# MERCHANDISING

Is just like farming or anything else—you are either going up hill or down. If you are farming, you are either making money or losing it. The conditions and obstacles you run up against, we run up against too. While they may differ in appearance they terminate in the same identical thing. When you, the farmers, are prosperous, the merchant too is prosperous-not by larger profits, but by larger volume of business. When you raise a bumper crop you are prosperous—not by receiving a higher price every time, but by having the volume, more of it. When you raise a certain amount at a certain cost, then can increase the amount you raise at the same costthere's where you are making it count, getting the volume out at a certain cost. We do the same. It costs so much to do business, you can reduce your expenses so much but no lower, then if you can do a third or a half more business on the same expense—that's where you make something. That's why we want to increase our business day by day, week by week, year by year. The more we sell, the less in proportion it costs us to sell. Therefore we are able, on a larger volume of business, to sell you at a less price. Selling more, we buy more, yet our expenses are practically the same. Of course, we don't want you to buy just because we have it for sale, but want to sell you because we think we can sell the same goods for less money. Our buying in a lump for 9 Big Dry Goods Stores means something and makes possible every time a lower price for our customers.

That's our highest ambition—Better Goods at a Less Price and that price in Plain Figures and the same to everyone. No deviations-it's not right. Your dollar is as good as Mr. Anybody's.

HELP US TO SELL YOU MORE GOODS FOR LESS MONEY.

MOVE THE WELL. The ladies of the Self Culture club have requested the commissioners court to have the public watering north side of the court house square to the south side and will undertake to have a new well sunk there, which will afford water for the teams that are brought to the public trough. The old well will be covered over with a tablet suitably inscribed to the heroism of Messrs. Deed H. Mayar and | B. F. Cox, who went in the well and attempted to save Mr. Peyton, who was overcome by the gas when the well was being dug 25 years ago. This idea conforms to the suggestion made by Mr. Phil H. Clements in this pape a few weeks ago. The walk around side the well and the memorial tablet will be protected inside the court

HARRIS & McCULLOUGH.

"Yes, our new wagon's a Studebaker -the only kind we KNOW"

"The Studebaker idea has been in our family for sixty years. We have never thought of buying any other kind of a wagon."

"It's true, we're continually being offered other wagons costing a little less, with lots of promises as to what they will do. But we know in our family what a Studebaker will do. A few dollars difference in price doesn't mean much. It's the service a wagon gives that we consider most.

Long service for a fair price means more every time than short service for a few dollars less.

"That's why we stick to Studebaker-and Stick to Stude-"I hat's why we stick to Studebaker—and 'Stick to Studebaker' is a pretty good motto for a man who uses wagons."

"Studebaker wagons are built of good stuff. They're made right by people who've had years and years of experience in making them right—people who are trusted the world over."

"Studebaker wagons last, because they're made to last."

"Look out for the dealer who tells you his wagon is just as good as a Studebaker. That's my advice after a good deal of experience — and the experience of all of my people. You get a Studebaker and you've got a safe investment."

A ruling has been promulgated by tne attorney general's office this week to the effect that an affidavit as to the legal ages of persons applying to the county clerk for marriage license must be made by the parents or guardians of such persons and that an affidavit of one of the principals is not valid and will not protect the clerk from prosecution under the law should either party be under age.

The anti-alien land bill proposed by Secretary of State Wm.J. Bryan was sent as special representative of the administration to confer with the legislature of California relative to a modification of the proposed law, but that state will agree to amend the law so as to allow Japs to own land in California.

Representative Sisson of Mississippi made a "red-hot" speech in the house of representatives Monday on the subject of Japan's demand that the anti-alien land law be not adopted by the legislature of California He very properly insisted that the government should take no further part in the controversy than to assure the brown men that their citi zens would receive the same treat ment as other aliens. The Jans are making themselves obnoxious as wel as rediculous, since they expect special consideration by this gove:ament. The fact is the Japs have had a lingering desire to overthrow this government and take the country for a number of years.

The condition in Mexico is still very unsettled and the outcome is not certain. When the murder President Madero was announced and the government was taken in charge by Huerta and Felix Diaz it was announced that former President Diaz would return to that country and give his assistance in restoring order. which was understood to mean that those opposed to the government would be put to death promptly, the outlook for the rebels was indeed gloomy. The forces were scatteredt and at variance among themselves, but the outlook has changed. Rebels of all factions have combined for a time at least, and refuse to accepts Huerta as their ruler. Feliz Diaz and Huerta have not been able to maintain the warm reiendship that was at first indicated and an open rupture between them nounced. It is claim Diaz has made overturoral Carranza, the revolution
