FARM FACTS.

Man is but a product of the soil. Science found agriculture plowing with a stick.

Agriculture needs all the great men it can get.

Humanity marks time by the improvements in agriculture.

There is not and never will be an over supply of educated farmers.

Nature is unkind to the unwise. Only the fittest survive in farming.

The economic distribution of farm products is today the world's greatest problem.

The farmer that markets his products when the demand is greatest reaps the best reward.

Agriculture has gone through two thousand years of evolution and is still in an experimental stage.

Over production is the stumbling block, and systematic marketing is the stepping stone of agriculture.

The farmer can produce without organization, but to successfully market he must have the co-operation of his neighbor.

The farmer is able to get about on the farm, but he loses his way in the market place where he needs most assistance.

Greece and Rome went down to their death when the population became congested in the cities and the farms were forgotten.

If your business in the city does not pay, do not go to the farm. There are already too many down-and-outs in agriculture.

Farming is not a pastime. It is a hard, cold, business proposition, and every farmer should be strong enough to look hardship in the face.—Peter Radford.

The New York World has made Secretary of State Bryan an offer to pay him \$8000 per annum as long as he occupies the position of secretary of state if he will discontinue his chautauqua lectures and devote his time exclusively to his official duties. This offer should be sufficient to cause Mr. Bryan to discontinue his lecture engagements.

Mrs. Bogard has moved to Kerrville, to make her home.

Mrs. W. C. Daw and Miss Kate Fairman visited in Brownwood Tuesday.

Albert Long and Ernest Jackson left Monday for Austin to enter the state University.

Miss Alma Harrell has accepted a position with Little & Sons in their dry goods store.

Mrs. Bateman went to Lometa the first of the week for a visit to her sister, Mrs. Hunt.

J. M. Sanderford was one of the prominent visitors from Priddy community this week.

Miss Ruth McLeod returned the first of the week from a visit to friends in Brownwood.

Misses Coot Covington and Alice Moorland left Tuesday for Belton to enter Baylor college.

Miss Patty McPherson left Tuesday for Boerne to enter upon her duties as teacher in the public school.

Goldthwaite buyers pay considerable above the market price for cotton, but this is no news to the cotton growers. It is a habit the Goldthwaite buyers have.

Pastor R. W. Bynum of Trigger Mountain, near Goldthwaite, was a pleasant visitor at Baptist Headquarters this week. He enrolled his daughter in Howard Payne.

Deacon J. F. Jackson returned Monday from a visit down in Mills county. He attended the recent Sunday school Institute at North Bennett church and reports an excellent meeting. While the speakers on the printed program failed to arrive, others did excellent service, among them being Missionary Bagley, Sam Allen and others whose names he did not remember. He also attended the Mills county Association at Trigger Mountain and reports a very good meeting, though the rain cut the attendance very much.—Central Messenger, Brownwood.

EXHIBITS FOR FAIR.

All Products of Farm and Garden Will Be Shown.

Never before has Mills county been represented in the exhibits at state fair at Dallas and it is especially desired that a complete and creditable showing be made this year. While most of the state has suffered greatly from the prolonged drouth, Mills county has fared as well as any county and better than most counties, therefore, we can make a fine showing of products. Not alone can we show quality with any county in Texas, but we expect to excel them all in variety coupled with quality. If we secure a prize for the exhibit we will all have cause to rejoice, but in any event the county will be greatly benefited by the exhibit.

Every citizen should take an interest in this matter and supply such products as are necessary to make the showing complete. Perishable products, such as fruits and vegetables, should be held until about Oct. 10, but all other exhibits should be brought in at once and stored at the warehouse opposite the depot, known as the Driskill & Mayar warehouse. Already some products have been placed there ready for shipment and it is especially desired that everything be there before Oct. 10, on which date shipment is to be made.

Mr. J. S. Sealey will go to Dallas about a week before the opening of the fair and get the exhibit in place, and will remain in charge of the exhibit throughout the fair. Every citizen of the county has an especial invitation to call at the Mills county exhibit in the main exhibition hall at any time they are on the fair ground and they will be given every attention by Mr. Sealey and they can be sure of being proud of the splendid showing made by Mills county.

Every one bringing products for exhibition are requested to place their name upon such articles, in order that the labels may be properly made out with the names of those who donate for the exhibit.

A wealthy friend of the late Mayor Gaynor hanged himself while the late mayor's funeral procession was passing his home Sunday.

According to the veterinarians in Paris there are 18,000 tubercular dogs in that city and parents are warned against letting their children come in contact with the dogs.

A tea party on board an air ship is indeed an innovation, but one was given in Germany this week and was attended by 30 people. The party lasted an hour and three-quarters.

The governor of New Hampshire has taken the case of Harry Thaw under advisement until Monday, to determine whether or not requisition for him from New York will be honored.

The pupils in the Syracuse, N. Y. public school went on a strike Monday against the longer hours of study prescribed by the school board. As a result of the strike 1000 pupils were suspended indefinitely.

A strange complaint comes from Hans Schmidt, the priest who confesses to the murder of the woman in New York whose body was found in the river. He complains because the law delays his execution.

The supreme court of New York decided that Governor Sulzer was properly impeached and he was placed on trial in Albany. He is the first governor of New York ever impeached and the charges against him are high crime and misdemeanors.

Hereafter the officers and the enlisted men in the United States army will not raise their hats to ladies, but will recognize them by the military salute, instead. Recent orders by the war department provide for this change, and for several others, chief of which is a rule that officers or men who are present in uniform when the "Star Spangled Banner" is played, shall stand at attention, facing toward the music, until the last note, and then salute, but not uncover. The flag also they will greet with the regular military salute, without raising the hat.—Youth's Companion.

COMMERCIAL CLUB.

The business session of the club Monday night was devoted exclusively to the preparation for the county's exhibit at the Dallas fair.

The committee in charge of the subscription list to secure funds to defray the expenses of the exhibition reported very satisfactory progress and co-operation of the people making the raising of the fund certain.

The committee to secure exhibits reported already having received some products and the promise of a great deal more. The Simpson & Moorland warehouse has been secured for storing the exhibits. The committee was instructed to issue a call through the Eagle for exhibits of all kinds to be used in showing the products of the county.

The printing committee was instructed to secure suitable labels to be placed on the exhibits.

The people of the entire county were invited to co-operate with the club in raising the necessary expense money and in securing products for the exhibits.

GOOD ROADS REDUCE EXPENSE.

"Over the roads to market," is the ever sounding cry of the nation. It reverberates along the highways of commerce and finds its way into the minds of men. To reduce the cost of transportation and make farming more remunerative is the thing that is attracting the attention of those who strive for the uplift of mankind. In Texas the evolution is going steadily onward.

The farmers of Texas will market this year over ten tons of products, entailing a highway expense of approximately \$21,000,000. If all our roads were in first class condition this enormous expense would be reduced one-half, as the cost of hauling freight over the mud and through the sand is 43 cents per ton a mile while the cost over improved highway is 23 cents per mile.

Good roads reduce expense and distance as well.—Homer D. Wade.

Goldthwaite people should all meet the excursion train at 8:33 Monday morning and give the Brownwood Boosters a hearty reception.

James W. McAlexander and wife, who have been visiting relatives in Virginia for some time, are expected home in the next few days.

It will pay the readers to give especial attention to the advertisements in this issue. The merchants are offering extra inducements to the trade at this time and those who would save money and at the same time secure the best and most serviceable merchandise should read the advertisements.

Prof. M. L. Hays, superintendent of the Clyde school, writes the Eagle that his school is starting off nicely with a large attendance and the outlook encouraging.

If you are buying land require the seller to furnish you an abstract of his title, so you may know you are getting a good title. If you contemplate selling your land, have an abstract thereto prepared first, so you will know what kind of title you can make to it, as the purchaser is almost sure to want to know. I have the only complete set of abstracts of the land titles of Mills county and will make your abstracts for a reasonable charge and will help you cure your titles if defective.—E. E. Anderson.

The Food Value of Currants

Currants rank second only to dates in food value among fruits. In England and Holland they are used extensively, in bread, cake and puddings, and also stewed.

There are many varieties of currants, all coming from Greece and the adjacent islands. It is from the best of these that we get *White Swan Currants*. The largest, best flavored berries are selected and dried in the shade to preserve all the deliciousness of the fresh fruit. They are washed and cleaned and so carefully sorted before being packed that every currant in every package is perfect. It is this careful cleaning, sorting and packing that gives *White Swan Currants* their glossy, black appearance.

White Swan Currants are stemless, packed in convenient paper boxes, ready for immediate use. You can be absolutely sure about these currants. No need to cook long as they are so good and clean—every one. Better than the law requires.

Your Grocer will be glad to recommend them because he knows that you'll come back for more.

DEATH'S VISIT.

Mrs. Mary Ragsdale died at the home of her daughter, Mrs. Bea Chesser, a short distance west of Mullin, Monday afternoon and her remains were interred in the cemetery at Williams Ranch Tuesday afternoon.

Mrs. Ragsdale was an old citizen of this county, having lived here in pioneer days. She was a sister of Major D. H. Trent of this city and leaves a number of relatives here and in other portions of the county. She and her husband, Mr. Thos. Ragsdale, have made their home for some time with their son-in-law and daughter, Mr. and Mrs. Chesser, where her death occurred. She was in reasonably good health, considering her age, until about a month ago, when she fell and injured herself badly and never recovered from the effects of the injuries.

She leaves an aged husband, three daughters and other relatives, who have the sympathy of all who know of their bereavement.

CLUB MEETING.

The pretty home of Mr. and Mrs. A. E. Evans on Fisher street was opened Tuesday afternoon to the Merry Maids and Matrons Club, with Miss May Perry as hostess.

Since the coming of the cool days the sewing hour was in evidence, instead of the game parties which have marked the summer meetings.

The afternoon was without detail, other than the dainty refreshment plate, served by the hostess, assisted by Mrs. Evans. The guests of the afternoon were Mesdames Gillespie, Trent, Thompson, Ebers, Geeslin, Atkinson, Skaggs; Misses Prater and Thompson.

The next meeting will be with Mrs. J. A. Gillespie, September 30. All members are requested to be present, as the election of officers will be the business of the meeting. XX.

B. M. C. MEETING.

One of the most delightful social occasions was on Friday evening of last week, when the B. M. Club met with Miss Helen Woody.

After roll call and a short business session, to the surprise of the crowd, Miss Woody said, "The wagon and team is standing at the front to take the party for a moon-light hay ride." Will Woody did the driving and took the party down near the reunion grounds, and there a bon fire was built. The girls busied themselves in helping prepare supper of toasted bread, broiled bacon, eggs, pickles, olives, ice tea and cookies.

After supper the girls enjoyed a ride over the city.

This was a change from the regular routine of meetings, and the girls all declared this the most enjoyable occasion of the season. REPORTER.

PUBLIC SCHOOL ANNOUNCEMENT

The public school will open next Monday morning. All pupils should have their books purchased by that time, if they have been regularly promoted. All pupils who have been conditioned in one or more subjects, and new pupils will be obliged to take examinations to remove conditions.

All pupils should be prepared to put in a full day's work. The morning will be taken up in classification and enrollment, the afternoon will be spent in assigning and preparing lessons for the next day.

BABY JOHNSON.

The little 3-year-old daughter of Mr. and Mrs. W. A. Johnson died at the family home in this city Wednesday afternoon, after a short illness, and her remains were interred in the Odd Fellows cemetery Thursday afternoon. The bereaved parents and other relatives can be sure of the heart-felt sympathy of many friends in their great sorrow.

WATER! WATER!

The Discovery of Subterranean Lakes and Impounding of Rainfall Reclaiming Arid Regions.

The cry of Water! Water! as it echoes throughout the arid regions of the state and this abundant liquid gushes to the surface to moisten the parched earth, is a welcome sound to every farmer. Subterranean lakes are so frequently discovered and rainfall so easily impounded, that water has become largely a question of effort.

Water has caused more trouble by its abundance or scarcity and has more often become a welcome or a disagreeable guest, than any other element in nature. Its proper distribution has baffled even the skill of divinity and getting it in the right place at the right time is one of the greatest problems that confronts the people of today.

The solution of this important problem insofar as human ingenuity has been able to solve it, will be demonstrated at the exhibits of irrigating machinery at the State Fair of Texas at Dallas, Oct. 18th to Nov. 2nd. Machinery adapted to every need and condition from pumping water into the kitchen sink to irrigating a league of land will be shown and its utility proved.

These exhibits are as interesting to the housewife as to the ranchman. Drawing water from the well is one of the most back-breaking of household duties and the shifting of this burden to machinery is one of the educational features of the Fair. There are a million homes in Texas that should be equipped with the latest modern conveniences in these labor-saving devices.

We have 5,238 farms under irrigation in the State, containing 451,000 acres. The bulk of our irrigated lands is devoted to the culture of rice, the total acreage devoted to this cereal being 287,000. Alfalfa is the second important irrigated crop and 13,780 acres are devoted to its culture while corn takes third place with 9,068 acres. The cost of construction of Texas' irrigation systems is estimated at \$13,500,000 by the Federal Census Bureau. It costs approximately an average of \$3.50 per acre to irrigate land, depending upon the character of the crop. The yield per acre of crops under irrigation approximates 45 per cent higher than that of those raised under natural methods.

BOOSTERS COMING

The Brownwood Boosters, representing the business interests of Brownwood, will arrive at Goldthwaite on a special train Monday morning at 8:33 and remain twenty minutes. It is hoped that a large crowd of Goldthwaite people will meet the train and extend a hearty welcome to the excursionists. There will be a number of ladies in the party and the Eagle hopes that a good number of Goldthwaite ladies will be present to meet them. It would be well for ladies who drive their own cars to be there prepared to take the visiting ladies over the city for a sightseeing excursion, while the gentlemen are being shown about town.

The Brownwood people are our neighbors and many of them are our personal friends and it is especially fitting that we give them a hearty reception on this occasion. They are making a railroad excursion over the Santa Fe via Lometa, San Sabs and Brady to Menard and then back to Brownwood over the Frisco.

SETTLEMENT WANTED.

All persons indebted to me for war are requested to call and make settlement at once. Don't think that because the amount is small I do not need it. This applies to all accounts alike. Please settle at once. F. N. HUBBERT.

CARD OF THANKS.

Mr. and Mrs. Joe Taff desire the Eagle to express their thanks to their friends and the friends of their little daughter for their kindness and attention to her. Many acts of kindness have given them the assurance of the sympathy and thoughtfulness of their friends and for all of this they are profoundly thankful.

TRADES DAY

Many Horses and Mules Sold—A Large Number of Buyers Present

The number of horses and mules placed on sale here Monday was not as great as on former trades day occasions, which was probably due to the fact that a large portion of the surplus stock in the country had been disposed of on former occasions, and the further fact that the Association did not send advertising matter to sellers of stock out of this county, in order to give the home people the full benefit of the market. There were a great many buyers here, however, and most of them made some purchases, while some of them bought several car loads. The prices paid were satisfactory in most cases and the people who have taken part in the sales, either as buyers or sellers are well pleased with the results.

These trades days have now become a regular feature of the stock business here and people having surplus stock of any kind can be sure of finding a ready market here on any fourth Monday. The men behind the enterprise are the kind that succeed with what they undertake and they are making these trades days beneficial to buyers and sellers of horses and mules.

EXTERMINATE THE FLY

At the present time there seems to be an organized effort under way in Texas for the extermination of the fly, and the consensus of opinion is that swatting is the solution of our fly trouble. Several communities have offered large prizes for the greatest number of flies killed, while others have advocated the screening of all places where food is kept. All this is evidence of right intent and an entire willingness to safeguard public health, but merely swatting the fly is sheer waste of energy, and energy, except in a worthy case, should be conserved, not dissipated. It is difficult to beat even a fly at his own game, but attack him from the right vantage ground and the victory is won.

The New Jersey mosquito has been practically exterminated by treating the low places with materials which destroy the breeding places of these pestiferous insects; the malaria belts of Italy have been largely robbed of their terrors by certain scientific measures the Italian government has taken in hand; the Germans have in mind a plan to wipe malaria off the map in German East Africa by similar methods; the Americans, by introducing sanitary methods in Cuba, have abolished yellow fever, and the building of the Panama Canal was rendered possible by ridding the Canal Zone of the mosquito by exterminating the breeding place. To get the upper hand of vermin, annihilate their means of propagation and living.—Mrs. E. P. Turner.

ELECTION ORDER.

The State of Texas—County of Mills. Whereas, on the 11th day of Aug. 1913, a petition was presented to the Commissioners court of Mills county for an election in the territory comprised in and composing the common school districts of Becker Mountain and numbered 47 and Priddy, numbered 54, of this county on the question of prohibiting horses, cattle, jacks and jennets from running at large in the said territory; and whereas, the said Commissioners court passed an order granting the election prayed for; and whereas, said petition and said court order were in all respects in conformity to law.

Now, therefore, I, S. H. Allen, in my capacity as County Judge of Mills county, Texas, do hereby order that an election be held on the 27th day of September, 1913, in the village of Priddy, in Mills county, Texas, to determine whether a majority of the legally qualified voters in the territory above set out desire that the classes of stock above mentioned be prohibited from running at large in said territory.

Joe Pfluger is hereby appointed presiding officer for said election and he shall select two judges and two clerks to assist him in holding the same, and he shall within five days after the said election has been held, make due returns thereof to the Commissioners court of this county as is required by law for holding a general election.

The ballots shall have written or printed thereon the following:

"FOR THE STOCK LAW."

"AGAINST THE STOCK LAW."

All persons who are legally qualified voters of this state and county and who are resident voters in said district shall be entitled to vote in said election.

This order published shall be due legal notice of said election.

Dated August the 21st day, 1913.

S. H. ALLEN.

Miss Lyndie Wooten, formerly instructor in languages in Mary Connor College of Paris, Texas, has been elected as a teacher in the Goldthwaite High school, to take the place made vacant by the resignation of Miss Ellen Gowdey, of Paris.

The price of cotton has neared the 14 cent mark this week. To be sure, the general market would not justify the price, but Goldthwaite buyers have a way of making a price of their own when the market is not high enough to suit them.

CITATION.
 The State of Texas

To the Sheriff or any Constable of Mills County—Greeting:

Oath having been made as required by law, you are hereby commanded to summon James Estus, by making publication of this citation once in each week for four successive weeks previous to the return day hereof in some newspaper published in your county to appear at the next regular term of the district court of Mills county, Texas, to be holden at the Court House thereof in Goldthwaite, on the first Monday in October, the same being the 6th day of October, 1913, then and there to answer a petition filed in said court on the 20th day of February, 1913, in a suit numbered on the docket of said court No. 1302, wherein N. B. Harvey and J. L. King are plaintiffs and W. C. Hancock, A. T. Blankenship, D. E. Valliant, W. S. Beshears, A. P. Beshears, J. H. Beshears, and James Estus are defendants, said petition alleging that the defendant, W. C. Hancock, on the 2nd day of Feb. 1910, executed and delivered to the plaintiff, N. B. Harvey, his certain promissory note of that date for the sum of Two Hundred and Fifty (\$250.00) Dollars, payable Feb. 2, 1907, and two notes for the sum of One Hundred and sixty six (\$166.65) and 65-100 Dollars, each due Feb. 2, 1913 and 1916 respectively, and payable to the order of Emma Harvey, and two notes payable to the order of Lizzie Young and husband, R. H. Young for One Hundred and sixty six (\$166.66) and 66-100 Dollars, each due Feb. 2, 1911 and 1914 respectively and his two notes for One Hundred and sixty six (\$166.66) and 66-100 Dollars, each payable to the order of Nathan Hodges and husband, Charlie Hodges, due Feb. 2, 1912 and 1915, respectively, each bearing interest at the rate of 8 per cent per annum from date, interest payable annually as it accrues, and all past due interest bearing 8 per cent interest per annum from maturity, and each of said notes containing the usual clause accelerating the maturity thereof, and providing for 10 per cent attorneys fees if suit is brought thereon, said notes being given in part payment for Lot No. Four (4) in Block No. One (1) of Kirkpatrick's addition to the town of Mullen in Mills county, Texas, and being out of the J. D. Kirkpatrick survey, conveyed by the payees in said notes to W. C. Hancock by deed of even date with the said notes, and in which a vendor's lien was expressly retained to secure the payment thereof. That the plaintiffs are the legal owners and holders of all of the said notes and the lien securing the payment thereof by endorsement on the back thereof; that the defendant, W. C. Hancock, and wife by their deed dated April 23, 1912, conveyed the said land and premises to the defendants, D. E. Valliant and A. T. Blankenship, in consideration among other things of their agreeing and assuming to pay the said notes; that the defendants, D. E. Valliant and A. T. Blankenship, by their deed dated Oct. 22, 1912, conveyed the said land and premises to the defendants, W. S. A. P. and J. H. Beshears, in consideration among other things of their assuming and promising to pay the said notes; that the defendant, James Estus, is asserting some character of claim to the said premises, the exact nature of which is unknown to the plaintiffs. Plaintiffs allege that the said deeds are in the possession of the defendants, and they and each of them are hereby notified to produce the same on the trial hereof or secondary evidence of their contents will be offered in behalf of the plaintiffs. Plaintiff, N. B. Harvey, further alleges that he has been required to pay taxes on the said land to protect his security in the sum of Six (\$6.79) and 79-100 Dollars for which he also asks judgment. Plaintiffs further allege that on account of default in the payment of said notes already matured and the installments of interest on all of said notes, which are past due, they have elected to declare all of said notes due and have placed the same in the hands of an attorney for collection and agreed to pay 10 per cent of the amount of the principal and interest thereon as attorneys fees. Plaintiffs pray judgment for the amount of their debt, principal, in-

terest and attorneys fees, and for foreclosure of their vendor's lien on the said land and premises as the same existed on the 2nd day of February, 1910. Herein Fall Not, but have you before said court on the first day of the next term thereof, this writ with your return thereon showing how you have executed the same. Witness, L. E. Booker, Clerk of the District Court of Mills County. Given under my hand and seal of said Court on the 22nd day of August, A. D. 1913. (Seal) L. E. BOOKER, Clerk District Court, Mills County, Texas.

AIM AND SCOPE OF "BOY SCOUTS"
 As an organization the Scout movement is neither military in thought, form or spirit, although it does instill in boys the military virtues, such as honor, loyalty obedience and patriotism. The movement aims to supplement the various existing educational agencies and to promote the ability in boys to do things for themselves and others. Scoutcraft includes instruction in first aid, life saving, tracking, signaling, cycling, nature study, campcraft, woodcraft, chivalry, patriotism and other subjects. This is accomplished in games and team play, and is pleasure, not work for the boy. All that is needed is the out-of-doors, a group of boys and a competent leader. "Something to do, something to think about, and something to enjoy with a view always to character building; for manhood, not scholarship, is the first aim of education."—Selected from the "Boy Scout Scheme". A Boy Scout must be "Trustworthy, loyal, helpful, friendly, courteous, kind, obedient, cheerful, thrifty, brave, clean, reverent."—Scout Laws.

For the proper supervision of the local organization, there must be a "Local Council," composed of representative men of the town, men representing all the religious, business, educational and civic interests of same, and, therefore, all men of Goldthwaite who might be interested in the welfare of the boys are urged to meet Monday night at 8 p. m., at the Presbyterian church for the purpose of forming the aforesaid "Council." Joseph W. Felk, ex-governor of Missouri, has been appointed solicitor for the state department by President Wilson.

Governor Colquitt has gone to Panama to inspect the big ditch and the executive office is being filled by Lieutenant Governor Mayes of Brownwood.

A butler employed by the Roosevelt family at Sagamore Hill has been placed in jail at Mineola, L. I., on a charge of having stolen \$10,000 worth of jewelry from the family.

A "bad nigger" was hung by a mob in Robertson county, near Franklin, last Saturday afternoon. The coon shot and killed two white men and dangerously wounded a third.

Beef steers are being shipped from the San Angelo country to the state of California, where the market is said to be better than any other portion of the United States. This is the first time since 1849 that the California market has attracted Texas cattle dealers.

The last of the veterans of the battle of San Jacinto, Mr. W. P. Zuber, died at the home of his daughter in Austin Monday. All of his comrades "passed over the river" before him. For a number of years he was employed as a watchman in the senate chamber at the state capitol.

Felix Diaz has been recalled to Mexico from Europe, where he was visiting his uncle, the former president of Mexico. He was enroute to Japan with the very probable object of attempting to stir up strife between that country and the United States, but his government evidently weakened on the plan.

A jury in district court in Lampasas this week awarded Prof. Battle of Lampasas \$10,350 in his suit against the Santa Fe railroad for the loss of a foot. In alighting from a passenger train at Lampasas last Christmas, Prof. Battle stumbled over some obstruction on the car platform and fell beneath the wheels of the car and lost one of his feet.

Governor Colquitt gave out a statement in New Orleans this week that he would call a conference of southern governors to discuss the matter of public ownership of warehouses. He stated that if public warehouses could be obtained no other way he favored a special tax for the purpose and uniform laws among the southern states governing them. He said the last conference of southern growers at which crop valuation had been discussed had resulted in much good and he believed a conference on warehouses would be beneficial.

The Mexican situation is still causing trouble for this government and the outcome is uncertain. The big greaser who had the president of Mexico murdered in order that he might hold the place of power in that government announces that he will not be a candidate for the presidency in the October election, but there is no way of knowing whether he will keep his word or appear as a candidate at the last moment and allow only his own name placed upon the official ballot for president. Many Americans have let themselves be deceived, but there are still many there who do not believe they are in danger.

It is well for the public to remember that a new federal law preventing the shooting of wild ducks in the United States has gone into effect. The law was passed by the late congress and was signed and the signing of the bill was one of the last acts of the former President Taft. This is known to very few even among the regulars who annually shoot ducks. Notwithstanding the states codes may specify what the season shall be they are null and void in so far as they relate to ducks and geese, a new federal statute making it an offense to shoot any of these fowls, according to Washington reports.

BACK TO THE LAND

As we come closer and closer each succeeding year to the point where the productive output of our farms no longer suffices to meet consumptive demand, it becomes more and more important to find immediate remedy for such unfortunate industrial condition. There is no lack of land for tillage. The trouble lies entirely in the lack of men who are willing to earn an honest livelihood by tilling the soil. For many years it has been the steady policy of the government to encourage work in the factories largely at the expense of the workers on the farm. As a consequence the population of our towns and cities has grown apace, while the population of the farms has proportionately dwindled. This condition will be partially remedied when the democratic congress shall have abolished existent unfair tariff discrimination. In this respect there is prospect of immediate relief. Another remedial movement that is full of future promise is the provision being made in many states—Pennsylvania taking the lead—for making possible the better education of young farmers in the art of tillage, so that they can coax out of the ground a responsive fertility. This education-seeding will bring forth a great harvest in due time, but it will be a work of years.—Philadelphia Record.

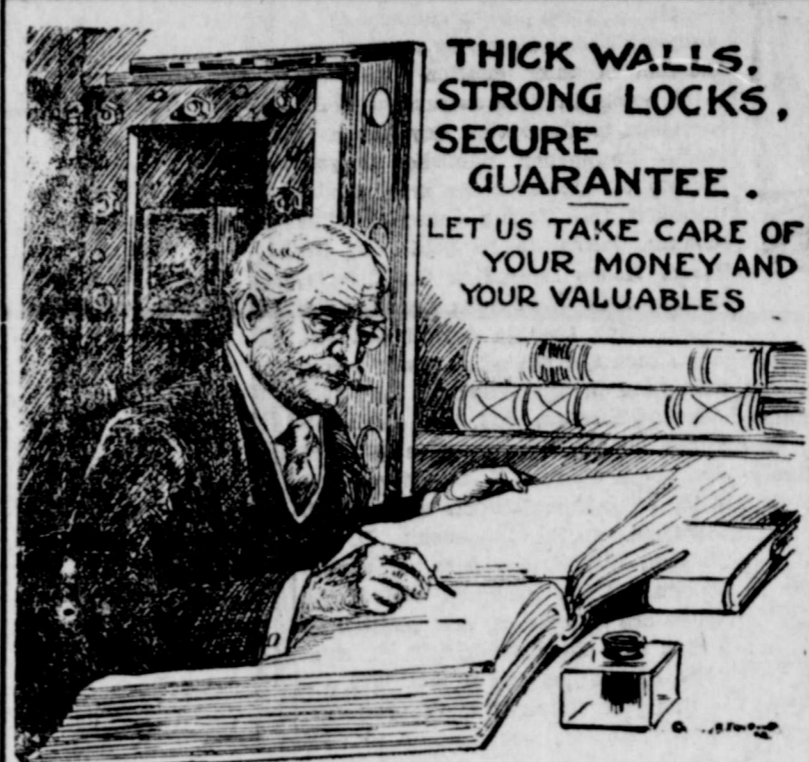

I am not as good as I ought to be; would you blame me for longing to be better? I have not achieved all that I should; would you condemn me for ardently desiring to accomplish greater things? I feel so empty-handed; would you laugh at me for endeavoring to fill my hands with sheaves of golden grain lying all about me? I am not as wise as I need to be; surely I should be praised for seeking to grow in knowledge day by day. I am not as gentle, kind and generous as duty demands; would you criticize me, as I seek to cultivate these nobler graces? Aspiration is the panting longing after the ardently desired object. All human growth, development and achievement are born in the heart's aspiration. The soul that has no upward longing is dead indeed. To such the clouds have no silver lining, the night no dawning, the grave no opening. Wretched must be the heart whose hopes are all crushed, whose aspirations are all crushed. More discontent and unhappiness are attributable to dead desires than to any one cause. Young men, young women, what is your chief aspiration in life? What do you desire above all things to be and do? Stop and speak to your heart in answer to the question. Fix in your mind a reasonable lofty aspiration, and bend every energy of your soul to its realization. When the goal is reached an imperishable crown will rest upon your brow, and you will stand strong in your own self-respect, and you will share the love and honor of all men.—Exchange.

Is the woman on the farm worth as much as the horse, cow or poultry with which the first class farm is equipped? Before the farm woman is fully appreciated, in many instances she must be educated to a fuller appreciation of her own value and economic waste attending the doing of work in inconvenient surroundings. When the housewife on the farm comes to a full understanding of her own worth, it will be an easy matter for her to impress her husband with the fact that she is entitled to up-to-date equipment with which to carry on her household duties, and that the modern conveniences will mean dollars in his pocket, as well as a wife that isn't over-worked and prematurely old. It is the duty of every farmer's wife to know her own value that she may make the most of opportunities in her every day life.—Mrs. E. P. Turner.

After youth has left us, our golden days are gone, and the approach of the sere and yellow leaf sends a chilling shadow over our heart, how desolate would life be for many were it not for the faith in luck or chance, the belief in the story of the genie in the brass jar, the clinging hope that there is yet in store for them some thrilling surprise; and sweets beyond the fondest hope of the dearest dreams of imagination.—Clerburne Enterprise.

HAMILTON

Oce Striplin went down to Temple Wednesday to consult a specialist concerning his health which has been seriously impaired for some time.

There was not much doing in district court this week, and the cases which came up for trial were disposed of with dispatch and the docket for the week cleared up by Wednesday night and court dismissed for the balance of the week.

Mrs. John G. Jones is at home from the Ozark Mountains where she spent the summer in company with her daughter, Mrs. Henry Wallace and little grandson, Glen Wallace. Mrs. Wallace and Glen went to Mt. Calm to join Mr. Wallace and make their future home.

A wedding party, the principals of which were James Faulkner of Carlton and Miss Edith Daniels of Spurlin, arrived in Hamilton on the noon train Sunday and at about 2:30 o'clock repaired to Cedar Crest where in the holy precincts of the Methodist minister's home, the happy young couple were united in marriage.—Record.

LOMETA

The opening exercises of the Lometa High School occurred in the Baptist church Monday morning.

L. H. Little from Goldthwaite spent Tuesday in Lometa looking after the interests of the Little Mercantile Co. of which his son, W.T. Little, is manager.

Dr. J. D. Townsen left Wednesday morning for Tuscola in answer to a message from his brother, Dr. Garrett Townsen, requesting him to come on first train. The cause of the urgent summons has not yet been learned.

Mrs. Frank Kirby gave a dinner Tuesday in honor of Mr. and Mrs. Floyd Kirby, who left the following morning for Louisville, Ky., where they expect to make their home for the next few years while Floyd attends the medical department of the university of Louisville.—Reporter.

COMANCHE

Last week while in session the Baptist Association voted to send \$125 to the Buckner's Orphan Home and this was done, the amount going to set the table in the Home for one day, such is the size of the Home numerically.

Word comes from the Comanche Oil Company's headquarters at Sipe Springs that another drill has started for the purpose of securing a gas flow which it is intended to use for fuel to operate both well No. 1 and No. 2.

Word comes from Smithfield from R. A. Truett, local agent for the Cotton Belt, saying his wife was very low with no improvement shown. Mrs. Truett was stricken with an attack of paralysis last week on one side, and was conveyed to her father's home at Smithfield.

The Indian Gap School Board have elected the following teachers for the coming school term, namely: Professor D. A. Bryton, superintendent; Professor W. W. School will open this year in their new \$10,000 up-to-date high school building which is the pride of the enterprising little town.—Chief.

BROWNWOOD

The crowded condition of the Brownwood Public Schools has caused a great deal of worry to the faculty and board of trustees, and arrangements are now being made to take care of the students in the various schools. Both the high schools and Coggin addition school are crowded to overflowing.

I. N. Lytle, one of the best known of the Prisco conductors making stop at Brownwood, was found dead in his room at the Southern Hotel last night, his body lying across the bed with a slop jar half full of blood at the bedside. Lytle had been a victim of the great white plague for several years, and his death was caused by hemorrhage from the lungs. His body was shipped this morning to Fort Worth, his home, where he will be buried tomorrow under the auspices of the Order of Railway Conductors of which he was a member.—Bulletin.

Don't Let Baby Suffer With Eczema and Skin Eruptions.

Babies need a perfect skin-covering. Skin eruptions cause them not only in tense suffering, but hinder their growth. Dr. Hobson's Eczema Ointment can be relied on for relief and permanent cure of suffering babies whose skin eruptions have made their life miserable. "Our baby was afflicted with breaking out of the skin all over the face and scalp. Doctors and skin specialists failed to help. We tried Dr. Hobson's Eczema Ointment and were overjoyed to see baby completely cured before one box was used" writes Mrs. Strubler, Dubuque, Iowa. All druggists or by mail, 50c. Pfeiffer Chemical Company, St. Louis, Mo., Philadelphia, Pa. (Adv)

15 CENT COTTON

After two years the people engaged in the cotton trade now admit the basic principle on which the plan of the Southern States Cotton Corporation for getting 15c for cotton rests. The Government estimate of the crop conditions, which indicates a crop of 13,000,000 bales or less, sees a 2c rise in the price of cotton and predictions of 16 cents or more per pound on every side. What has done this? The season's fall; the crop is reduced; the result is higher prices. Suppose you reduce the marketing crop by putting aside as much as the season has cut the crop this year, leaving the supply less temporarily than the demand? Why will not the result be the same? It is plain that it would be. Let all farmers sell their cotton to the Southern States Cotton Corporation, watch the end of the scene and reap their reward.—J. W. Hill. (Advertisement)

For Sale—A nice residence in Goldthwaite with four lots, well, windmill, water piped to house and yard, other improvements. Will sell cheap if sold in next 30 days. Phone, write or see me at Center City.—T. A. Gardner.

I was eating a piece of watermelon some months ago and was struck with its beauty. I took some of the seed and dried them, and found that it would require some 5000 seeds to weigh a pound; and then I applied mathematics to that 40 pound melon. One of these seeds, put into the ground, when warmed by the sun and moistened by the rain, takes off its coat and goes to work; it gathers weight, and forcing this raw material from somewhere 200,000 its own through a tiny stem, constructs a watermelon. It ornaments the outside with a covering of green; inside the green it puts a layer of white and within the layer of white a core of red, and all through the red scatters seeds, each one capable of continuing the work of reproduction. Who drew the plan by which that little seed works? Where does it get its tremendous strength? Where does it find its coloring matter? How does it collect its flavoring extract? How does it develop a watermelon? Until you can explain a watermelon, do not be too sure that you can set the limits to the power of the Almighty and say just what he should do and just how he should do it.—William Jennings Bryan.

HOMES FOR STUDENTS

I have offers from two good, nice homes in Goldthwaite, each proposing to take a worthy girl for the present school year in response to my appeal a few weeks ago on this line. These offers are to take a girl who wishes to attend school here but is financially unable to pay full board. Each of these homes is willing to take one such girl and will expect her to do only indoor work evenings and mornings, without interfering with her school duties. Anyone interested in this offer may apply to me for further information. I also have a similar offer for one boy.

Very respectfully,
 S. H. ALLEN.

HOSPITALITY IN THE HOME

Our way of living has changed; the form of our home life and the manner of receiving our friends have changed, but through all the shifting phases of the human family, the essence of hospitality has remained the same—to break bread and to converse. There have been hundreds of innovations in the way of entertaining one's guests—monkey dinners, barnyard dances, vaudeville stunts, amateur plays and games—always games with or without stakes. But these are free shows, not hospitality. Hospitality is enjoying with others that which is ours; dividing with them the bread for the body, sharing with them the experiences and fancies of the mind. True hospitality is where one from the outside is welcome in the home circle. He brings with him something of thought and pleasure and fellowship which he leaves in that home; he takes away with him a share of the cheer and warmth of the fireside. To sit down together and break bread—one's own bread—and then sit together before the fire—one's own fire—and tell of that which has happened on our pilgrimage, and speculate on what is yet to come; that, whether in an Indian's wigwam or a baron's castle is the end and soul of hospitality.—Collier's.

OUR FRIENDS.

It is not likely that any paper published in a town the size of Goldthwaite or in a much larger town, as for that matter, can boast of as large an advertising patronage as the Eagle and we appreciate this patronage very much, but we appreciate more the large number of good people who are enlisted as readers of the paper. It is to these people we are largely indebted for the splendid advertising patronage we receive. The merchants know that their advertisements in the Eagle reach the people and they realize that an investment in Eagle space is beneficial to their business. We appreciate all of our patrons and esteem them as our friends, while we believe we give them full value for every penny we receive. Each week a number of good people renew their subscriptions or enter their names as readers of the paper. Those who have entered their names or renewed since last report are:

- G. W. Stewart, Big Valley.
- D. Y. Fox, Goldthwaite.
- A. D. Karnes, Goldthwaite.
- R. Robertson, Big Valley.
- Miss Patty McPherson, Boerne.
- Lee Robertson, Boaz, N. M.
- M. H. Fletcher, Orange, Cal.
- Miss Coot Covington, Belton.

ROAD DAYS.

Attention is directed to a communication from Judge Allen on the subject of the observation of "Road Days" on November 5 and 6. The Eagle is heartily in favor of the proposition and hopes that every able-bodied man in the county will take part in the work on those two days. The governor of the state announces that he will do the two days work and will also contribute \$25 to employ other workers and there is no reason why the balance of the citizens should not follow his example, especially in the contribution of the labor. Let's think about it, talk about it, and when the day comes "do" about it.

COMMUNITY LETTERS

Those who assist us by sending in communications of the local happenings of their communities of the county and those who will join in giving this assistance can be sure of our hearty appreciation. The Eagle has always believed the community letter to be the most interesting and beneficial part of the paper—interesting to the readers at home and abroad and beneficial to the paper and community alike. We know that this is a very busy time with all of the people, but we hope that some of our friends in each community in the county will take the time to send us a letter of local happenings at least every alternate week.

CORNER STONE LAYING.

The Woodmen of the World will lay the corner stone for the new High School building in Goldthwaite next Saturday afternoon at 2 o'clock. Arrangements have been made for the band to furnish music for the occasion and it is expected that one or more speakers will entertain the people who assemble at the school building at that time. Sovereign Commander Frazier of the Texas division, has been invited, as has Senator Latimore of Fort Worth and it is hoped that one of them will be present. If neither of the gentlemen named can come, some other speakers will be selected for the occasion.

All Woodmen are requested to meet at the hall on Saturday afternoon, Oct. 4, at 1 o'clock, to prepare for the ceremonies.

Saturday, September 27, 1913.

Miss Clyde Lowrie went to Brownwood this week.

Screen doors and windows and wire screening.—J. H. Kelly.

Watch for the new laces and embroideries at New Racket Store. (ad)

Mrs. S. L. Cooke went to San Saba Thursday to visit relatives for a few days.

Oil for roof painting can be bought at our store for 35 cents per gallon.—Harper & Egger.

If you have visitors or know any local items tell the Eagle. Your friends will be interested.

Mrs. W. E. Miller left Tuesday night for a visit to relatives in Memphis, Tenn., Forest City, Ark., and other points.

Mr. A. N. Perkins was here from Pompey community, Saturday, meeting his friends and looking after business matters.

J. E. Caldwell the county farm demonstrator, returned Monday from Brownwood, where he attended a convention of farm demonstrators.

We have just unloaded a car of wire fence posts and we now have anything you want in mountain cedar—Barnes & McCullough.

If you have cotton to sell, bring it to Goldthwaite where the buyers always pay more than the market price and you get a big price for the seed besides.

Rev. J. C. Newman announces that he expects Rev. R. H. Gibson to fill the pulpit in the Baptist church Sunday. Rev. Newman is gaining strength and it is hoped he will be able to fill his pulpit in a short time.

M. H. Fletcher and his wife and son left Thursday night for Orange, Cal., where they will spend the winter and may decide to remain. They leave many friends here who regret their departure and will hope for their return in the spring.

Miss Johnnie Shults of Hoffman, Okla., arrived in the city Thursday night and will make her home with her sister, Mrs. J. C. Faulkner, and attend school the coming session. Mr. Faulkner went to Temple Thursday to meet her and accompany her to this city.

Harper & Egger have opened a new stock of groceries in connection with their feed store on the west side of the square. (Adv.)

"Cured"

Mrs. Jay McGee, of Stephenville, Texas, writes: "For nine (9) years, I suffered with womanly trouble. I had terrible headaches, and pains in my back, etc. It seemed as if I would die, I suffered so. At last, I decided to try Cardui, the woman's tonic, and it helped me right away. The full treatment not only helped me, but it cured me."

TAKE

Cardui
The Woman's Tonic

Cardui helps women in time of greatest need, because it contains ingredients which act specifically, yet gently, on the weakened womanly organs. So, if you feel discouraged, blue, out-of-sorts, unable to do your household work, on account of your condition, stop worrying and give Cardui a trial. It has helped thousands of women,—why not you? Try Cardui. E-71

GOOD ROADS DAY

I see that Governor Colquitt has designated November 5 and 6 as "Good Roads Day" in Texas. This means that every citizen is requested to give those two days in laboring on public roads in this community, to the end that our roads may be made more passable. I am in hearty sympathy with the proposition. It is not a new-hatched conception; but has been used in a number of the states with the result that first class roadway was constructed. In Iowa last year a first class road was made entirely across the state in a single day by the concerted action of all the people living along the proposed line. Other states have accomplished like results from similar efforts. I am writing this with the hope that we in Mills county will take the suggestion seriously and act upon it favorably. It has long been my belief that a serious drawback to the farmers of this county is the poor condition of our public roads over which they must haul all the products they market, and all supplies they buy in the market. Under the present arrangement this cannot be helped.

Our County Commissioners are criticized severely by some people because the roads under their supervision are not better. Such criticism usually comes from persons who have some appreciation of the value of good roads, but who do not know how impossible it is to get them by our present arrangement. Each commissioner is supervisor of the public roads in his precinct. The road fund of the county is very small, as compared with the fund really needed for the up-keep of our roads. Each commissioner sees a place for a dollar's worth of work for every dime he has to spend on the roads of his precinct. The result is he so scatters his money and effort that he can make very little improvement anywhere. Now, I am asking that we, every one of us give two full days in earnest labor on the public roads of Mills county on the 5th and 6th of November. To this end, I suggest that each Commissioner make it his business to select a suitable person to have charge of each squad of road hands in each locality—a man who will regard the matter seriously and manage it for the best possible results. Then let these men so selected enlist as many volunteers for the two days as possible.

Of course, some will refuse to lend assistance in this matter, feeling that somebody will be getting a "rake off" out of it. But we have too much work to do to waste time trying to explain to such fellows. They show up every time some public good is proposed. They remind me of the little boy who a few days ago, told his mother to go to another room and fetch him a drink of water. She told him to go and get it himself. He, whiningly, said, "You always make me do everything." As in the case of the boy, your work on the public road in your vicinity is work for yourself. If there are those who cannot work, they could contribute enough to hire a man for those two days. We have roads that can be made good, we have a county that is entitled to good roads. Let's contribute this mite to improve the roads. If others have better plans for carrying this work out than that proposed above, let us have them.

Yours for a better Mills county,
S. H. ALLEN.

The daughters of the present day are no less modest than those of a generation ago, but the woman's social status has changed along with the new thoughts and ideas. With the statement that there is less modesty among women, we cannot agree, but we admit, that they are more "manly" in as much as a large per cent of the women and girls make their money and independent of men. The modest girl of today would no more permit a coarse joke than would her mother or grandmother before her. But there are young men today who would not hesitate to relate a coarse joke in the presence of the Virgin Mary, were she walking in the flesh. The old time modesty has gone, but the new ideas are no less modest. The great trouble lies in the lack of respect shown by men, and there are some men who can see a brazenness in woman where none exists—who can make evil out of the most innocent remark.—Ex.

Mr. Bert Etheridge sold his farm to Dr. Jones and Mr. Bralley of Mullin.
Mrs. W. B. Summy of Goldthwaite and Miss Exa Sanders of Mullin were guests of Mrs. Will Burleson Tuesday.
JOAN OF ARC.

In a certain part of India a party of English officers were encamped, when a rustling sound in the grass and leaves attracted their attention. They found, on investigation, that the noise was caused by great numbers of little fish that were moving slowly over the ground and making steadily in one direction. Their method of locomotion consisted in using their sides and small fins as feet, and their progress was anything but smooth. Constantly they were falling from their upright position, squirming on their sides, rolling over, and finally struggling onto their feet again, resuming their arduous march. The fish these officers saw are well known as the climbing perch, which have long taken rank among the curiosities of nature and they were being compelled by drouth to traverse a tract of dry land in order to regain their native element. Constantly the streams they inhabit become dried up in the heat of the summer season. When this happens extraordinary piscine freaks climb up the banks and guided by some wonderful dispensation of Providence, make a direct beeline across the country to some river that still contains a modicum of water.—Philadelphia Ledger.

CALL FOR MONEY

It does seem to me that those owing me ought to pay me something while selling cotton, and those who have no cotton could pay me a small amount. I am forced to offer my farm at a great sacrifice to meet my obligations, when if I could collect, I would not have to sell anything. Please consider my physical and financial condition and pay me.

THE PUBLIC SCHOOL is one of the greatest factors in our country. When reinforced by good, wholesome, reliable newspapers it gives the American child a practical education. Without the aid of newspapers the public school can not give a boy or girl that degree of general intelligence that you wish your children to have. You can now get the Eagle and the Dallas Semi-Weekly Farm News for one year, three papers a week, for \$1.75. We accept and receipt for subscriptions at this office, do the ordering and take all the risk.

Pastor J. C. Newman of Goldthwaite was expected home from the Baptist sanitarium last week. We hope he will soon be strong again. He is one of our best preachers in this section. Rev. J. H. Frizzell of Goldthwaite was in Baptist Headquarters last week. He is pastor of Cottage Hill church at Shive in Hamilton county and Pompey Mountain in Mills county. At Pompey next Sunday two deacons will be ordained and at Cottage Hill the first Sunday two deacons will be ordained and also the ordination of Bro. Jas. Smart to the full work of the ministry will take place. Rev. A. R. Watson of Mullin and Dr. Everitt and Rev. J. D. West of Hamilton will assist.—Central Messenger, Brownwood.

DEMONSTRATOR CONTINUES.

Among the farm demonstrators in Brownwood this week was John E. Caldwell, son of J. D. Caldwell, who lives a few miles from this city. Mr. Caldwell has spent the past year as government demonstrator in Mills county, and says he has had a very successful year. The work there is fairly well organized, and since Mills county has a progressive commissioners court, it will be continued again next year.

John says the yield of demonstration crops was very good indeed. The cotton averages over a quarter bale per acre and the corn over 20 bushels. One farmer raised 25 bushels of corn per acre on his demonstration plot, and on the rest of his corn land raised only fodder, which he shocked in the field.—Brownwood Bulletin.

THE WORLD WILL NEVER STARVE

At no time since Adam and Eve were driven from the Garden of Eden have the inhabitants of this world suffered from lack of production, but some people have gone hungry from the day of creation to this good hour for the lack of proper distribution. Slight variations in production have forced a change in diet, and one locality has felt the pinch of want, while another surfeited, but the world as a whole has ever been a land of plenty. We now have less than one tenth of the tillable land of the earth's surface under cultivation and we not only have this surplus area to draw on it is safe to estimate that in case of dire necessity one-half of the earth's population could, at the present time, knock their living out of the trees of the forests, gather it from wild vines and draw it from streams. No one should become alarmed; the world will never starve.—Commercial Secretaries Association.

Tax paying time will begin next Wednesday.

A car of meal and chops arrived.—Harper & Egger.

Have you tried those fresh evaporated apples at our store? They are fine.—Harper & Egger.

30,000 VOICES.

And Many Are The Voices Of Goldthwaite People.

Thirty thousand voices—What a grand chorus! and that's the number of American men and women who are publicly praising Doan's Kidney Pills for relief from backache, kidney and bladder ills. They say it to friends. They tell it in the home papers. Goldthwaite people are in this chorus. Here's a Goldthwaite case. W. C. Frazier, farmer, Goldthwaite, Texas, says: "One of our family had been suffering a long time from her kidneys. There were pains in her back and she was laid up in bed. The kidney secretions were unnatural and caused her much annoyance. I had seen Doan's Kidney Pills advertised and I got a box at R. E. Clements' Drug Store. She began taking them and a few doses helped her. The pain in her back left and in a short time her kidneys were normal. Since then we have had great faith in Doan's Kidney Pills."

For sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, New York sole agents for the United States. Remember the name—Doan's—and take no other. Adv.

Caught a Bad Cold.

"Last winter my son caught a very bad cold and the way he coughed was something dreadful," writes Mrs. Sarah E. Duncank of Tipton, Iowa. "We thought sure he was going into consumption. We bought just one bottle of Chamberlain's Cough Remedy and that one bottle stopped his cough and cured his cold completely." For Sale by R. E. Clements. (Adv.)

Diarrhoea Quickly Cured.

"I was taken with diarrhoea and Mr. Yorks, the merchant here, persuaded me to try a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy. After taking one dose of it I was cured. It also cured others that I gave it to," writes M. E. Gebhart, Oriole, Pa. That is not at all unusual. An ordinary attack of diarrhoea can almost invariably be cured by one or two doses of this remedy. For sale by R. E. Clements. —Advertisement.

LAND FOR SALE.

According to authority, given and granted to me, by the heirs of F. M. and N. I. Whitten, deceased. I am now offering for sale a certain tract of land situated adjacent to the city of Goldthwaite, Mills County, Texas, the same containing 14 acres. I regard this as the most desirable piece of real estate anywhere near this city. The improvements, however, are not worth much. There is a fairly good well of water and a splendid location. This land must be sold, and will be sold. So if you want a bargain call and see me or write me.

H. T. WHITE, Attorney.

Mother of Eighteen Children.

"I am the mother of eighteen children and have the praise of doing more work than any young woman in my town," writes Mrs. C. J. Martin, Boon Mill, Va. "I suffered for 5 years with stomach trouble and could not eat as much as a biscuit without suffering. I have taken 3 bottles of Chamberlain's Tablets and am now a well woman and weigh 168 pounds. I can eat anything I want to and as much as I want and feel better than I have at any time in ten years. I refer to any one in Boon Mill and vicinity and they will vouch for what I say." Chamberlain's Tablets are for sale by R. E. Clements. (Adv.)

FOR SALE.

One acre rich land, four room house good well of water, cow lot, crib, shed and storm cellar. Improvements new; possession given immediately. This property is situated within the city limits. Parties desiring to take advantage of the good school facilities of Goldthwaite write me at Ridgeway, Texas, for price and terms.
