GOOD ROADS.

A road builder is a credit to his community.
A road is no better than its worst mud hole.
Don't forget the date—Nov. 5 and 6.
Good roads are community builders and farm developers.
Build good roads and you will be happy and prosperous.
Good roads mean good schools; good schools good citizenship.
Good roads bring the producer and consumer in personal contact.
Good roads are a benefit communally, religiously and educationally.
No other citizen realizes the value of good roads as does the farmer.
A community without good roads is doomed to slow and uncertain growth.
The disadvantages of bad roads are as manifest as the benefits of good ones.
There is something radically wrong with the farmer who is opposed to good roads.
No good citizen will fail to do his part on Texas good roads day—Nov. 5 and 6.
Good roads cheapen transportation and bind the rural and urban population closer together.
Bad roads keep children away from school and impair the efficiency of church work in a community.
A bale of cotton would be absolutely without value if grown in a field from which it would be a practical impossibility to remove it.
Production alone will not make a state. A market is a necessary adjunct, but to reach the market good roads are mandatory.
HOMER D. WADE.

FARM FACTS.

The world owes every man a living, but every man must collect it.
The ultimate success of the farmer depends on diversified farming.
The better the attention the cows receive the better the milk she produces.
As we make the work easier in the field, let us not forget the woman in the house.
It is one thing to grow a crop and another thing to sell it at a fair profit to the producer.
Profits generate thrills, mirth and merriment, and these things keep boys and men on the farm.
Better marketing methods, conservation of moisture and diversification should be the farmers' watchwords.
It is the duty of every farmer to see that his wife is supplied with every equipment to lighten her labors.
No farmer is perfect, but our mistakes can be reduced to a minimum by intelligent reading and intense thinking.
We are too much burdened with the idea that it is every man's duty to take care of himself and let his neighbor do likewise.
Co-operation means merely working together. The business of farming must be changed from an individualistic to a co-operative basis.
Our greatest trouble is not a lack of knowledge of the business principles which underlie successful co-operation, but a lack of the co-operative spirit.
When the farmer fully realizes just how closely his interests are bound up with those of his neighbor and fellow-farmer, then will farming become a profitable business.
PETER RADFORD.

SOUTH BENNETT.

Eagle Editor:

The trustees and patrons are celling the large school house and fixing it up for Miss Rosa Keese to begin school Monday, Oct. 19. Hope all scholars will attend first day.

Miss Johnnie Belle Harrison of South Bennett will teach the Live Oak school, to begin next Monday.

It seems to me like the change of text books is unnecessary expense to people, but as a loyal Texan we'll do our best to boost education in Mills county.

Rev. Jas. T. Weems filled his regular appointment Sunday, giving us a choice sermon on "Unity." South Bennett charge paid assessments in full, so I heard.

A good rain fell here today. Mustard, radishes and young onions just up, from seeds for greens coming.

Our unusual good roads are too bad for big loads going in or out of town. Wheels in mud now go down. Remember Nov. 5 and 6 and work the rural roads in Texas.

Mills county folks are co-workers with L. G. B. and I. K. G. as Jokers, to help the men and boys work hard and pleasant as base ball.

My, didn't President Wilson burst the Dike last Friday? Two Americans were first in the world's records. Knowledge shall increase, men shall run to and fro; ox wagons will cease, carriages without nags will go. Aviators—aironauts, will fly like eagles in the blue sky.

Let's work, unifying town and country folks as we have in Mills, always boosting these delectable hills too healthy for chills. Health is wealth. Truly,

THOS. J. HARRISON.

TAXES ARE HIGH.

It is a fact that taxes are higher this year than they were last year, but they are not nearly so high as many people have been led to believe. The state tax rate last year was 26 2-3c on the \$100 valuation, while the county rate was 35c on the \$100. This year the state rate has been raised to 45 cents on the \$100, which is the highest rate in the history of the state, while the county rate has been raised only 15c on the \$100, notwithstanding the additional levy for the new court house and the further fact that great expense has been incurred by the county because of the loss of the court house. Office rooms have been rented for most of the officers, new typewriters, adding machines, blank books, stationery, etc., had to be bought and each term of county or district court a court room has been rented. All of this expense, except for the books and stationery can be stopped when the court house is completed and it is a pretty safe wager that the tax rate can be reduced for county purposes next year, but the county officers have no control over the state rate, which will likely be higher.

Our commissioners court and county officers have had many hardships and inconveniences since the burning of the court house and the Eagle believes they have exerted themselves to keep down expenses and prevent the taxes being higher than absolutely necessary.

SELF CULTURE CLUB.

The Self Culture Club met with Mrs. S. P. Sullivan Thursday afternoon of last week. After a short business session, Mrs. W. H. R. M. THOMPSON, Editor

The Temple Telegram is now one of the leading daily papers of the state and is issued seven days a week. It reaches Goldthwaite on the morning of publication, which makes it especially valuable to the people of this section.

Monday morning at an early hour Walter Shook, proprietor of a hotel in Temple, was shot and killed and ex-Policeman Osbourne was arrested charged with having done the shooting. It is said that family trouble was the cause of the shooting.

Sixteen women were crushed to death in a synagogue in Lemberg, Austria-Hungary, Sunday. A woman in the audience fainted, when the balance of the women in the congregation took panic and many were injured, besides those who were killed outright.

After returning to New Orleans from Panama, Governor Colquitt decided to visit Cuba before returning to his duties at Austin. He will not get back in time to open the Dallas fair today and that duty will devolve upon Lieutenant Governor Will Mayer who is, getting used to the gubernatorial honors now and can perform the duties in good style.

Another terrible disaster was reported from the mid-Atlantic, when 136 people lost their lives while attempting to escape from the steamer Volturno, which was burned in mid-ocean Saturday night. Rescue ships were nearby, but the high winds and raging sea prevented all being saved. There were about 700 people on board the Volturno. The fire was caused by an explosion of some character in the forepart of the ship.

The senators and members of the lower houses of congress who were sworn in at the City of Mexico last Friday, by order of the acting president. A joint resolution had been adopted by both branches of the congress demanding that Huerta produce an aged senator who had denounced the president and had soon afterward disappeared. The resolution warned the assassin-president that congress would adjourn to meet elsewhere if the senator was not delivered to his colleagues.

The last of the large barriers to water communication between the two mighty oceans through the Panama canal was removed by a gigantic charge of dynamite last Friday afternoon, which was ignited by an electric spark, caused by President Wilson touching an electric key in his office in Washington. The connection was made by special arrangement and the continuous wire of 4000 miles was charged for the purpose of having the president remove the last of the dikes. There will be comparatively little work to complete the canal and allow steamers to pass from ocean to ocean.

Jupiter Pluvius is one of the most powerful elements in nature, and likewise is a most progressive citizen. During the past few weeks he has taken the stump for good roads and, brushing aside the proclamation of the governor, has issued an emergency call to all citizens to work the roads immediately or remain mud-bound. There are few agencies that can deliver so much in so short a time. The unprecedented rains have turned the highways of the entire state into a demonstration of the evils of bad roads. Empty vehicles mired up in the mud on our leading thoroughfares vividly present living charts illustrating in convincing forms the advantages of good roads and high price for ton and impassable roads offer a forceful argument in favor of building forced highways than the eloquence of our most brilliant orators. At the silent forces of nature building good roads, we may expect more citizens to become the advantages of impassable highways.—Commercial

LOS ANGELES, CAL.

Editor Eagle:

For the first time in a year or more I am looking upon the waters of the Pacific ocean, watching with childish delight the waves as they chase each other over the bosom of the grand ocean—which must have startled Balboa in wild surprise when, four hundred years ago, he discovered this great body of water.

Nothing charms me more than the ocean; its voice soothes me and awakens grand and noble thoughts, sweet memories of the past. While in this reminiscent mood of the past, I will pencil a few lines to the Eagle to be copied later.

I came to the beach this A.M., the first day of October, with a party of friends and relatives, among whom are Mrs. White and daughters. Upon arriving I separated myself from them to enjoy a quiet meditation and commune with friends. "Though lost to sight to memory dear."

I have visited a few places familiar to me left from the disastrous fire that a short time ago reduced the greater part of Ocean Park to ashes, but which has been rebuilt with marked improvement. I find the bath-house unchanged. Here the first summer I spent in California I enjoyed many quiet hours.

I am now seated on the million dollar pier, giving attention to pedestrians as they pass to and fro and I am sure that no moving picture show could afford greater entertainment; people of every form and size, hue and color, costumes from Noah's ark to the present days, split skirts and shadow gowns. Here comes a Spanish Senorita leaning on the arm of her Senor, beautifully gowned, though thin. Shakespeare never spoke more truly than when he said: "All the world's a stage and men and women mere players."

The sun has reached its zenith, reminding me that it is time for lunch. I'll look up my party and attend to this important part of the day's program.

My! What a delicious repast of sandwiches, hot tea and coffee, dessert, fruits, etc. The song of the ocean came swelling up from the mighty deep as we ate. The table on which we spread our lunch was on the pier. We will have a special band play.

I find that three years have made a great change in my walking abilities. I'll take the car while the others will walk and view the many lovely scenes as they go along.

October 2—At noon yesterday the sun was radiant. We remained at Ocean Park a while and then proceeded to Venice, had ice cream, took our seats at the band stand about 3 p.m. when lo! a rain shower began to fall before the first piece was finished. None of us had even noticed a cloud. One of the ladies, a Californian, suggested that we had better start for home, that from all appearances a heavy rain was approaching. We followed her advice and not too soon, for we had hardly started on our homeward journey when the lightning began to flash and thunder roar. Another freak of the weatherman. After presenting an electrical exhibition, the angry clouds seem to concentrate in a small area about Los Angeles harbor, where, I learn from the city papers, two fires were caused by lightning. During the storm freak we that were in the electric car were at a standstill. The power gave out and we remained stationary for an hour, then moved on. We left the beach at 3:50 p. m., and arrived at our destination at 7:30 p. m. "White Nefsy," the most important personage in the crowd, departed himself beautifully and was the cynosure of all eyes.

Following electric display Oct. 1, was an earthquake. The shock was only slightly felt in this city, but from Panama to Colon City the shock was severe. The first tremor was felt, says official statements, at 1:40 p. m. The next greatest shock was felt at night. Between that hour and 5:15 p. m. eleven other shocks were distinctly recorded. The violence of the vibrations at 11:25 at night was so severe that it threw the pen off the paper of seismograph, consequently an exact time of its duration was not obtainable and apparently lasted from 20 to 25 seconds. Col. Goethals has received reports from every part of Canal territory stating that no damage whatever was done to the Panama canal.

goods were loaded in an automobile and it is believed they were carried to Dallas.

Governor Sulzer was found guilty on three charges by the court of impeachment and a decree was issued removing him from the office of governor of New York and the lieutenant governor was declared the chief executive of the state. Sulzer did wrong in many instances, but he is better than many of those who prosecuted him.

The death of Adolphus Busch, the millionaire brewer, occurred at his residence in Germany last Friday. He was well known in almost every part of the world and had estates in several countries. The bulk of his holdings were in the United States, where he was interested in many breweries and in hotel property, banks and other corporations. His body will be buried at St. Louis.

A report comes from Alaska that the commander of a Russian ship has arrived there and claims to have discovered another continent north of Asia. The claim is believed by members of the national geographic society, who say that the expanse north of California and Siberia has long been considered a most inviting field for investigation. The claimant says the body of land is larger than Greenland.

President Wilson is said to be considering the recognition of the revolutionists in Mexico, as he is heartily disgusted with the assassin president who has proclaimed himself dictator of Mexico. The representatives of several nations requested their governments to send warships to Mexican waters to be ready for an emergency. If this government will allow men and arms to pass over the border into Mexico the end of Huerta's reign is in sight.

Many people in a misguided effort to get rid of kidney backache rely on plasters, liniments and other makeshifts. The right treatment is kidney treatment and a remarkable recommended kidney medicine is Doan's Kidney Pills. Goldthwaite is no exception.

The proof is at your very door. The following is an experience typical of the work of Doan's Kidney Pills in Goldthwaite:

J. C. Fulton, Goldthwaite, Texas, says: "About three years ago I was taken down in bed with a severe pain in the small of my back. Often I was so bad that I had to have assistance in changing from one position to another while in bed. The kidney secretions were too frequent and painful in passage and highly colored. I decided to try Doan's Kidney Pills as I had often heard they were good for kidney trouble, and I procured a box at Clements' Drug Store. I noticed improvement after I had taken a few doses, and after I had finished two boxes I was able to go back to work. I am never without a supply of Doan's Kidney Pills in the house."

For Sale by all dealers. Price 50c. Foster-Milburn Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other. (Adv)

Some there should be a bottle of Dr. King's New Discovery, ready for immediate use when any member of the family contracts a cold or cough. Prompt use will stop the spread of sickness. S. A. Stid, of Mason, Mich., writes: "My whole family depends upon Dr. King's New Discovery as the best cough and cold medicine in the world. Two 50-cent bottles cured me of pneumonia." Thousands of other families have been equally benefitted and depend entirely upon Dr. King's New Discovery to cure coughs, colds, throat and lung troubles. Every dose helps. Price 50c and \$1.00. All druggists.—H. E. Bucklen & Co., Philadelphia or St. Louis. (Adv)

ROAD WORK.

Nov. 5 and 6 are the days designated by the governor as road working days. On those two days every able bodied citizen should either work on the road or contribute sufficient to employ some one to do the work for him. Every citizen is interested in good roads and every one can afford to give two days' work toward making the roads in his own neighborhood good. From all parts of this county and in fact from all parts of the state assurances are given that the people will respond to the call for road work. Those who can not do the work and have no one they desire to employ to do the work can contribute an amount to employ a worker and such amount in the hands of any one of the commissioners will be used to the best advantage.

WOMEN WHO GET DIZZY

Every woman who is troubled with fainting and dizzy spells, headache, weakness, debility, constipation or kidney troubles should use Electric Bitters. They give relief when nothing else will improve the health, adding strength and vigor from the first dose. Mrs. Laura Gaines of Avoca, La., says: Four doctors had given me up and my children and all my friends were looking for me to die, when my son insisted that I use Electric Bitters. I did so, and they have done me a world of good." Just try them. 50c at all druggists or by mail.—H. E. Bucklen & Co., Philadelphia or St.

DRUGGIST GIVES MONEY BACK.

Dodson's Liver Tone Gets a Four Square Guarantee From Clements' Drug Store.

When an article is sold a druggist who is willing to give it his personal guarantee, it's a mighty strong proof of real merit.

That's exactly the case with Dodson's Liver Tone. It's a pleasant-tasting, vegetable remedy for a slow and sluggish liver. Since Dodson's Liver Tone came on the market, the sale of calomel has gone 'way down. The reason is simply this: Dodson's Liver Tone is safe and harmless and guaranteed to be satisfactory—calomel is often uncertain, sometimes dangerous and no druggist wants to guarantee that it won't knock you out of a day's work and maybe send you to bed.

R. E. Clements sells Dodson's Liver Tone and guarantees it. For you and your children, it's a good thing to keep a bottle always in the house.

R. E. Clements will give you your money back if you think Dodson's Liver Tone is not worth the price. "Keep your liver working and your liver will not keep you from working." 's good advice to go by. (Adv)

A BIG FIRM COMING.

Another big mercantile firm is preparing to locate in Goldthwaite—the best town of its size in Texas. Mr. J. E. Corrigan, representing the firm of McKinley-Corrigan Company of Hamilton, was here Monday and closed a deal with the Everly Co. for the lease of the large brick front building on Fisher street, now occupied by that company and will be given possession Jan. 1. The Everly Co. is also to build for the new firm another large stone building joining their building on the north and McKinley-Corrigan Company will build a large fire-proof warehouse on two lots at the rear of the Everly building and fronting the depot.

The new firm handles a general line of merchandise, including dry goods, groceries and hardware and also deals largely in live stock. It is one of the strongest firms of Hamilton and its coming is expected to be of benefit to the other mercantile establishments of the town and the county in general.

Goldthwaite is recognized as one of the best business points in Texas. Her business men are all prosperous and progressive and the people of the town and country are of the highest class. The splendid record the town has in a commercial way and the well known prosperous condition of the people of all vocations, both in the town and country, make it a most desirable place for a business location. We already have a number of strong firms here and the acquisition of this new firm strengthens the business community and will be of assistance in building up and developing the country.

DISTRICT COURT.

The fall term of the district court closed Tuesday afternoon and Judge Robinson and his stenographer, Mr. Monteith, left on Wednesday morning's train for their homes in Belton. There were no cases of consequence on the docket and no proceedings of interest resulted from this session of the court. Mills county is allowed three weeks of court, but we seldom require three days to dispose of the business of the semi-annual term. Not a jury was used at this term and the grand jury only returned six indictments and they were all for misdemeanors of small consequence.

This was Judge Robinson's first term of court here, this county having been transferred from the 35th to the 27th district by the last legislature. The people are all well pleased with the manner in which Judge Robinson and District Attorney Ward conducted the affairs of the court and speak in the highest terms of them both.

The next term of district court is to be held here in May.

Avoid Sedative Cough Medicines

If you want to contribute directly to the occurrence of capillary bronchitis and pneumonia use cough medicines that contain codeine, morphine, heroin and other sedatives when you have a cough or cold. An expectorant like Chamberlain's Cough Remedy is what is needed. That cleans out the culture beds or breeding places of the germs of pneumonia and other germ diseases. That is why pneumonia never results from a cold when Chamberlain's Cough Remedy is used. It has a world-wide reputation for its cures. It contains no morphine or other sedative. For sale by R. E. Clements. (Adv)

CALL FOR MONEY

It does seem to me that those
owing me ought to pay me some-
thing while selling cotton, and those
who have no cotton could pay me a
small amount. I am forced to offer
my farm at a great sacrifice to meet
my obligations, when if I could col-
lect, I would not have to sell any-
thing. Please consider my physical
and financial condition and pay me.
J. D. CALAWAY.

GIN NOTICE.

We have thoroughly overhauled our
gin in every particular in order to
meet the demands of the public. We
will gin for same price as last season.
We are here to serve you in any way
and will appreciate your patronage.

Respectfully,
WALTER FAIRMAN.

All persons indebted to me by
note or open account are requested to
make settlement at once. I have
disposed of my business in Big Val-
ley and desire to close the books at
once. Please do not delay in this
matter, for it is important to me.
