**Bulk Of Fund Will Be Spent On Highway Leading North To County Line; Precinct Projects Given Approval**

"We are beginning to dent the surface on this project and starting next week I hope to be far enough advanced to realize laying of one thousand feet of first course base per day."

That is to quote R. E. Barfoot, construction superintendent on Highway No. 101, when asked late Wednesday for a statement for publication. Work on the project was started ten days before with only a few men employed. The labor crews have been gradually increased until Wednesday a total of 126 were listed on the project pay roll. Barfoot stated that he would be in need of forty additional workers the following day.

Work was started a short distance south of Buford and is being extended north. Fifteen hundred feet of sub-grade was down Wednesday night and over a thousand feet of the distance the first course of caliche base had been placed. The work is to continue north to the county line before taking up improvement on that sector of the highway between Buford and the Colorado city limits.

It is plan of the State highway commission, sponsor, and the Works Progress Administration, to place the initial course of caliche over the entire distance of eight and six-tenths miles before placing the top course, Barfoot stated. Each of the courses are to be six inches deep.

Engineer's estimate on the project calls for an expenditure of \$110,470, \$77,200 of which has been authorized by the WPA. The balance of \$33,270 is to be supplied by the highway commission.

The superintendent estimated that it would require a year's time in which to complete the project. "We are in need of additional laborers out there now but it shall not be our policy to take them out of the cotton fields so long as farmers require their services in the harvest," he stated.

Two other road construction projects in the county, aggregating an estimated outlay of \$24,000, were given final approval several weeks ago. One of them is in the West-

## CHALLENGE TO CHRISTIANS IN ADVANCING THE CHURCH CATALOGUED BY SPEAKERS

**Baptists Of Two Counties In Inspirational Session Here Tuesday; Snyder Elected Host of January Gathering**

That there is a definite place to be filled by every person calling himself a Christian if the church is to attain success in its mission was sounded in inspirational addresses delivered Tuesday before sessions of the Mitchell-Scurry Baptist associational workers conference at First Baptist church. Need for subscribing to 'enacts of "old time" religion was suggested directly and indirectly as one speaker after another brought ringing sermon addresses to the delegates.

Several leading ministers of the association were listed to preach and announce their own subjects, a diversion from the usual policy of the past. The innovation proved to be as inspiring as it was interesting.

"Spiritual Prosperity" was subject about which the Rev. H. B. Naylor of Loraine centered his address as he led the assembly in opening devotional service. Others to follow him pictured results that would come to the church under such a condition, thus making that the general theme for the day.

Speaking from the subject, "The Universal Desire For Christ," Rev. A. C. Hardin, pastor of the Loraine Baptist church, brought a deeply inspirational message. He read last quota in the Bible, "Even so, Gome, Lord Jesus," as his text. He was followed by Rev. Lawrence Hays of Snyder who discussed "The Work Of The Holy Spirit." The address was a doctrinal sermon and well received.

Closing sermon of the morning session was delivered by Rev. James Easterwood of Roscoe. Announcing his text "Walking With God," the minister outlined points of sincere consecration to God, giving his auditors the appeal that nothing be permitted to stand between them and personal contact with their Maker.

With Governor James V. Allred slated to be guest of honor and principal speaker, the largest get-together sponsored by the Colorado Chamber of Commerce in recent years is scheduled to take place on Friday evening, December 27, at 7:30. The place is yet to be designated.

Governor Allred's acceptance of the organization's invitation to attend the banquet and deliver one of the principal addresses was received by chamber of commerce officials early this week. C. C. Thompson, CC president, paid the governor a personal visit several weeks ago in Austin to deliver the invitation. An exchange of several telegrams ensued, resulting in the governor's acceptance.

Sharing honors with Governor Allred on the speaking portion of the program will be Colorado's own Congressman George Mahon, who will be freshly home from his Philippine trip and preparing to return to his work in Washington.

Aside from the addresses by Governor Allred and Congressman Mahon, no other details of the get-together program have yet been definitely worked out. These will be announced next week.

Officials of the chamber of commerce, including President Thompson and J. H. Greene, secretary, term the get-together a "fellowship" gathering and describe it as being for all Mitchell county citizens.

In view of the fact that an unusually large number of prominent out-of-town visitors are expected to swell attendance at the affair, Coloradans and Mitchell countians are being urged to make arrangements for their banquet reservations early. Reservations, which are 75 cents each, may be made any time through the chamber of commerce office.

In the collection were 19 paintings in oil, eight in water color and three pencil sketches. Mrs. Tom Pritchett, an official of the host club, stated Monday that the pictures were most beautiful and elicited comment of strong favor as the guests were received and invited to view the display.

## MARTHA ELIZABETH KING, ONE OF OLDEST RESIDENTS IN STATE, PASSES SUNDAY

Southern Pioneer Had Been Leader in Church Through Many Years; Was Nearing Century Mark in Age

Mrs. Martha Elizabeth King, who had lived to within a few months of attaining her one hundredth mile post, passed quietly Sunday morning at 11 o'clock at the residence of Mr. and Mrs. J. S. Franklin of Buford.

A native of Macon county, Alabama, Mrs. King grew to womanhood in that State and in 1857 was married to J. S. McCoullough there. A short time later the family moved to Louisiana and resided there during time of the Civil War. They came to Texas in 1865 and established a home in Wood county.

After living in Wood county one year Mr. and Mrs. McCoullough and their only son, C. E. McCoullough, now of Colorado, moved to McLeland county. Two years later, in 1869, they removed to Bosque county. It was there, in the year 1888, that Mr. McCoullough died. Two years later Mrs. McCoullough was married to Shelby King of Bosque county and shortly afterward they located in Hamilton county.

In 1900 Mrs. King moved to Mitchell county where she had maintained her home since. Since 1902 she had lived with Mr. and Mrs. Franklin. Mr. King died in Hamilton county in 1924.

Since a child of 15 years of age Mrs. King had been an active member of the Baptist church. She often recalled that it was in her home many years ago that some of the great Baptist leaders came to visit. She was a personal friend of Dr. Buckner, founder of the orphanage bearing his name and often counseled with him as to plans for providing Christian homes and education for the orphans of Texas.

After taking up her residence here, Mrs. King had been a leader in affairs of First Baptist church. Until two years ago when she last attended religious services, she occupied a certain pew in front of the church auditorium. There was nothing in her life that was to be accepted as of more importance in her daily routine than sincere devotion to her Maker, close friends of Mrs. King have recalled since her passing.

Funeral services were conducted from the Baptist church Monday afternoon at 2:30 o'clock with the pastor, Rev. Dick O'Brien, and Rev. A. D. Leach officiating. Burial was in the Colorado cemetery with plans under direction of Jones, Russell & Company.

In addition to her son she is survived by seven grandchildren and thirty seven great grandchildren.

## Four Year Cotton Contract Offered To Producers Will Detail Several Changes

COLLEGE STATION—Cotton of 9,000,000 bales—3,000,000 larger than the average annual carry-over in the 10-year period ending in 1932-33, but 4,000,000 bales less than the record 13,000,000 bale carry-over in 1932.

"We have taken into account the unique position which cotton holds in our national life," said Administrator Chester C. Davis in announcing the contract. "Our primary concern is the welfare of the producer. We believe that while benefiting him primarily, the program will also be of great benefit to the South and the country as a whole."

"We feel also that we have in the last three years passed well beyond the emergency which necessitated the plow-up campaign in 1933. Our policy consequently aims at the adjustment of the supply of cotton through, as the AAA expresses it, a gradual correction of the present inequalities."

Cully A. Cobb, director of the Division of Cotton, pointed out that unless adjustment is continued, a further addition to the over-abundant accumulation of supplies will follow. The result would be a lower income from cotton and a return toward depression conditions.

## PICTURES OF TWO LOCAL CLUBWOMEN IN STATE YEARBOOK

Pictures of two Colorado club women and a special paragraph of praise for a Mitchell county club report appear in the year book of the Texas Federation of women's clubs, just off the press.

The two clubwomen pictured are Mrs. H. G. Whitmore, president of the Self Culture club, and Mrs. J. A. Sadler, president of the Mitchell county federation.

The rural education report from Mitchell county is termed in the year book the "best report received this year." It was made out by Mrs. C. P. Gary, district chairman of rural education, and shows how three Colorado clubs have sponsored eight rural schools, supplying them with old and new magazines, victrola records, and other things.

## FROM THE HOUSTON POST NOVEMBER 22, 1935 "EDITORIAL"

ATTENTION TO RAILROADS  
It hardly seems possible that there should be a necessity for speakers to oppose government ownership of the railroads. Government ownership and operation of anything that comes in competition with private enterprise is contrary to the American system of government, and as long as that system is the accepted system for governing the United States, government ownership should never be a serious issue.

The lack of success, both financially and operatively speaking, that the government experienced when it took over the management of the railroads during the World war, has precluded the question's serious consideration within the memory of the people who were familiar with those facts. There are always those who want change for change's sake, without weighing the lessons taught by experience.

Senator Wheeler, chairman of the Senate interstate commerce committee, has sponsored a bill to provide for government ownership, control and operation. This bill is sponsored by organized minorities, and would be favored by some groups in the hope that the government would be responsible for the indebtedness of the railroads.

The address of Mr. T. M. Hayes, assistant general manager of the Seaboard railroad, before the Houston Traffic club and the Young Men's Division of the Chamber of Commerce, calls attention to these points. In the course of his speech, he quoted the Honorable Sam Rayburn as saying: "We cannot afford to put transportation into politics. I oppose government ownership, and I tremble at the thought of adding 1,000,000 people to the civil rolls of the government."

"We had a taste of government ownership during the war period. It cost the taxpayers \$1,200,000,000 to indulge in the experiment."

Traditionally, the Post has been opposed to government ownership. The traditional reasoning for opposing government ownership was and is that such procedure on the part of the government would in time result in complete or near complete socialization of America. The traditional reason remains a forceful one, and a sound one. There is now another reason why The Post opposes government ownership, and that is that the United States has a place to spend all of the money or credit it can lay its hands on without playing taking Aladdin's lamp away from him to wish ourselves into prosperous government ownership of the railroads.

If the government-ownership theorists believe that consolidations and mergers should take place, as unquestionably should occur, they might recall that such consolidations looking to economy might take place under private ownership, if the government were willing.

### CHOOSE CHICK STARTER WISELY, URGES EXPERT

After the bag is empty what will you have?

"If all folks who raise chicks this year will consider that question carefully before choosing their starting feed, many will be very surprised and gratified to discover how much more they have to show for their investment when the chicks reach six weeks of age," says C. S. Johnson, national authority on poultry feeding and management and head of the poultry department for Purina Mills. "Most chick feeds look alike at time of purchase," Johnson says. "Many contain the same ingredients. Some even analyze alike. There'll be just as many pounds of feed in one bag as in another. But what a vast difference is seen in the quantity and quality of six weeks' old chicks fed on various rations! In view of such known variations in feeding results it is only fair to one's self, looking out for one's own best interests, to measure the worth of any chick starting feed on the basis of what will be in evidence in number, size and development of chicks after the bag is empty—after the feed has all been used.

Fifty in the Bag "This question, 'What will you have after the bag is empty?' may well invoke a counter query: 'How much

can I expect? How much should a starting feed accomplish? The answer to this is that today any poultry raiser should be able to count on 50 birds averaging a pound apiece or better from every hundred-pound bag of chick starter, provided he selects a feed with proven ability to produce like that. Records from all parts of the country on a million chicks fed our Starters, show that at 6 weeks the light breeds averaged 17.4 ounces in weight and the heavy breeds 19.2 ounces.

"Yes, one can expect results like that and get them by wisely choosing a starter which is built to do that kind of a job. It is easy to understand why this is possible when one is reminded that Starters is so well balanced and blended for building chick frame, blood, flesh, and feathers, that only 2 pounds of it is required to raise a chick to 6 weeks of age. 'Ample feed-

ing results there are to verify these figures and to say to anyone who raises chicks: 'Don't be satisfied with any feed which cannot deliver as good results as this.'

"Any way you look at it, differences in the prices of starting feeds are negligible factors compared to results, because a chick eats such a small amount of feed the first six weeks. The slightest difference in results more than offsets any variations in price. For example, if chicks averaged just 2 extra ounces apiece at 6 weeks on one feed as compared with another, that would mean 400 ounces or 25 additional pounds on 200 chicks. This extra weight at 12c a pound for broiler meat would be worth \$3.00. Since it takes 400 pounds of feed at 2 pounds per chick to grow 200 chicks to 6 weeks of age, it will be found by dividing \$3.00 into 400 that the feed which puts on those extra 25 pounds is worth 75c more per hundred than the other feed. This is on a meat basis alone and does not take into consideration the valuable advantage gained of giving the pullet chicks a better start.

"With only two pounds of feed required to get a chick started right," Johnson says, "the starter that does the best job proves the cheapest!"

#### PNEUMONIA CAUSES MANY DEATHS IN TEXAS

AUSTIN.—According to Dr. John W. Brown, State Health Officer, pneumonia causes over 4,700 deaths each year in Texas. It is more prevalent during the winter and spring months.

Pneumonia is usually caused by a germ called the pneumococcus, which many of us have lurking in our throats ready to start trouble when our resistance to it is lowered. We can keep up our resistance by avoiding undue fatigue and avoiding unnecessary exposure to extreme weather conditions. When we go out into the cold, additional wraps should be sufficient to protect us. Keeping the temperature of our homes as low as is consistent with comfort will greatly lessen the difficulties encountered in adjusting ourselves to the cold when we go out.

Another measure of prevention in pneumonia is not to neglect a cold, for the common cold often results in pneumonia when neglected. A person with a severe cold should stay at home and call his physician as a precautionary measure. Then he should follow his physician's advice until the cold has disappeared.

The successful treatment of a pneumonia case often depends upon beginning treatment very early. That is why a physician should be called at once in such cases. A patient may really have beginning pneumonia when he thinks it is only a cold. If the physician's advice is sought for the cold he will have an opportunity to start treatment early if pneumonia occurs in such cases.

Nearing the 15,000-bale mark, Mitchell county cotton receipts stood at 14,707 bales shortly before noon Thursday. This total did not include 902 bales ginned at China Grove, just over the county line to the north.

Local buyers would quote no definite price on the staple, saying that it was selling at rapidly changing prices, ranging \$11.55 per hundred. Two weeks ago when the last Record cotton report was compiled the staple was bringing around 12 cents. Seed is bringing about \$30 a ton.

Of the 14,707 total, Colorado gins had received 6,207 bales, the Buford gin 879 bales, Westbrook gins 1400 bales, Loraine gins 5,156 bales, the Valley View gin 781 bales, and the Hyman gin 284 bales.

**TESTS REVEAL HIDDEN HUNGER IN BABY CHICKS**

Select Starting Feed With Care, Expert Advises.

It is the lot of every baby chick to come into the world with an inherent urge to live and grow. This mysterious life impulse can best be defined as "hidden hunger," according to C. S. Johnson, poultry nutrition expert.

"Hidden hunger, however," Johnson says, "is more than a mere instinctive desire for food. It is far more subtle and complex than that. Hidden hunger is really a variety of distinct appetites, every one of which must be fully satisfied by intelligent feeding every day of that chick's life if it is to grow and develop profitably.

"Vitamin hunger is one appetite. Mineral hunger is another. There is also protein hunger, a hunger for necessary bulk in the ration, a hunger for the varied food materials that build frame, flesh, and feathers. Failure to supply enough material headed to satisfy any one or more of these hidden hungers leaves a chick in a starved condition no matter what quantity of feed it has access to. Chicks are just like children in this respect. A child's stomach can be crammed with food until it becomes pot-bellied, and yet that infant may be suffering from rickets, pellagra, beri beri, or other evidence of undernourishment because of vitamin, protein, or mineral shortage in the diet. There are thousands of such cases of malnutrition in this country every year—children, chicks, pigs, babies of all kinds, getting lots to eat but actually starving because their food doesn't fully satisfy all of those natural hungers.

**Discovery and Development**  
"Only in recent years," says Johnson, "has science come to realize the existence of these hidden chick hungers and to take the proper steps to identify and provide for them in an adequate chick feeding program. For chick nutrition—that is, the intelligent feeding of chicks to supply all their needs—is a comparatively new thing when one considers that the first starting mash came on the market less than fifteen years ago.

"Before 1910, chicks were usually started on corn bread or a little ground grain, with boiled eggs sometimes added to furnish the protein requirement of the ration. Later oatmeal began to be used and a little clabber milk or cottage cheese included for protein content. With this kind of hit-or-miss feeding the hidden hungers of baby chicks were just partially provided for. The result was that before 1910 not over 50% of the chicks lived, and an average weight of ½ pound per bird at six weeks was considered good.

Biological chemists studying the growth-producing ability of various chick feed formulas by feeding tests on chicks and small laboratory animals.

"In the decade between 1910 and 1920 laying mashers were generally fed to baby chicks. It was not until after 1920 that starting mashers began to be developed. These rations, which did a better job of feeding the hidden hunger appetites of chicks, contributed to raising the average livability to 75%, and chick weight at six weeks to an average of approximately three-quarters of a pound.

A penny for prevention is worth dollars for cure. Buy Christmas Seals and help prevent tuberculosis in Mitchell county.

**Church Meeting**

(Continued From Page One) The session was adjourned to luncheon at noon and delegates were escorted into basement of the church where a bountiful dinner was served by ladies of the host church.

As the afternoon session was called at 1:30 o'clock Mrs. C. B. Reeder of Loraine, associational president of the W. M. U. assembled her group for an executive and inspirational meeting. Appointments for the next convention were discussed and adopted.

At the same time the executive board was in session. Earnest Wiman of Roscoe, associational secretary-treasurer, reported the organization out of debt with a cash balance on hand to begin the new year in district missionary work, including program to reach Mexican people.

As the executive sessions were closed both groups assembled in the church auditorium to hear closing sermon of the day, delivered by the Rev. George W. Parks of Roscoe. His message was of a practical nature and dealt with the New Testament conception of the church.

Adjournment was had after electing First Church, Snyder, as host for the next conference to be held on Tuesday, January 13.

**BABIES SHOULD BE GUARDED AGAINST WINTER DISEASES**

AUSTIN.—Babies and young children need as careful protection at this time of the year against "winter complaint" as they do during the warm weather against "summer complaint," recently stated Dr. John W. Brown, State Health Officer, in discussing seasonal disease hazards for young children.

By "winter complaint" is meant influenza, tonsillitis, pneumonia, bronchitis, and other diseases of the respiratory or "breathing" system as distinguished from "summer complaint" which attacks the digestive system. Diseases like pneumonia may develop from a neglected cold; they may follow as an after effect of measles or whooping cough or one of the other so-called children's diseases;

**LOGAN HATCHERY TO BE STARTED EARLY IN YEAR**

The Logan & Son hatchery will be started earlier by some two months for the next season than ever before, due to heavy bookings for baby chicks, management of the concern stated Wednesday afternoon. An audience of 100 people witnessed complimentary picture show given by Logan at the Ritz theatre Wednesday afternoon, an interesting drama on farm life.

The utmost care should be exercised by those who have colds, and who are unavoidably brought into contact with young children, not to cough or sneeze so that the spray of saliva reaches the children.

**FARM BOYS PLAN FOR CENTENNIAL**

A 4-H club livestock show will be held from Nov. 14 to 20 and a Future Farmer of America livestock show will be from Nov. 21 to 27. Separate commissions now are directing activities of the two groups.

## THEATRE NEWS

### BY SHERMAN HART

#### "MURDER MAN"

Thursday—Dec. 12  
For the devotees of both newspaper and murder mysteries this one will have its moments. It is real meat stuff, however, and as such is adult fare, with a more special appeal to men. Spencer Tracy as the smart newspaper man who scoops all rival sheets and is always a jump ahead of the police, is known as "The Murder Man." He frames a crooked financier for the murder of his partner, but in a last minute interview with the condemned man, he is conscience-stricken and in a last sensational headline story for his paper confesses that he is the murderer. Show is all Tracy with Virginia Bruce supplying the almost non-existent love interest.

#### "STORM OVER THE ANDES"

Palace—Friday-Saturday, Dec. 13, 14

Adding Jack Holt, wisely cast, to airplane thrills, spectacularly done, reveals the sum total of "satisfactory entertainment" to all screen fans who like Holt and thrill to melodramatic film plays abundantly filled with dare-devilish, plane stunting. The comedy relief, obviously injected, is provided by the hero's irresponsible mechanic, Gene Lockhart. The old but always appealing, angle of innocently falling in love with a pal's wife furnishes the romance.

#### "EVERY NIGHT AT 8"

Palace—Saturday-Midnight, Dec. 14

Sunday—Monday, Dec. 15, 16

If the amateur broadcasting contests are as popular as the announced statistics indicate, this picture should prove of timely value. The audience and your reviewer evidenced greatest amusement during the radio talent tests. The experiences of the Swanee Sisters while sojourning briefly with Park Avenue society also registers.

Dixie, Delphine and Susan (respectively Alice Faye, Patsy Kelley, and Frances Langford) employed in a mint julep factory under a pompous boss, go over very big in a company-endorsed "home talent" show.

This delightful mixture of comedy and interspersed music should prove excellent entertainment. Patsy Kelly is still putting out her wisecracks and George Raft will please his admirers.

#### "BONNIE SCOTLAND"

Palace—Tuesday-Wednesday

December 17, 18

A natural for the Laurel and Hardy fans. It is packed with the Laurel and Hardy humor and is good for plenty of laughs. The funsters work their way to Scotland on a cattle boat to receive a bequest for Mc-Laurel which turns out to be nothing more than a set of bagpipes. They run up a lot of bills and before they are really aware of it find themselves in a Scotch regiment sailing for India. A series of hilarious situations follows, ending in a whirlwind finale when they capture an Indian potentate who wishes to destroy the unit to which they belong. Love interest is carried by June Lang and Wm. Janney.

#### "FARMER TAKES A WIFE"

Ritz—Sunday-Monday, Dec. 15, 16

A splendid piece of entertainment composed of simple heart-warming drama interspersed with numerous human comedy touches contributed by its true-to-life characters. Janet Gaynor, giving the most adult performance of her career, puts force into her role of "the best cook on the Erie," but is given a close race for acting honors by Henry Fonda, whose strong-jawed young farmer is a fine characterization. Story treats of the friendly conflict between a girl who enjoys the excitement and fights of canal boat life and a stubborn farmer who works on the canal only to save enough money to buy a farm. Agreeing not to air their differences the natural enemies soon turn into lovers.

#### "ATLANTIC ADVENTURE"

Ritz—Tuesday-Wednesday

December 17, 18

A picture of the loves and duties of a newspaper man who goes to the extremes and because of a woman. The reporter of a big newspaper has a date with his girl. He has broken date after date and in desperation to keep this one decides to fake an interview with the district attorney. On this particular occasion the D. A. is murdered and the reporter is fired for his negligence. On a tip he hops a boat and encounters jewel thieves and the murderer. After a series of complications comes the usual happy fadeout. Girl is Nancy Carroll; reporter is Lloyd Nolan.

ABOUT OLD AGE PENSIONS

AUSTIN.—State Auditor Orville S. Carpenter, recently named Executive Director of the Old Age Assistance Commission effective February 14, declared this week that no one, regardless of race or color, would be discriminated against, and stated that old people will be able to get pensions without assistance from agents.

"Many inquiries regarding our policy toward negroes and Mexicans have been received. Inquirers have asked whether or not members of these races would receive the same amount of pension as members of other races. We want it clearly understood that there will be no discrimination against anyone because of race or color," Mr. Carpenter declared.

"No attorneys, unofficial agents, or firms will be needed to help old people obtain pensions. Applications

### ETHICS OF SCOUTING WILL BUILD GOOD CHARACTER, IS PORTRAYAL SPEAKER GIVES

#### Reverend Winston Borum Of Midland Appeals For High Ideals During Address At Lions Club Friday

Quoting from another the statement that Scouting was the only thing for good that all boys continued interested in all the time, the Rev. Winston Borum of Midland, pastor of the First Baptist church in that city, delivered a stirring address before the Lions Club Friday in support of the Boy Scouts of America and all other organized units sponsored for the purpose of building character. "The tale of two cities," was the subject announced by Rev. Mr. Borum after he quoted briefly statement by John in Revelations: "I saw a city." He built his mental picture, separating influences of the good and bad, about history of Babylon and Jerusalem.

"Babylon and Jerusalem were both great cities and have since the day of their inception wielded a large influence upon the world and the peoples that have lived therein," he stated. He pictured Babylon as the hub of all that was sensual and wicked—adverse to good character and the tenets of that kind of civilization taught in the Bible. Out of Jerusalem had come an influence for the other side of life, he pointed out, in which the greatest code of ethics ever written—that enunciated by the Christ—had been sustained.

The speaker gave strong insistence to the proposition that organizations such as the Boy Scouts were maintained for the sole purpose of building that type of citizenship into lives of boys that in after years, as they assume their responsibilities as citizens, would reflect the traditions of Jerusalem.

"Every man in this Lions Club should get in behind the campaign to put Scouting ahead in this community—with his moral support and his money—just for the sake of contributing something to a movement that will make Colorado and this section a better place in which to live and do business," he declared.

The address of Rev. Mr. Borum followed brief announcements by J. A. Ferguson, local Scout executive, and A. C. Williamson of Sweetwater, executive secretary for the Buffalo Trail Council. These officials outlined plans of sustaining membership drive that was set to open here on the following Tuesday.

studied during last annual session of  
the county home demonstration coun-  
cil to be convened at home of Miss  
Gunter Saturday afternoon.

Presidents of the several clubs are  
to reflect progress of organized  
work and study during the year. The  
agent recently expressed hope that  
all members of the council would be  
present.

Another feature of the meeting  
will be installation of recently elect-  
ed officers who are to serve during  
the new year. A special entertain-  
ment program is to be rendered after  
adjournment of the business session.

### PLANS OF HER FRIENDS TO HONOR AGED CITIZEN STAYED BY GRIM REAPER

Plans of friends of Mrs. Martha  
Elizabeth King—to offer special  
tribute to her life as a feature of this  
county's celebration of the Texas  
centennial next year were halted  
when she was called in death.

Mrs. King would have been 99  
years of age next February. Attend-  
ing her life had been events as color-  
ful and impressive as the history of  
Texas. She possessed an unusual  
store of epic events that down  
through the years had been inter-  
woven into progress and affairs of  
the State.

"We had planned to arrange a  
special centennial program in com-  
memoration of her life, had she lived  
until next year," Jim Greene, cham-  
ber of commerce secretary, stated  
Monday.

### SUN BOWL SPECIAL TO MAKE COLORADO STOP

### THIRD OF SCHOOL TOURNAMENT PLAYS, 'WINNERS ALL,' IS SLATED FOR FRIDAY NIGHT

### Attendance During The Series Opening Monday Night Has Been Good; Final Play Is Booked Wednesday Night

Annual class play tournament  
opening Monday evening at high  
school auditorium has been well re-  
ceived by the public with growing  
ticket sales featuring each succeed-  
ing offering, C. A. Wilkins, high  
school principal, stated Tuesday.  
"The plays have reflected ability and  
serious consideration in preparation,  
and it is apparent that from the  
standpoint of patronage we are re-  
ceiving a more liberal consideration  
than the tourney a year ago," Wil-  
kins stated.

Opening the tournament was offer-  
ing by the senior class, "Goin'  
Modern," Monday evening. Wednes-  
day evening the juniors presented  
their bid for tourney championship  
in the cast, "The Spanish Onion," and  
the booking for Friday is "Winners  
All," sophomore play.

Interest in the popular contest this  
year has been augmented by entry  
of junior high school with a cast of  
young artists well known to the local  
public. The youngsters are putting  
in overtime at practice rehearsals and  
do not hesitate to give out the an-  
nouncement they plan to make things  
interesting for winner of the coveted  
first place award.

Cast of characters in the senior,  
junior and sophomore plays were  
listed in news reports last week.

Monday night the freshmen are to  
have their opportunity in bid for the  
tourney championship belt. "The  
Night Out," is title of the play, to be  
staged by Willie Grace Doss, Bobby  
Wright, Jimmie Lee Harrison, Dor-  
othy Sue Morrison, Virginia Rose  
Whipkey, Letisha Crabtree, J. T. Wil-  
liamson, Evelyn Moore and Bob  
Parker.

Then, on the following Wednesday  
night will be staged the junior high  
play, in which Nancy Price, Freddie  
Watson, Catherine Slagel, Louis Bod-  
zin, Beulah Francis Robertson, Paul-  
ine Simpson, Charles Nuckolls, Ken-  
neth Connell, Betty Whipkey and  
Carl Moore are to be presented.

During the tourney last year a  
total of 3,000 admission tickets were  
sold, including those represented in  
practically unanimous patronage,  
from among students of high school.  
The price of admission is ten cents  
to all alike.

"Students of the five competing  
classes are making strong bid for  
public favor in the present tourney  
and I am of the opinion the high  
school has never since inaugurating  
this popular competitive feature of-  
fered a more highly entertaining pro-  
gram to the public," Wilkins de-  
clared.

With conclusion of the junior play  
next Wednesday night the judges are  
to announce winner of the tourney.  
Attractive prizes are to be  
awarded. All of the plays are set to  
begin at 7:30.

### COTTON FIELDS CHANGE HUE AS CROP GATHERED

are well past peak of this annual  
task. January 1 is to find but little  
cotton in the fields, if weather con-  
ditions remain favorable.

### ROSCOE AND WINK WILL PLAY REGIONAL GAME

Two Colorado Masons were hono-  
red during closing sessions of annual  
meeting of the fraternity at Waco  
last week. W. J. Chesney, retiring

Royal and Select Masters, was pre-  
sented a beautiful jewel by the coun-

committee on work for the grand  
lodge of Texas.

Chesney retired from the highest  
office within gift of Free Masonry in  
Texas as he relinquished gavel as  
master of the order over which he  
had presided during annual conven-

affairs of the fraternity several years.  
He had gone through all the chairs in  
the local Blue Lodge and during the  
past few years had taken active part  
in annual conclaves of the order.

### WINDOW DISPLAYS BRING SMILES TO CHILDREN OF COLORADO AND SECTION

The attractive window displays  
that are to be seen in every section  
of the business district are prompt-  
ing smiles of glee to children as they  
point out the toys, trees and other  
decorative factors entering into the  
beautiful Yule portrayal.

Parents of the kiddies, too, are  
finding popular diversion in window  
shopping. The displays this season  
are more elaborate than for several  
years, with gift suggestions of wide  
range silently reminding that Christ-  
mas time is almost here.

cause of inclement weather.

The club held two meetings in one—a business conference and social gathering. A reading, "Children's Hours," by Lillian Hellman was given by Mrs. Wylie Kinard. Two interesting papers were read.

## Women Of Sewing Rooms Hear Lectures On Work, Complete Number Of Articles

In addition to attending the WPA's outlined school of instruction periods twice daily, women in the Mitchell county sewing rooms completed forty-five quilts and thirty-five garments during the first ten days of work, a report filled out this week shows.

This work was accomplished after the women had arranged and cleaned their working headquarters, according to Mrs. Alma Phillips Miller, Mitchell county project superintendent.

Fifty-one women are employed in the three sewing rooms, two of which are maintained in Colorado and one in Loraine. The Colorado rooms are in charge of Mrs. Elizabeth McCleary and Mrs. Vada Terry Wells, the Loraine room in charge of Mrs. Irl Zelner.

During the first ten days after the rooms were opened a course of instruction outlined by Miss Caroline Chambers, district WPA director of women's work, was followed, with Mrs. Phillips conducting classes each morning and afternoon.

The course included lectures on personality, design, and garment construction, together with discussions of the use and care of machines and patterns. A questionnaire showed the women to be especially interested in buying family needs with a small budget.

SAM HOUSTON'S OLD HOME

So few of our readers are familiar with Texas early history and the life of Sam Houston and for the benefit of students now in school we devote our space this week to this subject.

Ed Kilman has an interesting article in the Houston Post, describing Gen. Sam Houston's old home at Huntsville, the house itself having been generously donated to the state by J. E. Josey of Houston, the owner, from which the following extracts are taken:

In the piping ante bellum days of about 1858 Dr. Rufus Bailey, president of Austin college at Huntsville, built a queer-looking house, patterned after a Mississippi steamboat, for a wedding gift to his son, Frank Bailey, and his bride. The steamboat house is due to come into its own next year, if plans and hopes of Huntsville people are fulfilled. Long neglected in an obscure part of town, it was purchased two years ago by J. E. Josey of Houston, a native of Huntsville. Mr. Josey gave the property to the state at the last meeting of the board of regents of state teachers colleges, of which he is a member. Now the people of Huntsville are seeking a small allocation from the centennial fund with which to move the house to the tract now occupied by General Houston's other Huntsville home, near the teachers' college that bears his name, and to reconstruct it. In July, 1863, General Houston returned to Huntsville from a trip to south Texas, suffering from a cold. He went to bed in the front room of the steamboat house. He contracted pneumonia, and Dr. P. W. Kittrell was called from his plantation, 15 miles out in the country. On July 25, the old warrior sank into a stupor. Members of the family gathered anxiously about his bed. Rev. Samuel McKinney offered a prayer. Mrs. Houston sat by her illustrious husband's bed through the night and the next day. The hero of San Jacinto was buried in the little graveyard near by, where a monument now proclaims: "The world will take care of Sam Houston's fame." Soon afterward his family moved back to Independence. After the departure of the Houston children the other youngsters of the neighborhood were lonely, especially a little Miss Rawlings—now Mrs. W. A. Leitch—who lived in the Rawlings mansion across the street. The next owner of the steamboat house was Major T. J. Goree. He made extensive alterations, widening the south gallery, remodeling the front entirely and making other changes. Convict labor was used. Mrs. Goree planted cedars in the yard. Mrs. Dr. J. W. Thomson of Huntsville, daughter of Major Goree, was born in the house and lived there for many years. Interviewed old timers, "It was at Hunts-

destroyed over night." A political party in power may ignore its platform and not be held to a strict accountability. Political platforms indeed have become tantamount to jocular pronouncements. The constitution, fortunately, is not in the nature of a political platform. The constitution is no joke.

OLD AGE PENSION

The Pittsburg Gazette says: The Legislature has passed the pension bill, but nothing has been done about providing the money, amounting to some \$5,000,000 or \$10,000,000. The bill is not operative until the money is provided. The State is already in the red \$9,000,000 and far behind with the payments on Confederate pensions. It takes money to pay pension bills and the only way to get it is by taxation, which many will find out.

BOYHOOD DAYS

John Somerville down at Marlin in his letter writes of his boyhood days as follows: One of my boyhood experiences was with my mother's wagons, hauling cotton, first to San Antonio, then to Eagle Pass, the haul paying \$100 a bale in gold Mexican doubloons. Cotton was selling for \$1 a pound, or \$500 a bale. At the border we were met by Mexican caravans who carried the cotton to Tampico—where vessels from Europe awaited. Our Confederate ports were all blockaded. Our wagon trains of possibly forty teams, circling the pay wagon, returned usually to Waco. The prairies were alive with fat cattle and horses in droves. Our marksmen would step out and kill a fat yearling with none to molest him. No meat like that now.

OUR CONSTITUTION

John S. Mason who lives at Rockwall writes in his letter this: My interest and curiosity are becoming more excited as the effort continues in Massachusetts under statute to compel the people of that old and honored Commonwealth to be loyal and patriotic.

ROGERS MEMORIAL

The suggestion of W. T. Hipps of Corsicana in letter, that a children's hospital be established as a memorial to Will Rogers, is most reasonable and wise, and, it seems to me, should meet instant response in the hearts of all lovers of the much-loved Will. J. C. McCORMICK, JR., Pittsburg, Pa.

Stable Condition Of American Finance Seen As Farmers Find Firmer Footings

That America is due for a still firmer plane in the realm of finance and security is being reflected at Colorado and throughout the country as the triple A and other federal recovery measures become more generally reflected in popular approval. There were scores of Mitchell county cotton planters who the other day sounded strong approval of the address of President Roosevelt in Chicago as he attacked enemies of the government in drive to lead source of the country's basic wealth into better paths. There is no way of avoiding the question that better times have arrived here.

Suggestions Of The Yule Season Blend Into Club Settings

That Christmas is just around the corner and but a few days remain before celebration of the religious holiday is reflected in decoration schemes being blended into settings for meetings of Colorado's study and other social clubs. Without exception ladies who are entertaining these organized units of the community's social life are giving time and effort to artistic display and appointments suggestive of the Christmas season. Already the joy of giving is being reflected in many of the club meetings, with miniature trees and Santa Claus characters extending the season's greetings.

# THE CLOSED WINDOW.

Do you shut out healthful fresh air from your home during winter months by keeping all windows tightly closed? You wouldn't consider doing such a thing in summer, now would you?

It is especially important to keep the air of your home fresh and pure during winter. Under the artificial conditions of winter indoor life, heavy demands are made on the oxygen supply of your home. In the first place an adult breathes about 350 cubic feet of air every 24 hours. In addition to this, the heater in the room takes a large supply of oxygen from the air because fuel will not burn without oxygen. Both the heater and the occupants of the room are consuming the air. Therefore, it becomes doubly important during winter to introduce a reasonable amount of fresh air from the outside so that the air you breathe will be pure as well as warm and comfortable. Incidentally, fresh air is easier to heat than "stale" air.

When open flame heaters are used exclusively it is of utmost importance to have adequate ventilation and a circulation of heated air, if healthful conditions are to exist. Proper ventilation should be provided through window openings, and pure warmed air should be kept circulating through connecting doors of all rooms. America's Public Health Enemy Number One, the common cold germ, finds a fertile field in an inadequately heated and poorly ventilated home.

A simple method of providing a constant circulation of fresh air is to open the window nearest the heater in each room slightly at the top and bottom. This permits fresh, oxygen-laden air to replace the products of combustion caused by breathing and by the fuel burning in the room. The overheated air which rises to the ceiling circulates to other parts of the room and a more healthful air condition is the result.

Guard the health of your family this winter with proper ventilation and adequately warmed fresh air in every room in the house. It's a simple precaution in combating the common "cold".

## Mitchell County Planter Elected Head Of Cooperative Ass'n Educational Unit

E. Barber of Spade, prominent in affairs of cooperative farm marketing organizations through several years, has been elected chief of an educational committee to represent this district for the West Texas Cotton Growers association. Announcement of his acceptance of the place was made here Wednesday.

"For the past fifteen years farmers have been building a great cotton marketing organization," Barber stated in an interview given this newspaper. "That organization, represented in this county by the West Texas Cotton Growers association, extends from the cotton belt of California to the Carolinas and maintains sales offices in all milling centers of the world. It is to offset attacks coming from centers of the large cotton exchanges that the special educational drive is to be launched."

Representatives in the National congress, as a rule, are prompted to be fair with Southern cotton producers, Barber suggested, "and we are starting out now to let them realize that we stand ready to meet attacks against us, whether they be in marts of the world or in lobby influences at the National capitol."

Barber outlined that he had already inaugurated drive to organize farmers of this territory, along with friends of the cooperatives, "to contact our congressman before he leaves for Washington."

## Longfellow Locals

By Ruth Griffith

The pie supper at our school Friday night was a complete success. A congenial crowd gathered early, intent upon sampling one of those wonderful Longfellow pies, at any cost. The amount realized from the sale, clear of all expense, was \$40.80. We are profoundly grateful to the pie-eating public, who contributed so liberally to this fund. And also, we especially thank the ladies who furnished the pies, etc. Such wonderful cooperation bespeaks a progressive community.

Of especial interest to our community is the marriage of Mr. Bill Gale of Longfellow to Miss Ollie Thompson of Looney which occurred Nov. 26. Mr. Gale is a long-time resident of this community, the son of Mrs. R. L. Gale. He is a progressive young farmer, numbering his friends by his acquaintances. Mrs. Gale is the charming and accomplished daughter of Mr. and Mrs. J. M. Thompson, a leader of her social set and beloved by all who know her. They are making their home on the Gale farm.

Prof. and Mrs. Moore and Ronald Clay were callers in the W. S. Walker home Saturday night.

Miss Roberta Hamrick spent Sunday with Annie Gann of Colorado. Mr. and Mrs. C. L. Lefevre spent Sunday with her brother and family, the Maylon Compton's of Valley View.

Prof. and Mrs. T. D. Chism and sister, Miss Ruth Chism, spent Sunday with Mr. and Mrs. J. M. Hamrick. Miss Gertrude Gray visited friends in Big Spring this week-end. Prof. Griffith of Hermleigh called on the newlyweds, Prof. and Mrs. E. D. Smith, Jr. of Lorraine, Sunday. The gentlemen spent a profitable hour or so discussing several weighty matters of science and pedagogy (perhaps).

Mr. and Mrs. Maurice Miller and little son visited in the W. S. Walker home Sunday evening.

Misses Margaret and Lois Glass visited Ruth and Joyce Griffith Sunday. In the afternoon they all saw Shirley Temple in "Curly Top."

R. J. Lloyd was a Hermleigh visitor Sunday evening.

Ernest Griffith had business in Roscoe Saturday evening.

A number from our community have been enjoying the play tournament at Colorado high school this week.

Mr. and Mrs. Tee Rogers and Horace spent Sunday with Mr. and Mrs. O. W. Britton of Valley View.

Mr. and Mrs. Guy Thomas and small son spent Sunday with her parents, the M. D. Mitchells.

Mr. and Mrs. C. W. Groom of Lone Star visited the T. Rogers' Saturday.

Rev. and Mrs. W. H. Montgomery and family have recently moved to the Spaulding farm.

**Fourteen People To Receive Employment At Colorado As State Project Starts**

A thorough survey of tax records in Texas which will eventually result in the collection of thousands of dollars from properties now escaping taxation has been started in twenty districts covering the entire state, R. B. Anderson, state tax commissioner, stated recently at Austin.

Financed by \$2,644,000 in Works Progress Administration funds and sponsored by the State Tax Board, the survey which is getting into motion now will provide employment for 4,184 persons from relief rolls of Texas, Anderson predicted.

Drawn up subject to the approval of the Texas Legislature, the project was approved and appreciation was expressed for it in a concurrent vote of both houses on October 28.

"This work is expected to increase the revenue of the state thousands of dollars annually" Anderson declared. "Much land now escaping taxation should be made available for assessment by the revision of county tax records. Fair evaluation of lands for taxation and avoidance of duplicate taxation should be realized also," he said.

These three major aims, the discovery of land now escaping taxation, the elimination of duplicate assessments, and the classification of lands with reference to their productivity in order to establish a basis of fair evaluation for tax purpose, have been set by the project sponsors.

District supervisors have been appointed tentatively in each of the twenty Texas WPA districts by commissioner Anderson. These supervisors have taken charge of the work and will be subject to the approval of district WPA directors after a two-weeks trial.

As sponsor of the project the State Tax Board will control all supervisory personnel and all persons engaged in supervisory work will be appointed by this board subject to the approval of WPA district directors.

A total of fourteen people are to receive employment in this county during progress of the project. They will be detailed out of the office of Roy E. Warren, assessor-collector.

**FARMERS LIKE THIS BANK**

FARMERS NEED THE SPECIALIZED SERVICES OF A GOOD BANK MORE THAN ANY OTHER GROUP OF PEOPLE. THEY HAVE MANY SPECIALIZED PROBLEMS AND LITTLE TIME TO DEAL WITH THEM. AND SO WE'RE ESPECIALLY PROUD OF THE FACT THAT A GREAT MANY OF OUR DEPOSITORS ARE FARMERS.

We appreciate a farmer's problems. Hardly a day goes by that we're not called upon to discuss them. With our complete range of banking services we stand ready to further agricultural progress, and through it, general prosperity.

**How Calotabs Help Nature To Throw Off a Bad Cold**

Millions have found in Calotabs a most valuable aid in the treatment of colds. They take one or two tablets the first night and repeat the third or fifth night if needed.  
How do Calotabs help Nature throw off a cold? First, Calotabs is one of the most thorough and dependable of all intestinal eliminants, thus cleansing the intestinal tract of the germ-laden mucus and toxins.  
Second, Calotabs are diuretic to the kidneys, promoting the elimination of cold poisons from the system. Thus Calotabs serve the double purpose of a purgative and diuretic, both of which are needed in the treatment of colds.  
Calotabs are quite economical; only twenty-five cents for the family package, ten cents for the trial package. (Adv.)
