### METHODIST PASTOR MOVED.

Rev. J. S. Bowles Has Been Appointed to Brownsville Station, to be Succeeded by Rev. Perry.

The Methodist congregation of Midland will cordially welcome Rev. J. W. Peery, whom annual conference at San Antonio last week appointed to succeed Rev. J. S. Bowles at this place.

Bro. Perry is from Brownsville and Bro. Bowles goes to Brownsville, and while our welcome to the new pastor will in no wise be lessened, will be warm and full of cordial western hospitality, at the same time we are implacably disgusted with whom or what caused this surprising and profoundly astonishing action upon the part of the conference. We feel absolutely sure that Bro. Bowles was best suited and was most needed at this place for another two or three years. All was harmony and in perfect peace under his ministrations, and for the first time with this congregation for at least fifteen years there seems to be no friction whatever in any department of this charge.

No one seems able to guess what caused his removal, especially in the face of but one year and that one so filled with splendid results at peace-making and spiritual inspiration. The stewards were not apprised of any such action, nor were any of our people. In such perfect harmony was Bro. Bowles with all our people that pastors of other denominations even wrote the conference urging his return that their fellowship might not be disturbed.

But pshaw! What's the use? That it would have suited Bro. Bowles to be returned to Midland we know. Not less we know it would have suited his people here. We all love him and his splendid wife, and it is with deepest regret that we are to lose them, and prayers will go with them into their new field that their lives may fall into places as pleasant as may be possible. So cordially do

we commend them to the congregation at Brownsville.

Bro. Bowles goes to his new charge next week, and he goes with a rich store of happy thoughts, pleasant memories of work well done, and with soul-thrilling knowledge that his labors were patterned along lines laid out by the peace-loving Nazarene, and that the results have been like His.

He will preach his farewell sermon Sunday night. Other denominations will turn out to hear him and bid him God-speed. A reception will also be tendered him and his family Monday night.

Rev. and Mrs. Bowles to depart.

Surprise amounted almost to a distressed bewilderment describes the state of mind into which not only Methodist circles but Midland generally was thrown when the announcement came from conference this week that Rev. J. S. Bowles was to be moved from this charge. Bro. Bowles has only been in Midland one year, but no man has ever wielded a greater influence in his church, no man has ever been more universally respected in other churches than Bro. Bowles. Possessed of a forceful, earnest, and upright Christian character, his daily life has been a demonstration of the religion he preached. He has never failed in his fidelity to his church or people and he done much to harmonize discordant factions. He and his wife are both people of broad culture, and too, people whose religion is a bright, joyous reality. They were always deeply interested in anything involving the good of not only the church, but of the community as well. We regret greatly to lose Bro. and Sister Bowles, not only from the church, but also from our citizenship, and wish for them just as much success in their new field where their lives may be as much of a blessing and their memory just as fragrant as in Midland.—Midland Reporter.

### GOOD ROADS.

A nation can safely be judged by the kind of highways she maintains.

Chop out the goggle-eyed culverts and chop down the hump-backed bridge.

Where macadem or gravel roads can not be built, take the next best thing—build good dirt roads.

Agitate, educate, legislate—these three words are all sermons in the minds of good roads advocates.

The subject of good roads is one that will not down, but the question of keeping good roads good is almost, if not quite, as important.

Electric lights and signs illuminate a town, but the thing that displays the country to the best advantages and makes its people happy and prosperous is good roads.

To keep the boy on the farm it will be necessary to make the country forces as effective and inspiring as the city forces. The longest step towards accomplishing this result is to have good highways in the country. This accomplished, the rest will be easy.

HOMER D. WADE.

There will be considerable changing around in the business community on the first of the new year. Some business men have bought buildings and others have arranged for a change of buildings. The announcements will all be made in due time.

Miss Willie Lindsey of Las Cruces, N. M., arrived Tuesday morning for a visit to the Trent family and left Wednesday for San Antonio.

The city council held its regular monthly meeting Monday night. No business was transacted other than of a routine nature.

Sheriff Priddy made a business trip to Mullin one day this week.

J. W. Rumans was here from Ebbony the first of the week.

The new school building and the court house are both nearing completion.

The San Angelo fair attracted a large number of Mills county people this week.

Wm. Oquin and I. K. Griffin were among the visitors to the San Angelo fair this week.

The splendid rain helped oats, put the ground in good condition for plowing and put an additional season in the ground.

Miss Myrtle Madden of Colorado City, who spent some time here visiting, left Tuesday for Dallas to visit friends.

P. E. Gardner and wife of the Nabors Creek community were appreciated callers at the Eagle office one day this week.

Dr. Fowler was here from Hamilton Tuesday. His mother came with him and boarded the train for Bertram to visit her sister.

W. A. Teague of Star was a visitor to this city the first of the week. Hez Cobb was here from west of the Bayou one day this week.

J. S. Sealey returned Tuesday from the Dallas fair, where he remained for about three weeks in charge of the Mills county exhibit. He did well with the display and the county was benefitted a great deal by it.

Rev. S. D. Taylor of Artesia, N. M., was here this week visiting his mother and other relatives and made the Eagle a pleasant call. He is pastor of the Baptist church in Artesia, which is one of the best churches in that state. His brother Walter is pastor at Texaco, in the same state and together they recently held a meeting at Texico with splendid results.

### FARM FACTS.

Where there is a silo there is prosperity.

Cheap money will solve many of the farmer's problems.

Well kept farms are an index to a community's prosperity.

Efficiency alone cannot bring success; with it must come co-operation.

Keeping everlastingly at it is the secret of success in business.

The average farmer is a genius at producing, but knows nothing about selling.

Let us give more attention to the marketing side of farming and the world will be better off.

The farmer is not in business on a basis of philanthropy, but wants all he can get for his labors.

Scientific farming means putting the best of thought into your cultivating, plowing and planting.

The science of farming, after passing through 2,000 years of experiment is just now approaching an era of practicability.

The yearly interest of the indebtedness of the Texas farmers is enough to purchase 40,000 Texas farms, including their equipment, annually.

The price of a farm product depends upon getting it to the place where needed at the proper time, hence the necessity of good roads from the farm to market.

Under the present system of marketing farm products, it is possible, and often occurs, that people in one part of the United States literally starve for the want of a product, while the same product in another part of the nation is wasting for the want of a market.

PETER RADFORD.

C. H. Carter was here from Center City Monday and gave the Eagle editor a delightful metallic hand shake. Dr. W. D. Alldredge of Ridge was a visitor to this city one day this week.

**B. M. C. ENTERTAINMENT.**

On the evening of Oct. 31, the fourth anniversary of their organization the B. M. C.'s entertained the former members at the beautiful new home of Mr. and Mrs. J. N. Weatherby.

The guests were received at the door by Mrs. Weatherby and Miss Nora Hooks, the president of the club. After some pleasant moments had been spent in general conversation and merry making, cards were passed for a contest entitled, "Some Who Have Gone Before." The names of some of the ex-members had been dissected and re-arranged in such ludicrous fashion that very few were able to recognize their own names which, of course, provoked a great deal of laughter and fun. Mrs. Leonard Skaggs, Miss Mamye Kelley, Mrs. Tom Corridor and Mrs. Kelly Saylor showed themselves equally apt in putting these names back into their every day forms, and were compelled to draw for the honor, which fell to Mrs. Skaggs, and she received in token thereof a beautiful shadow-lace breakfast cap.

Score cards were then passed for the progressive games, each table playing a different one. At the end of six games the playing ceased and Miss Dera Humphries, the winner was awarded a handsome piece of handwork as a prize. As the hour grew late the guests were served with delicious salad course, after which they took their leave with many expressions of appreciation of the hospitality of their hostess and of the delightful entertainment provided by the B. M. C.'s.

"A GUEST."

WHY HURRY?

Several times lately the Eagle has been approached relative to the announcement of county candidates. While no formal announcements have been made, there are a number of gentlemen who are known to be candidates and some are "raring to go." The Eagle sees no need for undue haste in the matter. Every candidate can make a house-to-house campaign in thirty days, so we see no need for opening the campaign before March or even May. Why consume the entire year in a campaign when a few months would be sufficient time? The people should not be annoyed with a long drawn out campaign and the Eagle hopes the candidates will delay their announcements until the spring time, anyway, in order that the crops may be gotten under way and other affairs be adjusted before an active campaign is begun. Many arguments might be used against an early and long campaign, but the Eagle believes the candidates will see the matter in the right light without argument and a number of them are known to agree already with the suggestion of a short campaign.  
 There can be no objection to candidates making their desires known to their friends privately and discussing the matter in a quiet way, but there is no need for a whole year of a county campaign.

GINNERS REPORT

The Oct. 18 report of the ginnerers of Mills county, made to the department of Commerce and Labor in Washington, shows 7018 bales of cotton ginned to that date. On the same date last year 10,511 bales had been ginned.

Colds

should be "nipped in the bud", for if allowed to run unchecked, serious results may follow. Numerous cases of consumption, pneumonia, and other fatal diseases, can be traced back to a cold. At the first sign of a cold, protect yourself by thoroughly cleansing your system with a few doses of

THEDFORD'S BLACK-DRAUGHT

the old reliable, vegetable liver powder.  
 Mr. Chas. A. Ragland, of Madison Heights, Va., says: "I have been using Theford's Black-Draught for stomach troubles, indigestion and colds, and find it to be the very best medicine I ever used. It makes an old man feel like a young one."  
 Insist on Theford's, the original and genuine. E-67

IS EVOLUTION TRUE?

The fool hath said in his heart, "There is no God." The man that says man evolved from the lower animals disputes Moses' account of the creation, and denies Christ, because Jesus recognized his writings as true; and said to the Jews who thought Moses greater than Jesus: "Had you believed Moses, you would have believed me, for he wrote of me. All that was written in the Law and Prophets and Psalms concerning me is true."

This is sufficient to show any one that will assert such things as found in our Physical Geography and taught in our schools today is a down right infidel, and if our leaders are infidels and we allow them to force upon us such vile stuff and teach it to the children, what may we expect in a few generations? I would like to ask the old blockhead that made this statement, who made the lower animals, as he calls them. It may be that he descended from the monkey. If he prefers to believe that of himself it is none of our business, but if we Christian people prefer to believe and teach our children that God created us (man) in His own image, it is none of his business. I may take the position that he is a monkey and he cannot prove he is not to save his life without the Bible. Science, so called, teaches a great many things that cannot be proven. It is strange that parents will sit idly around and suffer their children to be taught such foolishness and strange that intelligent, able teachers and church members will teach such stuff, but such is the gush of the higher critics. They want a job.

I wonder if this old ignorant maker of school books ever read what is said in the Scriptures. God made of one blood all nations of men, for to dwell on the "ace of the earth." Are there any nations among the ape family? And every thing brings forth after its own kind. Did those wise men ever find out when apes ceased to rise to a higher plane and develop into a wise being like our school book makers, or a beautiful woman? How degrading it is to ask us to look back to the monkey for our ancestors. This kind of wisdom is the kind that was referred to in the Holy Scriptures which says the wisdom of the wise is foolishness with God and He taketh the wise in their own conceits.

The only true science in the world today is found in the Book of God. All others change from time to time, but God's Law is unchangeable. A.

He gave checks on a bank in Moline, Ala., but the checks were refused by the bank. He gave his name as John Harrington.

The gubernatorial situation is very much complicated and it would be hard to guess at this time who will be the winner in the contest. True, a number of gentlemen have announced their candidacy and their friends have promptly proclaimed them the winners, but the announcements are not all in yet and there may be some dark horses that will prove mighty fine racers.

The announcement of General Diaz, former president of Mexico, that he will not return to that country at this time occasions no surprise. The old man is known to be cold-blooded and possessed of many other characteristics that do him no credit, but his most outspoken enemies have never charged him with being a fool. Of course, he will not return to Mexico, now or any other time.

The Dallas fair closed Sunday and the Waco cotton palace opened Saturday. Various county fairs have been in progress during the week and others are scheduled for next week. All show fine products of the farms and ranches of Texas and the large patronage given them shows the prosperous condition of the people. Every train is loaded with passengers en route to some fair or similar entertainment or en route home from such places. Many people appear to delight to talk of "hard times," but it is difficult to locate evidence to sustain the claim that such conditions exist.

The death of Chas. W. Gates from apoplexy a few days ago removes a most unique character and a man who bid fair to be the world's greatest philanthropist. His father, John W. Gates, left him rich beyond the dreams of avarice and the young man proved a royal spender. He cared nothing for money and announced that he gave away \$1,200,000 per annum in tips to servants, railroad employes and others. Just before he died he gave the guide who accompanied him on a short hunting trip \$10,000 as a present. He was a royal good fellow with no viciousness about him and all who knew him or knew of his character are truly sorry that he is dead.

FROM MRS. VAN GLAHN, Los Angeles, Cal.

Editor Eagle: The tenth month of 1913 is rapidly drawing to an end. It has been full of interesting and startling events, beginning with the storm freak and earthquake.

On the 3rd inst. 4000 Shriners from every part of California descended upon this fair city and found royal welcome; were served with an elaborate banquet. I wish that I could go into full details, but it would require time and space. I will say, however, that they only gave the city a fling of what they expect to give in 1915. They serenaded the whole city. When the band was not playing the Shriners were singing. Friday afternoon they steamed out of the "Golden Gate" singing "I Love You, California," and it was reported that at 10 a.m. next day when they passed San Pedro breakwater, the same song was rolling buoyantly from the deck.

The most notable wedding occurred on the 10th inst., when the two great oceans were united; this union of the waters of the Atlantic and Pacific oceans was appropriately celebrated in Los Angeles and other places along the coast. President Wilson, sitting at his desk in the White house, pressed a button at 2 o'clock sharp (1 o'clock a. m. Los Angeles time) signed the destruction of the Gamboa Dyke, in the Panama Canal, the last barrier between the waters of the two oceans, and will always be known in future history as "The Wedding of the Oceans."

A new attraction is being planned for 1915—a mammoth flower show. Nearly all southern California is interested in this movement and the establishment of a permanent floral and plant exhibition through the year is almost practically assured. The Angel City expects to be in the lead, possessed as it is of such great advantages along that line.

Oct. 12, in memory of one of the most important historical events of the world, the discovery of America Oct. 12, 1492, was celebrated in this city by the laying of the corner stone of the Auditorium and the club house of the Knights of Columbus. "Discovery Day" should awaken in the minds of every American citizen memories of an event unsurpassed in all the world's annals; almost the creation of a new world. It is right that we should commemorate the successful issue of a voyage that resulted in the development of America, "The Home of the Free, The Land of the Brave."

Since my last writing, our young friend, Carroll Rogers, has left for Arizona, but says when he makes a fortune will return to California and make Long Beach his home.

A few Sundays since, Mrs. White and Hassie attended service at the Temple Baptist church, on their way home. Mrs. White suddenly stopped and exclaimed "Oh! Hassie, see what I have found." Hassie looked expecting to see, did not know what. Her mother pointed to a sign over the door of a house, "Primitive Baptist Church, Preaching Every 2nd and 4th Sundays." Since that time she has attended. She found the pastor to be a Texas man from Hamilton and familiar with many of the "Old Baptist". "Father Harris" of Mullin, whose memory is fondly cherished, was this pastor's personal friend. Thus it is, we meet pleasure as well as pain along life's journey.

MRS. VAN GLAHN.

Men have organized and made their voices a wiff, and their organizations have been fruitful of much good. Woman's voice has been weak and almost unheard, but organization on her part in every community can also be productive of much good. The time is long past when woman's sphere is confined to the four walls of her home. The home is a very vital part of the community, and this being the case, everything from the construction of roads to the arrangement of the school house is of concern to every woman, and she must realize that the welfare of the community depends on her as well as on her husband. Clubs composed of farm women of every neighborhood in Texas, organized for the purpose of studying home problems, farm life, the economic problems of everyday life, and to co-operate with the men in their efforts for the upbuilding of the state, would accomplish much and lasting good. Let the farm women organize clubs in every community.—Mrs. E. P. Turner.

## HAPPY FAMILY OF DOGS AND MONKEYS.

Snyder Coaching Party Will Be Here With Gentry Brothers' Show.

Unique Performance of Animals Brings Delight to Children and Fascinates Their Elders.

A touch of nature makes the whole world kin, and the touch of nature that is brought out by the "Snyder Family" with Gentry Brothers' All New Feature Shows brings all audiences to hearty laughter. The Snyder Family is the unique climax of an idea conceived by one of the trainers. The trainer is also a mechanic.

At odd times around winter quarters, he built a little family carriage, made a tiny set of harness, several dresses, and everything else that goes to make up the toggerly of a family out riding.

Then he drew upon dogs and monkeys for his characters. Two big dogs were chosen for steeds. Another big dog, but of different color, was chosen for "Mr Snyder." Then Mrs. Snyder was found and a nice new dress was fitted.

From among many other dogs, a little terrier was chosen for the "Snyder baby." Of course the baby had to have a nurse. A monkey was selected, and a large monkey was chosen for coachman. After much rehearsal the animals were working perfectly. Now they drive in state into the tent of Gentry Brothers' All New Feature Shows.

The family pays a visit while the monkey nurse takes the baby outside. When the coach returns it is turned over. The coachman rights it and the nurse attends the injured members.

The manner in which these animals go through their entertaining work is one of the most laughable features of Gentry Brothers' All New Feature Shows. With them the "Snyder Family" will visit this city Friday, November 14. (adv)

## NEIGHBORING NEWS

Items Culled From the Leading Local Papers.

**HAMILTON**  
J. O. Ballard will open a new barber shop tomorrow in the building formerly occupied by Teague's shop, on the south side of the square.

Since our last issue some complications have arisen in Dr. McMordie's sickness, and they were regarded as of sufficient gravity as to warrant taking him to the sanitarium at Temple, perhaps for an operation.

Judge Lewis and Commissioners Wall, Smith and Schwartz went to Dallas last Monday, via Waco, to inspect some road and bridge material and machinery that the county is constantly finding itself in need of.

Some business men are worth nothing to the town, but they flourish and prosper in business, for they are all the time working for themselves and never doing anything for others. They receive the benefit of what others do, but are stingy and close-fisted when called on to help in any enterprise of general good. The men who are active in everything that is for moral and material improvement in the community are losers very often, for they constantly make enemies of the do-nothing kind and consequently fail to receive their patronage or help in a business way.—Herald.

**LAMPASAS'**  
W. J. Williams has sold the Lometa Reporter to W. H. (Herbert) Adkins, and the latter has already taken charge of the plant.

J. P. Meek is having the old stone front torn out of his building at the southwest corner of the square and will have a glass front put in. He will move his stock of groceries into that building about the first of the new year.

Dr. J. G. Townsen and B. F. Hawkins, both of the Tuscola country, are here, the doctor to attend the medical meeting and Mr. Hawkins to visit among friends. Both formerly lived at Star, Mills county, and have many friends in this section.

The fire alarm was sounded about 6 o'clock Monday evening and the blaze was located at the home of Mrs. Leverett-Erwin. It was caused by the ignition of gasoline about a gasoline stove and was soon extinguished. The paper on the wall behind the stove was burned, but there was no material damage.—Leader.

W. T. Moore reports having marketed 2,500 pounds of pecans Tuesday. They brought eight cents a pound.

Rev. J. H. T. Miller, who has been pastor of the Methodist church here the past two years, left this week for his new charge as junior pastor of the church at Brady. His successor here is Rev. Chas. Doak of Cherokee.—Reporter.

**SAN SABA.**  
J. C. Evans left for Quinlan Sunday to look after his real estate interests there.

Dr. Lark Taylor of Haskell is here spending a few days with his brother, Dr. H. H. Taylor.

Miss Euna Rochelle has gone to Goldthwaite, where she will teach school.

C. W. Lindsey of Goldthwaite returned home Sunday, after spending several days here on business and visiting his sons.

Matt Lesueur and Miss Ethel Cook were quietly married at the home of the bride's father, J. C. Cook, in the east part of town Saturday night about 9 o'clock.

The firemen have received their new alarm whistle and it has been installed at the ice and light plant. It was tested the first time Saturday and is a real wild cat whistle.

W. B. Urquhart has sold his town residence property to M. Brazil, consideration \$5,000. Mr. Urquhart will move to the farm which he purchased last summer from John Holland just across the river from town. Mr. Brazil will move to town and occupy the place here.—News.

and best known citizens of Brownwood died last night at two o'clock at his home, 1009 Martin avenue.

The Comanche High School football team defeated Kirkpatrick's Brownwood bunch Saturday afternoon by a score of 14 to 13.

Sheriff Denman last night caught a big party of Mexican gamblers, who were trying to decide which one of them should have the combined week's wages of the crowd.

Mr. and Mrs. Finis H. Lindsey returned this morning to their home in Las Cruces, N. M. Mrs. Lindsey is a sister of Mrs. W. H. Thompson and has been a guest in her home for several weeks while receiving medical treatment. Mr. Lindsey came in a few days ago to accompany his wife home.

Howard Sullivan was painfully though not seriously burned yesterday while working with a gasoline engine at the Sam Parks farm. An unexpected explosion of gas caused the flame to burst in Sullivan's face, hitting him in the forehead and eyes. The skin on the forehead was parched and for a time it was feared that one eye was seriously burned, but after securing medical attention it was found that no permanent injuries will result from the burns.—Bulletin.

**COMANCHE**  
A contract was let Monday by the Comanche Brick Company and the railway company for a switch from the tracks to the proposed site of the new brick plant, D. M. West securing same at \$900.

Congressman Oscar Callaway last week notified Rector Cunningham, youngest son of Mr. and Mrs. Aaron Cunningham, of this city, of his appointment to a cadetship in West Point Military Academy.

The new home of Mr. and Mrs. M. K. Witt, just recently purchased and known as the Jim Lacy place in the northwest part of town, burned at an early hour Wednesday night. Mr Witt had had some mechanics making repairs on the building, preparatory to moving in and it is presumed they left some fire about the building from which it caught.

Arman Wetzel, aged 22, eldest son of Mr. and Mrs. George Wetzel of this city was killed by being run over by a train at Flatonia, Fayette county, last Friday night. The deceased was well known in this city and county, where he was born and raised, and worked with his father the last few years in the barber business. He left Comanche five weeks ago and went to Waelder, Gonzales county, to accept a position in a barber shop. He had gone over to Flatonia, a neighboring town, on business for his employer, and was attempting to catch a through train to return to Waelder when the accident occurred.—Chief.

**Declare War on Colds.**

A crusade of education which aims "that common colds may become uncommon within the next generation" has been begun by prominent New York physicians. Here is a list of "don'ts" which the doctors say will prevent the annual visitation of cold:

Don't sit in a draughty car.  
Don't sleep in hot rooms.  
Don't avoid the fresh air.  
Don't stuff yourself at meal time.  
Over-eating reduces your resistance.

To which we would add—when you take a cold, get rid of it as quickly as possible. To accomplish that you will find Chamberlain's Cough Remedy most excellent. Sold by R. E. Clements. (Adv.)

**GOOD ROADS.**

This question is a very important one. It is a big question in Missouri and Kansas—is in Texas too, I am proud to say. It is not a new question. It was a big question in the long ago and the greatest work that Julius Caesar did were the good roads that he had constructed; some of them can be seen today. Charles Sumner in a speech in New York, said: "Good roads are the school house and the teacher are the foundation stones of civilization."

Today, if we look across our border into Old Mexico, we will not see the school house and teacher. We will not see the good roads and we will not see civilization as we understand the word. In Africa we find the same conditions. Yes, Charles Sumner was right.

King Solomon, the wise man, has told us: "Go to the ant, thou slug-gard; consider her ways and be wise; which having no guide, overseer or ruler, provideth her meat in the summer and gathereth her food in the harvest." In obedience to Solomon's advice, I visited a big red ant hill. The first thing I noticed was the good road leading to their home and barn. To follow their example we must have good roads. I noticed that they kept busy, in other words were industrious, therefore, they teach industry. I noticed that their home and barn were elevated above the surrounding land to prevent water from rains running into their home. Consequently we should not build our homes on low, sunken land.

I noticed that in time of peace they were prepared for war. Lesson taught: Nations should do likewise. I noticed that they were brave and patriotic and loved home and were ready to defend it. If any one don't believe it, punch them with a stick and if you do not immediately get away, you will be calling for Watkins Liniment. Lesson taught: Love your land, country and home. If threatened by foes, get your gun and go forth to meet the enemy.

In conventions where the road question was discussed in Europe and the Northeastern states the consensus of opinion was that an automobile disturbed the road bed more than any other vehicle. It was stated in the Literary Digest that France obtained several million dollars from taxes on automobiles and several hundred thousand dollars as penalties for the misuse of them. West Virginia requires the owner of an automobile to pay an annual tax of \$15 for the privilege of using them on the public roads. Why not require owners of them in Texas to pay a similar tax with the distinct understanding that the tax thus collected ever to constitute a part of the road fund of the county in which the owner lived to be used in road improvement?

Inheritance taxes are paid to the government; so too are income taxes. Those who pay them help to support the government that protects the property and lives of those who pay them. Those who pay do not seriously object; neither will the owners of automobiles when they realize that the money they pay will make the roads better over which their machines run.

How can the roads in this county be improved? We believe that the county should purchase a rock crusher and the rocks in the roads and beside the roads could be broken up and scattered along the roads. Uncle Sam could assist the states in making good roads over which the mail is carried from one county site to another. **JOE F. BROWN,** Cherokee, Texas.

**FOUND**—Some one left a pair of old lady's shoes No. 6 at our store about two weeks ago. The owner can get them by paying 25 cents for this notice.—**Brown & Graves, Drug Gists.**

**MUSICAL AT STAR.**

A number of young people gathered at the home of Mr. and Mrs. G. D. Burney last Saturday night and spent several very pleasant hours. The event was for music and music they had in plenty.

Guests began to arrive early and after some pleasant conversation the music began. Messrs. Will Gent, Webb Wright and Orville Moore performed beautifully on the violin, piano and mandolin for over an hour. Miss Gertrude Burney then treated the guests with several pretty piano solos, after which Bascom Goode rendered some beautiful reveries on the piano. Mrs. Burney played several beautiful selections, which were highly appreciated. Messrs. Gent, Wright, Moore and Grover Stanley took the floor with violin, piano, mandolin and guitar and played another long list of selections. These gentlemen were followed by clarinet, violin, piano and mandolin, played by Bascom Goode, Mrs. G. D. Burney, Miss Catherine Burney and Mrs. Dora Goode, respectively. Mr. Burney was also very much in evidence with a banjo, without strings, which he played similar to a snare drum, and kept the merry crowd in a continual round of laughter during the performance. After this Miss Aria Slaughter treated us with some more nice music, which was appreciated. Yes, MUSIC was the theme and some expressed themselves as not having heard as much music at one time in ten years.

Refreshments were not in evidence. We didn't think about such, as we were wrapped up in the soothing strains.

At a late hour the guests left, thanking Mr. and Mrs. Burney for the excellent entertainment and eagerly expressing wishes for another such gathering at an early date.

Prof. W. A. Jeter was one of the guests and he seemed to enjoy the music as only a high minded man can. There was a large crowd present and we have not the space to present their names. XX

**A Night of Terror.**

Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by R. E. Clements.—Advertisement.

**THE SOUTHLAND'S OWN PLAY.**

The "Clansman", Thomas Dixon's great drama, has been aptly called the Southland's own play. It is a story of Southern people, for Southern people, and was written by a Southern man. It is the champion of the South, having successfully and forcefully answered "Uncle Tom's Cabin", which favored the North. "The Clansman" has served a far greater purpose and has accomplished much more than the other play, however, for it has attained success and popularity in every part of the United States, while "Uncle Tom's Cabin" has always been confined to limited territory. Of course, this does not mean that "The Clansman" never met with protest or adverse criticism, for it has often encountered both, but was strong enough to surmount these obstacles, because the theme set forth embodies truths which cannot be debated.

"The Clansman" as is generally known, is a dramatization of Mr. Dixon's two most famous and widely read books, "The Clansman" and "The Leopard's Spots". The drama has long since been declared one of the greatest in the history of the stage and it still holds the record of being the most widely discussed play that has ever been produced. The story is too firmly impressed upon the minds of every Southerner to need repetition. The sincerity with which it tells of incidents in the South during the memorable Reconstruction period is well known throughout the country. The action of the play takes place in a little town among the South Carolina foot hills. A potent element of "The Clansman" is the charm of the Southern country which it so faithfully reproduces. It inculcates Southern patriotism and all of its characters are true types of the people of this section as they were forty years ago and as they are today. "The Clansman" will be produced in Goldthwaite on Monday, November 10, in a large canvas theatre with seating capacity of over two thousand people. A complete production and over 30 people are used. This is exactly the same play that has been seen in all the principle cities in the South for the past seven years and is now being presented in the smaller cities for the first time. (Adv.)

**CREWS**

Editor Eagle: I have failed to get the Eagle for the last two weeks. I wish you would please send me the two last issues in order that I might keep posted about Mills County. I like to hear from there and may sometime return there to live.

Our crops are very short here this year. Some localities have made from one-fourth to one-half bale per acre, but a general average is from one-fifth to a bale to 20 acres and some even worse than that.

There was lots of cotton wasted during the hard rains in September. The cotton is about all out now. The September rains helped late feed and grass, and I don't think I ever saw as much oats. Every man has a small patch and numbers have in the hundreds of acres. One of my neighbors has 300 acres in fall oats.

I will enclose you a check for one dollar to keep the Eagle coming and oblige.  
Yours truly,  
E. W. PATTERSON

**PLEASANT GROVE**

Eagle Editor: This place has not had a "write-up" for some time. Will send a few of the latest happenings.

We have just had a splendid rain, put out stock water, and good on small grain.

Some of the people attended the all-day singing at the Kelly school house Sunday. They had fine singing and a good dinner. There were some good singers there, Ray Knight, Frank Taylor, the two Doggett boys, all of Center City, McFauland boys from Rock Springs, a number from South Bennett, and other places. If you were not there you missed some good singing.

Mr. and Mrs. Hugh Moreland visited his father Sunday.

Geo. Frazier came from Abilene the first of the week, to make this his home.

R. E. Ross has moved his family to Goldthwaite to take advantage of the school there.

Miss Nettie Tweddle is visiting her sister, Mrs. Glover.

Mrs. Chas. Seaborn returned to her home Sunday, after spending a week with relatives.

Our school started Monday with good attendance and Miss Susie Harris teacher.

We are listening for the wedding bells, as some of the larger girls have decided not to go to school.

Miss Merle Virden visited home-folks Saturday and Sunday.

Roy Geddes and Day Festler left Wednesday night of last week for California.

Come again Big Four, we will be glad to hear from you.

Best wishes for the Eagle and its many readers. SILLY BOY.

### COATED TONGUE MEANS LAZY LIVER.

A Lazy Liver Needs a Dose of Dodson's Liver Tone—Guaranteed to Take Place of Calomel

When your doctor looks to see if your tongue is coated, he is trying to find out if your liver is working properly. A few years ago doctors had to prescribe calomel—there was nothing else to give.

Recently in many sections of the country Dodson's Liver Tone has practically taken the place of calomel as a liver remedy. Dodson's Liver Tone is mild, pleasant tasting and harmless—which makes it a fine medicine for use when your children become bilious and constipated, but the most remarkable feature of Dodson's Liver Tone is the fact that R. E. Clements who sells it, guarantees it absolutely. The druggist will return your money without argument if a bottle fails to give entire satisfaction.

Price 50 cents. We suggest that you get a bottle today and have it ready for the next member of your family whose liver goes wrong. (ad)

### A Consumptive Cough.

A cough that bothers you continually is one of the danger signals which warns you of consumption. Dr. King's New Discovery stop the cough, loosen the chest, banish fever and let you sleep peacefully. The first dose checks the symptoms and gives prompt relief. Mrs. A. E. Mertz of Glen Ellyn, Iowa, writes: "Dr. King's New Discovery cured a stubborn cough after six week's doctoring failed to help." Try it, as it will do the same for you. Best medicine for coughs, colds and throat and lung troubles. Money back if it fails. Price 50c and \$1.00. All druggists, by mail. H. E. Bucklen & Co., Philadelphia or St. Louis.(ad)

### LISTEN!

Some have paid me and I am thankful, others have not and I need it. It certainly makes us all feel better to settle our accounts. My patience and grace may be exhausted soon if you do not come in and settle in some satisfactory way what you owe me. Yours truly, M. L. BROWN.
