PRODUCTION CREDIT ASS'N LOANS DOUBLE TOTAL FOR ENTIRE SEASON LAST YEAR

J. W. Watson Elated In Good Record As Outlined At Stamford Parley

Most of the production credit associations in Texas have more loans on their books at the half way mark in 1935 than were made during the entire year of 1934, and a number of the associations have more than doubled their volume of business this year. This record of achievement was brought out in the address of Virgil P. Lee, Vice-President of the Production Credit Corporation of Houston, who was principal speaker at a meeting of representatives of production credit associations held in Stamford last week.

J. W. Watson, director of the Sweetwater Production Credit association, who has just returned from the director's meeting, reported that representatives from three associations in this part of the state were in attendance. The meeting, which was one of a series of similar meetings that are being held at various points in Texas during the month of July, was for the purpose of bringing to the secretary-treasurers and the directors of the associations a better acquaintance with the purposes and efficient operation of the production credit system.

Production credit, which has been in operation in Texas almost two years, provides a permanent source of short-term credit on a co-operative basis to farmers and ranchmen. It is adapted to their needs; and more and more farmers and stockmen are becoming acquainted with its many attractive features, including a very low interest rate, which is five per cent at the present time.

Creation of a second voting precinct at Colorado is being considered by county commissioners' court and in all probability order dividing the present district will be passed at next regular session. County Judge B. L. Templeton told The Record Thursday morning. Templeton discussed the proposal with city officials and other interested citizens at conference held in county court room Wednesday afternoon. Opinion, as expressed, favored the change.

LOOK TO WPA FOR AID IN BUILDING ROAD, MITCHELL JUDGE IS TOLD BY BOARD

County And Subdivisions To Push Petitions Seeking Project Grants

County Judge B. L. Templeton and a delegation of Coke county officials this week were informed by the State Highway Commission at Austin that Highway 101 from Colorado to Sterling City had been cancelled by the State and the projected road connecting Colorado and Robert Lee would not be considered.

Along with announcement that the Colorado-Sterling City designation would no longer be recognized, members of the commission offered suggestion that the counties, directly concerned file application with the recently designated Works Progress Administration for financial aid in building the road—and any other public improvement projects contemplated.

Cancellation of the designation that for several years had been in effect came as a distinct surprise to Judge Templeton and others of the group who were in Austin to push petition that a north-south highway be built. The county judge expressed hope, however, after his return to Colorado, that the much needed thoroughfare might be given favorable consideration at hands of the WPA, maintaining district-offices in new set-up at Sweetwater.

NO BOLL WEEVIL FOUND IN THIS AREA, REPORT

There are no boll weevils in West Texas, in so far as records of the United States Department of Agriculture indicate. The Record was informed Monday. Appearance of the pest is said to be scattered this spring, attacking cotton in parts of Texas through to North Carolina.

JUVENILE DELINQUENCY DEPLORED BY JUSTICE

Juvenile delinquency has reached such proportions in Sweetwater as to cause worry upon the part of Peace Justice S. H. Shook, so the Sweetwater Daily Reporter notes. Recently the official appeared before the city commission in his home town to appeal assistance in curbing an alleged growing disregard for law and order among the youth.

TWO VOTING PRECINCTS FOR COLORADO IS PLAN OFFERED BY OFFICIALS

Creation of a second voting precinct at Colorado is being considered by county commissioners' court and in all probability order dividing the present district will be passed at next regular session. County Judge B. L. Templeton told The Record Thursday morning. Mrs. Stoneroad And Mrs. Prichard Hostesses Honoring Mrs. Joe Pond

First of the social affairs honoring Mrs. Joe Pond, who was Miss Nelle Harper Greene before her recent marriage, was the fourteen-table afternoon bridge to which Mrs. T. W. Stoneroad, Jr., and Mrs. Neal Prichard were hostesses at the Colorado Country club Tuesday.

A profusion of zennias and marigolds made a flower setting for the reception of the guests in the large club room. They were greeted at the door by Mrs. Ford Merritt and introduced to the receiving line, which included Mrs. Prichard, Mrs. Pond, and Mrs. Pond's mother, Mrs. J. H. Greene.

Members of the house-party and the receiving line wore evening dresses. The honorée's was of rose Chantilly lace, cut fashionably low in the back. The pleated collar was caught in front by a corsage. From the knees to the floor the skirt was also pleated.

Mrs. Stoneroad guided the guests to the dining room where they registered in a white satin-bridal's book presided over by Miss Frances Lupton. Shasta daisies in a white bowl stood on the lace-covered registry

table.

Punch was poured by Miss Margaret Cook and Mrs. E. O. Hudson from the dining table, which was also lace-covered. The crystal punch bowl, circled by lace fern and flanked by crystal baskets filled with pink roses, centered the table.

Bridal symbols decorated the playing appointments. Mrs. E. C. Nix made high score with a handmade dresser scarf as prize and Miss Mabel Smith made low, receiving a match container.

The hostesses presented the honorée with a box of pots and pans. Oval-shaped and wrapped in rose cellophane, the box was adorned with a large bow made of the cellophane and silver ribbon, tied around a corsage of pink roses and fern.

Assisted by members of the house-party, the hostesses served brick ice cream and angel food cake in pink and white. Tiny parasols made of silver cellophane were favors.

Mrs. Pond is to be honored again on Friday when Mrs. E. O. Hudson and Mrs. Prichard are to entertain at the Prichard home.

Saturday Night Marriage Unites Spade Families

Uniting two pioneer families of the Spade community, the marriage of Miss Christine Bolin and Mr. J. E. (Shorty) Northcutt of the Spade ranch took place at the Spade church Saturday evening.

The ceremony was said by the Rev. A. F. Click of Colorado following evening revival services. Preceding the ceremony Mrs. N. H. White of Colorado sang "I Love You Truly." She also played the wedding march.

The bride wore a blue dress of sheer wool crepe. Her accessories were white and she carried sweet peas. The bride and groom were attended by Mr. and Mrs. Robert Bolin. Mrs. White played softly during the ceremony.

Mrs. Northcutt is the daughter of Mr. and Mrs. O. Bolin of Spade and a 1935 graduate of Colorado High.

Both Mr. and Mrs. Northcutt have been reared in the Spade community. Mrs. Northcutt, who was a 1935 graduate of Colorado High school, is the daughter of Mr. and Mrs. O. Bolin. Mr. Northcutt's parents are Mr. and Mrs. Joe Northcutt. He has been employed on the Spade ranch for a number of years.

The couple left immediately after the ceremony for a wedding trip to Big Spring and points west. They will make their home on the Spade ranch.

Sheaves Of Grain Decorate Setting For Class Banquet

Sheaves of grain, large and small, and other objects associated with the gleaners of Bible times decorated the banquet table at which nearly forty members of the Gleaners class of the Baptist Sunday school gathered Monday evening in the church basement.

A gleaming scene, in which miniature camels and oxen and other animals were arranged around vehicles and stacks of grain in an earth-filled square, was the center point of the long banquet table. Small sheaves of grain stood at intervals on the table and hand-painted gleaming scenes decorated the place cards and the triangular programs. Larger bundles of grain and baskets of seasonal flowers were set about the room.

The following program was given: Scripture, Mrs. Jack Davis; song, "Work for the Night is Coming," with Miss Margaret Cook as accompanist; prayer, Mrs. Luke Thomas; welcome, Mrs. Thomas; response, G. E. Slaton; talks on words beginning with the letters of the class name, Opal Yater, Fern Kelly, Onita Henderson, Pearl Bryant, Clifton Morrow, Elizabeth Terrell, Mrs. A. L. White, and W. A. Rose; trio, Johnny Lou Callison, Billy Wyatt, and Mary Taylor.

Mrs. White, class teacher, presented the class with one of the famous Christ paintings.

Class members and visitors present were Mrs. Luke Thomas, Mrs. A. L. White, Mrs. P. D. O'Brien, A. L. White, G. E. Slaton, W. A. Rose, Mrs. W. T. League, Mrs. Jack Davis, Mrs. Charles Taylor, Jr., Mrs. Emmett Berry, Mrs. Ell May, Mrs. Tom Burrus, Mrs. Clifton Yater, Mrs. Brice Webb, Mrs. Doyle Kiker, Mrs. Mary Boatler, Mrs. J. Irwin, Mrs. Tom Henderson, Mrs. Coy Harris, Miss Laundry Smith, Miss Maggie Bell Arnold, Miss Billy Wyatt, Miss Johnnie Lou Callison, Miss Margaret Cook, Miss Winnie Morrow, Miss Pearl Bryant, Miss Fay Shelton, Miss Elizabeth Terrell, Miss Fern Kelly, Miss Eleanor Derrick, Miss Martha Henderson, Miss Zilpha Thomas, Miss Christine Viles, Miss Ruby Lee Bohannon, and Miss Helen Hamer.

Sunflowers Furnish Setting For Party Given By Mrs. Price and Mrs. Wilkins

Sunflowers furnished the setting for a twenty-one table bridge and forty-two party given by Mrs. O. B. Price and Mrs. C. A. Wilkins at the Colorado hotel banquet room Wednesday afternoon.

Baskets and vases of the flowers and ivy-twined trellises decorated the long room where the tables were arranged. Following the flower colors, a color scheme of green and yellow was carried out in all appointments.

Mrs. Wilkins, wearing green taffeta, and Mrs. Price, wearing yellow figured chiffon, passed bright yellow tallies cut in the shape of sunflowers. Scorecards were also in yellow.

Green lacquered trays with yellow striped beverage glasses were presented to Mrs. C. C. Thompson for high in bridge, to Mrs. J. E. Watson for low in bridge and to Mrs. Lucian Maddin for high in forty-two. Ice cream and cake, carrying out the featured colors, were served to:

Mrs. K. S. Brennan, Mrs. R. O. Pearson, Mrs. J. C. Ethridge, Mrs. Oscar Majors, Mrs. P. K. Mackey, Mrs. Lucian Maddin, Mrs. J. L. Pidgeon, Mrs. Doyle Williams, Mrs. E. H. Winn, Mrs. C. L. CHURCHES

FIRST BAPTIST CHURCH
We were delighted with the response of our church to the laymen's challenge and tithers' test. There was an increase both in the attendance of our adult department and in the church offering last Sunday which was the first day showing returns on the three month test of tithing. We are enjoying the fellowship of the church at China Grove in a revival this week. We are having good attendance and the services are beginning to show results. (This is written on Wednesday morning).
I expect to teach the Amigos class Sunday morning and then drive to China Grove for the closing service of the revival. Rev. Murray Fuquay, of Tahoka, will supply the pulpit here Sunday morning, and I expect to be at home for the evening service.
On account of a special request from the chaplain of the State Sanatorium at Carlsbad for me to preach there Sunday afternoon, I will be unable to fill my regular appointment at Rogers.
DICK O'BRIEN Pastor.

FIRST CHRISTIAN CHURCH
The regular services will be held Sunday morning, with the pastor back in his pulpit.
At the evening hour Fairview people will be visitors and after the services those converted during the recent revival at Fairview will be baptized.
REV. WALLACE JONES, Pastor.

ECLIPSE IS SEEN
Scores of Mitchell countians remained up Monday night to witness eclipse of the moon as the earth passed between that planet and the sun. It was the first total eclipse of the moon in eight years.

SUSTAINS MINOR BURNS
Painful but not serious burns were on her hand and face were sustained by Mrs. Harry Ratliff Friday morning while lighting a water heater, where a small amount of gas had collected.

HOT IN WASHINGTON
Congressman George Mahon writes friends here that the weather man is meeting out some intense heat in the National Capitol. The Coloradoan, no doubt, would concur with other members of the congress in demand that adjournment be voted now and such matters demanding attention be looked after later during the year.

PLANNING HONOLULU TRIP
Visiting her father, Judge R. H. Looney and Mrs. Looney before leaving for a vacation in California and Honolulu, Mrs. Ed Rowley of Dallas was here last Thursday and Friday. Mrs. Rowley and her daughter, Frances, and her mother-in-law, accompanied by Elizabeth Snyder of Dallas, were to leave Dallas this week for California where they will be joined later by Mr. Rowley. The elder Mrs. Rowley and the girls will remain in California while Mr. and Mrs. Rowley go to Honolulu.

Death Claims Mrs. W. H. Black After Weeks of Illness

Death which climaxed an illness of several weeks claimed Mrs. Eula Black, wife of H. W. Black, at the Black home in Colorado early Tuesday morning. Mrs. Black was 65. Mrs. Black had only lived in Colorado for the few weeks since she became ill, but she and Mr. Black have been living in this county for over twelve years, farming in recent years in the Seven Wells community. They came here from Cottle county.
Born and reared in Navarro county, Mrs. Black's maiden name was Eula Henderson. Her marriage to Mr. Black took place in her native county.
Eleven children, six of whom live in and near Colorado, survive her. They are: H. A. Black, O. W. Black, and B. L. Black, all of Paducah; Mrs. May Whitley and J. A. Black of Loreine; Mrs. R. M. Cain, Mrs. Gladys Burdell, D. W. (Red) Black, Willard Black, Miss Myrtle Black, and S. L. Black, all of Colorado and near Colorado.

Funeral services were held Tuesday afternoon at Kiker chapel, with the Rev. A. C. Hardin of Loreine officiating. Burial was in the Colorado cemetery. Kiker & Son had charge of arrangements.

ANSON BARBER CHARGED
J. W. Hay, Anson barber, was arraigned before United States district court commissioner in Abilene Tuesday on the charge of counterfeiting. He was arrested in Anson Monday after a quantity of spurious coins had been circulated. Metal and moulds are said to have been found in the man's place of business.

TO SPEND SUMMER HERE
Mrs. J. C. Meeks and Mrs. W. S. Adair, both sisters of the late Mrs. H. B. Smoot, arrived last week from Dallas to spend the summer in the home of Mr. and Mrs. Joe Smoot.

MRS. WHEELER TO MIDLAND
Enroute to Midland where they will make their home this summer, Mrs. H. C. Wheeler and daughter, Enid June, visited Mrs. Wheeler's mother, Mrs. J. Max Thomas, Saturday. Mr. Wheeler's oil work will keep him in and near Midland much of the time this summer. The Wheelers have been living in Dallas.

MRS. RATLIFF, MOTHER LEAVE
Traveling as far as El Paso by car with Harry Ratliff, Mrs. Ratliff and sons and Mrs. Ratliff's mother. Mrs. Hubert Smith, left Sunday for Long Beach, California, where they plan to stay for a month or six weeks. Mr. Ratliff returned home Tuesday. Mrs. Smith has been a guest in the Ratliff home since the recent death of her husband, the Rev. Mr. Smith, in Crystal City.

CONGRESSMAN'S KIN IS GUEST
A granddaughter of the late Congressman and Mrs. W. R. Smith is visiting in Colorado this week. She is Pauline Smith of El Paso, who is the guest of Nina Laura Smith. Pauline came Sunday with her father, Myron Smith of Fort Worth, who went on to Andrews where he has a case in district court this week. A number of informal social affairs are being given in her honor.

Look To WPA

(Continued From First Page)
Greene, county administrator, although the official was not in possession of detailed information as to requirements to be met and extent to which the State will authorize expenditures. Judge Templeton, Mayor J. C. Hall of Loreine, Mayor Van Boston of Westbrook, County Commissioners Mack Holt and J. E. Skelton, and E. M. Majors, Chas. Moesser and Roy Dozier, members of the Colorado city council were officials to attend the conference.
Due to fact Judge Templeton was unable to get a quorum of his court present, he and the two commissioners adjourned to home of J. S. Boyd, of Hyman precinct, where, after considerable discussion, it was determined that the county would register construction of lateral roads as its major project under provisions of the WPA.
Mayor Hall stated that paving of streets in Loreine would, in all probability, be the major activity sought by his community, while Mayor Van Boston suggested that the building and improvement of roads centering at Westbrook would be sought there.
Operation of the new set-up is scheduled to begin next Monday, Greene stated, in urge that the county and sub-divisions hoping to receive aid allocations rush applications. Greene tendered full cooperation in every project to be considered and stated his office would be pleased to assist in filing the formal project applications.
Cancellation of Highway 101 from the Mitchell-Scurry county line north to Snyder was suggested by the highway commission, but this proposal was protested by delegation from Snyder, Judge Templeton announced at the conference. Appeal that the State pave the road from Colorado to the county line north was again declined, but this designation was not killed.

Look After Child's Well Being As You Plan For Vacation

This is the time of year when we put much effort and money into the summer outing and justify the expenditure on the ground that we and our families require an opportunity to recuperate through change of surroundings and to improve our well-being. But there is often very little common sense in the management of the vacation, especially that of the children. The essentials of good care are ignored, so that the child is often in less satisfactory condition, physically and mentally, at the opening of the school in the fall than he was at the beginning of the summer, said Dr. John W. Brown, State health officer, in recent communication to The Record.
Insufficient rest and over-exercise are particularly common. It is more difficult, of course, to see that the child obtains sufficient rest during the summer, the long days and planned diversions being largely responsible; but more rest, not less, should

be the rule during the summer months. Heat and exercise may interfere with proper digestion, indiscretions in diet are often permitted or even encouraged. Milk, the child's staple food, which deteriorates rapidly in warmth, is not sufficiently protected; and other foods are subjected to contaminations which would be less likely to occur in winter.

A sudden change from an indoor to an outdoor life often leads to long exposure to the summer sunshine and when this is unduly prolonged sunburn often results. Children who have played out in the sun all the year have become more or less hardened to the effects of the sun but those that don sun-tan suits for the first time should be careful not to prolong the exposure at first. Exposing the skin a short time at first and gradually increasing this will soon build up a beneficial tan without sunburn.

MRS. WALLER UNIMPROVED
Mrs. M. M. Waller, who has been ill for some time at the home of her daughter, Mrs. Leon Jenkins, was reported Thursday morning to be somewhat worse.

CADDY TOURNEY IS WON BY HARDISON ALLMOND

Closing matches of the annual caddy golf tournament at the Colorado Country club Thursday morning left Hardison Allmond tournament winner, 1 up on the nineteenth hole. James Pritchett, runner up, was tournament medalist with a 94. Curtis Wood won the consolation, 2 and 1.

J. A. FREE APPOINTED POSTOFFICE FIREMAN

Notice that J. A. Free has been appointed as fireman-laborer for the new Federal postoffice building has been received by Joe Y. Fraser, postmaster.

Free will assume his duties as soon as the building is occupied for postal purposes. A civil service examination was held to fill the place last May.

FINAL CLEARANCE SALE TO OPEN AT BERMAN'S

Final Clearance Sale, in which Summer merchandise is to be closed out at bargain prices is set to open at Berman's Department Store Friday morning. Max Berman, owner of the establishment, stated Monday that unusual bargains would be found in all departments. Ample sales force will be employed to extend every cooperation to the shopper.

WALKER RESIGNS HIS LATEST EDITORSHIP

Monday's newspapers contained the announcement that Stanley Walker, known to many Coloradans, had resigned as news editor of the New York "American," saying "I couldn't see how I could be of any value to them."

Mr. Walker was formerly city editor of the "Herald Tribune," one of the leading dailies of the country, but resigned that position last January to accept another on the New York "Mirror," a tabloid newspaper published by William Randolph Hearst. His reputed salary on the "Mirror" was \$25,000 a year. Later Walker was shifted from the "Mirror" to Mr. Hearst's "American," a daily which was losing circulation.

A native of Texas, Mr. Walker was reared in Lampasas, Texas, and he has many friends in Colorado. Later he went to Texas University, where he was editor of the Daily "Texan," and subsequently was a newspaper man in Dallas. He married Tot Sanderfer of Abilene, daughter of President Sanderfer of Hardin-Simmons. Mr. and Mrs. Walker live at Great Neck, Long Island, within commuting distance of New York.

At the time he was city editor of the "Herald Tribune," Walker was one of the best known newspaper men in the country. His special field of writing is that dealing with the underworld and with the celebrities in the sporting and theatrical world. He has the reputation of making no mistakes in regards to names or facts. Besides his work on newspapers, he writes book reviews, articles for the "New Yorker" and "Vanity Fair," and has two books to his credit: "The Night Club Era" and "City Editor," both of them best sellers. Another of his books is soon to be published entitled "Mrs. Astor's Horse," treatise on the taste of the times.

COACH JIM REESE IS 'WRITTEN UP'

Coach Jim Reese of the Colorado Wolves was mentioned in Sunday's Fort Worth "Star-Telegram" in its Texas University column as follows: "Long Jim" Reese, who made track history at the University of Texas as a star miler, is enrolled in the summer school. He is head coach at Colorado City, Texas.

Even in his freshman days, Reese was an outstanding trackman. The 1923 Texas University "Cactus," yearbook of the institution, says this about the freshman track team for that year: "The outstanding star on the squad was Captain Jim Reese, a slim youngster from Comanche. Reese is one of the most promising athletes ever graduated from a Freshman track squad. In the triangular meet between Varsity, Shortorns, and Freshmen, he took first in mile and half mile in fast time. In practice he has come within a fraction of the conference record in the 880, and Varsity enthusiasts expect him to set a new mark for other conference half-milers to shoot at."

Reese lived up to expectations of his Freshman days, and did become a star, breaking mile and half mile records in the Southwestern conference.

MAKING OF FABRIC PURSES IS SUBJECT

By Mrs. Ivan Barber, Reporter
That fabric purses of linen, crash, or pique are appropriate for use with summer costumes was one of the facts brought out by Miss Emma Gunter, county home demonstration agent, in a demonstration before women of the Bauman Home Demonstration club at the home of Mrs. Ernest Meadows last Wednesday.

Miss Gunter showed how attractive purses can be made either envelope or zipper style at a small cost.

Mrs. Ivan Barber was elected delegate to the A. & M. Short course, with Mrs. Dee McCollum as alternate. A club picnic, with families as guests, was planned for August 16. The next club meeting will be with Mrs. Lester Webb on July 24.

AXTEL CHILDREN HERE

Jane and Jo Axtel, daughters of H. A. Axtel, manager of the Magnolia company at Itan, arrived some time ago from Cleveland, Ohio, where they have been living with an aunt since their mother's death. They are to remain here with their father and attend Colorado schools.

Three Additional Producers Completed East Howard County; Others Drilling

Interest in oil development in Eastern Howard county continues to hold considerable interest here due to close proximity of the field and the further fact that a considerable acreage on which the wells are located is owned by Mitchell countians. Following report on activities there has been received by The Record:

Three oil wells in Howard County were completed last week for total daily initial yield of 1,227 barrels while two tests struck oil in amounts promising production.

The largest of the completed trio was Bond Oil Corp. No. 3 Rhotan, which flowed 954 barrels in 24 hours after cleaning out to 2,752 feet, the total depth, following a 600-quart shot from 2,567 to 2,752. It was given a daily allowable of 179 barrels. Broken pay was topped at 2,565. The well is 330 feet out of the north-

Sinclair-Prairie No. 16 Dodge, 333 feet out of the northwest corner of section 3, block 30, showed oil from 2,560-80 feet and had an increase from 2,600-20 feet, filling 2,000 feet with oil as it drilled to 2,660 in line. Sinclair-Prairie No. 17 Dodge was building rig. No. 18 was rigging up machine and No. 19 was rigging up standard tools. In the northeast quarter of section 3, Shasta No. 2 Dodge had drilled to 702 feet in shale and No. 3 Dodge had reached 785 feet in shale.

Owen W. Murray and others' No. 3 Davis heirs, 2,310 feet from the south line and 1,650 feet from the west line of section 2, block 30, disposed of a bit at 2,707 feet and drilled ahead at 2,757 feet with the hole full of oil. Herschbach No. 5-B corner of section 2, was preparing to pump after cleaning out to 2,780 feet, the total depth, following a shot. Herschbach No. 2-A Davis, in the northeast quarter of section 2, was fishing for a baller lost while cleaning out from a shot late in May. Total depth is 2,807 feet. The California No. 3 Dodge, 330 feet out of the southwest corner of section 1, block 30, pumped 147 barrels daily upon completion at 2,770 feet. Pay topped at 2,525 feet was shot. No. 4 Dodge was moving in a machine.

California No. 6. A. M. Bell, in the northeast quarter of section 12, block 30, was waiting on pump for completion at 2,785 feet after shooting. Rotary was being moved in for California No. 7 Bell, 465 feet out of the northwest corner of section 12. Merrick & Lamb No. 2 Bell, 2,310 feet from the south line and 330 feet from the east line of section 12, appeared good for only five barrels of oil daily at 2,530 feet in lime and shut down there for orders. It showed oil from 2,451-61 feet and had an increase from 2,518-26. Sinclair-

10, block 30, continued fishing for tools lost while cleaning out after a shot, bottomed at 2,845 feet.

It pays to advertise.

Heat Prostration Blamed In Death Of Joe Creamer

Heat prostration which brought on a heart attack was held responsible for the unexpected death of Joe Miller Creamer, 47, at his home a mile east of Colorado Tuesday afternoon about 3:30.

While working in a feed field near his home Monday afternoon Mr. Creamer was overcome by the heat and was forced to go to bed. His condition was not thought to be serious when death came twenty-four hours later.

Mr. Creamer had lived in this county for more than fifteen years. Several years ago he narrowly escaped death when caught in gin machinery and badly mangled. One arm was severed at the shoulder in the accident. He was born in Eastland county in 1888.

Graveside funeral services were held Wednesday afternoon at 4 o'clock at the Colorado cemetery with the Rev. A. D. Leach officiating. Pallbearers were Monroe Herrington, Ernest Smith, Tom Burrus, Jack Nolen, Gurney Priddy, and Lewis Wyatt.

Survivors include Mrs. Creamer and two children, Mrs. Mabel Green and Grady Creamer, both of Colorado. Two brothers and two sisters are also living.

Kiker & Son were in charge of funeral arrangements.

CHAMPION CREEK LAKE IS CONSIDERED AFTER REPORT GIVEN BY LOCAL ENGINEER

Project Costing \$85,000 To Afford 1,400 Acre Feet, Buchanan Notes

Projected construction of a lake on Champion creek six miles south of Colorado received added impetus as the major activity to which Colorado strive as R. D. Buchanan, engineer, gave estimates of building and other costs at the Lions Club Friday. The night before Mr. Buchanan detailed specifications and cost estimates before another group of interested citizens at the Colorado hotel.

Buchanan stated that he had surveys of two proposed dam sites on channel of the stream, one of which, termed the upper dam, situated a short distance below point where the Seven Wells road crosses Champion creek. The other and more preferable dam site was shown on blueprints to be one-half mile down stream from the upper location.

Construction of an earthen dam with masonry core was recommended. Estimates showed a body of water standing 42 feet in depth at the dam site and extending upstream one and one-half miles to the sandstone ledges at Seven Wells. Water there would stand 21 feet deep. 1,400 acre feet of water would be impounded, the engineer said.

Cost of the property was estimated at \$85,000. \$35,600 of the amount was listed as labor expense and the remaining \$49,400 as materials, land and other contingencies. The latter outlay could be reduced 45 percent or \$21,000 through plans under which PWA grants are being authorized, it was explained. That the labor expense could be absorbed through relief labor grant was suggested.

At flood stage the lake would cover 305 acres of land, the most of which area is located within the Wulfjen pasture. There are only a few acres of land now under cultivation that would go under water, Buchanan stated. He said that investigation had convinced him little trouble would be realized through silting up. "This element might begin giving trouble after twenty-five years but even then an additional ten feet could be built onto the dam, assuring continued ample water supply," he declared.

That the projected lake would supply ample water for the municipal needs of Colorado, with a population much greater than at present, and at the same time afford other utilities, including boating and fishing facilities, was asserted.

Just what steps are now to be taken looking to pushing the project into concrete form has not been determined, local civic leaders interested in the lake stated this week. The city will be asked to cooperate in the improvement, as will the Mitchell county relief office. Members of the Lions club Friday afternoon gave expression to the belief the lake would be built, "if the citizenship are interested."

Mr. Buchanan was presented the club by Dr. Dave Bridgford, retiring president of the Lions and who during the past several days has evidenced active interest in plans for acquiring a lake near town.

While canning corn last week Mrs. Ivan Barber, cooper in the Baum club, used the following recipe as recommended by the bureau of Home Economics, Washington, D. C.

Use only tender sweet corn which has been freshly gathered. Shuck, silk, and clean carefully. Place in boiling water and leave 4 to 5 minutes at simmering temperatures. Cut from the cob deeply enough to remove most of the kernels without objectionable hulls. Do not scrape the cobs. Add 1 teaspoon of salt, and 2 teaspoons of sugar to each quart of corn, and half as much boiling water as corn by weight. Reheat to simmering, and pack into containers at once. Process immediately.

C-enameled cans or plain tin may be used. At 240 degrees F., the processing time for No. 2 cans is 50 minutes.

Robert Lee, attorney, announced recently that he planned entering race for State representative from the 92nd district in event H. O. Jones of Winters, incumbent, resigns and a special election is called. Jones has recently been appointed postmaster at Winters.

Hamman is manager at Col-Tex station. J. E. Hamman, associated with Col-Tex Service Station 2, at West Third and Oak, for several months, Friday was checked in as manager, succeeding Clarence Cook, resigned. Cook, who has been in charge of the business during the past year, has resigned to accept position with Earl Hammonds, hardware and implement dealer.

C. L. GRAY TO RETURN TO ROTAN AUGUST 1 TO TAKE CHARGE FATHERS BUSINESS

Lumber Yard Manager Is One Of City's First Citizens In Church And Clubs

C. L. Gray, manager of Rockwell Brothers lumber business here since 1930 and identified with the lumber business and building material trade in Colorado since 1926, will leave August 1 to return to his native home, Rotan, to assume charge of his father's business.

Gray came to Colorado on May 15, nine years ago to assume charge of the Gray Lumber Company and was in charge of the business until the corporation told to Burton-Lingo in 1930. He went with Rockwell Bros. at that time and has since been manager there.

In returning to Rotan Mr. Gray states that he feels that it is his duty to take over business affairs of his father, J. C. Gray, founder of the Gray Lumber Company and who during the past 35 years has been active in business. A brother, Robert Gray, will be associated with him in management of the Rotan business.

During his residence in Colorado Gray has held distinction as being one of the city's first citizens, active in affairs of the church, service clubs and chamber of commerce. He is a deacon in First Baptist church, a past president of the Lions Club and at present a member of the city council.

Garner Jones of Quana, identified with the lumber trade several years, is to succeed Mr. Gray as manager for Rockwell Bros. here. Jones was in Colorado Saturday and returned again Thursday to be here permanently as assistant until the present manager leaves the first of next month.

"My family and I will leave Colorado with sincere regrets, as we have never lived among a more to be desired citizenship," Gray stated to The Record Monday morning. "In returning to our former home we will not forget the fine people of Colorado and Mitchell county."

Mayor J. A. Sadler stated Monday afternoon that a special election would be required to fill vacancy caused by resignation of Mr. Gray as a member of the city council. He advanced no suggestion, however, as to when this would be done.

LIONS GIVE IMPRESSION OF WHAT EVERY MEMBER SHOULD DO DURING YEAR

Ranking officials of the Lions Club Friday gave their impressions as to what they and other members of the service organization should do in order to realize ambition of seeing the year 1935-36 the greatest Lions year Colorado has ever known.

President B. L. Templeton was the first to address the club. He urged that there was something for every Lion to do. "The more you put into this club the more you will get out of it" was his admonition.

Thos. R. Smith, member of the directorate, Jack Helton, secretary-treasurer; Bob Hubbard, tail twister, and J. Ralph Lee, as member of the program committee, were other officials to be heard on the subject.

A. B. BLANKS ONE OF SHOE PRIZE WINNERS

A. B. Blanks of Colorado was announced recently as one of the Texas winners of a contest conducted by the W. L. Douglas Shoe company. The principle point of the contest was the writing of a letter on "Why I Think Douglas All-Leather Construction is Best."

Blanks will be awarded a pair of Douglas shoes as his prize. Large cash prizes went to the highest winners in the contest.

HOPES TO DEFEAT THE WOLVES AGAIN IN 1935

Ed Henning, skipper for the Sweetwater Mustangs, among the powerful grid clubs in Texas, was a visitor in Colorado Thursday. The tall red-faced coach suggested that he would be ready for Colorado again during the next football season. "I will be expecting the Wolves over," he said.

Changes and improvements which are going on around the McCall mission, which is maintained in East Colorado by the Daughters of the King class of the Methodist church, were reported by Mrs. W. H. Garrett to the class during its meeting with Mrs. B. M. Moore last Thursday afternoon.

A number of houses near the mission are being torn down and moved away and various improvements are planned, Mrs. Garrett said.

Mrs. Jeff Dobbs made a report of tuberculosis work in the county.

Mrs. C. C. Blandford of Fort Worth and Mrs. Eugene Payne of Seagraves were guests. The hostess served ice cream and cake. The class plans to have a picnic in August.

TREASURER IN HOUSTON

Mrs. Mayne Taylor, county treasurer, and her daughter, Elizabeth, left Wednesday of last week for Houston, where they are spending about ten days with Mrs. Taylor's mother.

Japanese Party At Anderson Home One of Season's Most Colorful Affairs

Lighted by a full moon and swaying Japanese lanterns, the lawn of the home of Mr. and Mrs. A. C. Anderson was the scene Tuesday evening of one of the most colorful parties given in Colorado in recent months.

Japanese parasols, opened and hanging downward, and Japanese lanterns were strung over the tree-bordered lawn. Tall baskets of sun-flowers and ivy stood in conspicuous places. Japanese smokers and Japanese tables were placed conveniently, and Japanese chimes and incense burners completed the oriental setting.

Against an ivy and flower covered trellis, decorated with Japanese parasols, stood a table from which Mary Frances Mackey and Mary Elizabeth Pidgeon served punch before and during the games.

Tallies and scorepads were Japanese. In the games of bridge, with fifteen tables of players taking part, prizes were won as follows:

Mrs. Carey Prude, Jr., Was Tuesday Hostess

Using a pink and green color scheme in her playing appointments and decorations, Mrs. Carey Prude, Jr., entertained three tables of bridge Tuesday afternoon.

High score prize was won by Miss Mavis Blount of Palestine, who is the guest of Miss Wanna Wade. Second high was made by Miss Jenks Spaulding. Punch was served during the games and a salad course followed them. Mrs. Charles Donaldson and Mrs. Carey Prude, Jr., assisted the hostess.

Players were Mrs. James Logan, Mrs. Wade Scott, Miss Wanna Wade, Miss Jenks Spaulding, Miss Mavis Blount, Miss Mary Alice Abbott of Stamford, Miss Maxine Dorn, Mrs. Bill Oswald, Mrs. Baxter Seoggin, Jr., Miss Elizabeth Grantland, Miss Erdine Morgan, and Miss Ditty Hughes.

Refinery Employees Frolic At Pecan Grove

Members of the laboratory staff at Col-Tex refinery enjoyed a picnic at Pecan Grove south of Loraine Tuesday afternoon and evening. Barbecued chicken featured on the menu. Earl Gunn, refinery superintendent, was among the special guests attending and enjoying the affair.

This little **GAS BURNER** takes the place of **ELECTROLUX**

It is this fundamental difference why engineers say gas is the logical method of refrigeration. It is why Electrolux is recognized everywhere as the cheapest refrigeration money can buy. Any wonder when Electrolux operates without a single moving part to make noise or to wear and need replacing? Because of this simplicity Electrolux saves enough on operating cost, depreciation and food bills to pay for itself. See its modern beauty... compare its advantages, then you'll know why 500,000 have bought Electrolux!

FUNERAL FOR MRS. A. M. JACKSON

Mrs. R. E. Bennett, Mr. and Mrs. Earl Jackson and son, Avery Lynn, returned Sunday night from Los Angeles, Calif., where they attended the funeral of their mother, Mrs. A. M. Jackson, who passed away at the home of her daughter, Mrs. Ernest Philipp, in that city on the 6th day of July.

Mr. and Mrs. A. M. Jackson are well known in this community having lived here for many years prior to moving to California some eleven years ago. The following taken from the Los Angeles Times will therefore be of interest to her many friends and acquaintances:

"S. Katie Jackson was born Nov. 28th, 1861, at St. Joseph, Mo., and passed away very suddenly on July 6th, 1936, at her home on the 23rd Ave. She is survived by her husband, A. M. Jackson and a daughter, Mrs. Ernest Philipp, of the same address, one daughter, Mrs. R. E. Bennett and one son, Earl Jackson of Loraine, Texas, four grandchildren and two great grandchildren of this city. Mrs. Jackson had lived in Los Angeles for the past eleven years and her friends were numbered by her acquaintances.

"Funeral services were held Tuesday, July 9th at 2 o'clock p. m. with Rev. Forde of Sunnyside Baptist church in charge, who read from the 14th chapter of St. John and the 23rd Psalm, bringing words of comfort to the bereaved and paying great tribute to the life of this wife and mother. Special music was rendered by A. C. MacDonald and wife. The floral offering was of unusual magnitude. Interment was made at Inglewood Memorial Park."

MISS SPURGOR AND MR. WEST WED

Miss Kate Spurgur, daughter of Mrs. Ella Spurgur of Loraine, and Mr. Arnton B. West of Big Spring were married in a simple ceremony in the home of the bride's mother at 6 p. m. Sunday. Rev. Mr. Meador performed the ceremony in the presence of intimate friends and members of the families.

The bride wore a milgrim model of navy chiffon with white accessories.

After a short trip the couple will be at home temporarily at Big Spring where Mr. West is employed with the Cosden Oil Company.

Mrs. West has just returned from

a months trip in Northeastern United States. She visited friends and relatives in Washington, D. C., Niagara, New York City, Jersey City, and Baltimore.

Both Mr. and Mrs. West have a host of friends here who wish for them much happiness.

Another Article On Trench Silo Offered By Record For Farmers' Consideration

Doyle Williams, director of the vocational agriculture department in high school recently offered for publication in The Record an interesting article on the trench silo.

Due to growing interest among Mitchell county farmers in this type of feed storage the following article, written by Henry Field for the Dallas Semi-Weekly Farm News is given space:

"I would never put another dollar into an above-ground silo under conditions where it was possible to use a trench silo." Jack Shelton, manager of the Luling Foundation Farm, said recently. This attitude on the part of Mr. Shelton is typical of the attitude of farm leaders and successful farmers in the Southwest today toward the trench silo. The outlook for a good feed crop this year is causing many farmers to take thought as to how they are going to save their excess feed.

Trench silos and crops raised especially for grazing seem to offer a solution of the problem of how to utilize permanent pastures to their fullest in May, June and July without animals seriously overgrazing them in August, September and October. A trench silo will do much toward keeping animals as well fed at slight cost in December and January as in June.

The spot selected for a trench silo should be capable of good and easy drainage. A low bluff or hillside is good for this purpose and makes filling easy. The site selected should be located conveniently near the feed barn, or in the pasture where the feeding is done. It also should be near the water supply, for much water is required in filling.

The width and length of the silo will be determined by the amount of storage space required, but it should not be less than five feet deep, to insure proper curing. Under average conditions, a cow will eat about thirty pounds of silage a day, while work animals and half-grown animals will eat about fifteen pounds a day each. With these facts in mind, we can calculate the size of silo required. Assuming that a farm has three cows, four horses and two growing heifers, we find that these animals will eat 180 pounds of ensilage per day. One cubic foot of silage weighs about twenty-five pounds. The ensilage should be removed from the silo in layers about three inches thick, to prevent spoilage. We find that in taking off a three-inch layer each day, thirty square feet of cross-sectional area would be required to furnish the feed needed.

To find the average width required, divide the area by the depth. Taking six feet as the depth, we find that the silo should be five feet wide. Since the silo should be so shaped that the bottom will be about two feet narrower than the top, we find that the silo should be six feet wide at the top and four feet wide at the bottom. The width of the silo for any number of animals can be figured in the same manner.

Since three inches is one-fourth of a foot, the length of the silo for any given feeding period may be determined by dividing the number of days you expect to feed by four. In the above example, if ensilage is to be fed through the three winter months and also in August (120 days), divide 120 by 4. Thus we find that, under the conditions assumed, a silo thirty feet long would be required. For safety, it should be longer. Within reasonable limits, silos may be made of any dimensions you wish to give them. It usually is better to make two small pit silos than one large one, keeping one of

them sealed until the other one is emptied.

In making ready to build a trench silo, stake off the location parallel with the slope of the land. A Fresno and a plow are the best implements for digging a trench silo that are likely to be available on a farm. A plow is required to loosen the dirt and a Fresno to move it. A pick, mattock, spade and hoe are useful in smoothing the walls. The ends of the silo should be sloped so a team may be driven down them, but as the work progresses, the upper end may be made as steep as a team can go down easily, while the lower end may have a grade slight enough so the team can pull the loaded Fresno out. If possible, the lower end should be closer to the barn or feeding troughs.

No lining or finishing material need be put on the inside of a trench silo, but if the silo is permanent, it should be lined with concrete; otherwise it will have to be shaped up each year, and will gradually grow larger by reason of the process.

When the excavation has been made to the desired depth, length and width, a diversion ditch or cross ditch should be run around it to turn away from it. When the silo is filled, a drainage ditch should be cut on each side, to hurry water off, instead of letting it stand and seep into the trench.

Grain sorghums, including hegari, darso, milo, kafir, sweet sorghum and red, are suitable for filling a silo; but corn, peas and root crops may be kept in a silo. The hard-cough stage is the best stage to cut grain sorghum or corn for silage. At that stage they have nearly all the nutriment they will ever have, and are in a sufficiently watery condition to keep well in a silo.

Silage usually is cut with an ensilage or a feed cutter, but in some times put into the silage without cutting. The advantage of putting feed into a silo uncut is that it saves the cost of cutting; but as it takes more work to get uncut silage out, it is debatable whether there is any saving in the end. There is little difference in the amount of spoilage by the two methods if the bundles are cut when the feed is put in, if it is packed lengthwise in the trench and if the uncut feed is thoroughly packed as it is put in. When putting feed in uncut, special care should be taken to scatter it clear to the walls.

Plenty of water should be used in filling a trench silo, especially near to the walls, if the soil is dry. Each layer should be wetted down separately. More water will be required if the feed is dry, or partially dry, than if it is green and full of juice. It is well to add as much as a barrel of water to each ton of silage, and if the feed is dry, four or five times as much may be required. While the filling is going on, the silage should be packed at intervals by having men or horses trample it, or by running a tractor over it. Silage can not be packed too much. The silo should be filled to the ground level then rounded up. No covering of straw or any other material other than dirt is necessary or desirable.

The most common method of covering silage is to place about twelve inches of dirt over it. There is no special objection to a dirt covering, as it is easily removed with a Fresno. Unless the dirt is moist when it is put on, it should be well wetted and kept wet several days; otherwise the heat from the silage may dry it out and crack it, thus causing spoilage of part of the ensilage. When finished, a filled pit silo should have a rounded top of soil and be provided with means for draining water away from it.

Feed stored in a pit silo may be kept several years without attention. Cattle prefer silage to hay or dry cornstalks. Some cows will even leave alfalfa hay for ensilage. A pit silo is an ideal device for storing surplus feed raised in good years and carrying it over to lean years, or to the months when pasture is not available or is inadequate. It requires nothing for digging but labor. It can be dug quickly, and, under average conditions, it means the difference between profit and loss to the dairyman, and between plenty of feed in midsummer and in winter for the average farmer and nothing but bought feed.

Two Wells In East Howard County Add To Producing Area

Two producers in Howard county were completed, several tests encountered shows and a wildcat in the eastern part of the county got its first show of oil during last week, according to news report on that sector furnished The Record by the San Angelo Standard-Times.

California No. 6 A. M. Bell, in the northeast quarter of section 12, block 30, T&P Ry. Co. survey, was completed with initial production of 95 barrels per day on the pump. It topped pay at 2,438 feet and completed at 2,785 feet.

Continental Oil Company's No. 16 Settles, section 133, block 29, W&N Ry. Co. survey, was good for 599 barrels per day, pumping, from total depth of 2,190 feet.

Eastland Oil Company and Hugh D. White's No. 1 D. H. Snyder, three and a half miles south of the Denman pool in wildcat territory, last week was at 2,651 feet in brown lime after getting its first slight oil show at 2,575-82, an odor from 2,627-31 feet and free oil from 2,637-48 feet. It is in the southwest corner of section 28, block 30, township 1 south, T&P Ry. Co. survey, on a four-section block.

Herschbach Petroleum Company's No. 5-B Davis, 330 feet out of the northwest corner of section 2, block 30, T&P Ry. Co. survey, with total depth of 2,780 feet, was testing shows.

Sinclair-Prairie No. 2-B Denman, in section 10, block 30, with total depth of 2,845 feet, set a whip stock to drill by tools lost several weeks ago while cleaning out after a shot. White, Johnson and others' No. 5 Read made 738 barrels the first 24 hours after a shot and was cleaning out. Total depth is 2,752 feet in lime and the shot was with 610 quarts from 2,545 to 2,740 feet. The 738 barrels was by flow and swab.

International Petroleum Company's No. 2 Kloh was pumping around 400 barrels per day but was not completed. Its total depth is 2,750 feet. The same company's No. 4 Kloh, with total depth of 2,734 feet, was shot with 425 quarts from 2,600 to 2,734 feet and swabbed 974 barrels the first 24 hours after the shot. It was cleaning out.

Merrick & Lamb No. 2 A. M. Bell with total depth of 2,834 feet in lime, was shot Tuesday with 375 quarts from 2,830-53 feet and the following day with 40 quarts from 2,451-61 feet and was cleaning out. In Glascock County California No. 3 Baker was drilling at 2,005 feet in anhydrite shale. Sims 7 Coffee was drilling at 750 feet and E. L. Smith's No. 3-A Coffee, another Glascock test, was preparing to pump to test with total depth of 2,290 feet in lime after swabbing 80 barrels in seven hours at 2,135 feet and 30 barrels per hour for four hours at 2,290 feet.

This columnist spent several days the past week at Mineral Wells and the staff at the Crazy Hotel was so nice to us we deem it due them to return the compliment.

Mineral Wells, in the Palo Pinto mountains of Texas, one thousand feet above sea level, is noted for its mild, pleasant climate and beautiful scenery. The views of various spots about the city give an idea of the jewel-like setting of this great health resort.

The Crazy Hotel is a modern, fire-proof hotel covering an entire city block, and was built for the many visitors coming to Mineral Wells. Every guest receives that special consideration shown at many hotels only to a favored few. This unusual spirit throughout the entire staff creates a most friendly atmosphere. The lobby—one of the largest in the world—is richly and comfortably furnished, like a club in which one passes many hours in pleasant conversation or listening to the orchestra. Guest rooms are larger than one expects, the beds more comfortable, the furnishings more restful and distinguished. Meals in the coffee shop (scientifically air-conditioned to maintain proper seasonal temperatures) are happy experiences with really excellent food and personalized service. There is a friendly greeting that makes the pavilion and "Crazy" water bar more than just a place to drink "Crazy" water. Rest and recreation are possible on a small or large scale everywhere from the modernistic card room to the spacious ball room on the roof.

The quiet, the rest, the peace of mind you need to complete your process of rebuilding may be found in Mineral Wells. At an altitude 1,000 feet above sea level the climate is pleasant and mild. Sunshine, rest, peace of mind and health—these are the things we have to offer. Recovery from prolonged and chronic illness of many types is common in Mineral Wells. Come to the Crazy Hotel and drink your way to health.

We expect to attend the Paisano encampment and camp for ten days in the Davis Mountains. Buren Sparks writes this charming letter:

PAISANO—THE CHARMING

I don't like the title of this story, as the word charming sounds a bit simplified when applied to an encampment that nestles in sheer ruggedness and ministers to the big, strapping men of the cow camps as does Paisano. But that word will have to stick this time as I do not have a better one. It is the word that is often used by strangers on their first visit to the assembly. They are charmed with its setting, charmed with its colorful cowboys and Mexican helpers, charmed with our unique method of feeding the multitudes and charmed by the personnel of our preachers, singers and teachers.

This year you will be charmed by the very appearance of our grounds.

augured, the Eighteenth Amendment was in force, but he paid no mind to that. He broke all the barriers. He wrecked that amendment and flooded the country with illegal beer, and, in the wake of beer, there followed the repeal of the Eighteenth Amendment, which was done at Roosevelt's connivance and through his co-operation and that precipitated a quality of riot and dissipation that cluttered our highways with drunken drivers and is sapping the vitalities of American youth.

I have never called Roosevelt a mendicant. He was born with a silver spoon in his mouth, has been rich all his life and knows nothing about the struggles of those of us who have climbed the hill of life on our own power rather than seeking to live off of the thrift and industry of other men.

In other words, I am utterly opposed to Socialistic methods and to Communism, toward which Roosevelt has headed us ever since he began his impossible experimentation in so-called relief work, in the NRA abortion and in other attempts to regulate every American and dictate to him how he should project his life. Happily, the codes of NRA have been snatched by the Supreme Court, but in order to camouflage that justly merited defeat, Roosevelt has projected his "soak-the-rich" tax plan and, meantime, he is sponsoring legislation through which the Government is to pay a pension to the old who ought to be cared for by their children.

The Roosevelt idea is to force industry and success to pay tribute to idleness and dead-beatism. It's not his money he's wasting—it's ours. Of course, much of it is political. No one will ever know how many millions will be influenced by the \$5,000,000,000 (billions) that have been laid in his lap by a rubber-stamp Congress to be spent as the dictator dictates. If all his appointees vote for him they will turn the scale in 1936. The growing revolt against Roosevelt will defeat him, but the opposition confronts tremendous odds.

I'm opposed to any increase in taxes. Property is being already confiscated by taxes. When any new official is elected he doesn't seek to help the people, but raises his eyes and looks around for new plans of robbing the people in increased taxes. I'm not a Republican, but I'm against Roosevelt. He's a dictator, a rough-riding, ego-maniac. He doesn't know whether God made him or he made God. If he is re-elected and maintains his present stride he will land us in bald Communism and will be our last President. He will be the fourth man in the quartette—Stalin, Mussolini, Hitler, Roosevelt.

The Roosevelt policies have hurt rather than helped recovery. He proceeds like a quack doctor who, unable to diagnose his patient's case, prescribes one nostrum after another. Nature, not doctors, cures all the diseases that get cured. All doctors can do is to aid nature. We got through the panics of 1873, 1893 and 1920 without all these Roosevelt insanities and would have been through this long ago if he had let us alone. We can't send to Washington for paragonic every time a baby gets the colic, and there are men left among us who can select their toilet paper and safety pins without dictation from the White House.

As I write, Roosevelt is seeking the help of his congressional satellites to railroad a batch of unconstitutional statutes through Congress so they can be so declared by the Supreme Court, thus furnishing him with ammunition in his fight for the destruction of State rights and the abrogation of the Constitution.

Americans, awake! Unful your flag! Fight for liberty! Fight now! If you don't, there will soon be neither flag nor liberty to fight for.

MRS. JOHN W. COBB GUEST

Mrs. John W. Cobb, whose husband taught in Colorado High school several years ago, was a guest of Mrs. C. L. Gray last Friday. She came over from Rotan, where the Rev. Mr. Cobb is conducting a revival, with Mrs. W. T. Patterson, who also visited in the Gray home. The Rev. Mr. Cobb finished the seminary in Fort Worth last spring and is now pastor at Itasca. He was active in the First Baptist church here during his residence in Colorado.

THOMAS CHILDREN HERE

The two children of Dr. and Mrs. Maxwell Thomas of Dallas are here for a three weeks visit with their grandmother, Mrs. J. Vote Results Will Show Trend Public Thought In State

BY LLOYD PRICE

When Texans vote on seven amendments to the State Constitution Saturday, Aug. 24, they will decide not only the fate of the measures submitted, but will indicate strongly political trends in both State and national elections during 1936.

Of highest public interest among the seven constitutional amendments to be submitted next month is the ever-five wet-dry question. Upon the result may hang not only the legalization of whisky sales in Texas, but whether Gov. James V. Allred will oppose Senator Morris Sheppard, with his ceratin-o-follow shuffle in State political aspirations.

Should Texas vote overwhelmingly dry the position of Senator Sheppard, father of the Eighteenth Amendment, will be unassailable. But should the wets gain a marked majority Governor Allred, dry, but not of the extreme aridity of his possible opponent, will doubtless feel that the time for indulgence of his senatorial ambitions is not so inauspicious as latest gossip has indicated.

Once Governor Allred announces definitely no second-term desires the hats of Attorney General William McCraw and Railroad Commission Chairman Ernest O. Thompson will surely be tossed into the gubernatorial ring, with many companions.

Apt to follow their lead is Speaker Coke Stevenson of the House, whose friends are insisting that he aspire to the governorship.

And not only will higher offices of the State be affected by the vote, political observers say. Aspirants to the Legislature and to county governmental posts have been as evasive as will-o'-the-wisps regarding the liquor question, prepared to jump to either side should popular acclaim show definite leanings.

"I am in favor of submitting the question to the people," the familiar response given by officeholders and seekers, and beyond this they will not be forced.

Many, seeing the legalization of beer in 1933 as a definite indication of growing wet sentiment, tended toward dripping positions which now appear dangerous, for even wet leaders concede that the vote will be close.

Dry organizers express only one fear, that the special election will not draw enough people to the polls to give them their claimed great majority, and they concede not a county in advance to their opponents.

In the Aug. 24 election, considerable interest is being displayed in the amendment which would give to pupils in private schools free textbooks such as are provided in publicly supported institutions.

Proponents of the measure point out that private and parochial schools are taking a great number of scholars from the public school system, and that pupils in these institutions are entitled to at least the benefit of textbooks.

Opponents, included in which are various organized groups of teachers, regard the policy as an entering wedge toward a far greater participation by the State in private school support.

The other five amendments are as follows: Providing for the commitment to State hospitals of persons for mental observation without court proceedings.

Empowering the Legislature to provide for an old-age pension system, but without issuing State bonds.

To authorize special legislative sessions to submit constitutional amendments.

Enlarging the suspended sentence law to permit revocation by the court for cause.

Abolition of the fee system.

Col. Charles L. Wakefield, who accepted an invitation last week to lead wet forces, maintained a complete silence Saturday when questioned regarding his organization.

Col. Charles L. Wakefield, who accepted an invitation last week to lead wet forces, maintained a complete silence Saturday when questioned regarding his organization.

The building of a powerful campaigning force is under way, how-

ever, and there is no doubt that a widespread appeal for votes will be conducted. E. Paul Jones, former publicity director of the State Fair of Texas, went to Austin last week to join repealist ranks after resigning from the Centennial staff. In addition to the plea for "true temperance," repeal forces will urge raising of the liquor ban to help bring visitors to the 1936 exposition.

SIX CLUBS AT COUNCIL

The County Home Demonstration Council met in regular monthly session Saturday with six home demonstration clubs represented. Plans for delegates attending the Short Course at A. & M. College were discussed. All clubs have elected their delegates and alternates and ways of financing trips are being perfected.

MATTRESS MADE IN HEAT

Even though the temperature registered 104 degrees in the shade a group of Looney club members helped make a cotton mattress for their bedroom improvement demonstrator, Mrs. Keith Miles. The mattress was made of 9 1/2 yards of 8 oz. R. C. A. feather ticking using about 45 lbs. of cotton. A roll was made around the edge but no tufts were used.

TEXAS RELIEF CLIENTS BE REGISTERED UNDER ORDER RECENTLY MADE

AUSTIN.—Relief roll clients in order to receive benefits of work under the Works Progress Administration must be certified as to eligibility for work and be registered with the U. S. Employment Service, according to instructions received by Texas Relief Commission officials from the Federal Emergency Relief Administration in Washington this week. The social service department of the Texas Relief Commission will handle certification of employables to the Works Progress Administration.

The instructions pointed out that priority of workers within families shall be suggested by the social service department, based upon such considerations as health, disabilities, preservation of skills, and morale.

It was further provided that enrollment of a member of a family in the Civilian Conservation Corps shall not preclude the employment of another member of the same family on work projects financed in whole or in part under the Emergency Relief Appropriation Act of 1935.

Certification of a client for eligibility to employment under the new program will not mean that the client will be dropped from the relief rolls, but as soon as the first paycheck for such employment is received, the case will be closed and relief stopped.

The same regulation will apply to non-resident relief cases, or transients, provided the transient has been registered with a transient center or camp for two weeks or more, and with the exception that no certification may be made for transients registering after July 15.

HD DELEGATES TO MEET

There will be an instructional meeting of the delegates and alternates to A. & M. Short Course in the county home demonstration agent's office Saturday, July 20. A special demonstration will be given.

Chevrolet Motor Company Set High Mark In Car and Accessory Sales For Month

The Chevrolet Motor Company set a new all-time record during May for total volume of parts and accessories sales. The previous record dated back to the boom year of 1929, when August sales reached a peak that stood as a record for nearly six years.

Announcement of the new record was made at White Sulphur Springs by M. D. Douglas, manager of the Chevrolet Parts and Accessories division. Before a gathering of the leading field men of the division, guests of the company during a three days' stay awarded them in recognition of their success in rolling up regional and zone records contributing to the high May total.

According to Mr. Douglas, the May peak of sales can be attributed largely to a general resumption of touring for pleasure, a natural sequence to the increase in spending power throughout the country.

"The curve of new car sales shows heavy gains over last year," he declared, "and new cars themselves create a demand for accessories—everything from insect screens to radios. However, our May record was far above what could be attributed to the sale of accessories for new cars, and it can be definitely con-

cluded that much of the buying was for old cars.

"That means that motorists are taking to the road in larger numbers than during the recent touring seasons, and are equipping their cars with accessories that will contribute to their convenience, comfort and safety. They are making their old cars look new with seat covers, modernizing them with radios, equipping them with spot lights, visors, dual windshield wipers, and other articles that add to the convenience and pleasure of both the driver and the passengers."

USES OF DRIED MILK DEMONSTRATED; TWO RECIPES ARE GIVEN

Uses of dried skim milk in cooking were shown in a three-day demonstration conducted at the county relief commodity room last week by a group of women who had previously been instructed in the use of the milk by Miss Emma Gunter, county home demonstration agent. Cans of the dried milk are being distributed to Mitchell county relief clients.

One-day demonstrations are to be held at Loraine and at Westbrook, according to an announcement from the county relief office.

Following are two recipes for the use of the milk given in the demonstrations. Other recipes will be published later.

Cabbage, carrots, onions, beans and potatoes may be creamed in the following manner:
2 1/2 c shredded cabbage, 1 cup water. Cook cabbage or either of the above vegetables 15 minutes or until all water is consumed. Then add the following sauce and let marinate thirty minutes before serving:
2 tbspn flour, 2 tbspn butter or fat, 1/4 tspn salt or to taste, 3 tbspn dried milk, 1 c water.

Melt butter or fat, add flour, mix until creamy. Mix dried milk with two tablespoonsful of water, mix until creamy, add remainder of water, stirring until thoroughly mixed, then add to butter and flour, mix thoroughly and cook over a slow fire until it clouds the spoon, then pour over vegetables.

COLD COCOA
1 cup cocoa, 2 cups sugar, 2 cups hot water. Mix cocoa and sugar, add enough hot water to melt, mix well, then add remainder of hot water. Let come to boil slowly, then boil one minute, remove from fire, let cool, pour in jar and place in cool place. To use, add 1 part of syrup to 5 or 6 parts of milk after having prepared the dried milk in the following manner: 10 tbspn milk, 6 c water. Mix milk to a creamy paste with 3 tbspn water then add remainder of water. To each cup of milk add one or two tablespoonsful of the cocoa syrup. Above serves six people.

Relief To Transient Clients No Longer Allowed In Texas

AUSTIN.—The Texas transient bureau no longer will extend aid to state transients, it has been announced by Mrs. Zuleika B. Hicks, assistant director of social service for the Texas Relief Commission.

The regulation, which became effective July 10, is in accordance with a resolution adopted by the State Board of Control, designed to stop transiency in Texas. Hereafter, Texas transients will be urged to return to their legal residences and settle down in order to become eligible for local work opportunities, either under increasingly improved commercial conditions, or under the Works Progress Administration program.

County administrators have been directed to urge all such transients to return home, and not to grant any relief to a transient except when absolutely essential.

"It is not the desire of the Board of Control to make it hard for state transients," Mrs. Hicks said, "but it is recognized that because opportunities for work are greater in a client's home community, there is no social advantage to be gained in moving aimlessly from county to county. It is for the transient's own benefit that he is urged to stay at home."

The regulation does not affect the procedure in handling federal transients. The federal program will continue to function as it has in the past.

Buford Bulletin

By Gerdaene Hunt
There were 116 present at Sunday school Sunday morning and 45 absent. Now lets make our Sunday school a 100 per cent next Sunday.

The Methodist meeting which was supposed to begin the 25th will begin Sunday on account of other meetings. Rev. Click of Westbrook will hold this meeting. We invite people from other communities to be with us in our meeting.

Mrs. Williams and Mrs. Woodard entertained the young folks of this community Sunday with a dinner spread on Mrs. Woodard's lawn. Those present were: Madrine and Christine Hammonds, Faye Bedford, Eva Dell Smith, Lucille Wells, Reba Franklin, Aldred and Lucille Bodine, Lurline and Gerdaene Hunt, Don Blessingame, Mardell Feaster, Aaron Deboise, Carroll Smith, Walter McGe, Raymond Witt from China Grove, Johnny Mack Payne, Mr. and Mrs. Williams, and two children, Mary Frances and Ruth Elnor, Mr. and Mrs. Erven Jones and little son Jenno, and Mr. and Mrs. C. F. Woodard. Everyone reported a very enjoyable day.

Mr. Clyde Feaster was operated on Saturday night for appendicitis. He is doing nicely at this writing.

Miss Carlene Felts is visiting friends in Payne community this week.

Mr. and Mrs. Morgan and family spent Sunday in the McWilliams home of Shepherd.

Miss Opal and Paul Rogers is spending a few days in Valley View community visiting relatives.

Mr. and Mrs. Melvin Reeves and little son of Colorado visited in the J. J. Hunt home Sunday afternoon.

The Methodist Women's Missionary Society will present a play Sunday night in place of B. Y. P. U.

Mrs. Vernon Koen and little daughter of Westbrook spent last week-end visiting her parents, Mr. and Mrs. H. F. Feaster.

Mrs. Jessie Dorf who has been ill during her visit here is returning to her home in McAllen, Texas, this week.

Doris and Romaine Hammonds had as their guests Sunday, Mildred and Aaron Feaster, Cleo Franklin, Jeanette Simpson and Jerline Brown.

Miss Elizabeth Crabtree was the Sunday guest of Maxine Hunt.

A very good rain fell in this community Monday afternoon which will improve all crops around here.

Clydie, Carl, and J. D. Britten, Verdie Mae, and Billy Owen Rogers spent Saturday night with Opal and Paul Rogers.

Miss Faye Bedford gave a party Friday night which a large crowd enjoyed very much.

Mrs. Essie Bleckard gave the Baptist Women a social Monday evening. They measured around their waist line and everyone gave a penny for each inch. This plan was a wise one and they all enjoyed it.

We did not have preaching Sunday or Sunday night on account of our Methodist pastor holding a meeting at Ira.

Employees Of California Company To Be Entertained At Butler Camp Saturday

Employees of the California Company from over West Texas are to be guests at a barbecue and social gathering at Butler Camp Saturday evening. Officials of the oil corporation are directing plans for the affair estimate that 200 people will be present.

A chicken barbecue with other good things to eat will be served on the evening menu. Swimming in Butler Lake and other diversions are on the program.

Pleasant Ridge News

By Denfer Hale
Bro. C. E. Leslie filled his regular appointment Sunday.

This part of the country was blessed with a fine rain Saturday morning. It was needed badly.

Mr. and Mrs. B. L. Kimble and two sons, Joe and Leroy, were visitors at church Sunday and dinner guests of Mrs. Kimble's mother, Mrs. Narrell. They live at Clyde, Texas.

Mrs. Beulah Wheeler and little daughter of Sweetwater were also with us.

We are not going to say Mr. and Mrs. Roy Linders are visitors because we feel that they belong here.

Mr. Jim Green is reported doing as well as could be expected. He was sitting up Sunday.

Mrs. Nellie Griffith and daughter of Coleman, Texas, and little Geraldine Ward of Sweetwater spent the week-end with Mr. and Mrs. Johnnie Haggerton.

Mr. and Mrs. Woodrow Church, Mrs. Billie Myrick and son, and Mr. and Mrs. Jess Griffith were dinner guests of Mr. and Mrs. Johnnie Haggerton Sunday.

Mr. and Mrs. Sam Haggerton and Mr. and Mrs. Dan Beeman and son Paul made a pleasure trip to Rotar Sunday. They reported a nice time.

Mrs. Bernice Haggerton, Mrs. Gladys Haggerton, and Mrs. Jessie Haggerton were visitors in the home of Mrs. Johnnie Haggerton Monday.

Mr. Jim Freeman was sick Sunday. He started to Sunday school and got so sick he went back home.

Claud Hale was surprised with a birthday dinner Sunday with 47 present, as follows: Mr. and Mrs. E. D. Saunders and family and Lester Hale of Valley View, Mrs. Marshall and son of South Champion, Mrs. Wesley McCollough of China Grove, Mrs. B. V. GASOLINE COMPANY GIVES MOTORISTS 15 WAYS FOR SAVING GASOLINE MONEY

Interesting Booklet May Be Obtained Free From The Gulf Refining Co.

When the man bites the dog, it is news. And when a gasoline company advises motorists how to save gasoline, that is news, too.

Hence it is news to announce that the Gulf Refining Company has just issued a booklet entitled, "15 Ways To Save Gasoline Money." Although the information contained in the eight-page booklet is simple, it consists of driving hints which should benefit millions of motorists.

Do you know what parking secret saves gasoline? The booklet tells you. Have you discovered what driving speeds assure the greatest economy in gasoline consumption? The booklet tells you. And what fact concerning the inflation of your tires boosts your gasoline mileage? The booklet tells you this, too.

According to Dr. Paul D. Foote, vice-president of the Gulf Research & Development Corporation, considerable care was given to the preparation of the literature. The data was prepared, changed, and checked over and over again by the leading petroleum and automotive engineers.

Caution was exercised in listing the various methods to save the motorists' money, and at least 15 additional ways to cut gasoline costs were eliminated because they were open to debate.

For convenience's sake, the Gulf booklet is divided into three sections. The first chapter is devoted to economy short-cuts which can be controlled by the motorist. The second part is given over to economies which can be secured at no cost at reputable service stations or dealers, such as Gulf's stations. And the third section consists of savings which can be obtained through enlisting the help of competent garage mechanics.

To announce this new booklet, "15 Ways To Save Gasoline Money," to the motoring public, the Gulf Refining Company has undertaken an advertising campaign which is outstanding in many ways, including the number of newspapers to be used. More than 1200 newspapers from Maine to Texas, the largest journalistic army in the modern history of petroleum advertising, will be employed. The offer of the free booklet to any motorist who will drive into Gulf's 40,000 dealers is allied with an interesting "sporting offer" to car owners.

Plenty Of 'Street-Sprinkling' Water Was Boast Of Colorado 25 Years Ago

Plenty of water here for "street sprinkling, drinking and factory use" was the boast of an article in the Colorado Record for July 22, 1910, twenty-five years ago.

"We," said the article, "have the best waterworks along the Texas & Pacific railroad, and an abundance of water."

Miss Minnie Bellah had been to Snyder on business. The program for Miss Exa McLure's recital at the opera house was published. All candidates had their last fling at a rally at the tabernacle on Tuesday night. Sterling Dozier had visited his parents at Dunn.

The young son of Judge P. F. Brewer had been hurt when his pony slipped on the concrete walk south of the postoffice. Homer Robinson, who worked for the railroad at Eskota, had been supplying in the office here after W. H. Smith was moved to Van Horn.

Mrs. T. J. Ratliff and sons had gone to Roswell, New Mexico, to visit the M. C. Ratliff family. W. W. Watson's mother and Mrs. John Holt and children had gone to visit relatives in Nashville, Arkansas. Miss

Willie Cowan, daughter of Solon Cowan, was home from teaching music at Lubbock. Miss Julia McLure was to teach in the Colorado schools.

Traveling about as general selling agent for the Burnham townsite proposition, George B. Root had returned from a trip to Galveston and other points. Mrs. W. A. Crowder and Miss Ethel Majors had gone on a trip to Long Beach, California.

Frankness predominated in birth announcements in those days, it seems. Another daughter had been born to Mr. and Mrs. O. C. Davis and the proud father was quoted as saying he "would not take a million for any one of them, nor give five cents for another."

Mrs. Samuel Gustine had been over in Loraine soliciting ads for the Baptist women's cook book. C. A. Arbutnot and Charley Mann had also been to Loraine. A party of Loraine girls composed of Miss Opal Templeton, Miss Cora Thompson, and others had gone to Mineral Wells to see the "buffalo tracks" and had taken along Robert Henthorne and Wiley Thompson to open the gates.

SEVERAL CHANGES MADE IN STATE RELIEF STAFF

AUSTIN.—Appointment of L. E. Meekins, employee in the purchasing department of the Texas Relief Commission, as acting purchasing agent was announced this week by Adam R. Johnson, state relief director. Meekins succeeds Col. N. H. Banister, who has resigned to become U. S. Treasury Department procurement officer for Texas. Banister's new duties entail purchase of supplies for the Works Progress Administration, the Resettlement Administration, and all other federal recovery programs in Texas.

Announcement also was made of the appointment of J. T. Duke as assistant director of the Relief Commission to succeed E. A. Baugh, who resigned to become director of projects and planning in the Works Progress Administration in San Antonio. Duke has been serving as director of finance, and will continue to hold that position.

Mrs. Val M. Keating, director of the social service department of the Commission, has been appointed director of social welfare in the Works Progress Administration. She will remain in her present position with the Commission to certify employable relief clients to eligibility for work under the new program.

Roy Randolph, former examining engineer for the Commission, was appointed acting director of the state transient bureau to succeed J. C. Bisset. Bisset resigned as acting transient director and assistant chief engineer to become assistant director of projects and planning in the Works Progress Administration. A new assistant chief engineer has not been named.

MISS ROSALIE LESLIE IS ELECTED TO HIGH OFFICE

Miss Rosalie Leslie, daughter of Judge W. P. Leslie of Eastland and formerly of Colorado, was elected national secretary of Mortar Board at the national convention held recently at Lake Lure, North Carolina.

Miss Leslie graduated from Texas University in 1931, earning the enviable distinction of making Phi Beta Kappa, the Beauty Page, and presidency of Mortar Board during her senior year. The next year she attended Columbia University, New York City, and received the master of arts degree from Teachers College.

Returning to Texas University she served on the staff of the Scottish Rite dormitory, where she lived during her undergraduate years.

Mortar Board, so called from the caps worn by seniors and resembling boards masons use, is a national organization in the larger schools of the country for outstanding women in various collegiate activities. The position to which Miss Leslie has been elected will probably require that she visit the various chapters over the country.

Tri-State Fair At Amarillo To Open On September 13

Amarillo.—Catalogs for the Tri-State Fair here September 13-21, listing more than \$15,000 in cash premiums, are available now.

Copies will be furnished upon request of O. L. "Ted" Taylor, Secretary-Manager. The catalogs set forth all the entry rules.

This year the Tri-State Fair will be the largest exposition in Texas and complete in every department.

Racing, with more and better entries than ever, again will be a feature attraction, but there will be plenty of other amusement, including Beckmann and Gerety, largest midway shows in the United States. These "world's best shows" will come direct from Detroit, Michigan.

Concessionaires already are applying for space at the 1935 fair, which in recent years has developed into an elaborate show window of the Southwest, daily attracting thousands upon thousands of men, women and children through its free gates from several states.

Applications for concession space should be sent to Secretary-Manager Taylor.

Wilbur C. Hawk, president of the fair association, said today community and county fairs throughout the tri-state territory probably would be held during the week just preceding the exposition here.

"These will provide elimination, contests so only the best of exhibits will be concentrated for the Tri-State Fair," he said.

WON'T CAKE OR HARDEN ON RAINY DAYS! SPOUT WON'T TEAR OUT

The telephone goal of Europe is JUST A GOOD JOB here

The fast, clear, far-reaching telephone service of America has never been equaled by European nations. Differences in equipment, methods and policies have barred the way to such service among the many countries there.

In America, your telephone service has over-leaped state and regional lines. Here there are no telephone boundaries.

Your telephone is "first cousin" to each of 13 million other Bell telephones here. It is designed and manufactured to meet uniform operating standards.

Team work Every Bell telephone line, local and long distance, is built to conform to uniform tests of clarity and volume in carrying your voice.

Every Bell telephone operator, whether in New York, in San Francisco, or in the thousands of towns and cities between, is trained to use the same methods... the same

team-work in operating the vast national communications network.

Organization That these things are true is due largely to the Bell System form of organization.

American Telephone and Telegraph Company, the parent company, studies and standardizes better and more economical methods, apparatus and materials for the 24 operating companies of the System. Bell Laboratories carries on the research work. Western Electric manufactures, purchases and distributes.

Without this organization behind them, the Southwestern Bell men and women here who give your telephone service could not do their job so well. For many years it has materially helped us, as one of the group of operating companies, in holding the cost of good telephone service low to the user.
