### LONGFELLOW SCHOOL TO BE REBUILT AT ONCE, IS PLAN OF TRUSTEE BOARD

#### Building Is Total Loss In Flames Originating At Noon Wednesday

The Longfellow school building, two-room frame structure in common district No. 1, a few miles northeast from Colorado, burned to the ground shortly after noon Wednesday. The school piano and four student desks alone were saved from the building.

Trustees of the district in conference with Roy Davis Coles, county school superintendent, here a few hours after the fire arrived at plans to rebuild the school at once. In the meantime no definite arrangements for temporary school quarters have been made.

Flames began issuing from underneath floor of the building at one o'clock just as the noon recess was over and students and teachers were taking their places in the class-rooms.

Students of Longfellow school will be taught in the teaching according to a decision announced Thursday morning by A. K. McCarty, county school board member.

Just how the fire originated is not known. Smoke suddenly became so dense that little could be done in the way of removing desks and other furnishings to safety zones. Several of the students lost personal effects in the fire.

The loss is placed at \$2,500, fully protected by insurance. Insurance to the amount of \$1,900 was carried on the building and \$1,000 on the equipment.

### OVERWHELMING LEAD IN FAVOR OF TAKING LIGHT STANDARDS OUT IS SEEN

Prediction was advanced Tuesday afternoon by Mayor J. A. Sadler that voters of Colorado Friday would register an overwhelming majority in favor of removing light standards from Second street. "I hear of but little opposition to the proposal and would not be surprised if the mandate is not written to the ratio of twenty to one," was his comment.

A few months ago when engineers representing the State Highway Commission suggested that the paving of Highway 101 from Colorado north depended upon the equipment being taken down, Sadler was opposed to such a plan.

"I have learned, however, that I was wrong and am sincere in the belief that Colorado will make a mistake in event the small cutlay requested by the commission is not complied with. Those light standards ought to go under the circumstances. It is nothing more than good business for us to join with the government in assuring the expenditure of over \$34,000 within the city."

### TEST LOGS WITH DENHAM FIELD EIGHT MILES SOUTH AND WEST, SCOUTS STATE

#### Lime Topped At 1720 Feet; Eight-Inch Casing Being Set From 1745

Interest of the oil fraternity in this vicinity Thursday morning was centered at Mackey No. 1, wildcat test being drilled by George Riencar and Frank Adams in section 13, block 28, 2 N, four miles west of production in the Butler Camp area and eight miles northeast of the Denham pool in Eastern Howard county.

The test continues to log with wells in the Denham field, giving added assurance to prediction of scouts that the wildcat is a potential material extension of that pool. Riencar stated in a telephone message from Westbrook, "I have never drilled a more promising test in this section," Riencar declared, and he has been identified with development in the Westbrook sector since soon after the discovery well was brought in.

For the first seven or eight hundred feet log of the well corresponded with those within producing territory a few miles east. Before the bit had reached the 1,000 foot level, however, it was a different story. Stratum of anhydrite, shale and lime were penetrated as the hole was deepened, correlating with producers eight miles to the southwest.

The lime was topped Wednesday afternoon at 1720 feet and after drilling 25 feet the crew started setting eight-inch casing from 1745 feet, closing an open ten-inch hole from 870 feet where ten-inch casing had been set.

Riencar, who pioneered the blocking of acreage and subsequent drilling of the test, owns acreage about the well. The pioneer Colorado drilling contractor is given much credit for making possible a test that oil men have long believed would determine whether or not general belief that commercial production was to be found there was well founded.

"We are expecting to top the pay stratum at between 2900 and 2990 feet, and should log of the test continue as promising as it has during the more than 1700 feet drilled, I have little cause to worry," Riencar stated Thursday. "Most assuredly, there is nothing to condemn the well."

The test is being drilled on land owned by P. K. Mackey of Colorado. He pooled 960 acres in the drilling block. Other property owners added 1500 acres in order to conclude contract to sink the well.

## Poetry Traced From Its Beginning In Pagan Prayers At Lecture On Tuesday

Tracing poetry from its beginning  
in the prayers of ancient man to its  
pagan gods, Dr. Robert E. Brittain  
of the English faculty of Texas Tech  
lectured before an audience of club  
women, students, and other interest-  
ed persons at the high school audi-  
torium Tuesday afternoon on "The  
Function of Poetry."

The lecture was presented to Colo-  
rado poetry lovers by members of  
the Hesperian club in connection  
with their study of contemporary  
poetry. A writer of poetry himself  
and possessor of a doctor's degree  
from Princeton University, Dr. Brit-  
tain is a recognized authority on the  
subject. This is his first year at the  
Lubbock college.

He was introduced to his audience  
Tuesday afternoon by Mrs. S. H.  
Millwee, president of the Hesperian  
club, who had previously been intro-  
duced by John E. Watson, superin-  
tendent of schools.

"To the ancient man poetry was a  
necessity, not just a thing for pink  
teas," Dr. Brittain stated during the  
early part of his lecture. "It was his  
only means of communication with  
his pagan gods, and in using it he  
became sensible of the scope and  
power of the spoken word. . . . He  
used poetry in his prayers and in  
the charms he chanted as he went  
about his daily work. . . ."

"As he emerged from barbarism  
he began to discover that poetry  
could fulfill other purposes. Chief  
among these was that of preserving  
tribal history, to be handed down  
from generation to generation. He  
had not yet learned to write, and he  
learned that rhyming words stayed  
in his head better. . . ."

"All through literary history prose  
has evolved later than poetry, which  
made one of the most important early  
functions of poetry the telling of  
stories that man had not learned to  
tell in prose. . . . By the time he  
learned to tell stories in prose, there  
were new purposes for poetry. . . .  
This constant renewal of functions  
for poetry is outstanding in its his-  
tory."

After discussing the teaching func-  
tion of poetry, which he said is still  
accepted, and its use in other days  
as "social satire" between warring  
political and social factions, Dr.  
Brittain told of the "propagandist"  
in the modern poetic school of self-  
expression. He cited Diego Riviera,  
who said that "art which is not propa-  
ganda has no right to the name," as  
an exponent of the propaganda  
function of poetry.

"But there is a growing belief that  
opinion is beside the point, that propa-  
ganda has no place as a function  
of poetry. . . . Poetry becomes, then  
the art of managing words. . . . It  
serves a function which no other  
medium can serve, that of getting at  
the realities of life through words. . . .  
The materials for poetry don't  
change, because they are found in  
life. . . . New words and new images  
are needed to express our new en-  
vironment."

"I would say that the function of  
poetry is to remind us again and  
again of life's values, to express  
these values through the reality of  
emotional experience. . . . Thus all  
poets are challenged to sincerity, be-  
cause their emotional reactions must  
be real."

"As long as the realities of life  
have any function, poetry will con-  
tinue to have its function."

Dr. and Mrs. Brittain were the  
guests while here of Supt. and Mrs.  
Watson. They returned to Lubbock  
late Tuesday afternoon.

# Have You Seen Our Hen?

She hovers 52,000 eggs (3 1/2 tons) at one time. She never leaves her nest, never breaks her eggs. She is more intelligent and more kindly through all of the 21 days of hatching period than a feathered hen.

We have reference to the Smith Incubator used in Colorado's Largest Hatchery.

Poultry experience is our guarantee to you.

Experience in any business means greater understanding of the customer's needs and therefore the ability to serve a customer to his entire satisfaction. Nothing counts more in the Poultry Business than Experience unless it is ability to give the Poultryman something just a little better than he can buy elsewhere, regardless of price. But back of that there must be experience in breeding and culling of flocks. No matter this experience when you wisely invest in our chicks. No matter what breed.

We sell baby chicks that live and grow, or bring your eggs and we'll hatch them for you. This is an invitation for you to visit us. You will be interested, whether or not you own chicks. We will take you inside of our incubator so you can see how the world's largest mechanical hen hatches baby chicks.

### LIONS HEALTH FUND WILL BE ENLARGED BY BIRTHDAY BALL

The fund with which the Lions club aids children who need glasses or medical treatment will be enlarged appreciably as a result of the President's Birthday Ball at the American Legion Hut Wednesday evening according to a decision announced this week by Rod Merritt, chairman of the ball.

Merritt has been notified that disposal of the 70 per cent of the ball proceeds to local decision will be left up to him. He proposes to turn most of this amount over to the Lions' health fund stating his belief that it will reach many handicapped children through that channel.

He wishes to send a portion of the money to the Scottish Rite hospital in Dallas, that being the only hospital in Texas for children crippled by infantile paralysis. A number of Colorado children have been treated there.

Thirty percent of the birthday ball money is to go to the National committee for research on infantile paralysis.

IATAN CLUB MEETS AT MCKENNEY HOME

The home demonstration club of Iatan met with Mrs. T. L. McKenney Thursday, January 17, with twelve members and three visitors present.

Miss Gunter explained the Club Budget to the members. A motion was made by Mrs. H. D. Mitchell that each member of the club should pay twenty-five cents dues, in order to have more money in the treasury for the club budget.

Mrs. Dewey Phillips gave a report to the club of the Council meeting of January 12th.

Miss Gunter gave a demonstration on framing pictures. Mrs. Ray Knight joined the club, and the visitors were Miss Maxine Stewart, Mrs. McCaskey.

The club adjourned to meet with Mrs. S. M. McElhatten, Thursday, February 7th.

The following women were present: Mesdames Gullett, Hahn, Harris, Phillips, Edwards, Rogers, Ennis, Rogers, McKinney, Barker, Mitchell, Stephen, Knight, Hillhouse and the Mitchell County Home Demonstration Agent, Miss Gunter.

MRS. MCKENNEY READY TO IMPROVE HER YARD Working to make the home more comfortable and interesting inside is one of the 1935 goals and along with this yard improvement work also has

been planned. Mrs. T. L. McKenney, yard improvement demonstrator for the Iatan club is fortunate in having her plan of improvement already worked out by her daughter and her main object now is to get some help from her family in getting her yard filled in, some buffalo grass sowed, some walks laid off rock, and as time arrives plant some foundation plantings around the base of the house.

A cutting bed will be made using concrete tiles for subirrigation. Use of native materials will be carried out as far as possible in the yard program this year.

Other demonstrators are as follows: Mrs. Bill Fowler, Hyman club; Mrs. J. C. Franklin, Plainview club; and Mrs. Ollie Thompson, Looney club. Plans of operation are being worked out and actual work to be started at once.

JEAN HENDERSON IS ENTHUSIASTIC It takes enthusiasm to make a hard job a pleasure and from outward appearances, Jean Henderson has it. She is bedroom improvement demonstrator of the Silver club. She has planned to build a clothes closet, arrange a vanity dresser, change her double bed for a single bed so as to provide for more room, put down a rug and work on proper accessories for her room. Jean has already framed one flower picture for her to m.

Committee Chairmen Named At Meeting Of County Home Demonstration Council

Appointment of committee chairmen was made at the regular meeting of the Mitchell County Home Demonstration Council Saturday in the office of Miss Emma Gunter, county home demonstration agent. Fifteen women were present, representing four clubs.

The meeting was opened at two o'clock with the roll call followed by the reading of the correspondence since the last meeting. Reports of the club activities for 1934 were given for the Hyman, Iatan, Looney and Plainview clubs.

Committee chairmen for 1935 were appointed as follows: Finance, Mrs. Jack Gullett; Yearbook, Mrs. B. B. Howell; Exhibit, Miss Ollie Thompson; Expansion, Mrs. Tom Daughtry; Recreation, Mrs. T. P. Smallwood; Education, Mrs. J. M. Hahn. The committee helpers are to be appointed at the next meeting and their duties assigned.

The standing rules for the Council of 1934 were read and adopted with corrections for 1935. A tentative budget of \$12.00 was discussed and approved.

An instructive Parliamentary Drill on "How to Obtain the Floor to Speak" was carried on by the agent. The next council meeting will be February 9.

Proper Care Makes Hens Pay Better

"Anything goes" is the casual attitude toward the average flock of chickens during every period of low egg prices. Just the most desultory feeding and management—enough to get by—seems to be the inevitable lot to which the layers are subjected.

Provide one nest for each four to five birds. Keep the nesting material clean and replace as often as necessary.

"Such a period and such a condition have long prevailed; but today things are different," says J. H. McAdams of the Purlina poultry department. "The turn has come. Egg prices are advancing; getting higher and higher. Now there is the general feeling that the flock should be given the best of care—a sincere effort is being put forth to do so.

This turn of affairs naturally brings up the question as to what is the most practical plan of feeding and management that will make it possible to get heavy egg production at this time of the year when eggs are money." McAdams says, "The answer is that there are a few fundamental rules which if followed will get the desired results—namely lots of eggs that cost little to produce and sell high.

In the first place the hens should have a warm, dry, comfortable place to live and their laying house should be kept well ventilated, taking every precaution against sudden temperature changes. Overcrowding should by all means be avoided by allowing 3 1/2 to 4 square feet of floor space per bird. A clean, dry litter of straw or peat moss or similar material at least four inches

deep on the floor, will help keep the hens comfortable and healthy. The main thing is to have this litter always dry and clean.

Plenty of feeding and watering space is also essential—at least three inches of feed hopper space for each bird in order that she may eat enough egg-making material. Adequate nest space is also important. Eggs should be gathered three times daily. Nesting material must be kept clean and changed as often as necessary. The need for absolute cleanliness at all times in the laying house cannot be stressed too strongly. It is staid, diseased, weak, or poorly developed birds should be culled out and done away with—also birds that persist in laying eggs of inferior quality.

The question of egg production brings up the most important factor of all—feeding," says McAdams. "No question about it, eggs are made of feed and therefore feed is the foremost item in the plan. Feeding pullets and hens during the fall and winter is based on the principle of feeding all the mash that can be put into them and enough scratch feed to hold their body weight. The mash used should be a ration of known and proven egg-making ability. It should be laboratory, experimental farm, and dollar

At least three inches of feed hopper space should be allowed for each bird in order that all birds may eat enough to supply their egg-making requirements.

tested—features obtainable usually only from large manufacturers. With it should be fed clean, mature home grains or a clean commercial scratch grain or a complete all-in-one ration may be preferred. Whatever the ration, it should be carefully selected as to its merits and reputation for keeping up body weight and maintaining highest sustained egg production.

Tells How to Prolong Life of Good Cows

Five years is the average profitable milking life of a good cow, according to the U. S. D. A. records. "Which is just another way of saying that a man operating a twenty cow dairy is, on the average, obliged to bring in four new cows each year, either as heifers he has raised or through the purchase of cows or heifers," declares W. R. Arends, prominent dairy advisor, in a general statement to American dairymen.

"Only five years seems a mighty short span of usefulness," says Arends, "and there's no getting around the truth of it. At the same time there is no reason why that comparatively brief period should not be extended several years, and save dairymen thousands of dollars. The fact is, this very thing is being accomplished every year in more and more herds, simply by recognizing the things that make frequent replacements necessary and taking definite steps to put a stop to them.

Replacement Factors "In general, there are several readily-cow must be replaced. The U. S. D. A. states them to be: 1st, low production; 2nd, udder trouble; 3rd, sterility; 4th, abortion; 5th, tuberculosis. The Dairy Best Improvement Association Records agree that more cows are eliminated because of low production than for any other reason. This is as it should

be. Cows that are not well enough bred to produce sufficient milk to pay their way, should be replaced even though they are healthy and in good condition. Strict adherence to this rule would go a long way toward stepping up net profits and increasing the general herd average as well.

"But that's not the whole story behind the present five year limit. There are other greatly responsible factors to be found in udder troubles, breeding failures, and cow diseases. Udder troubles are traced directly to the health and condition of the cow. If she is in prime condition these troubles seldom occur.

New Bulletin Offered "For those who are interested, there is available a bulletin titled 'Profitable Cows' which can be had for the asking. It describes fully a proven program for effectively handling dairy cattle in a way that will successfully eliminate costly cow troubles and prolong the milking life of good cows. This program was worked out in collaboration with many reliable herd owners and after a series of experiments at the Purlina Experimental Farm. To obtain this bulletin, write the Educational Division, Purlina Mills, St. Louis, Mo."

## PECOS CRASH VICTIM TRIED FIRST CASE IN DISTRICT COURT HERE

Death claimed the man who prosecuted the first case in district court here some thirty-five or forty years ago when Judge Ben Randals, prominent Pecos attorney, was killed in an automobile accident 50 miles west of Pecos Wednesday afternoon.

Judge Randals, then FERA administrator of Reeves county, had been to El Paso to attend a meeting of administrators and case workers. He was the last man to which the Colorado party, headed by J. H. Greene, bid good-bye before leaving El Paso. He was a single man at the time he and his parents lived here. They occupied a house across the street east of the old Sparks place on Walnut street. He served as district attorney for a time after the organization of this judicial district and his first case was that of Tim Harvey vs. the T. & P. Railroad.

His marriage took place after he moved from here to Pecos. Mrs. Randals died several years ago. He has one daughter, now in State University.

## INTEREST GROWS IN FRIDAY'S REFERENDUM ELECTION

### VOTERS MANDATE SOUGHT BY CITY IN DETERMINING IF 'WHITE WAY' REMAINS

Poll Tax Not Required. City Attorney Ratliff Notes; Polls Open At Eight

Whether or not light standards now standing at intersections along Second street are to remain will be settled definitely Friday when property tax-paying voters of the city march to the ballot box to express their wishes on the question. Due to growing interest in the cause a heavy vote is expected to be registered.

The election will be open to all property taxpayers within corporate limits of the city who are qualified electors under the laws of Texas. City Attorney R. H. Ratliff stated Tuesday morning. Mr. Ratliff explained that it would not be required for the voter to tender poll tax receipt if he had resided in the State one year and the county six months and paid the regulation poll tax due last year.

The election, to open at 8 o'clock Friday morning, will be held at the municipal building with E. H. Winn as presiding judge. Laws of the State governing general elections are to be followed, the city attorney noted. "This election will have to do with expenditure of public funds and as such must be conducted as the election laws of the State prescribes," was his comment. The polls will close at seven o'clock in the afternoon.

Occasion for the special election is in fact the State Highway Commission recently proposed to expend an estimated \$34,800 in rebuilding Lone Wolf Creek bridge and widening East Second and West Point from the Hickory street intersection to eastern city limits, on condition the light standards are removed. The city council elected to have the question settled by the people themselves.

The proposed project is an outright P. W. A. grant by the federal government, meaning that approximately \$20,000 of the amount to be spent will be taken up in wage payments to labor, according to estimates recently announced by the chamber of commerce.

Statement recently made the city by A. L. McSpadden, manager of the Texas Electric Company, is that conduits under the pavement for transmitting electrical energy to the light standards are in poor condition and at best will have become useless within the next year or eighteen months. Repairs to the conduits have been made frequently during the past few months.

Immediate removal of the equipment is not requested by the highway commission. The city would have until the proposed street and bridge improvements are completed in which to take down the light standards.

### Purchase Of Oxygen Tent Suggested As Service Club Goal

Purchase of an oxygen tent for use in such emergencies as might arise was suggested in an address at the Lions Club Friday by J. Ralph Lee. The matter was referred to the board of directors for further consideration.

"I am confident that there is a little girl alive in Colorado today because facilities of such equipment were brought to her during a recent most serious illness," Lee said. "I am informed the tent would cost around \$200 and could be held available to the public. Those who were able to pay would, of course, do so while others not so well situated should not be denied use of the tent."

Dr. T. J. Ratliff explained that the equipment could only be used where electrical energy was available. He suggested that in event the tent was acquired the club provide a place in which it could be used.

### OCCUPANTS UNINJURED AS CAR GOES IN DITCH

SWEETWATER.—En route to their home in Colorado after visiting relatives here, a group, including Mr. and Mrs. M. Kirschbaum and son, Robert, and Mr. and Mrs. Phil Bertram and son, were said to have been blinded by lights from an approaching car and forced into a ditch. ### CALIFORNIA PUBLISHER OF OPINION OLD AGE PENSION WILL NOT PASS CONGRESS

Visitor Spends Several Days Here Following Traffic Mishap Near Town

The Townsend old age pension plan is evidently due for hard sledding at Washington and in all probability will fail of final passage, "because it is not a product of the brain trust," C. J. MacDonald, president of the Record Publishing Company at Long Beach, California, declared here Monday. Mr. MacDonald, his daughter, Mrs. James Scribner and her little daughter, Beverly Jane, were registered at the Colorado.

While driving west Friday night between 9:30 and 10 o'clock the MacDonald automobile was wrecked when it crashed into a truck belonging to the Oil Field Transportation Company of Ranger. MacDonald stated that the truck was parked on the highway without lights. The crash was 12 miles west on Highway One.

Mrs. Scribner was the most seriously injured. She received broken ligaments in her right foot, a cut on the face requiring five stitches to close and painful abrasions inside her mouth. Beverly Jane was slightly cut on her face.

Mr. and Mrs. Doc Wimberley of Colorado drove up to scene of the wreck within a few minutes after the crash. Wimberley assisted in removing Mrs. Scribner and her daughter from wreckage of the MacDonald car.

Passing motorists brought the party into Colorado. Before leaving his disabled car MacDonald locked the doors and returning soon after with a wrecker from the Colorado Motor Company found that the car had been broken into and a fur coat and other personal effects stolen.

MacDonald is publisher of "The Modern Crusader," official publication advocating passage of the Townsend bill. He has for several years taken an active part in politics of his home state and the nation being a member of the California Democratic executive committee that swung that commonwealth into the democratic column during the last presidential election.

Mr. MacDonald and party were returning home after a vacation trip by motor car in the South. He spent Monday in Ranger conferring with officials of the transportation company owning truck featuring in the wreck.

In addition to the debate music is to be furnished by the Rogers community band and Mr. and Mrs. James Herrington of Colorado.

A pie sale will be another program feature, proceeds of the sale to be used by the school board in making needed repairs to the lighting plant.

### Service Club Told Of Election To Be Held In City Today

Members of the Lions Club Friday were reminded that an important election is scheduled for Friday (today) to determine whether or not light standards in center of Second street are to be removed. The announcement was made by Jim Greene, chamber of commerce secretary, who stated he was speaking as representative of Chas. C. Thompson, president of the organization.

"I am not going to suggest how you vote in this election nor do we propose to take any action on this question here today," Green said. "I wish merely to direct your attention to the fact the State Highway Commission proposes to spend \$34,800 for street improvement in the city on condition the lighting equipment is taken down."

### Interesting Topics At Shakespeare Club

"Once in a blue moon" really means something, members of the Shakespeare club learned during the "interesting topic" portion of their program Friday afternoon at the home of Mrs. W. B. Motley.  
The topic on "blue moons" was given by Mrs. D. H. Snyder as the recent magazine or newspaper article interesting her most. News that there is such a thing as a blue moon fact came as a revelation to several of her hearers. The article stated that three blue moons have

been seen in the last fifty-two years. One was seen in England in 1883, another in Ireland during the total eclipse of the sun in 1927, and the last on September 15, 1934, in Santa Barbara, California.

Other current topics presented were "A Whale Taken at Long Island," Mrs. J. Max Thomas; "Gardner's Dinner for the President," Mrs. Frank Lupton; "Herbert Hoover as an Insurance Director," Mrs. J. H. Greene; "Amelia Earhart's Solo Flight Across the Pacific," Mrs. T. W. Stoheroad; "Believe It or Not Items," Mrs. Jack Smith; "Man Versus Machinery," Mrs. R. S. Brennan; Booth Tarkington's "Pet Economics of Celebrities," Mrs. Joe Smoot; "A Lady Who Tells Her Age," Mrs. E. O. Pearson; "Dogs at Work—Trained at the Seeing Eye," Mrs. Thomas R. Smith.  
Mrs. J. Riordan was leader of the topic discussion and also of the lesson on Shakespeare's "Hamlet."

After the lessons the hostess served a salad course, tea, and fruit cake. Mrs. Pearson will be hostess this week.

### Zetogathians Hear Health Discussion

"Everyday Habits of Health" was the subject of Mrs. Scott's health talk. Mrs. E. A. Dierdorff had a paper on national affairs, Mrs. B. May on the "Romantic History of White House Fashions," and the leader on "Home Development of Citizenship."

In the absence of the president, Mrs. Jake Richardson, the business meeting was presided over by Mrs. Randolph McIntyre. The club's new member was voted on, with Mrs. Don Wallace, Mrs. Frank Mackey, and Mrs. Ed Jones, Jr., acting as tellers. Mrs. E. C. Nix was elected.

### 'Better Health' Is Slogan Announced By Safeway Stores

A new type of farm relief which means better health for the public as well as better business for the grower will be put into operation this week with the launching of the annual Dried-Fruit Campaign of Safeway Stores Incorporated to be held from January 25th to 31st, inclusive.

The Company has purchased an entire trainload—more than a million pounds—of prunes and raisins for this year's event. The finest crops available were obtained from the producers at established prices.

Both prunes and raisins are particularly healthful at this time of year, acting as a defense against colds and other illnesses and providing the extra energy which is so important under mid-winter weather conditions. Dried fruit prices are also especially attractive at present to the consumer, since they are among the few food items which have not increased materially over last year.

The announcement of plans for the Safeway drive brought good news to farmers, who have been handicapped by a stagnant market. Both the Raisin Growers' Association and the United Prune Growers' Association were enthusiastic in their approval of the campaign.

Dried peaches, apricots, apples, figs and dates will also be featured during this campaign.

## A GOOD BANK Is a Servant to Good Government

Government is good when it serves the interests of all the people, and a good bank serves the interests of all the people, too. A good bank usually indicates a well-knit, reasonably prosperous city. By safeguarding the community's credit it insures that community's well-being. A good bank is a mark of progress and of order.

But a good bank helps good government in other ways. The lifeblood of local, state and national affairs is abundant credit. And good local banks are the foundation stones in the national credit structure. They could not well be replaced by any other medium, for the banks achieve the only really intimate financial contact with business and with the investing public. Local bank clearings afford a reliable index to the true state of business and employment. It is with the aid of these statistics that the government largely plans its financial program.

Your banker is a very active force in serving the best interests of your community and the nation. It will pay you to know him better.

### A TRICK?

Father Time and Mother Nature must have gotten their schedules mixed this year, judging by the Weather Man's report! Or maybe it was just a nasty trick! At any rate, those who were expecting a "white Christmas" were laid flat of their back when Christmas week turned out to be the Fourth of July—as far as the weather was concerned!

And that isn't all, the New Year dawned bright and shiny, and every one's mind had begun to turn toward white shoes and cold drinks when nature finally made connections! She must have laid all the blame on Time, 'cause he's acted mighty "raw" about the whole affair! His reply to her was very cold—in fact it was a lizard—and they're not on good terms yet.

The question is—whose fault was it, if any, or was it just a nasty, premeditated trick on us poor human beings?

I don't suppose I'll ever receive an answer to this question, but anyhow I've my opinion of these two? Haven't you?

### TOURNEY AT HAMLIN

The Second Invitation Tourney at Hamlin was won by Peacock who took the final game from the favored Noodle five 15-11. Noodle scored an upset over the strong Hamlin team, who won the consolation, and took out three other weaker teams. Peacock advanced to the finals by turning back Roby 28-26. Colorado was eliminated by Rotan 28-25 after a forfeit by Roscoe. The Wolves were the defending champions of the tournament. Trophies were awarded to the Peacock five and the Noodle team as runner-up. Also trophies were given to Hamlin winner of consolation to Jayton as runner-up.

### BASKETBALL

On January 16, Colorado girls were invited to a basketball tournament over at Roscoe. With high spirited eagerness they looked forward to the games they would play. They planned greatly on bringing to Colorado the trophy offered to the winning team.

Luck, however, seemed to have deserted them from the beginning. On Monday morning one of their star forwards, Elsie Vanzandt, was seen to have some queer "breaking out" on her face and arms. Upon investigation it was learned that she had Chicken Pox. However still undaunted the team planned a "sub" and were determined to go on.

On Tuesday night, before their first game in the tournament in a game with Westbrook, Sarah Melton, a main guard, unexpectedly and unluckily sprained her ankle. She was seen to limp up and down stairs at school, however, trying to keep that ankle limber for the tournament.

Wednesday night, in their first game of the tournament, with Loraine, the girls showed unexpected speed and calmness in the last half of the game, and won by a score of 25 to 6.

The winning of their first game fixed it so they were to play Westbrook for the second game on Friday night.

They all started to Roscoe in high spirits but on arriving and starting their game, their spirits sank. Westbrook was really "on" that night. They have a good team anyway and that was their night to howl. So with decided precision they deliberately scored and scored again, to the

astonishment and disappointment of the Colorado girls.

The score at the end of the game was 30 to 9 in favor of Westbrook. Of course the girls were disappointed that they had lost their game—but with that everready smile and Colorado spirit they all came out of the game and congratulated Westbrook on their good fortune and wished them luck in the rest of their games.

The tournament ended, however, with Loraine as the victor.

### LA TERTULIA

La Tertulia met Monday, Jan. 25, for the first time after mid-term exams. Members of the club answered roll call with current events pertaining to Spain or Spanish America. Ruth Smith gave "A Perished Empire" and "Sea and Highland." A part of the history of the Incas was given, showing the program of this seemingly insignificant tribe who at first only inhabited two small islands. But due to their ability as warriors, they gradually gained power, until the Inca empire covered Ecuador, Peru, Bolivia, and part of Chili—an empire 2,000 miles from north to south.

Robert Wulfjen gave "The Kernel of the Nut" which terminated the imaginary trip through South America. And in order for all American republics to know, to esteem, and to respect each other, the Pan-American Union has been formed.

The money which is gained this way will be used to buy materials to start the Senior Scrapbook. Get started Seniors, bring your coat hangers.

The Seniors of late seem to have a lazy streak. Several are absent and the teachers think it is the recent "cool" weather—that's keeping 'em in, but, according to the students way of thinking (between the Seniors and the gate post) the lessons are too long.

The benefits many women obtain from Cardui give them great confidence in it. "I have four children," writes Mrs. E. L. Norred, of Lagrange, Ga. ## Income Returns To Be Signed By Both Husband and Wife

Attention of all persons required to file income tax returns covering the year 1934 recently was directed to the following by office of the collector at Dallas:

The Revenue Act of 1934 requires that all joint returns must be signed by both husband and wife. Either may prepare and acknowledge the return, but the signature of each must be affixed. Those persons desiring to make out their returns in the collector's office or at designated places in the various portions of the district should be accompanied by their respective husbands or wives. If this be impracticable, either may render the return under oath, and take to the other for his or her signature. The return, however, must be prepared and mailed in time to reach the collector's office on or before midnight of March 15, 1935.

Special emphasis is given to the fact that the new Form 1094 (the pink slip) must be executed and submitted together with the income tax return. Failure to do this, in each case, will result in an arbitrary charge of \$5, which amount will be added to the amount due and will be collected in the same manner as the tax. It is highly important that this new requirement be not overlooked, since the collector will be powerless to waive payment of this charge in case of failure to file said Form 1094.

## LORAINI GIRLS WIN OVER ROSCOE AS FINAL CONTEST IN CAGE TOURNEY STAGED

Thrilling 11-10 Battle Ends Event Which Required 4 Days To Play

By the narrow margin of one point and in a game featured by splendid defense from all angles, the Loraine girls nosed out the Roscoe host entry, 11 to 10, in the final game of the girls' invitation basketball tournament here. Loraine previously had won first honors in the Blackwell tournament and only a week before had disposed of the Roscoe team in a match game.

At beginning of the first half neither team scored for several minutes, however Loraine held the ball most of the first quarter but Roscoe scored 4 points to Loraine's 2. In the first half Roscoe scored 8 points and Loraine 2.

In the first half, Bratcher of Roscoe could not make her long shots make points, Emerson made two free shots and two goals during the first half. Bratcher only made one goal. Rowland made the only goal that was made by the Loraine team.

In the first half the Roscoe guards had held the Loraine players down to 2 points and the two points was made by Rowland getting behind a Roscoe guard. Williams, Roscoe guard, kept the stands yelling for the good guard work she was doing in the first half. She kept the Loraine forwards from scoring more than once. Dobbins and Norris both of Roscoe helped Williams to keep their opponents down.

Roberts had played the best game for the Loraine guards in the first half.

In the third quarter Loraine scored two goals. In the same quarter Roscoe scored only one goal. The Loraine guards were playing like demons in this quarter.

In the fourth quarter Coach Hill sent Harrison and Broadwell as replacements for Emerson and Bratcher, but later sent Emerson and Bratcher back in. With about one minute to play Loraine drew a foul and Emerson of Roscoe was going to shoot the free throw. Loraine called time out. At the end of the time out, Emerson shot and missed the goal. Then Roscoe drew a foul. Rowland of Loraine was going to shoot the free throw. She shot the goal and made the point that won the game for Loraine.

In the last half the Roscoe guards let the Loraine forwards score 9 points. The Loraine guards let the Roscoe forwards only score two points in the last half which shows that the Loraine guards tightened up in the last half or the Roscoe forwards had a letdown.

The game was one of the best games that was seen in the whole tournament.

## MILLION DOLLAR CLAIM AGAINST Wm. ELLWOOD ESTATE SET FOR FEB. 11

SYCAMORE, Ill.—Claim for more than a million dollars filed against the estate of the late William L. Ellwood, former DeKalb, Ill., and Texas realty promoter will be heard Feb. 11, in DeKalb county probate court, attorneys said tonight.

The claim is by the estate of Harriet E. Mayo, a sister of Ellwood, to satisfy a note for \$927,688.04 plus interest charges of \$174,862.02.

Attorneys for the William Ellwood estate said the claim would likely be granted without contest. Edward Mayo of Evanston, Ill., a son of Mrs. Harriet E. Mayo, is the principal heir.

"When I. L. Ellwood, father of Harriet, W. L., and Perry Ellwood, died each of the children were willed a million dollars," an attorney explained. "Mrs. Mayo took a small amount of her inheritance in cash

## THE BELL SYSTEM AT A GLANCE

How a nation-wide telephone network is organized

The Bell System is big, but its organization is not complex.

The A. T. & T. is parent company, service and research organization, and financial headquarters of the System. It owns Western Electric, which buys and manufactures for the System at prices about a fourth below the prices of similar equipment in the competitive market. Jointly with Western, it owns Bell Laboratories, where science constantly seeks better and cheaper methods of giving you telephone service.

It owns more than 99 per cent of the voting stock of the 24 associated companies (of which the Southwestern Company is one) and it operates the long distance trunk lines linking the territories of these companies. Its staff carries on for these companies a constant search for more economical ways to give good telephone service.

Each part of the organization exists because the function it performs is essential to the job of giving good telephone service at fair cost to you.

WILL WE KNOW OUR LOVED ONES IN HEAVEN

This question has been ringing down the aisles of time from the dawn of creation, and will no doubt, continue until the angel of God proclaims time to be no more.

Where is Heaven? What is Heaven? Will we have these bodies? Wear clothes and eat as here on earth? Will we know each other there? Are there degrees in Heaven? Heaven is for all eternity, what will we do to pass the time?

This writer has set far hours and thought and thought on the above until we have about come to the conclusion that we will be in Heaven in the Spirit and also the finite mind of man cannot grasp or understand it at all, and I have also come to the conclusion that it need not concern us at all for the Book tells us we shall be Satisfied and when you realize that word Satisfied it means everything. There may be degrees in Heaven, certainly the big preachers will rank higher than the ordinary laymen but the preacher or laymen will not know if for we are to be Satisfied. Then again the Book tells us we are to be Changed and be like him when we see him face to face, and that word Changed, like the word Satisfied also means everything. We are to be like Him.

In the summer revival Bro. James preached on the subject of Heaven and his sermon was every bit speculative for the mind of man cannot grasp what or where Heaven is. True Jesus told the thief on the Cross that he should be with him in Paradise but that conveys to our minds nothing about where or what Paradise is. The Bible speaks of Heaven as a city, with Jasper walls and streets of gold. It could not be a city because of the size to hold the millions and millions of people there.

I think this language was just used to convey to man's mind, to help him to realize what Heaven would be. When you think of Heaven you

Burning Of School Quarter Of Century Ago Was 'Big News'

Burning of the schoolhouse was the most exciting news chronicled in The Record for January 28, 1910, twenty-five years ago.

Cause of the fire was unknown. It happened about five o'clock in the afternoon and a Miss Stowers and members of her art class were the only ones in the building at the time.

The Rebekahs had installed apointive officers with District Deputy Katie Doss presiding. Those installed included Jimmie Dillard, Hattie Barnhill, Mae McKinney, Nannie Sparks, Willie Smith, Mrs. O. G. Davis, Will Cooper, W. H. Smith, Dr. T. J. Ratliff, J. C. Davis, A. H. Weston, Nannie Newman, Mammie Mann, Belle Hines, Henrietta Westley, Addie Cooper, and Nellie Delaney.

A musical comedy called "A Bell Boy" was announcing a special engagement at the opera house. Tickets were on sale at the old Colorado Drug.

It was to be election year, and six had announced for tax assessor. They were Earl Jackson, Jack Smith, A. C. (AD) Jones, W. H. Gardner, Buell Bradford, and Rupert Womack. G. B. Coughran and L. A. Coston had announced for sheriff and tax collector. Jesse Bullock for county and district clerk, and A. A. Tyler for commissioner of Precinct 1.

The R. S. Brennan home had been the scene on Wednesday evening of the marriage of Mrs. Brennan's sister, Miss Isla Wulfjen to Mr. Watson of Wichita Falls. Miss Lucille Stonerod played the wedding march. Little Mary Jackson, Alene Oederb, Louise Wulfjen and Laura Belle Johnson were flower girls. Master Henry Doss, in a white satin Russian blouse suit, was ring-bearer. After the wedding refreshments were served by Mrs. Bert Wulfjen, Master Robert Brennan, and Luella Wulfjen. When the bride's cake was cut Miss Nell Riordan got the ring, Miss Miller the dime, and Miss Isla Smith the needle.

The Record editor revealed what twenty-five years ago proved to be an accurate prophetic streak in the following item:

"The light plant was out of commission last Sunday night, and the churches, hotels, etc., had to fall back on the ministrations of the oil trust. After a community has become accustomed to twentieth century utilities, their interruption even for a day comes as a hardship. In a few years anything tending to interfere with the regular schedule of flying machines will be accepted as almost as great a hardship as is the stopping of railroad service now."

Mr. and Mrs. A. R. Wood were entertaining a brand new boy at their home in South Colorado.

D. L. Buchanan, labelled the "leading merchant of the McKenzie community," had passed through here after a trip to Tucuman, New Mexico.

Judge and Mrs. R. H. Looney had entertained the Colorado National Bank officers with the following present: Mr. and Mrs. C. M. Adams, Mr. and Mrs. J. C. Prude, Mr. and Mrs. C. B. Earnest, Mr. and Mrs. F. M. Burns, Mr. and Mrs. Hatch, and Mr. and Mrs. T. W. Stonerod.

In 1 Cor. 13:12 Paul says, "Then I shall know even as also I am known." Not of earth but as known in Heaven. David in 2 Sam. 12:23 tells us in speaking of the death of his child, "Can I bring him back again? I shall go to him; but he shall not return to me." This does not imply that David would know his child "in the land of the sweet by and bye" as here on earth, but that the child had gone to Heaven and that he by living a Christ life would go to Him.

Finally the redeemed are to be gathered in Heaven, 2nd Cor. ch. 5. It is there that Jesus has gone 1st p. ch. 3 and it is there that the Holy Spirit comes 1st p. ch. 1. Heaven is therefore, in general the abode of the "blest."

In the New Testament the idea of Heaven is very much spiritualized. At times it appears indeed as nothing more than a symbol of the state of ideal perfection. Eph. 1:3 also 2:6 when it is called Paradise for instance, L. 23:43 it is in order to present the innocence of the Garden of Eden as restored to the final bliss condition of true believers. Hence the many characterizations of the heavenly life as the reward of the believer Matt. 5:12, 1st P. 1-4. Heaven is also regarded as lasting forever, Ps. 89:29, Jer. 33:25 of the sun and stars as everlasting. But such representations express the thought of the relative permanency of the celestial as compared with the terrestrial.

F. B. W. NOTICE TO BIDDERS The honors to the commissioners court of Mitchell county bids for a county history in accordance with a law of the regular February term of said court. The bids will be opened and read in the county courtroom at ten o'clock A. M. on Monday, February 11, 1935. (Signed) B. L. TEMPLETON, 2-8-c County Judge.

Power And Gas Corporations Spend Big Sums Annually In Advertising Contracts

From The United States Daily News Power and gas utilities have spent as high as \$50,000,000 a year on advertising, the federal trade commission reports.

The commission seems to think there is something reprehensible, or at least suspicious, in that. But why should there be, necessarily? Gas and electric companies have services to sell and most local distributing companies also sell appliances. Considering the enormous volume of this business in the United States, \$50,000,000 for advertising probably isn't such a disproportionate item as it might seem at first glance.

But what mainly concerns the federal trade commission is the fact that large advertising expenditures are gaining the power and gas companies undue influence over newspapers and magazines. The report makes no mention of the fact that the commission is particularly alarmed over the amount of advertising expenditures in the newspaper and magazine industry.

It is true that the larger power and gas companies have their publicity departments, but so, for that matter, does every business of any consequence. The bill is burdened every day with tons of publicity, most of it promptly consigned to the waste basket, but some finds its way into print.

The fact is that any enterprise which comes into contact with the eyes of a great many people is bound to originate legitimate news. An editor who resists to keep his paper's columns entirely free of news which might be construed as publicity propaganda would soon find his circulation colliding with his judgment of news values. Mitchell, hereinafter styled defendant, whose residence is, to this plaintiff unknown, and for cause of action and complaint, says:

That plaintiff and defendant were duly and lawfully married to each other on the first day of June, A. D. 1933, and lived together as husband and wife until on or about the 26th day of Jan. A. D. 1934, when, on account of the defendants excessive cruelties and outrages hereinafter more specifically alleged, living with him longer as his wife was rendered insupportable and that she, therefore separated from him, and they have not since lived together as husband and wife.

That plaintiff and defendant were duly and lawfully married to each other on the first day of June, A. D. 1933, and lived together as husband and wife until on or about the 26th day of Jan. A. D. 1934, when, on account of the defendants excessive cruelties and outrages hereinafter more specifically alleged, living with him longer as his wife was rendered insupportable and that she, therefore separated from him, and they have not since lived together as husband and wife.

Plaintiff says that, a no time since

their marriage to the defendant, has he made any effort to provide a living for her, though he has, at all times, been a strong, able-bodied man, able and capable of providing a living for her he has hitherto, at all times failed and refused and still refuses to do so.

Plaintiff alleges that, on or about August 15th, 1933, the defendant left her pretending that he was going to find work, when he would send her money with which to provide a living for her, when they would be together as husband and wife, but that, though he was away until on or about January 26, 1934, he failed and refused to send her one dollar toward her support, though he well knew she was without a home and wholly without means upon which to subsist; that, for a while after he left her, as aforesaid, he wrote her occasionally, but that, since about the first day of April, 1934, he has not written her, thus evidencing utter disregard for her welfare, and a lack of interest in or love for her.

Plaintiff says that, immediately after her marriage to the defendant he compelled her to live in the home of her aunt, Mrs. R. D. Neel, because he failed and refused to provide any other place for her to live, and that he failed and refused to pay her said aunt and her husband, anything toward the expenses of their keep, thus greatly humiliating and embarrassing her; that, on or about the 15th day of April A. D. 1934, not being able to hear anything from the defendant, and having received nothing from him in the way of support, she was compelled to take employment in the home of another party, and to perform the labor of a common servant in such home, in order to earn a living.

Plaintiff says that the defendant has known at all times she has been without means upon which to subsist, nor has he earned, as evidenced by his attitude toward her, as aforesaid and that, on account of his said cruelties toward her and of his lack of interest in her, she has lost all love and respect for him and that living with him further, as his wife, has been rendered insupportable. Plaintiff says she has been unto the defendant a true, loving and dutiful wife, and has never given him cause to treat her as aforesaid.

Plaintiff says that, before her marriage to the defendant, her name was Mabel Baber; that she has no child or children by the defendant, and that she desires the restoration of her maiden name, viz: Mabel Baber.

WHEREFORE, premises considered, plaintiff prays that the defendant be cited to appear and answer this petition in terms of law and that, on final trial hereof, she have judgment of the court, dissolving the bonds of matrimony heretofore existing between her and the defendant, for the restoration of her former name, and for general and special relief, and in duty bound, she ever prays.

HEREIN FAIL NOT, and have you before said Court, at its aforesaid next regular term, this writ with your return thereon, showing how you have executed the same.

GIVEN UNDER MY HAND and the Seal of said Court, at office in Colorado, Texas, this 21 day of January A. D. 1935.

J. H. BALLARD, Clerk, District Court, Mitchell County.
