

DRILLED OUT PLUG IN CALVIRD WELL THIS MORNING

Fain-Porter drillers started drilling out the cement plug in the Cities Service Calvird No. 1 well at midnight Wednesday night. The well was spudded in Sunday at 6:00 P. M. and 13 3/8 inch surface casing was set at 300 feet at 12:55 Monday night. G. A. Robb of the Cities Service production department is superintending operations.

Operations at the well have moved in sharp contrast this week to the constant delays experienced during the rainy season. The tower was practically completed last Thursday and rigging up was completed Sunday afternoon for drilling operations Sunday evening.

ITIO Sells To Cities Service

The Indian Territory Illuminating Oil Company, a subsidiary branch of Cities Service sold its stock to Cities Service this week. The Calvird No. 1 well staked as the ITIO Calvird No. 1 will be completed Cities Service Calvird No. 1. Speculation continues as to the effect the sale of stock will have on drilling intentions. Activities of lease brokers indicates that if any changes in policy are made, it will be favorable for production.

NEW LEASING SPREE

Drilling operations of the (ITIO) Cities Service Calvird No. 1 heralded the most rapid exchange of oil and gas leases since tension died down during the drilling of the Bryan No. 1 when Haliburton tests were made as the drill penetrated oil sands, mudded off in an attempt to complete a 7,000 foot test.

Starkey E. Arentz sold a 1/200 interest in the mineral rights on the south 200 acres in section 440, Block 1-T, to Aline Ward.

Richard C. Buckles and wife signed a gas consolidation agreement with the Indian Territory Illuminating Oil Company on section 416, Block 1-T.

B. E. Seeley signed a consolidation agreement with the ITIO on section 403, Block 1-T.

Terry Thompson assigned an oil and gas lease on the West 1-2 of section 413, Block 1-T, to Frank Parkes.

W. N. Price assigned to Frank Parkes an oil and gas lease on the north 1-2 of section 279, Block 1-T.

Mr. and Mrs. A. C. Witt sold W. N. Price an oil and gas lease on the north 1-2 of section 279, Block 1-T.

W. N. Price bought an oil and gas lease on the northwest 1-4 of section 28, and the southeast 1-4 of section 29, Block 3-B, from Fannie W. Guild.

Stella Haley sold W. N. Price an oil and gas lease on the North 1-2 of the northeast 1-4 of the southwest 1-4 of section 22, Block 3-B.

H. L. Flanagan and wife sold an oil and gas lease to W. N. Price on the North 1-2 of the Southwest 1-4 of the Northwest 1-4 of section 22, Block 3-B.

W. N. Price bought an oil and gas lease from Henry Geoffroy on the northwest 1-4 of the southeast 1-4 of section 32, Block 3-B.

E. F. Maranda and wife sold W. N. Price an oil and gas lease on the northwest 1-4 of the northeast 1-4 of section 40, Block 3-B.

Wm. C. Coorsanger and wife sold an oil and gas lease on the south 1-2 of the northwest 1-4 of the southeast 1-4 of section 60, Block 3-B, to W. N. Price.

Carl Craig and wife sold an oil and gas lease on the north 1-2 of section 113, Block 1-C, to W. E. Benson.

W. E. Benson assigned an oil and gas lease on the north 1-2 of section 113, Block 1-C, to Frank Parkes.

Frank J. Harmer et al. sold Frank Parkes an oil and gas lease on the south 1-2 of section 87, Block 1-C.

CURRENT PROGRAM AT THE ROXY

Tonight, "The Great Lie," with Bette Davis and George Brent.

Friday and Saturday, "The Penalty," with Lionel Barrymore and Edward Arnold.

Sunday and Monday, "That Night in Rio," with Alice Faye and Don Ameche.

Tuesday, "Ride On Vaquero," with Cesar Romero.

Aug. 13-14, "The Great American Broadcast," with Alice Faye and John Payne.

Annual H. D. Picnic Friday At Lowe & Billington Ranch

The annual County-wide Home Demonstration Club picnic for all of Sherman County will be held Friday at the Lowe & Billington ranch about 3 miles west of Stratford. The picnic program will open at 11:00 A. M.

Everyone is invited to come and bring their best smiles, friends, plenty to eat, plates, forks and paper cups.

There will be entertainment for all. The program committee has been working secretly so you can expect surprises. Speakers have not been announced to anyone yet.

This picnic is an annual affair and is sponsored by the County Home Demonstration Council and the council and committees are anxious for everyone to attend and have a most enjoyable time.

Picnicers will find the location by driving west across the tracks from U. S. 287 at the Santa Fe water tower. A flag will be waving at the gate to the picnic grounds. Visitors are especially urged to close the gate after entering the pasture.

H. J. DuVall Injured In Car Accident Sunday

H. J. DuVall sustained three broken ribs, bruises and lacerations when his car was rammed at the intersection of U. S. 287 and U. S. 54 at 12:15 Sunday afternoon by a car driven by a Mr. and Mrs. Oliver of Detroit, Michigan. Mr. Oliver was bruised on the chest by the steering wheel and Mrs. Oliver sustained lacerations about the mouth when the upper set of her false teeth were broken in the impact.

DuVall was thrown clear of the wreckage, and was taken to Loretto hospital in the Wilson ambulance where his injuries were considered painful but not serious.

Mr. and Mrs. Oliver were driving East on U. S. 54 and Mr. DuVall was driving south on U. S. 287.

Both cars were practically demolished in the crash. A spare tire in the trunk of the DuVall car was thrown from the car by the impact with such force that it broke out the flood light at the Consumers station when the tire struck the flood light pole.

Mr. Du Vall was brought home Tuesday.

W. T. Martin Closed Appreciation Program Saturday Afternoon

W. T. Martin, pioneer hardware merchant, who is operating his store in its 34th year in Stratford, closed his appreciation program which he has conducted since the first of the year at the store Saturday afternoon with the distribution of several gifts as has been carried on each month.

The International Harvester Company bought pictures taken at the scene of events and they will be used in the dealers magazine which will be issued next month.

Indiana Doctor Searches For Vanishing Pioneers

Dr. and Mrs. Louis L. Gilmore of Vincennes, Indiana, were here Monday searching for clues of Pioneer Sherman men he met while touring Sherman County with the Standard Land Company of Kansas City, Missouri, about 30 years ago. It was his first return trip to Stratford since that time. He was unable to distinguish any of the old land marks.

Pioneers he recalled were the late Frank Kelp, father of N. D. and John Kelp, who formerly had resided in his home town of Vincennes, Indiana; Fletch Denton, who formerly operated a Stratford Drug store; and a Mr. and Mrs. Love, who were proprietors of Stratford's modern hotel of those days.

Roy Harris Wrecked Car Saturday Night

Roy Harris and Herschel Harris escaped with minor cuts and bruises when the car Roy was driving collided with a cow on U. S. 287 south of Stratford Saturday night. The Harris car was demolished and the cow belonging to Pronger Bros. was killed.

4-H CLUB BOYS MAKE PLANS FOR DISTRICT CAMP

Sherman County 4-H Club Boys and adult leaders will meet Saturday, August 9, in the District Court room at 1:00 P. M. The main purpose of the meeting, according to A. P. Bralley, County Agent, is to complete plans for the District Club Camp at Lake McClennan near Pampa August 13-16.

The District Camp is an annual affair and Club boys consider it one of the high lights of their year's activities. An interesting educational and recreational program has been arranged for this year.

Aluminum Drive Will Close Soon

Efforts of collecting aluminum for defense in Sherman County have been fruitful, County Judge L. P. Hunter stated this week, and requested citizens to leave their donations at either the Courthouse or the City Hall at their earliest convenience as the county's delivery of aluminum to district headquarters in Amarillo will be made in the near future.

Muddy weather prevented a thorough canvass of the county as had been planned but donations from Stratford and Sherman County housewives and citizens have continued to pour into the collecting spots during the days that have passed since the date set for the drive.

Faces Change Rapidly On Main Street

Faces have changed rapidly on Main Street this week. J. L. Higginbottom and Major Thomas operated Puckett's Grocery & Market while Mr. and Mrs. Puckett were in New Mexico. M. H. Harrison sold the Chuck Wagon cafe to Frank Sanders. Kirk Spearman left Wednesday morning to accept a position in Fullerton, Nebraska and Bill Early accepted a position with Albert's Grocery.

Miss Aline Vandagriff And Lloyd Hughes Married Wednesday

Miss Aline Vandagriff, daughter of Mrs. Ruby Vandagriff, became the bride of Lloyd Hughes, in a quiet ceremony solemnized last Wednesday night.

Mr. and Mrs. Hughes are at home in Stratford.

Letters Wanted From The Boys In Military Service

The Star will appreciate receiving letters from the boys from Sherman County and its adjoining territory who are in military training for publication. This request for letters from the boys, giving their daily routine work and experiences is made in cooperation with the government's request that country newspapers keep the folks at home posted on what the boys are doing in camp. A news service will be set up later by the government to inform newspapers of what the boys are doing, but at the present time, letters must come voluntarily from the boys or their parents and friends with whom they correspond.

The request of parents for such a letter from their sons will be appreciated by the publication and their commanding officers. A short description of each boy's service record would make good news.

BAPTIST CHURCH

(J. H. Dean, Pastor)
Sunday School 9:45
Morning Worship 11:00.
Subject: "Christ Lives Today."
Training Union 7:30.
Evening Worship 8:30.

Don't borrow trouble, the interest rate is too high. No cloud can overshadow a true Christian, but his faith will discern a rainbow in it.

PROBABLY TAKES COD LIVER OIL

The cod is one of the most prolific of fishes, a female 39 or 40 inches long producing about 3,000,000 eggs and one of the 41 inches as least 4,000,000.

Youthful Registrants Given Order Numbers

Sherman County's 14 young men who recently registered with the local Selective Service Board were assigned their order numbers at the recent meeting of the board. Their numbers follow:

- S-213 Edgar Ellis Williams.
- S-203 Clarence Joe Renner.
- S-246 Roy Douglas Harris.
- S-235 Ervin Clarence Tayoya.
- S-224 George Henry Allen.
- S-192 Bonnie Claybern Kirkwood
- S-137 James Arthur Ullom, Jr.
- S-257 Fred Johnson.
- S-115 Herschel Duane Harris.
- S-148 Harry Milton Sims.
- S-126 Alfred Edward Pronger, Jr.
- S-170 Eddie Clarence Arnold.
- S-159 Harlord Henry Roper.
- S-181 Jewel Leon Adams.

Weedy Wheat Is Producing 5-6 Bushels An Acre

Wheat combined in fields where weeds often hides it from view is reported to be averaging from 5 to 6 bushels an acre, and is said to be testing 51 and 52. Spring wheat is producing as high as 15 bushels to the acre.

Threshed Wheat Is Good

Wheat that was cut with a binder is beginning to arrive in Stratford from threshers this week and is a good quality of wheat testing 60. Wheat on the outside of the shocks is bleached to a certain extent but shows little other ill effects from the prolonged rain.

Billie Merle Hester And John P. Steel Married Friday

Miss Billie Merle Hester, daughter of John Hester, Conlen, became the bride of John P. Steel, son of Mr. and Mrs. W. W. Steel, in a wedding solemnized in the home of Mr. and Mrs. George A. McCall in Weatherford by Rev. John V. McCall Friday. Lieutenant and Mrs. Steel are at home in Weatherford, John being stationed at Camp Walters.

Blake And Brooks Will Erect New Garage Building

Homer Blake and O. Y. Brooks will erect a new building at the site of the Auto Salvage on U. S. 54 in the near future which will provide mechanical repair service for cars, trucks and tractors, in connection with the salvage shop. Mr. Brooks is the new mechanic at the Auto Salvage.

Four O'Clock Garden Club Plans Picnic

The Four O'Clock Garden Club will hold a picnic at Pronger Bros. ranch August 10 in place of the regular meeting. All members going are asked to meet at the home of Mrs. Leslie Parker at 5:45.

Floater's Medicine Sales Fraud Revealed

"Beware of house to house agents who would sell you merchandise under some high sounding name and claiming that it will cure all diseases known to effect man or beast," warns Dr. George W. Cox, state health officer.

"By patronizing such people the general public is not only wasting its money but is often purchasing an article that may be dangerous to the safety of persons or livestock."

One of the more recent frauds uncovered by field inspectors of the State Department of Health concerns so-called "radio-active Cones." Agents for this company have been covering certain sections of the State zealously, and have been selling a product that is not only worthless, but if used according to directions would be very dangerous to the public health.

20.24 Inch Rainfall Recorded This Year

Albert Adams, who keeps the government gauge, in a recheck of figures, corrected the rainfall report released last week to 19.97 inches. The 27 rain falling Wednesday night raised the 1941 rainfall to 20.24 inches.

First State Bank Will Erect New Brick Building

The First State Bank of Stratford will erect a new 30x100 foot brick building on the lot where the Post Office building and the office building of Dr. J. W. Norvell stands, W. N. Price, vice-president of the bank, announced this week. Work on the new building is expected to start about the 15th of this month.

Post Office Will Be Moved

The Stratford Post Office will move to temporary quarters in the Sherman County National Bank building. Tentative plans are for remodeling the present bank building into offices for the Post Office and Dr. Norvell.

Bert Cock Buys Home In Stratford

Mr. and Mrs. Bert Cock have purchased the duplex in the northeast part of town from Foxworth-Galbraith Lumber Company, where Judge and Mrs. L. P. Hunter have been making their home. Mr. and Mrs. Cock expect to make several improvements on their new residence and will probably take possession some time between the 10th and 15th of this month. Judge and Mrs. Hunter will move to the L. L. Lyon house where Mr. and Mrs. Cock have been living.

J. A. Layton Laid To Rest Sunday Afternoon

J. A. Layton, 71, who had been in ill health for several months, passed away at his home 3 miles south of Texhoma Friday morning and funeral services were conducted at the Methodist Church in Texhoma Sunday afternoon. He is survived by his wife, one son and one daughter.

Mr. Layton was serving his fourth term as County Commissioner of Precinct No. 3, having taken office in 1935. He had not been able to attend the meetings of the County Commissioners' Court for about three months, and had been in an Amarillo hospital on several occasions, where he was treated for cancer.

3 Sunray Residents Injured Monday Night When Car Hit Tractor

Two Sunray men and a woman, whose identities were unknown to Sheriff J. W. Garoutte who was called to the scene of the accident, were seriously injured Monday night on U. S. 287 near the Moore County line when the car they were driving rammed a tractor pulling a combine across the highway. J. P. Hudspeth of Forestburg, Texas, who was driving the tractor escaped without injury. A Dumas ambulance carried the injured parties to the Moore County hospital.

Wheat Improvement Meeting August 18

Frederic T. Dines of the Amarillo office of the Texas Wheat Improvement Association, announces representatives of the association will be in Stratford at 10:00 A. M. August 18, for a meeting with Sherman County wheat producers for the purpose of encouraging the production of recommended high quality varieties of wheat. The wheat improvement program is being carried on in cooperation with the A. & M. College Extension Service.

Stratford Band Wins Third Place In XIT Parade

Stratford's school band attended the XIT celebration Tuesday and won third place in the parade band contest. Perryton won first place and Spearman second.

Come let us study the Bible and the Bible alone. Speak where the Bible speaks and be silent where the Bible is silent. Col. 1:18 And he is the head of the body, the Church, who is the beginning, the first born from the dead; that in all things he might have the preeminence.

WHEAT QUOTAS FOR 1942 ARE PROCLAIMED

COLLEGE STATION, August 7—Wheat farmers will be given an opportunity to vote in a national referendum next spring on whether they want to continue wheat marketing quotas, Fred Rennels, assistant state administrative officer of the AAA, has announced.

This announcement by Secretary of Agriculture Claude R. Wickard is being made now to give wheat growers ample time to make plans for 1942 plantings before seeding time, Rennels continued.

In accordance with the AAA Act a proclamation must be made prior to May 15 of any marketing year when it appears the wheat supply will exceed a normal year's domestic consumption and exports by more than 35 percent. The national referendum which will be voted on before June 10, 1942, must be approved by two-thirds of the farmers voting before quotas will be in effect on that year's crop.

"Since marketing quotas on wheat serve to protect loan collateral, government loans would not be made on the 1942 crop if marketing quotas were voted down," the AAA official explained.

Wheat quotas are in effect for the first time on the 1941 crop as a result of the 81 percent favorable vote in the national referendum May 31. Texas farmers approved quotas by 94 percent. Approval of quotas made loans at 85 percent of parity possible.

The 1942 national wheat acreage allotment of 55 million acres was announced May 22, and Texas farmers have been issued allotments totaling 3,748,141 acres.

"The carryover we will have on July 1, 1942, as a result of our above normal yields and reduced exports, is going to be the largest on record for the United States and a 1941 crop even as low as 358 million bushels would bring the supply up to the quota level," he said.

American wheat farmers face the same problems confronting wheat growers in other exporting countries, but no where have the farmers as effective and as democratic a program to protect their prices, Rennels said, pointing out that American farmers are getting far better prices for their 1941 crop than farmers in other wheat exporting countries.

The purpose of marketing quotas is to divide a limited market equitably among all growers and to protect wheat prices and income by keeping part of the surplus off the market until needed. When producers plant within their specified allotments, they make adjustments at seeding time and may continue to market their entire production in the normal manner. Producers who exceed their allotments when the wheat is planted are called upon to adjust marketings. The smaller of the normal of actual yield on the acres in excess of the allotment is subject to penalty.

The marketing penalty, which is intended to discourage marketing of excess wheat, amounts to 50 percent of the basic loan rate. For 1941, the national average loan rate is 98 cents, making a penalty rate of 49 cents.

The penalty on excess wheat may be postponed if the excess is kept off the market and stored under bond, or it may be avoided if the wheat is taken out of market channels by delivery to the Secretary of Agriculture for relief purposes. Or, it may be converted into free wheat in which case it will be the amount by which a producer seeds below his allotment for next year, measured in terms of his normal yield, or the amount by which his next year's actual production falls below the normal yield of his allotted acres, Rennels said.

Workers Returned As Army Took Over Aviation Plant

Inglewood, Calif. — Because of defiance by local labor chifts against the orders of President Roosevelt to settle the strike, the U. S. Army took over production of the huge North American Aviation plant employing 11,000 men, which has \$200,000,000 worth of military airplane orders in production.

STATE POLITICS AND POLICIES IN BRIEF

Stevenson Retains Chairman

E. B. Germany, chairman of the Democratic party, offered his resignation to incoming Governor Coke Stevenson, but it was refused. Germany stated he felt that the governor should have the right to name the chairman of the executive committee. Stevenson said he was willing for Germany to continue his duties as chairman of the party.

State Tax Rate Cut 11 Cents

The State Automatic Tax Board ordered an 11-cent cut in the state ad valorem tax rate for 1942. At the same time the board was advised that by the end of the next fiscal year, August 31, 1942, the deficit in the state's general revenue fund would reach \$44,352,000. The board was powerless to do anything about this deficit since the rate for general revenue fund purposes is already at the constitutional maximum of 35 cents on the \$100 valuation. The cut was entirely in the school fund rate, from 27 to 16 cents on the \$100.

Youths Told To Get In Shape

Selective Service registrants in Texas are urged by Director J. Page, to learn the fundamental physical standards of this nation's armed forces, consult their doctors and dentists to determine whether they conform to these standards, and to have remediable defects corrected prior to examination by local board physicians. ed last week. The order signed by all three commissioners, further declared that all such rest rooms must be lighted at night for 30 minutes before the arrival of and 30 minutes after the departure of the train or bus.

Underage Drivers Decrease

A great decrease in the number of automobile drivers between the ages of 14 and 16 years has been brought about by the new Texas drivers license law, according to State Police Director Homer Garrison. Licenses thus far issued to youths 14 to 16 upon authorization of county judges total 476, Garrison said.

Free Rest Rooms Ordered

All railroads and bus lines maintaining transportation facilities in the state must furnish free rest rooms at every stop and stations for both whites and negroes, the Texas Railroad Commission ordered.

New Dry Law Enforcement

Enforcement of the new state law restricting prescription sales of whisky will be started immediately, Liquor Administrator Bert Ford announced this week. Instructions went out to field personnel with the receipt of news that the court of civil appeals at Galveston had upheld the constitutionality of the law and had dissolved a temporary injunction which restrained the board from enforcing the law. The liquor law was intended to dry up dry counties. How much whisky has been sold through prescription was indicated by the fact that estimates of the amount of income from a tax on prescription liquor were cut from \$1,500,000 to about \$175,000 following the passage of the prescription law.

Bond Session Likely

A special session of the legislature to re-enact the road bond assumption law will likely be held in September it was indicated this week by Governor Coke Stevenson. Stevenson was reticent in discussing the matter before he became governor. He believes County officials could delay their September budgets if it becomes apparent a special session would be fruitful, and says it might cause a delay in servicing some bonds, but "bond holders could wait a few days to clip their coupons," and if any defaulted, the teachers' retirement

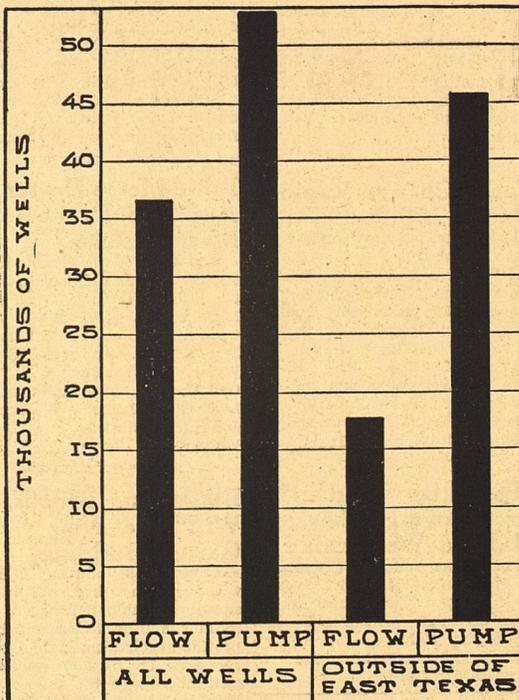

fund, several millions strong, is looking for sound investment.

Compromise Road Bond Bill

Under the road bond law, one cent of the gasoline tax is diverted to retiring local road bond indebtedness. The receipts have exceeded the service charges on bonds, and consequently a surplus has been built up, and the regular session split over whether this surplus

should go to the counties for building local lateral roads or to the highway department. Senator Allan Shivers proposes that one-half of the surplus be given to the highway department to add to the amounts available for constructing the state system; and the other half be spent, under the highway department's direct supervision, on new farm-to-market roads which

Perryton Will Celebrate 22nd Birthday Aug. 21-22

Perryton will celebrate its 22nd birthday August 21-22 with a colorful array of entertaining events which include rodeos both afternoons, dances each evening in town and at Lake Fryer, 36 bands in the parade the second morning and a whirl of carnival attractions. A special feature is the proposed roping contest between Mayor Herbert Peoples of Dalhart and Mayor Bill Lance of Perryton.

Senate Names Connally Head of Big Committee

Texas' Senior Senator, Tom Con-

nally, has been elevated by the Senate of the United States to head the powerful Foreign Relations Committee. Senator Connally is the first Texan to have ever gained this distinctive honor.

Connally was first assigned to the Foreign Relations Committee of the Senate in 1931. In ten years he has advanced from a position of twentieth on the committee to the chairmanship. Before being elected to the Senate, Connally served on the Foreign Affairs Committee of the House.

The Foreign Relations Committee, rated as one of the three most important committees of the Senate, works in conjunction with the President and the Department of State to form and to enforce the foreign policy of the United States, a matter of topmost importance at the present time.

Blimp Helps Patrol Atlantic

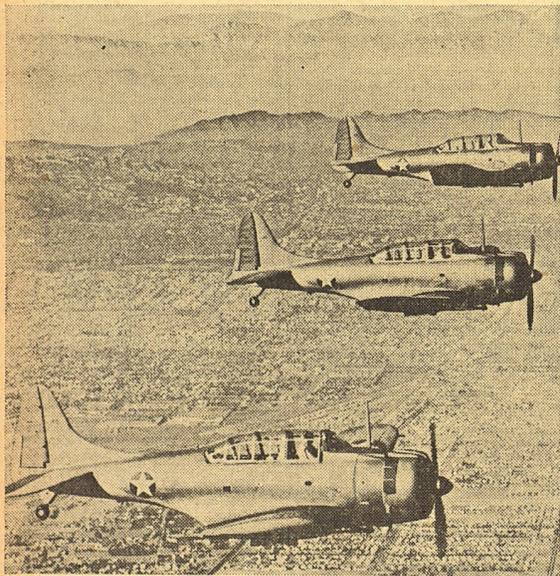

A U. S. navy airship from the naval base at Lakehurst, N. J., hovers over an American freighter while on patrol over the Atlantic. Airships are coming back into their own and the base at Lakehurst is another of our defense posts which is feeling growing pains. Officers and crews are being trained for the new blimps ordered by the navy.

Safe After 12 Days Adrift in Atlantic

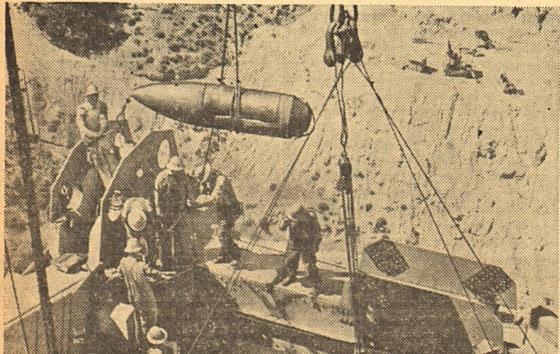

Their ship torpedoed about 400 miles off Greenland while en route to Britain, four Red Cross nurses (shown seated) were landed at Norfolk, Va., after spending 12 days adrift in an open boat in the North Atlantic. Picked up by an American destroyer, they were taken to Iceland for treatment before being returned to the States.

Superior to German Stukas

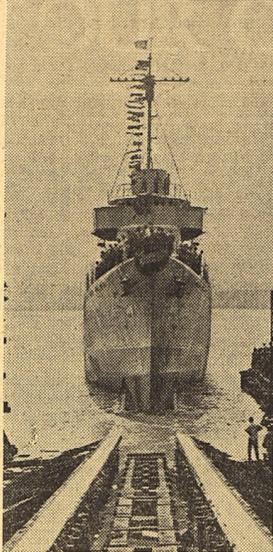

Pictured in flight here are three of the A-24 U. S. Army dive bombers which, army experts say, are better than the Nazi Stukas. The ships are rolling off the assembly lines of the Douglas company at Santa Monica, Calif. The A-24 is a two-place all-metal monoplane, nearly identical to the model SBD-3 dive bombers of the U. S. Navy.

Torpedo? No, Sir! It's a Pin!

As much as this might look like a projectile of war, the bullet-shaped gadget is nothing of the kind and is not at all explosive. It is a forged steel pin, 22 inches in diameter, to help hold together two spans of the Pit River bridge being built over a future arm of the Shasta reservoir by the U. S. bureau of reclamation, at Sacramento, Calif.

'There She Goes'

The U. S. S. Ellyson slides down the ways at Federal ship yards, Kearny, N. J. It took the water a short time after the U. S. S. Bristol, which was first out in the twin launching. Both ships were built in record time.

'V' Girl and 'V' Flag

Marie Kiley, selected as "V" Girl in New York, sitting on huge "V" flag, which bears Britain's victory symbols, letter V and Morse code equivalent, dot dot dot dash.

Pup Saves Two

When eight little boys went down to swim in the old swimmin' hole near Memphis they suddenly found themselves in deep water. The Mississippi had washed away a sandbar. Two of the rescuers were drowned. Harold Smith, 11, is shown here with "Poochie," a mongrel dog who saved the boy's life by dragging him up by the hair. The dog also saved "Bubber" Jones, 9, in the same manner.

New Tin 'Derby'

The U. S. Army's new "tin hat." It's green and resembles the German Army helmet. It will give better protection to the eyes and neck than old model.

National Farm and Home Hour Commentator.

WNU Service, 1343 H Street, N. W., Washington, D. C.

"This year and next the farmer is going places. There are certain indications that he will continue to see considerable new money: Indications based on conditions that affect the farmers' general outlook on life, as well as his cash income."

That statement did not come from "official sources"—it didn't even come from a farmer, although he used to be one. It was made in my office by square-cut, square-jawed Conklin ("Pop") Mann, an editor and advertising man, keen student of rural matters, and a long-time friend of mine. Mann was down from New York, bursting with enthusiasm for his favorite theme—assured prosperity on the farm. Mann believes that business has a job ahead to interpret and readjust its marketing to meet the sweeping economic changes now taking place in American agriculture.

The farmer is now becoming a far more important factor in the distribution of both consumable and capital goods than ever before. That rise in the farmers' economic importance isn't just a matter of great cash income, according to Mann. It is due, rather, to the fact that the farmer now has a sound business platform under him and can plan and work on a basis comparable to any other business man.

"Farmers," says Mann, "are both doing well and experiencing a new sense of economic security because of parity and guaranteed prices for farm products. There is a definite psychological response to their feeling of increased safety. When a farmer is doing well, and feeling secure, look for a strong upward surge in his buying psychology."

Mann interprets the farm in terms of modern industry—he sees the farm as a manufacturing plant, producing the raw materials for food, clothing and numerous other products. "Evolutionary changes, deep down in farm economics," says this agro-idealist, "have taken place which give the farmer a stabilized economic base from which he can plan and work with a sense of security he never had before."

Farmer Psychology
I like the way this hard-hitting, successful business man and writer describes the psychology of the farmer as he grew up with him in other days. He asks this question of the industrialist:

"How would I feel about buying anything but necessities if my whole economic structure was a gamble? Suppose I owned a ten or fifteen thousand-dollar plant and a lot of livestock, and, once a year, I planted crops, not knowing if the price would make them worth harvesting; how would I feel?"

Mann has a deep inherited kinship for the man who works close to the soil and you cannot doubt his sincerity when he adds:

"Some day a saga will be sung about the courage that kept the farmers going through their darkest days."

I wish I might write that saga for I know it from brave letters that poured into me from radio listeners all through the worst of the depression. I can tell you that they gave me a renewed faith in America that has kept me from being cynical through these days of distrust and doubt.

By the time this column is read, the greatest concentrated drive to increase farm production, to assure the farmer a definite price for what he produces will be on. For the first time in history, milk and poultry producers will be asked to pledge themselves to raise as much of their product as they possibly can—and they will get all the co-operation, advice and assistance that the government can give them. Quite a different picture from "plowing under."

Cotton Linters And Powder Making

Cotton linters, the hair-like fibers that cling to the seed after the long, staple cotton is removed in ginning, is a vital ingredient in the manufacture of smokeless powder. Army officials are checking to see whether or not there is going to be a shortage of this product that will seriously interfere with the defense program. They have ringing in their

BRIEFS . . . by Baukhage

A rifle range in New York has been soundproofed by WPA workers to eliminate ear-splitting echoes. Now if we could only get the enemy to use cotton bullets.

Look before you leap isn't always such good advice in Washington these days. Traffic conditions are so bad that a pedestrian frequently hasn't a chance to look before he has to leap.

ears the solemn warning of Rep. Wright Patman, of Texas, in the house of representatives, that there will be a linters shortage by the middle of 1942—or even as early as next February, depending upon how much the defense program is expanded, or whether or not the United States becomes involved in a "shooting war."

At any rate, three plans are being considered in order to meet such an emergency.

First, there is the substitution of alpha pulp. This is the wood product that Germany has been using in its smokeless powder since cotton imports have been shut off as a result of the war. This is the same ingredient, too, on which rayon and cellulose industries depend.

Second, the department of agriculture is experimenting with a machine for chopping up staple cotton into short lengths and breaking down the fiber so as to make it usable in place of linters. Within the near future the machine will be given a trial run at the Hopewell bleachery.

Third, a process has been developed for making wood linters out of the southern gum tree—the familiar sweet gum, black, or Tupelo gum. Already one plant in the Midwest is turning out these wood linters which are being used interchangeably with cotton linters in powder which is going to England.

Washington Residents And Car Luxury

Midtown Washingtonians—that's most of them—provide no sheltering roof for their servants, either human or wheeled. And so, early in the morning, nose to tail, the parked cars patiently hug the curb, awaiting their masters' will. As the day begins, there is a little knot of colored girls and other servants who are on their way to wake the missus and get breakfast, lunch and dinner and then depart for their own mysterious habitations.

Of course, there are more cars than girls, for here as elsewhere, the car is the No. 1 luxury. Better walk up three flights to a hall-bedroom than be car-less.

Of course, there are many government employee families which have settled down as contented bourgeoisie, the unambitious but secure beneficiaries of bureaucracy. They eventually own their own neat homes, on which there is plenty of time to work, after four-thirty. There is the 26-day leave each year and 14-day sick leave, occasional furloughs (without pay), retirement and pension to which to look forward. And there is always that semi-monthly salary check, not high in proportion to commercial wages but always there, in good times or bad, for the classified civil servant.

In boom times the salaries of government workers do not go up along with prices, and you cannot strike against the government. Prices are high in normal times in Washington, compared with other cities of its size; clerks and shopkeepers tend to be a little bored and snooty in the capital, and collectors are relentless. But Uncle Sam's pay check is always there, even if, in days of depression, a sizeable share may have to be mailed back to rugged relatives at home who are out of jobs—but even so there is usually enough left for the garage-less car.

Filing of Documents Is Serious Problem

In the public mind, the word "waste" is frequently associated with the word "government." If you will look up the word "waste" in the dictionary, you will also find that it is connected with the word "vast" (the Latin "vastus").

There is, of course, a vast waste in all governments and not the least is waste paper. As a matter of fact, the Congress of the United States recognizes this fact for it has created a joint select committee on the disposition of papers in the executive departments. Before papers and documents of any department can be thrown away, the Archives Council passes upon whether or not they have historical value. If not, the council advises the joint committee, which in turn reports to congress on what action that body should take in disposing of them.

The question of storing papers in Washington, the filing case for the emergency, to say nothing of the office, is becoming as serious as the need for providing space for human beings.

Documents of historical value are kept in the great Archives building on Constitution avenue where moth and rust do not corrupt nor can thieves break through and steal.

Papers of no historical value can be sold for waste, on direction of congress, and the money received therefor turned into the treasury.

CLASSIFIED DEPARTMENT

SUMMER RESORTS

An important feature, excellent meals, breakfast trays, Modern Conveniences, \$15-25 Weekly, Social Free. SUNNYSIDE FARM, Barrington, N. H.

Our Gold and Silver

Since 1918 the U. S. mints have coined \$1,574,809,146 in silver, and since 1920 they have coined \$4,526,218,478 in gold. The United States stock in gold at the end of the fiscal year in 1940 was \$19,963,090,869 in gold coin and bullion, and \$547,078,371 in silver dollars and \$402,260,615 in subsidiary coins.

WE FOUND A BETTER WAY

CTESIBIUS, GREEK PHYSICIAN

PETERMINED TO FIND A BETTER WAY TO LIFT WATER. HE INVENTED THE PUMP AROUND 250 B.C.

THE BETTER WAY TO TREAT CONSTIPATION DUE TO LACK OF PROPER "BULK" IN THE DIET IS TO CORRECT THE CAUSE OF THE TROUBLE WITH A DELICIOUS CEREAL, KELLOGG'S ALL-BRAN... EAT IT EVERY DAY AND DRINK PLENTY OF WATER.

Early Saving

The habit of saving, so as to be beforehand with the world, if it is to be acquired at all, must be acquired early.—Earl of Derby, K.G.

FEET CAN BEAT HEAT

Give feet wings of coolness. Sprinkle Mexican Heat Powder in shoes. Relieves tiredness. Little cost. Lots of comfort.

Effect of Society

Society is the atmosphere of souls; and we necessarily imbibe from it something which is either infectious or salubrious.

Nervous Restless Girls!

Cranky? Restless? Can't sleep? Tire easily? Because of distress of monthly functional disturbances? Then try Lydia E. Pinkham's Vegetable Compound.

Pinkham's Compound is famous for relieving pain of irregular periods and cranky nervousness due to such disturbances. One of the most effective medicines you can buy today for this purpose—made especially for women. WORTH TRYING!

Personal Confidence

The confidence which we have in ourselves gives birth to much of that which we have in others.—La Rochefoucauld.

THE TRUTH SIMPLY TOLD

Today's popularity of Doan's Pills, after many years of world-wide use, surely must be accepted as evidence of satisfactory use.

And favorable public opinion supports that of the able physicians who test the value of Doan's under exacting laboratory conditions.

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes.

If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed.

Burning, scanty or too frequent urination sometimes warn of disturbed kidney function. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out.

Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

DOAN'S PILLS

WNU—H 32-41

CREATING NEW WEALTH TO ORDER

● Advertising creates new wealth by showing people new and better ways of living, and as it creates new wealth it contributes to the prosperity of everyone touched by the flow of money which is set up. In this way, don't you see, advertising is a social force which is working in the interest of every one of us every day of the year, bringing us new wealth to use and enjoy.

PERSONAL

Mrs. L. P. Hunter took Mrs. Parish and daughter to Liberal, Kansas Tuesday to see a daughter who is sick in a hospital there. Mrs. J. H. Dean accompanied them on the trip.

Mr. and Mrs. Lester Goodman and son were in Amarillo on business Monday.

Mr. and Mrs. R. B. Puckett joined friends in Cawles, New Mexico for an outing from Saturday evening to Monday evening.

Mr. and Mrs. S. J. Calvird have

as their guests, his sister, Miss Nettie E. Calvird, niece and husband, Mr. and Mrs. C. H. Patrick, and great niece, Patricia Hibler of Kansas City. They are enroute home from a vacation in Colorado Springs, Colorado. They arrived Tuesday and will visit until Saturday.

Rev. J. H. Dean is teaching in a Bible training school in Pampa this week.

Mr. and Mrs. Kenneth Kendrick are vacationing in Denver, Colorado this week.

Mrs. John Wilkinson, Amarillo, a former resident of Stratford was

here Wednesday on business and visited with Mrs. Mynola Ross.

Mr. and Mrs. R. C. Harding and Mrs. Curt Adams, Lone Wolf, Oklahoma, arrived Wednesday to be with their son and brother, Ralph Harding, who is very sick with influenza.

Mr. and Mrs. H. T. Jackson, Melvin Phillips and Miss Velma Mullins visited relatives in Lubbock, Plainview, and Petersburg, Texas Sunday. Neil Jackson who has been visiting in Lubbock returned home with them.

Mrs. Helen Baxter and son, J. Sterling, and Mrs. Boyd, Stafford, Kansas, arrived Tuesday for a visit with Mrs. H. M. Brown and other relatives and Mr. and Mrs. R. C. Buckles.

Oren Highley and Miss Ermalee Bonar are attending a two week summer band camp at Gunnison, Colorado.

Mr. and Mrs. W. E. Benson, Texhoma, were business visitors here Wednesday.

Mr. and Mrs. Cam Woolvorton and family of Palestine, Texas, enroute to Colorado Springs, Colorado, spent Sunday night with his aunt, Mrs. Leta Henderson and Dr. and Mrs. J. W. Norvell.

Mr. and Mrs. S. J. Farris, Eugene Farris and Dixie Beth Griffin were in Amarillo Saturday.

Mrs. H. P. Ballengee, Phillips, is the guest of her parents, Mr. and Mrs. M. H. Harrison.

Mrs. J. J. Fryar, Mrs. McQueen and Mrs. H. L. Vincent who have been the guests of Mr. and Mrs. W. G. O'Brien and other relatives returned to their homes Saturday.

Mrs. Earl Shirk is recovering from a recent illness.

C. F. Meinhardt visited friends here the latter part of last week.

Lloyd Mason, Amarillo, was a business visitor here Saturday.

Mr. and Mrs. John Kirkwood and Mrs. E. F. Buster have returned from a visit in New Mexico.

Mr. and Mrs. F. D. Norwood and family, El Paso, Texas, enroute to Chicago, spent Sunday night with his aunt, Mrs. W. G. O'Brien, and Mr. O'Brien.

Mr. and Mrs. Dick Farris and daughters, Santa Anna, Texas, arrived Sunday for an extended visit with his brother, S. J. Farris.

William Glenn and Howard Lynn Hart are visiting their grandparents, Mr. and Mrs. E. W. Butler.

Mrs. Ellis Williams and Timmy Lu, Plainview, are visiting her mother, Mrs. Tim Flores, and Mr. Williams is visiting his parents, Mr. and Mrs. E. E. Williams in Sunray.

Miss Roberta Murfee, Houston, Texas, arrived Saturday and is the guest of her grandparents, Mr. and Mrs. L. M. Price, and Mr. and Mrs. W. N. Price and family, and her great grandfather, Mr. T. J. Noland. Mr. and Mrs. Latimer Murfee are expected the last of the week.

Mr. and Mrs. W. G. O'Brien, Mrs. J. R. Alexander and son, Bobby, and Misses Days, Gruver, attended the XIT celebration in Dalhart Monday.

Mr. and Mrs. J. R. Pendleton, Mrs. V. M. Lee, Miss Mildred and William Pendleton were the guests of Mr. and Mrs. O. E. Finch in their lovely ranch home near Dalhart Sunday.

Miss Keith Ann Gamble left Saturday to visit in Dalhart, Amarillo, and Plainview, before going to Fort Worth to be with her mother, Mrs. Mary Nan Gamble.

Rev. J. B. Thompson left Wednesday morning for Memphis, Texas where he will meet his parents, who will return with him for a visit here. Rev. Thompson stated it would be the first time his parents had had the opportunity to visit in his home in five years.

Raymond Howard, a 7 pound 5 ounce son, was born to Mr. and Mrs. Earl Albert in Loretto hospital Friday morning. Mother and baby are doing nicely.

Sidney Park of near Gruver transacted business here Wednesday.

Clarence Wiginton, Lubbock, spent the latter part of last week with his parents, Mr. and Mrs. W. F. Wiginton.

John W. Short of Mt. Pleasant, Iowa, arrived the latter part of last week to watch closing harvest operations and current oil play.

Mr. and Mrs. J. D. Billington and Joyce Ann and Mr. and Mrs. H. E. Lowe returned last Wednesday evening from a visit near Odessa, Texas.

Mrs. M. C. Reynolds, Bakersfield, California, arrived Sunday for a visit with her sons, Walter and Ted Reynolds.

Mr. and Mrs. G. L. Taylor and Little Miss Patricia Taylor left Sunday for a short visit with her parents in Ranger, Texas and to attend a home-coming celebration Tuesday and Wednesday.

Horace Walker was a business visitor in Dodge City, Kansas Tuesday.

D. R. Wilson transacted business in Amarillo Tuesday.

Mr. and Mrs. F. L. Yates visited

friends in Dimmit, Texas Sunday. They report black rust destroyed most of the wheat in that area.

Louis Gex, Texhoma, transacted business here Tuesday.

A. A. Youngblood, Amherst, New Mexico, arrived Sunday for a visit with friends here.

Mrs. Burrell Hill and daughter, Mildred, spent Sunday night in Stratford with Mr. Hill, returning to Pampa Monday where she is caring for a sister who is ill.

Mr. and Mrs. N. D. Kelp and Jerry attended the XIT Monday.

R. E. Chambers, E. L. Walden and Al Hart attended the XIT celebration Monday night. Al displayed his reflecting telescope.

Miss Glenda Faye Lowe, Colorado City, Texas is here for a visit with her cousin, Miss Joyce Ann Billington.

Miss Jessie Lee Butler, San Antonio, Texas, is here for a three-weeks visit with her parents, Mr. and Mrs. E. W. Butler.

Mr. and Mrs. Elroy Hailey spent the week end in Dalhart.

V. M. King of near Gruver, transacted business here Tuesday.

Mr. and Mrs. Bert Slay attended the XIT celebration Sunday and Monday.

Mrs. Lelah Boney and son, Russell of Wichita, Kansas, Mrs. Bessie Blazier and son, Dale, attended the XIT celebration Monday.

Mr. and Mrs. H. M. Etheridge, Mr. and Mrs. J. D. Billington, and Misses Joyce Ann Billington and Glenda Faye Lowe were visitors in Texhoma Sunday.

Notice To School Bus Drivers

The Board of Trustees of the Lone Star Consolidated School District No. 1, Sherman County, will receive sealed bids for driving two school buses from said district for nine months, during the 1941-42 school term. Said bids to be mailed or delivered to Judge L. P. Hunter on or before August 16, 1941.

All equipment to be privately owned, and drivers and buses must be able to qualify under Article 2,687 School Laws. The Board reserves the right to reject any and all bids.

C. E. REYNOLDS, President.
ROY W. PARK, Secretary.

Stratford 4-H Club Cans Vegetables

"Definite time and temperature are necessary for each product in order to secure the correct temperature at the center of the container or the largest piece of food in the container," Miss Mabel Martin, home demonstration agent, told the Stratford 4-H club girls when they had their regular meeting

Saturday, August 2, in the club room in the courthouse. Tomatoes and non-acid vegetables were canned by June McDaniel, Dorothy Walsh, Arline Grimes, Wanda Jean Bryant, Dorothy Nelle and Dale McWilliams.

"Let's Eat Peaches"

There is a "peach" of a peach crop! This is the time for you to use it to take out a little extra insurance toward having two fruits daily on the family table during the remainder of 1941 and in 1942. The insurance policy, a bushel of peaches or two bushels of peaches, or five or ten bushels. Peaches are plentiful in quantity, should be reasonable in price, fine in quality. A bushel of peaches will yield 150 servings of fresh fruit and 15 to 20 quarts of canned fruit. Now is the time, too, to check up on up-to-date methods of conserving peaches. If you want recipes

for canning, preserving, drying or preparing peach dishes go by the home demonstration agents office. Miss Mabel Martin, home demonstration agent, gives the following suggestions for serving peaches.
Peaches for Breakfast
 Peaches-natural.
 Peaches-sugar and cream.
 Peaches with cereal.
 Peaches broiled with bacon.
Peaches for Lunch or Supper
 Peach salad with cottage cheese and honey dressing.
 Molded peach and ginger ale salad.
 Frozen peach salad.
 Peach tarts.
 Peach fritters.
 Peaches baked.
Peaches for Dinner
 Peach chiffon pie.
 Peach crumb pie.
 Peach short cake.
 Peach cobbler.
 Peach ice cream.
 Peach mousse.
 Peach upside-down cake.
 Spanish ring mold with peaches.

van setting. Every year thousands of out-of towners visit this free attraction in Chicago.

10,000 Youths Receive NYA Training

Ten thousand youths between the ages of 16 and 24 received work experience through National Youth Administration projects in Area 1 in the fiscal year July 1, 1940, to June 30, 1941, Harold V. Hamilton, Amarillo Area Director, announced. Throughout the area, which includes 26 Panhandle counties, a monthly average of youth workers was maintained at 650. However, a fifty percent turnover in employees, due to youths receiving private employment, accounted for the large total employed during the year. Project activities in the area include the boys' resident center in Canyon which is sponsored by West Texas State College. Boys working on this project have an opportunity to learn all phases of construction work and to attend related training classes in aviation mechanics, sheet metal work, auto mechanics and welding conducted

by the State Board of Vocational Education.

WHAT IS A MAMMAL?

Any animal which possesses milk glands by means of which its young are fed during the early period of growth is called a mammal. Other typical mammalian characteristics are the possession of hair and a four-chambered

heart. Thus whales, bears, furbearers, squirrels, deer, mice, and the human race are all classified as mammals.

... that's the kind of bargain Your Electric Servant brings YOU NOW under Business Operation

1. Twice the speed. Electric servants breeze through your housework in less than half the time it used to take—at about half the cost. Your bill maybe is about the same as it's always been, but you now get more and better service, plus better lighting, for about what you used to pay for lights alone.

2. Twice the labor saving. Ask the woman who owns a washing machine what electricity has done for her! At present-day low rates, you can afford to use most all the modern appliances. Today electric rates are only about half what they were 10 to 15 years ago. You get about two or three times as much for your money!

3. Twice the light. No blackouts here! Today you can get twice as much light as you used to, for the same money. Electricity today costs only about half as much. (Light bulbs are twice as efficient, so you get four times as much today for the same money.)

4. Twice the comfort. Constant research is developing new and cheaper ways of using electricity. Air conditioning this past summer reached more homes than ever before, bringing cool comfort at small cost. Other usages are being constantly improved at no extra cost to you!

Credit for the steadily improved service to you at steadily reduced rates is due the trained and experienced men and women of this organization. They have devoted many years to the highly technical problems of electric generation and distribution... all without interruption and at low cost.

Letters from the People:

"We used to pay 15 cents a kilowatt-hour. The low rates today enable us to use our many appliances without being extravagant. Besides lights, we now have range, water heater, Frigidaire, sweeper, air conditioner, iron, percolator, toaster, waffle iron, radio, fans and heating pad—making for better and more economical living. . . . The West Texas Utilities always renders courteous, prompt and efficient service for which we are grateful."

The Lamp in the Valley

BY ARTHUR STRINGER

W. N. U. Service

THE STORY SO FAR

Sidney Lander, mining engineer, is engaged to Barbara Trumbull, but apparently has fallen in love with Carol Coburn, Matanuska school teacher. Salaria Bryson, one of her pupils, a big out-door girl, is also in love with him. Carol's father died in Alaska

with an unproven claim which Trumbull is contesting. Lander quits his employment, becomes field manager for the Matanuska Valley project. Sock-Eye Schlupp, an old soundough, and others, are skeptical of the project's success. Eric (the Red) Ericson

has been stirring discord among the workers. At last, too, a school is put up. Salaria discusses Sidney with Carol. Salaria has no idea Carol is interested in him. Teacher and pupil find a common rival in Barbara.

INSTALLMENT XIV

She said it without enthusiasm. And I, in turn, had my suspicions. She was hungry, not unlike myself, for something beyond the knowledge that comes out of books.

"Love is never wasted," I said, reaching for solid ground in that copybook maxim.

Salaria's glowering eyes studied my face.

"Then why," she demanded, "does a silk-wearin' and washed-out she-cat who ain't got the guts 't stick 't his side tie up a real man like Sid Lander? Why should she harpoon him for life and then back-trail 't the States and reckon he's safe among us walrus-eaters?"

I gravely considered that double-barreled question.

"I suppose it's because he's a man of honor," I finally affirmed.

Salaria crossed to the door and looked out at the towering peaks of the Talkeetnas.

"Honor wouldn't cut much ice," she said over her shoulder, "if I was the blubber-eater he was pickin' out. If he wanted a woman around his wickup as much as he wants this cock-eyed colony on the map," she abandonedly proclaimed, "he'd damned soon see my shoe-packs under his bunk rail!"

I kept telling myself, after that talk with Salaria, that there was something dignifying in the job of teaching, in molding the minds of the young, in bringing light into the dark places of the world. I was the lamp in the valley.

But the lamp, plainly, stood in need of some new oil. And full as my days were, I'd a feeling that something important in life was forever slipping around the corner before I could quite catch up with it. Yet all I could do, I argued with myself, was to tighten my belt and carry on. I'd no intention of turning into a grumbler. These two hundred families, I maintained, would eventually do for Alaska what the covered wagoners did for the Coast States, seventy long years ago. Or even what the Pilgrim Fathers did for New England.

Yet construction lagged because wrong material had been sent in and the workers wouldn't work. Some of the misfits and trouble-makers had already been sent back to the States, to spread the news of the colony's collapse. Some of the others imposed on the Commissary and wolfed more than their share of the supplies. Some growled in secret and some drew up a daily round-robin of complaints. Others went to Wasilla and got drunk. And the less illiterate of the women-folk deplored the rawness of the country that had betrayed them.

In a city of tents, where privacy was unknown, I saw things and heard things that at first touched me with horror: love-making with all the candor of the kennel, family-fights echoing through thin walls of canvas, the moans of child-birth mixed with the strains of a mouth-organ, a loose woman with a canine cluster of idlers about her, stripped men bathing openly in wash-tubs, mothers in sunny corners combing lice from their children's hair, girls jeered at as they slipped into an unscreened outhouse, stained sheets and flimsy underwear flapping on clotheslines, farm-stock surrendering to the biologic urge under one's very nose, profanity and praying side by side, grossness and greediness, empty cans and offal, crying babies and thrumming banjos.

It was all honest and open enough. It was too open, from Betsy Sebeck unbuttoning her waist and giving her big breast to a crying baby with a dozen males watching the operation, to the bed-pots which, in a land without plumbing, had to be emptied in the light of day. But that reversion to the primitive. I told Katie, produced both a bluntness of address and a coarseness of fiber. And women, I contended, felt it most.

Katie didn't agree with me. She said modern woman had got a damned sight too refined for this world, that it did her good to get out on the frontier where life could fling her back to first principles.

"We're here," said Katie, "for just one end: to work and reproduce."

"That," I retorted, "leaves us no better than animals."

"Well, that's what we are," Katie affirmed, "only the frippers make us forget it."

"But surely civilization's brought us something worth keeping," I suggested.

Katie laughed.

"We're not as civilized as you imagine," she said as she buttoned her mannish-looking leather coat. "You'll find that out when your baby's pulling at your breast."

A touch of unrest, I noticed, extended even to my pupils. They could boast of a big yellow motor bus to carry them to the school door every morning. But only a sprinkling of them came. Compared with the children of the old-timers, the stolid little Scandinavians and Finns and native Alaskans who were inured to hardship, the A B C new-

comers were both harder to manage and more exacting in their demands. They arrived well fed and well clothed, their lunch-boxes stuffed with Commissary food. They were eyed with envy by the native-born children, who probably saw an orange only at Christmas. But these wards of Uncle Sam came carrying two or three oranges, day by day. Sometimes they had grapefruit and chocolate bars and store cake. Since the supply proved unlimited, they liked to have a pitched battle with those comestibles.

After a final overreckless barrage of oranges I had to make it a rule that no Project child was to bring more than one orange into the classroom. It gave me an unpleasant feeling just under the fifth rib to see poor little Olie Eckstrom rummaging through that waste, for a half-eaten orange or two, to carry home to his sister Frieda, who couldn't come to school until her mother was able to get to Anchorage to buy her a pair of shoes. I began to realize that you can hurt people by too much help.

I was singing as I went to the road with my water pail one morn-

"Why avoid me, Moon of my Delight?"

ing. And as I turned I came face to face with Eric the Red.

"Why avoid me, Moon of my Delight?" he said with his habitual and hateful mockery.

"Why shouldn't I?" I asked. I compelled myself to meet his gaze. For along the road I could see the approaching figure of Olie Eckstrom, swinging his tin milk pail as he whistled to the tree tops.

There was something maddening about the cool assurance of Ericson's smile.

"Why should you, sweet lady, when it's written in the stars we're to come together?" His laugh was both brief and unpleasant. "I'm still awaiting that happy hour. And when it arrives I don't intend to be the forgotten man."

I made no response to that. Instead, I turned and called to Olie, who quickened his pace as he caught sight of me. My little Swedish friend was no Goliath, but even his diminutive figure meant an acceptable ally along that lonely road.

Ericson, watching that figure in bibbed overalls, essayed an ironic gesture of farewell and moved on down the road.

"E ban a bad man," Olie announced with quiet conviction.

"Why do you say that?" I asked. Olie's answer, when he gave his reasons, was in English both broken and bewildering. But in the end it rather took my breath away. For from the slow-tongued Swede boy I gathered that he had been in the habit of collecting building blocks for his sister Frieda, small board ends that could be picked up between the lumber piles along the siding track. The workmen there were apt to treat him roughly and drive him away with a cuff and a kick. So it was natural, the night before, that he should promptly hide away when he heard voices. But he was able to gather the gist of the talk among those transient sore-heads. And their plan, apparently, was to stage a demonstration in front of the Commissary (where a curb had been put on the open-handed distribution of Federal supplies) and while the officials were busy with that riot Ericson and his followers were to start a fire, a purely accidental fire, in the great piles of timber and equipment that lined the railway track.

CHAPTER XVIII

Lander listened, with a quiet enough eye, as I told him what I could of Olie's story.

Instead of venturing any comment on the situation he asked me if John Trumbull had been in touch with me during the last few days. When I informed him to the contrary he

led me over to his truck, saying he'd be glad to drop me at my school door.

"But you can't tell how this will turn out," I argued, "and if it's going to be dangerous I want to be around."

"That's just when I don't want you around," he said. "You've had trouble enough in this valley."

"But it may mean danger for you," I persisted.

Our glances locked, for a moment, and I could see a warmer light well up in his eyes. His brief laugh was both cool and self-confident.

But when we stopped at Palmer and he had a quiet look over the towering supply piles along the siding there his face took on a new seriousness. For hidden under a layer of empty hemp bales, between two piles of pine flooring, he found a five-gallon can of gasoline. The contents of this can he quietly emptied into his truck tank. Then, after a moment's thought, he filled the can with water. Making sure his movements were unobserved, he restored the cap to the can and restored the can to its hiding place under the hemp bales.

My pupils didn't get the attention they should have that day. There was many a flicker, before the afternoon wore away, in the lamp of learning.

I was still in my classroom, after the big yellow bus had carried away the last of the children, when Sock-Eye appeared in the doorway.

"I ain't much of a hand at g'ography," he said as his bearlike eyes blinked up at my wall map, "but I've got me a homemade chart here I'm needin' a mess o' help on."

He produced a soiled and rumpled sheet of paper diversified with many pencil-markings and placed it on the desk top in front of me.

"What's this?" I asked, trying in vain to read some meaning into the roughly penciled lines.

"That," said Sock-Eye, "is a map o' Klondike Coburn's claim on the Chakitana as I kin best work it out. That's the mine, remember, that ought 't be yours."

"John Trumbull says it shouldn't," I reminded him.

"And Sid Lander says it does," retorted Sock-Eye. "But I ain't goin' into that now, girlie. What I want 't check up on is where them location stakes o' your old pappy ought to stand." His stubby finger pointed to a marking on the map.

"Here's the Chakitana, and it ought 't be about here the Big Squaw comes in. But I can't figger out which side o' that crick the Trumbull outfit is anchored to."

"I'm afraid I can't help you much," I said. "You see, Sock-Eye, I've never been there."

"Then why ain't you there now?" demanded the old fire-eater.

"Because I'm needed here in the valley," I answered. "And Sidney Lander's supposed to be looking after my claim."

"Yes," snapped Sock-Eye, "fussin' round with these pie-eatin' pikers and waitin' for a bunch of law sharks 't put in the final word. But court rulin's don't git you nowhere, back on the cricks."

I sat looking at Sock-Eye until he shifted a little uneasily under my gaze. I was thinking, as I studied his seamed old face, that he was so misplaced in time that he was pathetic. He impressed me, for all his bristlings of belligerency, as childishly helpless before the newer forces crowding in on his trail. He made me think of a cumbersome armored turtle, overconfident of his safety as he ambles along a motor highway between the flashing wheels of change that could so easily crush him.

"What's right or wrong," I finally observed, "isn't decided by gunpowder."

Sock-Eye's laugh was brief and raucous.

"More'n once, girlie, I've seen it blow a short cut 't the seat o' justice," he said as he patted the worn leather of his gun holster. "And this valley wouldn't be where she is if she could rouse up a leather-slapper or two 't straighten her out."

The desolate old figure took a bite of plug tobacco, chewed vigorously, and spat into the stove front. "Filled with a mess o' women and gas cars that ain't needed here."

"The trouble with you," I suggested, "is that you've lived too long alone."

Sock-Eye looked at me with the kindly scorn of the unmated male.

"Because I never got me a woman?" he demanded.

"If you want to put it that way," I acceded.

Still again Sock-Eye spat adroitly into the stove front.

"I ain't had trade nor truck with 'em for forty odd years," he averred. "And I guess I'll git along without 'em to the last roundup. No, ma'am, I ain't succumbed 't the plumb loco idee a shack ain't a home unless there's a female fussin' round the dough-crock."

"What can you do?" I asked.

Sock-Eye chuckled in his leathery old throat.

IMPROVED UNIFORM INTERNATIONAL SUNDAY SCHOOL Lesson

By HAROLD L. LUNDQUIST, D. D., Dean of The Moody Bible Institute of Chicago, (Released by Western Newspaper Union.)

Lesson for August 10

Lesson subjects and Scripture texts selected and copyrighted by International Council of Religious Education; used by permission.

JAMES TEACHES CONSISTENT CHRISTIAN LIVING

LESSON TEXT—James 1:17-22; 2:14-17; 4:13-17; 5:12.

GOLDEN TEXT—Pure religion and undefiled before God and the Father is this, To visit the fatherless and widows in their affliction, and to keep himself unstained from the world.—James 1:27.

Spiritually minded but very practical was James, an outstanding leader in the Church (Gal. 2:9; Acts 15) and the brother of our Lord. His epistle speaks little about Christ, but it reflects more of His teachings than any of the other epistles. It parallels the sermon on the mount and in that way, as well as other ways, greatly resembles the teachings of Jesus. It is a straightforward discussion of practical Christian living.

There is so much inconsistency among Christians in their daily walk that nothing could be more needed than a careful study of the exhortations of James.

I. Be Doers of the Word—Not Hearers Only (1:17-22).

Knowing God's will is important, but it amounts to little except to bring condemnation upon us, unless we do it. It is good to hear with swift apprehension, but there is no point in talking about what we have heard unless we practice it.

God is the "giver of every good and perfect gift" (that's literally and wonderfully true). He has not withheld one blessing, even to the giving of His Son, who was sent down from heaven to redeem us.

His very goodness should prompt us to lay aside everything which dishonors His name. Wrath (v. 20), all uncleanness of speech or thought, pride (v. 21)—all these must go, and will go, as we permit the Word to take root (be "engrafted") in our hearts and lives. Note that it is not enough to read the Word, or even to memorize it. It must take root and grow in our life.

II. Believe—But Do Not Forget to Work (2:14-17).

Saved by faith? Yes, we are, and in no other way; but the man who says he has faith in Christ will inevitably show the results of that faith in his life.

James is not in any way contradicting the teaching of Paul's epistles regarding justification by faith, but is clearly stating what must be true, "that a faith which does not result in works, i. e., in a manifestation of a true Christian life, externally and visibly, is not the kind of faith commanded by God, and constantly revealed in the New Testament as the only instrument for the appropriation of the redemption that is in Jesus Christ our Lord. There is no such thing as real, genuine, vital, living, Christian faith, except it has its fruits in the works of faith" (Wilbur M. Smith).

How that faith will show itself in the practical dealings of daily life is graphically presented in verses 15 and 16. Pious talk has always been very cheap, and it certainly accomplishes nothing. Real Christianity works.

III. Trust—But Do Not Boast of Tomorrow (4:13-17).

There is a strange religious attitude which talks about faith as though it were something of which to boast, which encourages people not only to believe, but actually to presume. There is a radical difference between faith and presumption.

All Christians are subject to the temptation of talking about being "strangers and pilgrims" (Heb. 11:13) in this earth, and then planning their lives and their business as though everything will continue as it is through all eternity. It is right to plan, but every day we should plan subject to God's will, always realizing that this may be the day when we shall be called into His presence to give an account of the deeds done in the flesh.

Every hour of life should find us ready to meet the Lord, and with all in readiness, so that our going may leave behind a clear testimony of faith in God, and of consistent Christian living.

IV. Be Honest—Without the Need of an Oath (5:12).

A Christian should never need to give an oath in the ordinary affairs of daily life. His life should be so transparently honest and consistently aboveboard that his word ("yea, yea, or nay, nay") will be "as good as his bond."

The Jews were accustomed to use formulas for oaths such as those mentioned in Matthew 5:33-37. They would have felt much at home in our day when there is so much dishonesty that people are constantly calling on God to witness to their truthfulness. Those who have least to do with Him and the worst records for dishonesty are most prone to thus seek to bolster their word.

What a striking contrast is the simple "yes" or "no" of the true Christian. Let us make our word always good, because it is the expression of the integrity of our lives.

ASK ME? ANOTHER? A quiz with answers offering information on various subjects

The Questions

1. What South American country has a Colorado river?
2. What writer described the Brobdingnagians?
3. What is the weight of a gallon of pure water?
4. What is believed the world's oldest city still inhabited?
5. The bundle of rods on the back of a dime is called what?
6. What is the largest star known?
7. Is a pound of feathers heavier than a pound of gold?
8. How many names of U. S. Presidents begin with A?
9. If a boat is clinker-built, what is its distinguishing feature?
10. What is a canon in music?

The Answers

1. Argentina.
2. Swift (in "Gulliver's Travels," people of a country where everything is of enormous size).
3. One gallon of water weighs 8.355 pounds.
4. Damascus.
5. Fasces.
6. Antares (90,000,000 times larger than our sun).
7. Yes. Gold is weighed by the troy system, 12 ounces to the pound, while feathers are weighed by the avoirdupois measure.
8. Three—John Adams, John Quincy Adams and Chester Arthur.

Ump's Choice

Fan—What we want is more action and not so many words.

Baseball Ump—I don't exactly agree with you. I would much rather you fans would yell at me than throw pop bottles.

Platonic friendship, says a wise man, is the gun you didn't know was loaded.

If That's Expression

Evelyn—Helen sings with a great deal of expression, doesn't she?

Joy—Well, she makes awful faces when she does it.

Something About Him

"My dear, I never imagined you would marry the man you did," said Gladys.

"Neither did I, my dear," replied her friend. "I disliked his ways, but I adored his means."

Flush—Not Blush

Boogy—See how the bride is blushing?

Woogy—Go on, man. That's not a blush. That's the first flush of victory.

TRY MOROLINE HAIR TONIC

Use of Satire A satire should expose nothing but what is corrigible, and make a due discrimination between those that are not the proper objects of it.—Addison.

Increase the Mind If riches increase let thy mind hold pace with them, and think it not enough to be liberal, but munificent.—Sir T. Browne.

INDIGESTION

What Doctors do for it Doctors know that gas trapped in the stomach or gullet may act like a hair-trigger on the heart. They set gas free with the fastest-acting medicine known—the fastest act like the medicines in Bell's Tablets. Try Bell's today. If the FIRST DOSE doesn't prove Bell's better, return bottle to us and receive DOUBLE money back. 25c. at all drug stores.

Worthwhile Illusions

Don't part with your illusions. When they are gone you may still exist, but you have ceased to live.—Twain.

Expectation and Fear We must expect everything and fear everything from time and from men.—Vauvenargues.

Failures Teach Every failure teaches a man something if he will learn.—Dickens.

It's A GOOD AMERICAN CUSTOM

PATTERNS

SEWING CIRCLE

sweeps, from a high, small waistline, to a flare that ensures working comfort and looks pretty besides. You can draw the waistline in as slim as you please, by means of the back-tied sash belt—and adjust it to give yourself plenty of leeway for reaching, stretching, sweeping, dusting and so on. This design (No. 1360-B) is simple to make and it really is necessary to a busy day.

Checked gingham, flowered percale, plain-colored chambray or seersucker all look very attractive made up like this, with braid and buttons to match or contrast. You'll enjoy following the pattern which includes a sew chart.

Barbara Bell Pattern No. 1360-B is designed in sizes 12, 14, 16, 18, 20 and 40. Corresponding bust measurements 30, 32, 34, 36, 38, and 40. Size 14 (32) requires 3 1/2 yards edging. Send your order to:

Lockless Suez Canal

The Suez canal is a sea-level "ditch," requiring no locks. The narrow ditch in the sand runs for 104.5 miles through desert and marshy land from Port Said on the Mediterranean to Port Taufiq on the Gulf of Suez. Its channel depth is now 45 feet, and its narrowest width is 70 yards. Although it has been concreted at some places to halt erosion, the banks are chiefly sand or gravel.

The northern half of the canal cuts straight through the desert; the southern half leads through a chain of small lakes which act as "expansion chambers" to help take up the flow of the four-foot tide from the Red sea.

HERE'S one of those very satisfying everyday dresses that's decidedly out of the ordinary in charm and practicality. The lines are really as good as those of your favorite afternoon dress. The skirt

MORE PRODUCTION NEEDED NOT A VICIOUS CIRCLE!

WHAT AMERICA needs now and for the future is more production. More production should start on the farms. It should supply for us those farm products we are now importing to the extent of a billion and one-half dollars a year and which can be raised in the United States. The science of chemurgy must be encouraged to find new commercial uses for farm crops and for present farm wastes. Doing these things means increased revenue for the farmers, more jobs for workmen, more opportunities for the investment of capital in business—a higher standard of living for all.

America needs in its national legislative bodies men of vision, men who will strive for the general good, rather than for partisan advantage, men who will think of all groups, plan legislation to benefit all, instead of laws that take from one in order to give to another.

We cannot establish and maintain that degree of prosperity and well-being to which we are entitled by any policy of appeasement of minorities. To give the farmer more for his wheat by charging the workman more for his bread but creates a vicious circle which inevitably leads to inflation and the ruin of all. Through a policy of increased production that leads to increased demand and consumption, we can benefit all, the farmer, the workman, business and the general public.

There are in America men capable of solving our production problem, and they are the men needed in congress. Who in your town, your country, your district would measure up to such standards?

EVERYBODY CLIMBS ABOARD NATIONAL SPEED WAGON

IT IS A SWIFT WORLD in which we are living, and there is no place in which new speed records are being established more frequently than in congress.

When I first began taking notice of what happened in Washington, it would take a whole session of congress, with days and weeks and months of talk, to spend the from five to seven hundred million dollars then needed to run the governmental machine. In that there would be the customary "pork" that might account for as much as 25 or 30 million, but to make up for it, there would be a few dollars cut out here and there. One year, I remember, they even refused to buy pocket knives for the senators.

It is different in these days of speed. To keep pace with, or exceed, the speed of those fighting planes we are sending to Europe, the senate recently passed out 10 billions—billions, not thousands or even millions—in just 80 minutes, and they did it unanimously, every senator was on the speed wagon. That little item was on top of 22 1/2 billions that had been spent during the present session before the last small item came along. And the session is probably only half over, another half year in which to establish new and greater speed records.

What that 32 1/2 billions mean to you and me and to our wives and children is just about \$250, which each one of us will have to pay.

CONSIDER YOUR MERCHANTS, TOWN ASSETS

WOMEN OF THE neighborhood patronized the food chains for their light packaged goods on which they saved a cent or two. The chains did not deliver, but the women could carry the light packages.

For the heavier staples, patronage went to the independents because they delivered. They were used as a convenience. The independents could not deliver and live on sales of staples only and in time many went out of business.

Because we could not get food deliveries, we had to sell our home and move, but selling was a problem. People did not want to buy for the same reason that we wanted to sell. Lack of delivery conveniences forced down the value of real estate.

All of that was in a large city, but exactly the same thing happens in any rural community where people use their local stores only as a convenience, but go to other centers to make their larger purchases. Local merchants cannot live as merely a convenience and when the local market place is gone, real estate values are gone and the social and cultural center goes. It pays to consider the future.

EGG PRICES

AMERICA IS SHIPPING vast quantities of eggs and egg products to England for which this country pays. England would pay cash for eggs from Canada. For the eggs we consume, we are paying about 10 cents a dozen more than the Canadian people pay for theirs. We have an egg shortage, Canada has not, but our poultry raisers are profiting and those of us who buy pay for eggs which go to England and also pay the increase on those we consume.

HEALTH

How to Get It and How to Keep It

If the reading of this article teaches you only this one lesson about your own body it may be worth more than millions of dollars to you; for of what use is money without health, or after you are dead?

The lesson is this:—"Keep your system pure and you may have health and strength to gain an enjoy happiness, success and length of years." But you may ask:—

How Can I Keep My System Pure?

That is not a hard question to answer, for Science plainly teaches you that your liver, which is larger than all of the other glands of the body combined, has the special work of purifying your blood and thereby your entire system and of keeping it pure.

How Does the Liver Purify?

Physicians tell us that the liver destroys, or renders harmless, poisons such as uric acid and other toxic waste matter that is normally formed in the tissues, and also prevents the formation of poisons in the bowels by manufacturing a greenish-yellow, bitter fluid called bile, which, between meals, is stored up in the gall-bladder, but after each meal is poured out into the intestines. The bile is purgative and indirectly antiseptic or prophylactic. In health it is your bile that makes your bowels act regularly and freely every day.

It is your bile that keeps your bowels pure, clean and free from excessive fermentation (gas) and putrefaction. Remember that putrefactive germs do not thrive where there is freedom and there can therefore be no fermentation to cause gas, nor putrefaction to produce poisons, or toxins. Also, as bile is Nature's purgative, there can be no constipation if the bile is flowing naturally and freely from the gall-bladder into the bowels after each meal.

But when the bile becomes stagnant your bowels stop acting regularly and the contents become a breeding bed for the germs of fermentation (gas) and putrefaction. These poisons, called toxins, are gradually absorbed into your blood and if the quantity be more than the liver can destroy, may circulate all over your body, poisoning, irritating or inflaming your brain and nerves, your muscles and joints, your heart, kidneys, and every vital organ of your body. Your doctor calls this "intestinal toxemia," and tells you that your system is "toxic," or, if mild, "bilious."

Functions of Gall-Bladder

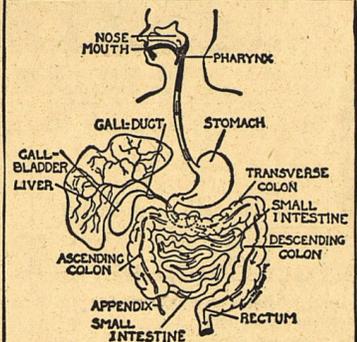

In 24 hours your liver manufactures about 3 to 4 teacupful of bile, which flows through millions of minute canals, or ducts, uniting to make a large tube which empties into the gall-bladder, as creeks and rivulets unite to form a river that flows into a lake. Your gall-bladder is a hollow muscle that serves the double purpose of a reservoir and a pump. Its functions are similar to those of the urinary bladder. About three hours after eating, when the food is passing from the stomach into the intestines, your gall-bladder should begin its contractions, thus pumping the bile into the small intestine where it is mixed with your food. Bile is also an essential digestive fluid, aiding in the digestion and absorption of fats and oils. Its absence inevitably

causes bilious indigestion, so common in hot climates.

Nature's Danger Signals

When the bile becomes stagnant in your gall-bladder and is dammed back into your liver instead of flowing freely into your bowels, you, sooner or later, begin to feel some of the following symptoms:—Your breath may become unpleasant (acid flatulency), your tongue coated, a bad taste in your mouth, your coffee (and tobacco) lose their natural flavor, your food does not agree with you; you may have heart burn, gas, or fluttering around the heart, dizziness

and bile ducts into the small intestine and thence through and out of the bowels. When you take Calotabs you know that you have taken what the doctors call a cholagogue or bile expelling medicine. It cleans you out thoroughly. Every inch of your twenty-five foot canal, including your stomach, small intestine and large intestine or colon is thoroughly cleared and washed clean and pure, and you can see and feel the bile in the stools. (Bile causes a slight burning sensation and a bright yellow or greenish yellow color.) Next morning your system feels purified and refreshed and you are feeling fine, with a hearty appetite for breakfast. Eat what you wish and go about your work, or pleasure.

Study the above drawing for a few minutes. Notice particularly how the bile flows from the liver into and out of the gall-bladder and thence into the small intestine which it enters at a point just below the stomach. A cut-off valve prevents the return of the bile from the intestine into the gall-bladder. The gall-bladder is the pump for the bile, acting like the bulb of an atomizer.

*NOTE—If the stagnation of bile is caused by the pressure of a tumor upon the gall duct, or by a permanently impacted gallstone, only a surgical operation can remove the cause. But the common cause of stagnation of bile is the accumulation of catarrhal mucus in the gall-bladder or gall-duct. This mucus may be expelled by Calotabs. The mucus is caused by engorgement of the liver, usually the result of over-indulgence in highly seasoned foods, or stimulating drinks. Calotabs help to relieve this engorgement.

Formula and Action of Calotabs

The formula of Calotabs is designed to make calomel-taking a pleasure, to obviate the necessity of following it with a dose of Epsom Salts, and thus make it just as pleasant and safe as any other purgative. Calotabs are composed of a thoroughly purified and refined calomel combined with assistants and correctives. The calomel acts as a "cholagogue" or bile-expeller; is directed to the kidneys; and antiseptic (prophylactic) to the bowels, discouraging the growth of putrefactive bacteria and gas formation. The assistants act like salts, washing the calomel out of the system, preventing its accumulation and any danger of salivation. The correctives settle the stomach and bowels, preventing nausea, sickening and griping effects. Calotabs (and water, therefore, give you the combined effects of calomel and salts without the nausea, sickening and griping effects.

When You Need Calotabs

Unwholesome foods and drinks, or over-indulgence in good foods and beverages, especially meats, alcohol, coffee, tea and tobacco, cause engorgement of the liver with stagnation of bile, and intestinal toxemia. Colds with their toxins, bring about a similar toxic condition. Hot summer weather, overwork, mental strain, irregular habits, and lack of sleep tend to make the system toxic. Whenever you need a thorough cleansing of the food canal, as in colds, constipation, bilious indigestion, sick headache, engorgement of the liver and its allied organs, the stomach and kidneys, you will find Calotabs a most dependable and effective eliminant. Millions of Calotabs have been used annually for twenty years. You need have no fear of using them as directed. Calotabs are quite economical—only 25 cents for the family package; 10 cents for the trial package, at your druggist's. (Advertisement.)

Wise Prayer
A healthy mind in a healthy body is a thing to be prayed for.

Taking Note
He listens to good purpose who takes note.—Dante.

"Driving a cross-country bus is a man-sized job," says Bus Driver **WALTER STINSON**

"That's why I go for the Self-Starter Breakfast!"

THE "Self-Starter" BREAKFAST

A big bowlful of Kellogg's Corn Flakes with some fruit and lots of milk and sugar.

It gives you **FOOD ENERGY! VITAMINS! MINERALS! PROTEINS!**

plus the famous FLAVOR of Kellogg's Corn Flakes that tastes so good it sharpens your appetite, makes you want to eat.

Copr. 1941 by Kellogg Company

YOU ARE AN INFLUENTIAL PERSON

The merchant who advertises must treat you better than the merchant who does not. He must treat you as though you were the most influential person in town.

As a matter of cold fact you are. You hold the destiny of his business in your hands. He knows it. He shows it. And you benefit by good service, by courteous treatment, by good value—and by lower prices.

They Worship Frogs

China is the home of queer customs, but one of the most curious is the Chinese custom of worshipping frogs. The headquarters of the frog-worshippers are at Chekiang, where elaborate temples are specially set aside for the use of the "holy" green frogs.

These creatures are allowed to hop around at will in the beautifully maintained temple gardens, and at the end of the day devotees carry their "gods" back to their quarters in the temples.

To the Chinese the green frog stands for wealth—no doubt they expect to be well rewarded for the hours they spend in worship. Strangely enough, the brown frog, which is more common than the green variety, is treated with scant ceremony. Millions of them are caught and eaten every year, and their legs are regarded as a great delicacy in good-class Chinese circles!

Drafting Bills

Many bills presented in the senate and the house of representatives are not written by the congressmen or the congressional committee whose names they bear, but by one or more of the 10 lawyers in the office of the legislative counsel, an organization set up more than 20 years ago for this purpose and which costs the government about \$75,000 a year.

In recent laboratory "smoking bowl" tests, Prince Albert burned **86 DEGREES COOLER** than the average of the 30 other tested—coolest of all!

You Can Buy With Confidence

Advertising has given a permanent quality to business. A man who advertises must be scrupulous in his integrity. He cannot write lies. He has to live up to all claims. This means that you, as a customer, can buy from such a man with absolute confidence. The merchants and manufacturers who advertise in this newspaper invite and warrant your confidence.

HITLER

The War God

The War-god has walked in the wheat fields And eaten the children's bread. The War-god went through the orchards, And all of the trees are dead. The War-god comes through the whole wide world

AMERICAN SHIP TORPEDOED BY NAZI

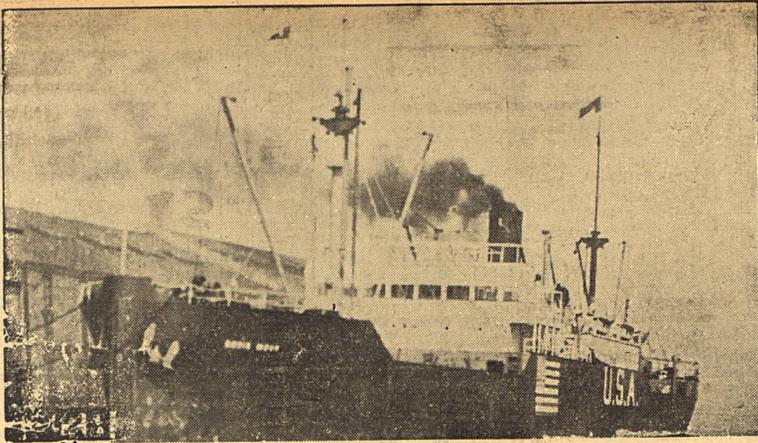

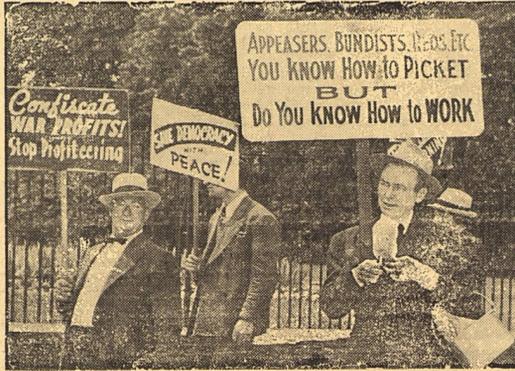

Photo shows the 4,999-ton Robin Moor, with the American flag plainly painted on her side, which was sunk in the Atlantic, the State Department announced by a Nazi torpedo.

Like a dragon that must be fed! Now how shall we speak to the War-god, And what shall our prayer be?

THE PICKETS PICKETS AND PEELS SPUDS

Washington, D. C. — Representative Luther Patrick of Alabama, with a bucket of Irish potatoes over his arm, as he established a one-man parade in front of the White House in protest against the American Peace Mobilization Marchers who have been there for weeks.

For never a prayer we know and love Will be heard by such as he! And we have no altars made for him, Nor any psalmody.

We stand in the way of the War-god, Where the little streams run red We have sworn we will kill the War-god, And will die for the word we said! We have sworn that the fields shall be green again, And give the children bread! Oh! the earth is a strong, old mother, And we look to the hour when She will give us fields of clover and grain, And good, green trees again; And fathers seeking a window light, In the old, old way of men.

Then there shall be no more War-god, For, out through the Milky Way, Goes a host of men who have fought and died To carry his name away And drop it into the Bottomless Pit, To wait for the Judgment Day! — Clipped from Heavy Stuff

off these vital supplies, Japan would at once attempt to seize Indo-China and other rich areas, and so cause a Pacific war of the first magnitude. In other words, the government was trying to localize conflict. That policy has now proven failure. A start toward an embargo on all commerce with Japan has been made, and Britain and her possessions have followed suit. From now on, a Treasury license will be needed to take any Japanese assets out of this country, or to send anything of any kind to Japan. As an AP dispatch said, "The asset 'freezing' order put the Treasury in a position to turn the economic screws on Japan. Just how hard they will be applied may depend on future events in the Far East."

It is difficult to exaggerate the importance of the economic whip we hold over Hirohito's empire. Japan buys the bulk of many vital supplies from us. On top of that, we have long been Japan's best customer. Most experts believe that if Japan loses the American market, she will be in a desperate economic position. So far as we are concerned, our sales to Japan are but a drop in the bucket compared with our total trade. We buy nothing from Japan we cannot do without. Mrs. America may have to forgo silk stockings in the future, and use substitutes such as nylon, but that can hardly be considered a great hardship.

From the purely military point of view, Japan has quite a job on her hands. The war in China seems as far from conclusion as ever, and involves a tremendous drain on Japanese resources, men as well as materials. Britain is no weaker in the Far East, and the Churchill government is taking as tough a line with Japan now as we are. In the event of actual hostilities, full naval collaboration between England and the United States will undoubtedly be immediately effected. Some think that this country should base ships at the great Singapore base now. There is little doubt that Britain would give enthusiastic permission if the right to do this

Economic Effects Of World Events

You don't have to be an authority on international power politics to figure out why the Vichy government invited Japan to occupy and "protect" French Indo-China. The Machiavellian hand of Hitler can be clearly seen in this potentially explosive move. The Vichy government is completely a pawn of the Nazis. And Hitler, who is now fighting the two-front war which he always said he would avoid, may profit materially from trouble in the Pacific. So long as the Japanese saber rattlers remain in power and pursue their imperial policy, it will be necessary to keep much of the American Navy in the Pacific, and it will also be necessary to divert much of our Army and military supplies to our Pacific possessions. It is altogether likely that what Hitler would like to see is a full-dress war between Japan and the United States, in order to keep us from giving maximum aid to Britain.

This government's action to Japan's move into Indo-China was precisely what was expected. We have long been criticized for permitting oil exports to the Nipponese, and it is an ironical fact that while we have been giving our moral support and some material support to China, we have also been supplying Japan with most of the gasoline that has made the war against China possible. President Roosevelt, queried at a press conference, said frankly that the government had permitted oil exports in the belief that if we shut

were requested.

There is also talk to the effect that Hitler may persuade Japan to attack Asiatic Russia. That too would be a tough assignment. Russia is powerful in the East, and the Japanese Army isn't regarded too highly by the military experts. However, those who know the Japanese character think it very

possible that the Nipponese war lords may have finally decided to shoot the works, even if that eventually involved national suicide, and the reduction of Japan to the status of a third-class power.

Eggs have fat of a quality which supplies quick energy, but fat that is not fattening.
