## OPEN THE DOOR FOR CRIPPLED CHILDREN

Open the door and make way for a little fellow who can spend his play hours on crutches and still smile.

This lad, one of thousands in the country who haven't received quite an even break physically, is coming from a rather restricted ramp to spend a little time with his books at a school for crippled children. It's time for geography and arithmetic.

You don't get that confident smile he is displaying from spending months in bed and looking forward to many more months on crutches. You don't get it from knowing the other kids aren't playing baseball.

You get it from such simple things as the sun above and the flowers blooming outside the door and from the knowledge that someone cares and is doing something to help you along.

Thousands of youngsters, starting out with crippled bodies, can tell you of the multitude of things which are being done to give them a better life. Thousands more are yet to be reached.

First there must be adequate facilities for treating the children and adults to give them the maximum use of their bodies.

**DAYS GONE BY**  
There's many a job  
And many a sigh,  
And many a wish,  
For the days gone by.  
I don't think I'd like  
Those days to come back.  
Many's the wraith,  
And many's the whack.

I fondly recall,  
The smile of my pap,  
Also remember,  
The oil tascal strap,  
Still see in fancy,  
The oil swimmin' hole,  
Pop standin' ready,  
Nearby with a pgle.

The oil fool mule,  
Bull tongue and stock,  
Stumps in the new groun',  
The shin breakin' sock,  
For the days of the past,  
All others may yearn,  
I hope like the dickens,  
They never return.

## TEXAS GINNERS WARNED ABOUT COTTON BAGGING

A warning as to the kind of bagging and ties which should be used on cotton has been issued to ginnermen of Texas by J. E. McDonald, commissioner of agriculture, as follows:

To Ginnermen in Texas:  
As Commissioner of Agriculture I wish to again remind the ginnermen of Texas of the importance, both to themselves and cotton farmers, that cotton must be not only properly ginned but that the bagging and ties with which the bale is wrapped must be of proper quality and weight.

If the pattern of bagging and ties weighs less than 21 lbs. the farmer suffers an actual loss; his loss will vary according to the price of cotton. As the farmer sells his cotton after it is wrapped (gross weight) if less than 21 lbs. per pattern of bagging and ties are used as wrapping he loses the difference just as surely as if that much cotton lint was taken from the bale without his consent.

Everyone familiar with the facts knows that under the trading rules and sales system now in common use, the price which is paid to the farmer for his cotton is based on the farmer being furnished about 21 lbs. per pattern of bagging and ties at the gin. The ginner, like any other good business man, will serve his own interest best by serving the farmer well.

I sincerely hope all Texas ginnermen will protect the cotton farmers' interest by using full two pound bagging in wrapping the 1938 cotton crop.

Sincerely,  
J. E. McDONALD,  
Commissioner of Agriculture.

## OVER 500 CARS ARE STILL UNREGISTERED; MIDNIGHT FRIDAY IS THE DEADLINE

Prospect of registering around 500 cars and trucks in a day and a half faced employees in the office of Roy Warren, tax assessor-collector Thursday noon.

Licenses for about 1,550 vehicles had been sold at the office at that time. The deadline for sale of licenses without penalty attached was only about 36 hours away—midnight Friday, April 1. Last year over 2,000 vehicles were registered in the county.

Warren stated Thursday noon that his office will remain open late Friday night to accommodate late license-buyers. The law requires 1938 license plates to be on all cars and trucks after midnight April 1, he says.

Mrs. Clarence Cook has been added to the office force to help during the rush.

**25 YEARS AGO**  
From The Record for March 28, 1913

Marshall, Reaves Coleman, Joe Pond (Robin, a country lad), Byrd Adams (Sylvia, betrothed to Sir Bertram De Lacey), Kathryn Stadley, Byrd Blandford, Lois Prude, Juliette Looney, Eleanor Van Tuyl, and Lucille Stonerod. Here's a paragraph from a reprinted editorial about Kaiser Wilhelm of Germany: "The Kaiser Wilhelm is reported to have said: 'I am training my son to fill the duties of my position, but I well know that he will be the last of the German emperors. Every student of current events must see the drift toward republican forms of government; I am satisfied that in another generation not a monarch will remain.' Few would have had the courage to give public expression to such fears. The Kaiser Wilhelm is truly a great man."

The editorial was signed "The Wandering Jew."

Shep Costin had died of pneumonia at Westbrook. The L. L. Welch family was moving back to Spade after a brief period in Arizona. **CASING TROUBLE SOLVED AT LOCKHART WELL; TEST PLANNED FOR THIS WEEK**

Casing trouble which had been holding up the pump test of H. L. Lockhart's No. 1 A. R. Hensinger for several days was solved Friday mid-night when a crew succeeded in drawing the pipe from the hole after many previous efforts had been unsuccessful.

Plans were being made Thursday to place the well on the pump before the end of the week. The well was a 48-barrel natural producer before its nitro shot. The Big Spring Daily Herald had this to say about the well early this week:

"After drilling bridge from seven inch string set at 2,650 feet, it was at 2,905 feet, 20 feet off bottom. Swabbing failed to lower the oil column to any appreciable degree. The test, four miles southwest of the Snyder pool and two miles north of the Chalk extension area, had six shows from 1,315 feet to 2,702 feet. A test on the well was considered probable this week."

The south offset which Lockhart is drilling to the well was past 975 feet Wednesday. It is known as the Lockhart No. 1 Hyman (Scott) and is located 330 feet out of the northeast corner of section 88-29.

**CATTLE ON WHEAT PASTURE NEED WATER**

Water, water everywhere and plenty of it to drink, is one of the secrets of successful management of dairy cattle on supplemental pastures.

That was revealed by A. H. Kuhlman, acting head of the dairy department at the Oklahoma A. & M. College, after consideration of the problem of drinking water for the cow on wheat pastures.

"Wheat plants in the spring usually have more water in the leaves," Kuhlman declares, "but that can't take the place of plenty of water to drink."

"After all, one must realize that milk is made up principally of water, and the cow must have an adequate supply of water in order to produce a profitable amount of milk."

The problem of moisture supplies for the cow on wheat pasture arises because most wheat fields are separated from creeks and stock tanks by fences intended to keep out livestock during most of the year.

"While cows will, of course, be watered when they are taken from the wheat pasture before milking each day," the dairy specialist points out, "that interval for watering is too much for the good cow."

"The good cow, to produce milk profitably, must have access to water so that she can drink as much as she wants. Cows become thirsty just as often as do humans, and will thrive better if given as much water as they want."

On the average a cow needs about three pounds of water for each pound of milk produced.—Semi-Weekly Farm News.

RAIDING LOCAL CHICKEN  
HOUSES ARE ARRESTED**

Two youths charged with raiding at least three Colorado chicken houses Tuesday night are being held in Elk Spring, according to Dick Hickman, chief of police. They were arrested there following attempts to sell the chickens.

Elk Spring authorities told Hickman that the two boys, who gave their home as Stanton, had confessed to stealing the chickens. The boys are brothers, their last name being Brown.

Mrs. John Adams reported seven of her chickens missing Wednesday morning. Twelve were gone from the henhouse of Mrs. D. M. Stell, and five from that of Mrs. Charley Seale.

crippled muscles. There must be education—impossible through normal channels. Adults require the aid of professional workers who can help in rehabilitation and vocational programs. Children need special education and helping hands to adjust them socially.

This is the season to help—the season when the brightly colored Seals of the International Society for Crippled Children and its State and local affiliates go on sale.

The Seals carry the message to all parts of the country. They provide money for carrying on this vital work, for interesting others in its accomplishment. The 1938 Seals, bearing the slogan, "A Better Life for Crippled Children," go on sale here April first. This Seal sale in Mitchell county is sponsored by the Colorado Lions Club with Jack Helton as general chairman.

**THE AUSTIN PRESS**

By The Friendly Texan  
1938 is handshaking year. The season will attain its heights the latter part of July. In olden times the custom was to embrace. Handshaking originated in the ages of chivalry and hugging ceased. Woman suffrage did not have anything to do with the change.

The cumbersome iron mail, in which the knights were cased, prevented their embracing; and when, with fingers clothed in steel, the simple joining of the hands would have been but cold welcome; so that a prolonged junction was a natural resort, to express cordiality, and as it would have been awkward to keep the hands unemployed in this position, a gentle agitation or shaking was but natural.

If a knight was exceedingly pleased to meet a fellow knight or wanted something extraordinary out of him the "gentle agitation" became more vigorous.

In Texas the chivalrous custom has been developed into a "fine art." The word "Texas" means "Friends", and so there's every reason for all to participate in a genuinely cordial clasp, even to the extent that it may well be likened unto a citizen's contact with a well pump.

The most successful men in public life are those who have mastered well this "fine art", supplemented with a generous distribution of campaign cigars and candy.

Remembering names and calling

them while in the act of handshaking "comes in handy." The late Sen. Joe Bailey had the art mastered to a fine point. His salutation was generally accompanied by the question: "How is the old complaint?" He knew that nearly everybody had a complaint of some kind.

Jim Hogg holds the reputation of having developed the habit of remembering names better than any man in Texas history. He was the first native son to be elected attorney general—the "13th" attorney general to be elected by the people. Bill McCraw is also an expert in handshaking and name calling. He is a native son and is the "13th" attorney general to have been elected two terms since Jim Hogg served.

Vice-President John Garner, Sen. Tom Connally and former Gov. James E. Ferguson are outstanding examples of successful men in public affairs who combine a most excellent memory in their relations to the people.

Gov. Allred, on the 8th of March, laid the cornerstone for the magnificent library at the Texas Technological College at Lubbock. It was a great day for the institution.

Libraries are the storehouses that have garnered up in the long ages past the wisdom of the ages. The books, manuscripts, the stories and legends about man's perennial flourishing are to be found in the best of libraries, which are institutions for moral culture without which no democracy can long prosper.

After San Jacinto the first two congresses of the Republic of Texas devoted themselves to organization and legislation. It remained for the third congress to supply the obviously needed first Texas Library. Lamar was then president. Following statehood nothing was done about a State Library until George T. Wood became governor. That was in 1849. In the early '80's the capitol and library burned. When Jim Hogg became governor, after serving two terms as attorney general, he took hold and "rehabilitated the library" which now occupies a part of the capitol and which is the most popular department of the state government.

This year the ballot will contain another citizen by the name of Wood. He is John Wood, senior member of the Texas highway commission, of Timpson. He is the first member of the commission to devote full time to his office. He has been exceedingly fortunate in that during his five years of service, he has been privileged to attend every official highway commission meeting and every hearing and "contract letting." Neither death nor sickness has occurred to prevent his attendance. Commissioner Wood this time is running for membership on the Texas railroad commission.

102 years ago, on March 6, the Alamo fell. This is the period of the year that is sacred to all Texans. From March 2, 1835, through April 21, 1836, there was more history written in man's struggle for independence than during any similar 55 day period in all the tides of time.

While it is profitable to pause and ponder the greatness and glory in Texas history, it is also well to bear in mind and in heart an immortal statement made by Herbert Spencer: "The courage we desire and prize is not the courage to die decently, but to live manfully."

**FEDERAL HOME LOANS  
SHOW BIG INCREASE**

**LITTLE ROCK, Ark.**—Home loans to Texans totaling \$1,508,948 were made during February by the 117 insured savings and loan associations in the State, according to figures just compiled by the Federal Home Loan Bank of Little Rock.

This was an increase of \$200,000 over the previous month and was the largest amount loaned by the Texas associations in any similar period since last July. The loans averaged about \$2,000 each, and the proceeds from a third of them were used for the construction of new homes, while another third went toward the purchase of existing dwellings. The popularity of the associations' lending plan, bank officials said, is further evidenced by the large amount of old loans the associations are refinancing under the monthly direct-reduction system. The only loans made by the association are payable in small monthly installments over a number of years in amounts about equal to rent.

The lending activities of the Colorado Federal Savings and Loan Association whose shares are insured, are included in the figures just prepared by the bank. During the coming months, much more home building is anticipated, and the bank officials stated the associations have ample funds to care for the expected increased loan demand. In addition to their own resources the associations have available, when needed, the facilities of the Federal Home Loan Bank System of which they are members.

**NEW INVESTMENT FUNDS RECEIVED**  
The insured associations in Texas in February totaled \$1,017,226 which compares very favorably with previous months. For the past year savings placed in the associations have shown substantial gains, month by month, which the officials attributed largely to the insurance protection of \$5,000 for each account provided by the Federal Savings and Loan Insurance Corporation.

**HOW MUCH DO FARMERS MAKE?**

What are the comparative incomes of farm families and town families? As Dean Paul W. Chapman of the Georgia College of Agriculture points out in The Progressive Farmer, "most people work for a living—and a living is about all the average person ever gets. If the average city worker makes more dollars than the farmer, every time he turns there is a call for cash." Dean Chapman continues:

"In Florida, California, Massachusetts, New Jersey, and two or three other states farmers make more than nonfarm workers. In the other states farmers make less than urban workers. In Georgia, city workers average making three times as much as the average farmer. The same ratio is true in a number of other Southern states. This does not mean that there are no high-income farmers in the South; in fact, some of our farmers—mainly those dealing in specialized farming—are among those with the largest incomes in the nation.

"The income of any group where the worker is also the proprietor varies greatly. This is true, for instance, of persons engaging in merchandizing. As a matter of record, 35 per cent of the farmers of the nation earn 85 per cent of the income. If you were one of the 35 per cent, your income would be better than that of 90 per cent of the American people. You would have an income far greater than that of the majority of city workers.

"It is also a fact that the average farm family has more property than the average city family. The average value of the property owned by the farm families of America is \$9,668, contrasted with \$8,709 for those living in towns and cities."

**BRIDGFORD OFFICE BEING REMODELED, MODERNIZED**

Work has been started on enlarging I. R. D. Bridgford's dental office suite to more than twice its former size and modernizing its equipment and arrangements in every respect.

The enlarged office is to include the room which was formerly the library of the late Dr. C. L. Root. The new suite will cover all the space east of the waiting room at the Root office. When the work is completed Dr. Bridgford will have one room for extractions and X-ray, one for general work, a "dark" room, a special sterilizing room, a laboratory, a comfortable waiting room, and a private office.

Workmen are now busy under the direction of Adolph May, contractor, rebuilding partitions and refinishing the whole interior. Modernistic furniture has been bought for the new waiting room, and new equipment is to be installed in Dr. Bridgford's working quarters. Indirect lighting will be used in all the rooms.

Dr. Bridgford said Wednesday that it will probably be the early part of next week before he will be able to do much dental work in his office.

## MOVEMENT FOR ONE-VARIETY COTTON IS PROGRESSING HERE

NOT MANY COMMUNITIES YET ORGANIZED BUT IDEA SAID TO BE GAINING

Although comparatively little has been done in the matter of definite organizations, the one-variety cotton community idea is said by agricultural authorities to be gaining favor steadily in Mitchell county.

The movement toward one-variety cotton communities in this county may be said to have had its beginning last year when about 150 farmers living in the vicinity of Colorado planted Ferris-Watson seed. B. J. Baskin, Mitchell county farm agent, estimates that this number will be increased to about 250 this year.

A number of farmers living around Westbrook have formed two one-variety communities to this extent: Farmers in each group have agreed to plant one-tenth of their cotton acreage to a certain kind of cotton. Part of them have chosen to plant Acala seed, the others Qualla seed.

Several farmers who patronize the China Grove gin, which is just on the line between Mitchell and Scurry counties, have gone into a plan to plant Kaseh cotton this year.

Gins at Westbrook, Colorado, and China Grove are cooperating with the movement to the extent that they have agreed to grant these groups special days for the ginning of their particular variety. However, no arrangements have been made for selling cotton here on a quality basis.

## MAHON PRAISED AS LAMESA POSTOFFICE IS DEDICATED

Praise for the work done by Congressman Geo. Mahon in securing appropriation for the building was voiced in Lamesa Saturday as dedication of the new Lamesa postoffice building was held.

A Lamesa paper said of Mahon: "Congressman George Mahon, of this district, was one of the key men responsible for the Washington appropriation for the new building. He has given the project more than the usual support and the citizens of Lamesa were disappointed that pressing matters in Washington will prevent his attendance. He stated Thursday he certainly wished that he might be present, stating it is going to be a great occasion for Lamesa. He expressed great satisfaction that it will be possible for Carl A. Crowley, his personal friend to attend."

Fairview women told about homemade toys

By Mrs. P. H. Pace, Reporter

## MAJOR LEAGUE BASEBALL GAME TO BE PLAYED AT SWEETWATER APRIL 7TH

Baseball fans of West Texas are to have the rare opportunity of witnessing a major league game next Thursday afternoon, April 7, when the Chicago White Sox of the American league and the Pittsburgh Pirates of the National league meet at Sweetwater under sponsorship of the Sweetwater Board of City Development.

Because of the big name players on the rosters of these two famous clubs and because of the hunger of sport fans in this section for a game of this calibre, advance ticket sales have far exceeded the fondest hope of sponsors, it was reported in the Nolan county capital yesterday. More than half of the 500 grandstand ducats had been sold and preparations were being made to accommodate around 2,000 on bleacher seats. Another 1,500 to 2,000 are expected to be "standing room only" fans behind the first and third base lines.

The game is scheduled to begin promptly at 2 p.m.

Pittsburgh is due to arrive in Sweetwater over the Santa Fe from San Bernardino early the morning of the 7th and the White Sox will arrive over the Texas & Pacific from Pasadena at 9:30 the same morning. It will be their first meeting in Texas en route home from their spring training grounds in California.

## NEARLY ALL ELEMENTS OF PIONEER LIVING FOUND IN LIFE HISTORY OF E. B. GREGSON

Nearly all the things which the term "pioneer" connotes in these parts—buffalo hunts, Indian friendship, cattle herding on vast open prairie, stage coach mail service—are found in or closely connected with the life history of E. B. Gregson, who has been manager of the Foster Iatan ranch in western Mitchell county for more than 30 years.

Mr. Gregson was born near Chattanooga, Tenn., on Jan. 1, 1872. That same year his father, Geo. W. Gregson, moved his family to Tarrant county, Texas, settling near Fort Worth and farming there for five years.

The Gregson family moved to Cooke county in 1877. During that part of each year when his farm work was laid by, George Gregson and 10 or 12 of his neighbors would get together and go on buffalo hunts, staying away from home for weeks at a time. They went horseback, taking their supplies along by wagon. Hunts took them as far west as Jackboro. The buffalo hides, stripped from carcasses that were left to rot on the prairies, were marketed in Fort Worth.

Mr. Gregson's mother died when the eighth of the Gregson children, a little girl, was born in 1882. The Gregson children were scattered among friends and neighbors after her death, 10-year-old E. B. Gregson being placed with a Griffin family in Montague county. Mr. Griffin was later judge of Montague county. After three years with the Griffin family E. B. went to live with a man and woman named Shaw, who took him to Collin county.

Meanwhile George Gregson had gone up into the Indian Territory and there had married again. He sent his brother, E. B. Gregson, for

## ORCHESTRA TO SAN ANGELO ON SPECIAL TRAIN

ST. LOUIS SYMPHONY TO APPEAR IN WEST TEXAS CITY APRIL 6

Biggest musical event of the current season in West Texas is the appearance in San Angelo of the St. Louis Symphony orchestra, Vladimir Golschmann, conductor, on Wednesday night, April 6, at the San Angelo Municipal Auditorium. This marks the first appearance of an organization of this kind in this part of West Texas.

The second oldest symphony orchestra in this country—it was organized in 1880—it is also rated as one of the best, largely due to the efforts of Mr. Golschmann, now in his fifth year as director. This Russian—born in Paris in 1893—is one of the ablest conductors now appearing before the public. He conducted his own orchestra in Paris and has appeared as guest conductor with all of the leading orchestras both here and abroad prior to taking over at St. Louis.

St. Louisians themselves think so much of their orchestra that they raise a sustaining fund of \$135,000 annually for it. This is in addition to the ticket sales from the 50 concerts given each season in its home auditorium which incidentally is always sold out for each performance. And it seats 3,500!

The orchestra is composed of 87 musicians. All of them are front rank performers on their particular instruments. These include violins, violas, cellos, bass violins, cornets, tubas, clarinets, flutes, oboes, bassoons, kettledrums, harps, all of which are used to make up the varied tones of a big symphonic orchestra. There are over 100 persons in all. They travel on a special train. The railroad fare alone from the nearest point on their Southwest tour to San Angelo is over \$2,000. San Angelo is only one of four Texas cities to be visited on this tour.

Good seats are still available, priced at \$2.50 for adults, \$1.25 for students. All seats are reserved. Mail inquiries should be addressed to Emmett Cox, President West Texas Concert Association, Cox-Rushing-Greer Co., San Angelo.

The Bank Check

—is one of the most efficient of modern business devices.

OVER ninety per cent of all the business of the nation is carried on by means of bank credit. It is in the form of deposits which are transferred by checks in settlement of business transactions, ranging from a few dollars to several million dollars.

For large amounts and small, for short errands within the Community, and long ones to distant points, the bank check performs its work swiftly, surely, safely and economically. In addition, bank checks help in the book-keeping of those who use them and establish a legal record of payments.

Your reporter is just a little bit late in telling it but the Junior class have ordered their senior class rings. They are very pretty, and fairly expensive. # Robert Taylor Stars in Outstanding Film Sunday and Monday

## HAS TITLE ROLE IN 'A YANK AT OXFORD', TO BE SHOWN AT PALACE

### MAUREEN O'SULLIVAN HAS FEMININE LEAD IN SCREEN CLASSIC

Robert Taylor, supported by a group of film personalities who have achieved fame both here and abroad, including Lionel Barrymore, Maureen O'Sullivan, and such stellar British players as Vivien Leigh, Edmund Gwenn and Griffith Jones, comes to the Palace screen starting with a pre-vious Saturday Midnight and Sunday and Monday in "A Yank at Oxford," an unusual story of the experiences of an American college boy placed in the unfamiliar environment of an English university.

Based on an original story by Leon Gordon, Sidney Gilliat and Michael Hogan and on an idea by John Monk Saunders and directed by Jack Conway who gave the screen such hits as "A Tale of Two Cities" and "Labeled Lady," the new Taylor picture has the distinction of being photographed in England against the authentic Oxford backgrounds.

The story begins with Taylor's departure for England, having received a scholarship for Oxford. His arrival there, his difficulties in adjusting himself to the customs and traditions of a university far different from the

college he has left behind, his feud with a rival undergraduate and his subsequent romance with his rival's sister, make for a narrative which holds excitement, humor, novelty and a sympathetic unfolding of characterization.

The picture is given added excitement in its depiction of such thrilling athletic episodes as an intercollegiate relay race, the quaint English "bumping" races and the colorful Oxford-Cambridge crew race in which Taylor's prowess as the Oxford stroke aids in winning him the sympathy of his fellow students.

### "LOVE ON A BUDGET"

Palace—Thursday, March 31  
Followers of the series everywhere should rate this one of the best of the Jones Family pictures, as it combines a liberal quota of laughs with plenty of down-to-earth situations which have made past films in the series so popular. Neighborhood audiences in particular can be relied upon to give it their stamp of approval. In this episode Shirley Deane, daughter of Pa (Jed Prouty) Jones, and her new husband, Russell Gleason, encounter financial and matrimonial difficulties. Their trials and tribulations are even more complicated with the arrival on the scene of Uncle Charlie, ne'er-do-well promoter played by Alan Dinehart, whose characterization manages to walk off with the show. Herbert Leeds directed.

Players are Shirley Deane, Russell Gleason, Alan Dinehart, Jed Prouty, Spring Byington, George Ernest, Dixie Dunbar.

### "EVERYBODY SING"

Palace—Friday and Saturday April 1 and 2

There's something to appeal to everybody in this smash musical success, in which Judy Garland sings her way to stardom paced by a coterie of comics the like of which has seldom been collected for one picture. Judy's phenomenal swing vocalizing will be right in the groove for every jazz addict; more conservative music lovers should find Allan Jones more than satisfactory; and, in addition, the maddest family yet to hit the screen makes its appearance, with everyone in the cast having his fling at comedy, from Billie Burke to Reginald Gardiner. It is Fanny Brice, however, in her best movie role to date who is the panic with her celebrated "Snooks" routine and other specialties. Production by Harry Raup and direction by Edwin L. Marin are both of the highest order.

Players are Judy Garland, Fanny Brice, Allan Jones, Lynne Carver, Billie Burke, Reginald Gardiner, Reginald Owen.

### "WHEN G-MEN STEP IN"

Ritz—Thursday, March 31

Assembled from established box-office formulas, this G-Man film packs enough punch to register as satisfactory program product. Production is tolerable with C. C. Coleman, Jr.'s direction wisely adding sufficient suspense and action for melodramatic effect. This time the yarn concerns a big-time racketeer, Don Terry, who sends his kid brother, Robert Paige, through law school, only to have Paige turn G-Man. Terry is in love with a society girl, Jacqueline Wells, and plans to give up his latest racket, marry the girl and leave the country. But some of his henchmen double-cross him in an effort to get part of the money. Terry loses his life saving his brother and the girl from the gangster's guns. Players are Don Terry, Jacqueline Wells, Robert Paige, Gene Morgan.

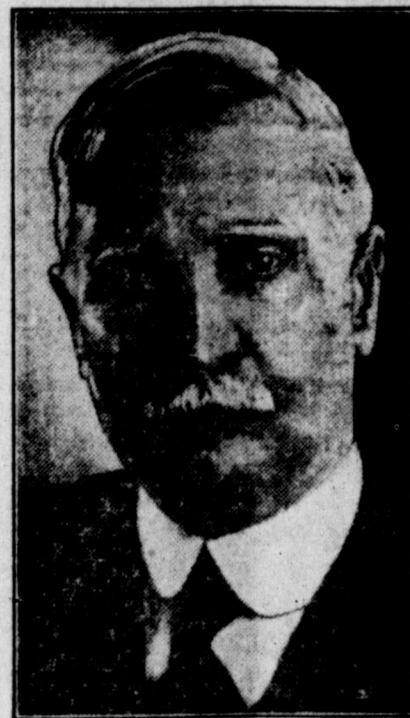

## Sees Cities Linked Closer by Modern Stainless Steel Trains

INAUGURATION of two 12-car, light-weight, stainless steel streamlined trains in over-night service between Chicago and Denver marks the beginning of a new development in railroad transportation which is destined to rival the airplane in saving time, in the opinion of Edward G. Budd, of Philadelphia, pioneer in the field of light-weight trains.

The new 12-car Diesel-powered trains of the Burlington Railroad, known as the Denver Zephyrs, longest streamlined trains in the world, flash through the night at speeds of 90 to 100 miles an hour and average 66 miles an hour including stops. They make the 1,039-mile run from Denver to Chicago in 15 hours, 50 minutes, so that no time is lost from the business day.

Within a few months another stainless steel streamliner, the Super-Chief of the Santa Fe, will go into service between Chicago and California. Other roads, too, are planning the extension of fast, light-weight trains in over-night service between distant points.

"These trains, capable of making a thousand miles over-night without the loss of any time from business, are what the railroads have been coming to," Mr. Budd said. "They are the answer to a public demand for 'all-weather' speed service that surpasses air schedules by not cutting into the business day. The Zephyr type trains have proved themselves for safety, dependability and economy as well as speed. Railroad payments when they resell the cotton.

Edward G. Budd

roads which have them in service have proved that they can operate profitably with fares at two cents a mile.

"In the near future we shall see many of our cities that are a thousand miles or so apart linked by over-night service with these stainless steel streamliners."

Paul Fix, Stanley Andrews, Edward Earle.

### "OUTLAWS OF THE PRAIRIE"

Ritz—Friday and Saturday April 1 and 2

Charles Starrett and a fine group of troupers have seen to it that western fans get a full share of what's expected from a well-knit prairie production. The musical interludes are a definite asset, as is the photography and the judicious minimizing of plot complications. The tale of double revenge has Starrett, nursing a vengeance for the man who maimed his trigger fingers when a youth, Assuming the role of Texas Ranger, he is intent on tracking down a ruthless gang of robbers. The gang leader also is the man who severed Starrett's fingers. A properly effective disguise and a fairly suspenseful mobilizing of the law's forces bring the desired results. Sam Nelson directed.

Players are Charles Starrett, Donald Grayson, Iris Meredith, Norman Willis, Dick Curtis.

### "BULLDOG DRUMMOND'S PERIL"

Ritz—Sunday and Monday April 3 and 4

This picture sets a new high in production excellence for the Drummond series and is entirely worthy of the widely read "Sapper" McNeill original from which it was adapted. With a higher quota of thrills and laughs than any of its predecessors, plus the accrued benefit of their advertising campaigns, this one cannot miss being a dependable boxoffice picture. John Barrymore again takes acting honors but is closely pressed by Porter Hall, E. E. Clive and John Howard. The story centers about the discovery of a chemical process by which diamonds can be made on such a scale as to threaten England's economic stability. The process falls into the wrong hands and Barrymore and Howard succeed in bringing it back to the proper authorities. James Hogan directed.

Players are John Barrymore, John Howard, Louise Campbell, Reginald Denny, E. E. Clive, Porter Hall, and Elizabeth Patterson.

## ADJUSTMENT PAYMENTS ON COTTON EXPLAINED BY COMMITTEE HEAD

COLLEGE STATION.—If a farmer has cotton under a 1937 commodity credit corporation loan he may receive a cotton price adjustment payment at the rate in effect on June 30, 1938, regardless of whether or not the cotton has been sold, according to Geo. Slaughter, chairman of the Texas agricultural conservation committee.

If a farmer has cotton under such a loan and desires to sell it, the loan must be paid in full before the cotton is sold, he said.

"However, a farmer does not have to sell his cotton to qualify for a cotton price adjustment payment," he pointed out. "Cotton not sold before July 1, 1938, will be considered to have been sold on June 30 whether it was under a loan or not. The date of sale controls the rate of payment."

Numerous reports have been received at the state AAA office at Texas A. & M. college that farmers with cotton under loans have been selling their "equities" in the loan cotton and receiving sale certificates in return, Slaughter said. Payments cannot be made on the basis of such so-called sales and persons buying "equities" on loan cotton cannot ob-

A year after their marriage they moved back to the territory, settling in the Cherokee nation 12 miles north of Tulsa. They spent one year there and the next in the Choctaw nation, 50 miles east of McAllister. And the next year they came back to Texas, to a farm in Kaufman county.

It was about 34 years ago that the Gregsons came to West Texas. Their first home was in Sterling county. Mr. Gregson's first job being as foreman with Andy Jones, who at that time owned ranch land now belonging to W. L. Foster on Sterling creek. After two years with Jones, Mr. Gregson quit to drive the mail back from Sterling City to Colorado. The hack, made by Spalding, accommodated the mail and 9 passengers. It made the trip up one day and back the next. There were postoffices in those days at both Iolanthe and Spade.

There were 14 gates between Iolanthe and the San Angelo road, Mr. Gregson recalls vividly. The route between Colorado and Sterling City then followed the same course it does today from Colorado to Iolanthe, but from there one went due south and came into the San Angelo road two miles east of Sterling, then back up to Sterling.

The hack changed horses at Iolanthe and at Spade. Mr. Gregson always spent the night at the Gore home in Colorado, that home being conveniently located just south of the old J. L. Pidgeon garage building, now occupied by Walker's Allis-Chalmers agency.

Charcoal heaters were used in the hack for the comfort of passengers in winter weather. The going was "awful" in wet weather, Mr. Gregson remembers, but he never failed to make his trip.

Gregson's association with W. L. Foster of Sterling City began in 1907. He was then what he is today—manager of the Foster ranch south of Iatan.

The ranch includes about 16 sections, on which about 400 head of cattle are run. In spite of the traditional scarcity of rain in the Iatan section, the ranch has prospered all these years. Perhaps an indication as to the whys of that prosperity can

be found in the fact that the ranch has 16 ground tanks—one for every section of land. Building of these tanks has been going on for years, long before the government had a range conservation program.

Rolling, cedar dotted hills make the ranch one of the most beautiful spots in western Mitchell county. Many of the pastures have been contoured. There are usually about 20 registered Hereford bulls on the ranch.

Mr. Gregson has always taken an active part in the work of his community and county. He served six years on the county school board, and was on the Iatan school board for a number of years. He is an active Mason, and belongs to the Church of Christ.

The first Mrs. Gregson died in 1919. Mr. Gregson remarried three years ago, his wife being the former Mrs. Kate Carter of Fort Worth and Iatan.

Four of the seven children born to

him and his first wife are living. They are Mrs. Conner Sutphen (Emma Gregson) of Andrews, Mrs. Ivan Puett (Myrtle Gregson) of Iatan, Edna Gregson of Arlington, and E. B. Gregson, Jr., of Monahans.

SENIOR NEWS The Seniors were well represented in the Interscholastic League Meet held here Friday. Marie Morgan won first place in the senior girl's division of declamation. Rachel Wood and Narzee Rowland won first place in spelling.

We are all looking forward to our "Kid Day" which is going to be next Friday, April 1st. We are planning to have a short program in assembly Friday, and to give the little "kiddies" a chance to reveal some of their hidden talent.

And speaking of kids, the contest play is coming along scrumptiously. It was given in assembly Monday afternoon, and we hope that the judges of the contest Tuesday night will receive it as favorable as did the student body. Come out to see "Three's a Crowd" everyone, to see if it isn't as good as we say it is.

Now, for a little gossip. It seems that John Farquhar isn't the only Senior who is having "double trouble!" Could Freddie Blackwell be the reason. Dale Simpson has been looking so dreamy eyed lately? What about it Dale?

Although John Colson is a grand actor, I have my suspicions that he is disgusted with play rehearsals that last too long. Well, who likes to make love to a girl in a play when he can do a much better job of it on a date?

Oh, me it isn't very long until the Junior-Senior banquet. If you see a Junior or Senior boy and a Junior or Senior girl with their heads together "long about this time of the year, you may easily surmise that a date for the Junior-Senior banquet is in the making. I pity the poor parents of the Seniors. It keeps them digging in their pocketbooks all year long. There is the Junior-Senior proms frock or suit, the cap and gown, the invitations, the annual, the "thisa" and "thata." We have had fun though, and we can be Seniors only once, we hope! And now your Senior reporter shall continue her study in order that she too may come promening by wearing a cap and gown, and not be left holding an empty sack!!

DECLAIMERS ENTERTAIN COLORADO HIGH SCHOOL Wednesday the declaimers, both Junior and Senior, spoke for the student body. The junior declaimers were Freshmen, Lila Mannering, Marjorie Plaster, Clay Mann Smith, and Darrell Shurtliff. The seniors were Muriel Gunn, Marie Morgan, Albert Melton, and Dillard Yarborough. The junior declamation was poetry and the seniors was prose.

These students represented C. H. S. Friday in the Interscholastic Meet. Marie Morgan won first place in Senior Girls and will go to the district meet. Dillard Yarborough won second in Senior Boys and Darrell Shurtliff won third in Junior Boys High school division.

Marian Goodwin. COMMERCIAL DEPARTMENT NOTES In the Interscholastic League meet Friday, Colorado High won high honors. Shirley Kiker, Frances Merle Cooper, and Anna Don Snively were the first, second, and third place winners in the shorthand contest.

TYPING The six students on the typing team went to Snyder last week to compete. The team was composed of Freddie Blackwell, Ruth McQuerry, Anna Don Snively, Mary Price, Harvey Cook, Jack Womack, Charles Hill, and Henry Feaster. Mary Price won first place, Henry Feaster second, and Joyce Singlegary of Snyder

Hamrick, but fortunately for her his aim was not all it could have been. Martha Cherry received the love-liest "cross" for her birthday last Saturday. It's rumored that it came from the well known "Juicy" Smith. Is it possible? Catherine Slagle and Sam Richardson are on the outs, so to speak. I thought maybe there would be at least one happy couple among the many in C. H. S. I'm so disillusioned.

Whose idea was it to start this Virginia Whipkey-Thomas Chadwick affaire d'amour? Why do they have to pick on Dorothy Morrison? It's "Mousey" this or "Grandma" that. Now really she doesn't fit the part.

Theda did some photographing last Friday night at the track meet. Whose pan did you get in that candid box Theda?

Cora Mae and Ernest seem to be on the outs but Cora Mae seems to be able to take it. Perhaps the Snyder Romeo has something to do with it.

When love hits a Mallard, it really hits. George goes up to see Betty and stays until her other date gets there.

We wonder if Billie Arnold and Jack Long ever have any feuds. They certainly keep it quiet if they do.

Chick Carter seemed to have a frown on his face Tuesday morning. Was it because Katherine went with Malcolm Mayes to the dance in Sweetwater the night before.

How many promising love affairs went pooh when the skating rink left?

LA TERTULIA The third year Spanish club had their banquet last Tuesday night. The twenty-five present went on a scavenger hunt first and then returned to the Colorado hotel to eat. The room was decorated with serapes and baskets to carry out the Spanish idea. The favors were small cactus plants.

Shirley Kiker, president of the third year Spanish club, gave her welcome and Mary Aliene gave the response. The club sang many songs in Spanish and then a trio of Mary F. Smith, Fanny Fae Porter, and Betty Hodge sang two numbers. Frances M. Cooper played the piano. After the banquet the group all went to the show, ending a most enjoyable evening.

Rudel Glover won the 220 yard dash, 440 yard dash and co-operated with John Henderson, Duff Chesney and Jack Smith, a soph, to win the relay.

Robert Lacey got fourth in the high jump reaching five feet ten inches. Opal Botvidson spent the week-end in Cisco.

Sam Richardson is out of circulation for thirty days and it is about to break a certain soph girl's heart.

Thomas Chadwick slept all the way through the show Sunday—is it sleeping sickness or spring fever?

Geneva Campbell visited in Lubbock last week-end.

Willard Welch went fishing Friday and said he caught thirty-one. Sounds like a fish story.

Were the Blackwell twins courting spooks in the graveyard Friday night or was it John Farquhar and Dale Simpson?

Martha Cherry and Aleene Bodine are sporting new necklaces which they received on their respective birthdays last Saturday.

Marie Phillips spent the week-end with Doris Winchester. It seems she got caught in the rain.

J. T. Williamson, Jimmie Harrison and Harrison Almond went fishing at the park and caught a very large bass. We wonder they didn't seine a little?

SOPHOMORE NEWS More than one soph boy "shone" in the track meet last Friday.

M. A. Webb was high point man in the junior division, and the way he won that hundred yard dash was one of THE events of the meet.

Jack Smith is another soph speed demon, coming in for his share of honors in the dashes, and placing second in broad jump.

The Grape song: "Why Should I Be Fremonted." The romance of a certain "big, beautiful, blonde" is doing nicely, thanks!

It is being rumored that Billie Arnold has designs on the current heat wave of a soph saxophonist, but Billie is still true to that guy who has held her attention for a "long" time.

The Electrician's song: "Nice Work Fuses Can Get It." Jack Smith was high point man of the Colorado senior track team.

Daffinitions: Wicket—bad, malicious. Ross Glover ran a close second to M. A. Webb in piling up points in the junior division of the track meet.

Bazell McQuerry and Doris Montgomery left Monday night on a jaunt to Missouri; their plans being to return Thursday or Friday of this week.

Bazell left someone behind who is hoping for a postcard. There has been established at a nearby school a weekly list naming "Who's Who" and "Who's Phew." Cootsie seems to be having difficulties these days and says that romance ain't all it's cracked up to be!

Harry Etta and Dook—at latest reports—are billing and cooing again. Have you seen Freddie's snazzy brown felt hat which she herself decorated?

HIGHLIGHTS IN THE WORLD OF GOSSIP We wonder if Dooky knows his own heart. Do Mose and Harry Etta?

J. T. has made the remark that "Jimmy Harrison has run over him long enough and he's going to take Nancy for his girl."

Did Seth and Buzzy's entrance at the dance have anything to do with the suddenness of Regal's departure for another date?

Betty Whipkey has carried the old saying "Love Thy Neighbor" to the fullest extent since Alfred has joined her neighborhood.

DAVISON WILL NOT BE CANDIDATE AGAIN FOR STATE REPRESENTATIVE Howard C. Davison, of Rotan, representative of the 117th district, announced here Wednesday that he would not be a candidate for reelection to a third term.

In making this announcement, Mr. Davison said: "I am deeply grateful to my friends in the City of Colorado and Mitchell county for the splendid co-operation and assistance they have given me while serving them as their representative in the Legislature. It is solely because of this help that I have been able to more efficiently and effectively serve this district. During both of my terms in office, and while each session of the Legislature was in progress, I considered it my duty, at my own expense to return to my district and give the people in this district an opportunity to contact me as their representative and express their views on matters that were pending before the Legislature, at the only time that it could possibly be of my benefit to them—while the Legislature was in session!

I returned to this district 8 times during the regular session of the 44th Legislature, and 6 times during the regular session of the 45th Legislature, and at least one time during each special session of both Legislatures which method of contacting the voters has laid down a precedent in this district."

Why do they have to pick on Dorothy Morrison? It's "Mousey" this or "Grandma" that. Now really she doesn't fit the part.

PICKED UP ALONG THE NEWS PATH

This has just gotta come first: "Snow White and the Seven Dwarfs" is (it's mighty hard not to say "are") coming to Colorado, after all.

Just got the glad tidings from A. E. McClain, manager of the R&R theaters here. . . . It was doubtful for some time if the famous little princess and her even more famous little friends would be shown in Colorado, since R&R had no contract to show RKO pictures. . . . But a deal's been closed, and Snow White will be here before so very long, Mr. McClain says.

Good news, this, to mamma says, myself who have answered, or tried to answer, no less than a hundred childish questions about the famous movie during recent months. . . . To say nothing of having to read every Snow White comic strip and every new Snow White book. . . . But I'll guarantee you that this is one picture I'll certainly "chaperon" my daughter to see—and if I didn't have a daughter to chaperon, I'd borrow one I'd go anyway—in short and in truth, I wouldn't miss it.

Oh, if only Pink Wade Hodge's name were "Mary" instead of "Pink"—Then this could be a really wacker crack paragraph. . . . Pink, you know, is the latest addition to the ranks of Colorado sheep owners. . . . It's been suggested that she can herd her flock on the hotel roof, or maybe on the T. & P. grass across from the hotel. . . . Inquiring all such helpful hints, she's going to keep the flock where it belongs—on a ranch.

Browsing through the exchanges on The Record desk this week, we've found a number of Coloradoans and ex-Coloradoans furnishing material for various newspaper columnists in this area.

For instance, this and that about Bob Scott filled most of a sporting column by Bruce Francis in the Abilene Reporter News Tuesday morning. . . . Just in case you missed it, here's what the column had to say:

Bob Scott—ranchman, golfer, old army man, etc.—was a visitor in the city yesterday afternoon. His port of call was the income tax collector's office. Raising business has been that good the past year, the south-paw golfer admitted. Bob, his mother and brother have a 50-section ranch near Colorado, his home address. Bob manages the entire property and his trip to see Bill Talbot (he's the income tax gatherer for Uncle Sam) is proof that the ranch at least isn't losing money.

Bob didn't say as much but he hinted around that he was trying to get an exemption on his income tax for a new son-in-law, James McHorse, former halfback and 1937 captain of the Brownwood high school Lions, is the newest addition to the Scott family. "They're down on the ranch and doing well," Bob says of James and his bride. "Yeah, I'm just the same as an old grandpa now but these young birds needn't get any ideas in their knobs that Old Bob can't play golf," so sayeth the south-paw.

After finishing his argument with the tax grabber, Bob left for Brownwood, the city where he last saw his golf clubs. They've been in storage there during the winter but the Sand Belt league, of which Colorado is a member, starts play Sunday and Bob plans to be right in there getting 'em out for his home club. Scott still swings from the port side but admits

that he'll change over when and if his old clubs ever wear out. "I sent to Scotland for my first clubs. They sent me left handed ones and they're still good. Why spend money for more?" The old army "swosher" plans to play lots of tournament golf this summer, that being an old custom with him. He will start the year's grind at Sweetwater's invitation tournament April 14-17. He has won lots of 'em in his day and at one time was champion of all of Uncle Sam's army.

Another instance was the write-up of Mr. and Mrs. C. B. Reese, former Coloradoans now living in Rancocua (Coya), Chile, S. A. in one of the Lubbock Morning Avalanche's most interesting features. "From Lou to Louella," on Sunday morning. . . . C. B. Reese is a brother of Mrs. John L. Doss of Colorado. . . . Mrs. Reese, who used to be Beulah Denman, taught here before her marriage. . . . That part of the column pertaining to the Reeses follows:

Dear Louella: I think you will be interested in these parts of a letter from Mrs. C. B. Reese of Rancocua (Coya), Chile, S. A. written to her brother, John Denman:

"We did go to the finest and most unusual dinner party a few months ago. I doubt if I ever go to another so elaborate and so perfectly planned and carried out. It was given by the general manager's wife and Mr. Turton (husband). They gave it in the fine club Teniente in Sewell which was a beautiful setting. I won't try to describe decorations fully, but the tables represented various countries and had lakes and flowers and dolls dressed according to country.

"The dinner was in honor of Mrs. Turner who was leaving for the States and Dr. and Mrs. Richardson who had just returned from a 'round-the-world' trip. They sat at the hostess' table which represented the U. S. A. It seated over 30 people, had a large statue of liberty with water around it and looked very natural.

"The other people drew place cards. I drew Haarlem, so sat at the Dutch table. It was a beauty with tulips, canals, large mill, geese, etc. C. B. sat at Irish table, then there were tables on Italy, Mexico, Japan and Chile. It was formal, of course, and we played bridge afterward.

The above is less than three pages of a 13-page message, one of the most interesting letters I've ever read from an American in a foreign country. Mrs. Reese, who used to live in Colorado City, has been in Chile more than ten years. Mr. Denman said. She is planning tentatively to "go to New Orleans and home in July and put the kids in school until September. C. B. will come in November, up the west coast and I could meet him in California. We could have Christmas with Mamma and Papa for the first time since I've been married, 17 years in November."

It was in the "Area Oil News" column on the front page of last week's Scurry County Times that two Coloradoans, Jim Cantrill and Frank Kelley, rated the following paragraphs:

"The many indications of oil in the various test wells that have been drilled in the county seem to assure Scurry's early entrance into the ranks

of oil producing counties in Texas.

"The two Robinson brothers of Miami, Oklahoma, with their associates, have shown their faith in county oil prospects by spending fully \$50,000 during the past year in buying royalties, leases, and one tract in fee of 300 acres which offset their Martin well on the west.

"Robinsons' recently completed Martin No. 1 in section 147, block 97, marking their entrance into the county, will be followed soon by a new well in the southwest corner of section 146, block 25.

"It is said that the Robinsons' entrance into the southwest portion of the county was brought about largely through the efforts of big Jim Cantrill, who has been in town a part of this week with his arms full of abstracts and his face full of smiles. Cantrill, with C. W. Guthrie of Big Spring and Tom Largent of Merkel, has been a big factor in this county's oil development. . . . Records in the county clerk's office reveal that the Magnolia Company continues to have faith in the southwest Scurry county area. They have renewed all leases possible well in advance of their expiration date to avoid any possibility of losing them. Frank Kelly, Magnolia field man, is a frequent Scurry county visitor."

If you remember Ardis Stagner, who was employed in a number of Colorado grocery stores about eight years ago, you'll probably be interested in a story which appeared in the Los Angeles (California) Times not long ago. . . . Stagner, who is a brother of E. L. Stagner of Colorado, is now vice-president of Fur Industries Association at Inglewood, California. . . . He helps to operate a chinchilla farm there. . . . The story in the Los Angeles paper deals with the recent sale of 44 chinchillas from the farm to Mayor M. E. Barrus of Afton, Calif. . . . The animals brought \$75,000—more than \$1700 apiece, the story says. . . . Chinchillas are said to be very rare, there being less than 2,000 in the world. . . . Only about 20 chinchilla coats are said to be in existence, and all are at least ten years of age and valued at \$50,000 to \$80,000 each.

See by the Midland paper that Ida Beth Cowden, whose name is familiar in Colorado because she was so nearly killed in a car wreck west of here some three years ago, is to be married in mid-April to Donald Oliver of Midland. . . . Miss Hattie Tankersley of Colorado and Miss Cowden's brother were seriously injured in the same accident you will recall. . . . Miss Cowden was flown from here to Temple shortly after the accident, the late Dr. C. L. Root making the trip with her. . . .

Because she had stepped into the next room to use a phone, Mrs. Roy

Dozier, county treasurer, will never know what might have happened to her if she had been at her desk at a certain instant Saturday morning. . . . A particularly sharp flash of lightning caused fireworks to play about her office for several seconds, burning the light fixture and several spots on the floor and desk. . . . Come to think of it, she might never have known what had happened if she had been at her desk, if you get what I mean. . . .

My apologies to Nina Laura Smith for making column material out of her two weeks in succession, but this clamors to be told: The other night Nina phoned her parents, Mr. and Mrs. Thos. R. Smith, that the torrential rains which fell in Denton last week-end had flooded her room in the basement: floor of Lower dormitory, and all her clothes were wet and ruined. . . . "Well, just come on home," Mrs. Smith is reported to have told her, soothingly, "and we'll fix you up here"—Nina walked back at her "But I can't come home—I haven't anything to wear!" Mrs. Smith caught the Sunday night train for Denton, and the two of them are coming home for this week-end. . . .

P. S.—and Flash! "Snow White and the Seven Dwarfs" will be here Saturday, Sunday, Monday, May 7, 8, and 9. . . .

Popular Tenor Introduces "Swing Arias" Roy Brower

Roy Brower, popular N. B. C. artist appearing on the 9 o'clock morning show (C. S. T.) has a tenor voice that combines the plaintiveness of the Southland with the romantic of old Italy. A Roy Brower song is crooned, whispered and then "swung" as only Roy Brower can sing it.

In the N. B. C. show, "Aunt Jemima's Cabin at the Crossroads," Brower takes the part of Oranthal Johnson, a colored singer who made good on Broadway. Brower is famous in radio circles as the "tenor who always sings with his hat on." Millions of people in the East know Brower as the "Prince Charming of Song." Many years ago, he authored, directed and acted his own show of that name. He has had wide experience in stock, musical shows and vaudeville as a professional dancer as well as a singer. The "Aunt Jemima" program is presented Monday through Friday on the N. B. C. Blue network from 9:00 to 9:15 a. m. C. S. T. It is sponsored by The Quaker Oats Company, and includes a swing band, the Noble Cain chorists, the famous colored contralto, Etta Moten, comedians Buck and Wheat, and social Aunt Jemima, played by Harriette Widmer.
