BROWNWOOD

W. R. Terry, an employee of the Brownwood oil mill, was quite seriously injured Saturday when his arm was caught in the seed conveyor and horribly crushed.

Late Saturday afternoon while driving with a girl friend Miss Pearl Talbot was thrown from her buggy and badly bruised. The accident occurred at the corner of Brady Avenue and Second street, where a fire hydrant at the corner of the sidewalk appears to be out in the street.

The additional road bonds, issued to complete the work of grading and paving the public roads in precinct one, have been received and delivered to Brooke Smith & Company, who purchased them at par, and the commissioners are now pushing the work of grading the roads.

At four o'clock Sunday afternoon the fire alarm was sounded calling the department to the home of J. G. Smith on Avenue D, in Ford's addition, where fire, started from an oil stove, was fast consuming the building and contents that were not carried out by the neighbors.

After turning in sixty bills last week the grand jury is still grinding away with prospects good for another weeks work. While a number of the grand jurors were playing 42 in a hotel lobby Tuesday it was suspected that a poker game was going on overhead and an officer was called in and four arrests followed.

The Bulletin learns that petitions have been circulated in the Bangs and Zephyr communities asking for an election to determine whether or not bonds will be issued to grade and gravel the roads in the two precincts. These petitions will be presented to the commissioners court this week and more than likely the elections will be ordered.—Bulletin.

HAMILTON.

The new bridge across Bear Creek has been opened to travel.

Little & Sons, of Goldthwaite, have rented the Eldson building that has been occupied by E. C. Driskill as a furniture store and will open a general dry goods store here about Feb. 15. We are glad to have these new people come among us.

When a man tries to get a thing before the public these days without advertising it in the newspaper, he will find he has made a mistake and his efforts will end in failure. This is a day when people read the newspapers and the intelligent ones do not consider anything of much consequence that isn't worth advertising.—Herald.

LAMPASAS

A burglary occurred at Ogle Tuesday night, Jan. 10, the store being broken into and about \$20 worth of goods being taken out by the intruder.

John Cowan, son of Rev. J. W. Cowan, was painfully hurt on the public school grounds Monday while playing basket ball. For a time he was helpless and a conveyance was secured to take him home.

New pumping machinery for the city water works has arrived and will be installed in a short time. It is claimed that the new pumps will show more than twice the capacity of the machinery now in use.

The entire membership of the commissioners court spent some days of this week investigating and testing a machine for the manufacture of cement culverts, the salesman and both road superintendents being present and assisting in the work. Just what the result will be is not known.—Leader.

Quite an unusual marriage, in points of ages at least, occurred in the community some ten days ago when J. M. Farmer and Mrs. E. M. Foredee were declared man and wife. Mr. Farmer was 27 years of age while his wife had entered her 83 year. Their acquaintance began at the county farm last summer where Mrs. Foredee was at the home of the farm and Mr. Farmer was at work. The courtship was continued in the city where the bride had been serving as companion and nurse for an invalid woman during the last six months.—Bell County Democrat.

An exchange tells the story of a boy who went to market with a sack of roasting ears, and, after lingering around town all day, returned home without selling them. When asked by his mother why he had not sold the corn, he said no one asked him what he had in his sack. There are many merchants like the little boy. They have plenty of goods to sell, but they fail to say what they have in the sack. And almost every town has storekeepers exactly of that kind.—Terrell Transcript.

The citizen who neglects to pay his poll tax before the close of the present month will be disfranchised for the next year. This should be remembered by those who have to pay and they should not neglect the matter.

and left immediately for New Mexico to reside.

The remains of S. H. Hancock of Gustine arrived on the Friday morning train from Terrell. Mr. Hancock has been in the insane asylum for six years.

Last Saturday night our townsman, Mr. M. M. Coleman, was taken suddenly ill in Brownwood. He was feeling well, and while sitting in a show, the dreaded appendicitis seized him without warning. Home people were

soon communicated with and an operation performed immediately. At last accounts he was doing splendidly, and we trust is on the road to rapid recovery.—Chief.

The bereaved ones can be sure that all who know of their great sorrow deeply sympathize with them.

R. M. THOMPSON, Editor

Prohibition will go into effect in Hamilton on February 1.

The large number of bills introduced in the legislature at this session does not indicate "legislative rest."

In an election held throughout New Mexico last Saturday the constitution adopted by the recent state convention was ratified by an overwhelming majority.

Senator Culberson arrived in Texas the first of the week to remain perhaps two weeks. The legislature had already re-elected him to the senate when he arrived.

It is the purpose of the Commercial club to look after the business and financial interests of the town. Nearly all of the progressive business men are already members of the organization and those who are not enrolled on its list of members should realize that it is to their personal interest to affiliate with the organization.

The city council of Austin has declared forfeited the earnest money deposited by J. C. Dumont, who contracted to build the dam across the Colorado river at that place. The contractor will contest the action of the council on the grounds that the charter gives the aldermen no authority to contract for the building of the dam.

The matter of government competition with the printers of the country in printing envelopes at a rate lower than the printer can buy the blank envelopes is being agitated before congress both by those who oppose and those who advocate the continuance of the business by the government. The indications are now, however, that the envelope printing business by the government will not long continue, for its advocates have neither justice nor good business policy on their side.

It is a fact that many men are hindered in their efforts for the advancement of their town or community by the talk and acts of others who profess a desire to be builders, but who think the way to build is to pull down another who is above and beyond them. It is necessary for the people of a community to work in unison if they accomplish much in public matters, for it is a well known fact that one knocker can undo the work of a dozen enterprising men if he has sufficient standing to enable him to be heard.

There is no doubt that the prohibition amendment will be submitted to the people of Texas by the present legislature. The governor is in favor of allowing the people to vote on the proposition and a majority of both houses of the legislature advocate submission and are instructed to order the election. It is proposed to vote on the question in July and if the state wide prohibitionists are successful the legislature will enact the necessary laws to go into effect next January, giving the liquor people six months time in which to make arrangements to leave the state.

Boosts for Texas.

Improved public highways constitute a most convincing invitation to industry, as the farm, the factory, the railroad, the mine and all the people are vitally interested in public highways.

The pecan industry in Texas is becoming colossal in proportions. During 1910 there were 900 car loads or 20,000,000 pounds of pecans produced in the United States and of this amount Texas produced 504 car loads or 56 per cent. The finest natural pecan orchards in the world are in Texas and are confined to no one section of the state. From the Rio Grande to the Sabine and from the Red River to the Gulf these trees are to be found in abundance wherever there are streams of water. While the pecan industry is firmly established, there is still wide room for improvement and a few more years will probably see this industry developed to its fullest extent. The Texas pecan has gained a place on the market alongside the Elberta peach.

The improvement of our rivers and harbors will greatly lower the cost of transportation. We have 400 miles of Gulf Coast and 2,000 miles of inland waterways susceptible to navigation.

The history of the honey bee dates back to bygone ages. Since time immemorial this busy little insect has challenged the attention of man, and from it he has obtained sweets fit for the gods. Honey, the most luscious of all delicacies, has graced the table of man since the beginning of time. The Bible speaks of honey in more than fifty places, and Canaan is spoken of as a land of milk and honey. The honey industry in Texas is becoming more prominent each year. Heretofore the bee section has been confined largely to the Beeville and Uvalde countries, but it is gradually gaining territory and is one of the coming industries of the state. The Texas climate admits of aparian activity twelve months in the year and our soil naturally produces blossoms laden with sweets for these little workers.

It costs about \$5.00 per head to ship cattle from Texas to the Chicago packing houses, and the shipper must pay the freight. If we had enough packing houses in Texas to utilize our supply of live stock, and did our own feeding, we would add \$15.00 per head to our cattle. Packing houses sufficient to meet the present needs of Texas would add \$43,000,000 to the value of our cattle, which is more than the packing houses would cost.

We may gridiron the state with railroads, dot it with factories, build cities and fill the valleys with happy homes but we cannot create another acre of land. The investor may come to Texas and buy land, and if he cares to do so later can sell it and leave the state with all the property he brought into the state, but the investor who builds railroads, factories, irrigating canals, etc., cannot take them back with him, and he has established permanent value within the state.

The agricultural demonstration trains sent out by several of the railroads during the past year met with such hearty approval of the farmers the roads have decided to make these exhibits a permanent feature of their Industrial Departments. Corps of expert farmers, and lecturers are sent along with these trains delivering lectures, giving advice and answering questions. In several cases representatives of

the State and National Department of Agriculture have accompanied the party, as well as directors of experiment stations and farmers famous in special lines of production.

Pipe lines are primarily city builders. The pipe line brings the oil field to the refinery and the gas well to the city and the factory, and reduces the cost of transportation, as well as provides a feasible method of distributing the products of the gas and oil wells throughout the state.

Saving the birds is a subject that is receiving consideration at the hands of conservationists in Texas. Eight hundred millions of dollars worth of products of the United States are destroyed annually by insects according to an estimate made by the Secretary of the Department of Agriculture, which it is claimed could have been saved by the sparing of the birds.—Commercial Secretaries.

The labor unions and leaders of the state are looking forward with pleasure to the coming of their national leader, Eugene V. Debs, to this state. He is to speak in Waco next Sunday.

Mullin.

Editor Eagle:

Indications for rain have been good for several days, but the rain faileth not. Not being a new comer I will not mention the matter further, but patiently wait.

Dr. Pipkin of San Angelo has decided to locate in Mullin. We are glad to welcome such additions to our city any time. There is always room in Mullin for a good man.

A. Y. Acock has also lately moved to Mullin from some place west of Brownwood. He is going to work the farming part of Mr. Leineweber's farm.

John Boland is building a neat residence on his lot on the south side of the railway. Kemp Bros. are also doing some building. It hardly ever gets so dry that Mullin does not have some kind of new building going up.

By the time this becomes readable in the Eagle the fifth Sunday workers' conference of the Methodist church in Mills county will be in full blast in our little city. There has been an interesting program arranged, which we trust will be executed to the edification of all who attend.

Mr. Curb's child, north of Mullin, died Tuesday night from scarlet fever and was buried at Duren Wednesday.

There is to be an earnest effort made by the different denominations of Christians of Texas to have a house to house visitation by the Sunday school workers on the 22nd of February (Washington's birthday) for the purpose of arousing an interest in Sunday school work. One million people in Sunday school in the State of Texas! Who's who? Will Mills county Christians do their part? We are being urged by the general secretary to do something and say something and then get someone else to say something. He insists on giving it publicity in the county paper. Mr. Editor, you know something about it. Why don't you spread your big self, shake up Judge Allen and others, and urge upon them to do something at once, that Mills county, the "hub of Texas," may show her colors for this grand cause? Whom did you say is who? Are you the fellow? If you are, don't you know the old Book says "he that knoweth his duty and doeth it not shall be beaten with many stripes"? Now Brother Thompson, you know how bad a whipping hurts. Had you not better say something about this great movement? Say it like you meant it, and if you don't just understand it ask Judge Allen and some of the preachers—they have all been notified. Brother Jackson has some of the literature that he has laid aside and waiting for Judge Allen and Bob Thompson to start the ball. Mills county must not be left out. The purpose is to visit every home in the county and get the people to promise to attend the Sunday school. Do you know that only a very, very small percentage of the inmates of jails and penitentiaries are boys and men who attended Sunday school? If it helps in making character as well as good church-going, God-loving, Christian people, why not make an effort to put ourselves on record? What about it, Judge? Are you not our county president? Isn't it about time to let us know what to do? The general secretary said for ye scribe to do something. Don't you think he is at least making an effort? The general secretary says he will furnish copies of the Star that tells all about the movement

for \$2.00 per hundred. What about it? What about it? Don't all speak at once, but let some one start the ball, Who'll be who?

Rev. R. D. Moon, who has been on the sick list for several days, is out again. There has been considerable sickness in Mullin and vicinity since the holidays.

Ye scribe went with Mr. Leineweber last Tuesday to his farm. He is repairing his flume and has built a concrete dam across the Bayou that will give him inexhaustible water for irrigating. This is certainly a fine farm and Mr. Leineweber does not leave anything undone to make it stow to the sight-seer as being in good hands.

Messrs. Wigley & Son shipped a car load of fat cattle last Wednesday night. They have a pen of fat cattle under feed all the time.

We understand that Dr. Herrington contemplates leaving Mullin in the near future.

Mark Little, who happened to a very painful and at first thought to be a serious accident last Saturday night, is getting along very well and will be out again in a few days. As he was by himself it is not known how it happened. Other parties passing along the same road found him lying by the wayside unconscious and pretty badly butchered about the face with cuts and bruises that at first were thought to be dangerous. His horse had either run into a wire gate and fell or undertook to jump the gate and fell on the rider.

Mrs. Curtis Coming.

Mrs. Curtis, the well-known temperance lecturer, is to speak in the Methodist church next Wednesday night and will probably organize a society of W. C. T. U. at that time. She is a speaker of ability and pleasing address and those who fail to hear her will have cause to regret it.

Club Entertains.

On Wednesday afternoon, Jan. 18, the Art Embroidery Club was at home to about twenty-five of their friends at the beautiful Martin home, which was tastefully decorated with ferns and other pot plants. They were met at the door by Mrs. Martin and others of the Club. Their cordial greeting and gracious smiles made each guest more than glad she had accepted the hospitality and courtesy extended her. Miss Lillie passed score cards and "Progressive Bunco" was the diversion of the afternoon's pleasure, and after speeded games with nine tables of contestants, it was found that Mrs. Edgar Martin, Mrs. Pruden and Mrs. B. A. Harrie had all scored high. On drawing for the prize Mrs. Pruden received the beautiful dresser scarf, Covers were spread for forty and delicious fruit salad and cake were served.

Mrs. Scott and Miss Humphries favored with a few musical selections.

The Club guests were Mesdames Prater, Scott, Street, Wallace, Moss, Fairman, Toland, Little, Skaggs, Gillespie, Martin, Thompson, Mullin, Bridgeforth, Rudd and Misses Louis Humphries, Zella Prater, Lawrence Thompson. The out of town guests were Mrs. Pruden of Van Wert, Ohio, Mrs. Burch of Bronson, Texas, and Miss Jones of Ladonia.

In the evening the Club ladies with their husbands returned and spent a few hours in games and conversation. Mr. Randolph scored high for the gentlemen and Mrs. Bridgeforth and Mrs. Walter Fairman for the ladies.

At a late hour each bade Mr. and Mrs. Martin a pleasant goodnight hoping to have their home open to them again soon.

Work Appreciated.

The Eagle certainly appreciates the good work its correspondents are doing now. This paper has some good writers who send in the local happenings from the different communities and they can be sure that the people of all parts of the county and especially in their home communities join with the Eagle in appreciation of the splendid work they are doing in letting the public know what is going on in Mills county, which is a fine advertisement of the entire county. Keep up the good work, friends, we are all proud of you.

The Struggle Discourages Many a Citizen of Goldthwaite.

Around all day with an aching back; Can't rest at night; Enough to make any one "give out," Doan's Kidney Pills will give renewed life.

They will cure the backache; Cure every kidney ill.

Here is convincing proof that it is so: T. T. McElroy, Third St., Lampasas Texas, says: "For over a year I was annoyed almost constantly by a dull pain across my back. I had no energy and felt all run down. Another source of annoyance was the frequent desire to pass the kidney secretions and this weakness often obliged me to rise several times during the night. In spite of the various remedies I used, I grew no better until I took Doan's Kidney Pills. Besides stopping the backache, they improved my health. I recommend Doan's Kidney Pills with great confidence in their curative powers."

A MURDEROUS ASSAULT.

T. F. Toland Badly Wounded by a Knife Wound.

A telegraph message to relatives here Thursday night brought the information that T. F. Toland, who was attending the Firemen's celebration at Temple, had been the victim of a murderous assault on the streets in Temple, by a man whom he did not know, and his throat was badly lacerated by a knife thrust, necessitating more than twenty stitches to closed the wound. It was not thought the wound was necessarily dangerous, but it was quite serious.

The report stated that Mr. Toland met the man on the street and made some jocular remark to him when the fellow lunged at him with a knife with the evident intention of taking his life.

The news reached here a few moments before the arrival of the train and Mrs. Toland left for Temple at once and his mother, Mrs. T. W. Toland, and sister, Mrs. B. A. Harris, left for that place last night to assist in giving him attention. It is hoped he will be able to come home in a few days.

The man who made the assault on him was arrested.

The grand jury reported two felony indictments and two misdemeanor indictments.

Joe H. Frizzell, W. C. Hancock and L. H. Little were appointed a commission to draw juries for the next court.

An order was entered requiring that the criminal docket hereafter be called the first day of the term of court.

T. O. Lindsey had his disabilities of minority removed.

A jury of view was appointed composed of A. P. Meek, J. W. Tippen, E. J. Griffin, J. D. White and F. M. Sawyer for a road in precinct No. 4, petitioned for by R. J. Edmondson et al.

A HUSBAND'S CARE

J. F. Toland, Esq., of the firm of Toland, Toland & Toland, 111 Broadway, New York City, is the author of the following article.

It is a common mistake to suppose that a husband's duty is to support his wife and children. It is true that a husband has a legal obligation to support his family, but his duty is not limited to this. He has a duty to protect his wife and children from all forms of harm, and to provide for their education and welfare. This duty is not only a legal one, but a moral one as well. A husband should be a good father and a good provider, and should strive to create a happy and comfortable home for his family.
