The People Who Sell It For Less

Texas

GOOD ROADS.

Poor highways lessen the profit of labor; increase the cost of living; dull the morality of our citizenship and hold back the educational advancement of our country.

Economists teach conservation of our resources, social activities in rural districts, scientific farming and better marketing facilities, but none of these can be fully realized until there is a very marked improvement upon our public highways.

attained in the present method of the treatment of convicts in Texas. The state authorities can profit in this direction by a study of the methods employed by Warden of Colorado, who has one thousand and state convicts upon the public highways in his state. The results he is attaining can be duplicated in the Lone Star State.

HOMER D. WADE.

FARM FACTS.

There is not enough of the community spirit among our rural districts.

A first class man can not be raised on a farm where there are scrub stock.

The farmer's chief aim is to sell his wares as advantageously as possible.

Co-operation between practical farmers and proficient business men will eliminate ignorance and prejudice.

Toilers of the land have been accused of being selfish without ambition, yet many people envy them of the content their satisfaction brings.

PETER RADFORD.

J. C. Street made a business trip to Roscoe this week.

J. M. Bateman made a business visit to Brownwood the first of the week.

New residences can be seen in almost every part of town, which is another evidence of the prosperity of the people.

The new furniture has been put in position in the court house and adds much to the appearance of the interior of the building.

Miss Leila Allen returned to her studies in Baylor college at Belton Monday morning, after spending Saturday and Sunday at home.

Mrs. E. A. Street has returned from a visit to her daughter at Star and will spend the winter here with her son, J. C. Street, and family.

DISCUSS MARKETING.

The program of the fifth annual convention of the Texas Industrial Congress, to be held at Dallas, December 13, will include a discussion of the marketing of farm products as one of its principal features. Professor Charles B. Austin of the Extension Department of the State University, a well known authority on the subject, will address the convention on "The marketing of Agricultural Products," and the Hon. Clarence Ousley of Fort Worth will discuss "The Elimination of Waste in Marketing." Mr. Ousley handled this subject before the Southern Commercial Congress at Mobile this fall, and is so well known as a student of affairs as to require no introduction to the thinking men of the state. These addresses upon the subject of marketing, which is so important to the business of Texas, are sufficient in themselves to make the convention a notable one.

The prizes offered by the Congress, to be distributed at this convention, are not for the largest production per acre, as is generally supposed, but for the largest net profit per acre. Inasmuch as the Congress is really a school in farm profits, marketing, wherein the farmer capitalizes on his work, is a question of great concern. A rate of one and one-third fares for the round trip has been made from all points in the state to Dallas and tickets will be on sale December 12 and also for trains arriving before noon on December 13. Tickets are valid for return leaving Dallas December 14.

A conference of Progressive Republicans held in the state of Kansas a few days ago agreed that Theodore Roosevelt was the only man who could defeat President Wilson for a second term. The conference also resolved against amalgamation with the old party and stated that nothing had occurred since the last election to cause them to desire to return to the Republican party.

Men strive and struggle after money, they pile it up and pile it up until it becomes a burden to them, and hangs like a millstone around their neck. They cannot get away from its cares and responsibilities, no matter where they go. Money is a good thing, but it is a waste of time and a waste of energy to centralize one's energy and one's desires upon its accumulation. There are other things worth while. In fact, it has always appealed to me that when a man and a woman, as man and wife, have made a success of a family, they have accomplished a great work, more lasting and more valuable than many millions of wealth, piled up in stocks and bonds or other investments. The bringing up of a family is the most important work of life, for there is nothing in life worth while unless there are human hearts that beat in sympathy with ours. Make money, if you can make it honestly, but in making, do not forget that money is a dangerous thing to give to a child who has not been grounded in those principles that make of him a good citizen, with human feelings and human sympathy. —Cleburne Enterprise.

While specialization is desirable in farming, raising one crop exclusively or one kind of livestock is seldom desirable. Under ordinary conditions it is safest and best to have a specialty, but at the same time have other things to supplement and fortify this specialty. With crops it is best to have animals to consume the crops; with animals it is wise to grow several kinds of feed crops to maintain these animals. One kind of crop can often be supplemented with one or two others to provide labor for the hands and teams and to make it desirable to keep labor-saving implements and suitable teams. For most managers it is wise to diversify, raise as much as possible of the living at home, plenty of feed and something to sell.—Farm and Ranch.

RED CROSS SEALS.

Mrs. R. M. Thompson, chairman of the local Red Cross Christmas Seal Campaign Committee, has received the first consignment of Red Cross Christmas Seals from Mrs. O. B. Colquitt, general chairman of the Red Cross Christmas Seal Campaign Committee of Texas, and president of the Texas Anti-Tuberculosis Association.

The Christmas Seals are sold throughout the United States for the benefit of public health and anti-tuberculosis work. The price of the Seals is one cent each.

This year's campaign will be the third state-wide campaign for the sale of Red Cross Christmas Seals. In the first campaign over \$13,000 was raised and last year the amount exceeded \$15,000. It is hoped to raise a total of \$25,000 this year.

With the funds secured from the sale of Seals, the Walter Colquitt Memorial Children's Hospital for children afflicted with bone tuberculosis has been built and opened at Galveston. This hospital is meeting an urgent need in ministering to the little children crippled by tuberculosis.

The Association also succeeded in securing an appropriation of \$10,000 to the State Health Department for a public health educational exhibit to be sent throughout the state in a railway car or cars. Lectures illustrated with stereopticon and moving pictures will be given in every city and town on a railroad line. Literature on public health subjects will be distributed. In connection with this work the establishment of county hospitals will be advocated. The appropriation will not be available until September 1, 1914; but if the proceeds of this year's sale of Christmas Seals will permit, the work will be started early in 1914 and turned over to the State Health Department on September 1st, next year. It was originally planned to begin this work in 1913, but the result of the sale of Seals in 1912 did not permit the Anti-Tuberculosis Association to do so.

HUSBAND RESCUED DESPAIRING WIFE

After Four Years of Discouraging Conditions, Mrs. Bullock Gave Up in Despair. Husband Came to Rescue.

Catron, Ky.—In an interesting letter from this place, Mrs. Bettie Bullock writes as follows: "I suffered for four years, with womanly troubles, and during this time, I could only sit up for a little while, and could not walk anywhere at all. At times, I would have severe pains in my left side.

The doctor was called in, and his treatment relieved me for a while, but I was soon confined to my bed again. After that, nothing seemed to do me any good. I had gotten so weak I could not stand, and I gave up in despair.

At last, my husband got me a bottle of Cardui, the woman's tonic, and I commenced taking it. From the very first dose, I could tell it was helping me. I can now walk two miles without its helping me, and am doing my work."

If you are all run down from womanly troubles, don't give up in despair. Try Cardui, the woman's tonic. It has helped more than a million women, in its 50 years of wonderful success, and should surely help you, too. Your druggist has sold Cardui for years. He knows what it will do. Ask him. He will recommend it. Begin taking Cardui today.

FIRM FOUNDATION.

Nothing Can Undermine It in Goldthwaite.

People are sometimes slow to recognize true merit and they can not be blamed, for so many have been humbugged in the past. The experience of hundreds of Goldthwaite residents, expressed publicly through newspapers and other sources, places Doan's Kidney Pills on a firm foundation here.

Mrs. Robert Urbach, Goldthwaite, Texas, says: "The first symptom of kidney trouble in my case was pain in the small of the back, which gradually grew worse until I was hardly able to move. At night it changed to a dull ache and I couldn't sleep. If I caught cold it settled on my kidneys and made my suffering worse. The kidney secretions were unnatural. When a friend told me about Doan's Kidney Pills, I got a supply at Clements' Drug Store. They gave me prompt relief."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Urbach had. Foster Milburn Co., props., Buffalo, N. Y. (Adv)

FOOD FOR THOUGHT.

One of the many faults in our system of farm management in the Southwest is that we raise too few crops and animals for sale. The average farm family does not sell enough products to supply the home with cash. And as a result of this, the credit system is too often resorted to to supply the articles not produced on the farm.

With eggs, butter, chickens, turkeys, fruits, vegetables, crops and animals for sale there is more for the family than a mere living. The living is important, but it is not all of life. Progressive people must meet their obligations in the church, the school, in society and in the home. There are many calls for cash and no farmer can afford to be without it when it is possible to have a regular income.

The safe plan is to have products for sale at the various seasons of the year and in this way keep a cash balance at the bank. The advantages of cash buying will be apparent.

A good rule to observe—one that is strictly adhered to by some—is to endeavor to sell more each week than you buy, or leave more money in the bank on your trip to town than you spend for necessities.

Farming is unlike other businesses in that we are dependent upon seasons, consequently, we can never feel safe in depending upon one crop for what we use on our tables and for our culture wants. We need several crops, animals, sidelines such as fruit, truck, poultry, etc., to afford a cash income.—Farm and Ranch.

HOUSE WARMING.

The proposition to have a general reception in the new court house on Saturday, Dec. 13, has met with universal approval. Judge John D. Robinson, District Attorney John L. Ward and Hon. Cullen F. Thomas of Dallas have been invited to be here and speak on that occasion and it is hoped and believed they will readily respond to the invitation. The Commercial club hopes to arrange for the Goldthwaite band to furnish music for the occasion and it is likely some other form of entertainment will be arranged for the day. A full outline of the arrangements will appear in the Eagle next week.

HARNESS REPAIRING.

I have moved my repair shop to the rear of Weatherby's Racket store, west side of the square. I do all kinds of repair work on Saddles, Harness, buggy tops, etc. All work guaranteed to be satisfactory.

J. H. ALLEN.

The crop reporting board of the United States Department of Agriculture has just completed its estimate of the 1913 corn crop and the total production for Texas is 169,944,000 bushels, which is several thousand bushels above the preliminary estimate made thirty days ago. Compared with the production of 1912, this year's yield shows an increase of 16,640,000 bushels and is the largest crop produced in Texas since 1908 when 201,848,000 bushels were raised. The yield per acre in 1913 was 24 bushels, 21 bushels for 1912 and the ten year average is 20.3. Texas took fourth rank in total production in 1913, but held eighth place during the previous year.

The love of a dollar or indifference to it will disclose a man's real self quicker and better than any other test. We may associate with a fellow for twenty years in the church, in the lodge room, on the street and in society and still know absolutely nothing of the real man. We may think him a fairly good sort of chap; he always has his best side turned to us. But have a business transaction with him, when it comes down to doing the clean, square and manly thing when he can't be made to do it; when it comes to doing right because it is right; when it comes to going against his own interest because it's the right thing—then he shows his real stature as a man, whether he is a giant or a pigmy. You can get his dimensions in a minute under these conditions when a lifelong association with him in all the organizations that propose to cultivate the moral side of man will reveal nothing of his real nature.—Colorado Record.

The kitchen of the housewife on the farm is probably the weakest point in scientific farming. The storage capacity of the hungry men on the farms, in most cases, is rather appalling, and science, as applied to agriculture has done comparatively little to lower the temperature of the kitchen in midsummer. The college training that makes farming a pleasant and stimulating intellectual exercise for the young man also stimulates the aspirations in the young woman, which are not satisfied with cooking three meals a day and viewing the rural scenery over the wash-tub. These aspirations can at least be partly satisfied with some of the modern, easy-to-be-secured conveniences which are so necessary to the health and happiness of every housewife. Science has done far more for the farmer than for his wife and the men on the farm should apply science to his kitchen as well as to his barns and to the raising of his crops.—Mrs. E. P. Turner.

Most public utilities are monopolies. Whether this condition is right or wrong need not be discussed—it is a fact. It should be possible to manage such a monopoly in a way to win public regard, but this is not always done. Too many utility magnates try to work a "cinch" for all it's worth while they have it. They take no thought for public comfort, disregard complaints, look only to immediate dividends. The result is that the good will with which they started soon turns to bad will, then to downright dislike and hatred and finally there comes a time when the misused public strikes back. Friendly administrations and subservient courts may protect the erring corporation for a while, but sooner or later popular vengeance finds its mark. Vengeance is unprofitable and expensive for both parties, but it always arrives—unless justice has made it unnecessary. The day of arrogance and impudence in dealing with the American public has passed. A good many barons of monopoly have not learned this fact yet, but they will. It will be to their own advantage if they can be taught.—Chicago Journal.

Some of the candidates for county office in San Saba county have already announced. The Mills county candidates are not in such haste and it is very likely they will not open the campaign until spring time, thereby giving the voters time to attend to their farm work and other duties before being called upon to take part in a political campaign. April or May will undoubtedly be plenty of time for the campaign to open in this county and the candidate who "breaks the ice" can depend that some of the voters will regret his action.

One of the latest announcements is that of Mr. Ed R. Kone, commissioner of agriculture for Texas. He wants to be one of the congressmen at large.

Do your Christmas shopping early and above all, don't buy presents you can not afford to give. Safe and sane holiday giving is a mighty, good rule to follow.

The marriage of Miss Jessie Wilson, daughter of the president of the United States to Mr. Francis Sayre of New York was solemnized in the White house in Washington Tuesday afternoon. Among the guests were Col. E. M. House and Capt. Bill McDonald of Texas.

Five men who were occupants of an automobile enroute from Galveston to Houston Sunday night were killed by being struck by a passenger train near Texas City. The driver of the automobile attempted to cross the track in front of the train which was running at a rapid rate.

The convention of the American Federation of Labor in session at Seattle, Wash., re-elected Samuel Gompers president and selected Philadelphia as the place for holding the next meeting. John Mitchell, head of the mine workers, attempted to control the convention and defeat Gompers, but failed in the attempt.

The trial of M. L. Woods of Fort Worth, charged with embezzling the funds of the State National bank of that city, came to a close Tuesday when he pleaded guilty to having misappropriated \$165,000 of the bank's funds. Woods was the active vice president of the bank for twenty years and rewarded the confidence reposed in him by the stockholders by misappropriating the funds.

Heavy rains fell in different parts of the state the first of the week, but the heaviest was reported from Somerville, where ten inches of rain fell in seven hours and many of the stores and other business places were flooded to a depth of 12 inches or more. At Abilene the dam at the lake from whence the city is supplied with water was broken by the heavy pressure and a 12-foot wall of water rushed through the opening. It soon spread out over the valley and very little damage was done. The estimated damage to the dam is \$10,000.

The large dam recently constructed across the Mississippi river at Keokuk, Iowa, which at present develops 120,000 horse-power, and will, when completed, generate 200,000 horse-power, will soon have a Canadian rival. A hydro-electric generating station is now being built on the St. Lawrence river at Cedar Rapids near Montreal. A canal 10,000 feet long will take the water at a point above the rapids and discharge it through the power house, which acts as dam, at the other end of the rapids. When completed the plant will transmit 100,000 horsepower to Montreal.—Wall Street Journal.

The recommendation of Postmaster General Burleson that the parcel post weight limit be raised from 20 pounds to 50 pounds is likely to be adopted and the system will grow in popularity. It is claimed that the express companies are losing heavily now and this increased weight limit will cause still greater loss. The fact that many people prefer sending parcels by mail when the charges are the same as the express companies would make shows the feeling of the public toward the companies. As a rule the express rates are higher, however, than the mail rates and there is no danger of mistakes whereby the patron is charged at both ends of the line.

L. G. Blackburn visited his comrade friend, Rev. D. I. Haralson, on the river last week, reporting that the pecan crop was enormous.

Thomas Harrison, a student of Goldthwaite High school, visited home folks Sunday.

The first quarterly conference of the Center City circuit was held here last Friday. Quite a number of the stewards of the different churches were present. Presiding Elder Cowan presided over the body and the meeting was true harmony and all of us feel hopeful of this year being one of the greatest of history for the up-building of Christianity in our community. Rev. George Smith is the pastor, W. H. Mooreland, superintendent of the Sunday school, with J. H. Blackburn assistant, Miss Zella Casbeer, secretary and Miss Ora Wicker assistant secretary. We have a splendid set of officials to the leadership, so come with your assistance, whether great or small. Your efforts are what you make them and so is your life's accomplishment. 'Tis true we have a denominational literature, but the cause, the great task before all Christians, is the same, so let our Sunday school labor be co-operative. In unity there is strength—strength to overcome the greatest disaster that can possibly arise or overcome our efforts.

Lesly Simpson returned last week from a protracted stay in Martin county. Well, Lesly owns a splendid farm near Live Oak. The question is now, does he intend to farm there next year? Will we have to furnish him a housekeeper or bach? Hey!

Mr. and Mrs. West Carroll returned to their home near Stuart, Okla., this week. Mrs. Fred Cortis accompanied them as far as Fort Worth, where she will visit her daughter, Mrs. T. P. Brashear.

Dan Yates of Mount Olive is moving in on Mrs. Fred Cortis' place this week, formerly occupied by Mr. Hale.

Mr. McLean of the Blue Hole community has rented 150 acres of land from L. G. Blackburn and will move as soon as the weather permits. We welcome these good people in our community.

Matt Casbeer has moved into his new residence. W. B. Blackburn will move back to his sunny slope farm another year and improve it.

Phil Morris was down the creek this week. He borrowed Jim Cortis' herd of goats to graze down his enormous crop of oats, which is nearly knee high and jointing. He also purchased a part of a carload of pigs from Henry Blackburn, the latter gentleman giving a mess of turnips and greens to make it even money.

THE BOOSTER.

HOT AIR.

Goliath, tall, majestic, grand, wore a forbidding scowl. "I am a wolf," he hallowed, "and this is my day to howl." He was the bully of the place, as history agrees; whenever people saw his face they climbed the nearest trees. With fear, the residents were sick, as they for safety hiked; Goliath, fresh from Bitter creek just bossed things as he liked. And so this champion of champs stood forth in brave array. "I'd like," he said, "to cast my lamps on any chesty Jay who thinks that he can poke my bean or jolt me in the neck; if such there be let him be seen—I'll make of him a wreck." Then round the corner David came—a gentle youth was Dave; too young to know the fighting game, too young, indeed, to shave. But in his craw he had of sand a large and goodly store; he held a slinger in his hand, bought at the ten cent store. He heard the proud Goliath's spiel, and said: "Such piffle makes your neptew David feel some fifty-seven aches. Just watch me while I wing the guy and stop his loud bazoo." He hit Goliath in the eye; the people yelled "Hurroo!" And even in these humdrum days such things do often chance; the braggart brags, and while he brags he finds his name in Pants.—Walt Mason.

COLE YOUNGER

Last of the Noted Younger Brothers, To Lecture in This City at an Early Date.

Cole Younger himself, who lived the life of the Gentleman, the Soldier, the Outlaw and the Convict, having spent 25 years of the best part of his life in a prison cell, will deliver his famous lecture entitled "What Life Has Taught Me", at the opera house next Wednesday night. In this lecture Mr. Younger tells many of the thrilling events of his varied career, from the time he was a boy of seventeen up to the time he was pardoned from the Minnesota State Prison, where he served a quarter of a century for the Northfield bank robbery.

This lecture is truly historical and instructive as well as intensely interesting and appeals to the ladies as well as gentlemen, pointing out as it does a great moral lesson which should be of benefit to everyone.

Mr. Younger's sole desire in life now is to do all he can for the betterment of mankind. (Adv)

War news from Mexico has been more interesting the last few days than at any time since the constitutionalists took Juarez. Under Gen. Villa the constitutionalists won a decided victory over the federal troops one day this week, after a bloody battle south of Juarez. The first report gave the total number of men engaged at 10,000, while the killed amount to 1500 for the federals and 500 constitutionalists. These figures have been somewhat reduced since the battle and it is likely the loss of life was not nearly so great. Gen. Villa's forces captured a train load of supplies and ammunition and are now in much better position for defense and aggression. They are preparing for a trip to the south to engage the federals either today or tomorrow and claim to have an immense army in that section, which will be united in opposition to the federals. Those who are hoping for the overthrow of the bloody assassin Huerta are hopeful that the next few days will bring much more cheering news.

This has been a week of automobile accidents all over the country. Two bad accidents were reported in Texas, one at Houston and one at Brownsville. The city of Houston is operating under what is known as the Somers system of taxation, a plan that is new in Texas. Land is taxed at 75 per cent of its actual value and improvements at only 25 per cent of their value. There is no tax on personal property and money. It is claimed for this plan that it has equalized taxation. It has reduced the rates on valuable improvements and increased heavily the rates on vacant lots and lots with shack buildings on them. The owners of good lots are virtually forced to either sell them or put good buildings on them. The low rate of taxation on improvements is also a strong inducement to build factories in the city. The Houston plan, though only a few months old, looks like a big success.—Granbury News.

The attorney general of Ohio has asked a ruling of the attorney general of Texas on the recently enacted Allison liquor law of this state, but the Texas official has answered that the law will be strictly enforced unless declared unconstitutional by the higher courts. It appears that the section of the law relating to the shipment of liquor from other states to prohibition districts of the state is thought to be ambiguous and it is likely the brewers, distillers and other interested parties are preparing to contest the validity of the law.

ABERNATHY, TEXAS.

Editor Eagle:
I will write you a few lines about our country: It is a beautiful country to live in. Our summers are so pleasant and the winters are not so bad, as most of the winters are dry with plenty of sunshine, but of course, we have had some hardships to endure while this country was settling up with farmers. In 1906, when we came here, everything that the people used was freighted on wagons from Canyon City or Big Springs and everything was high, too; coal was \$8.50 per ton at Canyon City, but it cost us seventy-five cents per hundred to get it freighted down here, but now we have railroads and little towns all about over this country and a freight wagon is of the past and where five or six years ago was nothing but grass and cattle are now nice farms and nice buildings. I often wish the renters of Mills county had as good rent houses to live in as the renters do out here, but the last four years have been very dry here. This fall and winter has been very warm and rainy—no snow yet and only ice a few times. We are pleased with so much rain in winter, for it is fine on the farmers, but not so fine on the stockmen.

We think we have a fine country, if we could just get a little more winter rains.

Well, I will ask you to change my paper from Bartonsite, Texas, to Abernathy, Texas. Please change at once, as we don't want to miss a copy.
MRS. W. J. DANIELL.

THANKSGIVING SUPPER.

On the evening of Nov. 27, 1913, Mr. and Mrs. Chas. Rudd honored their guests with one of the most delicious suppers we have ever had the pleasure to attend. To tell it in an "old home-spun way"—That was the best turkey I ever ate in my life—and cakes, pies, custards! The writer was raised in the sticks. He can't name all those good things to eat, but they were fine, and Mrs. Rudd makes her company feel so much at home.

The guests were Mr. and Mrs. W. B. Jackson, Mr. and Mrs. J. V. Cockrum and Mr. and Mrs. P. D. Yarborough.

If we live a half a century longer we shall not forget how that good supper tasted and how royally Mr. and Mrs. Rudd treated us at their pretty home on South Parker street.

A GUEST.

GOOD ADVICE.

Say, young man, let the Herald give you a little advice. Don't start out in life by beating a debt. Stand by your word if it kills you. Remember no man ever made a success in life by beating a debt. You simply can't afford to do it. If you can't pay what you owe, don't abuse the person you owe because he wants you to pay it, nor slip away without saying anything about it. It may be that he can afford to lose what you owe him, but you can't afford to beat him out of it. Go to him and tell him your condition and that you intend to do the right thing and then do it. Some men subscribe for a paper and read it for a few years and then refuse to pay for it, or maybe they leave the country and say nothing about it. The Herald has lost many a dollar on that kind of people and yet it has not caused the paper to go to the bad. But what about the men who have robbed the editor of the one, two or three dollars they owe? They have lowered themselves in the estimation of the editor and have profited themselves little. They know they are mean and dishonest, and the editor is much better off without the money than they are with it. So don't do such little mean things. Pay what you owe, and always be square. It will be the best for you in the long run.—Hamilton Herald.

OUR FRIENDS.

The excessive rains and consequent bad condition of the roads, together with the intervention of Thanksgiving, has made this week a very quiet time in business circles. But few of the Eagle's friends have been able to come in from the rural districts, hence our list of renewals and new subscribers is of necessity very small, but we appreciate them very much. Those who have renewed or added their names since last report are:

M. Stacy, Hermleigh.
 F. M. Karnes, Center City.
 F. M. Karnes, jr., San Antonio.
 W. T. Moorland, Pleasant Grove.
 W. T. Dorsett, Winters.
 Joe Ewing, Corpus Christi.
 E. A. Obenhaus, Route 3.
 J. W. Butz, Greenville.
 Col. J. L. Slayden, Washington, D. C.

HIGH WATER.

The excessive rains locally and in the west have caused the bayou and river to overflow their banks this week and a considerable amount of the territory contiguous to these streams has been inundated. Very little damage was done to property of any kind, as the only crop growing now is oats and the water was not over the fields long enough to do material damage to the oats. A number of families moved out from the low lands to the higher ground fearing danger from the floods, but they only remained away from their homes a few hours. The waters are now back in the banks of the streams and the ground has been greatly benefitted by the overflow as well as the rain.

A Night of Terror.

Few nights are more terrible than that of a mother looking on her child choking and gasping for breath during an attack of croup, and nothing in the house to relieve it. Many mothers have passed nights of terror in this situation. A little forethought will enable you to avoid all this. Chamberlain's Cough Remedy is a certain cure for croup and has never been known to fail. Keep it at hand. For sale by R. E. Clements.—Advertisement.

Mrs. G. H. Dentson, who has been quite sick for some time, is reported to be improving.

Let your stock drink from cement trough, which you can make yourself. Get the cement from us.—Barnes & McCullough.

J. M. Roddy of Hamilton was here the first of the week, visiting Mr. and Mrs. Dentson.

We have a fine assortment of new furniture just in and can make special prices on it. Don't buy furniture until you see us.—Weems & Burks.

When the parcel post was at first agitated, merchants all over the country feared it was in the interest of the mail order merchants and would injure the local dealers, but after less than a year of trial, there are few, if any, of the local merchants who would wish to dispense with the new arrangement which has been made by the government for cheap transportation of small articles through the mails. The only injury so far done has been to the express companies, and they are not complaining, though according to their own circulars, their employes are advised to be more polite and give, if possible, more efficient service, especially to the small patrons.—Houston Post.

Harvey D. Vernor was injured Saturday evening by a team which he had in charge running away. Noticing the team start, he rushed out and secured a hold on the lines, but was dragged from near the Santa Fe depot to the alley in the rear of the Peoples National bank building, where he was thrown against the fence and left unconscious. Immediate medical attention was given him, and he regained consciousness in about half an hour, and was then more thoroughly examined, and it was found that he was only bruised, no bones being broken or other serious injury sustained. He was able to be up and attend to part of his work Sunday, and will be all right in a few days, as there are only some surface bruises to heal.—Lampasas Leader.

WHY NOT GET A GUARANTEE?

Every Article of Merit That is Sold These Days is Guaranteed—No Guarantee Often Means Poor Quality.

There is very little excuse for any person to claim that he has been "stung" on a purchase. Fifty years ago the buyer had to look out, but today it is unusual to find a merchant who will not return the money for any article that has proved unsatisfactory.

An excellent example of this kind of fair dealing is shown by the clean-cut guarantee that R. E. Clements gives on Dodson's Liver Tone.

These people tell us that any person who pays 50c for a bottle of Dodson's Liver Tone and does not find it a gentle and most pleasant liver tonic, harmless, but a sure relief of constipation and a perfect substitute for calomel can get his money back just as quick as they can get it out of the money drawer.

Dodson's Liver Tone has practically taken the place of calomel. It is absolutely harmless, sure in its action and causes no restriction of habit or diet. No wonder the drug people are glad to guarantee it, while other remedies that imitate the claims of Dodson's Liver Tone are not guaranteed at all. (Ad)
