42, however, before Colorado's safety picked it up and was downed. Morrison launched a pass that E. Morrison gathered in on the Midland 12, where a pass was blocked as the quarter ended.

Both sides passed a lot in the game, but Midland was unable to do any good through the air. Colorado blocked almost every time, but the Bulldog pass defense was terrible, which probably accounted for the Wolves' good luck.

Midland has a lighted grid now, but its lot nearly as good as San Angelo's. We had always thought Midland a very hospitable place, but had our opinion changed Friday. Midland school officials are certainly after the money in the football game. They refused to honor any passes Friday night, would not let newspapermen in free, and even made the Colorado coaches' wife pay.

Prof. W. W. Lackey, superintendent of Midland schools, is nearly always in attendance at Big Spring games. And he nearly always brings a car load of friends along which he asks to be admitted free. They always are. Yet when Big Spring officials and newspapermen go to see the Bulldogs in action the Midland profs turn thumbs down when it comes to getting through the gate.

Whence this evil conscience? Is it the result of evil teaching and environment? Whence this pure conscience? Is it the result of such teaching? Is conscience a "creature of education"? The late Dr. F. B. Meyer said: "Conscience is not simply knowledge of what is right and what is wrong; it is the judgment seat of God in miniature. Every Christian carries the judgment seat INSIDE of him, and day after day he stands before it." To the Jews Paul said: "I have lived before God in all good conscience to this day." Saul the blasphemer, the persecutor, the "chief of sinners" was moved by a seared conscience when he "consented" to the death of Stephen. His explanation is, "I did it ignorantly in unbelief."

THIRTY YEARS AGO

By Holmes Nichols

Congratulations on having reached your thirty years of sapient service as publisher and builder, not only of your own welfare, but that of Colorado, and all West Texas as well.

The announcement that the Colorado Record had celebrated the thirtieth year of its existence brought to my mind the statement of a dear woman who said: "My, my, how time has flew."

It was during my pastorate at West Texas, that I met the Whipkeys, A. P. and Fred, and their estimable families. I was their pastor seven years. During these years, a fadeless friendship was formed. We were more than dwellers-by, we were neighbors, such as described by the "Son of Man" in the story of the good Samaritan. We worshipped at the same altar, played games, evenings, attended chautauques and shows, and exchanged books. Our children romped and played together like brothers and sisters.

In the providence of God the writer was called to cultured Colorado City as pastor of the First Baptist church. Though we were pleasantly located, we longed for the companionship of our erstwhile friends, and they longed for a change, and so Abe said to Fred:

"O, for the West, where peace and rest Go jogging side by side; 'Tis but a pace to the better place By the Scripture glorified."

In keeping with this desire Abe wrote me that he and Fred desired to dispose of the West News, and go west if there was a suitable place for them to establish a paper. Immediately I called on Mrs. Kindred, who had a small plant that she desired to sell. This information went to the Whipkeys, and it was not long until they had their feet under our table. My, my, how these old boys did eat. The ozone had done its work immediately. A deal was made with Mrs. K. and soon their families came, and the parson, and the mistress of the manse were happy. Thirty years ago the Colorado Record came to my study, and it has not missed one issue from that day to this.

The Record did not pop up at night like a mushroom. Its growth was slow and sure and successful. It represents toil, late hours at press and desk, thrift, honesty, business acumen, and therefore a satisfied public. The goods were delivered, the enterprise succeeded, and the people were enlightened and helped. Seeing these things the business men, the farmers, cattlemen, sheepmen, merchants, and the plodding laborer, and the people in general were drawn to the whip and key. (The whip symbolizes activity, and the key symbolizes an open door to prosperity for press and people.

As I write these words many of the citizens, who rallied to the whip and the key seem to be looking over my shoulder, and I would be pleased to mention their names here, but space forbids. However, many names

Thirty Years Ago

Two women seem to be looking me in the eye. They are before me face to face. Mrs. F. B. and Mrs. A. L. Whipkey. They toiled and sacrificed for this worthy, helpful, necessary enterprise. Ah, they talk about a woman's sphere. As though it had a limit.

There is not a place in earth or heaven There is not a task to mankind given.

There is not a blessing or a woe, There is not a whisper, Yes or No, There is not a life or death or birth That has a feather's weight or worth Without a woman in it.

Though Mr. and Mrs. A. L. Whipkey are not now connected with the Record, they still carry on for the upbuilding of home, church and school, while Uncle Fred, and Walter, his son, publish the Record.

Mrs. F. B. Whipkey, "Aunt Rose," was here then. No, she is not dead! Golden deeds never die! Personality is immortal! She had a part in every good word and work, and her works do follow her. "Death is not a blind alley; it is a thoroughfare. It closes on the twilight, it opens on the dawn." In that dawn she is with Christ, whom she worshipped and loved. Hallowed be her memory!

I now recall that soon after the death of "Aunt Rose," this beautiful poem was inserted in this column and knowing the circumstances so well it brought tears to my eyes as I read it.

They are asking him to laugh and carry on. They are begging him to see a comic play. But she who made his merriment is gone. And she who was his courage is away.

They try to rouse his spirit with a jest. But she who was the joy he loved is best. Has left him, and he wanders in a daze.

He hears but very vaguely what they say. Still uncomfortable he keeps within his door. For she who was his courage is away. And she who was his comfort is no more.

All the roses will come blossoming in May. In the garden which they loved and looked upon. But she who was their beauty is away. And she who was his happiness is gone.

Thirty years ago seems as but yesterday to this writer. Ah, what is it compared with the ages eternal? What is your life. A vapor that appeareth for a little while and then vanisheth away.

"I know not where His islands lift Their fabled palms in air; I only know I cannot drift Beyond His love and care."

Bro. Nichols was former pastor of the Baptist church here and has a host of old time friends still here. He now lives at El Reno, Oklahoma and this week has a front page article in the Baptist Standard which we here reproduce in this column:

THE UNCONSCIENTIOUS CONSCIENCE

Before me is a list of definitions of conscience, gathered from many sources, but I prefer to use that of a little boy, who was asked, "What is conscience, son?" He replied, "It is something inside of me that makes me do what I do not want to do."

The word does not occur in the Old Testament. There it is a "still small voice," more majestic than the moving mountain, the rending rocks, and the thundering tornado. "It is the VOICE of the depressed good."

Again, conscience is God's Word shut up in the heart, as a burning fire in one's bones (Jer. 20:9; 1 Kings 19:12).

So it was something inside of the prophets, Elisha and Jeremiah, that made them do what they did not want to do. They had the "unconscientious conscience," that faced death with hopeful, happy hearts.

Conscience occurs twenty-nine times in the New Testament. Paul uses it twenty-six times. He writes of a good conscience and an evil conscience, a seared conscience and a defiled conscience, and a pure conscience that do.

A picket frozen on duty, A mother, carved by her brood, Socrates drink the hemlock, And Jesus on the road; And millions who are noble and named.

The still small voice, that have strode— Some call it conscience, And others call it God. They had something inside of them that made them do what they did not want to do.

Philathea Quilt Show Monday Declared One Of Most Beautiful Ever Held Here

One of the most beautiful quil displays ever seen in Colorado, according to those attending, was the one held in connection with the Philathea Class' Silver Tea at the home of Mrs. J. A. Buchanan Monday afternoon. More than 100 called during the afternoon.

Arriving at the Buchanan home, guests found the reception room gay with zinnias and marigolds. They were greeted and served with sandwiches, tea, cookies, and mint by members of the class and then conducted through the spacious living and dining rooms where the more than fifty quilts were displayed. Soft piano music was furnished throughout the afternoon by Miss Maurine Wade and Mrs. Ray Womack.

After viewing the quilts, each visitor was allowed to vote for the ones which were her choice for prettiest and most unique. The oldest quilt, of course, was determined without vote.

At the close of the afternoon the prizes were awarded as follows: for the oldest quilt, Mrs. John L. Miller; for the prettiest, Mrs. W. J. Miller; for the most unique, Mrs. L. C. Scarborough. Each of these women were presented novelty flower pots containing narcissus bulbs.

Mrs. Doss' quilt is between 110 and 120 years old, and was made by Martha Dove Reese, mother of Mrs. Doss' father, J. B. Reese, in Baltimore, Maryland. It is of applique work and has been well preserved.

Mrs. Miller, who is the mother of Mrs. V. D. McMurry and who spends much of her time in El Paso, pieced her quilt recently and it beautiful quilting received much notice.

No two blocks in the quilt shown by Mrs. Scarborough were alike. All were made in startling and varied designs, although colors were harmonious.

A number of other quilts received many votes and excited much comment. Notable among these was the Gold Star quilt made by Mrs. H. P. Almond, a Gold Star mother, in honor of the son she lost in the war.

Another was Mrs. R. H. Ratliff's quilt, made 105 years ago by her maternal great-great-grandmother who was born the same year as Queen Victoria. The hint which bordered the quilt came from England, and during the Civil War it was kept safe in a buried chest.

Mrs. A. C. Melton exhibited, in addition to a very old quilt, a coverlet made of homespun material 140 years ago.

SOAP SPRAY FOR LICE

Those people that have nice turn-up and mustache patches, have found lice on their greens will use either a soap spray, soap and kerosene emulsion or Black Leaf 40.

The soap preparations are easier prepared. Use any strong soap such as laundry soap, cresol soap, dog

soap or soap powder dissolved in hot water, 1/2 pound soap, 1 gallon water. This can be diluted with 2 gallons of cold water.

If kerosene is used in a soap solution add kerosene after taking boiling soap from the stove and pump together until thoroughly emulsified. Black Leaf 40 dilute in water.

THIS AND THAT

Mrs. Tom Daughtrey, bedroom demonstrator for the Plainview Club has her tufted bedspread almost finished for the visitors to see in her bedroom October 30th on Achievement Day Tour. She is using unbleached domestic sheeting with a soft blue and natural colored yarn.

Mrs. T. P. Smallwood of Hyman club has a greens patch about 12x12 feet in her yard that will soon afford her family all of the greens they will use. Her husband is more interested in it than she is. He keeps it watered and tilled.

Mrs. B. H. Henson of Plainview club has made a mattress pad using a cheap grade of sheeting for covering of an inexpensive grade of quilt cotton. She quilts this in rows. This is a much better pad than the commercial ones that are quilted and are hard and of very poor material.

TALK can't put SAFETY and MILEAGE into TIRES

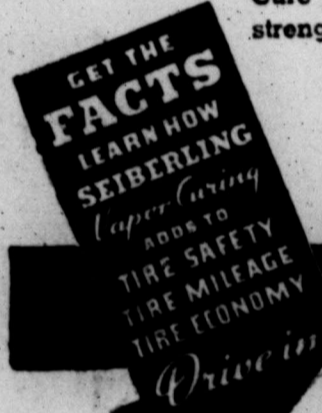

It would be easy to make money in the cattle business if ranchers could use the gift of ggb to add weight and raise prices. But talk won't do it.

And saying that a tire won't blow out doesn't prevent it from blowing out. And claiming that a tire is three or four times safer or that it will run many thousands of miles farther doesn't make any tire safer or last longer.

Talk doesn't build good tires. Only rubber and cotton and long experience can do that. And that is why Seiberling tires are FACT tires—not CLAIM tires. They are built by a man who has been building good tires since 1898 and who has more major tire inventions to his credit than any other man.

Come in and let us demonstrate the facts about Seiberling tires. Let us show you the exclusive Seiberling Vapor Cure process adds greatly to tire mileage—to tire safety and to ultimate tire economy. See with your own eyes just how the Seiberling Vapor Cure process preserves the natural strength and life of rubber and cotton.

Come in today—Seiberling Vapor Cure tires cost more to build but they cost no more to buy.

Mr. and Mrs. Bob Odum of Chautauque spent Sunday in the home of Mrs. Lee Brown.

TAHOKA Congressmen-elect and Mrs. Geo. H. Mahon and their little daughter Daphne of Colorado spent Saturday night and Sunday here as the guests of District Attorney and Mrs. G. H. Nelson.

At the Panhandle-South Plains fair at Lubbock on Saturday afternoon, in the presence of a throng of possibly fifteen thousand people, Mr. Mahon was presented with a suit of clothes made in the Textile Department of the Texas Technological College. President Bradford A. Knapp made the presentation speech and Mr. Mahon responded happily in a brief address.

Mr. Mahon and Mr. Nelson were schoolmates in the law department of the University of Texas several years ago, since which time they have been fast friends.

Mr. Mahon also was not unknown in Tahoka, since she was teaching in the public schools here when she and Mr. Mahon were married in December 1923. Mr. and Mrs. Mahon met many friends here Sunday.

TWO MILLION DOLLARS FOR RELIEF IN TEXAS

Two million dollars for general relief in Texas this month was granted Friday by Federal Relief Administrator Harry L. Hopkins on condition that the State provide a like amount for November. Agreement was reached following a conference between Hopkins and Claude D. Terry, chairman of the State Board of Control. The money may be used both for direct relief and work relief.

In New York state, no fewer than one in every 22 persons becomes, at some time in his life, a patient in an institution for the mentally ill.
