

WPA PAVING UNIT READY FOR PLANS, SPECIFICATIONS

SIGNATURES APPROVED BY WPA ENGINEERS DURING CONFERENCE HERE ON MONDAY

Making of plans and specifications for the first unit of Colorado's residential paving under a WPA project which was approved some time ago is ready to go forward.

This announcement was made Monday afternoon by Mayor J. A. Sadler and H. B. Spence, manager of the Colorado chamber of commerce, following a conference with B. C. Rogers of Abilene, district WPA engineer, and Nick Jordan of Plainview, financier and contractor for the work. Earl Gunn, superintendent of the Col-Tex refinery, was also present.

The first unit of paving will lie east and north of the high school building, from Ninth street on the south to Fourteenth street on the north, and from Chestnut street eastward.

Work of signing up this unit has been underway for the past several months. The chamber of commerce, with Dr. W. S. Rhode as president and Spence as manager, has taken the lead in pushing a campaign to sign up a sufficient number of property owners.

Arrangements for financing the property owners' portion of the paving cost were worked out by a general committee in conference with Nick Jordan of Plainview some time ago. The committee was composed of representatives of the chamber of commerce, Lions club members, and city officials, with Dr. Rhode serving as chairman.

Cost of the paving to the property owners is to run \$1.15 per running foot for pavement and curbing. Mayor Sadler points out that no property owner will be forced to pave against his will.

Those who have signed up for the paving are requested to pay one-half of their total paving cost to either the city secretary, J. F. Merritt, or Spence. Those who will finance their paving cost will sign mechanics' liens for half of the cost. Both the cash payments and the liens will be held in escrow until the paving is actually in progress, at which time the balance will be due.

Under the financing plan provided by Jordan, loans for making payments will be made on a 6 per cent interest rate, with repayment to be made in easy installments running from one to twenty-four months.

Future Farmers of three Mitchell county high schools, Colorado, Westbrook, and Loraine, made a tour Saturday of outstanding project calves in the county.

There were four cars of the boys, and they were accompanied by F. C. Shillingburg, FFA teacher at Colorado; C. V. Cox, FFA teacher at Westbrook; and Ed F. Brown, head of Loraine's new FFA department.

'CANNED GOODS' SHOW BRINGS IN 748 ITEMS OF FOOD FOR THE NEEDY

In the midst of their own busy Thanksgiving preparations, Coloradans have remembered to remember those who might not be able to secure anything with which to make Thanksgiving preparations.

Seven hundred and forty-eight food items, mostly canned goods, were received at a "canned goods" matinee given by the R&R Palace theater Tuesday afternoon under direction of A. E. McClain, local manager.

The food was collected for delivery to needy families on

Thanksgiving, the collection being made under the sponsorship of the Colorado Lions club. Boy Scouts assisted in taking the food, and are to assist the Lions in delivering it.

The theater was jammed to capacity for the matinee, to which admission was one can or more of food. Scores of persons brought food to the show entrance and did not remain for the matinee.

Distribution of the food will be in charge of a Lions committee composed of Dell Barber, McClain, and L. C. Scarborough.

FIRST LIVESTOCK AUCTION AT GUITAR RING IS SUCCESS

NEARLY 2,000 ATTRACTED TO OPENING AND OVER 250 HEAD OF ANIMALS EXCHANGED HANDS

An estimated crowd of nearly 2,000 people coming from all over this section of West Texas attended the auction which opened Hunt Guitar's Texas Frontier Livestock commission plant in East Colorado last Thursday afternoon.

More than 250 head of livestock went through the ring and were sold during the afternoon. E. A. Tennis of Roscoe was auctioneer.

Chamber of commerce officials, who had endorsed the establishment of a livestock auction ring for Colorado and vicinity, acclaimed the opening of Guitar's ring an "unqualified success." The attendance was more than had been expected, and livestock brought better than market prices.

Top price for cattle was 3 cents, paid to Ed Strain for a group of 14 mixed steers and heifers. The buyers were Stewart and Narrell of Loraine. Hogs sold as high as 8:35, and sheep brought as much as 5.60. Horses and mules sold up to \$260 per pair.

Auctions are to be held at the ring each Thursday afternoon. Guitar says. There will be no auction this Thursday, however, because of the holiday.

W. H. S. GIRLS WIN TROPHY

AT BLACKWELL

The Westbrook basketball girls came home Saturday night with a well-earned second place in the tournament. There were nineteen teams entered and out of the nineteen Westbrook went to finals with Highland. Westbrook's first game was Friday evening with Pyean as opponent. This game was won by a margin of 15 points, the score 31 to 16. The girls remained in Blackwell Friday night and the second game was played with Novice early Saturday morning. In this game the girls met quite a bit of competition. The forward on whom the Novice team depended was held excellently by Ruth Smith, Westbrook guard. At the half the score was 13-5 and the outcome and final score was 22 to 20 Westbrook's favor.

Westbrook's third game was with Blackwell. They had met Blackwell two weeks before on the home court and had lost by 10 points and had tied the score 21-21 in a match game last week so they knew they were up against a real team. After a hard fought game they come out top with a lead of 4 points. The score was 30-26. The girls were now sure of a second place cup but with so much encouragement they had their eyes on the winner's trophy. The Highland girls were a little too good; they scored 30 points to Westbrook's 21, but it was a tight game and at the half the score was 17-17. Helen Moon acted as captain and was the one to receive the trophy.

Besides winning a runner-up trophy Westbrook placed two players

on the all-star team selected from the eighteen teams present. Ruth Smith was the chosen guard and Jennie Lee White the forward. They received small gold basketballs as awards. White was also one of the three players selected as most valuable to her team. For this honor she will receive a medal also. We all are proud of the girls and know they deserved the medals received. The team played good games and are very proud of the addition to our trophy collection.

SENIOR NEWS

We are trying to get together all the equipment and money for the Senior annual. The name of it is to be "The Cactus." Our business manager, Winton Lee, and his assistant, June, are doing pretty good. They have collected \$9.00 so far.

Some of the Senior basketball girls went to Blackwell's tournament Friday. Opal Leach, Oleta Dockerey, Iris Costin and Marjorie Hardcastle were the lucky ones or should I say "un-lucky"?

The coach at Blackwell let us stay at his house and told us to help ourselves. We raided the ice box and found all the sweet milk and chocolate we wanted and needed. We surely did have a nice time.

The Seniors are trying to collect forty dollars so we can begin on our annual "The Cactus" so everyone do your best to buy one.

Marjorie

JUNIOR NEWS

Several of the Junior girls are looking sleepy; it must be the results of the week-end (maybe too much sweet milk).

Miss Speights can't figure out what kind of exam she is going to give us. Miss Speights please be kind and make it easy.

The football boys played their last game of the season last Friday with Forsan. Those Junior boys who were playing football will probably take up basketball now.

Mattie Blanch Byrd attended the Future Home Makers meeting in San Angelo. She reported a very nice time.

If you ever want anything cooked just ask Oleta or Marjorie to cook it for you. They are really good cooks, especially sweet potatoes or hot chocolate.

Ruth and Gerald

FRESHMAN NEWS

We wish to welcome Louise Howard to our class. We are always glad to have new members, maybe she will share with us all these many demerits that we have been getting. Several of the Freshman girls broke all records the other day by getting ten at one whack. However Christmas is at hand and this is the giving time of the year, so I suppose we should say, Thank You Very Much Mr. Cox. The romantic antics in our class room doesn't seem to be happening so much between the students but our home room teacher, my my!

SOPHOMORE NEWS

Well, it seems as though all the six weeks exams are to be given Wednesday. Everyone will sure be busy Tuesday night and all day Wednesday.

Last Friday a group of the Sophomore girls went to Blackwell to the tournament. Even if they did not win a medal as Jennie and Smiley did, we are glad they went, and are proud of them.

Last Wednesday Mr. Hood promised to go skunk hunting with a bunch of kids in second year Literature class but he backed out before Friday night.

Mary McKenney

P-T. A. ENTERTAINMENT

The Parent-Teachers Association sponsored a benefit party Friday night in the high school and gym. Everyone attending enjoyed the many games played and the delicious refreshments served. Due to lack of advertising and cold weather the crowd was small in attendance but approximately \$10 was taken in.

FIFTH AND SIXTH GRADE NEWS

LIQUOR MEN PAY STATE \$19,000,000

AUSTIN.—Enforcement of the law has cost approximately 12 1/2 per cent of the revenue received from the liquor industry during the three years of operation by the Liquor Control Board, figures supplied by the board as it entered its fourth year showed recently.

Bert Ford, administrator, said that since the organization of the board Nov. 16, 1935, to Oct. 31, liquor men have paid the state \$19,044,066 in taxes and fees. Expenditures for administration and enforcement, amounted to \$2,412,199, an average of slightly more than \$800,000 a year.

The old-age assistance fund, which receives license and permit fees and three-fourths of tax revenue after deduction of administrative costs, received \$512,567,084 during the three years while the one-fourth share of taxes for the available school fund netted it \$3,694,664.

The general fund, recipient of bond interest and miscellaneous fees and under a former act a portion of the beer taxes, received \$331,347.

In addition to the state's income from the industry, cities and counties benefited by \$3,116,862, of which \$561,398 was in fines paid and \$2,555,464 in license fees.

Coach and Mrs. Jack Christian and daughter Judy will have as Thanksgiving visitors the following: Mrs. Christian's sister, Mrs. C. B. Hall, and her husband and daughter Carol of Pampa; Mrs. Christian's parents, Mr. and Mrs. W. N. Walker of Abilene and their sons, W. D. and

Lewis, and Mr. Christian's mother, Mrs. G. L. Christian of Abilene, who will also be visiting the Lawrence Christians.

Bringing along young Pat, the Jack Halles of Eastland are expected to be Thanksgiving guests of Mr. Hale's parents, Mr. and Mrs. Jim Hale, and Ted Hale.

Staying over for Thanksgiving in the home of Mr. and Mrs. Jack Sanders are Mrs. Joe Best, Jr., and her daughter, Linda Luan, of Tyler, who have been here all week.

McDonald of Austin, the former Bennie Ruth Montgomery.

Uncertain are Thanksgiving plans at the Lay Powell home. Mr. Powell and Jenks are busy these days. Mrs. Powell says, and they may not take off even for Thanksgiving dinner. She doesn't know for sure whether the Ben Smiths of Pecos will get here for Thanksgiving day or not, although she expects them some time during the week-end. The Earl Powells have made tentative plans to come from Stanton. Elmer Lay Powell will also be here from Stanton, but he will be minus his wife, who is spending Thanksgiving with her parents. Mrs. Jenks Powell and young son, along with Jenks Powell, will be on hand whenever the Powells' Thanksgiving dinner takes place.

SENTENCES IMPOSED BY JUDGE MAUZEY AS 32ND DISTRICT COURT ENDS

Three penitentiary sentences, two suspended sentences, and an acquittal featured the criminal calendar of the final week of 32nd district court here this week.

Five of those charged in the various counts entered pleas of guilty and were sentenced by Judge A. S. Mauzey.

Jack Cody plead guilty on forgery

Cly Broadus is to be accompanied by a friend, Ed Priest of Abilene.

At the first of the week the J. I. Paynes, who live near Colorado, thought they had no Thanksgiving plans. They still don't have any plans for the day itself, but on Sunday they will have their son, F. W. Payne, home from Hobbs, N. M., with his bride of Nov. 13, the former Theodosia Ryan of Hobbs. Thanksgiving plans at the A. E. Maddin home hinge on whether or not their daughter, Mrs. R. T. Emmett, comes from Amarillo. If she comes, she will be accompanied by friends.

There's a possibility that Dr. and Mrs. R. D. Bridgford will have Dr. Bridgford's brother, Bruce Bridgford of Denver, for a Thanksgiving guest.

Plans at the R. S. Brennand home depend, as usual, on who comes home. Mary Belle Brennand will be here from Chalk, it is fairly certain, and Mrs. Brennand's mother, Mrs. J. T. Leavell of El Paso, has been here for some time. If Bob Brennand of Midland is here, he and Lea Swope will be included in the Brennands' Thanksgiving arrangements.

Mr. and Mrs. Bun Pritchett will have dinner for their family and Mrs. Pritchett's mother, Mrs. W. F. Robinson. It may be that Frank Robinson, father of little Mariet Robinson who lives with the Pritchetts, will be here from Santa Fe, New Mexico.

B. Crocketts, the Jake Richardsons, and the Ray Richardsons of Colorado.

While here from Sweetwater the Mike Smiths will also visit Mr. Smith's parents, Mr. and Mrs. Burt Smith.

R. Trulock, and wife and daughter, Jane, all of Paris. O. B. Trulock Jr., will complete the circle around the family dinner table.

The A. C. Andersons will be among those having Thanksgiving dinner at the Vivian Shropshire home, where other guests will be Mr. and Mrs. John Shropshire and daughter of Colorado and Mr. and Mrs. Willis Shropshire and son of Midland in addition to "Mother" S. T. Shropshire.

The Willis Shropshires and son, Warren, will be dividing their time between the Vivian Shropshires' home and that of Mrs. Shropshire's parents, Mr. and Mrs. Dale Warren.

Although they plan to stay in Colorado on Thanksgiving, with

niece Bebe Boone of Dallas as house-guest, the Dick Billingsleys will do their real celebrating at the SMU-TCU game in Dallas on Saturday.

In the group attending the SMU-TCU game with the Dick Billingsleys will be Mr. and Mrs. R. H. Cuntrill, Mr. and Mrs. Frank Kelley and perhaps others.

Meeting her daughter's mother-in-law for the first time since the daughter married ten years ago will be a Thanksgiving thrill for Mrs. W. Hatcher, who is leaving Wednesday to spend Thanksgiving in Fort Worth with her daughter, Mrs. Larry Seamon. Mr. Seamon's mother will be in Fort Worth, too, and it will be Mrs. Hatcher's first meeting with her.

While her husband attends the state teachers' convention in Dallas, Mrs. James K. Polk will spend the holiday week-end with her parents, Dr. and Mrs. Millard A. Jenkins in Fort Worth.

The J. W. Watsons will spread Thanksgiving dinner for the following in addition to the "regular" family: Their married daughter, Mrs. Barney Alsbrook of Midland, and her husband; their college daughter, Mae, from Abilene Christian college; Mr. Watson's sister, Mrs. James H. Pritchetts, John and Jim Terry, and Mr. and Mrs. and Jim Terry, Mr. and Mrs. Setton Pickens, and Mr. and Mrs. J. M. Wells and sons.

The Les Terrys will have to divide their Thanksgiving between the Terry home and the home of Mrs. Terry's parents, the Will Warrens, where a belated celebration of Mr. Warren's 67th birthday, which came Monday, will be in progress to give added meaning to the Thanksgiving dinner. . . . The Warrens' other daughter, Mrs. Carl Smith, and her husband and son will be on hand from Midland. Also present will be Mr. and Mrs. Roy Warren and daughter.

DEATH CAME SUNDAY TO R. M. JONES, PROMINENT PIONEER CARR RESIDENT

Death came early Sunday afternoon to R. M. Jones, 71, prominent pioneer resident of the Carr community. He had been ill at his home for more than six weeks.

Funeral services were held at 3:30 Monday afternoon at the graveside in the Jatan cemetery with Rev. R. B. Walden of the Westbrook Methodist church officiating.

Mr. Jones was born in Cameron, Arkansas, on March 22, 1867. He was married in 1891 at Kingsville, Ark., to Miss Dora Lee, who survives him. They moved to Mitchell county about 35 years ago.

For 25 years Mr. Jones served as a trustee of the Carr school, a position which his only son, Seba Jones, has been filling for the past several years. He was a steward in the Carr Methodist church. Carr school was dismissed Monday because of his death.

Survivors in addition to Mrs. Jones and the son are four daughters: Mrs. Tom Jackson of Carr, Mrs. John Latty of Westbrook, Mrs. Ardivie Self of Kermit, and Mrs. A. J. Collins of Seymour; two brothers, Wm. H. Jones of Bryan and S. A. Jones of Portland, Oregon; two half-brothers, Ross Jones of Kingsland, Ark., and Percy Jones of Little Rock, Ark.; two half-sisters and nine grandchildren. Kiker & Son had charge of funeral arrangements.

FUNERAL HELD MONDAY AT FAIRVIEW FOR IRA L. JOHNSON, AGE 33

Funeral was held at the Fairview church in northwestern Mitchell county Monday afternoon at 2:30 for Ira L. Johnson, 33, who died in an Iraan hospital Sunday morning at 4 o'clock from a throat infection.

Johnson's body was brought to Colorado in a Kiker & Son ambulance Sunday. He had recently been employed by an oil company at Iraan. Born in Smith county on Jan. 11, 1905, Johnson had spent much of his life in Mitchell county. His wife is the former Lena Hardy, daughter of Mr. and Mrs. Ben Hardy of the Fairview community.

Survivors in addition to Mrs. Johnson include two sons, Theron, 10, and Weldon, 8. Mr. Johnson's parents, Mr. and Mrs. J. M. Johnson, live at Midland, as does his only brother, Siegle Johnson. There are also two sisters, Mrs. E. L. Barnes and Mrs. Svyile Conine, both of Houston.

The funeral was conducted by Rev. A. L. Haley, pastor First Christian church at Colorado. Burial was in the Ira cemetery.

Kiker & Son had charge of arrangements.

WESTBROOK LOSES AGAIN TO FORSAN'S MIGHTY BUFFALOES

Westbrook's gallant six-man football team lost its second game with Forsan on the Westbrook field last Friday afternoon.

The mighty Buffs from Forsan smashed to victory with a 53-12 score. The outcome of this game does not affect Westbrook's standing in the PSA six-man district, since Forsan is not playing men according to accepted eligibility rules.

The Buffs' offensive march got underway in the first period when Parker twice passed to Bill Lonsford for short gains. The first completion went 15 yards, the second for the remaining nine needed. Lonsford's attempted drop kick for the extra point was wide but Forsan got another scoring chance a few minutes later when Parker intercepted a Westbrook pass thrown by Redwine. Lonsford then broke loose on Forsan's first try in that series of downs, running 33 yards for a score. A pass from Lonsford to Parker was good for the extra point.

Soon after the second quarter opened Orvil Creelman recovered a Westbrook fumble on Westbrook's 37-yard line and in four plays the Buffs had rushed across another tally, Benny Asbury going over for the payoff from the eight. Lonsford's drop kick for the point was successful and the Buffs were in front by a 21-0 tally.

Redwine put the Wolves back into the game a short time later, however, when he raced 33 yards for a six-pointer. The placement kick for the point failed and Forsan was leading, 21-6. An advantage they maintained as the half gun sounded.

In the third period the Buffs opened up again when Clinton Sterling broke loose for a 25-yard gallop from scrimmage. However, the Ninemen were stopped and Oglesby soon thereafter took a Lonsford punt and raced 60 yards for a touchdown. The two teams fought on even terms until Asbury suddenly broke away and raced 25 yards for a tally which put Forsan into a 27-12 lead. From that point the Buffs gradually pulled away. Lonsford, soon after the fourth quarter opened, took a punt and lateraled off to Parker who raced 35 yards for a score.

Hollis then pulled down a pass from Lonsford for the point and Forsan was leading, 34-12. Creelman, Tommy McDonald and Jackson Craig added the remaining three touchdowns in the waning minutes of the game. Creelman running 35 yards after an interception, McDonald loping 40 on a play through the line and Craig dragging down an enemy pass and racing 20 for a six-pointer.

 Honesty
 Honesty is one of the most important factors in making a successful high school. However, in many cases we find those who will "slip" or merely steal test papers so that they may make high grades on the tests. Little things always lead to big things, so if some of these habits are not broken soon, by the time you are fifty you will have committed a large enough crime to serve a prison term.

When the teachers discover that their questions have been uncovered, they hasten to make a new more difficult set of questions. Is this fair to the honest students? Those who are struggling for good grades, but refuse to gain them dishonestly?

Why Do We Go To School?
 The current slump of student grades has started and forced the average CHS student to stop and ponder the cause behind this unexpected and altogether distasteful catastrophe.

Although we are not going to school with our sole purpose that of

making passing grades on tests and exams, the grades given us each six weeks measure to a fairly accurate degree the amount of learning we have absorbed. It is the facts that we glean from our high school classes that will count when we begin our life outside the protecting portals of Colorado High school. When we apply for that job as secretary or dishwasher, it is our "honest sense" plus the vast or minute amount of knowledge we have retained from hi-school classes which will send us up or down the ladder of success.

It is the opinion of many that school work has been neglected for fun. There is much activity outside the school which interests and adds to the life of the average student, but it has been proved time and time again that society should never be cultivated at the expense of school work. While it is true that "all work and no play makes Jack a dull boy," think how much duller he would be if he were only a shallow social butterfly! The development of personality and ability to like by many people is a factor in success, but "book-learning" and fun can be given a better ratio than it has been given heretofore.

Perhaps another reason for failure is disinterest. If one has any interest at all in himself or in making a livelihood, it would be to his great advantage to make use of every crumb of the knowledge scattered so thickly by our teachers.

Study—and study with a purpose—will satisfactorily end this grade

slump. But doing and saying are two different things. Will you do it?

THANKSGIVING HOLIDAYS
 Thanksgiving is just around the corner once more. What a thrill to think of a good old Thanksgiving dinner and best of all two school holidays. To some, the dinner of turkey, pies, and spices is the best, but to others the holiday comes first. Thinking aside from these, do you know why we have Thanksgiving Day? This is why. The Pilgrims came to America in December and went through the hardships of winter. The following year was a prosperous one. So to give thanks to God for their blessings, they gathered together on the last Thursday of November and had a big Thanksgiving dinner. So while you are enjoying the holidays and dinner give thought of the purpose of Thanksgiving.

WOLVES DOWN ROBY
 The Wolves scored a 45-7 victory over a fighting Roby Lion team. This game was played under almost the same conditions as the Roby-Colorado game last year, except, there was no jinx on this game as there has been on the games Colorado has lost. It was cold just as it was last year during this game, but there was no full moon coming up in the north-east. The night of the last Roby game, the Monahans game, and Roby game there was a full moon and we lost. If you don't believe this ask Mr. Pratt.

The game Friday night featured a smooth-running Colorado team who outclassed the Roby Lions in every department. The Wolves' second team played almost as much of the game as the first team did. There were many thrilling plays and excellent team work seen during the game. The stars for Colorado were

Wood, Smith, Chadwick, and Ballard. Turkey-day is an annual affair, the Colorado-Snyder game. This promises to be a real ball-game. Snyder always looks forward to this day and usually refers to it as "Colorado-day." The game will start at 2:30 p.m. Come out and help the Wolves coast to another victory. Also, next week we will give our all-district 6-B football team.

WHO'S WHO ON THE CAMPUS
 Miss Lea Swope
 Miss Lea Swope, who, all her life, has tried to understand people, was born in Killeen, Texas. She attended grammar and high school there, furthering her education at Baylor University and later Texas Tech. She began her teaching career immediately after graduation from college and taught in Killeen until 1928. She then came to Colorado to teach in Hutchinson and Junior High school the next year.

Miss Swope came to the high school this year to teach English. As part of her education she has made several pleasure trips through California, Mexico, Illinois, and Canada. She enjoys bridge, sewing, but hates cooking—likes to read and watch football. Miss Swope thoroughly likes outings and likes to hunt, but never shoots anything. Tries to understand people for a hobby.

Thomas Earl Chadwick
 And so on—The three little pigs ran down the street shouting, "Who's afraid of the big bad Wolf?" Well, who is the big bad Wolf? Haven't you heard? It's Tommie Chadwick! Touchdown Tommie, the boys call him—or maybe it's somebody else, but he does make a lot of touchdowns.

Tommie likes to fish, but he doesn't like to eat them. So, what's the use of fishing, I say. "Well, it's lots of fun!" There's one thing Tommie likes to do—and that's eat. People began asking him, "Tommie, do you feel well? Are you sure there's nothing wrong?"—and stuff like that if he doesn't eat very much. But he usually does, he says.

Tommie weighs one hundred and forty-five pounds and plays quarter-back, as most of you know, and everybody likes to watch him. I always said that he's spectacular!

NEW BOOK IN LIBRARY
 The Junior fifth period English class, taught by Mr. Mason, donated a very interesting book to the high school library. The name of the book is "Texas History Movies." This book is an edition of Texas history plays by Jan Isabella Fortune and the history of Texas from 1492 when Columbus discovered America until the year 1885 when the cornerstone of the new capital was laid. The incidents of history are illustrated with comic sketches which make the reading very interesting and enjoyable. For a more interesting history of your home state, we recommend "Texas History Movies."

BOX ON DOOR OF ROOM 25
 The little mail box recently installed on the door of room 25 has proved a great asset in getting materials in for The Howl. It is true that most of the material is gossip but after careful weeding some of it is used.

All students are urged and invited to submit materials for school publications. After all, they belong to the students of CHS, why should they fail to support them?

AG. CLASS STUDIES TRENCH SILOS
 The second year Ag. boys have been studying Feeds and Feeding. The first year boys are studying on the trench silo. Mr. Shillingburg stresses very much the importance of both these projects. Our second club meeting will be this week.

REV. C. Y. DOSSEY IN ASSEMBLY
 Wednesday afternoon the Colorado High school student body had as their guest speaker C. Y. Dossey, State Evangelist of the Baptist churches in Texas.

His subject was very timely when we look about and see present day high school conditions. The name of his subject, "Does It Pay To Be Good?" brought out several illustrations in sports, common sense mental thoughts, and physical conditions.

The students appreciated the message and profited much from it.

CONTRACT TO BE LET FOR NEW BUILDING

For the benefit of those who did so much neck stretching at all the strange men about the building last Thursday, bids for the new Junior High were being opened. The contract was not let at the time, however.

Mr. Watson made a hurried trip to Ft. Worth that night returning the next. All of the difficulties have been worked out and the contract will be let at a very early date.

This marks a definite step in the progress of the Colorado Public Schools. A so-called Junior High is about to be realized and not just a grammar school as it has been operating since organization.

BOOK IN BRIEF

"East Wind, West Wind" is a fascinating tale of a Chinese girl who goes through many hardships and heartaches in the Orient. This book tells of her as a little Chinese girl who had her feet bound when she was a baby, causing her much pain but she endured it, as she was told by her family, "It would make her husband love her."

Many students have expressed their desire to read "Gone With The Wind." If they will come to the library and sign the reserve slip for this book, I think that they may be able to get it some time this year.

JUNIORS PLAN PLAY

The Juniors are planning to give a play "The Phantom Bells" sometime in the near future. It promises to be very hair-raising and exciting for those who see it. The money that is made will be used toward the funds that will help the Juniors give the Seniors a grand time at the Junior-Senior banquet. Mr. Mason will be in charge of the play. The characters have been selected and practice begun.

FOOTBALL INTEREST IS NOT LOCAL

College football is being taken to interest by the C.H.S. students, especially the Southwest Conference as the race for championship honor grows hotter each week-end.

If you don't believe this just look into some of these homes on Saturday afternoon and see the C.H.S. students with their cars wrapped up in radio pulling for a ball club.

Your guess is as good as mine but here are some tips for this week-end games.

The T.C.U. Frogs will trim the S.M.U. Mustangs just as they have everything else that has got in their path this year. Don't be cheap give 14 points and take the Frogs for they are Rose Bowl bound.

Texas will take the A. & M. Cadets. Sounds silly doesn't it but there are

good reasons to believe this. Texas has a spirit in the school for this game that they haven't had this year. The Steers haven't won a game this year and the law of average will give them this one. Furthermore, this game is haunted by a jinx which has not permitted a home team to lose since 1923 when the Steers beat the Aggies at Kyle Field. In 1924 the Steers dedicated Memorial Stadium with a 7-0 victory over the Aggies and since then an Aggie team has not made a touchdown in Memorial Stadium.

Please don't ask for any more it took us an hour to figure these two out.

STUDENT TALENT IN ASSEMBLY

Several numbers of the amateur program which was broadcast over KRBC Abilene, on Wednesday of last week were repeated in assembly Tuesday afternoon at the regular assembly period, under the sponsorship of Truett Fulcher, county-wide director of recreation under WPA.

The ones on the program were high school students except Sarah Carter who is in Junior High.

HISTORY HUMANIZED ON SCREEN IN 'ANTOINETTE'

DIRECTOR VAN DYKE AIMED TO MAKE HIS CHARACTERS LIVE AND BREATHE

"History is humanized on the screen, making it more realistic and therefore more entertaining." The words are those of Director W. S. Van Dyke II, given in a recent interview on the set of "Marie Antoinette," which brings Norma Shearer and Tyrone Power to the Palace screen Sunday and Monday, Nov. 27 and 28.

"One movie scene," declared the noted director, "can create a vivid

mental picture that would require a thousand words in a novel or history book.

"Historically, the picturization of 'Marie Antoinette' is authentic in every detail. I believe a modern audience will find it not only entertaining but informative as well. Those who see the picture will learn fascinating facts generally overlooked when histories are written. In making the film version of Marie Antoinette's life, it has been our purpose to reveal the little-known human drama back of history."

According to Van Dyke, his direction of "Marie Antoinette" has been similar in many respects to the approach he took in making "San Francisco."

"Norma Shearer's 'Antoinette' and Tyrone Power's 'Count Fersen,' we hope, will come to life as flesh-and-blood people no different from those living today," he declares. "History too often dwells on principles, overlooking the fact that at a time of intense drama people in every walk of life react exactly the same.

"No amount of reading could make a person experience the terrors of an earthquake. I believe the scenes in 'San Francisco' did. The audience felt that it was actually living through an earthquake and there was a bond of understanding and

sympathy between those looking at the screen and the actors. In telling the story of Marie Antoinette it has been our aim, similarly, to make the audience experience the horrors of the French Revolution and live with the actors the human, behind-the-scenes happenings that determined Marie Antoinette's destiny."

STAR CAST IN WAR ROMANCE

The history of the American Navy records few more dramatic chapters than the amazing story of the World War submarine chasers. Constructed of wood and built more for speed than comfort, the "splinter fleet" conveyed more than 2,000,000 men and hundreds of supply ships through the U-boat infested waters of the Atlantic.

Against this thrilling and little-known background, 20th Century-Fox presents one of the greatest love stories of the Great War, "Submarine Patrol," coming Friday and Saturday, Nov. 25 and 26, to the Palace theatre. Richard Greene, Nancy Kelly, Preston Foster and George Bancroft are featured in the cast.

The picture, which was directed by John Ford, shows Richard Greene as Chief Engineer on the S.C. 599, one of the splinter boats. A rich man's son who thought he had drawn a soft berth, Greene finds his craft ordered to convey munitions freighters to Europe. Just before sailing Richard falls in love with Nancy Kelly, daughter of George Bancroft, whose ship is being conveyed.

When the young people are reunited in Italy after coming through the perils of several sea battles unscathed, they prepare to get married. The affair is broken up by Bancroft, who later hurries to the S.C. 599 to apologize when he realizes he has misjudged Greene.

Aboard the sub chaser he is knocked out in a fight just as the craft slips away from its pier on a secret

KEEPING UP WITH COLORADO GIRLS AT TSCW

By Nina Laura Smith
TSCW-ites got badly stage-struck when Elissa Landi lectured on the difference between stage and screen acting. In her lecture Miss Landi said it was easier for a stage actress to transfer to the screen than it was for a movie queen to become a stage

actress. She seemed to hold her audience spellbound with her own personality and the tales of her glamorous profession. Her most recent screen role was in "After the Thin Man," but Miss Landi says she is not going to be in another inferior movie and is now looking for a suitable play.

TSCW managed to recover from this attack in time to go en masse to Dallas for the A. & M. game and corps trip. Two thousand girls descended upon the city, and along with many more Aggies (thank goodness, some say) painted Dallas red and white in their school colors. An official estimate of the number of dances held would be impossible, as would the average estimate of the population of the hotels. Seen at the Adolphus Hotel dance were Mabel Cooper, Frances Elliott, Erna Lou Merrill, Elizabeth Taylor, Melba Slaton, Doris Wynne, Virginia Gurney, Betty Hodge, and Moncure Carter, all surrounded by khaki and brass buttons.

Frances Elliott, as secretary of the YWCA, attended a special Armistice day luncheon given by the International Relations Club (sponsored by Dr. C. D. Judd, well known in Colorado). Armistice Day means little to TSCW except flags in the salad, since there is no holiday. The luncheon is a new idea.

While we think of it, we would like to know where someone got the idea that one Neva Lee Kirkpatrick, senior beauty nominee, was from Colorado, Texas. Her address is La Vista, Colorado. Maybe this Colorado City agitation would be a good thing for TSCW at any rate.

News item: Moncure Carter stayed at home and studied last weekend. She is quite normal once more. Progress of Colorado's demon tap-dancers, Virginia Gurney, Frances Elliott, Nina Laura Smith, and Erna Lou Merrill is slow and not so sure. Feverish preparations for an individual dance are now going on. The one who insists on stepping on her own foot is now stepping on other people's feet as well.

Thanksgiving holidays are uppermost in the minds of everyone now. Erna Lou, Elizabeth, Frances, and Melba are remaining on the campus in order to hold it intact for the rest of the clan. Edna Earle is going to Dallas, and the rest are going home (you figure them out or wait until you see them). Persons mentioned in this column will be glad to explain things that can be explained about their actions to puzzled readers. Probably denials will flow thick and fast.

Last Monday night sophomores Frances Elliott, Edna Earle, Nina Laura Smith, Erna Lou Merrill, and Elizabeth Taylor consumed their share of chile and soda pop at the traditional Harvest Moon celebration. Indeed, a certain pair of these drank three bottles of soda pop each, and lived to tell the tale.

Frances Elliott is learning her way around the Teachers' College campus very well lately. The score stands so far at one dance and some parties. Betty, Virginia, Mose, and Doris should be very proud of their freshman class for the very amusing skit they presented in last assembly. It was a great improvement over previous fish offerings and almost rated with upper classmen presentations.

A THANKSGIVING MESSAGE

I am an American!
I am proud of the fact that I am an American. I am proud of my forefathers who saw America as it was and who made it as it is today. They came into America and blazed trails and built it into a powerful nation. Their once small forts are now the largest cities in the world. I am proud of the great men of America, men such as Washington, Lincoln, Jefferson and Franklin. They worked for the betterment of America and they succeeded in that work. Then, in 1787, came our Constitution.

The Constitution of today was made yesterday by those men who had the foresight to realize what was needed by a great nation. It is that same constitution that gives us equality. I am proud that there is equality of the people of America. I am glad that America is a democratic nation, a nation where public office holding is not restricted to a mere handful, where men aren't put in prison for debts, where there is a government of the people, by the people and for the people.

What is more desirable than freedom of speech, freedom of press, and freedom of religion? In America, I may have all three. I may worship at any church I please and I may say what I please. Freedom of the press is a great help for the people may see what is really happening without interference of a monarch.

Peace! What country is more peaceful than America. I dearly love peace, and I am sorry for any country that does not have peace. Although America is peaceful, she is forceful.

America commands respect from other countries. They respect her power and her richness. They respect her people and her government. Real Americans are sincerely thankful for this respect and most of them are content to remain in America.

I am proud of America because of her geographical attributes. What country has a more varied climate or land surface? You may go from frigid Maine to balmy Florida, west to the mountains and canyons and spacious deserts or east to the rich valleys and busy ports. Here is a field of golden grain; there is a steel factory. If you wish you may travel from the sluggish rivers to the bright, rippling cascades, from the hot desert air to the fresh breezes of the Gulf coast. I love America, the beautiful.

America, the land of plenty!
Grain, cotton, rice, sugar-cane, fruit, tobacco and indigo are grown in America. How about her factories and other industries? Her resources of gold, silver, coal, oil, iron and sulphur are very great. Her commerce is one of the greatest in the world and she has many ships in trade.

What about the future progress of America. Will her resources be lacking? Will she decline? Modern inventions, discoveries and research will answer that. America has room for advancement and she gives her citizens a chance to advance with her. We shall move on together until we reach our goal. I am glad I am an American for "This is my own, my native land."

CAPITAL PUNISHMENT

Our incoming governor, Lee O'Daniel is opposed to capital punishment; is also opposed to the poll tax and says he has an open mind on race horse gambling and liquor by the drink, which when interpreted means he is in their favor. He has not paid his poll tax for eight years and we claim he owes the school children \$8.00.

He is opposed to capital punishment, and indicating the possibility of a plan to change the law. If he is serious, an issue of vital importance is raised, which should be faced fearlessly, in the interest of the welfare of the people.

In support of his opinion, Mr. O'Daniel quotes from the Bible, presumably the commandment: "Thou shalt not kill."

To a man who professes to be guided by the Bible, in any course of action, very little argument should be necessary to show that the Sixth Commandment does not forbid the taking of human life, legally, as a forfeit for crime. Human government was established on earth, by divine edict, just after the flood, and is recorded in the ninth chapter of Genesis. One law, clearly written, is in the sixth verse—"Whoso sheddeth man's blood, by man shall his blood be shed; for in the image of God made he man." This sacred and divine law has not been changed, and it is proof conclusive that the judicial taking of human life is a function of government.

The Ten Commandments that the Governor-elect used to good effect in his recent campaign are found in the Twentieth Chapter of Exodus. The next time Mr. O'Daniel has his Bible open at this chapter, if he will turn just one page, he will read in the twenty-eighth and twenty-ninth verses of the twenty-first chapter, that a man was required, under the same divine law, to forfeit his life if found guilty of being responsible, even in an indirect way, of the death of his fellow man.

The Governor of a state could do nothing more dangerous, so far as the sacredness of human life is concerned, than to advocate, and, by his influence, attempt to abolish capital punishment. The prompt and fearless enforcement of the criminal law, as it exists, by divine sanction, has been, since the days of Noah, is now, and will continue to be, the safeguard of society.

It is certainly evident that we are living in an age of loose thinking. It is well advertised that the incoming Governor intends to run the affairs of Texas by the Ten Commandments. If, later on, Mr. O'Daniel should be permitted, by legislative action, to incorporate his personal views into law, it is to be hoped that he will not interpret the other nine commandments as he has the sixth.

Abolition of the death penalty has been an oft-mooted question. Actuated by sincere motives, its advocates argue solely upon humanitarian grounds. But there are serious social aspects of the question that should not be overlooked.

Ordinary citizens have little protection from criminals save that afforded by the state. Society must defend the lives of individuals, as well as its own life, and, thus far, the only effective deterrent to commission of heinous crimes has been the penalty of death.

Dreams of Utopia may be inspiring, but in light of existing conditions, to abolish legal executions entirely would be foolhardy, for it would encourage crime and foment mob violence. This proved true in Tennessee where the experiment was tried and where, after two years of increased lawlessness and lynchings, the death penalty was restored.

No one likes to think of taking human life, even by law. Sympathy always is felt for those condemned to die. But to put forward the Sixth Commandment of the decalogue, as justification for abolition of capital punishment, is absurd. Such an interpretation of divine law contradicts intent of the law itself. For certain crimes, death, inflicted by the state, was law among the ancient Hebrews and it has been law in all civilized nations of history.

Sympathy should not become maudlin and be allowed to sway reason to the extent that welfare of society is forgotten. Ever kept in mind should be the innocent lives destroyed by murderers, many of whom are escaped convicts, or those on parole.

Lynn Landrum in his column discussing capital punishment has rendered a distinct service in giving the chapter and verse in the Bible where the punishment for violating each of the commandments

is to be found. I dare say that before reading it not one out of ten of you readers could have answered the question, "What punishment was prescribed for the violation of each of the commandments?"

The raising of the discussion of this question makes it timely to consider some propositions which will enable us to think straight upon the question of capital punishment. I call attention to these self-evident truths:

1. Civil governments are of divine appointment. Romans 13: 1.
2. Officers of a government, when constitutionally elected, are God's ministers to us in civil affairs, Romans 13: 4.
3. Governments have inherent authority to maintain their dignity and authority, to enact and enforce laws necessary to the protection of the lives, liberties and rights of their citizens.
4. In the exercise of this inherent authority, the state may inflict any and all punishment necessary to the protection of its people, even to the taking of the life of the criminal.
5. When a state in the exercise of this inherent authority, through constitutional agencies, such as courts, juries and law enforcing officers, takes the life of a criminal, it is the state and not the officer taking the life of the offender. The state is the only authorized agent to visit punishment upon men in this world.

It is not necessary to add anything to Mr. Landrum's discussion further than to say that, as Mr. Landrum suggests, he did not give all the offenses which were punishable by death in the Mosaic statutes. Without trying to be exhaustive, I will suggest a few more which may be added to the commandments: Kidnaping, Exodus 21: 16; bestial sins, Exodus 22: 19; witchcraft, Exodus 22: 18; blasphemy, Lev. 24: 16; enticers to idolatry, Deut. 13: 5, 9; a stubborn son, Deut. 21: 18. All of these offenses were punishable by death. One will be surprised if he will run through the record to find how many offenses among the Hebrew nation were punishable by death.

As the governor has come out squarely against capital punishment, may we expect him to commute or pardon every convict against whom the death penalty is assessed? If that is what the people want they will probably get it.

As he has declared that he has an open mind about race gambling, we may reasonably expect him to favor it. Here, too, the people will probably get what they want, if they want horse race gambling encouraged.

BEAUTIFUL TEXAS

Last week a prominent citizen of Texas visited in Chicago and dropped into one of the prominent newspaper offices and asked why don't you write for your paper something about beautiful Texas and he said I will and here is what he wrote.

Texas occupies all of the Continent of North America except a small part set aside for the United States, Canada and Mexico. Texas is bounded on the north by twenty-five or thirty states, on the east by all of the oceans except the Pacific, on the south by the Gulf of Mexico and South America and on the west by the Pacific Ocean and the rest of the world. Underneath Texas they have at this writing been down, out in Upton County, only 13,000 feet or so for oil, and up in the air Texas has in Guadalupe Peak, 9,500 feet above sea level, the highest hill in the United States east of the Rockies.

Texas is so big that the people in Brownsville call the Dallas people Yankees, and the citizens of El Paso speak of the residents of Texarkana as being effete easterners. It is farther from El Paso to Texarkana than it is from Chicago to New York, and Texarkana is closer to Milwaukee by air line than it is to El Paso. (Try this on your map.) The United States with Texas left out would look like a three-legged Boston terrier.

The chief occupation of the people of Texas is to try to keep from making all the money in the world, and at that the wealth of Texas increased 539 per cent between 1900 and 1927. At one time Texas was so wild that not even the law of gravitation was obeyed, and the chief pursuit of the Texans was Indians and Mexicans, but now it is erop records and oil production. It is so healthful in Texas that out in Eastland a horned frog lived thirty years sealed in a cornerstone without food, air or water.

Texas are so proud of the Lone Star State that they cannot sleep at night. If a Texan's head should be opened the map of the state would be found on his brain. The word "Texas" is of Indian origin and means "Friends," and the Texas people are that way yet unless you take a slam at their state. If your front gate is not at least eighteen miles from your front door you do not belong to society as constituted in Texas. Down on the King ranch the front gate is 150 miles from the front porch and the owner is thinking of moving the house back so as not to be annoyed by passing automobiles. Other Texas landlords have whole mountain ranges on their ranches, and one Texan has forty miles of navigable river on his farm. If the proportion of cultivated land in Texas were the same as in Illinois the value of Texas crops would equal that of the other forty-seven states combined. If all the people of the United States were to move to Texas it still would be no more densely populated than is Massachusetts. Texas has land enough to supply every man, woman and child in the whole world with a tract 20x200 feet and have enough left over for all the armies of the world to march around five abreast.

To move the Texas corn crop would take a string of box cars longer than the distance between New York and San Francisco. If the 1,500,000 tons of sulphur mined in Texas annually were in the hands of His Satanic Majesty they would solve his fuel problem. If all the cotton grown in Texas were baled and built into a stairway it would reach to the pearly gates. If the 391,097,000 barrels of oil produced in Texas in 1936 were made into gasoline it would run a well-known make of light car throughout eternity. If all the hogs of Texas were one hog he could dig the Panama Canal in three roots and one grunt. If all the Texas steers were one steer he could stand with his front feet in the Gulf of Mexico and his hind feet in Hudson Bay, and with his horns punch holes in the moon, and with his tail brush the mists off the aurora borealis.

BAPTISTS ARE GOOD PEOPLE

Dr. Robt. T. Hill of the State University and a noted writer of History, in writing about the Baptist State Convention has this to say:

Although worrying but little about doctrines and dogmas, there is something likeable and substantial about these good Texas Baptist folks that I admire, and likewise, there were some things that rang mighty true in the addresses of the Rev. T. A. Binford and others before last week's convention in this city when they denounced the present day departures from the old-time rules of good behavior, and trailed gambling, drinking, dancing, cocktail parties and other modern detours from the straight and narrow path which tended to sex looseness. It is said that there are nearly a thousand interpretations by as many sects and denominations of doctrines taught in the Bible, but there can be no difference of opinion whatsoever concerning the moral laws and laws of right living as set forth in that book. They give no encouragement nor support whatsoever for vices of modern social life, which are the same as those which ultimately caused the decadence of ancient Rome.

In those strenuous old frontier times of Texas which tried the souls of both men and women, how well I remember how sensible and substantial were the good old pioneer Baptist people and how honest and firm and unobtrusive they were in their practices and beliefs which were entirely void of sensationalism. They were among our chief pillars of Texas pioneer society upon which were built any virtues that this state might now happen to possess.

After all, it isn't what a man believes or doesn't believe or what church he may belong to that makes him better. It is the way one acts and does that he'll count. Although pretty hard to harmonize with most people, I have ever yet seen a Baptist with whom I could have a serious disagreement. Somehow or other in my long life's experiences they just seem to fit in with life and things; doing good and attending to their own business. I hardly see how we could have done without them.

WEST TEXAS DAY GAME OFFERED BY TEXAS TECH

LUBBOCK.—The most colorful and important football game in West Texas history will be played Saturday, Nov. 26th at Lubbock between Texas Tech's meandering Red Raiders and Marquette University's mighty juggernaut. It has been designated as "West Texas Day" by Texas Technological College and institutions have been extended to all fans interested in the rapid progress of the Red Raiders to see this game and show the renowned Eastern invaders that all West Texas is proud and back of the Red Raiders who are today listed as one of the nation's greatest teams.
A capacity crowd at Tech field Nov. 26th will convince Texas Tech executives that fans in this section are not only desirous but will support the college in its effort to arrange games with the most famous football teams in the United States.
If West Texans rally to the cause here Nov. 26th and fill the local stadium then contracts, now pending with big-name, big-time grid machines calling for heavy guarantees, will have a brighter opportunity of being completed.
Marquette, victorious over Southern Methodist and other great teams this year, will give the Red Raiders their most severe test this season. The game will hold the national spotlight that day and it is the hope of all Texas Tech executives that thousands of West Texans will come from far and near to see the Raiders make another stout-hearted bid in their commendable progress toward national recognition.

TEXAS' RICHEST HARVEST

From the Panhandle to the Rio Grande, from the Sabine to the New Mexican border, Texas abounds in oil. It is the largest single "money-crop" in the state. Oil pays Texas a revenue of well over \$600,000,000 per year, exclusive of the 50-odd million dollars of state and federal taxes. This huge figure includes over \$200,000,000 for materials, supplies and service; about the same amount for salaries and wages; about \$20,000,000 for lease rentals; about twice that much for lease bonuses; some 30 to 40 million dollars for royalties; and the balance in state and county taxes.

The Humble Company has been privileged to participate in the development of this Texas industry. During 1937, Humble produced approximately 138,000 barrels of Texas oil per day; it bought from other producers and royalty owners approximately 229,000 barrels per day, sending a total of 367,000 barrels to the markets of the world—more than 25 per cent of Texas' total daily production.

The Company provides direct employment for approximately 14,000 Texans. So it realizes what this oil business means to Texas—and what Texas means to the oil business. The appreciation of this fact stands behind the unexcelled service the Texas motorist finds in Humble Service Stations.

A baby ring was dispatched to the infant daughter of Mrs. Gale Billings, former club member now living in Illinois. Mrs. C. W. Adams of Fort Worth was a guest, attending with Mrs. Glover.

The club will not meet this week-end.

PICKED UP ALONG THE NEWS PATH

If there were a chance of being original about it, we might do a few jottings on Thanksgiving. . . . But there isn't a chance, for our jottings would go just like everybody else's. . . . To wit: Turkey. . . . Dressing. . . . Cranberry sauce. . . . Pumpkin pie. . . . Football games. . . .

In this issue of The Record, reaching you a day earlier than usual (unless, of course, you live on a route) we have made our usual hectic effort to list all the Thanksgiving comings and goings and doings we could get wind of. . . . But in this world of today, when trips or home-comings can be planned on a moment's notice, it's hard to be accurate about holiday plans. . . . We've done our best—remember that in our favor, if you will, when you look up from reading that So-and-So will be in Somewhere-or-Other for Thanksgiving and see that he's right here at home!

One of my "stool pigeons" tells me that we'll be hearing most any time now of the marriage plans—or the marriage—of one of Colorado's comeliest young brunettes. . . . The young man is also a brunette, also of Colorado, and nice-looking enough to be "comely" in his own masculine way. . . . But our informer prefaced her tidbit thus: "I'm afraid it's too late now." Whether she meant that the plans are going awry or that they're too generally known to be news we can't figure out, but here it is for what it's worth. . . .

This Joy Hodges who has played leading roles in two recent pictures at the Palace is said to have been a pupil of Raymond Jones, son of Mr. and Mrs. J. Lee Jones, Sr., while he was teaching in a Des Moines high school a few years back. . . .

Two of Colorado's used-to-be "schoolmarm" went back to one of their former haunts a few Sundays back and had what they describe as the "time of our lives." . . . Both are now, and have been for several years, among Colorado's leading matrons. . . . They are, to cut the suspense short, Mrs. J. T. Pritchett and Mrs. M. J. Dawson, and the former "haunt" which they visited was Coahoma during its homecoming of two weeks ago. . . .

Twenty-four years ago, as Omeira Terry, Mrs. Pritchett taught at Coahoma. . . . A few years later Mrs. Dawson, then Ethel Mann, taught there. . . . Since making that visit Mrs. Pritchett doesn't know what to predict about the slovenly or incorrigible schoolboy of today. . . . She sighs and admits, in bewilderment, that tomorrow he may be president! . . . Back in her teaching days at Coahoma, for instance, there was one boy who gave her a particular lot of trouble. . . . It took the combined efforts of her and his mother to keep him in school at all. . . . Imagine her surprise when he was introduced as a leading member of the school board during the homecoming! Another boy who always made poor grades in writing because of his slovenly methods is now holding down a good position with a big company—and his job depends, to a large extent, on accuracy and neatness. . . . One thing that everybody got a lot of fun from was an old picture of "Miss Terry" which somebody dug up from somewhere. . . . For the photo she was fetchingly attired in a Merry Widow hat, a fancy blouse, and a "hobble" skirt. . . .

Shakespeare

With all members present but one, the Shakespeare club met Friday with Mrs. John Arnett as hostess and Mrs. Jack Smith as leader.

Refreshments were served after the lesson on "King John" and current events. Guests were Mrs. B. R. Russell and Mrs. I. G. Dunbar, the latter a guest of Mrs. John L. Doss from Lubbock.

The club will not meet this week.

Zetaghian

Twelve members were present when the Zetaghian club met Friday with Mrs. Farris Lipps to hear Mrs. Lawrence Christian review Marjorie K. Rawlings' "The Yearling."

Preceding the review Mrs. James Cook gave a sketch of the author's life. Roll call was assigned, and was led by Mrs. Wylie Kinard.

Plans were made to meet on Monday, Nov. 28, instead of this Friday. Hostess will be Mrs. W. B. May.

Standard

Discussion topics on "Knockers and Boosters" were a feature of the Standard club's program at the home of Mrs. Leslie Crowder on Friday afternoon.

Mrs. J. A. Buchanan led both this discussion and the Shakespeare lesson from "King Henry IV."

The meeting this Friday will be with Mrs. R. D. Buchanan.

STANDARD OIL COMPANY ANNOUNCES PENSION PLAN

CHICAGO. — The Standard Oil company of Indiana announced it would ask approval of a plan to set aside \$1,700,000 annually to insure a liveable retirement income for each of 18,500 employees.

President Edward G. Seubert said the company on the basis of present payrolls planned to contribute \$850,000 yearly to match a similar sum deposited by the employees. Pension payments would begin when the employee retired at 60 or 65.

Seubert said the plan had been filed with the securities and exchange commission for approval and that stockholders of the company would be asked to vote upon it at a meeting at Whiting, Ind., Dec. 22.

chell county, after last Tuesday's election to pay a bet. Earnest and Browne wagered Krebs that Cleveland would defeat Harrison in the presidential election. . . . The rolling was, presumably, in a wheelbarrow, or something. . . . R. O. Pearson saw this item when it appeared, and he clipped it and sent it to Dave C. Earnest, who now lives in Edinburg. . . . A few days later Pearson himself received a clipping of the paragraph from Chas. Gilpin of Dallas, who is now manager of the Morton Salt company in Texas and who was one of the "old gang" in the Colorado of fifty years ago. . . . Reading the paragraph stirred Pearson's memories, and he recalled the days when he and all the above-mentioned men were among young Coloradans belonging to the "Colorado Guards" one night to encampment at Austin each year. . . . He especially recalled one night when they were all encamped near the old Rensderbrook hotel, ready to board a train for Austin the next morning. . . . The George Brown mentioned in the Dallas News was working then for a Colorado business man named Lapowski, and he was in command of the Colorado company. . . . He was a stickler for discipline, so while he was asleep that night some of the boys blacked his face, just to take him off his dignity. . . . Browne later went from here to Abilene and worked for the Texas & Pacific. . . . He is dead now. . . .

It's never been our pleasure to become acquainted with Allan J. Payne, pioneer Coloradoman who was chamber of commerce manager at Slaton for years before moving to Florida some time ago. . . . But we are more than willing to take the word of those who do know him that he is the nicest of men, especially after receiving the following letter from him: "I have just finished reading my good old and reliable Colorado Record, and how any one could take exception to a weekly paper as good as the Record is by me; why it is one in a thousand in its class, and I am, and always have been, proud of the Colorado Record. . . . Speaking of taking a vote as to the name of Colorado, or should it be Colorado City; I will vote to change it back to where it was once as I well remember of it being Colorado City when I lived there, and I think it better that it should be called that Colorado City again, for it is not so easily to be confounded with the State of Colorado. . . . We are enjoying the nice warm climate over here (Fort Lauderdale), nice sunshine every day, and it can rain with a cloud no bigger than your hat and get it over with. . . ."
