

WOLVES LOSE TO HAMLIN PIED PIPERS IN FINALS OF BASKETBALL TOURNEY

Blizzard Cuts Attendance At And Participation In Sixth Annual Invitation Meet At Colorado High School

Championship of Colorado High school's sixth annual invitation basketball tournament went to the Hamlin Pied Pipers when they defeated the Colorado Wolves 25-16 in a hard-fought, fast-moving game that closed the tournament Saturday night.

The game was closely played until near the finish, when Hubbard, center, and Morton, forward, broke loose for three field goals to give the Pipers a final margin of nine points. The Pipers had held a slight lead from early in the second quarter.

The Wolves eliminated the Big Spring Steers, winner of the tournament for five of its six years, in the semi-finals, the score being 20-15.

In the first round Thursday night the Wolves defeated Dunn 23-11. They met Knott, victor over Loraine in the first round, at 8 o'clock Friday night and defeated them 29-16. Next they met Roscoe, defeating that team 35-17.

Hamlin won by default in the first round when Flivanna's team failed to arrive. The Pied Pipers defeated Roby 40-18 in the second round and Sweetwater 38 to 18 in the third.

The Pied Pipers semi-final defeat of Forsan was one of the greatest thrillers of the meet. The score was 34-33. They overhauled Forsan's 3-point lead in the last thirty seconds of play.

Six of the twenty-two teams who had entered the tournament failed to arrive because of the blizzard which struck Thursday morning. Teams winning by forfeit in the first round were Westbrook, Roscoe, Hamlin, Roby, Sweetwater, Forsan, and Post. Their opponents who failed to get here were Hermleigh, Snyder, Flivanna, Robert Lee, Trent, and Ablene.

Other first-round results were: Coahoma defeated the Colorado Jackrabbits, Big Spring defeated Ira, Colorado Wolves defeated Dunn, Knott defeated Loraine, Forsan defeated Blackwell, Big Spring, Roscoe, Sweetwater, Forsan, and Post drew byes for the second round.

Third place in the championship round was won by Forsan with a 31-20 decision against Big Spring, giving Big Spring fourth place. Trophies went to the four high teams in the championship round. The consolation prize went to Post, which won 28-18 from Ira in the final. Post defeated Sweetwater 24-6 to reach the final after Sweetwater had downed Roscoe.

The all-star selections were Farmer of Hamlin and Chambers of Forsan (center on his team), forwards; Hubbard of Hamlin, center; Scudway of Forsan and Rankin of Colorado, guards. All-stars of the consolation bracket: Lloyd of Ira and Gotske of Post, forwards; Lee of Post, center; Webster of Sweetwater and Wright of Post, guards. Best sportsman was Smith of Big Spring, and high scorer was Hubbard of Hamlin.

ICED STREETS CAUSE MANY MINOR BUT FEW MAJOR MISHAPS HERE

Ice-coated streets and sidewalks which prevailed here last Friday morning and part of Thursday and Saturday caused many minor but few, if any, major mishaps, a check-up early this week revealed.

All garages contacted reported having received "several" cars with bent fenders, mashed-in doors, and other damages resulting from skids on icy pavement. But none reported any accident large enough to merit special mention.

"Foresight of city authorities in roping off the more dangerous corners and hills—notably the Earnest hill—was credited with saving motorists from more serious accidents.

Frozen radiators also contributed to a busy time for garage workers.

Dentists Examine Colorado's 1400 School Children

Watson Praises Competency And Speed Of Dentists And Assistants

The most thorough health examination ever administered to Colorado school children took place Tuesday morning when three dentists and their assistants inspected the teeth of all 1,400 pupils in the four divisions of Colorado schools.

The inspection was made in cooperation with the division of dental health of the Texas State Department of Health. Blanks and instructions sent out by the department were used.

Dentists taking part were Dr. R. D. Bridgford and his assistant, Miss Josephine Chieney; Dr. W. B. May and his assistant, Mrs. May; Dr. M. B. Hall and his assistant, Miss Lena Smith.

Praise of the dentists and their assistants for the competent and speedy manner in which the examination was conducted was voiced by John E. Watson, superintendent of schools, Tuesday afternoon. The dentists donated their time and work.

Heretofore such examinations have been held at the doctors' offices but school officials made arrangements for the doctors to come to the schools this year to avoid traffic dangers and to save time and trouble.

Teachers are to notify parents of the children about the condition of their teeth as revealed in the check-up. Individual and room reports will be filled out for the school files and for the state health department. A chart for each child needing dental attention is also being filled out and it provides a method of checking up on the examination's follow-up work.

Work Of Marking Route For Rural Power Line Begun

Texas Electric Service Co. Extension Will Follow Old Road To Dunn

Work of marking holes for light poles which will carry the first electric service ever brought to Mitchell county rural homes was begun Tuesday morning by the Texas Electric Service company along the old road from Colorado to Dunn.

Tying onto a power line three miles north of Colorado, the new line will be about 13 miles long. Work of building the line is scheduled to begin as soon as materials arrive.

Lines branching off from this main line are to serve several communities in northern Mitchell county and southern Seury county, according to present plans. Each community is to work up its own project for electric service.

Several home-owners of northern Mitchell county have already been signed up for electric service, it is understood. It is pointed out that weather conditions will have much to do with the speed in which work on the line is carried out.

Agreement to construct the line was made by Texas Electric Service company officials at a mass meeting in Dunn Wednesday afternoon of last week. Seury and Mitchell county farm owners and others attended the meeting.

ARMSTEAD SPALDING IE FOUND DEAD IN TOURIST CABIN AT GLADEWATER

Carbon monoxide fumes from a stove burning in a closed room were blamed by a coroner's verdict in the death of Armstead Spalding, 28, son of Mr. and Mrs. Logan Spalding of Colorado, in a tourist cabin at Gladewater some time Monday.

Spalding was discovered about midnight Monday. Physicians said he had been dead about twelve hours when found. The camp owner said Spalding had registered at the camp on the previous day, according to news dispatches from Gladewater.

Mr. and Mrs. Spalding received a phone call telling them of Armstead's death about 1 o'clock Tuesday morning but could learn none of the particulars at that time. They left here early Tuesday morning for Gladewater, accompanied by Miss Jenks Spalding of Big Spring and Scotty Spalding of Colorado. Mr. and Mrs. Bennett Scott followed them.

Spalding's death followed that of his young wife by about six weeks. She died of pneumonia the day after Thanksgiving.

Funeral services for Spalding were held in Gladewater at 4 o'clock Wednesday afternoon and he was buried beside his wife. They leave a young son, Robert Ellis, age 9 months.

Armstead was reared in Colorado and made this his home until he went to work in Gladewater a few years ago. In addition to his parents and his son he is survived by two sisters, Jenks (Virginia) Spalding of Big Spring and Mrs. E. S. Brashear of Electric; and two brothers, Scotty of Colorado and Joe Bob of Electric. Mrs. Brashear was unable to attend funeral services. She has a three-weeks-old baby.

Those going from here to the funeral returned home Thursday.

Greene Announces As Candidate For Office Of Mayor

Present C of C Secretary Once Served For 9 Years On City Council

Public announcement of the candidacy of J. H. Greene for the office of mayor of Colorado was made Wednesday afternoon. His candidacy is subject to the city election on April 6.

Greene, now secretary-manager of the Colorado chamber of commerce, served for nine years as a city alderman. During that time he was chairman of the water works committee and also served on the street and alley committee.

Friends point out that he has served as secretary of the Colorado chamber longer than any other man has been secretary of any chamber of commerce in Texas. He has been chairman of the Mitchell county Red Cross chapter ever since its organization with the exception of one year and has held a number of other public offices.

HOPPE PROMISES ACTION ON DELAYED MATERIALS FOR LIGHTING EXTENSION

A promise to "get action" on the delayed WPA materials which are holding up completion of the extension of Colorado's curb lighting system near the eastern city limits was made by R. C. Hoppe of Abilene, assistant director and project supervisor for this WPA district, in a telephone conversation with Mayor J. A. Sadler Wednesday noon.

Work on the light extension project came to a standstill four weeks ago because materials which the government was to have furnished had not arrived. W. S. James, district WPA director, wrote Mayor Sadler on January 4 that the supplies were to have been shipped from the Gertler Electric Supply Corporation of New York on January 5. They have not yet been received here.

The work of installing the light standards, 16 in number, can be completed within 5 or 6 days after the material is received, Mayor Sadler says. Thirty-eight men employed on the \$4,200 project have been laid off due to the lack of materials.

Council Grants Petition Asking A Bond Election

February 16 Set As Date For Voting On \$12,000.00 Auditorium Bonds

Granting a petition presented by J. H. Greene of the Colorado chamber of commerce and signed by 95 Colorado voters, the city council of Colorado in regular session Monday night called an election on the issuance of \$12,000 worth of bonds for use in constructing a city auditorium and community club house. February 16 was set as the election date.

The bonds would bear interest not to exceed 4%, running from 1 to 15 years, according to terms set forth in the petition. Such bonds would, it is pointed out, cost each Colorado taxpayer not more than 40 cents per year per \$1,000 of reconditioned property, based on Colorado's present \$3,000,000 valuation of taxable property.

The petition was circulated under sponsorship of the Colorado chamber of commerce. Greene pointed out in presenting it that no effort was made to contact every Colorado voter because of the severe weather prevailing last week.

The proposed auditorium building and community clubhouse would stand on the present site of the union tabernacle. The Mitchell county commissioners' court has agreed to donate \$1,500 cash and the site for such a building. Trustees of the tabernacle, have stated their willingness to donate the tabernacle lumber.

Under terms of the election the city council would have full authority to state the amount of the bonds and the fund from which they would be paid and would have full control of all details.

The auditorium of the proposed building would seat between 1,450 and 1,600 people. It would house the office and parlor of the Mitchell County Federation of Women's clubs and the federation library and would provide a meeting place for 4-H and home demonstration clubs of the county and for the Boy Scouts. There would also be a museum room and an office for the county home demonstration agent.

J. C. Ethridge has been appointed by the city council to have charge of the election.

COMMISSIONERS VOTE TO ENGAGE TWO WOLF TRAPPERS FOR COUNTY

The hiring of two wolf trappers to work in Mitchell county during the next 90 days was voted at the regular session of commissioners' court Monday, according to Judge A. F. King.

Wolves have been doing serious damage to livestock in sparsely settled portions of the county, it is said. They are especially numerous in the southern part of the county. Sheep are most frequently their victims but they also attack young calves. The trappers hired will be government men and their work is to begin Jan. 20.

No other special matters were taken up by the court. Most of the session was devoted to routine business, the oking of bills and such.

OPTIMISM IS KEYNOTE AS BANK STOCKHOLDERS HOLD ANNUAL MEETING

Deposits Are \$20,000 More Than Year Ago; Directors And Officers Are Renamed For Another Year

Optimism was the keynote sounded when stockholders of the City National bank held their annual meeting in the bank building Tuesday morning at 10 o'clock. All officers and directors of the bank were reelected.

Deposits in the bank were reported to be some \$20,000 more than at the close of business in 1935, total deposits at this time being \$1,213,418.55.

"The bank had a good year in 1936, considering the mid-summer drought and other adverse conditions," T. W. Stoneroad, president, said when asked to make a statement for publication after the meeting. "Its earnings were better and substantial progress was made in other ways."

Stoneroad, who was elevated from vice-president to president following the death of C. H. Lasky last July, was reelected president at the directors' meeting which followed the stockholders' session. All directors of the bank were re-elected by the stockholders. In addition to Stoneroad these are C. M. Adams, Joe H. Smoot, Charles C. Thompson, and G. B. Slaton.

Officers reelected other than Stoneroad were: Joe Smoot and G. B. Slaton, vice presidents; J. C. Pritchett, cashier; H. E. Grantland and Charles Moeser, assistant cashiers.

Prospects for business in 1937 are encouraging, Stoneroad said.

Directors Of CC Launch Campaign For New Members

Drive Is First Held By The Directors of Chamber In Seven Years

Directors of the Colorado chamber of commerce this week launched a membership drive for their organization. The drive is the first to be conducted by directors of the chamber in seven years, although other drives have been held almost annually.

Each director is to contact sixteen persons or business firms who are not now members or whose membership should be increased.

Slogan for the drive is "No Collection in 1937." If the drive goes over, officials of the chamber say, the chamber's \$6,000 budget for 1937 can be taken care of without asking business men for any additional donations.

The final meeting of directors in preparation for the drive was held at the office of J. H. Greene, secretary-manager, Monday evening.

COUNTY JUDGE AND TWO COMMISSIONERS TO WPA CONFERENCE IN LUBBOCK

Braving a blizzard, Judge A. F. King and two members of the Mitchell county commissioners' court, Frank Crownover of Loraine and J. E. Skelton of Westbrook, went to Lubbock Friday to attend a conference of county judges, county commissioners, mayors and other city and county officials to discuss the continuation of WPA work in 1937 section.

The severe cold prevented other members of the commissioners' court and city and chamber of commerce officials from attending from Colorado.

Approximately 250 representatives from counties all over West Texas attended the parley. Plans were formulated to send a committee to Washington to stress the need of an immediate appropriation by Congress for continuation of Works Progress administration.

Terracing, Handling Of Government Farm Program, 4-H Club Work In Baskin Report

Terracing of 10,816 additional acres in Mitchell county, the handling of a government farm program reaching 1036 of the county's 1,248 farmers, and club work with 99 farm boys of the county are among outstanding items listed in the 1936 report of B. J. Baskin, county farm agent.

Baskin's report shows that terracing done in 1936 brought the county's total terraced acreage, both in farm and pasture land, to more than 77,000 acres. Terraces on over 8,000 acres of the 10,816 acres added to this total during the year were built with county road machinery.

Giving Mitchell county's area as 556,000 acres with 179,000 acres cultivated by 1,248 farmers, Baskin reports that 1,056 of the farmers filled out work sheets in 1936, and of this number 946 made offers to the agriculture conservation program.

For such offers they will receive over \$200,000.

Forty-one of Baskin's 99 4-H club boys attended the 4-H club encampment for boys at Water Valley June 11, 12, and 13.

One of his club boys, Lee Brown of Valley View, fed two Angus calves which won first and second places in their respective divisions at the Junior Livestock show of the Texas Centennial exposition.

Three new trench silos were filled under Baskin's supervision in the county during the year. He conducted trench silo demonstrations on the G. Chesney ranch and on the S. O. Wulffgen ranch.

The farm agent received 2,019 telephone calls and 13,523 office calls during the year. A total of 1,395 letters to individuals were written and sent out from the office in addition to 59 circular letters.

HESPERIAN CLUB

Two programs, the one which was
to have been held on January 1 and
the one for January 8, were held in
addition to the election of officers at
the Hesperian club meeting with

cording secretary, Mrs. Willis Shrop-

Mrs. Ed Majors held a parliamen-
tary quiz and conducted the election.
The present president, Mrs. Sam
Wulfjen, appointed Mrs. S. H. Mill-
wee to fill out the unexpired term
of Mrs. J. Ralph Lee, club critic, who
recently resigned from the club.
Mrs. Wulfjen also named committees
to visit the club's adopted schools,
Longfellow and Seven Wells, during

the remainder of this club year.

Mrs. J. E. Watson was leader dur-
ing the first part of the program.
Mrs. J. A. Sadler during the second.

Methodist Women Organize For Year's Work Under Mrs. Looney's Leadership

Organizations for a new year's
work under leadership of their new
president, Mrs. R. H. Looney, were
perfected by members of the Meth-
odist missionary society Monday af-
ternoon. Forty-two women attended
the meeting.

As the meeting opened Mrs.
Looney outlined her plans for the
year's work, saying that she will give
her personal pledge each quarter to
the circle having the greatest number
of members present at the monthly
business meetings.

In behalf of the society she pre-
sented the retiring president, Mrs.
J. G. Merritt, with a piece of silver
in appreciation of her long years of
service. Pledge cards were distributed
and the women were urged to
study tithing.

Shakespeare Has Timely Program

An especially timely program was
that held by the Shakespeare club
Friday afternoon at the home of Mrs.
R. O. Pearson.

The study, which was scheduled
last summer, was on Holland. News-
paper stories of the marriage of
Princess Julianna of Holland gave it
an unusual amount of interest.

Mrs. D. H. Snyder was lesson
leader. Curious customs of Holland
were told of during roll call. Mrs.
John Arnett read a paper on "The
Land of Windmills and Wooden
Shoes." Mrs. Thomas R. Smith told
of "A Vacation in Holland."

After the Shakespeare lesson re-
freshments were served. The next
meeting will be with Mrs. W. R. Mot-
ley.

Standard Club With Mrs. Adams Friday

of the new year was held with Mrs.
C. M. Adams Friday afternoon. A

J. A. Buchanan was leader.

home.

his home by illness this week. He
narrowly escaped having pneumonia.
He was able to sit up Thursday.

Sweet 16

Most parents whose children
have reached the age of adoles-
cence consider the health changes
of childhood safely past. But be-
neath the radiant levelness of
"sweet sixteen" profound changes
are taking place. The young mind
and body are awakening to a new and vital
conception of life.

This is a critical point. The aid of your
family physician will do much toward giving
your children a healthy, happy start in the
world of adults.

midnight oil must be burned just before exams, but what is worth while that doesn't require effort? Somehow a verb is just a little more difficult in Spanish, a pronoun is just a little harder to recognize and tense is just a little more elusive.

Spanish 3 is doubly advantageous to us. After three years of study we can really talk and understand spoken Spanish. Then too, if Spanish 3 is taken in high school, only one year of Spanish in college will be needed for degree requirement.

By interviewing several students your reporter concludes that the ideas on Spanish run as follows: It seems that our Spanish classes for the next three years will be overflowing, as many of our ambitious freshmen contemplate studying Spanish for three years. That is, provided that they can struggle through it!

Some of the Sophomores have definite ambitions and concede that Spanish will aid in their professional callings. A certain member of the Sophomore class is going to study three years in high school and take a year of Spanish in college. She then looks forward to working in a drug store here in Colorado, acting as interpreter when the occasion demands.

ish and know not why they happened to take Spanish 2 this year. However, now, though they are wading knee deep in the Subjunctive Mood, they will admit that Spanish 2 is easier than they had anticipated.

One Senior intends to be a lawyer and even thinks Spanish will aid in developing that capacity called the train. Then, who knows, he might have a Mexican or Spanish client to contend with. There is a Senior boy in this school who of course is taking Spanish "merely for the credit" but he was (during his eligibility) a football hero. One can never tell, in his college football career, he may play a Mexican or Spanish college team, and naturally he will want to be able to speak their language. Another Senior student of Spanish 3, after all these years, still admits that Spanish is the ideal language.

The above just goes to show you of the far reaching advantages that the Spanish department is able to boast.

SENIORS SHOW INTEREST IN BIOGRAPHY

Do you ever have any curiosity about other people's lives? The way to find out is to read biography, where men and women live once more in its pages. Perhaps the most famous biography of all time is Boswell's "Dr. Johnson." Here an unknown man makes himself famous by telling about an eccentric old scholar, for in biography we sometimes learn as much about the biography as the subject. In addition to learning of the personalities of men and women we learn of history and the customs of the times, such as the Crimean War in "Florence Nightingale" and the life at court in "Elizabeth" and "Essex" or "Mary of Scotland." These are all revealing but the most personal and original form of biography is the diary. For a perfect example of this persuade some of the Seniors to expose their inner souls to you in their diaries. Several of these budding celebrities are striving hard to be a second Samuel Pepys. But we wonder if their inspiration is not coming from the fact that they have to write a term theme or fail? Poor things, maybe they are finding their friends too dull to write anything about them.

CHORAL CLUB PRYSARES Program

The Colorado High School Choral Club is learning many new songs for their trip west. Some of these songs are: "Carmena Waltz Song," "Just Been Wandrin All Day Long," "Chinese Lullaby," "Bells of St. Mary," and "The Glowworm." Mrs. Moeser is looking over operettas for the operetta that will be given in the spring. The boys for the operetta will be selected from all the boys in the school. The Colorado High school is very proud of its choral club and are pushing it on to greater success. Two more boys have entered the Choral Club. They are Billy Henderson and Quinton Hamrick.

GOALS REACHED

The first year clothing girls have nearly finished their tailored print dresses and they are all very pretty. Believe it or not, Miss Hargrove complimented the girls for their good work. She says that they have each one selected becoming patterns and materials.

The first year foods class has made cakes and are planning menus for their luncheons. They are looking forward to these with pleasure for they all like to eat.

The second year girls, too, have nearly attained their goal. They have practically finished their pre-school child's garments and are now working on the pre-school child's wardrobe budget.

The third year class has finished, with much delight, the discussion of "Child Welfare and Development."

They are very eager to get to make their special occasion dresses, but that will be some time yet.

ASSEMBLY PROGRAMS CREATE INTEREST AND EXCITEMENT

One of the most interesting programs that has been presented in assembly this year is the program the high school band presented Tuesday of last week. The band members appeared in their brand new uniforms of red and black. Visitors, Messrs. Jim Greene, W. L. Doss, and Ward gave complimentary talks concerning the remarkable progress Mr. Rose has made with the band.

After the concert Mr. Greene presented the class presidents, Annetta Lacey, Betty Hodge, Dorothy Morrison, and Beulah Frances Robinson with a Red Cross certificate.

Monday morning of this week, Walter Rankin presented a loving cup to Superintendent Watson. The Wolves had won second place in the basketball tournament over the weekend. The high school is elated over the Wolves' victory and feel that they did exceedingly well in the tournament.

DISTINGUISHED VISITOR COMMENDS ENGLISH

"Of all courses in my educational career, literature has been to me the most useful and enjoyable," stated

Congressman Mahon to a group of Senior English students who were in the midst of the study of the tragedy, "Macbeth." The pupils in their interest felt more deeply the value of the great drama after having in their class one who truly loves and appreciates the fascinating class.

F. F. A. BOYS DRILL IN PARLIAMENTARY LAW

The F. F. A. officers are preparing for the annual Chapter Conducting Contest for this district at Rosy on the night of January 21, 1937. This contest deals with the parliamentary law. The officers of the class are working very hard on this work. It isn't necessary to announce the development that the F. F. A. boys have made in their drills. Every year many people of Colorado are admirable witnesses of the favorable work of Mr. Williams in his department. The following boys are planning to attend this contest:

President, Voyd Beights; vice-president, Quinton Hamrick; secretary, Duff Chesney; treasurer, Raymond Fuller; reporter, Douglass Richardson; parliamentarian, Beeman Dockrey; watch dog, J. W. Blasingame; historian Carley Rogers.

QUIEN SABE?

Who knows just what good will come from studying the delightful Spanish language. Will it lead us to the sunny climes of Mexico or Spain? Will the passing years find us acting as interpreters on the border, teaching in Mexican mission schools or, maybe, instructing the young American idea to shoot in terms of Spanish? Even if there is no livelihood involved there is a great cultural value to the study of Spanish. Who could read the work of Cervantes and deny that?

The centennial has been converted into a Pan American Exposition and Mexico is coming to celebrate the event with us. Shouldn't we know toms, and ideas of this neighbor who is coming to visit us?

Here are 115 students in the Spanish department of C. H. S. and the majority are really enjoying reading, writing, and even thinking in Spanish. Oh! you hear groans, and the

CHURCHES

Church school at 9:45. Jerold Riordan, superintendent. Worship and Sermon at 11 a.m. and 7:30 p.m.

Young People have their service at 6:30 every Sunday evening. Don't mind the weather. Come to the services and worship the Lord, for he has need of you. Bring someone with you and you will do them good.

W. M. ELLIOTT, Pastor.

FIRST METHODIST CHURCH

C. E. Jameson, Pastor. We had a splendid congregation last Sunday in spite of the biting cold, which was an inspiration to the pastor. It was as it should have been. We may have many more cold Sundays, but let us not allow the weather to affect our church attendance. When cold, the services will be shortened so that no one will suffer. It is our desire to build up the attendance in all of the departments of the church. Will you not help us? You need the church and the church needs you.

Sunday School at 9:45 a.m. Preaching at 11 a.m. and 7:15 p.m. "Come thou with us and we will do thee good."

FIRST BAPTIST CHURCH

We regret very much that our announcement for Dr. Scarborough did not materialize. He was to have spoken at the First Baptist church at Sweetwater in the morning and here at night, but when the bad weather came the church at Sweetwater called him and asked him not to come. If you felt disappointed you may be sure that I was more disappointed than any of you. It looked like the best arrangement I have ever had for a supply while away for a revival. I suppose it was too good to be true. But that was last week, and the future is before us. We deeply appreciate sacrifice of Perry Barber in coming from Austin to speak at the morning hour. Word has come to me that he delighted the congregation with his message. We also thank Brother Strickland for being with us at night.

We have the definite word of Brother George Mason, Treasurer of our State Board, that he will be with us next Sunday morning. He is not a preacher but you will be interested to hear him, and he will give you something to think about.

There will be no evening preaching service, and we are asking you to not stay at home but attend the B. T. U. and then go in a body to the Methodist church and hear pastor Jameson, who gave up his service last Sunday evening to worship with us.

In spite of bad weather we have not missed a service day or night in the meeting here at Olney. Crowds have been small but interest is good and we are beginning to have results. I pray for you on my knees every day. Remember us.

DICK O'BRIEN, Pastor.

LAST OF FARM PLANNING MEETINGS TO BE FRIDAY

The last of a series of ten farm-planning meetings which have been held over Mitchell county this week and last by B. J. Baskin, county agent, and Miss Emma Gunter, county home demonstration agent, will be held Friday night at Longfellow. The meeting tonight, Thursday, is at Seven Wells.

Meetings which were to have been held at Bufo last Thursday night and at Hyman on Friday night had to be called off because of the blizzard.

J. M. DORN MUCH BETTER

Considerable improvement is reported in the condition of J. M. Dorn, pioneer Mitchell countyman, although he is still confined to his bed at the home of a daughter, Mrs. Rube Hart.

The Junior High Cubs defeated the Westbrook Junior team last Wednesday 28 to 8. The Colorado line-up was: Forwards, William Whitaker and Clayton Henderson; center, Herman Harper; guards, Nat Mann and Billy Wade. Substitutes in this game were Johnnie Grubbs, Charles Watson, Clifton Caffey, Clay Mann Smith, and Horace Woods. Clayton Henderson was high point man, scoring 8 points.

LIBRARY BOOKS REVIEWED IN ASSEMBLY

Friday afternoon 7A was in charge of the assembly program. The stage was arranged like a library with reading table, books, appropriate pictures, and placards. Lila Louise Mannering told about reading interesting books and explained the pictures and placards that were on the wall. Then several book reviews were given. Jan Lee, from 6C, reviewed "Away Goes Sally"; Richard Elliott from 7A reviewed "Moby Dick"; and Mary Price from 7C reviewed "Eight Cousins."

ART WORK EXHIBITED

Pictures that were painted by two Junior High boys, Jimmie Merritt and Johnnie Grubbs, were exhibited in a recent assembly program. Both of these pictures were oil paintings. These pictures were very good and we are expecting to see another art exhibit soon.

DENTAL INSPECTION

Tuesday morning the Junior High pupils were given dental inspection by Dr. May, Dr. Bridgford, and Dr. Nall. This inspection was done under the direction of the Dental Health Division of the Texas State Department of Health. The parents will be notified of the condition of the children's teeth. The children whose teeth are in perfect condition will be placed on the Dental Honor Roll. As soon as the others have their defects corrected, they will also be placed on this Honor Roll.

It is hoped that the health of the pupils will be improved by this dental inspection.

GOOD WRITERS REPORT

The latest Good Writers Club report shows that 7C, 6C, and 5C are the winners of the banners this month. In 7C, 97.2% of the pupils are Good Writers. The new members are Nat Mann, Sarah Alice Harper, Bert Herrington, Marshall Moore, and Tommy Ratliff. In 7A, 80.5% of the pupils are Good Writers. Preston Mackey, Mary Duncan Hickman, Harold Hamer, and Ethel Sue Dawson are the new members. In 7B, 75.67% of the pupils are Good Writers. Mackie Loving, Joyce Compton, Lanell Hart, Harry Webber, and Muriel King are Good Writers.

Irvin Terry, Dick Gregory, and Virgil Pickens are the new members in 6C, making the percentage 94.4. Lottie Fern Mills, Marthiel Forman,

Juana Jean Henderson, Leonard Brothers, and Horace Rogers are the members in 6B, giving the room 85% membership.

Forest Lane, Dorothy Nell Moser, William Whitaker, Clarence Cook, and Sam Rotner are the new members in 6A, where 83.3% of the pupils are Good Writers.

In 5C, James Williams, R. C. Alexander, Marie Manley, J. D. Reese, and Marshall Montgomery are the new members, giving the room 76.47% membership. Betty Lee Phenix, Johnnie Lee Forbes, Carlton Foller, Orville Walding, Pauline Allmond, and Betty Jo McCordle in 5A give the room 68.57% membership in the Good Writers club. 58.4% of the pupils in 5B are Good writers. The new members are Bernice Jackson, Dorothy Hargrove, Richard Lewis, and Bob Craig.

GOOD HEALTH IN WINTER

We all want good health and this is true especially during the cold weather. Some advisable health rules to remember at this time are: Avoid over-eating even if you are hungry. In your diet include leafy vegetables, eggs, citrus fruits, and salads for the cold weather. Go to bed at an early hour and get up at an early hour. Keep your room well ventilated at all times. It is never too cold to have a window partly open.

If the person near you has a cold, avoid him. This is an important rule to remember. Drink cool, fresh water, too. Keep your hands washed in warm, soapy water.

If you deserve happiness, good health, and wisdom follow health rules.

CHATTER

Ice and snow and lots of fun. Did all of you get to ride on the sled? It was great! . . . Was everyone frightened about the dental inspection last Tuesday or were those faces just natural? Some had very queer expressions. . . . Surprising, but there were no fights over the debates in 7A Social Science class last Friday. . . . It is true that seventh grade pupils need to study spelling? And do they also need to study how to read? Ask any of the teachers. They seem to have some good sermons prepared on these subjects. . . . Song hits! That's the latest craze in 7C. . . . Alfred Rhode, Mary Duncan Hickman, and Johnnie Grubbs did some good art work on the posters that were used in assembly Friday. . . .

Annual Meet Of Colorado National Farm Loan Association Tuesday One Of Best

The annual meeting of the Colorado National Farm Loan Association, which was held at 2:00 p.m. Tuesday, January 12, was one of the best meetings in the history of the association, according to Chas. C. Thompson, who was re-elected Secretary-Treasurer of the association for 1937.

D. H. Snyder of Colorado, P. K. Mackey of Colorado, U. D. Wulfjen of Colorado, A. D. Kuykendall of Lorraine, and J. R. Oglesby of Westbrook were elected directors of the association for the ensuing year.

A feature of the meeting was an address by J. W. Watson, Director of Sweetwater Production Credit Association, and a radio address by A. C. Williams, President of the Federal Land Bank of Houston, who spoke to the members of the 365 national farm loan association in Texas who were attending similar meetings in cities and towns all over Texas at the same hour. This was made possible through the cooperation of the major broadcasting stations which make up the Texas Quality Network.

Mr. Williams discussed some of the factors that make up good and bad loans and urged that farmers take care of their property. He said that a well-kept farm whose soil is protected from erosion is seldom, if

ever foreclosed. He also commented upon the important part which the cooperative farmer-owned national farm loan associations play in the successful operation of the Federal Farm Loan System, and emphasized the fact that the Farm Credit Administration units offered the many types of credit needed by agriculture.

"Farmers generally should familiarize themselves with the types of loans available through these institutions, with the view of developing cooperative credit centers where deserving borrowers may secure both long and short term credit according to their needs," said Mr. Williams.

The Colorado National Farm Loan Association has held more than 500 farmers and stockmen of Mitchell county refinance their indebtedness on a sound basis. Since the creation of the Farm Credit Administration in May, 1933, this association has made land bank and Commissioner loans in its territory amounting to approximately \$1,000,000.

PICKED UP ALONG THE NEWS PATH

Winter beauty of a type rare in Colorado last Friday and Saturday mornings drew excited comments from those Coloradoans who could forget frozen water pipes, slippery pavement, and frost-bitten noses, ears, and ankles long enough to enjoy that beauty. . . .

If anything, Friday morning was even more beautiful than Saturday. . . . Every tree and every blade of grass, had a coating of white ice Friday morning. . . . Colorado and the hills to the south looked like Merry Christmas postcard scenes. . . . Over the ice coated hills the clouds were a deep, smoky winter blue and in that blueness black crows wheeled—looking for a warm place to put their toes down, I suppose. . . .

But motorists didn't have any time to take in much of the beauty. . . . The few who ventured forth were wondering whether they'd negotiate the next corner—and how. . . .

The snow put most folks in high spirits—most of those who had to get out in it, I mean. . . . Snow usually seems to do that cheerful something to people's spirits. . . . Guess it's the memory of childhood days when a snow meant snowballing and building snow men. . . . And snow "ice cream." . . .

Far be it from us to pose as an authority on any sport, much less basketball—the most we ever knew about even the girls' game was back when said girls were velvety

pleated black bloomers, middies and black stockings—but we would call this paragraph from the Big Spring Daily Herald's sport column really "doping it out":

"Carmen Brandon Steer basketball coach, is thoroughly disgusted because of the poor showing of his team in the Colorado tournament. The Steers were ousted from the

championship running by the Colorado Wolves, and Brandon immediately attempted to match several games with the Wolf pack, but was turned down. "We could have defeated any other team in the tournament," Brandon remarked. The Steers also lost in the scramble for third place, but Brandon attributed that defeat to the loss to Colorado in the quarter-finals."

**Miss Sorenson Finds Miss
Hargrove's Management of
'High Standard'**

Praise for Colorado High school's home economics department is contained in a recent report made on the department's work by Miss Esther Sorenson, district home economics supervisor. A copy of the report has just been received by J. E. Watson, superintendent of Colorado schools.

"One of the best reports we have ever received," was the way in which Supt. Watson described it. Miss Pr line Hargrove is head of the department.

Miss Sorenson found 101 pupils enrolled in the home economics department out of a total high school enrollment of 422.

"The homemaking department is well-equipped and good standards of housekeeping are maintained," Miss Sorenson's report stated. "Additional table linens, oven thermometers, and some small equipment for the foods laboratory have been added this year.

"An excellent library has been provided, only two books now lacking. Magazines are adequate. . . . A budget has been planned and accounts are kept in good form. . . . Home projects selected are practical. Project plans show a decided improvement over those examined last year."

In regard to Miss Hargrove Miss Sorenson wrote: "High standards are maintained. Classes observed were interesting and well planned."

**Tax-Bewildered Coloradoans Now Think
Of Former Januaries As 'Good Old Days'**

Bewildered Colorado business men are beginning to wonder what they ever had to worry about when January brought only inventories, the after-Christmas business slump, frozen radiators, burst water pipes, pre-inventories, and plain, understandable taxes.

Those employers who have had eight or more employees working as many as 20 days each during the past year are struggling to understand—and meet—requirements of the state's unemployment insurance law and its taxes. Payment of these taxes will be delinquent after Jan. 31.

Pay-day now brings a sharper headache, because the "hired help" can't be paid off in nice, even, round sums any more and the matter forgotten about. A thousand Colorado employes received checks bearing queer uneven figures last week—their regular pay minus the 1 per cent which must be held out for the federal government's social security tax.

But uneven pay checks can't worry the employe near as much as they're

worrying the employer. He has to match the employe's 1 per cent and keep a record of the whole thing for whatever check-up the government is planning when the first social security taxes fall due on February 1.

Arguments develop where ever Colorado business men happen to meet or gather. And most arguments end by all parties admitting that they "don't know what it's all about."

"They ask each other, 'Where do we pay? Whom do we pay? How do we pay? . . . WELL, who does know?'"

"Nobody seems to know for sure. Nobody hereabouts, that is. But one thing everybody knows—there'll have to be payments, and there'll have to be records that those payments are correct."

One employer says, "I'll wind up in prison, I reckon." And another one answers, "Not me—I'll wind up in a padded cell."

Yes, the old Januaries of inventories and business slumps and understandable taxes are fast becoming "the good old days."

**STORE-WIDE SALE TO
BE LAUNCHED BY MAX
BERMAN FRIDAY A. M.**

The "greatest bargains ever offered" are being advertised by Max Berman's Department store for a store-wide clearance sale which is to begin Friday morning at 9 o'clock.

Special bargains are being offered in coats and other items of ready-to-wear, prices in many cases having been slashed nearly 50%. All knit suits will go at half-price. One hundred hats that formerly sold as high as \$4.95 will go at 98 cents. Men's clothing and shoes will also be on sale. Nothing is reserved.

A comprehensive list of bargains is contained in a four-page circular distributed to box holders of the county.

**NO LOCAL METHODISTS
TO AMARILLO TUESDAY**

Because of the distance and unsettled weather no members of the First Methodist church here are planning to attend the "Bishops' Crusade" rally in Amarillo Tuesday, the Rev. C. E. Jameson stated Wednesday.

The rally will be held at Pope street Methodist church with Bishop H. A. Boaz, Bishop Ainsworth, Dr. Yang, (president of Soochow university, Soochow, China), and Miss Daisy Davies of Atlanta, Georgia, among the principal speakers. It will be the beginning of the "Bishops' Crusade" in this conference. The crusade is a two-year nation-wide program designed to revive interest in missions and to raise \$385,000 to pay off indebtedness against the general board of missions. The Rev. Mr. Jameson returned last Friday from attending a meeting of the general council of Methodist churches in New Orleans in connection with the crusade.

**PECOS LIONS LEADING
IN DISTRICT CONTEST**

District 2T has been asked to report 102 new members during the membership drive being sponsored by Lions International from January 13-20 in honor of Melvin Jones, secretary of Lions International.

**METHODIST LEAGUE HAS
SUNDAY PROGRAM AFTER
DISTRICT MEET CANCELED**

Young people of First Methodist church held their regular meeting Sunday evening after the district meeting which was scheduled to be held at Big Spring had to be called off because of the blizzard.

The report of that meeting as turned in by the league reporter follows:

"The subject for the program was 'These Things I Did.' It pertained to the religious vows received when entering the church. Annetta Lacey led the program and Mary Elizabeth Pidgeon read the scripture. Brother Jameson gave a very interesting and impressive talk on the meaning of the vows of church membership, and Robert Haley also talked on the real test of our belief. Van King is to have charge of the program next week.

"It is just about two weeks too late to bring up New Years resolutions, but we would like to submit a plea that each member resolve faithfully to arrive on time. League should start at 6:15 but everyone does not arrive until nearly seven. This gives only a few minutes for the program and creates a general disturbance. Please try to come at 6:15."

**HINES ANSWERS WIRES
ANENT HIGHWAY SURVEY**

The reply of Harry Hines, chairman of the state highway commission, to telegrams sent on Monday, Jan. 4, by Colorado and Mitchell county officials regarding the survey of the Colorado-Robert Lee highway route was as follows:

Wires were sent to the highway commission by Mayor J. A. Sadler, Judge A. F. King, and members of the Colorado chamber of commerce highway committee with R. F. Fee as chairman.

Mrs. Wade Scott, Mrs. P. C. Barber, and Mrs. Reichert were in Sweetwater Monday.

Luck Changes Tuesday**

Defeat at the hands of the Sweetwater basketball team in the Sweetwater gym Tuesday night cost the Colorado Wolves their leadership in the double round robin series being played by cage teams of football district 6-B. The score was 26-21.

It was the second away-from-home game for the Wolves this week. They played Merkel in Merkel Monday night, the score being 16-15 in favor of Colorado. The Wolves scored their winning points in the last few seconds of play after having trailed the Merkel cagers throughout the game.

Their victory over the Wolves gave the Sweetwater cagers the lead in the district, shunting Colorado to second place. Roby holds third place, Roscoe fourth, Merkel fifth, and Snyder sixth.

Only a Cold... but serious disease may follow!

Sinus Disease

According to leading doctors, "sinus trouble is one of the most prevalent and troublesome diseases of today. This, dreaded and sometimes fatal disease is caused by and follows the COMMON COLD."

All kinds of serious complications besides sinus infection follow the common cold. America's Public Health Enemy Number One, THE COMMON COLD GERM, relentlessly wages its attack to pave the way for such serious illnesses as bronchitis, pneumonia, tuberculosis, and other serious health-wrecking diseases. Frequently cold infection extends into the ear or mastoid.

During the common cold months, or winter season, it is especially important to take every precaution to protect your health. Quick changes of temperature should be avoided. Sudden changes of temperature, such as occur when going from a warm room into a cold one, makes it easy for you to "catch cold." Don't give a common cold an even break. Prevention is the best remedy. However, if you should catch cold, consult your family doctor before it has an opportunity to undermine your health.

For your health's sake, and to obtain the greatest value from the fuel you use, heat your entire house and provide adequate ventilation during the short winter season.

... Lone Star Gas System

The common cold germ is responsible for more than two hundred million illnesses each year.

Leaders from throughout the world participated in the program with the outstanding speaker Dr. Stanley E. Jones of India. Dr. Daniel A. Poling, editor of the Christian Herald and pastor of the Baptist Temple, Philadelphia, was another leader heard during the Wednesday and Thursday conferences.

All of the active bishops of the Southern Methodist church were present—E. D. Mouzon, John M. Moore, U. V. W. Darlington, W. N. Ainsworth, James Cannon, Jr., Sam R. Hay, Hoyt M. Dobbs, H. A. Boaz, Arthur J. Moore, Paul B. Kern and A. Frank Smith.

FOR TEXAS HIGHWAYS?

Texas' highways, to date, have cost Texas taxpayers approximately seven hundred and fifty millions of dollars. License fees from motor vehicles have contributed \$202,000,000. Gasoline taxes have accounted for \$176,000,000. Federal aid has donated \$91,000,000. **YOUR PROPERTY TAXES HAVE CONTRIBUTED \$281,000,000—MORE THAN ONE-THIRD OF THE TOTAL.**

Large trucks—those weighing more than 8000 pounds loaded—have paid a total of \$27,000,000 in license fees and gasoline taxes, or 3 3/4 per cent of the total cost.

Yet these trucks have been responsible for an additional cost of construction and maintenance amounting to approximately 50 per cent of the total—on amount far in excess of their contribution. These wider trucks result in 25 per cent increase in pavement costs.

Their bigger loads have required thicker pavements, costing from 35 to 60 per cent more; their size has made wider and heavier bridges necessary; maintenance costs have increased through their use and abuse of the highways.

Such extra expenditures are almost solely for the benefit of the big trucks, and are not necessary for the small trucks and passenger cars. **YET THEIR COST IS BORNE BY THE OWNERS OF PASSENGER CARS AND SMALL TRUCKS AND BY THE GENERAL TAXPAYER, WHO MAY NOT EVEN OWN A CAR, WHILE THE BIG TRUCKS THEMSELVES HAVE PAID ONLY 3 3/4 PER CENT.**

Any increase in present truck loads, size or speed limits will further increase the highway costs which all of us, the people of Texas, must pay.

Texas railroads provide and maintain their own rights-of-way; afford employment to 60,000 men and women (who are also taxpayers); pay large taxes in support of city, county, state and federal governments; and, in addition, pay annually more than \$900,000 toward state highway costs. The interest of the railroads in highway regulation is precisely parallel to that of the public.

NEW YEAR RESOLUTIONS

Now that the Christmas holidays are over, most of us can settle down and go to work in earnest, attempting to wind up the year's business, and such like. However, the holidays were enjoyed by us. We believe, and sincerely hope that the new year, 1937, will be one of the best that has ever been experienced by everyone, and as we have no grudge to hold, hope that everyone will prosper beyond their previous prosperings. 1937 holds many things in store, of which we nor anyone else knows anything about. Our prayer is that we may all be good. It is our wish that everyone will be benefited by a most happy 1937.—THE RECORD.

State Press in the Dallas News made a resolution and said it doesn't make much difference when a new year comes in. It is more important to consider what we will do with it than when we get it. It is a waste of time to make new year resolutions unless they are reasonable. If unreasonable, you won't keep them. You are such a wishy-washy you can't rely on yourself. Everybody ought to make good resolutions, even extravagances. It helps to imagine oneself keeping a self-promise. It is a good plan to write your resolutions, so they can be referred to later. If they are sound and keepable, you can remember them. If not sound or keepable you can get a laugh by reading them along about March. Provided you feel like laughing. Probably the best resolution is the simplest. Simply let us resolve thus: "Throughout 1937 I will be sensible. I will consult my brains." You may doubt whether you have brains or not. But you have them. Everybody has more or less. The Lord gives us brains, but the devil often makes use of them.

This column writer made a resolution to read and study the Bible more, be more loyal to the church, and try to practice the Golden Rule, all of which brings these Biblical paragraphs.

If a person doesn't read and study the Bible, how can he expect to secure the blessings and avoid the curses, so pointedly set forth in the Scriptures? A traveler over unknown roads carries and studies a guide book to direct him to the desired destination. Everyone is headed for one of two places. The Bible is the guide book to lead believers to the better home, and the traveler in that direction, to avoid snares and pitfalls, should study and follow its instructions. The unbeliever, headed for the other dwelling place, blindly follows the appetites and passions of the flesh as his guide book, and just as surely reaches the place he is headed for. Which flag are you marching under?

A person who is rich, highly educated and lives sumptuously in a great mansion, is classed by the world a high-up. A person who is penniless, uneducated, and lives meagerly in a slum home, is classed by the world as a low-down. If unbelievers, they are both lost and in the same wrecked boat with a sealed doom. If the Gospel had been preached to them and the high-up refused to accept the terms of salvation, and the low-down had accepted the terms of salvation, then the position of the two would have been

reversed, regardless of what the world thought. Read the account Luke gives of Abraham, the rich man, and Lazarus, the beggar, in chapter 16, verses 19 to 31. The three had died, went to the places prepared for them, and no change could be made. Man's thoughts and ways are not as God's thoughts and ways.

The history of Israel might have been far different if Rehoboam had listened to the advice of his elders and lightened the burden which his father had placed upon the ten northern tribes. But he hearkened to the evil advice of his younger companions and said: "My little finger shall be thicker than my father's loins. . . My father made your yoke heavy, and I will add to your yoke." It is not surprising that the ten tribes took up the cry, "To your tents, O Israel," and there was a breach in Israel which was never healed.

The Scriptures are given to believers as a guide book to direct them through life, and the Holy Spirit is their guide. The Scriptures are not written to unbelievers, for they can not understand them. Upon one occasion, when Christ was teaching, some unbelievers challenged his doctrines, and he said: "I thank thee, O Father, Lord of Heaven and earth, because thou hast hid these things from the wise and prudent, and hast revealed them unto babes" (or believers.)

WHERE IS GOD

He is literally everywhere, and in everything, and the only thing that can be far from Him is the selfish and sinful heart of man, and that only in the figurative sense.

We ask, "Where is God?" and He answers from everywhere, "Here am I." He whispers to us from the heart of the rose, and speaks louder in the laughter of a little child; but our ears are attuned to other things and we seldom hear Him. Yet he is always with us, no matter where we are, and hears the faintest cry from the troubled heart when it turns to Him sincerely.

WEARING OUR YOKE

The "yoke" of Jesus is His way of life, His way of working. To Him God was a very real, immediate, and abiding personal experience. In a world dominated by brute force Jesus demonstrated gentleness and lowliness of spirit. Among men who were self-seeking and self-centered, He freely surrendered His own life. Sustained in this by faith, love, hope, patience, He found all burdens light.

To the discouraged, depressed, and weary everywhere in life He threw out this invitation which, freely expressed, means, "Live as I live, work as I work, and you will find your work easy, and you will sing while doing it." His faith is not a way of escape from the realities of life, but a way of making the realities of life yield profit.

The godless outlook on life, the self-centered approach to work, lays on men a galling yoke, and cheats them of the profits inherent in life. The yoke of Jesus is easy and it pays.

WHERE IS HAPPINESS

Not in unbelief.—Voltaire was an infidel of the most pronounced type. He wrote: "I wish I had never been born."

Not in pleasure.—Lord Byron lived a life of pleasure, if any one did. He wrote: "The word, the canker, and the grief are mine alone."

Not in money.—Jay Gould, the American millionaire, had plenty of that. When dying, he said: "I suppose I am the most miserable man on earth."

Not in position and fame.—Lord Beaconsfield enjoyed more than his share of both. He wrote: "Youth is a mistake, manhood a struggle; old age a regret."

Not in military glory.—Alexander the Great conquered the known world in his day. Having done so, he wept in his tent, because, he said, "There are no more worlds to conquer."

Where, then, is happiness found? In John 16:22 Jesus said: "I will see you again, and your heart shall rejoice, and your joy no man taketh from you."

Those interested might remember that more than 200,000,000 evangelical (or Protestant) Christians in the world do not recognize the Pope as "holy father," or "his holiness," or as the spiritual head of the Church.

This vast group of Christians considers all claims of the papacy to leadership or supremacy in religious or world affairs at utter variance with the facts of history. Leaving out the personal qualities of the individual Italians who are elected Pope, evangelical Christianity holds that the office of Pope is at variance with the ideals and realities of Christianity.

More than 80 per cent of the population of the United States come from an evangelical, or Protestant, background.

HE'S GOT THE FLU

It's flu time now. Avoid it as you would avoid Satan. Especially, avoid crowds. If there had been no crowds there would have been no flu. What a pity all of us are not hermits. It's a good idea to wear a gauze mask. If the style makers in the beginning had decreed that inverted tin-buckets, instead of hats, be worn on the head, there would have been no spread of this awful malady. If you see a fellow whose proboscis gives evidence of breaking into a sneeze, stick your head under a culvert. Stay in the open air, so if a flu germ should chance to light upon your nostril, a kindly wind will blow it across a continent and plant it on the nasal organ of a Filipino or Hottentot.

At the close of the Revolution in 1783 in America every gentleman wore a queue and powdered his hair; imprisonment for debt was a common practice; there was not a public library in the United States; almost all furniture was imported from England; an old copper mine in Connecticut was used as a prison; there was only one hat factory and that made cocked hats; a day laborer considered himself well paid at two shillings per day (about 50 cents); Crockery plates were objected to because they dulled the knives; a man who jeered at the preacher or criticized the sermon was fined; Virginia contained one-fifth of the whole population of the country.

The battle for free institutions has always been a struggle against special privileges. It is not won merely by the creation of new forms of government. Against every attempt to make Government the instrument of selfish purposes a free people must constantly be on the alert. Every franchise granted by the people is a privilege justified only by consideration of the public welfare, and the conditions of its exercise should be such as to insure the performance of public obligation.

*New times demand new measures and new men;
The world advances and in time outgrows
The laws that in our father's day were best;
And, doubtless, after us some purer scheme
Will be shaped out by wiser men than we,
Made wiser by the steady growth of truth.*

[QUESTIONS THAT ARE ASKED ABOUT BANKING]

"What does 'liquid' mean in banking?"

THE term "liquid" in banking, is used to denote assets in the form of cash or readily convertible into cash.

A bank does not keep all of its depositors' money in currency and coins, for such money would stand idle. Some is used to buy Government or other bonds and commercial paper, and some to make short-term loans. These are liquid, because they may be quickly converted into cash. Long-term investments, such as mortgages, are not considered as liquid because they cannot always be turned into cash promptly and without sacrifice—even though they represent sound value.

One of the banker's problems is to keep his bank liquid enough to satisfy all probable demands of depositors for funds, and yet participate, by sound loans, in the constructive development of the community.

Recipe for a Comfortable Night's Sleep

...an Electric Heating Pad

Place an electric heating pad between the sheets at the foot of the bed and the safe, cozy warmth will enable you to sleep soundly all night. If you wish, you can throw off the uncomfortable heavy bed covers that leave you tired and chilled, and instead, have a warm, restful night's sleep under light covering.

PENNY WISE SAYS:

"If you don't like to crawl between cold sheets, let your heating pad take out the chill in a few minutes while you are getting ready for bed."

Electric Heating Pads are Priced From \$2.95 up

These pads have positive heat control through a handy and simple switch which gives three degrees of heat—low, medium and high.
