WHY NOT MAKE COMPARISON

And see if we are not justified in making all the claims we have made from time to time. A person should satisfy himself or herself first and then believe. We suggest the quickest way is to make comparison. Compare our goods, compare the quality, and last of all compare the price. There is always a big difference between what a thing is thought to be worth and what it really is worth. Now is the time when a little money goes a long ways in the purchase of Clothes at our store. No matter what price you've made up your mind to pay for your clothes, you want to secure the best possible value for the price. We are satisfied that no store will sell you as good clothes as the Spero Michael & Son garments at equal price. That's why we are selling so many of these suits, they give the best value for the money. We have made friends from "Missouri" who were skeptical when they came to us, but we "showed" them that we could sell them stylish, well fitting, serviceable garments at modern prices. Give us a chance to show you and you will be convinced, too.

ABOVE ALL THE Barry Shoe

If our experience in the shoe business is of any value to you, buy a pair of Barry Shoes on our recommendation as to their high quality and absolute reliability. You will note their style, comfort, and extreme durability in service, and you will realize that we tell the right truth when we say "One Pair Another." That's quality.

We take pride in our shoe department, which is complete in assortment of sizes, styles and prices. We can fit anybody's foot and pocket book. Let us show you.

NEIGHBORING NEWS.

ITEMS CULLED FROM THE LEADING LOCAL PAPERS.

SAN SABA.
H. L. Richmond and Miss Aura Chiles, of Shiloh, were married at noon Wednesday Oct. 3rd.

W. T. Biokham, of Big Valley, was over to see his son, Dr. W. S. Biokham, Tuesday.

W. L. Bannister purchased T. A. Baker's herd of high grade hereford cattle, about 138, at \$15 per head.

T. D. Taff, of Shaw Bend, is moving to Goldthwaite where he will engage in the hotel business, having bought the fixtures and leased the Senterfit hotel building.

Engineer W. S. Haywood and corps finished the field survey of San Saba Valley Railroad line from Antelope Gap to San Saba Tuesday and the estimate men are now busy working up the data.

Sheriff E. T. Neal returned Sunday from a trip to Midland, Big Springs and Tahoka. On his trip he saw Lee Kirkpatrick near Stanton and reports Lee reports that they are prosperous and well pleased. While there Mr. Neal purchased the stone business building on the north side of the square in San Saba from Mr. Ray.—News.

COMANCHE.
About 2500 bales of cotton have been received at the two yards in the city to date.

A large crowd attended the unveiling of the Woodmen monument at Bibb last Sunday.

Capt. T. J. Farrar was over from Goldthwaite Wednesday prospecting with a view to transferring his citizenship back to his old love, Comanche will be glad if he finally determines to return.

Monday just after noon Wiley Mitchell, an employee of the Comanche oil mill, was accidentally caught in the machinery and killed. He was working at the stitching machine in the basement of the mill and had just completed the job he had on hand, when he attempted to throw the belt with his arm. In some way not known exactly his coat became entangled in the belt, and the unfortunate young man was whirled over the shaft with fatal results.—Chief.

BROWNWOOD.
Last night the county commissioners let the contract for the erection of a new and very

pretty iron fence around the court house.

The time for the meeting of the Northwest Texas Conference is rapidly approaching. It will convene in Brownwood Nov. 15 and Bishop E. E. Hess will preside.

The jury in the Ross Alderson case, charged with violating the local option laws, Tuesday afternoon returned a verdict of guilty and assessed his punishment at thirty days in jail and a fine of \$50.

Rev. O. M. Fitzhugh has decided to accept the call to the Louisville church and will make his preparations to leave Brownwood as soon as his relations with the Brownwood church can be officially dissolved.

For the present Mrs. R. Uterback has abandoned the idea of building the new three story hotel on her Center avenue lot, and on Tuesday a deal was closed by her and W. O. Hunt for the furnishings and a three years lease on the Crown Hotel.

Judge Coffee has granted Dr. T. A. Morrison a new trial in the case wherein he is charged with violating the local option law. Dr. Morrison went into trial without an attorney to represent him in the case and for this reason the new trial is granted.

A mass meeting was held at court house Tuesday night for the purpose of organizing a Bailley Club. The attendance was not so large as it could have been, owing to other attractions, but those present were enthusiastic and passed resolutions endorsing Senator Bailley.—Bulletin.

LAMPASAS.
J. J. Dumas, of Izard, died at his home Saturday after an illness of several months of consumption.

J. F. Smith, who founded the Troy Laundry here, and J. B. McCoury of Bend, have purchased the Lampasas Steam Laundry from Clark & Meeks.

Lancy Clark, a young man whose home was in Sunny Lane neighborhood, died Sunday after a lingering illness of slow fever.

W. T. B. Butler, who has lived for the past 30 years in Houston, Texas, but who has been making his home here for the last few months with his cousins, M. Y. and C. D. Stokes, died Wednesday morning at the residence of M. Y. Stokes.

But for the prompt interven-

tion of bystanders, there might have been a very serious if not fatal tragedy in the hall of the court house Monday. City Marshal Zivley and Mack Hurt, proprietor of the corner saloon, became involved in a difficulty and while some twenty feet apart, a gun play was made. There was a crowd in the court room and several men took hold of each antagonist, and trouble was averted.

D. H. Trent and his son, W. H. Trent, of Goldthwaite, passed through Saturday afternoon on

their way home from the Llano fair. They report the fair a great success. Messrs. Trent are in the banking business at Goldthwaite and have the distinction of carrying the largest amount of deposits of any bank in the west. D. H. Trent is one of the old timers of this section, and learned to make money in land and cattle when both of these were considered almost worthless.

Cards are out announcing the approaching marriage of Mr. Marvin Davis, son of P. Z. Davis of Lometa, and Miss Mable Kirby, daughter of Mr. and Mrs. John T. Kirby, The Leader. He wishes them much happiness in the advance of the event. The bride is both of worthy families and has many friends who will be pleased to know of their contemplated union.—Lead Iron, Fort-Leader.

LOMETA. Necessary star Mrs. Tora Reeves, scales, etc., for a parents, M. L. H. 1735, wife at Payne, Smith this week collected money subscribed by Duncan of Goldthwaite as a Reporter, to have the warehouse and the committee in the charge of the work has every Editor Edge in readiness.

As we find several notices of county union who do not understand our plan for building and operating a union warehouse, the county union requested me to write to all the county papers, setting forth the necessity and advantages of the warehouse system, and outlining our proposed plan of organization and co-operation along that line in Mills county.

If you will allow me space in your paper I will make an effort to comply with the request.

One of the questions of most interest to the farmer as soon as his cotton is gathered in, how am I to manage the sale so as to realize the most out of my crop. Some try holding their cotton or at least a portion of it in hopes of higher prices later on. Others sell as soon as possible for fear the market goes lower, or that the weather damage would more than offset the rise in value; and the latter class is largely in the majority through out the cotton belt. Now, to any one who will study the situation a little, the present practice of dumping most of the crop on the market in three or four months can be seen to be radically wrong. The spinners use cotton throughout the year and don't care to buy a year's supply of cotton in the short space of three or four months, hence moneyed middlemen found it profitable to buy cotton at low prices during the fall, and sell it to the spinners as they needed it for use in their mills at high prices and made contracts to deliver at stated prices on certain dates throughout the year, and from this grew out present system of "dealing in futures." To prove that it is bad business policy to sell cotton as in the past, it is only necessary to use a few simple illustrations. We all realize the evil effects of "glutting the market" with any of our perishable products such as fruits, vegetables, etc, but fail to observe that the same results follow in a less degree, the overloading of the market on non-perishable produce. We know that over eating causes indigestion and dyspepsia and that a fatted horse or a dyspeptic person is hard to please with food, but seldom apply the same principles to the marketing of our money crop—cotton.

There are several obstacles in the way of holding cotton. First, and perhaps most prominent, is the credit system, which forces the cotton raiser to sell his cotton as soon as gathered to meet his obligations, regardless of

WHY NOT MAKE COMPARISON

And see if we are not justified in making all the claims we have made from time to time. A person should satisfy himself or herself first and then believe. We suggest the quickest way is to make comparison. Compare our goods, compare the quality, and last of all compare the price. There is always a big difference between what a thing is thought to be worth and what it really is worth. Now is the time when a little money goes a long ways in the purchase of Clothes at our store. No matter what price you've made up your mind to pay for your clothes, you want to secure the best possible value for the price. We are satisfied that no store will sell you as good clothes as the Spero Michael & Son garments at equal price. That's why we are selling so many of these suits, they give the best value for the money. We have made friends from "Missouri" who were skeptical when they came to us, but we "showed" them that we could sell them stylish, well fitting, serviceable garments at modern prices. Give us a chance to show you and you will be convinced, too.

We take pride in our shoe department, which is complete in assortment of sizes, styles and prices. We can fit anybody's foot and pocket book. Let us show you.

ABOVE ALL THE Barry Shoe

If our experience in the shoe business is of any value to you, buy a pair of Barry Shoes on our recommendation as to their high quality and absolute reliability. You will note their style, comfort, and extreme durability in service, and you will realize that we tell right truth when we say "One Pair Another." That's quality.

company is to be known as Mills County Farmers Union Warehouse Co. Shares will be \$1 each and one person can take any number of shares not to exceed 200. Each stockholder will be entitled to one vote regardless of the number of shares he owns. It is to be a public bonded warehouse. By public is meant that it shall be used, not only for the stockholders or union members, but for storing produce for the public in general. By bonded is meant that the board of directors shall make bond to the state of Texas in the sum of \$5000 for the faithful performance of duty as public warehousemen. The board of directors will, of course, place the warehouse manager under sufficient bond. The stockholders will hold meetings and elect officers and directors and adopt rules and regulations to govern the warehouse business, much the same as other joint stock companies do. Charges for storage will be uniform; no reduction being made to stockholders or members of the union. While the charges have not been fixed they will likely be about the same as in Houston or Galveston, \$1 per bale for first month, which includes drayage, weighing, sampling, storage, selling commission, etc.; in fact, all expense except freight in case cotton is shipped. After first month charges will be: Storage 15c per month and insurance at actual cost, which will be about 20c per bale per month. Out of the profits arising from the operation of the warehouse, the board of directors to the stockholders. Ground has been secured just east of the cotton platform and work will begin as soon as sufficient money is raised to enable us to let the contract. To those who have subscribed for stock I would say: send your money in as soon as possible to W. A. Bayley, secretary warehouse committee, Goldthwaite, Texas.
To members of the union who have not subscribed, you are invited to take stock with us and help us get the warehouse built as soon as possible. Those who have taken stock can take more if they so desire, as none have reached the limit.
Yours for the warehouse,

He was working at the stitching machine in the basement of the mill and had just completed the job he had on hand, when he attempted to throw the belt with his arm. In some way not known exactly his coat became entangled in the belt, and the unfortunate young man was whirled over the shaft with fatal results.—Chief, Brownwood.

W. T. B. Butler, who has lived for the past 30 years in Houston, Texas, but who has been making his home here for the last few months with his cousins, M. Y. and C. D. Stokes, died Wednesday morning at the residence of M. Y. Stokes. But for the prompt interven-

tion of bystanders, there might have been a very serious if not fatal tragedy in the hall of the court house Monday. City Marshal Zivley and Mack Hurt, proprietor of the corner saloon, became involved in a difficulty and while some twenty feet apart, a gun play was made. There was a crowd in the court room and several men took hold of each antagonist, and trouble was averted.
D. H. Trent and his son, W. H. Trent, of Goldthwaite, passed through Saturday afternoon on their way home from the Llano fair. They report the fair a great success. Messrs. Trent are in the banking business at Goldthwaite and have the distinction of carrying the largest amount of deposits of any bank in the west. D. H. Trent is one of the old timers of this section, and learned to make money in land and cattle when both of these were considered almost worthless.

As we find several notices of county union who do not stand our plan for building a union warehouse, the county union requested me to write to all the county papers, setting forth the necessity and advantage of the warehouse system, and outlining our proposed plans of organization and co-operation along that line in Mill county.
If you will allow me space in your paper I will make an effort to comply with the request.
One of the questions of most interest to the farmer as soon as his cotton is gathered in; how am I to manage the sale so as to realize the most out of my crop. Some try holding their cotton or at least a portion of it in hopes of higher prices later on. Others sell as soon as possible for fear the market goes lower, or that the weather damage would more than offset the rise in value; and the latter class is largely in the majority throughout the cotton belt. Now, to any one who will study the situation a little, the present practice of dumping most of the crop on the market in three or four months can be seen to be radically wrong. The spinners use cotton throughout the year and don't care to buy a year's supply of cotton in the short space of three or four months, hence moneyed middlemen find it profitable to buy cotton at low prices during the fall, and sell it to the spinners as they need it for use in their mills at high prices and made contracts to deliver at stated prices on certain dates throughout the year, and from this grew out present system of "dealing in futures." To prove that it is bad business policy to sell cotton as in the past, it is only necessary to use a few simple illustrations. We all realize the evil effects of "glutting the market" with any of our perishable products such as fruits, vegetables, etc. etc, but fail to observe that the same results follow in a less degree, the overloading of the market on non-perishable produce. We know that over eating causes indigestion and dyspepsia and that a fatted horse or a dyspeptic person is hard to please with food, but seldom apply the same principles to the marketing of our money crop—cotton.
There are several obstacles in the way of holding cotton. First, and perhaps most prominent, is the credit system, which forces the cotton raiser to sell his cotton as soon as gathered to meet his obligations, regardless of

fast as gathered put into the warehouse
house where it can be protected from
weather and insured under the best
rates possible, and if money is needed
the negotiable warehouse receipt

banks, which as a rule, will loan as
two-thirds the value of cotton.
The plan also proposes that a central
warehouse be located at some great
cotton market or near the coast
with which the interior warehouse
can co-operate in the storing and
marketing of cotton; or it can be
patronized by individuals if they so
desire. Each warehouse should have
a competent grader and classer of
cotton in charge, so that he could in-
form prospective buyers as to what
he had stored for sale, and price re-
quired to get it. Now, let us look for
the advantages to be derived from
having a warehouse.
1st. Cotton is not dumped on a
glutted market but held in the ware-
house till the spinners need it, then
fed to a hungry market; and herein
lies the greatest secret in controlling
the price of cotton—feeding a hungry
market.
2nd. By having our cotton in bulk
it can be sold to better advantage
buyers paying 1/4 to 1/2 per pound
above market price last year for cot-
ton in 500 bale lots.
3rd. We have been howling, "Away
with the speculator," but this can
never be accomplished without the
use of warehouses, for the spinners at
the cotton conference at Washington,
D. C., May 1 and 2, told us that they
were anxious for direct relations
as we, but that they could not get
away from the present system until
they were assured we were in position
to furnish them cotton in bulk,
hence the absolute necessity of warehouses.
Last year cotton was sold direct
from a Texas warehouse to the spin-
ners of England, thus eliminating
the speculator entirely from that sale
of cotton. With a chain of warehouses
throughout the south and a minimum
price set on cotton farmers can surely
be masters of the situation if they
will.
Now, for our plan for a warehouse
at Goldthwaite: We are going to
form a co-operative joint stock com-
pany with none but members of the
Farmers Union as stockholders. The

WEDDING BELLS, WEDDING BELLS.
Didn't you hear them ringing?
Last Sunday eve at 8 o'clock
Brother Moon said the words
that made Mr. Pete Knight and
Miss Bernice Hamilton one.
After the ceremony they were
all invited into the dining room,
which had been prepared for the
occasion. It is well to say that
Mrs. Hamilton understands how
to dress a table and set the supper
to a crowd of this kind. After a
late hour the crowd left that king
Mrs. Hamilton for the nice time
they had and almost wishing
there would be another wedding
soon. Pete and Bernice grew to
manhood and womanhood at this

one that knew them. They re-

all wish for Mr. and Mrs. Knight

ity.

Will Walton made a business visit to Brownwood one day this week.
G. H. Frazell has been employed this week assisting in management of Gatlin & Geeslin's gin.
L. B. Walters and family now occupy the residence known as the Matt Roach place on Parker street.
In making a "flying switch" near the water tank Tuesday afternoon a box car was overturned, but there was not much damage.

All notes and account due Leon Harris Lumber company or Higginbotham Lumber company were due Oct. 1. We need the money. Pay up, and see—Higginbotham Lumber Co.
Henry Martin sent a number of buggies to Brady this week to place in his store at that place. Mr. Schweining was in charge of the vehicles which were "traded" through the country.
G. W. Essell of Carnes county came in the first of the week to visit his brother, H. O. Essell, the next sheriff of Mills county. This is Mr. Essell's first visit to this county in twenty-four years and he and his brother have not met before this time in twenty years.

Brother Fleming preached an interesting sermon to us Sunday, the pastor, Rev. McAllister, not being able to come. If not providentially hindered he will preach for us Saturday night and Sunday. Our conference day has been changed from the fourth to the second Sunday in each month. At our next conference two deacons will be ordained.
S. E. Stark has sold his farm to Mr. Joe Williams. Mr. Stark expects to move to San Saba county in the near future.
A. H. Hashaw has sold his farm to Mr. Allen of Goldthwaite. Mr. Hashaw has bought a farm near North Brown and will move when he gets his crop gathered.
Health is not very good, as there has been chills and fever in almost every family.
Misses Zay Williams and Carrie Saylor of Goldthwaite were the guests of Miss Virgie Brooks Sunday.
Some of our people anticipate a trip to Brownwood Friday.
The grim reaper, death has visited our community once more. On last Friday night God called from this world Mrs. Moore. She has only resided in our midst a few weeks. She has been a victim to that dreadful disease, heart trouble for some time. She leaves four children to mourn her loss. May God lead them in the way that they may meet their father and mother, who have gone on to that better world where sad partings come no more. She was laid to rest Sunday morning in the Rock Springs cemetery, to

WE TWO.

There were three followed their Lord in baptism at the crossing on Browns Creek Sunday evening.
Little Ethel, daughter of Mr. and Mrs. W. E. Wiggins, has been at this writing.
Almost every one went to the show or at least we didn't miss those who stayed at home.

We have some talk of a Farmers Union going to be organized at Cryer. We hope those who are inclined that way will be successful in carrying out their proposed plans.
One of Mr. Wiggins cotton pickers baby died Sunday and was buried at North Brown Monday evening. We haven't learned the people's names.
We have heard the wedding bells ringing in the distance, but we promised to not tell who. Almost time to select that Thanksgiving turkey and if Mills county people haven't got a cause to be thankful this season I don't know who has.
Our school house surely ought to be painted this fall. Lets always keep education in front of every thing and never allow it to be relegated to the rear. MAS.

CHRISTIAN WOMEN.
The ladies of the Christian church met with Mrs. Skaggs last Sunday afternoon to organize an auxiliary of the Christian Woman's Board of missions. There were twelve names enrolled and officers were elected as follows: Mrs. J. M. Skaggs, president; Mrs. L. B. Walters, vice president; Mrs. E. M. Dickerson, secretary; Miss Mayme Campbell, press reporter. The first regular meeting is to be held Nov. 6, 1906, at the home of Mrs. Bodkin. We will be glad to have the co-operation of all the ladies interested in mission work. MAYME CAMPBELL, Press Reporter.

FARM LOANS.
On improved farms we advance fifty per cent of their value on ten years time, at eight per cent interest, with the privilege of prepayment in any one year of any amount, at any time, not to exceed one fifth of the principal. Thus you have the benefit of ten years time, yet you may pay off the loan in five years, if you so desire.
If you have outstanding vendor's lien paper see us, we may be able to save you considerable money in the way of interest, besides we might arrange much better terms than you now have.
If you have vendor's lien notes that you want cashed call and let us investigate, and if in every way correct we will take them up.

Fistula, Pollell and the Teeth a Specialty

Derangements of the teeth of the horse very frequently lead to grave difficulties, both local and constitutional. The teeth often become decayed, holes form in them and toothache is a common occurrence. There is no such thing as blind teeth, as is often termed, it is either a rotten or a long tooth. Ninety per cent of the horses that are fed condition powders to recuperate their health, need nothing but their teeth repaired.

A GOOD SHOW.

The Begger Prince Opera company gave a performance in the opera house Tuesday evening to a large and delighted audience. There are a number of stars in this company and in the Mikado they show to good advantage. Manager Miller is to be congratulated for having booked such a splendid attraction and it is hoped he will be able to secure a return date.

CITIZENS MEET.

There was a citizens meeting in the Baptist church Thursday afternoon to discuss a more strict enforcement of prohibition in this town. A committee composed of Messrs. J. F. Jackson, P. H. Clemen and Dr. M. L. Brown was appointed to fix a date for another meeting of the same kind and invite Hon. C. H. Jenkins of Brownwood to be present and deliver an address.

The committee has arranged for Judge Jenkins to speak in the Methodist church next Wednesday evening at 8:15.

CITY COUNCIL.

The city council met Wednesday night and approved the tax rolls for 1906. The rolls showed a total assessment of \$619,565, and the total taxes on that amount will be \$1,549.52.

It was ordered that the assessor be allowed 2 per cent on all taxes assessed and 2 per cent on all taxes collected.

The secretary was ordered to draw a warrant for \$25 in favor of the scavenger.

A SMALL BLAZE.

There was a fire at Fairman & Son's gin Thursday morning that would have been serious had not the building been especially equipped for such emergencies.

It is supposed that a match in the cotton was the cause of the fire, but whatever it was, those who saw the flames flash through the lint room thought the splendidly equipped gin would soon be in ruins. By prompt work the fire was extinguished and there was very little damage.
