## COTTON PRODUCERS RAISE \$500 FOR SENDING GROUP TO NATIONAL CONFERENCE

### Delegation To Leave Sunday Morning; Solid South Is Supporting Drive

Three hundred and fifty Mitchell county cotton producers have subscribed \$500 in cash to meet expense of sending a special delegation from among their number to Washington, there to join with delegations from over the solid South in appeal that provisions of the cotton processing act be continued in force.

The delegation, consisting of U. D. Wulfjen, J. W. Watson, E. Barber, John Hale and J. M. Bruce, are to leave Sunday morning on The Texan for Fort Worth where they will join other Texas groups to board special train for Washington.

Indications are that the train will be run in three or four sections, so universal is interest in the drive in Texas. Purpose of the march on Washington is to impress members of congress and administration leaders that producers of one of the Nation's basic crops face severe reverses unless the AAA is preserved.

Recently it developed that financial interests and "big business" in the East were united in attempt to break down the act through strong lobby and other sources at the capitol.

Wulfjen, designated as chairman of the Mitchell county delegation, was one of the first planters to register protest when rumors reached here that special interests would attempt to destroy the law.

In addition to his extensive farm holdings, Wulfjen is president of the Farmers Gin Company, among the larger gin corporations doing business in the county.

## New Fire Fighting Apparatus Will Be Bought, Is Report

That the city contemplates purchase of modernized fire fighting equipment developed this week following return of members of the fire department and city officials from communities in this territory where new apparatus has been placed in use.

Those making up the party were Ben S. Cooper and Jim White of the fire department and E. M. Majors and Chas. Moeser, members of the city council. They visited San Angelo, Ballinger, Winters, Sweetwater and Roscoe.

While driving into Roscoe Monday afternoon the men detected a residence on fire. Hurrying to the scene they assisted members of the Roscoe fire department in combatting the blaze.

"There is something about being a fireman that makes you hurry to a fire and take a hand in putting out the flames, it mattering not where it is," Cooper said.

**Scientists Announce Solution To Poison That Has Caused Heavy Losses To West**

The mysterious cause of "locoism," a malady that causes animals in West Texas and other States to act insane after eating the loco weed, has been discovered by scientists of Texas Agricultural Experiment Station. Loco is the Spanish word for insane. Practical means of controlling this hazard to live stock, which usually is on overstocked ranges and under unfavorable grazing conditions, will require further study, however, the station pointed out.

Dr. G. S. Fraps, chief chemist, and E. C. Carlyle of the Texas station, working in co-operation with Dr. Frank P. Mathews of the Loco Weed Research Laboratory at Alpine, have finally isolated the poisonous principle of the loco weed, which Dr. Fraps has named locoine. The Alpine laboratory was set up several years ago by the United States Bureau of Animal Industry and the Texas station to study this poison which has cost Texas ranchmen thousands of dollars in past seasons. The discovery resulted from the separations of the extract by various chemical methods and testing each of the separations to determine whether it carried the toxicity. Each time the harmless portion was discarded and a further separation made of the simple but lengthy process of making part carrying the poisonous principle, until the cause was isolated. The tedious and costly process, which usually requires three or four months of feeding to animals, was simplified by using cats instead of larger domestic animals. Rabbits and other small animals do not appear to be affected by the poison. Locoine is related to alkaloids and forms salts with acids, the scientists report. Locoine tartrate has been prepared as microscopic crystals. Locoine sulfate, citrate and chloride also have been prepared. In addition to the chemical studies, Dr. Mathews has been doing experimental work at the Alpine laboratory to determine the nature and extent of the injuries sustained when grazing animals consume this weed. Horses are more susceptible to the poison than cattle, sheep and goats, he found, as well as that the dry plant is as poisonous as the green weed. For horses only about 30 per cent of the animal's body weight in green loco plants will cause death, but for cattle 90 per cent of the animal's weight in plants is required to produce the first symptoms of locoism and much more to cause death. Dr. Mathews also found that when concentrates are added to the ration less loco plant is required to produce a critical stage of locoism, but he found that the toxic principle of the plant is not excreted with the milk. Texas Station Bulletin No. 454 reports his preliminary experiments and discusses the symptoms of the poisoning.

### Electric, Gas Utilities Seen As Leaders In Drive To Restore American Business

WASHINGTON, D. C.—The electric and gas industries could be one of the leaders in the drive for business recovery if accorded fair treatment and the cooperation instead of the competition of government, S. R. Inch, president of the Electric Bond and Share Company brought out in a statement presented to the Senate Interstate Commerce Committee.

Mr. Inch filed his statement and charts in opposing the passage of the Wheeler-Rayburn bill, now pending in Congress. Mr. Inch's charts showed specifically how electric rates were lowered following acquisition of local electric systems.

His charts also graphically pointed out that pent up billions could be spent for construction and for electrical appliances during the next five years by the electric and gas utilities and their customers.

"The way back to recovery is through the re-establishment of business confidence which will permit private tax-paying capital to go to work again," said Mr. Inch.

He brought out that the Wheeler-Rayburn bill would destroy all holding companies and handicap and restrict the local electric companies to the point where local service would be impaired and present low rates endangered.

Mr. Inch also advised the Senate Committee that passage of the

ownership and that it never "milked" its operating companies. He pointed out that the services furnished by the Electric Bond and Share Company to its affiliated companies has resulted in substantial savings for these companies.

Mr. Inch pointed out how the Wheeler-Rayburn bill would take away local regulation from local and State Commissions and centralize this power in Washington. He also said it would handicap future financing of operating companies.

"The statement has been made that owners of securities of holding companies will lose nothing and that real values will be retained. This is incorrect and misleading," Mr. Inch said.

Mr. Inch presented a series of charts showing how taxes and food prices have been going up while the cost of electricity has been going down steadily.

## Expect 600 Scouts At Big Spring For Round-Up Meet

**BIG SPRING.**—Reports from 19 troops and verbal reports from others in the area indicate a record attendance for the annual Boy Scout Round-Up here Friday and Saturday, Area Executive A. C. Williamson said at Sweetwater Tuesday.

Advance reports indicate an attendance of 750 scouts and scouters, he said. At any rate a crowd of more than 600 is assured, enough to shatter all attendance records for the affair, Williamson asserted.

Camp site for the affair will be immediately southeast of the city park on the Frank Pool land as in the past.

Drawing for campsites will be started 4 p. m. Friday. Council fire and stunts will be held 7:30 p. m. The general public will be invited to this function. In the past, many hundreds have witnessed this part of the rally.

Competitive events are slated for Saturday morning and afternoon. Scouts will serve at noon in order in which they reported their attendance for the Round-Up. T. W. Ashley, in charge of local arrangements, said that final plans for feeding the group were near.

## Wildcat In Eastern Howard County Hits Oil, Water Stratas

**BIG SPRING.**—H. P. Slagel, trustee, No. 1 Foster, one mile northeast of the Dodge-Denman pool, encountered oil and water, and two producers in the Dodge-Denman area and one off the northeast corner of the Chalk-Settles field were completed to furnish Howard county's principal development last week.

International Petroleum Corporation's No. 1 Texas-Pacific Land Trust, one mile northwest extension to the Dodge-Denman pool, just purchased from Stacy B. Dorn of Fort Worth and Dr. G. T. Hall and M. H. Bennett of Big Spring, pumped 54 1/2 barrels during the first two hours after swabbing 465 barrels in 21 hours.

The gauges were not considered conclusive of the well's potential since tubing would not go below 2,600 feet where casing was damaged by a 550-quart shot. Location is 330 feet out of the southeast corner of section 45, block 30, township 1 south, T. & P. Ry. Co. survey. International will drill six tests during the next 12 months under terms of its purchase agreement. Iron Mountain Oil Co. No. 6 Read, east offset to the International No. 1 T-P and in the southwest corner of section 48, block 30, township 1 south, T. & P. Ry. Co. survey, struck an air pocket and 2 1/2 barrels of water hourly at 1,502 feet and drilled ahead at 1,875 in lime.

H. P. Slagel, trustee, No. 1 Foster showed oil from 2,694 to 2,740 feet with increases from 2,801-20, from 2,862-75 and from 2,964-70 feet, all amounting to an estimated 10 barrels daily. Sulphur water was struck from 3,010-13 feet and the hole was plugged back to 2,760 preparatory to shooting. No. 1 Foster is 990 feet from the south line and 330 feet from the west line of section 43, block 29, township 1 north, T. & P. Ry. Co. survey. The California Co. No. 11 Foster, in the southwest quarter of section 6, block 29, township 1 south, T. & P. Ry. Co. survey, had drilled to 2,002 feet in lime.

Shasta Oil Co. No. 1 Dodge, south offset to Iron Mountain No. 1 Read, a producer one mile east of International No. 1 T-P, deepened to 2,821 feet in sand, plugged back to 2,815 and swabbed 50 barrels daily before being shot with 40 quarts from 2,568 to 2,790 feet. In eight hours after the shot, while cleaning out, the well flowed 90 barrels of oil. It is 330 feet out of the northeast corner of section 3, block 30, township 1 south, T. & P. Ry. Co. survey. Clay Bros. and Hugh White No. 1 Read, in section 41, block 30, township 1 north, T. & P. Ry. Co. survey, and an east offset to the Iron Mountain well, had drilled to 2,040 feet in lime.

Herschbach No. 3-B Davis, 2,310 feet from the north line and 990 feet from the west line of section 2, block 30, township 1 south, T. & P. Ry. Co. survey, was completed at 2,792 feet, pumping 320 barrels of oil daily. It topped pay at 2,425 feet and was shot twice. Herschbach No. 2-A Davis, also in section 2, one-half mile east of No. 3-B Davis, had drilled to 1,725 feet in lime. Owen W. Murray and others' No. 3 Davis heirs, in the southwest quarter of section 2, block 30, was underreaming 10-inch casing, bottomed at 591 feet in red shale.

Bond No. 2 Rhetan, in the southwest quarter of section 4, block 30, swabbed 28 barrels of oil daily in drilling to 2,876 feet in lime. The California Co. No. 3 Dodge, in the southwest corner of section 1, block 30, cemented 6 5-8-inch casing at 2,402 feet in lime and was standing. Sinclair-Prairie No. 1-B Denman, 990 feet from the north line and 330 feet from the east line of section 10, block 30, township 1 south, T. & P. Ry. Co. survey, was completed at 2,845 feet in lime, flowing 392 barrels daily through casing. It topped pay at 2,470 feet and was shot. Sinclair-Prairie No. 2-B Denman, 990 feet out of the northeast corner of section 10, had drilled to 1,430 feet in redbeds.

John I. Moore and Hugh G. White No. 1 D. H. Snyder, Jr., wildcat 3 1/2 miles south of the Dodge-Denman pool, spudded Thursday. It is 330 feet out of the southwest corner of section 28, block 30, township 1 south, T. & P. Ry. Co. survey.

Henson, Fuglar and others' No. 1 B Scott, semi-wildcat off the northeast corner of the Chalk-Settles pool, was completed at 1,322 feet, pumping 25 barrels of oil daily. It topped pay at 1,315 feet and was shot. Location is 330 feet from the north line and 1,650 feet from the east line of section 93, block 29, W. & N. W. Ry. Co. survey. Humble No. 11 Settles, spudded April 22, drilled to 180 feet in redbeds and was running 10 3-4-inch pipe. It is 625 feet from the south line and 238 feet from the west line of section 182, block 29, W. & N. W. Ry. Co. survey.

Mrs. Lay Powell, Mrs. Curtis Erwin, and Mrs. Baxter Scoggin, Jr., were in Sweetwater Monday.

A television telephone system between the larger cities of the country is being planned by postal authorities in Germany.

## Two First Places Won By Colorado Clubwomen At Alpine District Meet

Returning Tuesday night from Alpine where she attended the annual sixth district convention of the Texas Federation of Women's club, Mrs. A. L. Whipkey brought reports of honors won by Colorado clubwomen in district contests.

Two literary prizes went to Colorado women, both members of the 1921 Study club. Mrs. J. E. McCleary's sonnet, "Fear," took first place in the poetry contest.

A one-act play by Mrs. Sam Majors was adjudged best in the play division. The play was entitled "Mrs. Broadwee Resigns Her Chairmanship" and was written in a humorous vein. Both the plays and poems were judged by members of the T. C. U. faculty of Fort Worth.

Abilene was chosen the 1935 meeting place at the final business meeting of the three-day session.

Mrs. Whipkey delivered reports of the Hesperian club and the Mitchell County federation on the convention program. She also reported as district chairman of public instruction.

## FRIENDS BRING FOOD TO NEIGHBOR AFTER TONSIL SURGERY IS UNDERGONE

J. Ralph Lee, owner and manager of the Colorado Laundry, states that again he has been impressed that he has many warm personal friends in this town.

Tuesday Lee was given minor surgery for relief of tonsillitis. It was not long before personal friends of Lee began to arrive at the hospital, leaving such foods as cabbage, garlic, potato chips and salted peanuts for him to feast upon while nursing a sore throat.

He was removed to his home Thursday morning. Mrs. Lee informs that the patient is making good progress toward recovery.

## Post Sheriff And Other Defendants Free After Trial

An instructed verdict of not guilty freed Sheriff W. F. Cato of Post, Garza County; his former attorney, N. C. Outlaw, and E. R. Braddock, Post farmer, of charges of conspiracy to obstruct justice in Federal Court at Dallas late Tuesday after the Government had spent most of the day presenting testimony.

As the Government closed its case defense counsel made a motion for an instructed verdict for Cato and Outlaw, contending the prosecution had failed to prove them guilty of the alleged conspiracy.

In granting it Judge W. H. Atwell said:

"I don't see any case here. The case is not against any one for shooting some one. We are trying these three defendants for conspiracy to impede justice. There has been no testimony here connecting Outlaw or Cato with any of the alleged false testimony offered and since Braddock can not conspire with himself he also is entitled to go free."

**MOTHER'S DAY**

The honor of suggesting this festival belongs to Miss Anna Jarvis of Philadelphia, who in a public meeting in 1907 proposed the wearing of a carnation on the second Sunday of each recurring May "in honor of the best of mothers... your own." Philadelphia was the first city to observe this day, May 10, 1908.

Stop a moment, world! Sunday next we honor her who gave us life, sheltered our happy childhood days with jealous love and gently taught us to meet the troubled years of our maturity with eager courage and balanced mind. For one day... scant time!... we speak of her who understands and holds dear our little hopes and fears and limitations.

And what can we children with heart brimful say but halting words of love... unworthy messenger of our gratitude for gifts too numerous and too great? Clumsy words heavily laden with love's sincerity! Stop a moment world; let every mother hear!

## STUDY CLUBS

### 1921 Study

Featuring music in observance of National Music week, the fine arts program of the 1921 Study club was presented at the club's final study meeting at the home of Mrs. W. L. Doss, Jr., Friday afternoon. Mrs. W. R. Martin was in charge.

Following a paper on "The Origin of Music Week" by Mrs. Ed Jones, Sr., Mrs. Martin presented Winnadel Rowland of Loraine, soprano, in two numbers, "La Rosita" (Stuart-DuPont) and "The Old Refrain" (Kreisler). Mrs. Martin sang Manna-Zucca's "I Love Life" and Pearl G. Curran's "Nursery Rhymes." Mrs. B. H. Meskimen played her accompaniment.

Final business of the year included a report of \$7.50 sent to the permanent headquarters fund in Austin on Woman's Day, the secretary's report of thirty letters written during the year, and other small matters.

Mrs. Martin told of plans for observing National Music week here, with twilight musicales on the opening and closing Sundays.

The hostess served refreshments of congealed salad, potato chips, bread and butter sandwiches, pickles, devil's food cake, and coffee, with plate favors of pink rosebuds. The club will have a picnic on an indefinite future date.

### Fat Folks Read This SHE REDUCED 14 LBS. IN 3 WEEKS

Paid No Attention To Envious Gossipers  
Mrs. J. H. Valentine of Freeport, N. Y., writes: "I lost 14 lbs. with Kruschen and my husband took off 12 lbs. in 3 weeks and intends keeping up the good work. I think Kruschen is simply wonderful."  
Intelligent folks like Mr. and Mrs. Valentine don't listen to gossiping folks who tell them it's impossible to reduce safely.  
Kruschen Salts is one safe reducing treatment—it's a health treatment—physicians prescribe it—just take a half teaspoonful in a cup of hot water first thing every morning—tastes fine with juice of half lemon added—a jar lasts 4 weeks and costs but a few cents—any druggist. **YOUR WIFE WILL KNOW WHY WE BUY FROM WESTERN ELECTRIC**

As the world's best purchasing agent, she applies the same rules of thrifty buying used by the Bell System.

A special study based on 3,000 separate items of telephone equipment and supplies indicates this fact: Western Electric, as supply unit of the Bell System, sells to Bell operating companies for a fourth less, on the average, than the lowest price offered by independent supply firms.

This of course does not mean a saving of a fourth on every item bought from Western Electric. Some supplies... paper, paints, poles, for example... range from 5 to 17 per cent under usual market prices. Others, such as telephones, cables, and switch-

boards, show similar variations in the amount saved. But the important point, clearly indicated, is that Western's prices are appreciably lower to us than open market prices.

As one of the 24 associated companies of the Bell System, we buy most of our equipment and much of our supplies from Western because we get bargains there, because we get uniform quality and the assurance of exact performance... and because Western Electric parts are so designed that future improvements and developments will fit into and work with equipment already in use.

These factors help us materially in achieving the Bell System policy of good telephone service at fair cost to the user.

SHALL AMERICA SELL ITS SOUL FOR REVENUE?

W. T. Rouse

Not long ago the writer heard a thoughtful brother say that it yet remained to be seen whether or not the World War destroyed our boasted civilization.

In the state and national governments where the raising of revenue to meet the expense of government is an ever recurring problem, there are indications in many quarters that a large number of those taking part in such matters, are willing to resort to efforts to raise money which would have been frowned upon two decades ago.

One who is conversant with the history of our nation will recall that lotteries were common before and after the Revolution.

In the course of time public sentiment began to cry out against such methods and state and federal laws were passed abolishing this evil practice.

In our day we have seen this insidious cry for indirect methods of raising revenue organize and perpetuate upon the country the greatest conspiracy ever enacted in the history of our country, resulting in the destruction of national prohibition.

other forms of taxation could be abolished. They promised large sums of revenue from the sale of beer, when as a matter of fact, during the first year of the legal sale of beer, a little less than \$150,000,000, came into the federal treasury—a mere drop in the bucket compared to the amount of revenue needed.

Facing this ever increasing demand upon the public for some relief from the burden of taxation, we may look for more schemes of indirect taxation in the future. In our own state we have had the delusive contention to raise revenue for relief of the burden of taxation to find its way into the enactment of the Beer Bill and Race Track Gambling bill.

William E. Gladstone was not only a great Christian, but by common consent he was the greatest premier England has had in the last half a century or more.

Lord Chesterfield is not classed as a Christian. He was the arbiter of fashion in the Victorian period of England. But Lord Chesterfield made this significant statement: Luxury, my lords, is to be taxed, but vice prohibited.

Alongside of these statements from the two leading statesmen of their day, I put the utterance of an Emperor of China. Said he: "It is true I can not prevent the glowing poison (opium). Gain seeking and corrupt men will for profit and sensuality, defeat my wishes; but nothing will induce me to derive a revenue from the vice and misery of my people."

In this connection I am reminded of the words of good old Samuel Johnson, who said: "To support government by propagating vice, is to support it by means which destroy the ends for which it was originally established, and for which its continuance is to be desired. If the expense of the government can be delivered but by corrupting the morals of the people, I shall without scruple declare that money ought not to be raised, nor the designs of the government supported."

These are some wholesome principles governing the raising of revenue which our law makers will do well to keep in mind. Before resorting to such devious methods of raising revenue as is the tendency in many quarters, our tax-burdened people can be relieved of part of their burdens by levying income taxes upon the millions of dollars accumulated by the special privileged at the expense of the public good.

Up at Washington after considering the drouth, dust storms, unemployment and socialistic tendency of the people they come to the conclusion that this country was under a plague. A meeting was held with much discussion and no results. Had they sent for this writer we would have told them that to free ourselves from the truculent therapeutics of aseptic idiots, from the doleful dietetics of disaster, from the precarious paregoric of preachers, of pediculous prescriptions, from the cataleptic ipsecac of chiropractic economists, and from the quasi-scientific humbug of self-seeking snags.

'Only Two Breakdowns' On 3 1-2 Hour Trip To Big Spring News In 1910

Driving from here to Big Spring in three and a half hours with "only two breakdowns" in an "auto billy" was news twenty-five years ago—at least, it was used as news in the Colorado Record for May 13, 1910.

The party making this "record-breaking" drive included Floyd Beal of Peecos, Charlie Thomas, W. D. Butler, Miss Ophelia Arnett, and Miss Ethel Majors, chaperoned by Mrs. Tom Stonerod. The group stopped for a "four-course" breakfast at Basden's Cafe at Cuthbert.

Three strange men had stopped at the Gore rooming house and left next morning with Mr. Gore's watch. They were caught in Baird and Sheriff Coughran went after them.

Frank A. Judkins of Odessa had announced for representative of the 101st district.

L. A. Costin, Ben Plaster and Jim Plaster had left on Saturday to attend the trial in Weatherford of a man who had killed Ranger Homer White.

W. C. Smith, born and reared in New York, had arrived to be principal of the Roberts Business college.

P. C. Coleman and Dr. and Mrs. N. J. Phenix had left on Monday for Dallas to attend the State Medical association.

G. B. Harness and Royall Smith had been to Dallas.

Judge R. H. Looney and J. C. Prude, accompanied by Miss Iola Bess Looney had been to the State Bankers' convention in El Paso.

James Wiley Smiley had died in Lorraine. Also S. T. Blakely.

Robert M. Webb and wife had gone to the National Sunday school convention in Washington.

The disreputable condition of the courthouse park was lamented in the following item:

"There was a time when the courthouse park was as attractive a place as any town need have for the recreation of its citizens. The trees were kept watered, the grass trimmed, the fountain playing, and the alligator basked in the sun and solemnly blinked his other eye at the animated scene around him. It will not cost so much to make the same attractive place again. If the ladies of the town take the matter in hand, the Record will go bail for the rehabilitation of the premises and the courthouse, too."

The trouble with us is we have raised our standard of living so high that but few can remain honest and maintain it.

To pay as we go or stay at home is about all that is going to save most of us. To be honest, the apprentice to the village blacksmith because as the Smithy god who built the dwellings of the Olympians and made the Sceptre of Jove, the breastplate of Hercules and the shield of Achilles. In that he made a national home, with his honesty, and hammered out on the anvil of his thought the instruments of its government.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of menstrual pains at monthly times? The answer is that they want results such as Mrs. Herbert W. Hunt, of Dallas, Texas, obtained. She writes: "My health wasn't good. I suffered from cramps... I took Cardui for a few days and I was relieved. I have taken it several times since and I know it keeps me well. I can't say enough for Cardui. I have told my friends about it."

**MOTHER'S DAY**  
 As we all should know, next Sunday is Mother's Day. We should remember that day for a great many reasons, because we all owe much to our mothers—more than we realize, perhaps. We should remember our mothers with a gift or some token of our appreciation for the many services that they do for us, and also give them the respect that is due to them, not only on that day, but every day. The following poem offers a tribute to all mothers and the day which is theirs alone:  
**"THIS IS HER DAY"**  
 By Grace Noll Crowell  
 This is her day—though every day is hers,  
 Brimmed as they are with urgent tasks and deeds;  
 The glad young mother who must daily meet  
 Small children's constant needs.  
 This is her day: the mother who has seen  
 Her children grow like young corn in the sun;  
 Tall, straight, and clean, who takes a keen delight  
 And pride in every one.  
 This is her day—the mother now

grown old,  
 Who folds her hands, and slowly rocks her chair,  
 Who nods and smiles across the gathering dusk  
 At a child who is not there.  
 This is their day, the mothers of the world—  
 And the whole nation pauses as it should,  
 To honor them who know the poignant pain—  
 And joy of motherhood.

**SOPHOMORE PLATFORM**  
 The spirit of the pupils of a school is the determining factor of the accomplishments of the pupils and faculty. If certain students do not try to work with their fellow students and the faculty the school is not putting over one of its essential lessons; that of cooperation. Students should support the school and its projects, not from a sense of duty, but because they are interested enough to wish it success. If students support the wishes of the faculty and cooperate with their fellow students, they receive more privileges and are more satisfied. Cooperation and interest in the welfare of others is the secret of success.

 This is Station G-O-S-S-I-P broadcasting over one million back fences through the courtesy of the "National United Keyhole Watchers Society, Inc."  
 The Sophomore class believes that Ed Morrison will be elected Junior class crooner next year. Although he sounds like water in a bath tub gurgling down the drain that ends with a suddenness resembling hic-cough.  
 What's this we hear about our "dark, young, galloping, Romeo's" holding a dance on a tennis court accompanied by the bright and cheerful part of Colorado Hi, the Freshmen girls. "Joe, it looks like you could do better than that."  
 What is this we hear about Eloise Cooper being a "Scaredy Cat." The ocean is mighty big Eloise. Maybe you just need your Junior boy friend. You know, "Just one of the Jones boys. It looks like a special delivery letter would be enough to quiet your nerves."  
 Why is it that the Cox's army are such gum chewing boys and girls. It seems that June Cox is especially talented to chewing her gum in school.  
 Marybel Crosthwaite visited in Abilene Sunday.  
 The Blue Goose club gave a Dutch dinner Saturday night.  
 Doris Wynne O'Brien went to Lorraine Friday.

**SENIOR NEWS**  
 The Seniors are thrilled over the fore-coming event of the week—the long waited-for Junior-Senior banquet! At last the Seniors are being entertained instead of doing the entertaining as they did last year.  
 Seniors are exchanging cards, autographs, etc., and the memory books are still going around.  
 The yearbook has been sent to be bound and as soon as it is finished we will start putting in pictures of all the Seniors. If you have a good likeness of yourself, Senior, bring it up here.  
 In the midst of six weeks examinations again—probably the last ones most of the Seniors will take in "dear old C. H. S." At least we hope so!  
 It seems that two Senior girls have a date for the banquet with the same Junior boy. We pity him!  
 Brady Warren has spring fever—or something that causes him to burst forth in song every day in the fifth period.  
 Mirl Garner has been absent this last week—chicken pox as usual.  
 Mumps Wallace contends he can beat John Morgan in everything—writing included, except one thing—and that is milking a cow.

**SENIOR POPULARITY CONTEST**  
 The Senior class sponsored a popularity contest a few days ago. The following students were elected:  
 Most beautiful girl, Maxine Dorn; Best looking boy, Joe Cooper; Most popular girl, Lyda Mae Viles; Most popular boy, Barty Warren; Best all-around girl, Mabel E. Cooper; Best all-around boy, George Kiker; Class wit, Bruce Redman; Class poet, Mirl Garner.

**THEATER PARTY AND SCAVENGER HUNT**  
 Last Tuesday evening April 30, the members of La Tertulia, Spanish club, were entertained with a theater party at the Palace. The picture booked for the night was "Rumba," and due to the fact that it gave an insight to the Spanish dance "rumba," the entire class enjoyed it thoroughly.  
 After the show the students were asked to go to Robert E. Wulfjen's home before starting on the scheduled "scavenger hunt." After they had arrived they were given slips of paper on which were written, in Spanish, twenty-two articles. The names of the articles were translated and then the "bunch" left for parts unknown to secure the "treasures." They were given an hour to find the treasure and after they were found the students went back to Robert's house where they were served with candy bars and "all day suckers."

**SENIOR NEWS**  
 The "Twins" and Lyda Mae went to Big Spring Friday night as to the whos, whats and wheres of their trip, ask them.  
 What's the matter with Lyda Mae? She wishes to marry a billionaire.  
 Who said George Kiker wasn't a he-man?  
 Brady says he doesn't want to hurt little "Fishes" feelings but he just can't like them.  
 What's this! Billie Berry wants to be a farmer's wife. What so soon Billie?  
 Everett Pond seems quite satisfied about the END of everything. He just sits calm while the rest of the SENIORS are in wild confusion.  
 We wonder if John Morgan Hale and Mumps Wallace will pull through?  
 The English trials came to a fine verdict. Those convicted have to wear a dress, hats, shoes, etc. to school. We always knew Red Moon and Rush would make swell ladies.

**JUNIOR NEWS**  
 After all the planning the Junior girls were quite disappointed Saturday when they peeped out their bedroom windows for what should have happened during the wee hours of the night but a rain storm. Of course good sports like the Juniors are they didn't blame old mother nature. You see since they all need quite a bit of reducing they decided on an all-day hike.  
 We are thoroughly ashamed of two certain Junior girls Sunday at the show. What should they do but disturb the whole show by crying! Girls where is your dignity!  
 Looks as if fate took a sudden notion to try her bad luck on the Juniors over the week end. Two Soph boys took it upon themselves to stand up some very charming Junior girls Saturday night. Better luck next time.  
 Did you ever see such smiles as each Junior is flashing here and there? Some have actually smiled at the Freshmen. Do you know why? The Junior-Senior banquet is to be Friday night. Of all the working and planning. From recent reports the banquet is ready to go off with a bang! The Juniors feel like they will accomplish something worth anyone's praise if it does.  
 What would happen if:  
 Ruth didn't talk constantly?  
 Jessy didn't always have a joke to tell?  
 Regal and Buzzy didn't slam each other or some one else?  
 Clara, Lou, and Em weren't seen together all times, all places, doing all things?  
 Roy wasn't making some wise crack?  
 "Red" Andrews was laughing at something—funny or not?  
 Agnes, Evelyn, and Arabelle weren't gossiping?  
 Betsy wasn't smiling at Buster?  
 Marjorie and Mary weren't translating Spanish?  
 Mr. Foster stopped collecting banquet fees?  
 Ruth spent the week-end in Big Spring. We are still wondering how she went without "the Twins" and Lyda.

**FRESHMAN NEWS**  
 Doris Wynne visited in Merkel Sunday.

Routh Moore, a former member of the Freshman class, has moved to Beaumont.  
 Kathryn Hodges gave a farewell party for Routh Moore Friday night. Claude Morgan, Kathryn Hodges, Billie Crow, Mary Frances Smith, Ernest Burdine, Frances Merle Cooper, Earl Jo Lee, Routh Moore were present. Games were played and refreshments of ice cream and cookies were served.  
 Birdie McCrees and Shirley Kiker went to Big Spring Saturday night.  
 We wonder why:  
 Claude Morgan and Ernest Burdine came to the Twilight Musical all dressed up in white. It couldn't be a sudden interest in classical music.

**ASSEMBLY PROGRAM**  
 The assembly program for last week was given by the Home Economics girls. They told of their trip to Corpus Christi, and of the various other places they visited. Lucille Bodine began the program with a very interesting talk, and Miss Hargrove called on June Cox, Elsie Vandant, Agnes Cawthorne, and Lorraine Hart to give brief talks. Miss Hargrove ended the program with her expression of appreciation of the girls conduct and cooperation during the trip.

**SPORTS**  
 Coach Reese and Pete Warren returned from the State track meet which was held at Austin. Pete, won first in the 220 low hurdles at the regional track meet, this making him eligible to go to the State. We were very disappointed that he did not place at Austin. It rained all during the track meet, which was a great drawback to him. They left last Thursday and returned Sunday having a very nice trip.  
 Spring training for football started about three weeks ago. There were over forty to come out. We expect to have a much better team this year. We have good material and they all seem to be looking forward to a winning team next year.

**COMMERCIAL NEWS**  
 The baby typists are expected to demonstrate some of their progress in a program at the Coleman building. Miss Sue Mann and others are expected to visit this demonstration.  
 Many of the students are wearing their pins which they won. Most of them are nearing the close of this year's work and several are now doing extra work for someone.

**HOME EC. I-A**  
 The first year H. E. class had a children's party Friday evening after school. There were quite a few children here who seemed to have a good time. After a few games were played they told stories and played with some toys. Then they were served vegetable sandwiches, punch, gingerbread and cookies.

**HOME EC. I-B**  
 The girls in the first year Home Ec. class have completed the study of "The Best Foot Forward" and will soon start studying about "Head-dress." They have made worked buttonholes, thread loops, continuous bound plackets, and have sewed on snaps, buttons, and hooks.

**HOME MAKING II-A**  
 We have had our final study in foods and we have served our last dinner for this year. This dinner was served to the preachers. The menu was as follows:  
 Vegetable Stew      Crackers  
 Boiled Hamburg Steak on Onion Rings  
 Jelly      Hot Biscuits      Cornbread  
 Green Beans      Steamed Rice  
 Jellied Tomato Salad  
 Gingerbread      Whipped Cream  
 The last few weeks shall be spent on the study of Home Nursing. In this we shall study contagious diseases and their prevention, the care of the sick and first aid in the home.  
 FERRIL ROBERTS.

**THIRD YEAR H. E. NEWS**  
 The third year Home Economics girls are still studying home furnishings both old and modern. In order to learn the different types of furniture the girls are going to visit several homes in town that are noted for old furniture and new furniture.  
 Some of the homes they intend to visit will be Mrs. Joe Smoot's, Mrs. Anderson's, Mrs. Adam's, and Mrs. Randle's.  
 Next Tuesday, 14th, the Home Economics department will entertain the seventh grade girls with an informal tea. The third year girls will be the hostesses to the girls.

**COLORADO AG. NEWS**  
 John Ennis and Mr. Williams will go to Abilene Saturday evening to enter the district Public Speaking contest. John's subject will be the "Horse and Mule Situation and Its Relation to Agriculture."  
 Friday of this week both first year and second year agriculture classes will go to Big Spring to observe the experiments in feeding beef cattle conducted by the United States Department of Agriculture at the experiment station north of Big Spring.  
 Don't be surprised if you see some of the agriculture boys running around your front yard digging in your flower bed, or wrecking your homes, with a net and a killing bottle, they are making a collection of insects as a part of the second year agriculture course. If you have seen any suspicious looking species of the insect order notify one of the members of the second year agriculture class.  
 We have just completed laying tile. We do not plan to lay any more tile in class work. The students will have to do that outside of class, after school and on Saturdays.

### Monster Cyclone Wrought Death And Havoc In County Twelve Years Ago

Twelve years ago next Tuesday morning a monster cyclone roared out of pre-dawn darkness to bring Mitchell county the greatest catastrophe of its history.

The date was May 14, 1923, falling on Monday. The time was 5 a. m. The toll was 21 dead, 150 injured, and property damage near the \$100,000 mark.

As listed four days after the storm the dead were: Luther Brindle, H. J. Standifer and three sons, Joe Anderson's baby son, Jim Walker's baby daughter, C. L. Jameson, Cosmo Rios, Jr. and Mrs. I. C. Sheffield, Sherman Shelton, Oscar Hamby, Jesus Bronz and baby daughter, Juana Rios, Francis Merritt Hernandez, Joe Richburg and son and daughter, Mrs. S. W. Shelton, and the 11-year-old daughter of Henry Tidwell.

The cyclone was labelled by State newspapermen the most destructive in Texas in years. Help came from everywhere. The American Red Cross had state and national officials on the ground in a few hours and worked largely through its county chairman, J. H. Greene, who was the town's only undertaker at that time. Big Spring sent a special train with nurses, doctors, and first aid supplies. Sweetwater sent donations amounting to \$1,500. Judge R. H. Looney headed a local emergency relief unit.

The First Baptist church was turned into an emergency hospital. The first eight funerals were held on Tuesday afternoon and others followed rapidly until all the dead were buried, all members of a family in single grave in most cases.

Before the storm there were eight members of the H. J. Standifer family. Afterward there were four. The mother told newspapermen of searching in the black rain which followed the storm for her children and husband and of dragging them, one by one, to a high place and covering

### HYMAN WOMEN URGED TO HAVE BRIGHT WINDOWS

Likening windows to the eyes of a room, Miss Emma Gunter, county home demonstration agent, urged women of the Hyman club to keep their windows bright and clean when she addressed a club meeting at the home of Mrs. T. P. Smallwood Friday.

In telling of curtains, Miss Gunter said that flowered curtains should be used in rooms with plain walls and plain material in rooms with designed wall paper.

Mrs. Otto Schuster and Mrs. Walter Averitt were appointed to arrange for a flower demonstration on May 24 at the home of Mrs. Perry Van Zandt.

Those present were Mrs. Otto Schuster, Mrs. Jam Harkins, Mrs. W. G. McAlpine, Mrs. Walter Averitt, Mrs. Will Noack, Mrs. Carl Lowery, Mrs. Albert Hohertz, and Miss Lorene Andrews, the last named being a visitor.

### Keeping Pace With Oil Development In Howard County As Told From Big Spring

**BIG SPRING.**—The California Co.'s No. 3 Dodge in the Dodge-Denman pool in eastern Howard County drilled pay and treated it with acid last week while H. P. Slagel, trustee, No. 1 Foster, one mile northwest of that area, was shot and prepared to pump. Four locations were staked and two tests were spudded.

The California No. 3 Dodge filled with oil in drilling to 2,525 feet and was treated with 1,000 gallons of acid under 1,000 pounds pressure that burst 6 5-8-inch casing which had been cemented at 2,402 feet. The well is in the southwest corner of section 1, block 30, township 1 south, T. & P. Ry. Co. survey, Herschbach No. 2-A Davis, in section 2, block 30, had an odor of oil and gas at 1,878 feet in drilling to 2,175 feet in lime. Herschbach No. 5-B Davis, 330 feet out of the northwest corner of section 2, spudded April 30 and had drilled past 40 feet in redbeds. Owen W. Murray and others' No. 3 Davis heirs, in the southwest corner of section 2, had reached 1,000 feet in redrock.

Bond No. 2 Rhotan, in the southwest quarter of section 4, block 30, deepened to 2,890 feet, plugged back to 2,780 and prepared to shoot. Sinclair-Prairie No. 16 Dodge, 330 feet out of the northwest corner of section 3, block 30, spudded April 25 and had drilled to 325 feet in redrock. Sinclair-Prairie No. 2-B Denman, 990 feet out of the northeast corner of section 10, had reached 2,960 feet in gray lime. Sinclair-Prairie was moving in materials for No. 17 Dodge, 990 feet from the north line and 330 feet from the west line of section 11, block 30. Merrick & Lamb No. 2 A. M. Bell, 2,310 feet from the south line and 330 feet from the east line of section 12, block 30, spudded April 29 and had drilled to 50 feet in redbeds.

Shasta No. 1 Dodge, in the northeast corner of section 3, block 30, a south offset to Iron Mountain No. 1 Read, a producer, had cleaned out to within 50 feet of the total depth following a 40-quart shot the week before. Clay Bros. and Hugh White No. 1 Read, in section 41, block 30, township 1 north, T. & P. Ry. Co. survey, an east offset to the Iron Mountain well, was waiting for cemented 6 5-8-inch casing to set at 2,200 feet in lime.

International Petroleum Corporation's (formerly Land, Hall & Bennett) No. 1 T-P Land Trust, one mile northwest extension to the Dodge-Denman pool, prepared to take another pumping gauge after which it will attempt further to clean out. Casing was damaged by a shot several weeks ago and the tubing will not go all the way to the bottom, which is 2,790 feet. On one test the week before the well swabbed 465 barrels of oil in 21 hours. It is 330 feet out of the southeast corner of section 45, block 30, township 1 north, T. & P. Ry. Co. survey.

International has let contracts for three of the six wells it agreed to drill in during the next 12 months in purchasing the extension well and the 320-acre lease on which it is located. Ben Case, of Big Spring, was scheduled to begin moving in materials Saturday for one of the trio, 660 feet west of No. 1 T-P Iron Mountain No. 6 Read, east offset to the International producer and in the southwest corner of section 48, block 30, cemented 6 5-8-inch casing at 2,151 feet in lime, the total depth, and was standing. White, Gibson, Johnson and others were rigging up a National machine for No. 1 Read, 330 feet from the south line and 1,650 feet from the west line of section 46, block 30, township 1 north, T. & P. Ry. Co. survey, one-half mile east of the International well.

H. P. Slagel, trustee, No. 1 Foster, wildcat, in the southwest quarter of section 43, block 29, township 1 north, T. & P. Ry. Co. survey, was rigging to pump after being shot with 150 quarts from 2,708 to 2,768 feet. It had oil shows at intervals between 2,694 and 2,970 feet amounting to an estimated 10 barrels daily before striking sulphur water in the last three feet of drilling to 3,013 feet and plugged back to 2,768. The California Co. No. 11 Foster, in the southwest quarter of section 6, block 29, township 1 south, T. & P. Ry. Co. survey, was shut down for repairs at 2,225 feet in lime.

John I. Moore and Hugh G. White No. 1 D. H. Snyder, Jr., wildcat 3 1/2 miles south of the Dodge-Denman pool, was completing rigging up a National machine after spudding April 25. It is 330 feet out of the northwest corner of section 28, block 30, township 1 south, T. & P. Ry. Co. survey.

Humble No. 11 Settles in the southwest quarter of section 132, block 29, W. & N. W. Ry. Co. survey, had drilled to 1,273 feet in shale and lime. Continental No. 15 Settles, 1,320 feet from the north line and 220 feet from the east line of section 133, block 29, spudded May 1. Continental also staked a location for No. 16 Settles, 1,100 feet from the north line and 625 feet from the west line of section 133.

### PRAIRIE DOGS STARVING DUE TO CONTINUED ARID STATE OF TEXAS RANGE

Prairie dogs in West Texas ranges are starving to death, probably due to effect of the severe sand and dust storms, combined with continued drouth in many parts of the territory, John M. Hill, Jr., of San Angelo, district biologist for the U. S. Biological survey, states in a recent report to this newspaper.

Twenty of the burrowing animals diminished to mere skin and bone, were found dead the other day on the Boles ranch in Tom Green county, he said. Several of the animals, too near death to escape, were captured on the U-Bar ranch.

The Federal official stated that he did not have record of any prairie dogs in Mitchell county.

### RECRUITING RESUMED BY ARMY POSTS IN AREA

The War Department has ordered army recruiting officers to resume recruiting for the regular army, after a suspension of three months. Two hundred recruits are wanted at once for the garrison at Fort Bliss, Texas, and over eight hundred more will be needed when the increase takes effect in July. Troops at Fort Bliss are mostly cavalry and field artillery, with a sprinkling of quartermaster, medicos, signal men and ordnance.

Recruits must be at least five feet four in height and of corresponding weight, and must be in first class physical condition. They must be unmarried and must have no one dependent on them for support. They must be men of good character and must be over eighteen years of age. Character must be testified to by at least two well known and reputable citizens of the community. If under twenty-one years old, age and consent to enlistment must be sworn to by parents. (Blanks for character and age may be secured at any army recruiting office). In addition, the educational test is the equivalent of about the eighth grade in school.

The main recruiting office for this district is located at Fort Bliss, Texas. Branch offices are at El Paso, Big Spring, and Lubbock, Texas. Clovis, New Mexico, and Phoenix, Arizona.

Applicants for enlistment must make their own way to the branch offices. Then, if they pass the preliminary examination that is given by the sergeant, they can be sent at government expense to Fort Bliss.

Full information will be furnished at any recruiting station. If you live very far away write a letter to the nearest office for special information that you need.
