M. J. Dawson. A drink was served during the games, ice cream and cake after the games.

Mrs. Lavender Has Friday Morning Club

Hostess to the Friday Morning club was Mrs. Lee Lavender, who entertained only club members. Mrs. J. J. Billingsley made high score, Mrs. M. J. Dawson low, both receiving decks of cards. Luncheon was served at the Colorado hotel. Mrs. W. D. McClure is to hostess this week.

Renamed Class With Virginia Whipkey

The July social of the "U and I" class of First Baptist church, formerly the "Ever-Ready" class, was held last week at the home of Virginia Whipkey.

The social hour took the form of a birthday party, each class member being presented with a gift pertaining to her birthday month. Thus, firecrackers were given to those having birthdays in July, while those born in September received tiny notebooks.

During the business hour new officers were named as follows: President, Catherine Sigael; vice-president, Nancy Price; secretary, Virginia Whipkey; treasurer, Helen Farris.

Punch and cookies were served to class members, the class teacher, Mrs. Kirby Rice, and three visitors, Margaret and Jane Trulock of Paris and Freddie Watson.

'Housewarming' For Richardsons' Home In Country

A "housewarming" for the new country home of Mr. and Mrs. Jake Richardson was arranged by a group of their friends during the week-end. Couples gathered at the home of Mr. and Mrs. Austin Bush. Taking the Lange orchestra with them, they went in a body to the Richardson home 2 miles north of town on the new Snyder highway.

The home was showered with gifts. Dancing and other diversions were enjoyed.

Composing the party were Messrs. and Meses. Neal Pritchard, Bill Oswalt, Bush, Bill Dorn, Blue Goodwin, G. V. Harrison, Baxter Scoggin, A. L. McSpadden, Raymond Gary, E. V. Grantland, Charles Wyatt, Ed Jones, Jr., and Richardson.

Lull In Colorado Society Is Being Broken Thursday

The lull which has prevailed in Colorado's social life since—and during—the holiday week-end is being definitely broken today, Thursday, with a number of parties and social gatherings.

Mrs. Dell Barber and Mrs. M. J. Dawson are having two parties, one Thursday afternoon and one Thursday evening, both at the Barber home.

Dr. and Mrs. R. D. Bridgford will be hosts to a garden party at their home Thursday evening.

The Wulfjen brothers, Sam and Urda, are giving the Methodist Sunday school the usual summer barbecue, at Ruddick park Thursday evening.

Joe Berman Is Birthday Host

Celebrating his sixth birthday, Joe Berman, son of Mr. and Mrs. Philip Berman, had a party Tuesday afternoon at 4 o'clock.

Mrs. Bill Coffey entertained the children with songs and music. The birthday cake was served with ice cream and punch, balloons being favors.

Dana Marie Merritt Has Birthday Party

Dana Marie Merritt marked her eighth birthday with a little party for eight friends Tuesday afternoon from 5 until 7 at the home of her grandmother, Mrs. J. G. Merritt.

She had a tiered birthday cake and served it with punch. Suckers were favors.

BENEFITS OF ATTENDING TRAINING SCHOOL NOTED BY FIRE COMMISSIONER

Marvin Hall, Fire Insurance Commissioner, urges Texas fire chiefs and city officials to cooperate in sending to the annual Firemen's Training School representatives from every fire department in the State of Texas. The school will be held at College Station from July 19 to 23.

In a letter addressed to 250 fire chiefs, Hall said: "From past experience you know that the good of this school training cannot be estimated in any monetary way. We want to urge that you make every effort to see that your city officials are informed on this subject, and that your department is represented this year."

"In addition to the benefits of specialized training involved, it will be possible for over 250 cities to receive three per cent lower fire insurance rates by sending their representatives to the school," Hall explained. "If a city is receiving credit for a recognized waterworks system and fire department, and the requirements of the Texas General Basis Schedules are complied with, there is a three per cent credit provided in the key rate for full attendance as a student and satisfactory completion of all subjects of the course."

Beside representatives of the Fire Insurance Department, there will be some twenty-five instructors at the school who are experts in the fields of fire fighting and fire prevention. Prof. H. R. Brayton of A. & M. College will be director of the school.

"Our goal this year," Hall said, "is to top last year's record attendance of 450. Certainly, I know of no activity in which fire departments can be so profitably engaged as training themselves to be ready to serve the interests of their citizens in times of trouble."

E. M. Maiors, local fire chief, has announced that three members of the department are to attend the school, in that Colorado property owners be entitled to receive the reduction in key insurance rates.

Students in the Commercial department of Mary Hardin-Baylor College, selected for NYA Student Aid employment, put their skill into practice working for the cashier in the college business office, H. E. D. Walker, Business Manager, reported to J. C. Kellam, Texas Youth Director.

Methodist Sunday School To Frolic At Park Thursday

Barbecue And Entertainment Listed On Program; All Members Are Invited

Members of First Methodist church are to enjoy their annual barbecue and outing Thursday afternoon and evening at Ruddick park. Barbecue, furnished complimentary by Urda and Sam Wulfjen, along with other good things to eat will be on the menu.

Members of the Stoneroad Bible class are sponsoring the affair. The Rev. C. E. Jameson, pastor of the congregation, stated Wednesday that all members of the school were urged to be present. The program is set to open at 7 o'clock.

MENTAL PATIENT FLEES DONNED IN NIGHTSHIRT

SWEETWATER.—Officers and medical attaches were given a weird chase about daylight Monday, when Ed Hale of Longworth, confined to a local hospital for a mental illness, climbed through a window and fled in the direction of Roby.

Officers said Hale was in his nightgown when found hiding beneath the underpass north of town on Highway 70. His bare feet, it was said were badly bruised and lacerated.

Reports are that Hale had been ill several weeks, and that his son was keeping watch over him in the hospital room when Hale appeared, to sleep.

It was said the son slacked his vigilance, going out of the room briefly, when the man climbed through the window.

FRAME GARDENS AND SUB-IRRIGATION MAKE TEXAS GARDENS SUCCESSFUL

The frame gardens, small, well fertilized, easily irrigated and cared for, and protected against wind and extremes of temperature, are producing large supplies of vegetables for Northwest Texas women who otherwise might be without gardens. County home demonstration agents report that the use of subirrigation makes the frame gardens even more successful.

Many visitors have stopped to look at the 6 by 15 foot frame garden which Mrs. Clyde Meek of the Countyline home demonstration club in Hemphill county has located near the highway. Rhubarb seedlings flourish in three six-foot rows, and the Meeks have enjoyed tendergreens, radishes, Swiss chard, mustard, and turnips for two months prior to the time that they could have been grown in the larger garden.

Members of the Parmer county 4-H girls' clubs have 63 frame gardens. The 6 by 12 foot garden of Dottie Dell Quickel, garden demonstrator of the Bovina club, furnished the vegetables which were served at a dinner for her teachers.

English peas planted in February by Mrs. C. T. Murphy of the Margaret club in Foard county have supplied the family with fresh peas and in addition Mrs. Murphy has already canned 20 quarts.

Mrs. Murphy's daughter, Leota, has a frame garden which has supplied lettuce, mustard, spinach, carrots, and radishes for the family table.

Youths genuinely interested in farming who want to work on a project at one of Texas' agricultural schools this summer and attend special agriculture courses may communicate with District NYA offices at Marshall, Dallas, Houston, Fort Worth, Waco, Austin, San Antonio, Amarillo, Lubbock, or San Angelo. About 550 youth will be selected for the project and training course.

DECREASE IN BANKRUPT FARMS NOTED IN TEXAS

Farm bankruptcies in Texas last year showed a little change from the year before, 188 being reported against 177 in 1935, figures released Wednesday by the Bureau of Agricultural Economics show.

Farm failures represented 24.8 per cent of all bankruptcies in the State, which totaled 714 in 1936 compared with 849 the year preceding.

Farm bankruptcies in the United States decreased 15 per cent in the fiscal year ended June 30, 1936, compared with the year before, corresponding figures being 3,642 and 4,311. A total of 5,292 cases of indebtedness among farmers was adjusted by composition or extension under the provisions of the national bankruptcy act, a decrease of 687 cases from the 5,979 adjusted in 1934-35.

The decline in farm bankruptcies paralleled a similar drop in bankruptcies as a whole, which fell from 52,008 in 1935 to 48,527 in 1936. All classes showed decreases except employees and professionals, which gained from 31,576 to 32,811.

A CHILD'S HABITS

AUSTIN.—A child's habits are responsible, in a large measure, for their mental actions in later life, according to Dr. Geo. W. Cox, State Health Officer. A child of five or six years may have a bad temper. He can be taught as he grows older, to exercise self control so that it will not often be manifested. It would be better for him had he acquired a good temper instead of a bad one.

Today the medical profession understands more fully the enduring influence of habits that begin in the earliest years of life, in the nursery or even in the cradle. In the young child, as a result of habit, certain types of behavior become established.

Perhaps the child had learned while yet an infant, that he could get what he wanted if he cried long and loud. Perhaps he had learned, when a little older, that bad behavior, as tantrums, screaming, rolling on the floor or sulking, brought him what he wanted after his request had been refused or ignored.

If he had this experience once, you may be sure that he would repeat the action the next time the occasion arose. If he found that such actions did not bring the desired results he would not try it again.

Other behavior habits, good and bad, are acquired from imitating

older children and adults. In this way many likes and dislikes, tastes and ambitions which in later years become crystallized into character habits have their beginning. Calmness and poise, as well as nervous and panicky behavior habits established by imitation and made permanent by repetition. The elders are responsible far more than they realize for the conduct of the child in the family. In this we see a new meaning of the old adage, "As the twig is bent, the tree is inclined."

POULTRY SHIPMENTS UP
AUSTIN.—Poultry and egg shipments from Texas to interstate points during May increased substantially over May, 1936, according to the University of Texas Bureau of Business Research. Poultry shipments totaled 89 cars, against 32 cars last year, and egg shipments 76 cars, against 34 cars a year ago—gains of more than 71 per cent and 123 per cent respectively. Receipts of eggs in Texas from out of State points totaled 24 cars, against 18 cars during May last year. Of the egg receipts 21 cars came from Kansas and one car from each of the states, Illinois, California and New York. Last year all eighteen cars came from Kansas.

Agricultural labor and domestic service in private homes are exempt from the provisions of the Texas Unemployment Compensation Act.

The Texas Unemployment Compensation Act provides that willful refusal to pay contributions to the unemployment trust fund, or to make reports to the Commission, can be punished by a fine, of as much as \$200 or imprisonment for as much as 60 days, or both, for each offense. This penalty is in addition to the interest charge.

Delinquent contributions to the Unemployment Compensation fund bear interest at the rate of one per cent per month. Already the Commission has collected over \$2,000 in interest on past due contributions. Contributions to the Texas Unemployment Compensation Commission for the month of May are due on or before June 25.

Snyder Voted Next Host For Meeting Of District Lions

Eight Coloradoans Present At Hamlin Session Held Tuesday Evening

The next meeting of Group 5, Lions Clubs, is to be convened at Snyder with Lions of that community entertaining. Election of the Scurry county capitol was announced after a vote on the question at quarterly meeting in Hamlin Tuesday night.

Principal address before the group gathering was delivered by District Governor Joe Pond of Colorado who spoke from the subject, "Service To Your Fellow Man." Another spirited address on Lionism was given by Omer Burleson of Anson, prominent in affairs of the service organization. Included in the delegation attending from Colorado were Pond, Jack Helton, W. W. Porter, Jake Richardson, Dr. R. D. Bridgford, Dale Warren, Dick Billingsley and Coy Harris. Frank Farmer, past president of the Snyder club, was elected group chairman, succeeding Arlie Castle of Hamlin.

L. J. TAYLORS TO FT. WORTH, DALLAS

Mr. and Mrs. L. J. Taylor and children left Thursday morning for Fort Worth and Dallas to visit the Frontier Fiesta and the Pan-American exposition. They were to spend Thursday in Fort Worth viewing the new Philco radios, which will go on display here next Tuesday at J. Riordan's store. They planned to return home Sunday.

SCATTERED RAINS SERVE TO CHECK TORRID HEAT

Scattered rains in West Texas Wednesday night brought relief from the heat. Only a light shower fell at Colorado but Snyder reported a heavy rain. The rain was heavier in vicinity of Abilene and Stamford, extending west from those communities to cover a considerable territory.

MARTIN HAS HARD TIME KEEPING COUNTY ATTY

The Martin county commissioners' court seems to be having hard sledding in keeping the county attorney's office filled. The office was vacant Saturday for the second time within six months after Edward Brown, appointed a few days before, tendered his resignation and returned to his former home in Abilene.

MUSEUM TO BE COMPLETED

AUSTIN.—The new Memorial Museum building at the University of Texas will have been completed and ready for occupancy by the beginning of the next long session, it is expected. This structure is already far enough advanced to be a slightly object on the newer part of the University campus. It is situated a few blocks east of the original forty acres upon which most of the buildings of the institution are grouped. The exterior of the building is practically finished and work on the interior is progressing according to contract schedule, it was stated. It is so constructed that additional units may be added as required. An appropriation of \$225,000 made by the legislature will be available for furnishings and equipping the building for exhibit purposes. When completed the many rare and valuable collections of various kinds which formed the wonderful array of exhibits that were a part of the University's Centennial celebration last year will be transferred to the new building.

WILLIAM McCRAW, TEXAS ATTORNEY GENERAL, APPLIED TO THE NATIONAL YOUTH ADMINISTRATION FOR EXTENSION OF AN NYA WORK PROJECT HE HAS SPONSORED AT THE STATE CAPITOL, FROM WHICH A LARGE NUMBER OF YOUTHS HAVE GRADUATED TO FULL-TIME EMPLOYMENT.

About 30 youths are now employed part-time on the project doing clerical work, J. C. Kellam, Texas NYA Director, said.

Employees over 65 cannot participate in the Federal Old-Age Benefits program. Such workers are issued social security account number for state unemployment compensation purposes only.

Employers who hire eight or more workers during any part of as many as twenty different days, each day being in a separate calendar week of the year, are subject to the Texas Unemployment Compensation Act.

TWENTY-FIFTH BIRTHDAY OBSERVED BY HOSPITAL

Twenty-fifth anniversary of the opening of the State Sanatorium at Carlsbad was celebrated Saturday by 250 employees and some 800 patients of the institution. A barbecue was given in pecan mott south of the \$2,000,000 plant. Thousands of Texans with quotas taken from this and other counties of the area, have gone through the hospital since its inception.

SCORES OF LOCAL FOLK SEE BIG SPRING RODEO

Colorado furnished a good quota of visitors at the Big Spring rodeo given in the Howard county city as a National Independence Day attraction. The show was continued through Tuesday night with capacity crowds witnessing each of the performances.

COLORADO AND LORAIN BANKS ARE ISSUED CALL

The City National bank at Colorado and First State bank at Loraine were included in institutions to which calls were issued Tuesday asking for condition as of June 30. Call statement by the National bank came out of Washington and the other from Austin.

POWER PRODUCTION UP

AUSTIN. Electric power production in Texas during May increased sharply over both the preceding month and the corresponding month last year, according to the Bureau of Business Research of The University of Texas. Reports from eighteen of the largest power companies of the State show a total production of 202,000,000 kilowatt hours during the month, an increase of 7.8 per cent over April and 21.7 per cent over May last year. Consumption in each of the major groups increased substantially—commercial consumption increased 5.9 per cent over April and 15.5 per cent over May last year; industrial consumption increased 9.9 per cent and 24.4 per cent respectively; residential consumption was up 2.5 per cent and 16.2 per cent; and miscellaneous consumption gained 8.6 per cent and 27.4 per cent respectively over the two comparable periods.

An NYA work project on which 12 San Antonio youths may learn finger printing is being organized with the cooperation of the San Antonio police department, J. C. Kellam, Texas Youth Director, announced.

NYA youths assigned to a work project at Westernfield Park in Austin have completed grading the grounds and are now constructing a rock shelter house near the swimming pool. Sixty-two youths are employed on the job.

China imports of cigarettes, which averaged 7,310,000,000 annually during the 1925-30 period, receded to 75,000,000 last year as a result of increasing domestic production and tariffs.

BABY STICKS FINGER IN CRACK; RATTLER BITES

Carlée Gregory, 2, living with her parents on a farm near Abilene, found a crack in floor of the home Saturday. Out of curiosity she poked a finger through the vent. Suddenly she screamed and investigation disclosed that the child had been bitten by a rattlesnake. She was rushed to a hospital in Abilene for treatment. Her condition is reported satisfactory.

POLICE RADIO EFFECTS ARREST OF CAR DRIVER

Effectiveness of the police radio service was demonstrated in Abilene Monday. A Dallas citizen parked his machine at the curb and went into a cafe for lunch. When he returned his car was missing. Description of the stolen car was broadcast over the police radio and within a few minutes the driver was arrested in Breckenridge.

DOROTHY MORRISON IS 'MISS COLORADO' FOR BATHING REVUE

Dorothy Morrison is to be "Miss Colorado" at the Sweetwater bathing revue Saturday evening, it was announced this week from the office of Carl Blasig, chamber of commerce manager.

Miss Morrison is the niece of Mr. and Mrs. Earl Morrison. She will be a junior in Colorado High school this coming year.

BATHING REVUE SLATED ON SWEETWATER FETE SET TO OPEN SATURDAY

SWEETWATER.—Two of the outstanding features of the fifth division American Legion convention here Saturday and Sunday are: "Goddess of West Texas" beauty revue Saturday night and an address by Attorney General Wm. McCraw Sunday afternoon.

Registered legionnaires and members of the auxiliary are to be given reserved seats for the beauty revue, expected to be participated in by more than 20 of West Texas' loveliest girls. Winner of the title is to get an all-expense trip from her home town to both the Dallas and Fort Worth, exhibitions. She is to be crowned by Frank N. Watson of Dallas, assistant director general of the Pan American Exposition.

The address of General McCraw is scheduled for 2 p.m. at the Municipal Auditorium, with a seating capacity of nearly 2,000. It is to be open to the public as well as to the 400 ex-service men and members of their families here for the convention.

Feature of the church service Sunday morning is an address by Drury Phillips of Huntsville, state commander of the legion. Services are to be held at the First Methodist church, only three blocks from the convention headquarters hotel.

Among the prominent ladies auxiliary officials announcing their intention of being present are: Mrs. Will M. Benton of Amarillo, state president, Mrs. Tillman Jones of Post, national executive committee woman; Mrs. C. J. Austin, of Austin, state secretary.

Following the "Goddess" beauty revue Saturday night, a dance is to be given complimentary to all registered legionnaires and their ladies. It is to be held on the cool roof of the Blue Bonnet hotel.

General chairman of the committee is George D. Barber, manager of the Sweetwater Board of City Development.

SISTER MRS. W. G. O'NEAL SUCCUMBS

Mrs. S. W. Griffith of Austin, sister of Mrs. W. G. O'Neal of Colorado, succumbed Monday and was buried Tuesday afternoon.

Mrs. Griffith was also the sister of T. A. Davis of Westbrook and Mrs. W. E. Bryant of Roscoe, former Mitchell countian. Another sister, Mrs. Octave Lindley, lives in Claude, Oklahoma. The Griffith family lived in Colorado in 1923 and 1924.

Mrs. O'Neal, accompanied by her husband and Mr. and Mrs. Clyde O'Neal went to Mrs. Griffith's bedside last Thursday. Misses Jennie Fae and Evelyn O'Neal went to the funeral, being joined in San Angelo by Frank O'Neal. A husband and two sons survive Mrs. Griffith.

Eskimo kayak races are planned for the 1939 Golden Gate International Exposition.

**Farmer's Income
 During First Half
 1937 Strides High**

Conditions Better In Every
 Section Of Country, Is
 Claim Advanced

A triple alliance—higher prices, larger crops and bigger government payments—stepped up the farmer's income in the first half of this year to the highest level since 1930.

Commodity men estimated more than \$4,000,000,000 was paid for products of the 6,800,000 farms. That would top the previous half-year by 25 per cent and come close to the \$4,200,000,000 collected at the previous high point.

Approximately half the annual farm income flows into the till during the first six months. This means citrus fruits, vegetables, meat and milk account for the bulk of the income, since the major crop—corn, wheat, cotton, tobacco—come along later.

Drouth played an important role in this tremendous upswing. Lack of rainfall in 1934 and 1936 left world stocks of major crops at an unusually low ebb. Since steadily expanding industrial activity had fattened the pocketbooks of consumers, small stocks and poor harvests pointed prices skyward.

The situation was aggravated during the early months this year by the appearance of another dry spell in the midwestern "bread basket."

Corn, moving narrowly in the first quarter, rocketed 22 per cent to a 17-year top in late May. Analysis found the rise carried far beyond peaks attained by other cereals—which turned down in early April—and explained it was due mainly to scarcity of the feed for immediate delivery.

After several months of narrow swings, wheat slumped 18 per cent from its April high to the end of June.

With industrial use of cotton establishing new high records, fibre quotations began moving up early in the year. From 13 cents a pound, cotton pushed beyond the 15 cent mark in a few months.

An accumulation cloth inventories in mill hands coincided with mounting estimates of the probable cotton harvest to send prices plunging 18 per cent by the close of the half year.

Livestock prices maintained a steadily rising trend. Even in recent months, when every other major commodity group weakened, The Associated Press weighted livestock index nudged ahead three per cent.

Despite the downturn in some agricultural prices during recent months, grains and cotton remain above levels prevailing at the first of the year. Livestock stands 14 per cent ahead.

**COLORADOANS SEE FIRST
 BULL FIGHT JULY 4TH**

A group of Coloradoans spent the Fourth at Del Rio and across the international boundary where they witnessed a bull fight. For several of the party it was their first time to see one of the traditional Spanish sport attractions.

A hard rain fell during much of the time the visitors were seated in the open air arena, but that condition failed to check their interest in the show, according to "Tiny" Payne, one of the party and who is reported to have had a new straw topper ruined by the moisture.

Rats Exact Larger Cash Expense Than Local Charity Bill

At Any Rate The State Dept. Of Public Health Bases Ratio In That Respect

Rats last year cost the citizenship of Colorado five times as much as did the public charity bill, according to figures released recently by Dr. George W. Cox, State health officer. There were two rats for each person in Texas during the year and they cost the public \$15,000,000, Dr. Cox stated. On that basis Colorado had about ten thousand of the pests and they exacted a charge of slightly more than one dollar each during the year in their destructive pastime.

That the rats actually cost more than that figure will be attested by some Colorado businessmen upon whose premises the pests established homes. A few months ago hundreds of them were killed during an organized drive staged under direction of the county farm agent.

Light Vote To Be Polled In Special Election, Is Guess

Fewer Poll Taxes And But Little Interest In The Proposals Are Seen

Political observers at Colorado are accepting talk prevalent over the State that a small vote is to be polled in the special election August 23 at which a batch of proposed constitutional amendments are to be presented.

Most of the talk has been on the proposal authorizing a return to the fee system of compensating district, county and precinct officers. Plans have been made, however, for a systematic campaign for adoption of the amendments permitting state aid to adult needy blind and dependent children.

County officials, like the public, are divided on whether the Legislature should be permitted to put them back on the fee basis. District clerks at their recent Houston convention adopted a resolution favoring continuation of the salary system.

In addition to the fee system amendment and those expanding the social security program, the people will vote on eliminating double liability of state bank stockholders, allowing discounts up to 3 per cent for prompt payment of taxes, and authorizing Harris county to levy an additional tax for a road program.

The vote is expected to be extremely light. None of the proposals has stirred up the interest aroused by the \$20,000,000 bond issue for relief of the unemployed, old age pensions, legalization of 3.2 per cent beer or repeal of statewide prohibition. There never are as many paid poll taxes in off years as in the years when officeholders are named.

The 45th Legislature submitted fewer constitutional amendments than others in recent years. In addition to the six in August balloting, eliminating of the ancient anti-drinking clause of the oath of office will be before the voters in the 1938 general election.

IMPROVED SEED TO HELP MAKE BANNER COTTON YEAR

The planting of cotton seed of improved varieties, careful seedbed preparation, a good season in the ground and careful cultural practices are expected to contribute to a banner cotton year for Northwest Texas farmers and 4-H club boys, county agricultural agents in that section report. Planting on the contour, in addition to storing a large amount of rainfall for Lamb county farmers during the recent May rains, also saved hundreds of bushels of cottonseed. Cotton planted on straight rows was subject to washing and the young plants were either washed out or covered up, and will have to be replanted. The Lamb county agricultural agent reports that terrace and contour lines have been run on 25,000 acres since the turn of the year.

In Knox county, 75 club boys have planted 261 acres of cotton of improved varieties and are competing for \$100 in prizes posted by the ginners of that county.

The Howard county agricultural agent reports that 90 per cent of the cotton farmers in that county have substituted an improved variety of excellent staple length for the short staple seed that they have been planting. A 20 per cent increase in cotton acreage is noted for the cotton, but heavy rains have forced some farmers to replant.

Field crop demonstrations have attracted 33 of the 38 club boys in Dickens county. Most of these boys are planting either cotton or grain sorghum and in both cases certified seed is being used.

State School Fund Is Boosted \$3 Per Capita Next Year

Educational Leaders Of The County Pleased In News Out Of Austin

The board of education will in all probability keep the State per capita public school aid apportionment at its present figure or increase it slightly during meeting to be convened in

The State per capita apportionment was set at \$22 per scholastic under provisions of an order passed by the board late Tuesday. The figure, an increase of \$3 over the apportionment for last year, is the highest in history of the State. It was suggested here Wednesday that the action would put an end to hopes of reducing the ad valorem tax rate.

Austin this week, according to prediction supported by local school leaders. Apportionment for the fiscal year to close in August was \$19 per scholastic, \$17 of which has already been paid to the schools.

Ghent Sandeford, president of the board, stated Saturday that the school fund was in good shape and he saw no reason why the allotment could not be continued at \$19 or perhaps raised to \$20.

Size of the apportionment will affect ad valorem tax rate for school purposes to be set by the automatic tax board in late July or early August. Persons here familiar with the situation voiced an opinion the board of education would not hike the amount sufficient to call for an increase in the present tax rate, which is 20 cents on the \$100 valuation, 15 cents under the constitutional maximum.

WHOLE FARM AND HOME DEMONSTRATIONS ATTRACT LARGE ENROLLMENT

COLLEGE STATION — County agricultural and home demonstration agents in 146 counties have reported an enrollment of 439 families in the Extension Service whole farm and farm home, or whole ranch and ranch home demonstration program, according to S. A. McMillan, extension economist in farm management and chairman of the committee which drew up the plan.

McMillan said that the response to the demonstration was living up to the expectations of the committee. The group contemplated the establishment of only a few well scattered

demonstrations in 1937, he pointed out, and the report, although incomplete, is encouraging.

Extension district 1, the Panhandle area, leads in enrollment with 17 counties listing 54 demonstrations. Other high districts include number 4, in the Dallas and Fort Worth section, 14 counties and 52 demonstrations; and district 11, centering around Houston, with 18 counties and 49 demonstrations.

The demonstrators' first move is to list the improvements they hope to make the "front gate to the back yard" over a five-year period. Extension agents report that many farm families have already completed improvements suggested by the survey.

Reduction In WPA Rolls Ordered By Middle Of Month

San Angelo District Quota Placed At 4,495 Under Federal Order

Texas Works Progress Administration rolls in Texas are to be reduced materially by July 15, under mandate of order issued out of Washington. H. P. Drought of San Antonio, state director, stated Monday.

Drought said, in connection with the cut, additions to project payrolls except those occasioned by transfers between projects or by transfer of certified persons from other federal projects to WPA would be stopped until further notice.

Exceptions to this ruling, he said, would be authorized only in the case of replacements which are essential to efficient operation or to provide employment for persons who had left WPA for other employment which terminated through no fault of their own.

The July 15 quota for the state's 12 districts was announced as follows: Marshall 5,598, Dallas 9,311, Houston 8,175, Fort Worth 10,285, Waco 6,040, Austin 3,734, San Antonio 5,007, Laredo 2,768, Amarillo 2,614, Lubbock 3,195, San Angelo 4,495 and El Paso 1,257.

HD CLUBS OF MITCHELL COUNTY SPONSOR THEIR THIRD RADIO PROGRAM

The third radio program sponsored by the Home Demonstration clubs of Mitchell county was rendered Monday morning, July 5th from 11 to 11:20 over Station KBST, Big Spring, with eight 4-H club girls of the Dorn club participating.

The following program was given: Songs, "Have You Ever Been To Texas in the Spring," and "When It's Bluebonnet Time in Texas"; poultry demonstration work outlined; poultry skit by Laqueta Shepperd, Madelyn and Reeda Bell Franklin and Stella Harris; club pledge; clothing demonstration with sport clothes skit.

The girls had a picnic in the City Park after their program. All the girls who were on the program had attended the two days encampment and had their clothing work up to date.

They were: Ira B. Daughtrey, Marie Howell, Eudell Loveless, Madelyn Franklin, Reeda Bell Franklin, Laqueta and Ruth Shepperd, and Stella Harris. They were accompanied by Miss Emma Gunter, county home demonstration agent. The parade and rodeo were enjoyed by several of them after lunch.

CROPS, BUILDINGS IN CARR SECTION SUSTAIN LOSS AS HAIL, WIND STORM STRIKES

Cotton And Other Field Crops Battered Into Ground By Frozen Pellets; Residence And Outbuilding Moved

A freakish wind and hail storm, accompanied by a downpour of rain, did considerable damage to property and crops along a two-mile wide strip in the Carr section of northwestern Mitchell county Friday afternoon about 5 o'clock.

The wind, described by witnesses as "more straight than a twist," came out of a small cloud, driving residents of that section of the country to their cellars. Homer Gregory's house was twisted around and 50% of his crop was destroyed. His barn was blown off its blocks and his chicken house demolished. Practically all the Gregorys' chickens, which had taken refuge under the barn, and in the chicken house, were killed.

A barn and windmill on the Dick Gregory place were blown down. The L. H. Murphy house was moved 10 yards north off its blocks.

Crops all along the storm strip were estimated to have been 50% ruined. One man, Fred York, had taken out hail insurance just 24 hours before the storm struck.

The rain fell fast and was described as "almost a cloudburst" and was estimated to have measured from 3 to 5 inches.

Mrs. G. W. Webb Claimed By Death Sunday Morning

Funeral Held For Prominent Buford Resident On Monday Afternoon

Striking before a great many of her friends realized how seriously ill she was, death claimed Mrs. G. W. Webb, 51, prominent resident of the Buford section, at a local hospital at 3:15 Sunday morning. She had undergone surgery for appendicitis nearly a week before.

Mrs. Webb was born Dollie Decker in Arkansas on August 3, 1885. She came to Texas with her family in 1901 and was married to George W. Webb in Eastland on July 10, 1904. They moved to Mitchell county in 1906.

Funeral services were held at the Buford Baptist church Monday afternoon at 4 o'clock with the Rev. H. B. Naylor, pastor of the Buford church, and the Rev. A. D. Leach of Colorado officiating. Special song numbers were "How Beautiful Heaven Must Be," sung by Mr. and Mrs. Warren Williams, and "Mother," sung by Mr. and Mrs. Keith Miles.

Burial was in the Colorado cemetery. Pallbearers were Earl Hammonds, Kay McCarley, Vernon Ezell, Paris Yarbrough, C. F. Woodard, and Marvin Campbell. Nieces were flower girls.

Survivors in addition to Mr. Webb are four sons, Roy of Stanton, Foy and Lindley of near Colorado, and Brice of Colorado; two daughters, Mrs. Lewis Small of near Colorado and Doris Marie Webb of Buford. Two brothers, John Decker of Edmond, Oklahoma, and Filmore C. Decker of Cisco, and three sisters, Mrs. Frank Morren of Colorado, Mrs. Mittie Smith of Seminole, Oklahoma, and Mrs. Bertie Brice of Oklahoma City, also survive.

Among those coming from out of town for the funeral were Mr. and Mrs. J. W. Burkett and family of Sweetwater; Earl Burkett and son of Monahan; Mr. and Mrs. Wiley Harbin and family, Mr. and Mrs. Tom Webb and family, Charlie Webb and family, and Mrs. H. A. Collins and daughter, Mrs. Kimbrell, all of Eastland; Mr. and Mrs. Jordan of DeLeon; Mr. and Mrs. R. L. Wilson of San Angelo; Mr. and Mrs. Chesley Davis of Oklahoma City; Mrs. Mittie Smith, Mr. and Mrs. C. C. Gregory, and Mrs. Lee Maxey of Seminole, Oklahoma; S. S. Brawner of Fort Worth; Mr. and Mrs. Edd Howell of Snyder; Mrs. Ray Chandler of Eastland; Mr. and Mrs. Alvin Yarbrough of Midland.

STANDARD AND COL-TEX IN DISPUTE FOR FIRST PLACE AS SECOND HALF IS BEGUN

Stronger Competition Seen As Lions Club League Is Continued At Local Field; Public Support Invited

Standard Oil and Col-Tex clubs in the Lions softball league are tied for first place in second half of the contests after having played one game each. Standard won first half of the tourney, closed week before last, with a scoreboard rating of 1,000 percent. Col-Tex came in for second with 800 percent.

Standard and Little Sulphur were first to meet as second round of the schedule opened Monday night. The oil crew found that their previous experience of holding the Coles aggregation at almost will was not in vogue, due to fact the latter put up their best tight of the season. The score was 26 to 15.

Col-Tex, while winning their first game of the second round over Shell, have nothing to brag about. The refinery crew managed to nose out their pipeline opponent by only three runs. Errors were plentiful in both of the two contests, with Col-Tex Shell quite probably claiming a larger ratio of loose playing. Home runs featured both the Monday and Tuesday night contests.

The Sweetwater Sunbeam aggregation, that on previous occasions had taken victory from members of the Lions Club league, returned to Cantrell Field Thursday night of last week to rout Col-Tex, 13 to 6. In another game given on double-header card for the evening, Shell won by the margin of two runs over Gulf Oil.

Play during remainder of the second half will offer stronger competition and afford customers a stronger entertainment feature than during games reeled off during the first period, according to prediction supported by officials of the league.

Coloradans are invited to lend liberal patronage to the games, due to fact the small admission charge of ten cents goes into the Lions blind fund, financing a benevolence of strong merit. No additional charge is made when double-header attractions are given.

Gallant Fight For Life Lost By Miss Price Last Sunday

Well-Known Coloradoan Is Taken To Honey Grove For Burial Tuesday

A gallant fight for life was lost when Miss Callie B. Price, 51, succumbed at Root hospital Sunday afternoon at 3 o'clock.

Miss Price had been critically ill since undergoing surgery for a ruptured appendix nearly two weeks before her death. Her life had been despaired of time and again but each time she rallied. She was given several blood transfusions.

She came to Colorado 21 years ago from Honey Grove, where she was born and reared. Her birth date was April 14, 1886. Her parents were the late Mr. and Mrs. T. D. Price of Honey Grove. She made her home with a sister, Mrs. Henry Pond, and for the past 10 years had been employed as a saleslady, being one of the most popular and efficient in Colorado.

A funeral service was held at First Methodist church here Monday morning at 9 o'clock before the body was carried overland to Honey Grove. The Rev. C. E. Jameson, local pastor, officiated at the service here. Miss Price was active in the Methodist church, teaching a class of children. Pallbearers here were Max Beriman, J. W. Randle, U. D. Wulfjen, A. C. Connell, J. H. Carlock, and Tom Pritchett.

The funeral service in Honey Grove was held at 11 o'clock Tuesday morning at 9 o'clock before the body was carried overland to Honey Grove. The Rev. R. B. Hall, pastor, officiating. Burial was in the Honey Grove cemetery.

Survivors include four brothers, Walter Price of McKinney, R. P. (Bob) Price of Colorado, Oscar B. Price of Colorado, and Earl Price of Honey Grove; four sisters, Mrs. Ella Clark and Mrs. Jack Woods of Honey Grove, Mrs. Earl Smith of Windom, and Mrs. Henry Pond of Colorado.

Kiker & Son had charge of funeral arrangements, both here and at Honey Grove.

RURAL ELECTRIC LINES TO TAKE SERVICE INTO CHINA GROVE AND LORRAINE AREAS

Construction Starts On High Voltage Carriers During This Week; Citizens Of Other Sections Interested

Two additional rural electric lines that will carry service into homes of thirty-five families are being constructed this week. One of the lines is an extension of the initial project built out of Colorado into Buford and Dunn several weeks ago. The other is to serve farmers south from Lorraine.

The longer line, covering a distance of approximately five miles, is being built from intersection of the Buford-Dunn high line into China Grove. It will follow county road extending from Highway 101 in vicinity of the Little Sulphur crossing east to destination.

The Lorraine project, first rural project to be built in that part of the county, is to extend one and one-half miles south. An extension to serve citizens in Bauman and other communities further to the south is being sought by interested citizens.

Dewey Geer of Sweetwater, construction superintendent for the Texas Electric Service Company, is in charge of both projects. Approximately 18 men are being employed on the two lines.

Citizens west of Dunn and in the Ira section have expressed interest in proposal to string power line to serve those communities. Nothing of a definite nature, however, has been announced either by representatives of the rural citizens nor the electric corporation.

FRIENDS OF OTHER DAYS REUNITED FRIDAY AFTER BOARD ARRIVES IN CITY

Friends of other days were reunited Friday morning after arrival of the State Board of Control and party in Colorado.

John Wallace, member of the board, clerked in a store for Col. C. M. Adams at Teague in 1917 and 1918. Their meeting at the Colorado hotel Friday morning was the first in several years. Austin Rountree, who back in those years was employed by Col. Adams, was an other old time friend of the State official that he visited while here.

Claud Teer, chairman of the board, and J. C. Hall, Lorraine banker and member of the county locating committee, have been warm personal friends through a long span of years, it developed as they clasped hands upon arrival of the visitors.

"Charlie Adams is one of the finest men that I have ever known," commented Wallace after stating that he had known the Colorado citizen several years.

"And I can return the compliment as to John Wallace," said the Colonel through a broad smile.

NOLAN DELEGATION HERE TO GREET STATE BOARD

A delegation of Sweetwater citizens representing Nolan county committee in drive to have the State hospital located there, arrived in Colorado early Friday afternoon to greet the board of control party and escort them into the Nolan county city.

George Barber, manager of the Board of City Development, and J. H. Beall, Jr., chairman of the Nolan county hospital locating committee, were members of the party.

LUNCHEON CLUBS ASSET TO CITY, SPEAKER SAYS

Luncheon clubs having their objectives centered about service to others and the community in which they live, as the Lions, are ever an asset to the city in which they are found, Alonzo Phillips of Lorraine stated during an address at the Lions Club Friday.

The speaker stated that he hoped to see such a club organized in his home community and invited cooperation of the Colorado club in attaining that end.

NO FATAL ROAD CRASHES NOTED IN THIS DISTRICT

Captain W. W. Legge of Lubbock, chief of the State highway patrol for this district, reports that there were no fatal road accidents listed within the district during the Fourth of July holiday season. A number of minor crashes occurred, however. Four car accidents occurred in Big Spring.

PICNIC HELD SATURDAY FOR MAGNOLIA WORKERS

BIG SPRING.—Magnolia Petroleum Company executives and employees in West Texas assembled in Big Spring Saturday evening for a picnic and informal entertainment. Scene of the gathering was at city park and a crowd of approximately 200 attended.

The affair was for workers in all departments of the Magnolia company, operating in territory from Colorado on the east to Wink and Hobbs, New Mexico, on the west.

LIONS PRESIDENT SOON TO APPOINT COMMITTEE GROUPS FOR THE YEAR

Appointment of the several departmental committees in the Lions Club for the fiscal year is expected to be announced soon by Jack Helton who last Friday took over the position as president.

There are a number of important committee groups to be designated, one of which, the blind committee, has represented the service organization in extensive benevolent work.

It took an all-time record blast of 125 quarts of nitrolysoite to extinguish this fire at the Continental Oil Company well at Monument Field, New Mexico. The blast raged eight days but was finally tamed by Byron M. and Floyd T. Kinley, James Fire-Sighters, flown to the scene by Casper. So intense was the heat that high-pressure fire hoses carrying a full stream of water burned this paper during the conflagration.

Future of Dairy Herd Depends on How Calves Are Handled

"The future of any milking herd often depends on how calves are handled," says W. H. Arendt, dairy authority of the Purina Mills. "This puts a definite responsibility on the shoulders of the man who cares for the calves from the time they are dropped until they become part of the milking herd. It is not only cheaper to raise heifer calves than to buy cows, but by raising one's own heifers a herd can be built just about the way a dairymen wants it.

Feed Highly Important

"The importance of feed for the calf cannot be over-emphasized," Arendt says. "Feed must provide the things from which bones, sinews, muscles, and blood are made. A well developed frame, and depth in the middle are determined by what the calf gets to eat. First food for the calf should be the mother's colostrum milk. This milk is laxative and performs the job of setting the digestive system in motion. If it is necessary to take the calf from the cow, the calf may be fed from a pail. But nature has taught the calf to look up for its milk so it should be made to stretch its neck out to drink from a pail. As in nursing, the neck should be outstretched so that the opening into the rumen or first stomach is naturally closed, preventing milk from entering. The first stomach in a small calf is dormant. Whenever milk enters, it lies there and ferments. This causes scours.

Need More Than Skim Milk

"Milk alone will not provide all the things calves need for profitable growth," Arendt points out. "Milk is about 85 percent water, which means that a calf of any size really about seven pounds water and one pound solids. As the calf grows and develops its requirements for solid matter increase beyond what milk alone can supply for maximum growth. In a properly balanced dry feed calves are supplied with the nutrients they need.

"After years of research work the Purina Research Staff has discovered how to fill calf's needs through a complete feed known as calf starters.

By feeding a little milk at the start, then feeding calf starters with hay, the calf gets exactly what it needs.

Begin Feeding Fourth Day

"The new calf feed is given baby calves when four days old. It's kept before them at all times, but it is never advisable to place in the troughs more than a day's feed at a time, subjecting it to possibilities of becoming damp.

"The feeding schedule for calves worked out by Purina scientists calls for mother's milk the first three days, after which start with two quarts of milk per day working up to four quarts daily at beginning of second week. At end of second week, the calf should be getting five quarts daily, which should be continued through the third week. At beginning of fourth week, cut milk back to three quarts a day, at end of fourth week, cut out milk entirely. Along with this limited milk feeding program, keep calf starters, hay, and water before the calf. These directions are for Holstein and Ayrshire calves. For Guernsey and Jersey calves, the amount of milk is slightly reduced.

"By the end of the fourth week, the calf is used to dry feed so its weaned. No more milk is needed because the calf's complete needs are taken care of in calf starters, hay, and water. With this kind of feeding it isn't long before the calf is well on its way to becoming a profitable money-making first-calf heifer."

PICKED UP ALONG THE NEWS' PATH

"Twas a tired looking town Tuesday morning, and many were the cracks about 'resting up from my vacation.' Nobody likes a holiday that begins a week, anyway. . . .

Deaths of two well-known Mitchell county women and the tragic suicide of a well-known Mitchell county girl saddened the week-end for Colorado. . . . But the county was lucky as to traffic accidents and fireworks misfires, greatest tragedy sources on the Fourth and all other holidays. . . .

A hustler is that Walter Grubbs, who recently rustled enough Abilene Reporter-News subscriptions to win a free trip to Carlsbad Caverns next week, then turned in and helped his brother John get enough subscriptions to go along. . . .

When J. D. Harvey, former minister to the Church of Christ here, arrives in Colorado this week for a visit, he will have just been through a sad experience—that of visiting in his former home, New London, for the first time since the school explosion there snuffed out the lives of so many children the Harveys knew. . . . After leaving here the Harveys lived in New London for over a year before going to Paducah, Kentucky, their present home. . . . Mrs. Harvey and the girls visited in Dallas this week while Mr. Harvey was in New London.

From the "boss" and his wife down to the newest clerk they were deeply touched by grief in the Max Berman Department store Tuesday morning. . . . They missed—and knew that they would always miss—the quick, quiet step and the quick, quiet smile and the never-failing interest and good humor of one Callie Price. . . . Miss Price had been too ill to work for more than two weeks, but until Tuesday morning there had always been that hope, fluctuating though it was, that she would "be back soon." "Just think," Mrs. Berman said, "she was here seven years. We miss her so." . . . During the nearly two weeks when Miss Price fought so gallantly to live her fellow-workers were "up" when she was better, "down" when she was worse. . . . On the days when hope for her recovery flared anew they'd sigh and say, "Maybe I can sleep tonight." But the next day there was always bad news until at last the worst news came—"Miss Callie" had gone. . . .

Winning contests seems to be a cinch for Mrs. O. D. Huff of Butler camp. . . . You'll recall that she won quite a sum of money by coming out second in a state-wide picture con-

KIN MIX-UP PUZZLING TO LOCKHART WRITER

LOCKHART.—J. Henry Martindale, columnist on the Lockhart Post-Register, considered the relationship between the families of Richard and Clarence Heidemeyer, father and son, of the Rogers ranch community, near here, then wished he lived near Philadelphia to be able to lay the problem before one of the fabled logic men of the City of Brotherly Love.

The chain of speculation upon possible combinations of relationship sprang from the fact that Mrs. Richard and Mrs. Clarence are sisters, making father and son brothers-in-law. Furthermore, the situation makes Clarence his father's brother and his father's wife becomes the mother-in-law of his wife.

"As he patched and mapped, Martindale obtained these combinations: "Clarence's children are Mr. and Mrs. Richard's grandchildren and nephews and nieces, but the children being accustomed to direct action call Richard 'grampa' and his wife 'auntie.' As a person's mother's sister is his aunt, Clarence's wife is his aunt—far fetched here, however—and his father's younger children are his cousins.

"Richard's and Clarence's children are cousins, yet Richard's children are uncles and aunts of the others. Clarence's children being sister's nephews and nieces, therefore are his cousins. Mr. and Mrs. Richard are Mr. and Mrs. Clarence's parents and also their brother and sister, which would make Richard and his wife their parents, and Clarence and his wife brother and sister. . . . But at this point Martindale sank naturally gasping: "God only knows what else could be figured out."

CHURCHES

FIRST PRESBYTERIAN CHURCH
W. M. Elliott, Pastor
Church School at 9:45. Jerold Riordan, superintendent.
Sermon and worship at 11 a.m.
Evening service at 6 p.m. The public is invited to attend all these services. They will do you good.

FIRST METHODIST CHURCH
C. E. Jamesson, Pastor
Now that the "fourth" is over and there is nothing else exciting suppose we try going to church and Sunday School Sunday. Our fans will keep you cool and you can sleep comfortably if the preacher can't keep you awake. Let's give especial attention to the building up of our Sunday School attendance.

We are delighted with the increased attendance and interest in the services at the park. My, how proud we were of our young preachers Elliott and Haley. Just watch them go forward. Don't let us down Sunday but everyone be in your place.

FIRST CHRISTIAN CHURCH
Bible school, 9:45.
Preaching, 11 o'clock with Eugene Heley in the pulpit.
The Woman's Missionary society will meet Monday afternoon at 3 o'clock with Mrs. "Doc" Simpson at Fairview. A full attendance is requested.

National Youth Administration boys working on a park project located near Zuehl, Texas, on the Bexar-Guadalupe county line, have constructed a low-water concrete bridge over the Cibolo creek which withstood a serious flood test early in June. Before the bridge was entirely completed, the concrete road slab was left exposed to the full force of a 10 foot rise, and later a 16-foot rise, in the creek. The Bexar county engineer complimented the NYA project superintendent on the excellence of the construction work which the flood waters left undamaged.

CARD OF THANKS

May we express our most sincere thanks and appreciation for the many acts of kindness shown us during the sad hours of the passing of our beloved daughter and sister.

MR. AND MRS. G. A. BLOOD-WORTH AND FAMILY.

At Thompson Park in Amarillo 75 NYA youths are sodding 15 acres with Bermuda grass; planting trees, shrubs, and flowers; constructing a rock retaining wall around the tennis courts; building three hard-surfaced tennis courts; constructing a rock drainage wall around the area; and making minor repairs to the swimming pool.

KNOCKOUT DEAL TO CLIMBING COSTS BY GOODYEAR'S NEW SURPRISE TIRE "R-1"

RIGHT ON THE NOSE! New "R-1" is built-to-order for millions who want tires with real nation-wide reputation—THE leading make—at the price they're used to paying!

Rubber Industry's Leader Meets Challenge of Rising Prices with Startling New Product that Hits Value Bull's-Eye for Millions!

—is based on the principles of long-wearing economy, safe going and super-mileage learned in building more than 23,000,000 Pathfinders—and "G-3" All-Weather tires, most famous in the world!

You'll get a thrill out of the size and brawn and beauty of the new "R-1." Lots of "beef" for more mileage—12% more rubber in the tread. Sure-footed on the turns—because shoulders are higher and broader. More traction—more road-contact—because the tread's flatter and wider.

It's packed with top-value Goodyear features: Center Traction—the Goodyear Margin of Safety; wider riding-ribs for easier steering and slow, equalized wear; patented Supertwist Cord in every ply for maximum blowout protection.

See it for yourself! Ask your nearby Goodyear dealer or Goodyear Service Store to show you the "R-1" in the right size for your car. Don't wait—see it and start saving now!

HERE'S something *done* about "higher prices"—while millions of car-owners stand up and cheer! Labor is up—so are materials and all kinds of production costs—and that's no secret.

But Goodyear—greatest tire-maker in the world—has been fighting and working to solve that problem for you. With brilliant success, as these facts show!

At the first real threat of rising costs, Goodyear went to work—using all the resources, facilities and experience that have made Goodyear the greatest name in rubber. Brains and ingenuity went into that job—won with a knockout of a new tire, AT THE PRICE YOU'RE USED TO PAYING!

Biggest tire-thrill in years!

Colorado First In Swim Contests At Big Spring Monday

Local Contestants First In Practically All The Events At City Pool

BIG SPRING.—Colorado swimmers made off with the lions share of honors in the second annual water carnival held at the city swimming pool here Monday morning.

However only competition the group encountered was from a group of Big Spring lads in the under 110 pound class. It was Howard Thomas, son of Mrs. Ruby Smith, who won individual honors for the lightweight class by placing first in the breast stroke, back stroke and free style events.

Colorado took high points for individuals over 110 pounds for diving, and for team honors. Bodzin was winner of the diving event and Pennebecker, fellow Coloradan, was second. Other Colorado swimmers taking part were B. Smith, and Tommy Ratliff. Jack Harris, Lamesa, competed.

A large crowd had gathered around the pool to witness the contests. Thomas J. Williamson, in charge of the meet said that water contests in other towns had caused several contestants entered here to withdraw. Sweetwater and Lamesa had promised to send teams which failed to appear here.

SELF-ADMINISTERED POISON CLAIMS LIFE OF LORAINNE MOTHER

Self-administered poison, according to a coroner's verdict, caused the death of Mrs. Bernice Bloodworth McKinney, 21-year-old mother, at the home of her parents, Mr. and Mrs. G. A. Bloodworth, near Loraine at 1 o'clock Tuesday morning.

Members of the Bloodworth family were awakened Tuesday shortly after midnight by Mrs. McKinney's gasping. Medical aid was hastily summoned but she died within a few minutes. She was fully dressed and had left a note containing directions as to her funeral.

J. A. Crosby, justice of the peace in the Loraine precinct, gave a verdict of suicide. The poison used was strychnine.

Mrs. McKinney was born and reared in Mitchell county. She attended Colorado High school. She was married to Albert McKinney when very young. They were divorced a short time ago. His whereabouts are not known. Mrs. McKinney leaves a daughter, Dilores, age 4.

Her mother, Mrs. Bloodworth, was visiting in Fort Worth at the time of the tragedy. Mr. Bloodworth formerly worked in a barber shop at Colorado. The Bloodworth family is well-known in this section.

Funeral services were held Tuesday afternoon at 5 o'clock from the First Baptist church in Colorado, the Rev. Mr. Capps and the Rev. A. D. Leach officiating. Pallbearers were Thos. J. Riden, Oral Lukas, Jim Womack, Charles Woodard, Warren Williams, and E. T. Smith.

Survivors in addition to the parents and the little daughter are two brothers, Joe and Douglas, and four sisters, Ruth, Billie Fae, Nell, and Geneva, all of whom are still at home. The paternal grandfather, W. M. Bloodworth, lives near Colorado.

Kiker & Son had charge of funeral arrangement.

DIONNE QUINS ARE "BUDDING LINGUISTS"

Those proud little three-year-olds, the Misses Dionne, are rapidly becoming "conversationalists." Their "listening vocabulary" is increasing daily and in their speaking vocabulary, there are many words which they can pronounce distinctly. Their first words were "le docteur" and "doctevoir" which are French for "doctor" and "goodbye." The first "English" words they learned were "da," "ball" and "doll." Although they are being taught French, the Dionne Quins have managed to pick up several English words, so that they can truthfully be called "budding linguists."

The famous babies of Canada are rapidly becoming little ladies. Their survival and remarkable development has been one of the greatest achievements of modern science. Of course, an important factor in their growth has been their diet.

The medical staff chose Quaker Oats as the cereal for the Quins. Oatmeal, with milk, as you know, is a fine source of food-energy, muscle-building proteins and body-building minerals. And, most important of all, oatmeal contains a rich supply of Vitamin B for combatting nervousness, poor appetite and constipation when they are in poor condition due to lack of that vitamin.

So the next time you choose a cereal, think of the Dionne Quins who eat Quaker Oats every day. And remember, that what Quaker Oats has done for them, it will likewise do for you.

Nearly everybody knows Dr. J. B. Cranfill at Dallas. He has written such a good column article that we have decided to reproduce it here. This is his article:

OUR DYING LIBERTIES

Baptists, above all people, are a liberty-loving people, and the trend of affairs, both in governmental and religious fields, is enough to sound the note of alarm to every lover of democracy in America. Frankly, the picture looks dark and foreboding. Would to God America would awake in time to save this beloved land from the terrible clutches of Communism.

Patrick Henry is dead. The liberty for which he appealed in St. John's Church, Richmond, is dying. The eloquent words of Dr. John R. Sampey at the recent Southern Baptist Convention on the totalitarian state were as the voice of one crying in the wilderness. This wilderness is becoming impenetrable. Lofty traditions that have stirred in liberty-loving hearts since the days of Washington are yielding to Socialism, Communism and anarchy. The Constitution of the United States increasingly is used as a football of circumstance.

The Supreme Court of the United States, for which we have erstwhile held abiding reverence, is now prominently and openly telling its findings must track with the executive branch of government rather than function independently as required by the Constitution.

Cautious and merciless contempt has been poured upon its Judges, who have long enjoyed the protection of the highest sanctities with which men of lofty legal minds were ever invested. Strangely enough these sinister objectives are being achieved under the name of one of the major political parties.

I can remember the bloody years of the war between the States. I remember the oratory—the fervent oratory—of the Sons of the South. In glowing perorations they acclaimed and glorified the rights of the States. We were told that the Civil War was not being fought about slavery—slavery was not the issue at all, but the rights of the States to have slaves if they wanted slaves or prohibit slaves if they wanted freedom. So went the oratory, and we cheered it to the echo.

If those old-time Southerners, one of whom was my sainted father, had been told that the dear old South, in which they were born, reared and tutored, would later turn its back upon all their hearts held dear, and sanction or keep quiet in the midst of a wild riot of assault upon the principles for which countless thousands of them died they would have felt that they were dying in vain.

Liberty of action is disappearing from our national industrial life. The nation is homecombed with violence. Some are being killed. Greater bloodshed appears to be just around the corner. In my youthful ignorance, I thought a strike was an occasion where a worker who did not want to work gave up his job and I went his way, but that is not a strike. Increasingly strikes are becoming double-distilled anarchy.

Not only is this true, but it is becoming truer day by day. With John L. Lewis as the leader and sponsor of the present industrial revolution, anything can happen. The sit-down strike is anarchy; and now it seems as though, since the Supreme Court validated the Wagner Act, there is an epidemic of lower court decisions on the side of the revolutionists.

During the administration of Grover Cleveland, who was a Democratic President, he called out the militia to quell a Chicago disturbance and protect the property of those who were paying taxes to the Government. Many have looked in vain for gestures of this kind now. None of us will forget the first sit-down strike in Michigan. A subservient Governor, who, with inspiration said to be from Washington, championed the strikers.

Contracts were signed, but with the John L. Lewis psychology there is no sanctity in a contract. His minions are breaking these contracts wholesale, and in a fashion so sinister that it would in other days have aroused a stentorian outcry in pulpit and in press.

The new political theory appears to be that, whereas industrial plants had some recourse in criminal picketing, the owners of the property are now the criminals, and the courts are beginning to enjoin them from protecting those laborers who are willing to go on working, but who, besieged by these lawless pickets, are held in a state of terror and find themselves now outside the law. The Secretary of Labor nonchalantly said during the high tide of the Michigan anarchy that she could not see that the sit-down strike was illegal!

There is now pending in Congress an act which if adopted will debar every employer from the privilege of making an agreement with his employees concerning hours of work or wages. It will apply to all classes of labor. What with our rubber-stamp Congress, we may count it already enacted into law, therefore there will be no rights among erstwhile industrialists.

Happily, some of the Senators elected as Democrats have had the courage to declare themselves against any compromise in the Supreme Court bill. When the issue gets to the floor of the Senate they will fight and filibuster until this Court-packing plan is dead. But others, many of them elected by Southerners, are utterly subservient to the demand that the Court shall be packed to meet Administration demands.

III.

Let no reader of this newspaper mistake me. My father and mother were Kentucky Democrats. When they came to Texas they became Texas Democrats. I was nurtured in a Democratic atmosphere, and at three years of age saw my dear father take down his rifle, string his knap-sack around his shoulders, anchor his revolver to the horn of his big Texas saddle and fare forth for the front. He served the Southern Confederacy four long grueling, harrowing years, and received physical disabilities that in after years finally led to his death. I was never a Republican or a Populist or a Greenbacker. I am none of these now.

An age-old principle of Baptists is that we disavow and oppose any union of Church and State. But, with only one exception, so far as I am advised, all the Baptist schools of America have been receiving Government aid from the so-called New Deal (our Baptist theological schools do not take this money. Cumberland College in Kentucky does not. A. S. B. C. report at New Orleans said the other Baptist colleges do.—E.A.). With Government money coming to it, every avenue of American life appears to be accepting the new views.

There is an increasing army of mendicants in the United States who are being regimented on so-called relief rolls, and who are being educated to the idea that they will never have to work again. Indeed, we are now confronting what Dr. Sampey so well called a totalitarian state. We would have expected Baptist institutions of learning to have scorned the tender of Government money to help them in their school work, but they have welcomed it.

Recently one of our United States senators said that we were being merged into a Fascist State. In my feeble mind, I am not able to differentiate between Socialism, Fascism, Sovietism, Hitlerism and

American New Deal-ism. In varying degrees, they are all the spawn of the same reptilian concept: Man is a pawa, to be moved at will by a dictator. Mothers are to be nurtured not for purposes of those high nobilities of motherhood once so dear to our hearts, but as mothers of sons who are to be cannon-fodder in succeeding wars toward which the whole world is hastening—a theory openly sponsored in at least one of the European States.

If the objectives of the present Washington set-up had been projected in the name of the Republican Party, almost to a man the South would have revolted at it even unto blood.

But now, with all these billions of money to subsidize every avenue of American life and with all the sanctities of our glorious past, we are blindly marching toward ruin, the glory of the South's high traditions trampled, while we stand mute with folded hands.

What will Baptists and other Christian citizens do about it? If there is room for difference of opinion on that, there cannot be any difference toward a supineness that would pass by on the other side and ignore the raping of American principles of government and freedom.

IT IS GOOD BUSINESS TO SPEND WITH COLORADO MERCHANTS

Commodity prices are now on an upward trend—a sure sign of more prosperous conditions. It is obviously good business to buy now in anticipation of future requirements if possible, and it is a matter of self-preservation to spend what you do spend with Colorado stores.

Too many of us do not realize that Colorado stores buy in the same markets with the very stores in other cities that we are tempted to patronize. We do not stop to recognize and analyze the universal human tendency we have to think that the fields are greener elsewhere.

Our retail establishments have worked for years to make us proud of Colorado stores. Their stocks are adequate, their prices are equitable. When we think carefully instead of obeying our impulses we realize these things. And it is important that we do think, for our continued success and prosperity hinge thereon.

As we have said before, twenty five per cent of our people depend on Colorado stores for a livelihood. They have an annual payroll that runs into tens of thousands of dollars and they spend huge sums locally in other ways. If they sometimes fail to have what we want, they will gladly get it for us—and from the same source patronized by the merchant from whom we are tempted to buy in some other city. On a thousand other occasions they will have what we want, when we want it.

Let us, then, patronize Colorado stores. They are not only more efficient than we may have realized, but more essential. Quality and price being equal Colorado stores afford a wonderful opportunity to keep Colorado money in Colorado. Money spent elsewhere doesn't help that twenty five per cent of our people who depend on Colorado stores for their daily bread, doesn't build any schools, pave any streets or accomplish any other civic improvements.

Pay your bills promptly!! A good credit record is your greatest asset—Guard it.

OUR ENGLISH LANGUAGE

Our English teacher, J. V. Glover told his spelling class: Three different words are spelled as follows: To, Too, Two. Can you give me the correction in the following sentence: "There are three-ways to spell the word in the English language." No one seemed able to answer. After deep thinking and unconquerable thought we submit the solution:

"There are three ways of spelling the word 2 in the English language."

One of Dr. Ratliff's patients came into his office and said: "Dr. there is something the matter with me. I want you to give me an examination." The doctor said, "I will examine you for ten dollars." The patient said all right go ahead, if you find it I'll give you half.

The Convention that declared the independence of Texas, March 2, 1836, said of Mexico and gave as a reason for its action "It has failed to establish any public system of education." And declared, "It is an axiom in political science that unless a people are educated and enlightened it is idle to expect the continuance of civil liberty or the capacity of self government."

President Mirabeau B. Lamar of Texas said, "A cultivated mind is the guardian genius of democracy. It is the only dictator that freeman acknowledge and the only security freeman desire."

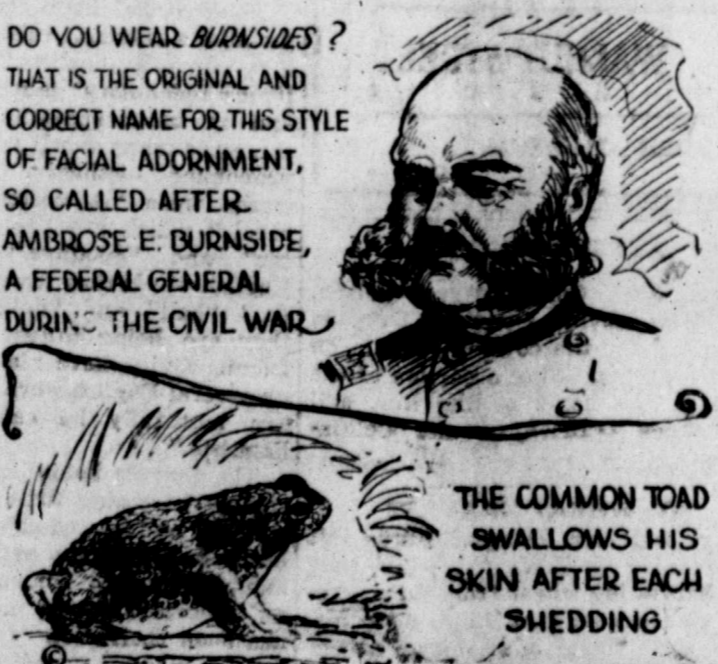

God's reason for selecting Abraham: "I knew him; he will command his children and his household after him."

Moses said, "These words which I command thee this day, shall be in thine heart; and thou shalt teach them diligently unto thy children."

Education is the development of the whole nature of man, physical, intellectual and moral.

Strange But True!

DO YOU WEAR *BURNSIDES*? THAT IS THE ORIGINAL AND CORRECT NAME FOR THIS STYLE OF FACIAL ADORNMENT, SO CALLED AFTER AMBROSE E. BURNSIDE, A FEDERAL GENERAL DURING THE CIVIL WAR.

THE COMMON TOAD SWALLOWS HIS SKIN AFTER EACH SHEDDING. THIS GIVES HIM A NUMBER OF FREE MEALS EACH YEAR. FAIR ENOUGH.

One of the things upon which we pride ourselves is that we never overcharged a customer. We always feel it is better to surprise a man by billing him for less than he expected than to shock him by presenting a statement larger than he hoped to pay. Our big prices enable us to undersell our competitors.

Twenty-Five Boys Will Attend Cisco FFA Convention

Williams And Delegates Plan Taking Active Part There As Session Convened

The Mitchell county chapter, Future Farmers of America, will send a delegation of 25 to annual tri-district convention at Lake Cisco next month, Doyle Williams, director, stated Friday. Boys from the local chapter have taken active parts in activities of the encampment during years of the past and as a rule have won creditable awards.

Williams, is to take up his place as chief mess cook for the eighth consecutive year, as the camp is opened August 5 for three days. A meeting of the local chapter has been called for July 15 to organize for the trip.

There are fifty schools in the large territory to be represented. Williams estimates that 500 school youths will be in attendance during the three days.

A Good Commercial Loan

—has distinct hallmarks which warrant its rating as sound business for your bank.

THESE hallmarks are:—the good name of the borrower; the sound purpose for which the money is to be used; and the self-liquidating character of the underlying transaction which assures repayment of the loan in accordance with its terms.

These are the essential features of commercial loans made by this bank. They help our customers carry on useful, profitable business activities. Bankers call them "short-term, self-liquidating loans" for they finance industrial, agricultural and merchandising operations which are normally completed within sixty or ninety days or seasonal periods, and bring in funds to repay the loan.

Quota Of Rattlers Larger In Mitchell County This Year

Reptiles Presenting Menace That Should Be Borne In Mind By The Public

Mitchell county is boasting a larger quota of rattlesnakes this Summer than usual, with the reptiles appearing in and about farm and ranch homes in every part of the county. No serious consequences from bites of the snakes have been reported but the public is being warned to keep the menacing condition in mind.

Several citizens have come into close places, so to speak, after finding themselves keeping company with the snakes. In several instances reported to The Record the rattlers have been detected coiled in characteristic position to strike when their presence was detected.

A Mitchell county rancher stated the other day that rattlesnakes were quite numerous at his home. One of the snakes was killed recently after his presence had been detected in bedroom occupied by a guest. The snakes, as a rule, are not out in quest of an argument. They seldom bite unless stepped upon or otherwise molested.

The various products the oil industry's technicians can fashion from the sticky black crudes that flow from Texas wells appear, almost, as magic to the layman. But it's not necromancy that combines and recombines the oil molecules into such diverse products as cold cream and gasoline; it is, rather, hard work and constant experimentation.

That, at any rate, is the theory Humble technicians work on. In Texas oil fields, in laboratories and refineries, on the open road, they seek continuously to improve the Humble products you use in your car, the Humble specialties you use in your home. Results approve their methods; Texas motorists say, Humble's policy of continuous improvement keeps Humble ahead.
