Smith's resignation as manager of the Pecos chamber of commerce was submitted Friday. He has filled that post since April, 1936. Prior to that time he was advertising manager of The Colorado Record at Colorado City. His wife is the former Virgie Powell of Colorado City. His resignation at Pecos is effective May 5.

The Colorado hotel, a five-story, 75-room structure completed in 1926, was recently bought by five Coloradoans, Mrs. Hodge, Dell Barber, Harry Ratliff, Wm. Brookover, and W. S. Wimberly, after having been operated under the receivership of Owen W. Murray of Dallas since 1932.

CUSTOM FALLS—NO SEVENTH GRADERS TO BE GRADUATED HERE

Custom will take another tumble in favor of progress and growth as 1939 commencement rolls around for Colorado City schools.

For the first time in nobody knows how many years, there will be no seventh grade graduation exercises during the week.

The reason is that next year the eighth grade will be included in the junior high school division rather than in the senior high school as it has been in the past. The sixth, seventh, and eighth grades will occupy the new junior high school building, now under construction, next September.

This year's seventh graders will not be cheated out of their junior graduation, however—they'll have it next year at the close of their eighth grade year to mark their entrance into high school.

RABBIT'S FOOT NO BETTER TO MAN THAN IT WAS TO RABBIT

"It didn't do the rabbit any good."

This very obvious angle to the old superstition that the left hind foot of a rabbit brings luck to its possessor was pondered by C. M. Clark of Abilene after the Monday morning blaze which called the fire truck to Candler courts.

Earlier that morning Clark, who has been re-roofing the Candler courts cottages, received through the mail one of the supposed-to-be lucky tokens. He had scarcely come into possession of it before two barrels of roofing, together with some wood he had bought at a fancy price, went up in flames at the courts.

Other than destroying the roofing and wood, the damage done by the fire was slight. The fire truck made a run to the scene.

Clark has definitely discarded the rabbit's foot.

Home and gardens everywhere,
Are open to the public's view.
Houses old and houses new,
Houses that may seem bargain,
Ranch style, Spanish, and Colonial,
But the house I show you, Lizzie,
It the one where you'll be busy
Keeping house for you and Bob
When he's working on the job.
A cottage small that he'll yearn to
Work and strive for and return to.
A cottage—table, chairs, and beds,
From the store of Dad's and Fred's.
A castle—Bob, the King, is seen,
And you'll be Elizabeth the Queen,
And so, Your Highness, enter do,
To see the house he's built for you."

TWO JAILED HERE ON CHARGES OF FORGERY
Two men were jailed here late Monday by H. A. Cook, deputy sheriff, and Porter Moseley, night watchman, a few hours after \$15 worth of forged checks had been passed at a local business concern.

Jailed and charged with forgery were Claude C. Davidson, Jr., and Marvin Medlock, both of whom gave their addresses as McCamey.

The checks were forged on a Colorado man who formerly lived in McCamey for a time, according to officers.

LaVada Baze had entertained with a Japanese lawn party. Kirby Jackson, 52, who farmed south of Colorado, had died while driving home the cows on a Sunday afternoon. Sound effects and music were advertised with Richard Dix's "Redskin" at the Palace.

Gladys Dorn of Austin had been home for the week-end. Princess Martin had spent the week-end in Lorraine with Bessie Nell Johnson. Seniors on the six-week honor roll were Ruby Lee Bohannon, Barton Church, Lenora Cook, Hettie Hutchinson, Beola Kirby, J. C. Robinson, John Shurtieff, and Lawrence Snelvly. WESTBROOK SCHOOL NEWS SENIOR NEWS
Here comes the last of the Senior news for 1938. We are winding up our last year of high school with haste, as school is out two weeks earlier than we had expected.

We have received our caps and gowns which are to be worn Sunday night at baccalaureate. We would like for all of you to be there. At last our play is over and every Senior drew a long breath after the curtain was drawn on the third act. We made the sum of \$45.15 on it, which we thought was a fair sum. The majority of this will go for the payment on our caps and gowns, and to finish paying out our pictures.

There are going to be 22 Seniors graduate this year from dear old W. H. S., eleven girls and eleven boys. Our annuals will probably be ready to hand out by next Monday. We have cleared about \$55.00 out of the annual.

PHELAN DORN TO BE PRESENTED IN ORGAN RECITAL SUNDAY AFTERNOON AT 5 O'CLOCK

As a preliminary feature of National Music week, two of Mitchell county's junior music clubs will sponsor an organ recital by Phelan Dorn of McAllen at First Baptist church in Colorado City at 5 o'clock Sunday afternoon.

The sponsoring clubs will be the Mozart-Musik club of Colorado City and the Lorraine Junior Music club of Lorraine. Mrs. E. L. Latham of Colorado City sponsors the former, Mrs. W. E. Martin of Lorraine the latter. Members of the two clubs will be presented on the program with Dorn.

Dorn, who was reared in Colorado City, has gained wide note as an organist during recent years. He has given eight concerts in South Texas this winter. He is a son of Mrs. A. A. Young musicians who are to

be presented on the program with Dorn are Virginia Whippley, Betty Whippley, Mary Price, and Alfred Edgar Maddin, pianists; Betty Grubbs and Gloria Martin, vocalists.

The program follows: Organ—"A Prayer," Franck; "Meditation," Frydinger; "Pastorale," Dupre; "La Estrellita," Ponce-Kohlman. Vocal solo, Betty Grubbs. Piano trio, Heller's "Jubilee" by Betty Whippley, Mary Price, and Alfred Edgar Maddin.

The troop has almost completed their room which will be used as a meeting place and as a place to keep their permanent exhibit and scouting equipment. There will be a later report of the result of the jamboree after May 5-6. Well so long. Report from Troop 23.

JUNIOR NEWS
The Juniors have been feeling real dignified since Friday. The girls got their class bracelets and the boys got their belt buckles. We are all proud but we will be much prouder when we get our rings next year.

Several of the Juniors feel honored to get to help the Seniors with their Commencement exercises. Those chosen were: Florence McCollough, Helen Moon, Mary Julia Bullock, Thelma Sweet as Vestal Virgins; Ruth Smith as the Spirit of Light; Van Boston as the successor to the Guardian of Light; and Jack Hamilton as Trumpeter.

Gerald Anderson is giving the Junior class a party Thursday night. Each person gets to invite a guest if he chooses. We are going to make ice cream, and everybody has to help turn the freezers so come prepared. We are all expecting a good time and are going to all come.

V. A. NEWS
We can hardly wait until May 12 rolls around because we are going fishing. Mr. Cox has a hook as big as I am. I bet he catches a whale of a fish.

Mr. Cox has been talking to us about something here lately, well not exactly on the subject of Agriculture—but some of the boys like it better. We are looking over our project books; Mr. Cox just don't think that they are right. We don't see how we did it ourselves.

OLDSMOBILE SALES HAVE BIG INCREASE

National retail sales of Oldsmobile cars during February reached a total of 8,466 units, an increase of more than 38 per cent over February of last year, according to D. E. Ralston, general sales manager.

The combined January-February Oldsmobile sales figure of 18,729 cars exceeded by more than 6,000 units the total for the same two months of 1938. Mr. Ralston added, this represents an increase of more than 51 per cent. The sales totals were aided materially by a strong finish in February sales, the final 10-day period of the month showing 2,826 cars sold at retail as compared with 2,199 in the last 10 days of February, 1938.

"Naturally we are pleased at this sharp upward trend in new car sales," said Mr. Ralston, "but we are equally pleased at the healthy condition of national used car stocks. As of the end of February, our dealers' inventories of used cars were 7,000 lower than a year ago."

THIS DESSERT IS NEW VERSION OF AN OLD FAVORITE

Plain Prune Whip Becomes Extra Delicious Prune Oat Whip

If you are a homemaker and not just a housekeeper you'll want to surprise your family with this new version of a favorite old dessert. We assure you it'll be a pleasing surprise. Most people like Prune Whip. Everybody we know who has tried this Quaker Prune Oat Whip loves it. That in itself is reason enough for serving it. But there's another good reason, too.

By adding oatmeal to this old favorite dessert you not only add extra flavor but you add extra food value. You make it a real "health dessert." Oatmeal, you know, is nature's richest economical source of nerve-nourishing Thiamin (Vitamin B₁), that everybody must have for best health. Because Thiamin is not stored in the body, new supplies are continuously needed. In addition, oatmeal adds proteins for firm muscle and those body-building materials, iron and phosphorus.

A thrifty thought: If you happen to have oatmeal left over from breakfast, use it to make Prune Oat Whip. Here's the recipe:

QUAKER'S PRUNE OAT WHIP (Serves 10)

- 3 cups cooked prunes (1 lb. dried)
- 2 1/2 cups cooked Quaker or Mother's Oats (Quick or Regular)
- 1/2 teaspoon cinnamon
- 1/4 teaspoon salt
- 1/3 cup sugar
- 2 egg whites
- 1/2 cup whipping cream

Remove pits from prunes and beat to a pulp with rotary egg beater or electric mixer. Add cooked and cooled Quaker or Mother's Oats, the cinnamon, salt, and about half the sugar. Beat the egg whites until stiff but not dry, beating in the remaining sugar gradually. Fold into the prune mixture with the whipped cream. Chill well before serving. Serve plain, or garnished with whipped cream.

MAMMA, WHAT'S A GERM?

Food is Safe From Unseen Dangers—in SERVEL ELECTROLUX

Young lady, you ask a big question. Germs, or bacteria, are the tiny beings which cause sickness and disease. Too small to see. But deadly. And how they multiply! ERROL FLYNN IN "DODGE CITY" TECHNICOLOR EPIC, COMING TO PALACE

WARNER BROS. FILM TELLS
THRILLING STORY OF LAW-
LESSNESS ON WESTERN
FRONTIER

The roughest and toughest cattle
own in the history of the western
frontier is the setting for the vigorous
tale of wild adventure told in
"Dodge City," the Warner Bros.
production in technicolor, starring
Errol Flynn which comes to the Pal-
ace theater Saturday midnight, Sun-
day and Monday, April 29, 30 and
May 1.

Other members of what is un-
doubtedly the most notable cast ever
assembled for a picture dealing with
western frontier days include
Olivia de Havilland, Ann Sheridan,
Bruce Cabot, Frank McHugh, Alan
Hale, John Lyle, Henry Travers,
Henry O'Neill, Victor Jory, William
Lundigan and Guinn "Big Boy"
Williams.

Aside from its brilliant and ob-
viously impressive cast, the picture
is distinguished by its magnificent

ERROL FLYNN

and authentic re-creation of the
scene and the times depicted. The
lavish detail with which the Dodge
City of the 1870's and the great
plains which surrounded it are vi-
vidly brought to life on the screen
make it easily believable that, as
reported, the studio spent a million
and a half dollars on the production.
In brilliant, natural technicolor, the
vast production is said to give the
spectators the feeling that history is
being relived before their eyes.

Putting the manifestly British
Errol Flynn into a tale of frontier
America may seem a little strange

to those who are not too well ac-
quainted with the actual history of
the old west. As a matter of fact,
the annals of those times record
more than one venturesome Briton
who acquired distinction as a he-man
in a region where a man without
virility and courage could not long
survive.

The story of "Dodge City" is laid
in the period when this little com-
munity in the southwestern corner
of Kansas, as the northern terminus
of the famous old Chisholm Trail
and the western terminus of the
Santa Fe Railway, became the west's
greatest cattle shipping center.

Shirley Temple Stars In Her First Technicolor Film, "The Little Princess"

GREAT CLASSIC MARKS HER
FOURTH YEAR AS FILM'S
NO. 1 STAR

Celebrating Shirley Temple's selec-
tion by motion picture audiences as
the No. 1 star of the screen for the
fourth consecutive year, Darryl F.

"The Little Princess," coming to
theater Friday and Saturday in tech-
nicolor—a production which, accord-
ing to enthusiastic Hollywood pre-
view reports, is even greater than
"Alexander's Ragtime Band," "In Old
Chicago," "Kentucky" and "Jesse
James," all from the 20th studios.

In response to thousands of re-
quests from all over the world, the
film presents Shirley Temple in a
technicolor production for the first
time. Adapted to the screen from
Frances Hodgson Burnett's beloved
classic of the same name, "The Little
Princess" undoubtedly will be ac-
claimed not only Shirley's most
memorable vehicle but also as one of
the great pictures of all time. Cer-
tainly Production Chief Zanuck has
bent every effort toward that end,
assigning outstanding creative talent
to function on the picture and in-
cluding in Shirley's supporting cast
many of the most notable Hollywood
favorites, headed by Richard Greene
and Anita Louise.

The story of "The Little Princess"
takes place in one of the most color-
ful periods of English history, when
Victoria's long reign was drawing to
a close and the Empire was engaged
in the Boer War.

Zanuck and 20th Century-Fox set out
to produce Shirley's outstanding tri-
umph. The result is to be seen in

Robert Montgomery And Rosalind Russell Seen On Ritz Screen In "Fast And Loose"

MAKE FOURTH CO-STARRING
APPEARANCE IN EXCITING
MYSTERY-COMEDY

Establishing a new team of mystery
comedy stars, Robert Montgomery
and Rosalind Russell make their
debut in the new field in "Fast and
Loose," coming to the Ritz theatre
Sunday and Monday.

Although they have appeared to-
gether in three previous pictures,
Montgomery and Miss Russell have
never before portrayed the comedy
roles that they reveal in their newest
vehicle, a rapid-fire mystery comedy
which comes as a sequel to last sea-
son's comedy hit, "Fast Company."
They first appeared in the film
drama, "Trouble for Two," which
was followed by the psychological
subject involving a murderous man-
iac, "Night Must Fall." Their third
picture, "Live, Love and Learn," was
their first comedy but it was devoid
of mystery.

and her incidental capture by gang-
sters. The two are supported by Reginald
Owen in one of his masterful char-
acter roles, Ralph Morgan as the mil-
lionaire bibliophile, whose mansion
becomes the amphitheatre of all the
picture's complexities; Etienne Girar-
dot, whose yearnings for a rare vol-
ume causes all the trouble; Alan
Dinehart, Jo Ann Sayers, and Joan
Marsh. The picture was directed by
Edwin L. Marin.

LAUNDRY AND ITS EQUIPMENT STUDIED

By Mrs. Lon Strain, Reporter
"The Laundry and Its Equip-
ment" was the topic which Vera
Crippen discussed when the Fairview
Home Demonstration club met with
Mrs. L. A. Strain Friday, April 14.

cabinets to store all laundry supplies
and all tubs should be of a convenient
height for easy washing, said Miss
Crippen. Directions were given for
the removal of different stains from
clothing and color setting. A dem-
onstration was given on softening
hard water.
The recreation under the direction
of Mrs. J. C. Womack was "This is
my nose."
There were ten members, two vis-
itors, Mrs. Turner and Mrs. Albert
Morrison and Miss Crippen present.

USE OF AUTOMOBILES IS ON INCREASE

AUSTIN.—Steady increase in the
number and use of Texas automo-
biles, and constantly improving high-
ways were reflected recently in a re-
port on the state highway depart-
ment by State Auditor Tom C. King.
The report covered five years,
ending Aug. 31, 1938. During that
period the number of motor vehicles
used in Texas increased from 1,337,
766 to 1,632,856 and the annual gaso-
line tax collected (based on the four-
cent-a-gallon state tax) mounted
from \$15,045,144 in 1934 to
\$21,089,121 in 1938.

When the period covered by the
audit began, the state highway de-
partment was maintaining 19,913
miles of highway and on Aug. 31,
1938, the state was maintaining

21,466 miles. Construction of all-
weather roads, bridges, and railroad
grade crossing eliminations increased
correspondingly.

For the year ended Aug. 31, 1938,
for instance, the state constructed
8,842 miles of highway at an average
cost of \$6,527 a mile, not including
bridges and other structures. Cost of
maintaining other state highways,
exclusive of construction, was \$390
a mile for that year, King reported.
Total revenues for 1938 were \$40-
181,816, a decrease of early \$6,000,000
over the two previous years—caused
by a decline in federal aid from
\$22,236,499 in 1936 to \$11,796,660 in
1938. The balance sheet on Aug. 31,
1938, showed assets for the depart-
ment were \$18,856,896.

The report was the first made on
the department in many years and
the most complete in history, King
said.

be moved to the "Shrine of American
Beauty" which is not to be opened until
April 30, 2939.

PENSIONS SOLVED

Much has been said and written about pensions that if this writer was down at Austin we would solve the problem for the Legislature. There has been so much shooting recently over pensions that many citizens have lost track of the facts about pensions in Texas. Let's check up here and see exactly where we stand.

Texas is paying pensions to about 40 per cent of the old people in the state. It is the sixth state in the United States in number of pensions paid in proportion to the population over 65 years of age. That's a very high standing on number of pensions paid. It wouldn't take a large increase in pension rolls to make Texas the biggest pension-paying state in the union according to population.

Let's give Texas a fairly good mark on number of pensions paid, and then check up on size of pensions.

On size, Texas ranks very low. Thirty-five states pay a bigger average pension than Texas. The Texas average of \$13.84 per month is below the national average of \$19.55. Almost everybody admits that this state's average pension should be increased.

Suppose the pension rolls were left as they are now, and that the pension were increased to the national average of \$19.55. That would give the state one of the biggest pensions in the United States, would cost the state only \$4,000,000 a year more than it is spending now.

But perhaps the number of people on the rolls should be increased. Let's take Governor O'Daniel's estimate that 60 per cent of the aged people in the state are not self-sustaining. If the state paid 60 per cent of its old folks—171,000—the national average pension, the increase in cost to the state would be only \$10,500,000 a year.

That would make Texas the leading pension state in the union, because the few states that would be paying a higher pension would be paying it in proportion to only a small fraction of their old folks.

To add \$10,500,000 a year to the state pension cost would more than double the present appropriation.

But it would take care of every aged person in need in a respectable, decent manner.

It wouldn't put an intolerable tax burden on the people. A moderate-sized "omnibus" tax bill plus economies, would raise all the money needed.

Wouldn't that be a sane solution to the pension problem, a fair solution both for the old folks and younger people who would have to pay the cost?

LEGISLATURE BETTER GET BUSY AND DO SOMETHING

The people of Texas elected representatives to our Legislature for the express purpose of carrying out their (the people's) wishes and to really accomplish something worth while. What have they done so far? Nothing. Oh, yes, they have, you say. Don't you know that they passed a law making it an offense for a barber to cut your hair for less than a certain sum depending on where you happen to live? Sure they did. That's fine, isn't it?

The voters of Texas elected Governor O'Daniel by the largest majority ever given a man for such a high office in Texas, where there were so many opponents. The great majority of those who were elected were elected because the people thought they were in favor of carrying out the people's expressed wishes—that of providing means whereby the aged and needy could be cared for. Governor O'Daniel gave them his plan and at the same time told them that they had a better plan to put it up and that he would cooperate. Legislators have spent most of the time allotted for the regular session and have done nothing but ridicule and bemoan the Governor, some using language unbecoming to a gentleman. All of which, I think, the great majority of the people believe, is because they are jealous of O'Daniel's popularity.

Those who had been in the Legislature for years had put into the Constitution a declaration providing that the aged and decrepit of our state should be paid, but had provided no means of paying. O'Daniel wanted them to make good on this and provide the means to pay off. If they don't like his proposition, why don't they do as he suggested, put up something better? The people will remember all this and at the next election will try to put Representatives there who will not be afraid to, at least, put forth some effort to do something.

EDITORIALS

Newspapermen usually have avitaminosis, from a combination of acid skepticism, sourness, and malnutrition.—Dr. William J. Carington, on receiving an award from the Atlantic City Press Club.

Texas could take a big share of this Southwestern tourist industry by going ahead with the plan for a Big Bend National Park, developing vacation resorts and dude ranches in the Davis Mountains and elsewhere, making further expansions and improvements in the system of state parks and ridding the roadsides of signboards, shacks and other eyesores. The Big Bend can be made to match the Grand Canyon as a tourist attraction and will bring to Texas every year many times the price of the land needed for park use.

When man speaks this writer listens with reservations. Man is fallible and is given to mistakes, and others should not be misled by his mistakes. An infallible God, not given to mistakes, should be listened to without reservations, or arguments. When a so-called Bible teacher says the account of Jonah and the whale was a parable, and Christ said that Jonah was a man, a prophet, and a preacher to the men of Nineveh, we believe Christ knew what he was talking about and the professor didn't.

Some of the legislators who have severely denounced Gov. O'Daniel in harangues hurt themselves more than they did the governor. Abusive speeches in legislative halls are coarse and undignified, and as a rule disgusts the public. O'Daniel is the governor of Texas and he should be treated with the respect the position entitles him to. Abuse is not argument and generally backfires when indulged in.

If a man doesn't want a thing to be, it is mighty hard to convince him that it ought to be.

A hypocritical friend, inside of a friendly camp, is much more dangerous than an open enemy in a hostile camp.

Unless more comfortable homes and conveniences are provided for country people, their children will not remain contentedly on farms.

An able bodied person who won't work when there is plenty of work to be done, has no right to expect support at public expense.

BEAUTIFUL TEXAS

This writer visited in the high school one day this week and while there we visited the geography class and the teacher asked one of the pupils to describe and bound Texas with any thoughts they might suggest and this is the reply:

"Texas occupies all of the continent of North America except a

small part set aside for the United States, Canada and Mexico. Texas is bounded on the north by twenty-five or thirty states, on the east by all of the oceans except the Pacific, on the south by the Gulf of Mexico and South America, and on the west by the Pacific Ocean and the rest of the world. At one time Texas was so wild that even the law of gravitation was not obeyed, and the chief pursuit of the Texans was Indians and Mexicans, but now it is crop records and oil production. Texans are so proud of the Lone Star State that they cannot sleep at night. If a Texan's head should be opened the map of the state would be found on his brain. The word Texas is of Indian origin and means friends, and the Texas people are that way yet unless you take a slam at their state."

SOMEBODY WRONG

Expressing my views on various topics, trusting it will be of some benefit to all concerned. Will take the tax problem. Have we any right to tax our fellow man? If so, under what law are we taxed, according to God's word? And what class of people put the taxes to work? Also, what class was it that was taxed? Now, these questions seem foolish to the blind class who of course are ignorant concerning this law. The Bible is right and somebody is wrong.

In the days of the rich man and the beggar this tax was imposed on the peoples of that day, and you know what happened to the rich man. The same thing is on us today; you take the automobile and with these license fees or taxes which if applied in right direction, would keep all the destitute people in the necessities of life, to say nothing of all the other taxes imposed on us. You are bound to know that this is a fact. The Bible is right and somebody is wrong.

In the first place, this tax problem is very much unbalanced. The common class pays the bill, after all is said and done. We need good old-fashioned Samaritans, or true missionary work right here at home. Let's stay at home and quit meddling with other countries' affairs.

The Bible is right and somebody is wrong. The Christian goes about doing good, seeking those in distress, and administering into them their needs, and problems of life. The opposite class, of course, goes about doing evil.

Now, back to the tax problem. I don't believe in getting revenue from booze to pay the so-called old-age pension; if taxes are applied to the luxuries, in other words the unnecessary things to pay same with, then this would be more becoming.

DON'T BE PESSIMISTIC

Let us rejoice and be glad even in the midst of adversity and afflictions; most of our troubles exist in our minds. There are but few things as bad as they first seem or as good as they first appear. After all, this is a good world if we will be hopeful and love our neighbor and do our best.

All these scorching droughts and depressing conditions are but incidents along life's highway. They will all pass away, at least for a time; then we will look back with a smile at the low state of pessimistic despair we had sunk into.

It takes so much suffering and heart agony to develop the higher portions of our hearts and minds. Suffering and afflictions are just as necessary to burn the dross out of our mortal bodies as fire is necessary to burn the dross from the pure gold in the crude ore.

So fight on, brave hearts; you are on the way. The promised land is just beyond the River Jordan, while the trail may be tragical passing over, yet the landing will be glorious. All those beautiful ideas and perfect states of purity you have dreamed of and your soul cried out for will be your own then. Won by the struggle you had with the thick, pelting jabs you received passing through the wilderness of mortality. So look up and rejoice, there is a great day coming.

Those scars and heart bruises, and adverse conditions imposed on you may be the very things necessary for the separation of the pure gold in your life from the little dross there remaining.

OUR OWN POEM

This writer is not given much to poetry and have been asked to publish a poem or poetry of our own:

"THE NEWSPAPER MAN"

The newspaper man
Has a terrible life,
He's never at home
With his children and wife.

He gets up in the morning
Before it is day,
Grabs him a bite,
And he's out and away.

He's in here and out there,
Always looking for news,
For people's reactions,
And slants on their views.

He thinks he sees something
About ten blocks away,
When he rushes down there
It's just a big load of hay.

He gets on the scent
Of what seems to be news,
And finds out in a minute
It's a man buying shoes.

He tries to be careful
And get everything right,
For a newspaper man
Is too tired to fight.

Then over the hill
He sees a big smoke,
He thinks it's a fire,
But it's only a joke.

He writes up an item,
And when it goes through,
Somebody comes in,
And threatens to sue.

A newspaper man
Always lives in such strains
That he wouldn't be a newspaper man
If he had any brains.

Read this verse
It's all that I know
For better or worse
It's a poor show.

COLORADO CITY, TEXAS

MRS. R. E. GRANTLAND, FORMER COLORADOAN 'WRITTEN UP' ON EIGHTY-SECOND BIRTHDAY

Of interest to Colorado friends and acquaintances of Mrs. R. E. Grantland, who recently moved to Sweetwater to live with her daughter, Mrs. S. H. Young, after nearly 20 years in Colorado City, will be the following story written about her on her 82nd birthday recently by Maud Green of the Nolan County News:

In spite of the fact that the years have rolled by so fast that when Wednesday, April 12, arrived, Elizabeth Grantland said, "Now I'm 82 years old," she cannot be called an old woman. Slim, straight, and strong, this widow of a civil war veteran finds life a joyous affair and it is typical of her that she lives in the present more than in the past, which is full of memories for her.

She observed her eighty-second birthday at the home of her daughter, Mrs. Sam Young, and was busy for days before hand finishing a special piece of crochet which, for reasons known only to her, she was very anxious to get finished "before I get 82 years old."

She was born Elizabeth Boyd in Alabama. Her father was killed at the battle of Richmond in the Civil War, and the man she married volunteered when he was 13 years old and fought the four years of the war, receiving wounds in the battle of Chickamauga. R. E. Grantland, her late husband, died in Colorado City on July 15, 1937, after he was 90 years old, and shortly before their fifty-seventh wedding anniversary. He was with General Stonewall Jackson when the general died and had slept on the cold ground, giving part of his scanty covers to Jackson after he was wounded.

Mrs. Grantland tells her own story of her memories of war days. "Our mother always kept a table set—ready to feed Confederate soldiers, who came through by the hundreds. They never bothered our stock or crops because mother was an Eastern Star. There was plenty of Confederate money, but very little greenbacks. The old Yankees would come down the river in gunboats, tearing up everything, and us kids sure knew to stay hid. I didn't see a bought potato, cabbage, or any kind of bought seed until after I married, had a family and came to Texas.

We had to work all summer long filling the cellar with what we raised, and preparing for winter. "But, I can't see why folks nowadays feel sorry for folks of those days. We had more fun, worked harder, and had less to worry about than you have today. At least we never worried about where our living was coming from."

Elizabeth Grantland likes to crochet, finishing what she starts in record time, reads many magazines, and is always ready to "go somewhere," but she doesn't like to knit or to can fruit, for, so she says, "I had too much of that years ago."

Her schooling was typical of early days, the Blue Back Speller being her chief source of knowledge. She walked three miles to school, when there was one to go to. "That is, we walked unless we caught a calf and rode it. You see, calves and jinnets were all we had to ride, and those away jinnets would go so far and stop—and there was no moving them.

A calf, once it was trained, made fairly good time."

Mrs. Grantland was born in Alabama in 1857 and was reared in Marshall county. She married R. E. Grantland on Sept. 22, 1880. She says their wedding was a simple home affair, and as the circuit rider came only once a month they had to arrange their wedding date to coincide with his preaching date.

They came to Texas in 1893, and first settled in Milam county. They were at this time the parents of six children, but only two had lived. The others had died in infancy. Mr. Grantland was a stock farmer and has lived in Carbon, Lorraine, and moved to Colorado City in 1920, where they lived until his death in 1937.

The 82 years she has lived have been kind to Elizabeth, whose brown eyes are as eager and as bright as ever. Her hair is only partially gray, and her shoulders are erect as she walks firmly wherever she fancies. Her hearing has given way to her years, and to talk with her, one must be close and speak loudly—but she has a sense of humor and a natural way of talking which always keeps her listeners in an uproar.

The following incident was told by a friend of hers. The Rev. Sam Young, now pastor of the First Methodist church and widely known preacher in West Texas, is her son-in-law. She decided she was too deaf to bother with going to both Sunday school and preaching so she pondered which to attend. Her choice was Sunday school, for, as she said, "I can't hear anything at either one of them. I just go to see what I can see, and I have to look at Sam Young enough at home without sitting all through church hour watching him."

She goes regularly to Sunday school. Her children are Mrs. Sam H. Young, Sweetwater, and H. E. Grantland, cashier of a bank in Colorado City. She has nine grandchildren and two great grandchildren.

As much as she enjoys living today, she thinks folks in her early days had more fun than now. Their life was full of hard work, with Sunday for rest, and their chief pleasure was sailing down the river in a boat, with the moon shining on the water, and the crew singing southern melodies.

7,000 MILES OF SANDWICHES

NEW YORK.—More than 120,000,000 sandwiches will be consumed at the New York World's Fair 1939. Allowing two to each visitor, statisticians figure that Fair visitors will eat enough bread and meat to cover 7,000 miles or more than twice the distance across the United States.

Breath Offends?

Bad breath is sometimes due to bad teeth; often caused by sluggish bowels. To neglect it may invite a host of constipation's other discomforts; headaches, biliousness, loss of energy or appetite. Take spicy, all-vegetable BLACK-DRAUGHT tonight. This medicinal tonic-laxative tones long bowel muscles; cleanses gently, promptly, thoroughly by simple directions. Try BLACK-DRAUGHT, the time-tested laxative.

ANCIENT RAZORS SHOWN

NEW YORK.—Modern shavers who wonder how ancient man shaved himself will be enlightened at the New York World's Fair 1939. The oldest razor of be shown was fashioned in the Stone Age of obsidian stone, a form of volcanic glass. Other displays include Roman tweezers and Chinese "razor money."

AN EDITORIAL

SCHOOL SPIRIT

I think we either have the wrong conception of school spirit or we do not put into practice what we know. It is fine to be able to go to assembly and yell for our class and school, but I think there is another version of school spirit.

School spirit should start among the students then it should develop within the classes then the classes should co-operate for school-wide spirit. It should be carried even farther than this, it should be carried to the home. Your school could not be without your parents, and it is so much help if your parents take interest in school activities or at least show an interest in school.

Without the co-operation of the business men of our city we are at a loss as far as school spirit is concerned. The business men make up the main part of our city and we can get their co-operation only by showing them that we deserve it.

School spirit not only helps to make a school but it helps the individual. Did you ever see a student with school spirit who was not well liked by everyone? In later life if you have no interest in the things about you, you will be of little importance to the city; too, you will be set off in a class by yourself.

I think that the key to school spirit is interest in school activities such as football, baseball, basketball, and all other activities held at the school.

It not only lies in our power but the teachers must have what it takes to influence us and they must stand by the school in all cases. Also, if the teachers and officials of the school will not stand in full support of school activities, which I think make a school, how can students have school spirit? This all sums up to say that school spirit is built on

WHO'S WHO

Louise Dockrey
 "Hobbies? Well, yes, in my spare moments I draw pictures, coach Spanish students, play nurse-maid, and ride the sub-way."
 "A description of my appearance? I always wear a red dress with yellow stripes so that I will be noticed in a crowd; because there is nothing particularly stunning about me. That is, I haven't Clark Gable's ears, Robert Taylor's widow's peak, nor Mae West's walk. Certainly I haven't. Those things are patented, aren't they?"
 "Peculiarities? Yes, I don't like jazz music, I don't play the stock market, nor sing opera. As a matter of fact, I don't sing anything. When I get out of college I'm going to board a tramp steamer and travel the rest of my life. You think I'm lying, don't you?"
 "With an average that is dangerously near 98 Louise Dockrey has been proclaimed valedictorian of the Senior class of 1939. Congratulations, Louise!"

PHILOSOPHY

The other night I had a thought. And with it a dream I brought. A man good looking, neat, and tall. But the look of wealth showed little at all.

He smiled and then he spoke to me. Without a doubt I could plainly see. This was the man that I should like to be.

Before I stopped to think or wait, I asked him this question plain and straight.

"How did you conquer such a feat?" His answer was, "By being a worker and never a CHEAT."

'SENIOR DAY'

The Seniors left the school building at 8:45 Friday morning. They arrived at the Big Spring City Park about 10 o'clock.

Everyone had a grand time. They joined in at least one of the many sports such as tennis, volley ball, ping pong, croquet, baseball, and roaming the park.

The menu was more than delicious to us.

- | | |
|--------------|--------------|
| Barbecue | Sour Pickles |
| Potato Salad | Sandwiches |
| Soda Water | Ice Cream |
| Cake | Fruit |
- The fruit and sodawater were left for us to eat and drink any time during the day we wanted.
 About 3 o'clock the busses prepared

to leave and be on their way home. Everyone was tired but happy. A few of the girls worried about their blisters because the banquet is so near.

REGIONAL MEET

Last Saturday, April 22, C.H.S. representatives who had won in district meets, participated in regional contests in Abilene. Five boys and one girl represented our school, and although their results were not the highest in the meet, they are to be commended. Nancy Price, essay writer, placed third in regional. In track events, Clayton Henderson secured another third place ribbon in the 880 yard dash, while the mile relay team composed of Duff Chesney, Jack Smith, Burl Ballard, and John Henderson, came in fifth.

All C.H.S. is looking forward to next year's Interscholastic League meet, and it is planning to go much further in participation.

COMMERCIAL PRACTICE

Mr. Brazil says that the administration has found out that the commercial students don't know how to tabulate. Mr. Brazil says also that he intends to remedy that. The commercial students are at present figuring problems in tabulation and, in the meanwhile, practicing taking dictation in preparation for the coming ordeal: every year business men of Colorado entertain commercial students in their offices by dictating letters in order to give them practical experience. That time is approaching this year, and shorthand students are rather nervous.

FUTURE FARMER PROLICS

Whoopie! Yelled most of the Aggies Monday morning when his majesty, Professor Shillingburg, announced that the boys would indulge in physical instead of mental labor this week.

For the past several days the boys have been balancing rations. . . . A more complicated affair, I never saw. . . . If the balancing of a ration for a human is any more complicated than balancing one for a beef calf, we Aggies sympathize with the Future Home Makers. In balancing rations we shilly give us this information: weight of calf, kinds of feed, and the per cent of carbohydrates, proteins, etc., that are contained in the feed. Then through the old fashioned trial and error method we tell him how much of the feed to feed and the correct proportion. We do everything but mix the feed up. . . . Why should we worry about this for him? He's the fella in our department with the college education.

But, as I was saying before I said that other, the Aggies are to indulge in physical labor this week. We have undertaken the job of helping the appearance of the lawns of some of our local townsmen. We are attempting to reset the flower beds, level the lawn and plant grass and shrubs. We expect to continue this work for a week or two.

The boys are now working on lawns belonging to Mrs. Millwee, Mr. Bill Cravy, and the homes of Aggies James Cox and Buster Slaton.

J. F. McCabe, secretary of the chapter this year, was recently elected to succeed Ross Glover as president of the chapter next year. . . . Congratulations J. F. we wish you the best of luck.

The members of the chapter conducting team are still working to participate in the area contest May 6, at Big Lake.

Saturday, April 29, the Aggies are sponsoring a softball tournament. F. F. A. chapters from all parts of the district are to participate in the tourney. You are all invited to come and see Colorado City win again.

DAWN

The dawn at first was grey. And soft with shadows of night; Then soft with streaks of day. Shot up to bring the light.

I watched in spellbound awe. This—the day's unveiling; And I knew that what I saw Was noble and unfeeling.

ASSEMBLY PROGRAM

Wednesday marked the continuance of our weekly talks in assembly by local ministers. These programs were discontinued when the half day school program began. We were glad to have Minister Woodie Holden with us Wednesday. Mr. Holden spoke to us on "The Keys To Success." He emphasized the fact that we must have faith in Jesus Christ, in God, in others, and in ourselves, in order to be happy and successful.

JUNIOR PICNIC

After months of planning and scheming, a group of Juniors, who took in a ticket safe contest for the Junior play, finally were able to furnish the winning side an outing or picnic, as you prefer. The losing side headed by Jean Morrison planned a picnic that, in our estimation, is one of the best ever given by the Juniors. Everyone left school about 4 o'clock Friday afternoon and went to the bed of the Colorado river near the Sterling City highway. Harvey Cook, fearing the sand, almost turned his car over getting out. Delmar Thompson's car stalled in the midst of the water and Handy-Jack Long helped him out. Lee Brown was mopped in the mud by two energetic girls Cootie and Beulah. Mr. Mason almost broke someone's arm playing "waf" over the river. Mr. Pratt ate everything in sight and would have eaten more. A cup wasn't large enough for Jean so she brought a

quart jar. Jane Machia couldn't keep her feet out of the mud, "mud turtle" some would say. P. B. carried off all the girls—some people have all the luck. Burl and Jack had to train for track, poor fellows. The food was better than ever and the lemonade good—so everyone "dove in." When nothing was left to be seen or eaten, all left and to hear those present talk, "they had a swell time."

SPEECH BANQUET

A novel and interesting banquet was held last Thursday night, April 20, at the Barcroft hotel. On that date, members of the two speech classes taught by Miss Gladys Miller met for a formal banquet. The classes have been studying banquet speeches, and thus it was fitting that they should put into practice their knowledge of an important subject. From one class, Virginia Whipkey presided as toastmistress, while from the other Thomas Chadwick acted as toastmaster. Honored guests were Miss Barrett, Miss Miller, and members of the recent Interscholastic League one-act play cast—Nancy Price, Wallace Kirby, Cora Mae Bodine, and J. T. Williamson. Each person presented made an appropriate speech at the interesting and educational occasion.

WESTBROOK TEACHERS WILL TURN MINDS TO SUMMER PLANS WITH SCHOOL CLOSING MAY 5

With closing of the Westbrook school, which serves as high school for nearly all the western half of Mitchell county, on May 5, teachers in the system will turn their thoughts to summer plans, most of which will include some college study.

Ira D. Lauderdale, superintendent, will continue to headquarter in Westbrook for the first month after school closes, and then will enroll for a six-week course at NTSTC, Denton, where he was also a student last summer.

R. G. Crouch, high school principal, is undecided about his plans, but his summer will probably include several visits at his home in Stearns, Texas. Anna Speights, high school English teacher who calls Hemphill home, will attend summer school at Stephen F. Austin college.

Fowler, also of the high school faculty, will be with his family in Lockney for part of the summer. His school plans are undecided. Ruth Mehon will be in Kirklind part of the summer and will probably do some work at the teachers college in Canyon.

Attendance at Texas Tech summer school in Lubbock for the full twelve weeks is planned by Winnie Faye Greenell, primary teacher. Nina Joyce will be at her home near Spade until summer school starts and then will attend at Texas Tech.

Mary Kent, teacher of the third and fourth grades will go to Boulder, Colorado, for her summer schooling. M. F. Chambers will devote his summer to work on his farm half way between Spade and Colorado.

Mrs. Lulia Davenport and Mr. and Mrs. Tommie Davenport and family visited in the home of Mr. and Mrs. Angelo Davenport Sunday.

Mr. and Mrs. Fred Eikenberg and family visited Mr. and Mrs. Coleman of Iatan one day last week.

Mr. and Mrs. Harris Wilson, Opal Wilson, and their niece, Patsy Smith, visited in the Turner home Sunday. Sunday afternoon visitors also were L. H. Murphy and two sons, Paul and James, and Charles Davenport.

Mr. and Mrs. J. W. Claxton and family visited Mr. and Mrs. C. W. Claxton of Loraine Saturday and Sunday.

Florence Stewart spent Tuesday night with Amber Lee Wagner.

Visitors in the Henry Paige home Sunday were J. H. Wagner and family, Mr. and Mrs. Tom Grant, Dorothy Taylor, Walter Turner, and Floyd Langley.

The Fred York family had visiting relatives from Midland over the week-end.

Donald Wayne York visited the Langley boys Sunday afternoon.

A full house attended the Carr P-T-A play, "He Was a Gay Senorita" here Wednesday night, April 19, and seemed to fully enjoy both the play and the splendid music by Dr. Logsdon's cowboy band. The play

brought \$21.60, to be used for the benefit of the school.

Mr. and Mrs. Albert Smith and Margaret Jackson and pupils of Gay Hill school, Howard county, brought a musical program over for our entertainment at P-TA Friday night. They presented their boys Saxette band in a group of solos and group numbers, some piano solos, Tiny Tot story tellers, and a delightful little son, "An Umbrella Built For Two," by six small pupils. We were very glad to have this return visit from their school, as we have been looking forward to it since last fall when we took some numbers to their community to compete in their P-TA amateur hour program at their invitation.

This column is inclined to believe that Mrs. Hollie Jackson is due a rising vote of thanks for a glad hand or some such show of recognition for bringing Dr. Logsdon and his Cowboy Band into our community last Wednesday night. She also invited the Gay Hill school over, making us indebted to her for two musical treats in one week.

Mr. and Mrs. Charlie Parrish and children visited the Big Spring City Park a while Sunday afternoon while visiting relatives in that city.

Hot water causes milk to "cook" and adhere to the sides of utensils, so these should be rinsed in cold or lukewarm water, dairymen of the Texas A. and M. College Extension Service say.

PICKED UP ALONG THE NEWS PATH

Maybe you have to be a born and bred West Texan to think so, but it seems to us that there's nothing prettier on a spring landscape than the light, clear green of young mesquite leaves, streaming in the wind or drooping in graceful stillness with the sunshine coming through.

Wanted: Some June wedding rumors... So far only one such rumor has reached us... The girl in the case is a Colorado product who's been working elsewhere for some time now...

This business of becoming Colorado City offers new complications all the time... The other day the city secretary, Ford Merritt by name, started to imprint the city seal on a legal document, which had already been re-typed to substitute Colorado City for Colorado, and there was the seal without a City to its name... But the change does seem to be serving the desired purpose for Coloradans who are in far-off places, as witness these words written home by Catherine Slagel, who is in her own words, a "transplanted Texan" attending school in Lexington, Ky.: "I am so very glad that Colorado is Colorado City now... Up here when I say I am from 'Colorado,' people think I am crazy, but when I say 'Colorado, Texas,' they KNOW I'm nuts and mutter something like 'Double-talk.'... Now I can say 'Colorado City, Texas,' and impress 'em."

While going through an old collection of this-and-that the other day, Mrs. Hattie Berry of Westbrook came across a well-preserved printed invitation announcing the "informal opening of The Colorado Record" at Second and Oak streets on April 12, presumably 1906... The invitation was sent to her parents, Mrs. A. Petty, who now lives with Mrs. Berry at Westbrook, and the late Mr. Petty.

At that time the Pettys were living here, sharing a house with Rev. and Mrs. Holmes Nichols of First Baptist church until such time as the Nichols could get moved into the Baptist parsonage... The Nichols and the Whipkey brothers, A. L. and Fred, founders of The Record, were friends long before the Whipkeys came to Colorado in 1905—the Nichols were, in fact, responsible for the Whipkeys coming here from West... Mrs. Berry recalled when she found the old invitation that her parents received the first issue of The Record in late September, 1905, and not an issue since has failed to come into the Petty home, although the subscription was changed over to Mrs. Berry's name at the death of Mr. Petty several years ago... The opening mentioned in the old invitation was held, of course, several months after the Whipkeys began publishing The Record, on the occasion of their having installed some new equipment... After 33 years, the paper and the printing of the invitations appear almost as new as if they had been put out yesterday, which caused The Record boss to remark, "That's because it was good printing." (Adv. but not pd. for.)

If you hear something rustling in the wastebasket, don't be too sure it's a mouse... It might be Thos. R. Smith, digging out letters to cut stamps off of his collection...

Consensus of opinion seems to be that Uncle Sam's an old meanie for breaking up the new handrails on the postoffice steps so that they're positively no good for sliding purposes... The other day we took the post-office force to task for not being more thoughtful of the children's pleasure in making their hand-rail arrangements... County Superintendent Roy Davis Coles, standing nearby, ventured the suggestion that maybe it was the "bachelor influence" at work...

Blonde Judy Christian now has curly hair... We've been told that she was frankly delighted with herself when the curling was done and couldn't wait to go show it to little Bill Oswalt...

Since we aren't a Lion and have no grounds for remotely claiming to be a Lioness, we had to miss the ladies' night banquet of the local Lions club last Friday, and with it the fun of seeing the Lions in their feminine headgear... But we had a snooper secretly on hand to jot down the more striking fashion notes of the evening—we couldn't afford not to, with what the possibilities involved in a combination of this year's hats with masculine ingenuity on a bing... Our jotter-downer brought back this: "They say that the hat Dr. Oscar Rhode wore was seen in this month's issue of 'Vogue.' Those worn by Thomas R. Smith and Jimmy Payne were of the Vogue, 1908, vintage, both having the merry widow type of veils... Roy Davis Coles' millinery creation was fashioned from a powder puff... Another Lion wore a pie pan, still another a real bird cage with an Easter chicken therein... Earl Cyper's prize-winning chapeau was a real bird, sitting in a nest of curls, and encompassed by a chicken-wire enclosure of veils... Among the things which the snooper omitted to mention but which we heard about anyway were Charley Thompson and his sunbonnet, Joe Earnest and his bird cage, Joe Jackson in his wife's best

hat, and how really becoming were the hats worn by Jake Richardson and Bill Oswalt...

One of the week's toughest tough luck stories might be told by little Dan Jones, son of Mr. and Mrs. Jeff A. Jones of near Westbrook... And, like most bad weeks, it gave early promise of being one of Dan's best weeks... To begin with, Saturday was his birthday... He had a new knife and seemed about to cajole his way to a few other items when we saw him Saturday afternoon... On Sunday he and his brother, Barry, were to have been featured in a piano recital given at Westbrook Methodist church by Mrs. J. R. Lindsey, in conjunction with Mrs. Witt Hines, teacher of expression... Yes, it looked a fair week for the Jones boys... The short of the story is that Dan had an accident Sunday afternoon which will prevent his using the new knife for some time to come and which caused the recital to be called off—he broke his arm... To make the luck seem even tougher, this is the second breaking for that arm...

4-H CLUB BOYS IN COMPETITION FOR WORLDS FAIR TRIP
Records of the club boys of Mitchell county are now being tabulated for a free trip with expenses paid to the Golden Gate Exposition in San Francisco during the month of July or August. All boys who have completed their work in club work for the 1938 demonstration year are eligible to be in the competition. Those boys in the county who have not turned in the records for the demonstration year are urged to get the records into the county office as soon as possible in order that their work will be placed in the competition.

There will be one boy from each county in the district composed of thirty-nine counties who will make the trip with expenses paid. This is planned for an annual trip to recognize the outstanding boys of the county and in the counties of the district each year.

Boys who enroll and carry out demonstrations during this year will be eligible for a similar trip next year. The winners will be based on the results of the work for that year only. Any boy who has won trips to Chicago or other trips of equal value will of course not be eligible for the trip. It is hoped that the trips offered each year will serve to encourage the club boys to keep accurate records of their demonstrations each year and complete the club demonstrations. The agent is planning to visit all schools as soon as possible and enroll boys who are interested in club work. If any schools are finished before I can get around to the schools the boys may call on the agent at the county office in Colorado City and enroll.

DISEASED HOGS AND DAIRY CATTLE

I have been requested to mention in this column the fact that some hogs and dairy cattle are being imported into the county with Hog Cholera in hogs that is likely to cause an epidemic of the cholera in the county. Farmers and others should be very careful to buy hogs from only those that you know and who can furnish papers to show that the hogs have been vaccinated or come from herds that have never had cholera. It would be a good practice to have hogs treated with the serum for thirty to sixty day immunity. We would suggest that you beware of truck hogs coming in unless you are absolutely certain that there is no chance of getting cholera into the herd.

Dairy cattle are being brought into the county and it has been reported that some have come into the county that have been tested and found to be reactors to Bangs disease. It would be a very good precautionary measure to have such cattle tested before purchase for Bangs disease or else have the seller submit to you a certificate from a State Licensed Veterinarian to the effect that the animals are free of the disease.
