DESCRIPTION OF JESUS.

The following is a translation of a dispatch written by Publius Lentulus, president of Judea, to the Roman senate, concerning the Redeemer, the original of which is preserved in the Vatican in Rome:

"There hath appeared in these our days, and is at present living amongst us in Judea, a man of singular virtue, whom they call Jesus Christ. Of the Jews he is accepted and believed to be a great prophet of truth, but his own disciples adore him as being descended from immortal God. He raiseth the dead to life, and health all manner of human maladies and diseases by the word of touch. In stature he is tall and of perfect form; his countenance and air sweet and reverent, such as the beholders may both love and fear. His hair is of a color that would be difficult to describe—something resembling the color of the ripe chestnut—from the crown of his ears, whence downward it is more of a golden hue, and falls waving and curling into ringlets, and spreads itself into graceful profusion on his shoulders. In the center, from forehead to the crown of his head, his hair is parted by a seam, or partition, and falls over each ear after the manner of the Nazarenes. His forehead is lofty and pale, and his face without a spot or wrinkle—beautiful, with a slight tinge of comely complexion. His nose and mouth are formed with the most admirable sym-

metry. His beard is thick and of the color of his hair—not of any great length, and dividing in the center at the chin takes nearly the form of a fork. His look, innocent and mature; his eyes, blue, brilliant and serenely beautiful. In reproving he is awful and majestic; in admonishing courteous, sweet, friendly and persuasive; speaking or acting he is grave temperate, modest and wise. It cannot be remembered that any have ever seen him laugh, but many have seen him weep. In a word, he is a man who, by his exceeding great beauty and his divine preferences, surpasses the children of men."—Universal Truth, Chicago.

COTTON ACREAGE.

A report of the condition of affairs among the farmers of the cotton belt of the United States, and of the prospects for the coming season, has been prepared by Knott & Closson, bankers and brokers, of Burlington, Vt. The material for the report was gathered by sending letters direct to the farmers in nine cotton growing states. The report compiled from these letters says: "The states of Alabama, Georgia and Arkansas report a uniformly reduced acreage of 20.3 per cent; Louisiana, 22.3 per cent; Texas and Indian Territory, 19.7 per cent; Mississippi, Tennessee, 9.3 per cent; all others, 14 per cent; a total average reduction of 17.2 per cent in States whose acreage last season amounted to 22,244,144, with a production of 11,098,000 bales. In the reports from the state of Texas 75 per cent complained of the increasing ravages of the boll weevil, especially in the counties bordering on the Rio Grande, a pest that, unless some remedy is soon found, will spread into other states. Georgia and Alabama reported the greatest decrease in the sale and use of fertilizers, running in most instances from 25 per cent to 75 per cent less than last year. In all these reports a general and growing disposition to diversify crops and the turning of the planters' attention to stock raising was manifest."

A letter from Dawson, in the Klondike, dated April 8 says: "The Yukon Sun estimates the total output of that region for the winter of 1898-99 at \$20,000,000. It is doubtful if this estimate is up to the mark, which may reach twice that amount."

ALL WOMEN AGREE.

A druggist in Macou, Ga., says: "I have sold a large quantity of Mother's Friend, and have never known an instance where it has failed to produce the good results claimed for it. All women agree that it makes labor shorter and less painful."

Mother's Friend

is not a chance remedy. Its good effects are readily experienced by all experienced mothers who use it. Years ago it was the only remedy known for the relief of the sufferer during the earlier months of pregnancy. Morning sickness and nervousness are readily removed, and the labor is relieved of the strained muscles, preventing those excruciating pains which attend the delivery. It gives great tranquillity to the mother, and her recovery is sure and rapid. Danger from falling and bruising is thereby avoided with complete safety. Made by Druggist in Macou, Ga.

DOTS FROM DEMOCRAT.

Editor Eagle: Here I am again with nothing of importance to write the glorious Old Bird.

It is true we have had some rain in this community of late, so we no longer have to soak our hogs over night so they will hold sleep, but I think the man was about right who said "Nobody but fool Populists and newcomers ever prophesied for rain in Mills county," but at this writing (Monday evening) it looks like down about Goldthwaite the bottom is falling out, and I hope it is, and will move on up this way and give us what the old negro in Virginia prayed for—a regular gully washer and trash mover.

I still have nothing in the matrimonial line to report.

There have been several sociables in this neighborhood since I last wrote and by people who would think they were climbing the ladder of fame if they could see their names in print, but they do not take the Eagle and I had rather prove a Benedict Arnold than be guilty of giving a man a boost in a paper like the Eagle, who, from pure cussedness, close fistness and shire stinginess, will not pay as much as one dollar a year to help support a paper that has been the means of reclaiming Mills county from the slums and spoliemen after four years of misrule, and placed it in the hands of a God fearing and liberty loving people—the Democrats. Yes, Mr. Editor, the man who would not have pockets in his pants for fear he would spend a dime, that drink the whey of

OBITUARY.

"The good die young" is an aphorism that was verified in one particular instance on Friday morning, the 12th inst., a little after 2 o'clock, when little Lois Bowden departed this life.

She was a beautiful little pet, with affectionate and winning ways. The boarders loved her. Traveling men who love little children loved her. The hearts of friends and relatives go out in sympathy for the bereaved parents. It is hard to give her up, but our loss is heaven's gain.

She was taken sick on last Sunday night. She ate a hearty dinner in the country, where they were visiting, and that was the last she ate upon this earth. Inflammation of the bowels or flux caused the severe illness which took her from us.

Lapsing little one, just past two years old. Thy life with us gave pleasure, but God took to unfold. Your precious life where the streets of the city are lined with gold. A FRIEND.

THE ARKANSAS FARMER.

The Little Rock Republican gives the following description of how an Arkansas farmer of today lives. There are other southern farmers in the same boat:

"He gets up in the morning and puts on a pair of socks made in New York, shoes made in Boston, pants made in Ohio, and then slips a pair of Connellcut suspenders over his shoulders. He dips his water from a Missouri bucket with a Chicago dipper and puts it in an Illinois pail, washes his Texas face, using a cake of St. Louis soap in the operation. He dries his face on a Rhode Island towel and reaches his hair with a Vermont comb. He then drinks Cuban coffee from an Indiana cup and saucer sweetened with Louisiana sugar and stirred with a New York spoon. His knife, fork and plate were made in the north, his table cloth ditto. He eats a piece of Chicago ham, fried in Kansas lard, sops his St. Louis biscuit, seasons with Boston sugar and Michigan salt into Louisiana molasses. He wipes his whiskers on a Vermont napkin, shoves back his Michigan chair and gets up from a table from the same state. His meal was cooked on a St. Louis stove with wood cut by a St. Louis ax and hauled by an Indiana wagon. The citizen then puts a Boston bride and harness on a Missouri mule, gets out his Georgia plow and works all day in a field incumbered in all probability with a New York mortgage. He returns at night and satisfies his appetite with another imported meal; fills his Indiana lamp with Pennsylvania oil and lights it with a New York match. He then fills his Illinois pipe with North Carolina tobacco and settles down for a comfortable smoke. When the time comes he takes down his family Bible which was printed in Massachusetts, reads a chapter, says a prayer composed in Jerusalem, then retires to bed, slips under his imported covers and is kept awake for two long hours by the howl of his Arkansas dog, which is about the only home production he has in the house."

THE POOR MAN'S CHANCE.

My son, the poor man takes all the chances without waiting to have one given him. If you give him any more chances than he takes, he will soon run the Texas man out of the country. He is

Don't Worry

Because of the scarcity of money, for when you see our stock and get our prices you will agree with us that there is no necessity for "Times" being hard if everybody would buy their supplies from us. The people know that we do not advertise to do anything we fail to do, and consequently when we say that we are in position to offer better bargains in a great many lines than any other house in town can afford, those who have favored us with their trade in the past realize that we do not misrepresent the facts. One reason for this condition is that we bought a great many of our goods at a big discount, and our business expenses are much lighter than most houses doing the volume of business we do. We have a larger stock of Dry Goods, Shoes, Ladies' and Gents' Furnishings, Trimmings, and such goods, than we have ever carried, and our grocery stock is complete. Hoping to secure a liberal share of your trade, we are yours truly,

Some of the results of neglected dyspeptic conditions of the stomach are cancer, consumption, heart disease and epilepsy. Kodol Dyspepsia Cure prevents all this by effecting a quick cure in all cases of dyspepsia. B. F. Geeslin.

You know how painful it is, and how you cry when trying to shave yourself. It's not that way at Allen Weathers barber shop, where shaving is done so easily that you go to sleep under the influence. Yes, you can get your hair cut too, and a bath, hot or cold, in a nice clean tub.

A letter received from T. W. Seabolt states that he, Joe Frizzell and Ambros Ball have left San Angelo going west. They all stood the trip well, but got very wet on the road from Ballinger to San Angelo. They will write the Eagle an account of their trip when they reach Eddy, N. M., which will be in a few weeks.

Last Friday night the rope that held the 100-pound beam light at Vines broke and fell on the head of Joe Brockensmith, who is keeper of the light house. His head was badly cut and he was bruised considerably, but his skull was not broken. His friends here have been uneasy about him and were glad to learn yesterday that his sister, Mrs. White Smith, had received a letter stating that he was fully recovering.

Col. D. H. Meek has been in Dallas this week attending district court in the case of Keating Implement and Machine Co. vs. J. C. Gray, J. H. Sexton, B. F. Geeslin, W. G. Welch, W. M. Doggett, J. A. Doggett and W. D. Miller. The first of Cox & Moss represented all of the defendants except Gray and Sexton, and from a letter received from Col. Meek by Mr. Cox we learn that the exceptions of the court were sustained and the case dismissed against the defendants except Gray and Sexton and the case continued. A writ of attachment was levied by the defendants against Gray and Miller on the 15th and implements of Gray, who was in business last year.

MILLS COUNTY STONE.

A great many people do not realize what a valuable quarry there is in this county at Capt. Driskill's ranch. When the work in the quarry was first begun it was the sensation of the hour, but of late all interest in the work seems to have died out. Nevertheless, a force of men has been at work quarrying the beautiful sandstone and large shipments of it are being made all the time. The stone is said to be as fine as any found in the United States and is especially valuable for trimmings in buildings. The following from a Beaumont paper, which was sent us this week by Dr. Guber, shows what is thought of this stone. It says:

"The contract for the handsome brick residence of W. W. Kyle that is to be built at the corner of Sabine Pass avenue and Buford streets, has been let. The house will contain all told eleven rooms. The building is to be of St. Louis brick, trimmed in Mills county gray stone, and when completed will be a residence that the people of Beaumont can point to with pride."

B. F. GEESLIN.

The firm of D. H. Trent & Co., bankers of Brownwood, will discontinue business in that city, circular letters to that effect having been issued. The firm is composed of Messrs. D. H. Trent, W. H. Thompson and W. H. Trent.

An order went into effect Wednesday morning positively forbidding the carrying of passengers on the local freight train. This change is bad for the traveling public, but suits the hotel and livery stable keepers very well.

Mrs. Lou Curtis boarded the train here Thursday to go to Bentonville, Ark., to visit relatives and the scenes of her childhood. This is her first visit to the old town in fourteen years and she will probably remain there all the summer. The Eagle sincerely hopes she will enjoy this visit even more than she anticipates, and in this we are joined by hundreds of the most estimable lady's friends.

I consider it not only a pleasure but a duty I owe to my neighbors to tell about the wonderful cure effected in my case by the timely use of Chamberlain's Colic, Cholera and Diarrhoea Remedy. I was taken very badly with flux and a severe attack of cholera. A few doses of it effected a permanent cure. I take pleasure in recommending it to others suffering from that dreadful disease.—J. W. Lynch, Dorr, W. Va. This remedy is sold at Geeslin's drug store.

MACHINE SHOP.

I wish to announce to all persons using Machinery of any kind that I have recently built and equipped the largest and most complete Machine Shop that has ever been located within 150 miles of Brownwood. A great deal of work has been sent to distant points heretofore, but with this plant we are in a position to handle repairs and fittings as well as any shop in the State. If you have an Engine, Gin, Pump or Well Machine that needs repair let us figure with you. Estimates on any job will be furnished on application to

RECOVERY IS DOUBTFUL.

If the quality of Drugs and Medicines given a patient is not above doubt. We spare no effort in obtaining the purest and most reliable goods. Efficiency is dependent upon treatment in almost all drugs and all prescriptions are compounded from drugs which have not deteriorated through age. Accuracy is one of the strong features of our prescription department.

J. H. LOGAN, M. D.

Prof. Sheppard of Milburn spent Monday in this city—and he wasn't on school business this time.

The fact that the D. H. Trent & Co. bank at Brownwood is going out of business and that Major Trent is talking of moving to Abilene has caused a report to be circulated that the First National bank of this city is going out of business. Mr. W. H. Trent requests the Eagle to say that there is positively no foundation for the report, and that the directors of this bank have never thought of such a move.

The railroad officials have made another change in the location of the depot and the building will be on the same lot occupied by the old building—if the plans are not changed again before the building is completed. The work on the house was being rushed when it was discovered that there was not room for it between the tracks at that point and new plans had to be drawn and the foundation will be moved to the site of the old depot.

Postmaster Harrison this week received information of his appointment as postmaster at this place. His first appointment was made by the postmaster general while this was a fourth class office, but when the office was raised to third class it became necessary for the president of the United States to appoint the postmaster and he re-appointed Mr. Harrison and it is supposed the appointment gives the office to that gentleman four more years. Mr. Harrison gives universal satisfaction, for he is careful, courteous and accommodating. He does not deserve all the credit for the satisfactory manner in which the office is run, however, for Miss Lillian Cropp is a splendid assistant to him—and she's a Democrat.

The commissioners court acted wisely in requesting the county officers to have their blanks and other stationery printed in Mills county, when the work can be done as well and for the same money the foreign printers charge. While the officers have been partial to the home printer and the request was not necessary as far as they are concerned, yet the court has put itself on record as working for the interest of Mills county. Everybody knows that when the home printer gets a dollar it "burns his pockets" until he spends it, and thus the county money paid to him soon reaches the taxpayers again, while the money paid to foreign printers never finds its way back to Mills county. The court is all right, and so are the officers.

ICE COLD DRINKS AT VIERLING'S.

Echo Springs whiskey at Conroy's wagon.

Pepsi-Cola and other ice cold, refreshing drinks at Vierling's.

Prof. J. B. Alvis was one of the important visitors to the metropolis Thursday.

Dr. Eversly was called to see a patient between Mullin and Zephyr Monday night.

We have a few fancy screen doors, sizes 2 1/2 x 8 and 3 x 7 to close out at actual cost. J. I. Campbell & Co.

The butcher shop is closed from 10 a. m. to 4 p. m. on Sunday.

Hudson & Rahl.

There is to be a picnic today in Moore's pasture on the bayou, at the Starks crossing, about a mile below the bridge.

Mr. Price has had a large sign painted on the flour mill which shows the name of the mill to be the "Star Roller Mills."

Capt. J. W. Driskill returned Thursday from a week's stay at his ranch on the bayou and reports cattle looking well and grass good.

John B. Baker of Big Valley, owner of one of the most valuable irrigated farms in this part of Texas, was a visitor to this city Thursday.

DON'T—Don't get mad if you go to the butcher shop after 10 o'clock Sunday morning and find it closed.

Hudson & Rahl.

Suicide by poison is not more conceivable than by refusal to cure yourself of female troubles with Simmons' Squaw Vine Wine or Tablets.

It makes no difference how bad the wound if you use DeWitt's Witch Hazel Salve; it will quickly heal and leave no scar. B. F. Geeslin.

Some few farmers have plowed up their wheat and sowed the land in cotton, but most of them believe the wheat will make at least one-third of a crop.

Judge C. H. Jenkins of Brownwood, one of the most prominent lawyers in this part of the state, was a passenger on Tuesday morning's train, on his way to Lampasas to attend court.

Pneumonia, la grippe, coughs, colds, croup, and whooping cough readily yield to One Minute Cough Cure. Use this remedy in time and save a doctor's bill—or the undertaker's. B. F. Geeslin.

As yet nothing has been heard from Mrs. Carswell's father, who disappeared from Granbury two weeks ago. The fact that he has not been found strengthens the hope that he is still alive.

J. D. D. Berry has moved his family into the Hill residence, in the northern suburbs of the town, in order that Mrs. Berry, who has been in ill health for some time, can have medical attention.

By allowing the accumulations in the bowels to remain, the entire system is poisoned. DeWitt's Little Early Risers regulate the bowels. Try them and you will always see them. B. F. Geeslin.

Arrangements have been made for a mail-rider between this place and Brownwood. The mail will leave here from Saturday and will go from there in the afternoons of the same days.

Harris & Rahl have lost some cattle from the disease that was reported from Hanna Valley last week and supposed to be Spanish fever. It is thought by common here that the cattle were poisoned by eating cross-pollination and buckeye bushes.

Mrs. Sala Combs, Plano, Texas, writes: Dr. M. A. Simmons' Liver Medicine cured me of Constipation, sick headache, my first enlargement of liver, indigestion; my husband of catarrh of the bowels. Have used Black Draught; it did me no good.

Col. H. J. Gulden, manufacturer of flour mill machinery, who has been here for some time assisting Mr. Price in putting up the flour mill, called on us this week and ordered the Eagle sent to his home office at Bensenville, Ill.

Two of C. C. Yarborough's sons, Oves and Lee, were in town Thursday after lumber to build bee hives. Mr. Yarborough has bought a large number of bees, in order that he may have plenty of honey for his Goldthwaite friends when they come down there fishing this summer.

The sympathy of the people goes out to Mr. and Mrs. W. N. Bowden in their grief because of the death of their little daughter Lois, which occurred yesterday morning at 2 o'clock, after only a few days of suffering with inflammation of the bowels and flux. She was only two years old and her many pretty ways made her the pet of the family and the boarders at the hotel. The parents are prostrate with grief and God alone can comfort them. The remains were laid to rest in the Odd Fellows' cemetery yesterday afternoon at 3 o'clock.
