#### STANTON.

I want to say to my many friends of Mills county that I think the south-west Texas country the finest I ever saw. I have visited the north-west plains of Texas, Oklahoma and Indian Territory, and after a thorough investigation I find we have two more months to grow and gather crops. I also find that we have as good seasons, and the best grass country I ever

school land in El Paso county at Sierra Blanco, where the T. & P railroad and the S. P. railroad come together. I am in 61-2 miles of the town. I have five sections of fine agricultural land and the rest good grazing land. Now is the time for the old farmer or ranchm in to come through and buy or take up school land. I am 37-years o'd and never saw such opportunities for men with a little money and a little gall.

I left old Star in December last. I write this to let my old friends in Goldthwaite, who helped my through the tight places and the rest of my friends through Mills county, that they may know that I am not dead, neither forgotten the many kind favors I received at their hands. T. B. HARDIN.

IT PAYS TO PAY CASH

The Beautiful line of Summer Dress Goods, Trimmings and the like that we are showing continues to attract careful buyers and those who are interested in styles and qualities as well as prices. Never has this house been able to show so complete a line of new goods and those who visit our store always find new and pretty things in Dry Goods and Notions.

We are especially well stocked on shoes and can fit nearly anybody, in size and style as well as price and quality. If you wear a pair of our common sense shaped shoes you will always want that style.

Our buyer is in New York selecting the largest and nicest line of Fall Dry Goods ever brought to this town. These goods will be here in plenty of time for the fall trade-some are already on the way. They will soon be coming by the thousands of dollars worth and we are making room for them. This is a good time to buy new and seasonable goods at our store, while we are interested in making room for the fall stock.

"I finished yesterday testing the samples of Flour you sent me and found as you stated that you had made quite an improvement in the L. B. grade, in fact the last sample of L. B. grade you sent is as clear and of as good color under the slick as the first sample of Cake Flour, and the last Lon McKinley, Walter Cole and sample of Cake Flour was extra nice. I tested it against the best flour I could find here (Ashville) from Kentucky and Tennessee, and we get the best flour from their best mills, and the Cake Flour was the whitest both under the slick and in the dough; and the cleanest from specks. If you keep that flour up to the sample you sent me you need not fear any mill getting your trade. I would like to see samples of the flour when you get to grinding on all new wheat; I have saved some of the last samples to see what the difference will be. W. P. LAMBERTSON.

Derangements of the teeth of the horse very frequently lead to grave difficulties, both local and constitutional. The teeth often become decayed, holes form in them and toochache is a common occurrence. There is no such thing as blind teeth, as is often termed, it is either a rotten or a long tooth. Ninety per cent of the horses that are fed condition powders to recuperate their health, need nothing but their teeth repaired.
