

Iran—Battle Front for Four Days

The Iranian government bowed to superior force after four days of token fighting against British and Russian invaders. At left is shown Tschalus, Iran, a beautiful industrial city on the highway from Teheran to the Caspian sea. Picture at right shows Neidan I Naftum, Iran, richest oil pool in the world, where mysterious "German tourists" prompted an Anglo-Russian invasion.—Soundphotos.

Get Going, Boys and Girls, Here She Comes!

This sequence of pictures is said to be among the finest ever made of a tornado. They were made by Mrs. Omar Shields as the writhing funnel-shaped cloud neared her home at Lincolnville, Kan. The first photo, taken from a distance of approximately three miles, shows the dark, twisting menace as it first struck the ground. The second picture (center) taken when the twister was but a mile away, shows the tornado at the height of its fury as it rushed towards Lincolnville. The third picture (right) was taken after the gale had leveled Lincolnville. The tornado is seen swerving from its path as it began to disintegrate. An instant after first picture was made the twister ripped through the Highland rural school and demolished it.

Start of 30-Mile Bike Marathon

A big field takes off in the 30-mile marathon of the National Amateur Bicycle Championships at Pasadena, Calif. The race saw Marvin Thompson (sixth from the right) of Chicago, finish second, after winning a three-mile sprint. Thompson won the senior crown with a total of 17 points. Yes, bicycle riding seems to be coming back into its own these strenuous days.

Food for Singapore's Defenders

Britain must feed the strong force she has poured into the strategic port of Singapore, and here we see frozen pork from Australia being loaded onto railway trucks. The thousands of soldiers entrenched here are prepared to defend the city from possible attack by Japanese operating out of bases in Indo-China.

Both No. 1 Soldiers

Latest picture of a recent meeting of America's No. 1 soldier, Gen. George Marshall (left), chief of staff of the U. S. army, chatting with the No. 1 soldier of Great Britain, Sir John Dill.

Real 'Blackout'

Girls of the first aid detachment of the RCA Co., Camden, N. J., blindfold each other in preparation for practice air raid drill during "blackout" held amid fire ruins.

Star Dust

By VIRGINIA VALE
(Released by Western Newspaper Union.)

REMEMBER when Colleen Moore was trooping about the country with her dolls' house? Well, if present plans go through Charles Boyer may soon be engaged in a slightly similar journey. He will make personal appearances with the openings in various cities of "Hold Back the Dawn," and will also display his model of the city of Paris in theater lobbies and department stores. Valued at more than \$50,000, the miniature city shows Paris as it was before the German occupation. Part of the proceeds of the tour will go to war relief organizations. When traveling, the city is housed in eight crates; setting it up keeps four men occupied for two days.

Apparently everybody who saw Kathryn Grayson in that last Hardy film wanted to know what her next picture would be. Letters poured into the Metro studios, and out went the word that she will appear in "The Vanishing Virginian." She's but recently returned from her honeymoon—in private life she's now Mrs. John Shelton—and will be back before the cameras soon.

It's rather a shock to realize that Hedy Lamarr has been resting for nearly eight months—hasn't worked since "Ziegfeld Girl." She's beginning a new picture now, "H. M.

HEDY LAMARR

Pulham, Esq." based on the Marquand novel—it's difficult to see how either of the two leading feminine roles can be twisted around to fit her, but stranger things are happening in Hollywood all the time.

Maybe you'll be crazy about the latest Walt Disney, "The Reluctant Dragon." But a lot of us wish that Mr. Disney would abandon these long features and stick to good short ones. Both this one and "Fantasia" could be cut into several good shorts.

In "Sullivan's Travels" you'll see a Veronica Lake who'll startle you—a boy hobo, apparently, in turtle-necked sweater, old cap, blue denim work trousers and a coat that's too large for her. Her daughter's birth interrupted her picture making for a while, but Paramount went right on making plans for her; she'll be starred next in "This Gun for Hire," in which she'll portray a magician who becomes involved with a munitions magnate in a mysterious murder. Which means that she'll have to take lessons in the art of magic.

Lewis Stone is taking time out from the "Judge Hardy" role, between the family chronicles, to play an army colonel in "Steel Cavalry," the new Wallace Beery picture. But he'll have to be careful not to do anything the Judge wouldn't do, or the fans will protest.

Charles Laughton (have you heard the new radio program, "Three Ring Time," starring him and Milton Berle?) would have been an inn keeper if Laughton, Sr., had had his way. He placed Charles at Claridge's, in London, to learn the hotel business. And his son learned one valuable thing—how to impress a haughty waiter. "Just order water and a poached egg on toast," says he. Seems that it gets them down every time, especially if they've been urging champagne on you.

The children who attend New York city's public schools ought to find at least some of their lessons pretty enjoyable. They'll be shown Warner Brothers' national defense and historical shorts as part of the curriculum.

ODDS AND ENDS—Raymond Gram Swing has just bought a 250 acre farm half-way up Putney mountain in Vermont. . . . As a youngster Bob Hope used to do imitations of Charlie Chaplin at church socials. . . . Paramount's "Air Raid" is a tale of adventure, love and murder during a practice blackout in an American city. . . . Richard Whorf, who replaced John Garfield in Warner's "Bridges Built at Night," has been replaced by Craig Stevens. . . . Andy Devine will join radio's Al Pearce and His Gang October 3rd. . . . Columbia has given a new contract to Jinx Falkenburg, known as America's Number One model—perhaps you saw her in "Two Latins."

PATTERNS SEWING CIRCLE

Sleep Repairs
Sleep knits up the ravelled sleeve of care.—Shakespeare.

Kremlin a Fortress

The Kremlin in Moscow is the most concentrated seat of government in the world, says Collier's. Its 60-odd buildings, built to contain the homes as well as the offices of Russia's most important executives within the small space of 90 acres, is surrounded by a 50-foot brick wall with 19 great guard towers. To avoid sabotage, all visitors have been barred from this fortress since 1934.

THE CIGARETTE OF COSTLIER TOBACCOS

Washington, D. C.

POLITICAL DYNAMITE

There was real political dynamite behind that letter President Roosevelt sent the Young Democrats convention in Louisville blasting Democratic isolationists as "obstructionists who are in the wrong party."

The scorching attack was a tip-off on undercover plans which may make next year's congressional elections the hottest in years.

Nothing has been said about it, but certain administration and Republican leaders have discussed uniting Democratic and Republican forces to oppose all congressional isolationists regardless of party label.

Under the proposed plan, Administration-G.O.P. backing would be thrown behind incumbent anti-isolationist congressmen whether they are Democrats or Republicans. Furthermore strong coalition candidates would be entered against isolationist congressmen seeking reelection.

One of the most significant things about the plan is that it has the hearty approval of Wendell Willkie.

Discussing it with a group of friends the G.O.P. standard bearer declared, "The people should have the opportunity in every senatorial and congressional election next year for a clear-cut expression of opinion on this all-important issue of foreign policy. This referendum should not be cluttered up with phony or inconsequential issues."

"In districts represented by isolationists we should put the strongest candidate in the field we can get, regardless of his party label or economic views. I'd like to see young men and women brought into this campaign. Let's get away from the old political hacks. Let's bring youth into this fight. It's theirs primarily and they should be in the lead in it."

"Personally, I am prepared to support anti-isolationist candidates regardless of their party affiliation or economic views. If they are right on the foreign issue, then I will be for them and will take the stump for them."

SMASHED PLANES

President Roosevelt didn't announce it, but there were two big reasons why Pan American Airways is taking over the ferrying of airplanes across the South Atlantic up the interior of Africa to the Near East.

One reason has since been published, the need of American warplanes to help the British in Iran and thus protect Russian oil fields in the Caucasus.

The other has not been published—namely that the British had been wrecking an extraordinarily large number of brand new planes in flying them across Africa.

As a matter of cold, unpleasant fact, the British have been losing about 20 per cent of the planes we have been giving them.

This was partly because the British did not use their own pilots, but Czech, French, Poles and Dutch. These aviators, sometimes too full of sloe gin, and sometimes not too well trained in the tough job of handling fast war planes, have succeeded in scattering the wrecks over the heart of Africa.

Furthermore, central Africa is one of the most uncharted and difficult flying areas in the world. The hop across the Atlantic has not caused the casualties. It is the remainder of the flight, from Freetown on the west African coast, up to Egypt.

This is why Roosevelt finally called upon Pan American Airways to take over the African hop. Its pilots have done a brilliant job of pioneering the jungles of the Amazon and the peaks of the Andes. And Roosevelt figured that if anyone could fly over Africa, Pan American could do it.

AMERICA'S ANSWER

The OPM is just releasing for wide distribution its first post promoting its drive for greater production.

Entitled "America's Answer—Production!" it is a masterpiece of power and drama. It pictures a brawny arm twisting a monkey wrench fastened to the letter "O"—shaped like a machine nut—in the word "production."

The artist is Jean Karlu, as free a Frenchman as ever worked with one arm. He lost his right arm fighting for democracy in the first World war and, until the fall of France, was doing an expert left-handed job painting posters for the French government.

Recently arrived in this country, Karlu wanted to continue his fight for a free France. He submitted his poster idea in sketch form and OPM officials snapped it up.

MERRY-GO-ROUND

Taking a cue from the German Stuka dive bombers, U. S. army engineers have included a powerful siren in the midjet M3 tanks. Its shrill shriek freezes green troops, and the army is counting on its scare power, at a 70-mile an hour speed, to make advance breaks through enemy lines.

Phil Baker in his new Broadway show said he will feature a song on how to have a good time in a parked car. The song is titled "Thanks for a lovely evening, Mr. Ickes."

NASHVILLE, TENN.—This Bluegrass section of Tennessee is heavily endowed with coaches, scouts and other football veterans who from a central position cover almost the entire map. And two of the first questions they ask are—"Who is going to beat Minnesota this fall?" "Who is going to beat Fordham?"

Most of these experts have been working around with various football summer schools of instruction so they are in close touch with a major portion of the football map.

Football interest is no longer sectional. It is widespread. It covers the country.

"From all the early gossip I could pick up," one leading coach said,

JIM CROWLEY

"my guess would be that Minnesota and Fordham—the Gopher and the Ram—would be the two hardest to beat. Both get rough early tests against Washington and S.M.U., both exceptionally strong, but hardly strong enough to drive back the two combinations Bernie Bierman and Jim Crowley will be able to wheel into action. They have the backs and the lines, plus the needed reserves. They have speed to give away and even more power."

"What about Notre Dame?" I asked.

"Extremely good, especially in the backfield," my adviser said.

Red Sanders, Harry Mehre and a flock of other coaches have been working around in these summer schools with many other able professors from other points east and west, north and south.

What They Tell You

Here are a few more items they bring up.

"You can watch Frank Thomas and Alabama in the South. Not far from the front, anyway. You can bank on Mississippi with Hapes and Hovious to be dangerous—you can rate Vanderbilt well above last year—and you can enter Georgia with some of the best material in the South, especially in the backfield."

"The Southwestern scramble will be one of the hottest in years with Texas exceptionally good, S.M.U. close and several others above last year's strength. This will hardly include Texas A. and M. which has lost almost its entire 1940 first-stringers. If I had to name a leader now I'd make it Texas."

"Outside of Minnesota in the Midwest you can keep an eye on Notre Dame and Northwestern, with improvement in Wisconsin, Indiana and Ohio State. Michigan has lost too many stars from her great outfit of last fall."

"Tennessee loses many stars, plus Coach Bob Neyland. Tulane and Duke will be good. Both Nebraska and Missouri lose important cogs."

From the East

"What did you pick up from the eastern scouts outside of Fordham's Rams?" I asked.

"Navy should come next. Swede Larson has a fine squad. Cornell won't be any flop although Snaveley has lost most of his 1940 starters. Colgate will be better. So will Columbia. I didn't hear so much about Harvard and Princeton, but I know Harvard has been hard hit by air force and army losses. But they tell me Yale may be one of the surprises. Spike Nelson has a well-drilled squad and he will also call on the T-formation with some fast, hardhitting fellows to carry it through. Don't rate Yale any push-over this time."

"Army and Dartmouth are doubtful. Georgetown will be very good again, but Boston college loses its coaching staff and such people as O'Rourke, Gladchuck and Kerr, and can't be as strong as B.C. was last fall. Pittsburgh is another guess."

"My ranking would be Fordham, Navy, and then a pretty general sort of mixup, which is good for general football interest."

"In the Far West they rate Stanford on top again, with Washington a close second."

It was the unanimous opinion of the group that 1941 would pile up a new record attendance. They point to the crowds the Yankees and Dodgers have drawn in baseball and football doesn't demand any such winning consistency.

You can figure in advance how many highly excited spectators Notre Dame will draw at every start—especially against Army, Navy, Southern California.

"You'll see more sellouts this fall than you ever saw before," one veteran coach said. "I mean all over the map"

WE, THE JOHN DOES, ENTITLED TO KNOW

IN LESS THAN 18 months, the congress of the United States, our representatives at Washington, has obligated John Doe, Mrs. John Doe, John Doe Jr., Sally Doe and Baby Doe for \$512 each, the whole Doe family for \$2,560.

All of us John Does, and our families, realize the need of being prepared to defend our nation, our institutions, our way of life, our homes, but as those who must pay for that defense, we are entitled to know what it is costing and what we are buying.

Appropriations made by congress for 18 months, up to August 1 of this year, have amounted to \$67,559,385,510. During that 18-month period, congress has obligated each man, woman and child, including the babies, for \$512. Each family of five is obligated for \$2,560. And that is not the end, for additional appropriations of from 6 to 10 billion more will probably be made before the end of December.

We John Does do not object to digging down in our jeans to pay for whatever may be necessary to defend this land we love, but as the fellows who must pay the bills, we feel we have a right to know what we need and to receive an accounting as to what we are actually getting for these sums for which we have been obligated.

Certainly someone must know how many really serviceable planes we had when the agitation started and can give an honest statement of what we have now. We should know how many light, medium and heavy tanks we had when it started and how many we have now. We are entitled to more than a statement of an 800 per cent increase in heavy tanks because that is meaningless when we do not know how many, if any, we started with.

With an army of one and a half million civilian employees, it should be possible to keep books, to take an inventory, to know what we have, what we need and what we are getting. If those who represent us at Washington do not know these things, they are spending our money like drunken sailors and when the opportunity offers a year from now, we should carefully pick as representatives others who can be depended upon to obtain the facts and give them to us fellows who must pay the bills.

It is our money that is being spent so lavishly and we are entitled to know what we are buying, and why.

LIGHTNING RODS

WAY BACK when I was a boy, the wagon of the lightning rod erector was a familiar sight on the country highways. He disappeared with the passing of the last century. It is a safe bet that the farm home or barn ornamented with lightning rods was erected before 1900. It was a profitable racket for a number of years.

GETS IMPORTANT POST

PAUL APPLEBY worked for a couple of years in the print shop of a country newspaper in Missouri. With that experience, he went to Montana and for a few months operated a weekly newspaper there. Then he went to North Dakota and another paper for another few months, and then on to Minnesota. In Des Moines, Iowa, as a member of a debating society, he became acquainted with Vice President Wallace and that acquaintance resulted in his appointment as undersecretary of agriculture. Now Paul Appleby is in England investigating the food needs of the British people for the American government. You might term it "from 'devil' to ambassador."

GOVERNMENT BONDS A GOOD BUY

WHEN I was a small boy in Iowa, old General Weaver of that state, then the leader of the Greenback party, was a frequent visitor at father's home. His demand was for printing press money. In recent years, we have come close to General Weaver's idea. We have sold the banks 27 billion dollars worth of government bonds and the banks have issued the printing press money. More money means more inflation. To prevent an increase in the currency, the government is selling its nontransferable bonds direct to the public. If the public does not buy voluntarily, it is possible that congress may conscript a portion of each person's income as a means of disposing of the bonds. They are a good buy and their purchase by the public will go far toward preventing that greatly-to-be-feared inflation. We have now more currency than is good for us.

MAIN STREET

MORE THAN three-fourths of all the counties in the United States contain no town of more than 10,000 people. A fraction over 50 per cent of the members of the house of representatives come from districts in which there is no town of over 5,000 people. This is an indication of the part rural America has in determining national policies and legislation. People of the towns and farms can, if they wish, dictate what we, as a nation, shall do. Main street has greater influence than Broadway.

Here's a Solution to Your Apron Problem

APRON problem!! It is solved here with two exciting new motifs in the Accordion Flare and the Water Lily. Ingenious gores make the fetching style a lower left; an applique cactus is on the waistband, and rickrack trims. The softly flared apron at top is applied with huge water lilies on skirt edge and band, and another lily forms a handy pocket.

Complete patterns for the two aprons come as 23364, 15 cents. They are grand for gifts or for party prizes. For these pleasing patterns send your order to:

AUNT MARTHA Kansas City, Mo. Box 166-W Enclose 15 cents for each pattern desired. Pattern No. Name Address

THE RECORD... Facts That Concern You

No. 30 of a Series

A BAD ONE DOES TURN UP ONCE IN A WHILE!

Good weather and a bumper crop! Even then one finds a poor stalk once in a while.

The retailing of beer is something like that. Most beer retailers operate respectable law-abiding establishments. Occasionally one finds an exception—a man who tries to beat the law or who permits anti-social conditions.

The beer industry wants this type of undesirable retailer stamped out. Your cooperation will help us in our clean-up efforts.

The beer industry brings important

benefits to the community. Here in Texas, beer provides employment for 31,165 persons, supports an annual payroll of \$22,076,182 and contributed \$2,273,968.64 last year in state taxes.

Texas, too, has an important stake in the beer industry's purchases—for materials, equipment, and services—from over 100 other industries.

You can help us protect these benefits in two ways. First—patronize only the reputable places where beer is sold. Second—report to the proper authorities any law violation you may observe.

KERRICK NEWS
(By Mabel Murdock)

Kay Dunlap has accepted a position with the Stewart Motor Company in Dalhart. Mr. and Mrs. Dunlap will be at home in Dalhart.

Those in Stratford Saturday were: Mr. and Mrs. R. P. Crabtree and family, Mr. and Mrs. Earl Sullet and Dale, Mr. and Mrs. O. H. Ingham and Jimmy, Mr. and Mrs. H. E. Stevens and sons, Lyall Murdock and Burt.

Mr. and Mrs. Newton Crabtree, Jackie Ray and Ethel Dumas, were visiting relatives here over the week end.

Jesse and Tom James left Sunday for Fort Worth where they will attend to business.

Rev. J. B. Thompson, Stratford, preached at the school house Sunday afternoon.

Those in Amarillo Monday were: Mr. and Mrs. Frank James and Norma Kay, Mrs. Roger Crabtree, Miss Mabel Murdock and Messrs. Roy Allen, Homer Mathews, Newton S. James, Joe Pete James.

Mr. and Mrs. Orval McDaniel and Ina were in Amarillo Monday. Ina enrolled in a beauty school there.

Miss Mary Taylor and Lee Johnson, Jr., Elgin Stevens and Elmer Pemberton have enrolled in Stratford high school. Lee Jr., Elgin and Elmer are driving to school.

Mrs. Jesse James and children visited Mrs. Mettie I. James in Stratford Sunday. Miss Lois James returned with them.

Mr. and Mrs. Joe Taylor and Mary returned Sunday afternoon from a visit in Trenton, Tennessee. Newton S. James was a visitor in Dalhart Tuesday.

Mr. and Mrs. Lee Johnson and children were in Amarillo Saturday.

Mr. and Mrs. Dickie Nobles and children were in Dalhart Friday. Newton Crabtree was in Stratford Monday.

Miss Jere Lancaster And Joe D. Harrison Married August 31

Miss Jere Lancaster, daughter of Mr. and Mrs. Jerry B. Lancaster, became the bride of Joe D. Harrison, son of Mrs. A. L. Harrison, Texhoma, August 31.

The double ring ceremony was read in the home of the brides maternal grandparents, Mr. and Mrs. J. R. Nichols in the presence of close relatives.

Mrs. Harrison graduated from the Guymon high school and attended Centenary College at Shreveport, La., where she pledged Alpha Zeta Tau Sorority, returning to Panhandle A. & M. college to finish her Junior year.

Invitation Golf Tournament Opens Sunday Morning

DALHART, Sept. 10—The two-day annual Dalhart Country Club Open Golf tournament will tee off Sunday morning (Sept. 14) at 8:00 and Tournament Chairman Elmer Elliott confidently predicts more than 100 entries from Kansas, Oklahoma, New Mexico and the Texas Panhandle.

Prizes will be offered for medalist, for the victor in the long-driving contest Sunday afternoon and for the winner, runner-up and consolation winner in each flight.

Competition will be 18 holes match play, except in the finals of the championship flight when it will be 27 holes of medal play. Players can qualify on the Dalhart course any time up to 8 a.m. Sunday; they can send their scores to Elliott, or they can bring them.

Spindle Top STARTED IT!

Forty years ago an oil gusher roared in on a low hill south of Beaumont to open a new industrial era for Texas.

That discovery at Spindletop started our modern Texas petroleum industry and made Texas the nation's leading oil state.

In the forty years since Spindletop blew in, nearly 200,000 wells have been drilled throughout Texas. Over 500 separate fields are now producing in all parts of the State. Today Texas supplies over one-third of the Nation's oil and has over half of its petroleum reserves.

Our industry, by refining almost all of this oil in Texas, has created our largest manufacturing enterprise. By furnishing cheap fuel it has laid the foundation for many other Texas industries.

From a handful of Texans forty years ago, this industry has grown until now, directly or indirectly, it supports almost one million of our people. Its expenditures reach into every section of the State and benefit every Texan.

The discovery of America's first gusher oil field at Spindletop has turned out to be one of the most important events in the history of our state.

Today all of Texas salutes Spindletop!

On October 9, 10 and 11, during its annual convention at Beaumont, the Texas-Mid-Continent Oil & Gas Association will dedicate a monument to Spindletop.

Inscribed in ageless Texas granite will be the story of oil.

This is more than a monument to petroleum. It is a tribute to Texas enterprise and initiative which in forty years have built a great industry in our State—an industry in which you and every other Texan share.

This advertisement paid for by various units of the industry and sponsored by

TEXAS MID-CONTINENT OIL & GAS ASSOCIATION

WEEKLY NEWS ANALYSIS By Edward C. Wayne

Roosevelt Asserts Positive Stand Against Appeasement as Lindbergh Sees Trouble With Great Britain; Diplomats Try Their Hand in Far East

EDITOR'S NOTE—When opinions are expressed in these columns, they are those of the news analyst and not necessarily of this newspaper. (Released by Western Newspaper Union.)

PEOPLE: And Realization

President Roosevelt, realizing that he was faced with a determined anti-intervention bloc, both in press and congress, which was taking as its theme "pooh-pooh, there's no danger," had been making strides in his effort to bring about in the American public a realization of what he considered to be the real seriousness of the international situation. Coupled with this was an effort he was making to have Americans also make a more realistic evaluation of their own blessings. In recent utterances, particularly in one from Hyde Park, he quoted at length from a personal letter to him

finding themselves at least technical enemies of the British. Lindbergh's speech was headlined in many newspapers as "Lindbergh Says British May Fight U. S." and given prominent position.

At about the same time Representative Cox of Georgia, bitterly denouncing the presidential shakeup of the defense production group, declared that the White House was letting the "left-wingers" take control of industry, and that the new alignment would "tie the hands" of William S. Knudsen, and "kick Stettinius out of the picture."

Yet on the same day Mr. Knudsen himself was quoted as saying: "I feel that the new arrangement will achieve splendid results in increasing the rate of production."

It was a succession of incidents like these which enlivened the American war effort at the same time confusing newspaper readers as to the thought of leaders on controversial subjects of how the effort should be conducted.

VICHY: In Limelight

The shooting of Pierre Laval and Marcel Deat by Paul Collette, a Norman youthful assassin who had to join the French Legion to fight the Soviet in order to get close to the Nazi collaborator with his pistol, turned eyes suddenly toward Vichy, and the double assassination attempt seemed confirmatory of previous reports of serious unrest.

At almost the same time that stories were coming across the wires telling of the sudden arousal of sympathy for Collette, a New York newspaper writer uncovered a story about the operations in the United States of a clique of Vichy agents, working under the direct control of Gaston Henry-Haye, French ambassador to the United States.

It was a romantic yarn, telling how advance plans of General De Gaulle's ill-fated expedition against

SEES PRESIDENT

Ambassador Nomura recently delivered a personal message to President Roosevelt from Prince Konoye, Japanese premier. This started rumors of "peace" negotiations for the Pacific.

from an unnamed mother, in which she said, in part:

"It is terrifying, coming from Europe, to realize that many of these people (in America) in their unruffled existence, seem to have no idea of what hangs over their heads today.

"They put themselves in a posture where they cannot squawk about what they don't see.

"They go about their 'daily dozens' ignoring the threatening heel of human beings who want to destroy the freedom, the normal life to which they have been accustomed.

"In Europe there is not a nation of those who have suffered abuse whose people are not aware of what America stands for. They pray daily that America will save itself by helping greatly to defeat Hitlerism."

The President, echoing her sentiments, said:

"That is a thought we all feel. We want to keep America so that in all the years to come, long after all of us here are gone, someone will be able to meet as we are doing, as we hope to meet next year."

And, later, in a message particularly to labor, along the line of urging America to consider its own blessings, he said:

"Only in a democracy could there be a day set aside for millions of workers, free men and women in a free country.

"Only in a democracy could they spend the day in free worship, enjoying the right to speak their minds, to read uncensored news and to hear uncensored radio programs.

"Today we in America are faced with the great task of preserving that democracy and we, too, will offer our utmost in labor and sacrifice just as our fathers and our fathers' fathers did." His Labor day talk declared unequivocally for the defeat of Hitlerism and his refusal to become "a Benedict Arnold" by accepting appeasement and "crumbs" from Hitler's "peace" table.

LINDBERGH: Sees New Menace

Charles A. Lindbergh, chief administration critic, enlivened the discussion of extended aid to Britain and Russia by turning on England, and warning the American people in an address that if we banked too much on the British, we might find ourselves in the same company with Finland and France.

Pointing out that these two nations, like this country, started out in their participation of the war as allies of Britain, and now were

"MIDDLE-AGE" WOMEN [38-52] yrs. old HEED THIS ADVICE!! Thousands of women are helped to go smiling thru distress peculiar to women—caused by this period in life—with Lydia E. Pinkham's Vegetable Compound famous for over 60 years. Pinkham's Compound—made especially for women—has helped thousands to relieve such weak, nervous feelings due to this functional disturbance. Try It!

Strong Gentleness The power of gentleness is irresistible.

THE TRUTH SIMPLY TOLD

These physicians, too, approve every word of advertising you read, the objective of which is only to recommend Doan's Pills as a good diuretic treatment for disorder of the kidney function and for relief of the pain and worry it causes. If more people were aware of how the kidneys must constantly remove waste that cannot stay in the blood without injury to health, there would be better understanding of why the whole body suffers when kidneys lag, and diuretic medication would be more often employed. Burning, scanty or too frequent urination sometimes warn of disturbed kidney functions. You may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel weak, nervous, all played out. Use Doan's Pills. It is better to rely on a medicine that has won world-wide acclaim than on something less favorably known. Ask your neighbor!

DOANS PILLS

HIGHLIGHTS . . . in the news

REHOBOTH.—This Delaware summer resort town had a blackout of several hours and an airplane caused it. The plane, carrying a man and woman, crashed to a forced landing through electric power lines and burst into flames. Although the pair escaped instant death, the town was thrown into darkness for several hours. There was annoyance but no casualties.

NEW YORK.—Having confessed 10 murders of women, Jarvis R. Catoe, 36, was held in jail as a score or more cities on the eastern seaboard asked detectives to question him about still other unsolved murders of women.

WASHINGTON.—A further cue is forecast in oil supplies from producers to dealers during the remainder of September.

Miss Caroline Hunter of Berkeley, California arrived today for an extended visit with her parents, Mr. and Mrs. L. P. Hunter.

Farmers Begin Making Wheat Loans

Taking advantage of the higher loan rates made possible by recent legislation, Texas wheat farmers have received \$6,635,821 in loans, P. C. Colgin, commodity loan specialist of the state AAA, has announced.

To secure 10,772 regular warehouse and 912 Federal Crop Insurance loans, 6,894,224 bushels of wheat were used as collateral, Colgin said. Only four "excess" loans have been made on 1,095 bushels.

The small number of farm storage loans, confined to the north and northwest area of the state, is attributed to lateness of the 1941 harvest and the fact that grain must remain on the farm 30 days prior to being used as loan collateral, Colgin said in pointing out only 10 had been made to date. The number is expected to increase rapidly during the next few weeks, he continued.

Wheat loans will be taken until December 31, 1941 and will mature on demand on April 30, 1942. The notes bear 3 percent interest.

Regular loans are made to co-operators who plant within farm wheat allotments. "FCI" loans are made on certificates of indemnity issued by the Federal Crop Insurance Corporation. Loans on "excess" wheat are made at 60 percent of the loan rate made to co-operators, the AAA official said.

Warehouse and farm storage loans are available on "excess" wheat and the total amount produced by co-operators, but only warehouse loans may be made on certificates of indemnity.

According to AAA regulations, separate loans are being made and identified respectively as "regular",

"excess" and "FCI" loans. Regular loans are made either within the Commodity Credit Corporation directly or through agencies ap-

proved by the Corporation, while "excess" and "FCI" loans must be made with the Corporation, he explained.

IHC W-9

A FOUR-PLOW TRACTOR High Compression Optional

The W-9 distillate-gasoline McCormick-Deering Tractor is designed especially for wheat farmers whose acreage and operations require a big, husky standard tractor in the 4-plow size.

If you are farming a large acreage and require a big tractor in order to get through your seasonal operations on schedule, you will be interested in the McCormick-Deering W-9. This 4-plow tractor was designed to plow 15 to 20 acres a day under most conditions and meet other comparable drawbar and belt requirements with a comfortable margin of reserve power. This is the tractor for the man whose operations call for the use of large-capacity implements but whose total hours of operation in the year would not justify going to Diesel power.

The practical result is high operating efficiency, with reduced fuel consumption and engine wear.
