

THE GOLDTHWAITE EAGLE.

VOL. 13.

GOLDTHWAITE, MILLS COUNTY, TEXAS, APRIL 28, 1906.

No. 34.

CHAPEL HILL.

Editor Eagle:
As it has been some time since I have seen anything from this part, I will try to give a few of the latest happenings.
Plowing corn and planting cotton is the order of the day. We have a fine season and prospect for a good crop.
Our school closed last Friday with Miss Mary Isenhower as teacher. Miss Mary has taught us a good school and Saturday night, April 21, she and her pupils gave us a nice entertainment, which was largely attended and was enjoyed by all. As I failed to get a program I cannot give the program of the concert, but all the pupils did well. We highly esteem Miss Mary and heartily recommend her as an estimable lady and efficient teacher.
As this is my first time I will ring off by wishing success to the Eagle and its many readers.

TRIGGER MOUNTAIN.

Editor Eagle:

Mr. and Mrs. Kennemore visited Mr. Crockett's family Sunday.

Henry and Pink Beshears, the fruit agents, have returned from a trip to San Saba county.
Most of the men of this place attended court Monday.
Mrs. Page of Priddy was the guest of her sister, Mrs. Beshears last week.
Mr. Griffith, the union man, made an excellent speech at Trigger Mountain Saturday night, he organized a farmers

union at this place which we wish much success.
Mrs. Hamilton is visiting her parents Mr. and Mrs. Farmer at Duran this week.
Well, as this is our first we will ring off hoping the Eagle and its many readers much success.
THE RED ROSE

Dick Dyer and wife were here from Brownwood Sunday visiting S. E. Ross and family. Mr. Dyer has accepted a position with Ross & Cockrum to look after their vehicle business. He is well up in that line of business having been employed by Mr. Lowe and other dealers in Brownwood for the last eight years or more. He and S. E. Ross left Monday night for St. Louis to buy a couple of car loads of vehicles.

R. E. Clements has built a nice addition to his residence.
Miss Mamie Campbell returned Friday night from a visit to relatives in Lampasas.
Henry Blackburn of Sterling City and D. Ford of Whitney each renewed for the Eagle this week.
J. L. King was here from Zephyr the first of the week and renewed his subscription to the Eagle.

Drs. W. G. LeGear and C. S. Jackson, veterinary surgeons, will be in Mullin, Friday, May 4, 1906, to do veterinary work, and for the purpose of getting up a class and giving a course of lectures.
The picnic at Hamilton next Thursday and Friday will attract a number of Mills county citizens. Judge Bell is to open his gubernatorial campaign at that place.

The Goldthwaite school board is now prepared to take up one of the outstanding building bonds of the denomination of \$1000. This bond will be due in July and the holder has already been notified that it will be wanted as soon as it matures. This will leave only one outstanding bond and that will be taken up next year and then Goldthwaite's elegant school building will be paid for in full.

J. W. Mason was here from Center City one day this week.
Mr. and Mrs. J. H. Allen spent Sunday with J. H. Allen, Jr., and family in Mullin.
G. W. Stewart, one of the good farmers of the Big Valley community, had business in this city Saturday and renewed his subscription to the Eagle and was kind enough to express his appreciation for the paper.

F. M. Long has been notified that the sale to him of three sections of public land near Valentine by the land commissioner has been cancelled by that officer on the grounds that a mistake was made in awarding the land, in that the lease on it had not yet expired. Mr. Long regrets the cancellation very much, but will remain in Mills county and make the race for surveyor. He was awarded one section of land on which he died and he has sold it for a good profit.
R. E. Clements has been in Fort Worth and Dallas a part of this week attending to business.

MULLIN

Editor Eagle: How swiftly the moments fly and the hours glide by—bringing us to the close of week after week, until we stand amazed at the flight of time, and how rapidly all are traveling toward the sunset of life. Boys of a few years ago are now husbands and fathers, while the wee, wee, girls of the same period are staid matrons singing lullaby songs to their little one; such as their mothers sung to them a short time since. There is no turning backward with time in its flight, no more a child, not even for a night, but march onward to the watch-word of old Father Time. As I stand upon the threshold of another week, since my last writing, these thoughts are suggested to my mind.

Saturday was a busy day in Mullin. Hats were in demand. Mrs. J. M. Kirkpatrick, who was presiding over her mother's business, sold a large number of hats. Another order of new goods is expected.

EBONY.

Editor Eagle: The quarterly conference of the Methodist church met at Ebony the third Saturday and Sunday in this month. Bro. Bolton, the presiding elder, was present, also Prof. Vincent of Elkias.

Services closed with preaching at eleven o'clock Sunday morning, as Bro. Clark and Bro. Bolton had other appointments to meet. Song service was held at the church in the afternoon.

Bro. Hamill was on hand last Saturday evening to fill his place. He brought with him this time Bro. Green, who did most of the preaching. The new Baptist church was filled Sunday morning.

Dinner was served on the grounds so most of the crowd remained. Immediately after dinner Bro. Green preached to the young people, a discourse we very much appreciated. At the close of this discourse the crowd went to the Pilen crossing on the river where the beautiful ordinance of baptism was attended to. We then returned to the church and engaged in song service until sundown, supper was spread on the grounds.

Bro. Hamill preached to the audience that night.

Miss Ella Kelley is expected home soon. She has been visiting in Oklahoma for quite a while. She expects to bring her grandfather with her when she returns.

TO THE PUBLIC. When I advertised the prices of admission I asked several different parties if those prices were about right and all agreed that they were. Since publishing the same, however, several parties have said to me that the prices are too high; I, therefore, after consulting with many different ones, have concluded to make the prices as follows: Reserved seats 35c, general admission 25c, children 20c.

I wish to say a word further about this that the public may better appreciate the work of the teachers and school. If a traveling show comes to town the charges will be from 50c to 75c, and the money they gather up is taken out of the town in the extra amount of labor done without pay.

I, personally, have given music lessons, other lessons and drills during the last three months without pay for the good of this entertainment and the purposes for which it is given, which, according to the prices I generally get for such work, would amount to over \$50. I have given this willingly, without hope of reward, for the good of the school. All the other teachers have sacrificed in like manner and done their parts nobly. After this plain statement of the facts, I hope there will be as patriotic a spirit of self sacrifice on the part of the whole citizenship of Goldthwaite and surrounding country that we may know our labors are appreciated. Yours most respectfully, M. A. COVINGTON.

POLITICAL POINTS.
The campaign is now on in full force. The candidates realize that they have only a few more weeks in which to do their work and they are meeting the voters as rapidly as possible.
F. M. LONG.

One of the belated candidates in the county campaign is F. M. Long, who is a candidate for the nomination for county surveyor. Mr. Long has been surveying in Southwest Texas and has not had the time to devote to his campaign until recently, but when he did get busy his friends from all parts of the county commenced to declare themselves in his favor. There is no better man in Mills county than F. M. Long—one who will do his whole duty at all times and under all circumstances. The office of surveyor is one of importance to land owners and it is necessary that a careful and competent man be selected for the place. Mr. Long filled the office for some time and resigned to go to Valentine to look after land business. Since his return to this county Mr. Puett has made him deputy surveyor and placed him in charge of the office. His announcement appears in the proper column.

CEMETERY MEETING.
The next meeting of the Cemetery association is to be held next Thursday, which will be May 3. Every member of the society and all who are interested in putting the cemetery in good condition are requested and urged to be present. The association has already accomplished much and the good work is just fairly begun if those in authority have the help and co-operation of the general public, and surely they will have the help of all who are in any way interested in the cemetery.
At this meeting it is likely a committee will be appointed to confer with the commissioners court in regard to an appropriation to put in condition the graves of those who have no relatives here or elsewhere who can or will care for the graves. These people were all citizens of the county at one time and almost every part of the county is represented in the cemetery. At any rate, the question is to be discussed and those interested should be present.
Mr. Canady has already been at work in the cemetery for a month and has made great improvements in the appearance of the grounds. John Humphries has been employed to assist in the work and the undergrowth and weeds will soon be cleared away.

A GOOD DINNER.
The ladies of the Cemetery association served dinner in P. M. Morris' restaurant last Saturday and realized \$32.25, clear of expenses. This amount will help a great deal towards putting the cemetery in good condition. The ladies are certainly deserving of great praise for their efforts in this matter and those who have worked so faithfully and have already accomplished so much in this good cause can be sure that the entire community appreciates their efforts. Mr. Morris is also entitled to the thanks of the community for his liberality in allowing the use of his business place to serve the dinner.
Mrs. W. W. Fowler, president of the Cemetery association, requests the Eagle to extend her thanks and the thanks of the association to all who contributed for the dinner or in any way helped to make it a success. She also states that those who furnished dishes for the dinner can get them at Mr. Morris' restaurant.
When you are in town to spend a few days stop at Mrs. Kennedy's boarding house.

FARMERS' UNION.
Editor Eagle:
It has oftentimes been said, that let a principle be ever so weak, a policy, ever so unwise, an enterprise ever so dangerous, there will always be found some one who will publicly advocate its merits.
Now, the subject which I wish to discuss is neither the one nor the other, but it seems that those who believe in its principles are slow in coming forward to discuss its merits and demerits, if such it has, in order that the subject may be thoroughly understood by everybody. Now, I allude to the organization known as the Farmers Educational and Co-operative Union of America. Why is it that the principles of the Farmers Union are not better understood among the people in general? I believe that the fault lies principally with the members themselves. I often meet people that ask me, why don't the Farmers Union have more open meetings, why don't you have more public discussions and thoroughly explain the principles of and the benefits to be derived from your order? Therein lies the reason: we have not made the progress we should have made in Mills county. Now, brethren, let us remedy this fault. The editor of the Eagle kindly assures me that the columns of his paper are open to members of the Union for short articles discussing this subject. Let us take advantage of this offer and let it not be our fault if every intelligent person in Mills county is not thoroughly informed in regard to our principles. The writer of this article is one of those who believe that the time is soon coming when every farmer and every business man in the south will be found shoulder to shoulder fighting for self preservation against those giant combinations of capital known as Trusts or monopolies, which are gradually sapping the life-blood of our agricultural population by destroying competition and by grinding to dust every individual or company that dares to engage in any commercial enterprise without their permission. Now, I can't see why any business man of Goldthwaite or any other town in the South should be unfriendly to the Farmers Union. Our interests are identical and inseparable; the prosperity of one is the gain of the other; the failure of one is the loss of the other. Now, if there is anything any intelligent person can find to object to in the farmer educating himself along the lines of scientific farming, diversity of crops, judicious marketing of produce, discouraging the mortgage system, promoting a brotherly feeling and interest in the welfare of our fellow-citizens, I confess that I cannot see it and would be glad to see such objections in print.
HAY SEED.

Clyde Faulkner, one of the prosperous young farmers of the Pleasant Grove community and a son of Mr. L. W. Faulkner of this city, brought to the Eagle office the first of the week some of the finest stalks and heads of wheat and barley ever saw grown. It has attracted the admiration of all who have seen it.

Science has proven that the moon has an atmosphere, which makes life in some form possible on that satellite, but not for human beings, who have a hard enough time on this earth of ours; especially those who don't know that Electric Bitters cure headache, biliousness, malaria, chills and fever, jaundice, dyspepsia, dizziness, torpid liver, kidney complaints, general debility and female weaknesses. BLACKBURN RANCH.

Editor Eagle: Responding gladly to the opportunity that presents itself, I'll avail myself of "rounding up" a few facts, outlining the situation of affairs that surround my association. I find that cowboy life is much different from farming. I began without any experience and have now accumulated experience by carload lots; it is based on quantity not quality. However, I find the labor not burdensome nor confining. You are here and yonder one day and some other place next day, then perhaps 3 months on the ranch and never go to town a single time.

Church, Sunday school, society and children are scarce. 12 nearest neighbors have only 13 children in all the families. We have preaching once each month by the Presbyterians, of which the scribe has the high honor of being their choirster. Occasionally the young people get up a dance and send out invitations 3 weeks beforehand and some will go 20 to 30 miles to them. Sociables are unknown and Sunday working is very simple especially through the winter, work as many days as there are in the month, sowing out and feed on Sunday, gather cattle, anything that is to be done, yet a young man can make money here by sticking and staying. I came out here one and half years ago, scarcely know anything about the life and to-day I am the foreman of an 18 section ranch, 700 head of cattle and am drawing a good salary, having telephone connection all over the country. Regarding the chuck, there is the hardest proposition, we are all "male biscuit shooters" and "bean boilers" I often see and do exist on some chuck that is impossible to stick a fork in the gravy, that is the truth; not often I ever see any chuck cooked by a woman. Bathing is the order of the day and truly and surely "we bathers are the salt of the earth." Say, Eagle correspondents, isn't that a fact, I think the Maid O' Washboard will agree with me on this simple proposition, I've seen her and she is an excellent young lady.

This country is settling up, land is cheap here; I am no land agent but if any of my Mills county friends are desirous of purchasing if they will write me their wants and mean business can locate it for them in small or large tracts, prices ranging \$2.50 to \$4.00 per acre, easy to put in cultivation too, and teams reasonable, but all cash bids gets the bargains in land deals away.
I am situated on midway ground between Sterling City and Garden City. Freight supplies from Big Springs. Quite a number of my Mills county "rabbit waters" out in this country.
We all are now occupying prominent position—prayer rest assured and all read the Eagle. I send the required amount to forward my subscription another year. I send my sincerest regards to all of my friends down the line while the besting life is high as a hawk's nest in honesty and purity, etc.

A. O. Harrell and wife, who live ten miles north of town, have a new girl in their home since Monday. Congratulations.

The storm which swept over the little town of Briggs took all the earthly possessions of numbers of families and left them wounded and destitute.
Married. Thursday evening, April 12, 1906, Mr. E. C. Berry of Mercury, McCulloch county, to Miss Dora Berry of Burnet county. The interesting nuptial ceremony was administered by Rev. B. E. Huggins at his home.

Uncle Bud and Aunt Jane Gwin have returned from Killeen, where they spent the winter with relatives. They will go to Goldthwaite in a few days, and may spend some time there, though they will always claim Lampasas as their home.
S. C. Littlepage, now making his home at Goldthwaite, was among the visitors during the past week. Mr. Littlepage will probably drift back to Lampasas or Burnet county one of these days, and make his permanent home with the people whom he has always known. Lampasas would gladly welcome him, for he makes an excellent citizen.—Leader.

LETTER TO C. E. STRICKLAND
Goldthwaite, Texas.
Dear Sir: You sell a good many things by the gallon. Being a decent man, you give full measure. You know what we mean; you know that short weight and short measure are common among—well, we hope there are no short measures and weights in your town.

There are, though. Ribbons and laces and trimmings sold by the "dozen" measure nine or ten yards. There is no complaint, because "they all do it." You have the same plague in your goods—nearly everything, canned or bottled, cheats in the quantity. Almost nobody gives full weight in a factory package!
We are one of the almost nobodies. We sell paint, by the gallon, to paint your house; and our gallon is just the same as yours that you measure yeguar with—231 cubic inches.
Good paint too—Devco lead and zinc—takes fewer gallons than mixed paint and wears twice as long as lead and oil.
You own a house. That's why we are writing to you. Yours truly,
F. W. Devco & Co.
J. D. Urquhart sells our paint.

Cure your Kidneys

DO NOT ENDANGER LIFE WHEN A GOLDTHWAITE CITIZEN SHOWS YOU THE CURE
Why will people continue to suffer the agonies of kidney complaint, backache, urinary disorders, lameness, headaches, languor, why allow themselves to become chronic invalids, when a certain cure is offered them?
Doan's Kidney Pills is the remedy to use, because it gives to the kidneys the help they need to perform their work.
If you have any, even one, of the symptoms of kidney diseases, cure yourself now, before diabetes, dropsy, or Bright's disease sets in. Read this Goldthwaite testimony:
James Lowe, retired lumber merchant, living at the west edge of Goldthwaite, Texas, says: "I had seen Doan's Kidney Pills advertised frequently as being a good kidney remedy, so when they were recommended to me at R. E. Clements' drug store I procured a box. My wife had been complaining a good deal with pain and soreness across the back. If she caught a cold or got overworked it all seemed to settle in her kidneys. After using one box of Doan's Kidney Pills she found great relief. Her back got stronger and the action of the kidneys became more regular. I take pleasure in recommending this excellent remedy."
For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.
Remember the name—Doan's—and take no other.

Fistula, Polleil and the Teeth a Specialty
Derangements of the teeth of the horse very frequently lead to grave difficulties, both local and constitutional. The teeth often become decayed, holes form in them and toothache is a common occurrence. There is no such thing as blind teeth, as is often termed, it is either a rotten or a long tooth. Ninety per cent of the horses that are fed condition powders to recuperate their health, need nothing but their teeth repaired.
