At the meeting Tuesday afternoon the board voted approval of application for sewing room and canning projects, and road improvement in the Payne and Longfellow communities, construction of two low water bridges on Champion creek and the completion of paving of main street in Lorraine.

Forms to be used in filing the project applications are to be filled in at the local relief office under direction of Mrs. Bernie Grable, according to Greene. THOSE WHO LABORED FOR REALIZATION OF FEDERAL BUILDING RECEIVE PRAISE

Dedication Of Postoffice Is Attended By Hundreds Of Colorado Citizens

Those who labored unselfishly in determined effort to realize a new Federal building for Colorado were given strong praise during addresses delivered Friday evening by speakers heard on program dedicating the structure. The rites were attended by several hundred people.

Due to illness Jim Greene, chamber of commerce secretary, was unable to attend and preside as master of ceremonies. County Judge B. L. Templeton filled this place on the evening's program, presenting first the municipal band for a select concert.

Postmaster Joe Y. Fraser was the first speaker to be introduced by Templeton. Mr. Fraser explained that it would probably be several days before the building was occupied, due to late arrival of furniture and other equipment, supposed to be in transit from the factory.

Judge Chas. C. Thompson, president of the chamber of commerce and personal representative of Postmaster James Farley, delivered the principal dedicatory address. Thompson offered strong tribute to Congressmen R. E. Thomason of El Paso and George Mahon of Colorado for their efforts in behalf of the project.

Judge Templeton, in offering tribute to Coloradans who in other years had done much in fostering campaign to get the building, called the names of the late Dr. P. C. Coleman, president of the chamber of commerce many years, and Col. C. M. Adams and the late Judge C. H. Earnest. Col. Minister Jim Harvey of the Church of Christ Thursday morning verified rumors that he had accepted call to the church at New London and would assume his duties there September 1. Officials of the local congregation stated at the same time that no successor to Minister Harvey had been selected.

Jim Harvey came to Colorado in 1924 as minister of a small church. At that time there were only 90 people worshipping at the Church of Christ. It was not long until the roster started to grow and today there are 289 active members. During the time he has led the congregation in construction of two new houses of worship, the first on East Second and the one now occupied, the attractive brick building at corner East Fifth and Elm streets.

During his residence in Colorado Harvey has been outstanding as a leader in civic and service affairs. At the present he is chairman of the Lions Club blind committee; chairman of the Mitchell county relief board; chairman of the Mitchell county crippled children's society and secretary of ex-service department of the American Red Cross.

Old Times Recalled As Herd Is Driven Across The Plains

Local cattlemen are this week recalling scenes of other days when herds of cattle would be driven up the trail to market and pasture in distant lands. It is all due to announcement that Grundy Morrison of near Borger recently drove a herd of over 2,000 range cattle to Raton, New Mexico, a distance of 225 miles.

Driving cattle several hundred miles was just a matter of routine on the range a few decades ago, local ranchers who have been in the business for many years recall. Grass was plentiful along the trail for both herd and horses and the pioneer trail boss knew where water holes were to be found.

Back to the Morrison story: Only three head were missing at end of the long drive. Straight grazing was maintained all the way and the cattle arrived at destination in excellent condition. A chuck wagon of the old Western type accompanied the party.

WITHDRAW FROM ASS'N OR GET FROM UNDER FEDERAL COURT EDICT, ELY'S PLEA

Snyder Man Contends Ginners Of This Area Adverse To Tax Ruling

The 160 ginners within this district are not in sympathy with action of the Texas Cotton Ginners association in its suit to restrain enforcement of the Bankhead law and should take whatever action necessary even to the extent of withdrawing from the association to get out from under the edict, W. J. Ely of Snyder, member of the executive board of the State organization, declares in statement given the press Tuesday.

Federal Judge Randolph Bryant of the North Texas district recently issued temporary injunction restraining the government from compelling the ginners to collect the Bankhead tax. In retaliation the agriculture administration held up Texas' supply of bale tags, without which cotton cannot be legally moved.

Recalling his expressed opposition to the State association taking any action in legal fight to restrain the government in forcing ginners to collect the tax and that he had been unable to find one gin operator in his district who favored such a move, Mr. Ely goes on to say:

"I am recommending that the ginners of my district do whatever is necessary to get out from under this ruling, even if we have to retire from the State association. I will be glad to get the directors together again and see if they are not willing to withdraw from the suit and anything else that is necessary to do to keep from tying up any part of this crop."

E. Barber of Spade, director of the West Texas Cotton Growers association, stated Wednesday morning. "It is apparent to me that the Texas Cotton Ginners association have cut their own throats in this fight. I have no comment to offer on the controversy aside from the deduction they sought to tie up ginning and it looks as if they have succeeded, to some degree, at least."

J. M. New, resident manager for the WTCGA, concurred with Barber. W. Dorn, manager of the Farmers Gin Company, owning and operating three gin plants in the county, was quoted as having advanced similar references in discussing the Federal court injunction.

Those on duty at the time were Miss Zella Adamson, chief operator, and Mrs. Vada Kinard and Mrs. Elizabeth Moore, operators. Other members of the force, including Dean Headstream and Mrs. Earl Burgoon, came down after the fire was underway.

The first report of the fire located in the J. C. Penney store, and for a time the operators thought themselves in the same building with the blaze. They didn't learn differently until after the fireboys arrived.

"I don't know that any of us were ever very frightened," said Miss Adamson when questioned about her reactions Monday. "As soon as we

EIGHT BOYS MAKE PLANS TO ATTEND A & M UNDER NEW GROUPING PROJECT

Eight Mitchell county boys signed up to attend A. & M. college next year under its new grouping plan after hearing the plan explained during a meeting at Colorado High school Monday night.

The plan was explained by Doyle Williams, head of the high school vocational agriculture department. Under its provisions a group of ten boys may sign up for one of the project houses at the college and share living expenses, cutting the cost of attending school to a minimum.

The college makes the suggestion that boys bring canned foodstuff from their homes and cut expenses still further. Boys in project houses are to be furnished with enough employment to cover most of their expenses.

Two more boys are needed to complete this county's group, Williams stated early in the week. Anyone interested should get in touch with him. The eight already signed up are J. L. Galey, Homer Bodine, Len Bodine, Allen Bloodworth, J. M. Kirby, Bruce Redmond, Murphy Byrd, and Cleveland Whitten.

Fight COLDS with proper house heating

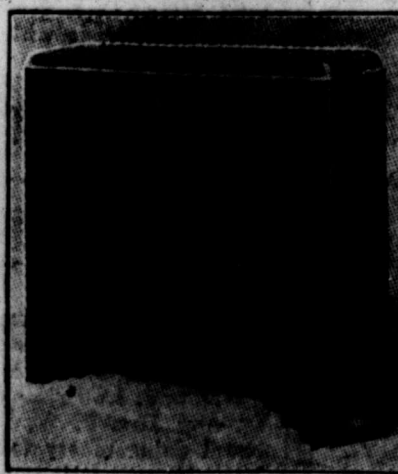

gas CIRCULATED HEAT IS HEALTHFUL HEAT

No mother wants to see her children sniff, sneeze and suffer with a dangerous cold. Yet, few consider the importance of proper house heating as a preventive.

Doctors tell us there is less chance of contracting colds in a home where a uniform temperature between 65 and 72 degrees is maintained in all rooms; that for healthful winter living avoid overheated, stuffy rooms with a chilling draft at floor level.

Gas floor furnaces and circulating heaters are the advanced types of heating equipment that maintain this comfort zone at low cost. They provide healthful heat because they circulate warm air to knock cold spots and chilling drafts. With a floor furnace no oxygen is taken from the air; it circulates. Both are vented to eliminate wall sweating. Investigate this healthful gas heat and use it for fighting colds this winter!

THIS HOBO USES CLOAK OF PIETY IN PILFERING WATCH FROM MINISTER

The Rev. Bruce Meador, pastor of the Loraine Methodist church, will think twice hereafter before accepting that all strangers coming his way under the pretense of Christians are sincere.

One night last week, during progress of revival meeting at the Loraine church, an aged man walked into the place where services were being held. He told the minister he was deeply religious and hoped to receive a blessing through attending the service. The stranger was aged, ragged and admitted that he was a tramp.

During the services the pastor's watch was placed on the pulpit stand. After services were over Rev. Meador went home, forgetting about the time piece. Hurrying back to the tabernacle he found that both his watch and the tramp were missing.

Officers were notified and the tramp, wearing the preacher's watch, was apprehended near Westbrook the following day.

What is the yardstick for a cigarette...

Take mildness for one thing—how does it measure up for mildness?

Chesterfields are milder—not flat or insipid, of course, but with a pleasing flavor.

Then take taste for another thing—does it have plenty of taste?

Chesterfields taste better—not strong but just right.

In other words, They Satisfy—
that's my yardstick for a cigarette.

RELIEF CLIENTS WILL BE TRANSFERRED TO W.P.A.

What will happen to Federal Emergency Relief Administration projects as the FERA employables are transferred to the Works Progress Administration rolls has been explained by J. B. Keely, chief engineer for the Texas Relief Commission.

The projects are to be re-estimated and, if acceptable, transmitted to the WPA, which is expected to complete them, Keely said. In some cases, the workers on a FERA project will be transferred with the project, and activity will not be halted.

Also, Keely pointed out, proposed projects which local communities have sponsored but which have not yet been accepted by the FERA, should be submitted to the WPA through the proper district office. Only enough work on these projects will be handled by the FERA to take care of employable relief clients until they are transferred to the WPA.

\$15,000 LOSS SUSTAINED IN JOHN DOSS BUILDING BLAZE

ROARING INFERNO BATTLED TWO HOURS BY FIRE DEPT. BEFORE FLAMES CHECKED

It Was First Fire For This Pioneer Druggist, After 53 Years In Business

A roaring inferno that for two hours threatened to spread to adjoining buildings brought to Colorado Sunday night the city's most destructive fire in several months and wrecked the John L. Doss Drug building on East Second street. Estimates on damage to the building and stocks Wednesday morning were given at \$10,000. Office equipment of Dr. T. J. Ratliff on second floor of the building, valued at \$5,000, was burned.

Origin of the flames is unknown. Fire Chief E. M. Majors stated following an investigation. The blaze started about midway of the second floor, immediately adjoining the Ratliff offices.

Doss, in the drug business at Colorado fifty three years, recalled Wednesday morning that this was his first fire. He could make no definite estimate on the loss sustained, pending completion of stock inventory, begun that morning under direction of an insurance adjuster.

"I cannot state just now what my plans for the future may be," Mr. Doss told The Record. "I had planned opening a drug business in my building on Walnut street and may go ahead with those plans. However, I may rush repairs to the building here and open again, as soon as it is possible to do so."

Doss carried insurance on his

A revival meeting was in progress as work on the church went ahead, the pastor doing much of the work and filling the place as "boss." Along with making the church more inviting, much was added to spiritual state of the congregation.

The Abilene man was doing preaching in a revival meeting at the Lorraine church.

MODERN BUNK HOUSE AT SPADE RANCH IS OPENED WITH DANCE, RECEPTION

The modern bunk house recently completed at the Spade ranch headquarters was formally opened Friday evening with a dance and reception to which a number of Coloradans were invited.

Another feature on the evening's program very much enjoyed by the guests was a chuck wagon feed, including choice barbeque, red beans, "son-of-a-gun" and other edibles prepared by ranch cooks and served cafeteria style by the host cow hands.

Cowboys sponsoring the occasion included Pete Ainsworth, Bob McClelland, Nelson McClelland, Bruce McFerrin, John McFerrin, Charlie Arnold, Carl Boatright and Shorty Northcutt. All of the men, excepting Ainsworth and Boatright are domiciled in the new bunk house.

The building, modern in every respect, gives to cow hands on the large cattle domain one of the most pretentious living quarters in this part of the West. Mr. and Mrs. O. F. Jones, the former manager of the ranch, assisted cowboys in welcoming guests to the affair.

Interesting accounts of her experiences in various parts of the world were given by Mrs. W. C. Cole, wife of the evangelist in charge of the First Christian revival at the meeting of the missionary societies of the church Monday afternoon.

Members of the Young Matrons' missionary society and of the older women's society met together at the church. Mrs. Cole's talk took the place of the regular missionary lesson.

Methodist Circles
A joint meeting with their adopted missionary society at Buford was substituted by women of the Methodist W. M. S. for their regular meeting Monday afternoon.

The visiting women were welcomed at the Buford church by Mrs. Jim Fodine. Mrs. J. G. Merritt had charge of the program, which opened with a song led by Mrs. N. H. White, Jr.; a prayer by Mrs. Cal Wright; and a scripture reading by Mrs. J. E. McCleary.

Shepperd; "Work of the Study Superintendent," Mrs. J. T. Pritchett; "Christian Social Relations Work," Mrs. A. D. Kiker; "What the Missionary Society Means to the Pastor and His Family and to Local Work," Mrs. Cal Wright.

Reception And Shower For Miss Womack On Friday; Mrs. Tate Is Also Honored

Honoring Miss Fanny Fay Womack, who on Sunday morning became the bride of Mr. Oren Feaster, wife of the Presbyterian auxiliary and Miss Womack's Sunday school class entertained with a shower and reception in the church parlor Friday afternoon at 4:30. Mrs. George Tate of Big Spring, bride of a few months ago, shared honors with Miss Womack.

Lilies, cut flowers, and fern were used in decorating the spacious room. Centerpoint of the decorations was the table from which punch was served to the guests as they arrived and registered. The table, laid with lace, stood against a trellis covered with ivy and seasonal flowers. Ivy and flowers also surrounded the base of the crystal bowl.
Presiding at the punch bowl were

Mrs. S. H. Millwee and members of Miss Womack's class. Cake was served with the punch. The bride's book was presided over by Mrs. Tom Morrison, Jr., and Mrs. Luke Thomas. Piano music was furnished throughout the afternoon by Mrs. Tommy Dawes, Mrs. J. Fred Mercer, Miss Mary Jane Aycock, Miss Iris Tunell, and Miss Myra Brown.

The honoree arrived at five, after all the guests were assembled. As she arrived Mrs. Mercer accompanied at the piano by Mrs. Dawes, sang "Tell Me That You Love Me." When Miss Womack had been served a table laden with gifts and centered with a miniature bride and groom group was brought in and she was led to it by Mrs. Morrison and Mrs. Thomas. Three other tables of gifts were later brought in.

CONSERVATORY HEAD PRAISES MISS JONES

High praise for the musical ability of Frances Jones, daughter of Mr. and Mrs. O. F. Jones of Colorado, was contained in a letter received last week from Miss Jeannette Tillet, head of the Fort Worth Conservatory of Music, where Frances studied for six weeks this summer.

The letter was sent to Mrs. Cecile Maskimen, Frances' Colorado music teacher. It read, in part: "I have said, both publicly and privately, times without number, that she is one of the best trained pupils that ever came to me."

In passing tests at the close of her six weeks study, Frances played three piano solos before members of the conservatory faculty, all of whom rated her from 93 to 98. Besides her work in piano, she studied voice under Mr. Fozay Cote, head of the voice department of the conservatory.

Lady's Painful Trouble Helped By Cardui

Why do so many women take Cardui for the relief of menstrual pain? The answer is that they want results such as Mrs. Herbert W. Hunt of Harker, Texas, writes: "My health wasn't good. I suffered from constipation. My face looked so red and it would burn. I would feel dizzy around the head. I took Cardui. I began to feel better. My health is now good. I feel like a new woman. I can do my housework and I am happy. I can't say enough for Cardui. I will buy it again."

OLD-FASHIONED SIMPLICITY

Telephone service in this country is modern. It leads the world. Yet there is an old-fashioned simplicity about the Bell System. This applies to capital structure and financial methods as well as to the nationwide plan of decentralized operation under centralized control.

The American Telephone and Telegraph Company has only one class of stock and that stock is not watered.

It has 675,000 stockholders living in every corner of the land. Their average holding is twenty-eight shares. No individual organization owns as much as one per cent of the stock. There are no secret reserves or hidden assets.

SOUTHWESTERN BELL TELEPHONE CO.

This structure is not of recent origin, but dates back many years to the early days of the telephone. It has lived on because it is right and in the best interest of the public. It has been fundamental in making the Bell System a distinctive American business.

In the Bell System, the American Telephone & Telegraph Company is the parent company, and operates the long distance lines connecting the 24 regional Bell companies. Bell Laboratories carries on the research work; Western Electric manufactures, purchases, and distributes.

Without this specialized organization back of the men and women of the Southwestern Bell, telephone service might be possible. But it could not be service as uniformly good, as quietly accurate, as far reaching, and as inexpensive as the service you know today.

Great Revival Was Closed Sunday By Colorado Minister

Rev. Dick O'Brien reports that revival meeting closing at Union church, five miles west of Snyder, Sunday night, was one of the most successful evangelistic campaigns conducted by him in months. Overflow crowds attended the morning and evening services and on Saturday afternoon 178 persons were present for five groups of prayer services.

There were a total of 20 conversions reported during the meeting, fifteen of whom came into the Baptist church as candidates for baptism.

Rev. Mr. O'Brien left the services to others during Sunday, he being in another revival opening at Looney that morning.

Columnist by UNCLE FRED

NOTE DRY This column has not been asked to make a prohibition speech. Had we been asked this is about what we would have said:

"The whole world has gone off on a drunk."

"Russia is drunk on vodka, Japan is drunk on sake, Italy is drunk on wine, France is drunk on champagne, England is drunk on 'arf an' arf', Ireland is drunk on whisky and the United States is drunk on them all."

"So charged Clinton N. Howard of Washington, D. C., chairman of the National United Committee for Law Enforcement, at the First Baptist Church in the first of fifty dry addresses he will make in Texas."

Speaking on the subject, "The Rise, Fall and Recovery of Prohibition," Mr. Howard said:

"Rum is back in the national capital; rum is back in the army, in the navy, in the soldiers' homes and about the only Federal territory that is not saturated with suds and whisky is Arlington Cemetery, the city of the dead."

"All the wets asked for was 2.75 per cent beer. They lied. All they wanted was its sale in sealed bottles. They lied. They are selling it in tin cans at retail and delivering it in the barrel wholesale now. All they asked for was the right to drink with meals at hotels and in bonifide restaurants. They lied. They are selling it in grocery stores, in department stores, in drugstores in confectionary stores, at news stands and gas stations from coast to coast."

"And never would they ask for or consent to the return of the open saloon. They lied like the devil!"

"What the froth of the top and the dregs at the bottom wanted was liquor, hard liquor, gin, rum and whisky. What they intended was to bring back the saloon, with all its brood of social evils, as they have today in every State that voted for repeal, and as you will have it in Texas if you vote the same way."

Texas may go wet in August election, that is the wet legally, but it will be done over the protest of this columnist in the Alamo News:

"This vote that repealed prohibition was less than that which defeated Herbert Hoover in 1932. The vote in the Senate and Congress, that passed the Prohibition law, was 23 to 2. Two states, did not vote, but the total vote in the 46 state senates was 1,369 for prohibition and 240 against. The total vote of the 46 houses was 3,775 for prohibition and 1,225 against. Thus the vote that repealed prohibition was less than 42 per cent of the vote cast at the presidential election."

"Wet prophets—and even the American Federation of Labor—shouted that repeal would put a million men to work; take the tax bur-

caused children to suffer from want of food, clothing and shelter, and deprived of the privileges of an education. This will happen again if the sale of whisky is legalized.

The question occurs to me, and I believe it is legitimate to propose it to each voter who will vote Aug. 24. Am I going to vote for the protection of property, to prevent people from being killed or maimed for the remainder of their lives; or will I vote for the destruction of property, and killing and maiming people? If repeal carries Aug. 24 it means millions of dollars worth of property will be destroyed on the highways of Texas and thousands of our citizens will be either killed or crippled by drunken drivers. Therefore I ask each voter the question above mentioned.

My good friend says he only refers to the economic angle of the liquor question; for that reason I have only touched upon that phase in my discussion, but in conclusion I would like to mention a moral or religious thought. The Holy Bible says: "No drunkard shall enter the kingdom of heaven." I believe this forbids me from voting to establish a business which will create drunkards, for in so doing I am causing many of my fellow men to fall as a prey to the liquor traffic, and suffer in an eternal hell.

Strong Drink. The Great Destroyer. Alcohol: Human Enemy No. 1. Beer, Wine and Whiskey. Intoxicating Liquor.

Will you vote for the above August 24th?

The word "alcohol" comes from two Arabic words "El Gohul." These words mean "the great Evil Spirit." This evil spirit is in beer, wine and all other strong drinks; it is a narcotic, a dope a poison.

SCRIPTURE

Do not drink wine nor strong drink, thou nor thy sons.—Lev. 10:9.

Wine is a mocker, strong drink is raging; and whosoever is deceived thereby is not wise.—Prov. 20:1.

Who hath we? Who hath sorrow? Who hath contentions? Who hath babblings? Who hath wounds without cause? Who hath redness of eyes? They that tarry at the wine. Look not thou upon the wine.—Prov. 23:29-31.

And (they) have given a boy for an harlot, and sold a girl for wine, that they might drink.—Joel 3:3.

No drunkards shall inherit the kingdom of God.—1 Cor. 6:10.

Lions Club Offers Tribute To Leader In Affairs Of City

Strong tribute was paid C. L. Gray Friday by Rev. Cal C. Wright, after the speaker recalled that Mr. Gray and his family were to leave Colorado within the next few days to establish their residence in Rotan.

"I speak for the president and every member of this club when I state that one of the greatest Lions Colorado has ever known is to soon leave. Not only is he an outstanding Lion, but he is a leader in his church, a good neighbor and friend; withal, a Christian gentleman," Rev. Mr. Wright said.

In speaking to the remarks concerning him, Gray said that he and wife would leave Colorado with deep regret.

"We have found here some of the best people on earth and shall ever remember you with deep affection," he concluded.

COMPLIMENTARY

The Dallas News, the South's greatest newspaper today, is planning for a golden jubilee edition to be published about the 1st of October. The News actually dates back to 1842, when the late A. H. Belo and associates founded the Galveston News. That was while Texas was an independent Republic.

After the Civil War, in fact on Oct. 1, 1885, these people visualized a great State, a real empire of the Southwest. At that time The Dallas News was launched as a branch of the Galveston business. The idea was to cover North Texas. The Dallas News is still owned by the same people, though Col. A. H. Belo has been dead for several years.

For many years now The Dallas Morning News has been the outstanding newspaper in the South and has a newsgathering organization unsurpassed by that of any of the great city newspapers in the United States.

In its files today there is printed the complete, unbiased, unprejudiced fair and impartial history of the growth and development of Texas and all of its State institutions. It is distinctly a builder and a newspaper of the highest standard of ethics and administration.
