KEEP THE BRIGHT SIDE OUT.

The sun may have its troubles.
But it keeps the bright side out.
The dark may have its misgivings.
But she hides away her doubts.
Poodle prunes the sun for shining.
And the lark for never plaining.
Man has tried to keep the bright
side out, since they "keep the bright side out."
The orchard pink with blossoms
Gladly puts its bright side out.
The blue have no troubles.
That they ever grieve about.
And the world is prone to treasure
Up in remembrance of pleasure
In the name of him who ever tries to "keep
the bright side out."

Ella Stage the five year old
of Mr. and Mrs. Stage, who
ran away from home last Wed-
nesday afternoon and when found
was at Temple. From the time he
was missed until early Sunday
morning a diligent search was
made for the missing boy. His
parents were almost frantic and
many neighbors were making
every possible effort to locate the
missing boy. About 12 o'clock
some one was found who had
seen him around the depot about
7 o'clock and it was suggested
that he had gone away on the
train. A message was sent to
Temple and a few hours later
word was sent that the boy was
safe and sound in the hands of
Conductor Asa Wilder. He had
told the conductor that he was
going to Temple to see his grand-
mother. Mr. Wilder suspected
that something was wrong and
on reaching Temple carried the
boy home with him. The run-
away was returned Sunday night
on the Santa Fe looking "chip-
per" as you please and really
seeming to have enjoyed his es-
cape very much.—News.

Editor Eagle:

After so long a time I will try
and drop the old bird a few lines
and tell you about our trip to
Hemphill county. We took the
train at Lampasas on the night
of May 11, at 10:30, traveling all
night. We saw the sun rise at
Cleburne and looking around
over the town from the car win-
dow we saw a nice little town.
From Cleburne to Fort Worth we
saw a beautiful country, but not
much crops. Corn and cotton
were not as good as they were in
Mills county, but small grain was
very good. At 7:15 a. m. we
reached Fort Worth. Looking
around us we could see many
new things to look at. What time
we were there we took a little
walk around town to see what we
could and to pass off the two
hours and fifteen minutes we had
to lay over there. After seeing
many new things we went to the
depot to take the Fort Worth and
Denver train for points farther
on. We began to see more new
country. Some was rough and
some smooth country. It was not
long after we left Fort Worth
until we struck the great wheat
country, where we saw some good
small grain of all kinds. Wheat
was good most all the way from
Fort Worth to Vernon and I also
saw that there was a good crop
of prairie dogs along the line as
well as wheat. Corn was not good
in this country. About sun set
we reached Childress and after
supper started on for another
night's ride. Of course I could
not see much, but could see
enough to know I would not like
it. At 12 o'clock that night we
run in to Washburn for another
change of cars. It was cold you
bet out on the plains and we only
had on our spring clothing when
we ought to have had winter
clothing. I walked in to the depot
to ask the agent when we could
get a train out to Canadian? He
said at 7 o'clock tomorrow even-
ing. I made a face as long as a
ten foot pole at him, but he didn't
seem to care for that. We then
walked about 300 yards to a 15
cent hotel to stay the rest of the
night, not a 15 cent price to stay,
but a \$1 price and 15 cent grade
and, oh my, how cold it was for
the time of year. At 7 o'clock
we took the train for Canadian.
It was not long until dark and we
could not see how the country
looked, but at 10:30 o'clock we
got to our journey's end and
found a nice little town and
saw hills on the Canadian river.

HAMILTON

Hamilton is keeping her "eyes
peeled" for a railroad and she is
going to have one, too.

Houston Rucker has a position
with the Phone company and
answers night calls at Central
office.

The fifth annual pean valley
picnic will take place at the
picnic grounds five miles below
Hamilton on the Pean creek, July 8.

Prof. R. L. Krigbaum, of Olin,
was in town Monday. He has
been elected as principal of the
Shive school for the ensuing
term.

One of the oldest and most
highly respected citizens of our
county, Mr. J. J. Goomer passed
away on the 29th inst., at the
age of 84 years.

John Woods was arrested at
Hico last week by Sheriff Kinsey
on a complaint charging him
with the crime of rape.

J. G. Williams and family re-
turned last week from McCulloch
county. He sold his bunch of
sheep, 1250 head, to J. W. Wyatt
at \$2 a head and is now out of
the wool business entirely. He
sold his spring clip of 15000
pounds at 15c cents. He ex-
pects to travel around some for
a while.—Herald.

CONSTIPATED BOWELS.

To have good health, the body
should be kept in a laxative condi-
tion and the bowels moved at least once
a day, so that all the poisonous wastes
are expelled daily. Mr. G. L. Edwards,
142 N. St. Wichita, Kas., writes: "I
have used Herbine to regulate the
liver and bowels for the past ten
years and found it a reliable remedy."

BIG VALLEY

Editor Eagle:

It is a beautiful June day and
the deep blue sky is cloudless
and teeming with brilliant light
and the balmy air falls like
breath from angels on our neigh-
borhood. These thoughts of the
blessings of kind providence in-
spire me to write the old Eagle
some news from our Valley.

The singing at Mr. Walker's
was enjoyed by the young men
of our neighborhood, as was the
singing at A. T. Sellers' Sunday
evening.

Misses Eva Miller and Travis
Long were missed from the Val-
ley Sunday.

Miss Zora Alvis has returned
home from Belton, where she at-
tended school last year.

The trustees have secured the
services of Prof. Lindsey to
teach our school at Big Valley,
with Mrs. Mollie Hawkins as as-
sistant. Prof. Lindsey is highly
recommended as being a fine
educator and a gentleman that
will be a help to our school and
community. Mrs. Hawkins all
know and appreciate. We
hope to have a fine school. That
is what all neighborhoods need.

The Big Valley people are go-
ing to have a Missionary Bap-
tist revival meeting on the banks
of the beautiful Colorado river,
near the bridge crossing of the
San Saba and Goldthwaite road.
The altar is to be located in Mr.
Walker's pasture, on top of the
bluff south of Mr. Brooks' farm,
as every one of who has traveled
the bridge road remembers the
bluff and what a lovely place for
a meeting. It will command a
plain view of the beautiful old
stream for quite a distance up
the river, the south breeze will
have an unobstructed showing to
blow soft and refreshing from off
the cool waters and make the
place an enjoyable one indeed.
I think the water will be good
for, if possible, they intend to
keep ice on the ground all the
time. The services of Rev. W. R.
New of Blanket, and Owens,
pastor of Goldthwaite,

The train was running about
forty miles an hour, but the man

STARTLING EVIDENCE.

Fresh testimony in great quantity
constantly coming in, declaring Dr.
King's New Discovery for con-
sumption, coughs and colds to be un-
equalled. A recent expression from
T. J. McFarland, Bentonville, Va.,
writes: "I had bronchitis for three
years and doctored all the time with-
out being benefited. Then I began
taking Dr. King's New Discovery,
and a few bottles wholly cured me."
Equally effective in curing all lung
and throat troubles, consumption,
pneumonia and grip. Guaranteed by
Koss & Clements druggist. Trial
bottle free, regular size 50c and \$1.00.

DRIVEN TO DESPERATION.

An investigation is to be made
of the charges that Zapata
county's school census has been
"padded." The county has a
population of about 3500 and the
census reports show that there
are more than 2000 children

The outlaws in Kentucky gen-

took their methods of securing
vengeance.

It is claimed that a member of
the legislature who accepted a
commission as notary public for-
feited his office as representative.
This is a question that has never
been raised before and the law-
yers of the state are divided on
it, and the legislators are much
perturbed about it.

Plans have been perfected for

the plan.

Hon. Marion Martin died at

Ellis McDonough, who lived
near Thrifty, Brown county, for
about thirty years, and was a
well to do farmer of that section,
was fatally injured last week by
a reaper. He was cutting wheat
when the team became unman-
ageable and ran away, throwing
him in front of the machine, the
sharp knives cutting great gashes
in his body from head to foot,
and he would have been killed
outright but for the fact that the
machine passed over an irrigat-
ing ditch into which he fell.

The movement of granite from
Granite Mountain to Galveston is
to be increased from fifty to
seventy five cars per day. During
the past five months the Houston

veston, and now that enormous
amount is to be increased.—

One day last week it was re-
ported that \$50,000 worth of
Sherman city bonds had been
stolen from the comptroller's of-

many days in searching for the
missing bonds and advertising
the theft all over the country, it
was discovered that the bonds
were in the express office in that
city, never having been deliv-
ered, although a clerk in the
comptroller's office had rec'd for
the package.

The trial of the suit of Miss Alice Humphries against the Santa Fe railroad company ended Thursday afternoon at 5 o'clock and resulted in a verdict for plaintiff for \$4770. This suit was the result of a wreck on the Santa Fe near Zephyr last September in which a number of people were injured. The trial consumed eleven days of the court's time in Brownwood this week.

An Englishman and a Scotchman, both commercial travelers, were bragging about the importance of the firms they respectively represented. "You may judge the extent of our business," said the Englishman, "from the fact that we spend \$215 a year in ink for our correspondence." "That's nothing," said the Scotchman; "my firm saves twice that amount yearly by not dotting its 'i's' and not crossing its 't's.'—Ram's Horn.

Failure is the result of ignorance. Success is the outcome of action. One cannot class himself among the ignorant and at the same time say that he is successful. If this is your position, let me ask you if you have always acted promptly on every progressive thought that came to you? If you have not you are ignorant of many things that have caused success to be very successful, for it is impossible to know anything if we fail to act on the thought that present themselves to us and in this way many permit themselves to remain ignorant of many facts that would cause prosperity and expansion in business.—American Merchant.

A young man who sought a clerkship in one of the departments in Washington, once asked the late Robert G. Ingersoll for his endorsement and this was Ingersoll's reply: "Young man, I would rather have forty acres of land, with a log cabin on it and the woman I love in the cabin—with a little grassy, winding path leading down to the spring where the water gurgles from the lips of the earth, whispering day and night to the white pebbles a perpetual poem—hollyhocks growing at the corner of the house, and morning glories blooming over the low latched door—with late work over the widow so that the sunlight would fall checked on the dimpled babe in the cradle, the birds—like songs with wings hovering in the summer air—than to be the clerk of any government on earth."

A gentleman advertised for a boy and nearly fifty came to see him. Out of the whole number he chose one and dismissed the rest. "I should like to know," said a friend, "why you picked out that boy who had not a single recommendation." "You are mistaken," said the gentleman. "He had a great many. He wiped his feet when he came in, and closed the door after him, showing that he was careful. He gave his seat instantly to that lame old man, showing that he was kind and thoughtful. He took off his cap and answered my questions promptly, showing that he was gentlemanly. He picked up the book which I purposely laid on the floor and replaced it on the table; and he waited quietly for his turn instead of crowding and pushing, showing that he was honorable and orderly. When I talked to him, I noticed that his clothes were brushed and his hair in order; when he wrote his name I noticed that his finger nail were clean. Don't you call that recommendations? I do, and I would give more for what I can tell about a boy by using my eyes than for all the letters he can bring."—Selected.

PRIDDY.

Editor Eagle: I believe Un'ucky Joe must be dead, for he is keeping so silent, or maybe he is sparking some pretty girl and has no time to write.

Farmers are very down hearted, the frost getting the greatest part of the corn and the smallest part of the oats and the cut worms getting all of the cotton. So the farmers have very little except grass and weeds. All of them have a very good crop of that. At least I have not heard any one complain of not having enough. Almost everybody has planted over as many as three times and still have no stand. When the cut worms come to an older cotton field that is very tough if their teeth are so bad that they cannot cut it through, they step over to some of the neighbors and borrow a ladder and set it up against the stalk and climb up to where it is tender and if nothing else they will cut off the top.

John Lebke reports that he has twenty-eight acres planted in sugar cane. If that does well he will have enough to supply all this community. He has 150 acres in cotton, but when he loses one or two of his best pickers this fall, he will have a pretty hard time getting his cotton to town.

Wm. Feamann has 160 acres, but as he has about twelve of his own family to work I guess there is no danger of him not getting his cotton picked out.

A. G. Summerfield is on the sick list week.

F. M. Grindstaff has a new two seated, red wheeled automobile, but it goes by horse power. He has to hitch old Baldy to it.

Mrs. Grindstaff's aunt, Mrs. Sallis, (I forgot her other name) has been on the sick list this week, but is improving rapidly.

Dr. Lewis has come to spend the summer with homefolks and friends.

It is rumored that Otto Namer of California will soon be here after his bride. JUNE EGG.

BAYOU.

Editor Eagle: As the news bearers of our community are limited to some extent for various causes and some are saying the writer has departed from this mortal coil, I will again come out in blooming colors to show that if I had expired I am now resurrected and among the living.

The recent rains have put a good season in the ground as well as a broad grin on the faces of all the farmers who do nothing but bog around over their crops and prophesy whether there will be a good market for their produce or not, while some say they are beginning to hope for a good square meal of corn bread in the future.

Owing to the wet weather the writer didn't make his usual round over the community and learn the late happenings last week.

An excellent sermon was preached to a large crowd Sunday at Williams Knob by Rev. Hays. Quite a number of the Mullin folks attended. All report a nice time.

Miss Mary Shannon of Croyer is visiting on the bayou this week.

The singing at Mr. Bolton's Sunday was an enjoyable affair. The reaper is being heard in our midst and our grain will soon all be harvested, and all are rejoicing over the bounteous yield. The thrasher will be in our community this week.

What is the matter with the Miller Grove correspondent? We heard that the weather was very unfavorable over about Miller Grove, but hoped that News Girl escaped, but have since learned that she was snowed under.

Tom Johnson and Frank Kelyo intend to go to Eastland county in a few days.

Ike Aaron has bought an \$85 wagon. He aims to go to Moely Valley and work with the thrasher next week.

Manuel Williams was seen in Mullin one day last week looking all smiles. He still insists that he will have plenty of biscuits to spare News Boy. That is right, Manuel, make your word good and help your neighbor.

Fay, Mr. Editor, your Mullin correspondent has quite a number of names, but say, Citizen, you are very obstinate. After learning you couldn't purchase those lovely chicks it was very wrong for you to organize a committee to take them by force, but as they do not fear hawks am quite certain they anticipate no danger from any other fowls.

Mrs. Pendland of near Cold Springs is on the sick list at present.

Harlie Shannon expects to visit his brother, J. D. Shannon, of Beaumont in the near future.

Joe Williams of the bayou was in Cheeser Valley one day last week.

We all anticipate a nice time at Williams Ranch the fourth Sunday. Say, Mr. Editor, come and spend the day with us.

Miss Ida Kalso spent the day with Mrs. Johnson Thursday. Reports a nice time.

Mr. and Mrs. Claud Hollis were visiting Mrs. Pendland one day last week.

We are glad that Jim Cheeser hasn't forgotten Mills county folks and intends returning, for he will make us forget all our trouble and enliven this dull country up some.

We learn that the grass hoppers are devouring George Romans' cotton. NEWS BOY.

ZEPHYR.

Editor Eagle: He who said "nothing ever happens at Zephyr," was mistaken. There was a pretty little church wedding in our town last Sunday. Mr. Alfred McQuerry and Miss Bertha McBurney were quietly married just before church time last Sabbath evening. The bride was becomingly dressed in white mill with white satin ribbon trimmings. Mr. and Mrs. Ed Reardon, A. Bradberry, and Miss Katie McBurney, Hubert Locks and Miss Ollie Reasoner were the attendants. The bride is one of the prettiest and sweetest flowers ever grown in our community. The groom is a young man of sterling qualities. We wish them all the happiness in the world. The young couple will visit among their relatives in the neighborhood for a few days before leaving for Fort Worth their future home.

Mrs. E. P. Thompson and children are the guests of her mother Mrs. S. F. McBurney this week.

Mrs. Wren and Miss Gertie Houston went to Brownwood on business Wednesday.

F. H. Lindsey and family and J. M. Hicks and family spent Wednesday at Blanket Springs fishing.

G. D. McQuerry and Bettie Day drove over Wednesday from Blanket, tying their horse to a tree near John Pierce's store. The horse rubbed the bridle off, became frightened and ran away, tearing one wheel to pieces and otherwise damaging the buggy.

K. LAMITY.

EVANS.

Editor Eagle: We have had another good rain and crops look fine.

F. H. Lindsey is about all over. Walter Malone is working for J. F. Perkins.

G. W. Ethridge has made a new boat.

J. E. Snider returned Friday from a prosperous trip near Hanna Valley. He is representing the Stark nursery.

Alorzo Evans and Marney Mason attended singing at Miller Grove and reported having a nice time and seeing some great sight.

There will be preaching at the Evans school house Sunday at 11 o'clock. Come everybody. WHIP SNAKE.

A SERIOUS MISTAKE. E. C. DeWitt & Co., is the name of the firm who makes the genuine Witch Hazel salve. De Witt's is the Witch Hazel salve that heals without leaving a scar. It is a serious mistake to use any other. DeWitt's Witch Hazel salve cures blind, bleeding, itching and protruding piles, burns, bruises and all skin diseases. Sold by Ross & Clements.

CENTER CITY.

Editor Eagle:

Since the recent heavy rains the farmers are so busy trying to harvest the small grain and kill "hurray" grass that they will not stop work long enough to tell the news or argue about politics. The cut worm is still cutting down the cotton, and some will probably be planted over this week and next.

Elder Flocore of Mullin began a meeting at the school house last Sunday and is preaching at night this week. The attendance so far has been very good considering the rush of work. The meeting will continue until Sunday night.

We are glad to learn that Andrew Graves' little daughter, who has been dangerously sick at the home of Mr. Weathers near Goldthwaite, is improving.

Misses Barbie and Mattie Yarborough were visiting Prof. and Mrs. Lindsey a few days last week, returning to Goldthwaite Monday.

Cecil Adams, who has been employed at Newberg the past month, is at home this week.

A. Z. Mitchell of Illinois is visiting his son, C. E. Mitchell, of this place.

We are informed that Prof. W. G. Lindsey will teach the Big Valley school next term. Mr. Lindsey is an excellent instructor and the people of the Valley are fortunate in securing his services.

R. Langford has purchased a new thrasher, but hold, the very thought of thrashing in this hot weather makes me too tired to write. AMIGO.

GARZA COUNTY.

Editor Eagle: We are getting lots of rain and grass is good and stock are in fine shape. The people are very busy with their crops.

We are 75 miles north from Big Springs and 37 miles from Gall, our post office, but we will have a new post office within a short time, four miles from us. It will be Litwalton. We are in the square and compass pasture owned by John B. Slaughter.

This country is developing into settlements very fast. Two years ago there was only one nestler in this pasture, now there are twenty-two, but there is lots of room for more. This pasture is about forty-five or fifty miles from east to west and about twenty miles wide.

There is lots of antelope to be had on the plains. We live on the plains four miles from the breaks of the Double Mountain river.

Mr. Grigg of Scurry county, an old citizen of our dear old Mills county, was up here a few days looking for a new location. He likes our country well and we hope he will fully decide to move up in our midst.

We will close wishing the many readers a prosperous year.

Henderson, Texas, April 28, 1902. Dr. E. W. Hall, St. Louis, Mo., Dear Sir—Your Texas Wonder, Hall's Great Discovery, has cured me of kidney and bladder troubles and I can cheerfully recommend it to others. Yours truly, W. J. Crow.

Revelations in the postoffice frauds continue to be made. The evidence shows that men in the highest positions have connived and conspired to steal from the government and have used some of the most daring schemes, such as carrying on the pay roll the names of men who were not in the service and perhaps did not exist, drawing salaries in two departments, and letting contracts to the highest bidders for a financial consideration.

When it occurs to you that a certain thing should be done, either do it at once, or make a note of it for action at the first leisure moment. The man who has sense enough to see things that are necessary, or that would improve conditions, and doesn't act upon his ideas, is not a whit better off than his feeble brother who doesn't think.—Ad-Writer.

The son of Gen. John B. Gordon has disappeared from home and his father has issued an appeal to police officers to locate the young man and return him to his family.

We would be pleased to have all young men who contemplate buying a buggy to call and examine our line before making their purchase. We carry nothing but Standard Buggies of High Grade Goods in stock and you cannot make a mistake, as we have no other kind to offer. Don't buy some cheap make of buggy, as your best girl may think you are a cheap man. Cheap means worthless and you cannot afford to experiment at your own expense. Pictures and different kinds of amusements open up pretty soon and you might have more pleasure by early buying. Boys, come around, we will treat you right, and remember you get what you pay for when you buy from us. Yours for High Grade Vehicles, WEAKLEY & WATSON.

CORONA, N. M.

Editor Eagle:

I received a copy of the old Bird yesterday, and appreciated it as an old friend.

As so many old friends in Texas have requested me to write concerning this country, I hurry through the paper let them know just what I think of New Mexico.

As for the country, I think it is the finest stock country I have ever seen. That is the finest grass and protection for oak. Canons, high mountains, beautiful valleys. There is no water here except wells and they are very scarce. The lakes on the plains fill up when it begins to rain in June. People say it rains here in June. It has certainly rained in June this year. It began to rain the first day and this is the twelfth. Has rained incessantly the twelve days. If the good Lord had not said there would be no more floods I believe I would have begun to pray.

I think this country is fine for stock and men, but women and children have got no business here. No school, no church and no neighbors, in fact, nothing but grass and mountains.

Lumber is \$25 and \$40 per 1000 feet. Not much used here, dug-outs, adobes, a few tents. It is very cold here. Have to have fires morning and evening the year round. People are trying to make some thing out of it, but whether they will succeed or not, but if it keeps on as it has begun think they will have some garden, but they can't last very long as the season is too short. There is one other advantage. This country has plenty of wood on the mountains and in the canons, pine, juniper and some shinnery in the canons.

They have as fine looking soil here as I have seen anywhere in Texas sandy land.

Chickens are worth 50 cents, apiece, can't get them for that, butter 35 to 40 cents per pound. They tell me this is a healthy country. I believe it is, as there is not a doctor in 75 miles. There is one rail road through this country, the Rock Island. There is another being built, the Central. Some very nice towns on the roads though tough! You can kill a man and if you have no money you can go, but if you have look out, they want your money. Now that is what they tell me about it, but if a man steals a yearling look out, that is if he gets close enough to see the man give him the sign to go back he goes back right quick, that is the last of it.

I find very kind people here, the few I have met, but my heart turns back to Texas and true friends. As for my self, I want to be laid to rest in dear old Texas any way.

I think stock men will do well here, in fact, I know cattle did well here last winter. It had not rained since last summer, cattle wintered, come out fat, had a drink about once a week. Grass stays green in these mountains all the winter. It is a good place for poor men to get homes as it don't cost anything only the \$1.00 filing for 100 acres. I will take 100 acres ten miles from Corona on the Rock Island, about 175 miles west of Fortstock, 125 miles south east of Santa Fe, 150 miles north west of Roswell.

I don't think stock men will be crowded here for quite awhile by farmers, not at least until the seasons change. For I know they can never farm (much here). I can see now that it is a dream. (3) I have three motherly daughters. They have no protection but myself. I would rather kill them than leave them in a sinful world if you blot out from it all the teachings of the gospel."

Mrs. Gladstone's Secret Keeper. In a pleasant magazine sketch of Gladstone's home life we are told that when they were first married Gladstone put two alternatives to his wife, either to know nothing and thus be free of all responsibility or to know everything and be bound to secrecy. His own remarks fifty years later, "My wife has known every political secret I ever had," points to the choice she made and also illustrates her discretion.

A Daughter of the Beekers. The family of Becker of St. Louis is an old and clammy house. The family archives have been kept carefully for many generations. For more than a hundred years every child born to the family was a son until last week, when a girl baby was born to Mr. and Mrs. Arthur W. Becker. With this exception, female issue has been lacking in the family since 1735.

"I once met a thoughtful scholar," said Bishop Whipple, "who told me he had read every book he could which assailed the religion of Jesus Christ, and he said he should have become an infidel but for three things: (1) I am a man. I am going somewhere. Tonight I am nearer the grave than I was last night. I have read all such books can tell me. They shed not one solitary ray of hope or light upon the darkness. They shall not take away the guide and leave me stone-blind. (2) I had a mother. I saw her go down into the dark valley where I am going, and she leaned on the unseen arm as calmly as a child goes to sleep on its mother's breast. I knew that it was not a dream. (3) I have three motherly daughters. They have no protection but myself. I would rather kill them than leave them in a sinful world if you blot out from it all the teachings of the gospel."

Wonder how many of the millions of busy, rushing Americans really ever heard that London, the greatest city in the world where the English language is used, never has any Sunday newspapers. Business there absolutely stops Saturday evening and remains closed till Monday morning. Yet the people seem to get along just as well as we people who must have every thing going seven days in the week and thirteen months in the year, whenever possible.—Ex.

O. D. Davis is now the telegraph operator at the depot. He and his mother will make their home at the Mountain Cottage.

BAD BEHAVIOR.
The attention of the officers is directed to the manner in which a gang of hoodlums make the town a bad reputation by insulting lady passengers on the trains, and at the same time make the vicinity of the depot a very disagreeable place for ladies as well as for gentlemen who object to profanity and obscene language. The fact that this conduct is witnessed at every train that passes through Goldthwaite is not news to a majority of the people of this town and the Eagle, in the name and by the authority of many of Goldthwaite's citizens, here and now enters a protest against such conduct and appeals to the peace officers of this city and county for protection against the outrages.

Any officer whose duty it is to attend to such matters can stand in the neighborhood of any passenger train that stops at this depot and secure enough evidence against the tough gang to warrant a conviction and a long term on the public roads or the rock pile.

The Eagle proposes to have more to say on this subject later, if this is not enough, and will cite the law under which arrests can be made by officers who wish to act in this matter.

FINE CROPS.
The people in this county know that the prospects for a heavy yield from the growing crops are very flattering, but those of the Eagle readers who live in other parts of this state and in other states will be glad to know that the crops this year will be better than in 1900, which was a record breaker.

Wheat and oats have nearly all been harvested and a considerable amount of the oats have been thrashed. Several farmers claim a yield of from 90 to 120 bushels of oats to the acre and the wheat will turn out extra good. Corn in some localities is in roasting ear and the late corn looks good. Another rain about July 1 will insure a bumper corn crop in this county. Cotton is nearly all young and extra late, but the plant looks thrifty. There is a good season in the ground and with a few weeks of warm, clear and dry weather the crop will be made.

As to prices for produce, there is no complaint and not likely to be much room for dissatisfaction. Well-fostered cotton men say they expect the market to open above 10 cents and doubt the price going below that figure.

Verily, Mills county is in the best part of the earth.

METHODIST REVIVAL.
A revival has been in progress in the Methodist church since Sunday and the indications are that the results will be satisfactory and beneficial. Rev. Linn, the pastor, commenced the revival and Rev. Brown, pastor of the Methodist church at Hamilton, arrived Wednesday to remain throughout the meeting and assist in the work. He is a man of ability and his earnestness is calculated to impress the people and his good sermons attract large congregations at every service.

We are not advised as to how long the meeting will continue.

NEW BUSINESS.
Having decided to remain at Goldthwaite, I announce to the public that I will again engage in business just as soon as I can get in my stock of merchandise, part of which is now ordered. Will occupy the glass front store room on Fisher street between Ross & Clements' drug store and J. C. Evans' grocery store. You are all invited to call and see me and find out what I have to sell. Respectively C. D. HAMMOND.

CONSTIPATED BOWELS.
To have good health, the body should be kept in a laxative condition and the bowels moved at least once a day, so that all the poisonous wastes are expelled daily. Mr. G. L. Edwards, 142 N. St. Wichita, Kan., writes: "I have used Herbine to regulate the liver and bowels for the past ten years and found it a reliable remedy. 60c at Dr. J. H. Logans."

REUNION BARBECUE.
The Confederate veterans reunion decided to hold their reunion at the grounds south of town on July 9 and 10, which would be a good idea for the citizens of the town to arrange their annual picnic for July 10, which will be the most important day of the reunion. It might be possible to provide a barbecue for that occasion, since cattle are cheap and the fine prospects for crops have made the purse strings of the citizens very loose. Such an entertainment would be pleasant for the old soldiers and the people generally and at the same time it would be beneficial to the town in a business way.

The citizens should hold a mass meeting and discuss the proposition.

SUNDAY SUBJECT.
Brother Brown will preach Sunday morning from Matt. 5:15. "The importance of membership in the visible church of Christ."

What is meant by the word candle or lamp?
How is this candle to be lighted?
What should be done with the lighted candle?

WORST OF ALL EXPERIENCES.
Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala., "For three years" she writes: "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and I received a miraculous improvement. For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c at Ross & Clements."

SCHOOLS CONTRACTED.
The contracts between teachers and trustees for the next session of the public schools can not be approved by the county superintendent until after the apportionment of the state money is announced, yet a number of contracts have been entered into by the interested parties and will be submitted at the proper time. The only schools where the trustees are known to have made contracts are here given.

REUNION BARBECUE.
The Confederate veterans reunion decided to hold their reunion at the grounds south of town on July 9 and 10, which would be a good idea for the citizens of the town to arrange their annual picnic for July 10, which will be the most important day of the reunion. It might be possible to provide a barbecue for that occasion, since cattle are cheap and the fine prospects for crops have made the purse strings of the citizens very loose. Such an entertainment would be pleasant for the old soldiers and the people generally and at the same time it would be beneficial to the town in a business way.

The citizens should hold a mass meeting and discuss the proposition.

SUNDAY SUBJECT.
Brother Brown will preach Sunday morning from Matt. 5:15. "The importance of membership in the visible church of Christ."

What is meant by the word candle or lamp?
How is this candle to be lighted?
What should be done with the lighted candle?
What is meant by candlestick?

Pastor M. E. Church South.

WORST OF ALL EXPERIENCES.
Can anything be worse than to feel that every minute will be your last? Such was the experience of Mrs. S. H. Newson, Decatur, Ala., "For three years" she writes: "I endured insufferable pain from indigestion, stomach and bowel trouble. Death seemed inevitable when doctors and all remedies failed. At length I was induced to try Electric Bitters and I received a miraculous improvement. For liver, kidney, stomach and bowel troubles Electric Bitters is the only medicine. Only 50c at Ross & Clements."

SCHOOLS CONTRACTED.
The contracts between teachers and trustees for the next session of the public schools can not be approved by the county superintendent until after the apportionment of the state money is announced, yet a number of contracts have been entered into by the interested parties and will be submitted at the proper time. The only schools where the trustees are known to have made contracts are here given.

The Eagle wants your orders for commercial printing and will make prices that will save you money.

The farmers can get the very top price for their wheat and oats by bringing them to Goldthwaite.

J. O. Swindle was here from the Cowhouse country Thursday and reported that his crop of oats was extra fine this year.

The people of Mills county should unite in making the reunion the happiest time the old soldiers have ever known. One good way to do this is to provide a big barbecue for July 10.

The Eagle's correspondents are always helpful and we are thankful to them for their good work. If those who write will avoid jukes their communications will always be more acceptable and interesting.

Those who buy from mail order houses and foreign dealers should take notice that the home merchants are the people who are extending accommodations to those who are short of funds, while the foreign dealers demand cash before the delivery of the goods and do not care how badly people without money need their wares. In time of drouth or scarcity of money the home merchant is always expected to exert himself to supply the people with necessities and he certainly is entitled to the cash trade.

County Clerk Smith expects to go to Galveston to inspect the work on the sea wall. His little daughter Brookie will accompany him and go to Velasco to spend the summer with her grand parents, Dr. and Mrs. M. C. Brockenbrough.
