TO THOSE WHO WANT LOCAL OPTION LAWS ENFORCED. HON. R. A. John is a candidate for Judge of the Court of Appeals, to succeed Judge Henderson, who has been there 12 years. We have every reason to believe that Judge John's ability and standing will give more satisfactory opinions than we have been getting from a majority of said court on local option laws. If we want to enforce any law we must look after officers from constable to president who favor such laws.

BROWNWOOD, TEXAS.

Ashville, N. C., June 20, 1906.

"I finished yesterday testing the samples of Flour you sent me and found as you stated that you had made quite an improvement in the L. B. grade, in fact the last sample of L. B. grade you sent is as clear and of as good color under the slick as the first sample of Cake Flour, and the last sample of Cake Flour was extra nice. I tested it against the best flour I could find here (Ashville) some improvements in their gin and from Kentucky and Tennessee, and we get the best flour from their best mills, and the Cake Flour was the whitest both under the slick and in the dough; and the cleanest from specks. If you keep J. W. Grisham and family have that flour up to the sample you sent me you need not fear any mill getting your trade. I would like Fisher street, now occupied by Mrs. to see samples of the flour when you get to grinding on all new wheat; I have saved some of the last samples to see what the difference will be.

The above is a portion of a letter received from Mr. Lambertson, which was a very agreeable Cathlene, who spent several days surprise, as I wrote him to criticise the samples of flour sent and report the result. W. P. Lambertson is too well known for me to say anything of his ability or experience as a miller; but I will say in explanation that our books show we have expended in cash, over (\$14,000) Fourteen Thousand Dollars on new machinery and improvements in the past twelve months. This Prof. Geo. McDonald of Santa Anna has been done to make the Mill up-to-date and PERFECTION, the results I am sure will satisfy our
