J. H. Kelly, the contractor, has about recovered from the effect of a badly sprained ankle which kept him on crutches for some time.

Prof. Jeter, principal of the Prairie of Fisher school, was in the city last Saturday. His school closed yesterday with a big picnic and candidate's rally.

The school trustee election takes place today and every citizen should be sufficiently interested in the management of the school to go to the polls and vote.

The candidates are certainly getting a "run for their money" now. One or two picnics a week should give them ample opportunity to display their oratory and meet with the voters.

P. M. Morris came in from his ranch the first of the week to learn the late developments in the Mexican situation. He lived in that country a good many years and still owns property in the state of Oaxaca which will be valuable some day. If the war ever ends. His knowledge of the topography of the country and the conditions generally in that country makes the war there of special interest to him.

CLUB TO MEET.

Next Tuesday night will be the time for the regular meeting of the Commercial club and all members should be sure to attend, while all who are interested in the development of the town and county have a hearty invitation to be present. Matters of importance are always discussed in these meetings and the united efforts of the business men will accomplish great things.

The fair and reunion will require much attention from the club and every effort must be put forth to make the fair this year a greater success than ever before. Every one who has an idea that will be of benefit to the committee in preparing for the fair should undoubtedly attend the club meeting and give assistance to the committee.

Road work must be planned, efforts must be made to increase the amount of business coming to the town and enlarge the trade territory. Many other matters will require the attention and best thought of the business men and all should be present at the Club meeting next Tuesday night.

CYCLONE AT PEACOCK.

Mr. J. V. Cockrum received a telegram Monday from his brother-in-law, Mr. H. A. Carter, at Peacock, Stone-wall county, telling him of a cyclone which destroyed every business house in that town Sunday afternoon at 5 o'clock. There were no lives lost, but the loss of property was great. Mr. Carter is engaged in the banking business there and Mr. E. A. Caraway a brother of Mrs. Cockrum, has a drug store there, while Mr. K. S. Caraway, father of Mrs. Cockrum, lives near the town and is interested in the bank. These three gentlemen and their families are well known here and they have the sympathy of everybody in their financial losses, while we are all rejoiced that none of them were injured in a physical way.

M. J. Thorpe has returned from a business trip through north and east Texas and reports a fine business.

Mrs. Oscar Burns left Sunday for Puffalo Gap, where her husband is the agent for the Santa Fe and they will make their home there for some time.

Mrs. J. H. Blackburn and baby of South Ennet, left Tuesday for Sterling county to visit relatives. They will go from there to their new home in the Panhandle country.

Mrs. Gordon Brinson and children left Tuesday for their home in B. S. bee, Ariz., after a protracted visit to relatives here. They expected to stop en route at Coleman and Baney for a visit to relatives.

G. W. Vierling—and whiskers—arrived Tuesday from Fort Worth, where he had been to market a shipment of hogs. Mr. Vierling was recognized by only a few of his many friends by reason of the heavy beard which he has grown since his last visit here. G. W. says everything grows prolifically in Kimble county—even to whiskers.—Erdy Standard.

W. M. Sparkman was in from the Lookout School house community Saturday and gave us a pressing invitation to attend the old time song service at North Bennett church tomorrow. There will be an all day Sacred Harp program and dinner on the grounds. Those who can attend this meeting will be sure to enjoy it.

CITY BUILDING.

Boosting is one of the mightiest forces of civilization.

City building is scientific management applied to the betterment of a town.

There can be no steady advancement of a city without the cooperation of the farmer.

A citizenship content with the standards and workings of its town is a valuable asset.

Dreaming your town into a city is impossible; you must boost and build it into one.

A city to grow and prosper must have mutual advantages as well as real live city builders within its borders.

L. M. WARD.

MORE SMALL FARMS.

The recent discussion of the evils of tenant farming emphasized the need of small farms as one of the cures of this wide spread trouble here in Texas. The hoarding of large bodies of land by wealthy men has helped to bring about the trouble complained of in every section of the state. Texas will not be developed to the fullest extent and under the best conditions for all concerned, especially those who are now tenant farmers, until her agricultural lands are cut up into small tracts and sold at reasonable prices.

When this is done, intensive farming can be practiced and every acre of land made to produce the maximum. We should hail a movement of this kind as the most encouraging token of the state's future enlarging development. It is the safest and best way for the tenant farmer to invest his savings. He therefore becomes the owner of a home and thenceforth his interest in the improvement of the local community begins to manifest itself.

Let the small-farm movement be inaugurated this year in Texas. It will mark a new era of agricultural progress and development.—Austin Statesman.

Mr. and Mrs. Roy Ross left Wednesday for their home in Gordon, Nebraska, after a visit to the families of W. Lee Jones and R. L. Steen in this city. Mrs. Jones went home with them for a visit.

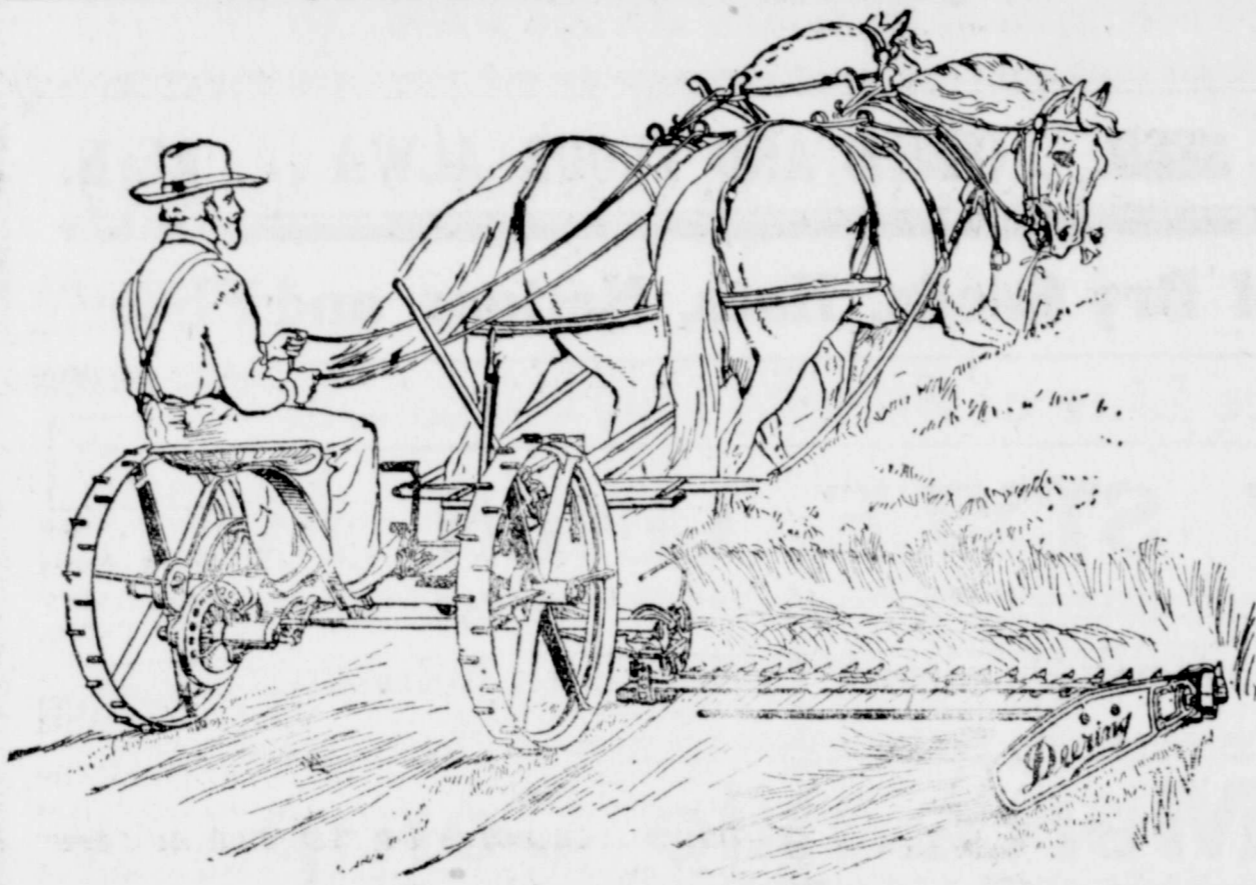

The continued fighting at the coal fields in Colorado between the mine workers, state troops and mine operators on one side and the strikers on the other has brought about a bad condition and federal troops have been ordered there to restore order.

Some interesting census figures have been given out by the Washington department this week: Continental United States has a population of more than 98,000,000, while the country with its possessions is peopled with more than 109,000,000 persons. The census experts have calculated the population of continental United States on July 1, 1914, will be 98,731,324, against 91,972,266 on April 5, 1910, when the last census was taken. For the United States and its possessions they estimate the population this July will be 109,021,992, compared with 101,745,265 in 1910.

Texas is to have a school of mines. Following the action of the last legislature in providing a fund for the maintenance of such an institution after it was established, the El Paso Chamber of Commerce started a subscription list for the building and grounds. Last week they announced that they had completed the fund and that \$50,000 had been raised for this purpose. The School of Mines will open in September under the supervision of the State University and special attention will be given to the development of the mineral resources of the state. There is a vast field of usefulness for such an institution in Texas, and the El Paso citizens have rendered a service to the entire state, as well as contributed to their own prosperity by their efforts in establishing this school.—Commercial Secretaries.

Chas. Henderson's team ran away with the wagon in this city last Saturday and Sam Weem's household furniture with which the wagon was loaded was badly damaged and some of it was entirely ruined. The team started near the depot when Mr. Henderson lost his balance and fell from the wagon. He was enabled to regain his place on the wagon and hold the lines and guide the team, but was unable to stop them. They ran across the square and down Fourth street past the Methodist church and into Mr. Carroll's lot. They ran into the stall at the barn and were forced to stop. Articles of furniture were scattered along the route and wrecked.

A few minutes after the runaway L. B. Ashley and O. C. Weatherby circulated a subscription list in the town and secured \$25 in donations for Mr. Weems.

RYE VALLEY SCHOOL.

Editor Eagle:

We intended giving a little write-up to the paper about the school when it first closed but neglected doing so. However, if we are given space will say a few words about the school at this late date.

Our school opened about the first of November with Miss Alline Howell teacher and continued five months closing the last of March, one of the most successful terms ever taught at this place, if not in the county.

Miss Alline has a way of winning the respect and admiration of her pupils, hence, 'tis no trouble for her to have not only the love of her children, but perfect order in the school room and excellent lessons and rapid progress at all times by the children. Some visitors to the school remarked that they never saw such good order in a school room before.

Miss Alline not only has fine ability as an instructor and manager of a school, but she is a community and social worker as well. While here she decided to get a library for the school and community and asked all to help with a box supper to raise the necessary money for buying the same. As a result we had a fine supper and enjoyable social time and raised enough money, and now we have an excellent library, of which we are all proud and which will be of much benefit to the community. Miss Alline preaches that a teacher should do all she can for the uplifting of the community, as well as the school while she stays there.

On the closing day we were invited by Miss Alline to bring dinner and stay all day at school and almost all responded and Messrs. Allen, Darroch, Bowman and Martin also came in response to an invitation to spend the day with us. A fine dinner was spread and enjoyed by all, after which we retired to the room and were entertained with speeches for a while by the four candidates, after which we were dismissed. Then the trustee and patrons offered Miss Alline the school for next year. As yet she has given us no answer as to whether she will accept the school or not, but we all sincerely hope she will, but if she decides to cast her lot elsewhere, the writer as well as all the patrons of this school can heartily recommend her to any school board wishing to secure a religious, zealous and competent teacher.

There was an excellent rain here last Monday. If the presence of clover is any sign there will be bountiful crops this year, for the clover fields are abundant.

Sunday school, though not quite so well attended as usual, was very good Sunday. Excepting Easter Sunday there has never been an officer or teacher absent, and very many of the scholars have done as well as officers and teachers. If the weather permits Rev. Newman expects to administer the ordinance of baptism to some of the new converts this afternoon in Browns creek. It is proposed to start from the church at 1 o'clock.

Friends here of Rev. W. T. Rouse of Hamilton have been informed that he has resigned the pastorate of the Baptist church at that place to accept a similar position in Chickasha, Okla., a city of 10,000 population where the membership of the church is more than 500.

The accusation can no longer be made against Hon. J. H. Davis, better known as Cyclone Davis, that his only object is to "get his head in the government crib." He was appointed commissioner of agriculture for the Philippines, which position pays \$2,500 per annum, and has refused the position, which has now been accepted by his son, Voltan Davis. It is presumed Mr. Davis will continue his campaign for congressman-at-large and if he does he will be one of the foremost in the race.

R. M. THOMPSON, Editor

Floods were reported in northern, central and southern Texas the first of the week and heavy rainfall was reported from many points.

A number of mine workers in West Virginia were suffocated or burned to death in a mine as a result of an explosion Monday. The fierce fires have made the rescuing of many of the men impossible.

One of the many unreasonable and ridiculous reports published in Mexico for the purpose of inducing the hope among the ignorant people of that country that they could overcome the American forces was the story that El Paso had been captured by the Mexicans and that the Americans had withdrawn from the southern portion of the city and ceded the territory to the Mexican government.

Governor Colquitt has perhaps been too aggressive in the matter of demanding protection for the Mexican border, in that his declarations have been understood as a determination to invade Mexico with Texas troops, but he has at least forged the administration at Washington to give more attention to the trouble along the border than was at first indicated. It was better to be too hasty than to indulge the waiting habit too long.

The offer of Argentina, Brazil and Chile to act as mediators in bringing about peace between the United States and the Huerta forces in Mexico was accepted by President Wilson and Huerta. Some well informed people believe hostilities will not be resumed while others think there will be no settlement by the means proposed. In the mean time the commanders of the constitutionalists in the state of Sonora have notified the people that any demonstration against the Americans or seditious speeches will likely lead to hanging the guilty parties.

The Panama Canal will become the greatest development agency in the history of the world. The magic touch of its influence will quicken the farm, mine and factory life of Texas and the inland empire that lies beyond our borders by bringing the Pacific markets within our trade zone. It will arouse the Orient from its slumber; awaken the Southern Hemisphere to industrial achievement and will flash rays of light over the dark continent, and Texas is strategically located to receive first benefits of the large opportunities which the canal produces.—Commercial Secretaries.

Of course it is inevitable that those of us on this side of the Rio Grande should be disposed to magnify the virtues of the Mexican who seems to wish to accommodate himself to our policy and interest and to disparage those of the Mexican who seems bent on obstructing us. But after making liberal allowance for this natural bias of mind, it seems to us it can not be denied that the attitude of Villa proves him about the most sensible Mexican we have had to deal with in all our Mexican troubles. There is an element of homely common sense in his words that has been conspicuously absent from those of both Huerta and Carranza. If Villa is sincere in what he says—and it would be folly to ignore the possibility that he is merely practicing deception—then there is good reason to believe that our job in Mexico will be much less difficult and sanguinary than has seemed probable at any time since we seized Vera Cruz. For there is every reason to believe that in any controversy between Carranza and Villa on matters of policy it will be the judgment of Villa that will prevail. When Villa remarks that it is "my men, my own companions, the men you call 'Villaistas,'" who would bear the brunt of fighting with United States troops, he suggests a readiness to put a peremptory veto on any decision of Gen. Carranza's that does not receive his approval.—Dallas News.

Events of Interest From the Seat of Government.

By J. E. Jones

Ninety-seven Congressmen voted to reduce their own salaries from \$7,500 to \$6,000 a few days ago—but there were 20% in opposition and had there been any real danger of this proposition going through, about ninety of the ninety-seven would have found a speedy method of changing their votes. The Representatives as a rule are very much impressed with their own greatness, and their confidential opinion is that they are "working" altogether too cheap. A few years ago legislators throughout the country started in to advocate cutting out railroad passes, direct primaries, restricted campaign contributions, and a lot of other things they never wanted. But the public took up the suggestions, and so thoroughly approved, that the public servants had to carry the propositions through in order to save their jobs. But the lesson does not seem to have sunk home and the Congressmen who are still trying to jolly the voters with the notion that they are genuine reformers, will wake up some day to the fact that the country thoroughly approves the idea of a cut in their salaries—and then they are going to be very, very sorry. Some of the members will get so mad that they will conclude "they can't afford it" and will go back home and practice law, and if they are lucky many of them will get about half of that six thousand when they have to depend on the results of private real rustling.

Congressman Sparkman, in asking for larger appropriations for rivers and harbors, called attention to the fact that "half a century ago an ocean-going vessel of more than 300 feet... was not in existence." Passing along to the "vessels more than 900 feet long," he commented that the "end is not yet." The "Imperator" will yield its proud position as Queen of the Seas next month when its sister-ship the "Vaterland," reaches the Hamburg-American line dock in the north river. This floating palace is 950 feet long, 100 feet in width, and as in the case of the "Imperator" her hull has been constructed with a complete inner skin carried high above the water line, making her a ship within a ship. The owners of this boat say that she is proof against collision or similar accidents. In this modern palace there has been recruited a complete fire department picked from German cities and there are more than a sufficient number of life boats to accommodate all on board.

One sometimes marvels at the great improvements in the American navy and the old Oregon that brought comfort to the American people in the Spanish-American war, is now a back number in comparison to the modern dreadnoughts that are entertaining the Mexicans. But the "Vaterland" marks an epoch in shipbuilding far more important than the growth shown in the navies of the world. Eight hundred passengers can be seated at one time in the dining room and it is doubtful whether there is a hotel room in the United States more sumptuous in its parlors than the great public cabin, which is roofed with glass, un-interrupted by pillars or supports of any kind, and illuminated by concealed lights. So complete is this room that it is equipped with a theatrical stage.

There are 300,000 babies die each year in the United States and the Children's Bureau at Washington says that one-half of all these deaths would not occur "if individuals and communities applied those measures of hygiene and sanitation which are known to be available." There is no question of the correctness of this startling estimate, and it has been absolutely verified by the government. Miss Julia C. Lathrop, chief of the Children's Bureau, comments that "it was once thought that a high infant death rate indicated a greater degree of vigor in the survivors." But this old-fashioned fallacy has been exploded; and when the public gives the same attention to the conditions surrounding the raising of babies as has been furnished by the government to hogs and other animal life, then this terribly needless loss of 150,000 babies each year will be checked.

Big game hunting has lured thousands of rich young men into the grip of the Arctic. Let's see, it was one of these, Harry Payne Whitney, who furnished Dr. Frederick A. Items Culled From the Leading Local Papers.

LOMETA

Mrs. R. S. Stokes has been in Lampasas this week on a visit to Mrs. G. W. Clements and other relatives.

J. M. Chadwick, one of the leading citizens of the Chadwick community, was in town Wednesday.

Lester Rustler and Miss Ruth O'Bannon were married at the home of the bride's parents, Mr. and Mrs. O'Bannon of Chadwick, Sunday at twelve o'clock.

The business men of Lometa have agreed to close their places of business for one hour each day, except Saturday, this summer during the progress of the various meetings that are to be held here, and all attend church.

W. H. Davis, pastor of the Baptist church, informs us that he is in receipt of a letter from Rev. J. W. Green of Abilene, saying he will be here to assist in the preaching at the Baptist meeting to be held in Lometa. The meeting will commence the third Sunday in May.

Last Tuesday night while returning home from a party at McCrea-ville, Ren Ringer, who lives about four miles from Nix, was stabbed by unknown parties. It was about 11 o'clock when the stabbing took place, the knife entering the region of the heart, but not inflicting serious wounds.—Reporter.

BROWNWOOD.

Plans are being drawn for a modern residence which will soon be erected by Dr. W. B. Anderson on his pretty Main avenue property.

County court met in session last Monday, but the jury was dismissed until Thursday. A few civil matters were attended to in the meantime.

At seven o'clock Wednesday evening at the home of the bride's parents, Mr. and Mrs. J. N. Mayfield, on Turner avenue, Mr. David Douglas and Miss Raymond Mayfield were united in marriage, the service being conducted by Rev. J. H. Stewart, in the presence of only the immediate family of the bride and two or three very intimate friends.—Bulletin.

SAN SABA.

Mrs. H. H. Taylor has returned from a pleasant visit with relatives at Goldthwaite.

The dinner Tuesday served by the ladies of the Methodist church was a grand success. Something more than \$80 was realized from the sale of dinners and the ladies are thankful for the liberal patronage.

Judge Hartley performed the marriage ceremony for Mr. A. W. Reed of San Antonio and Miss Commilla Marby of Wallace creek at the court house Saturday afternoon.

The little three year old baby girl of Mr. and Mrs. Carl Bryant of the McMillan community was severely burned about the body one day last week and has been in a serious condition since. The grandfather, Hon. E. B. House, was summoned from Austin and is still with the family.—News.

COMANCHE

Jake Hodge, an old citizen of the county, died Thursday morning in the Mt. Pleasant community, three miles north of town.

I. N. Burnett, formerly editor of the Hasse Headlight, has sold the plant and subscription list to Henry H. Ladd, a merchant of Hasse, who will edit the paper in future.

Rev. Baxter Golithly, formerly pastor of the Central Christian church here, passed through this city Monday, en route to his home at San Angelo. He had been to Dublin, where he occupied the pulpit in the Christian church at that place last Sunday.

W. H. Wooley, for the past few months with the Pettit bank at Gustine, will move to Carlton, where he will assume the management of the store at the Bowie Mercantile Co. at that place. Mr. Wooley successfully managed this store for two years prior to moving to Gustine.

Mrs. John W. Robbins, aged 31 years, died at 4 o'clock last Wednesday afternoon, April 15, at the Baptist sanitarium at Dallas, to which place she was carried about ten days ago to undergo an operation. The remains were sent to Athens, Texas, for burial, at which place she has resided since her marriage.

The boys from the D. & D. Institute came in Sunday morning and engaged the Comanche Indians in two

contests on the high school diamond Monday and Tuesday, defeating the Indians in a poor, slow and ragged exhibition of the national pastime Monday by a score of nine to four.

The people of this section were shocked beyond expression last Monday morning when word was received at an early hour that J.W. McNeil had been found dead in an outbuilding on one of his farms in the Cottonwood community and physicians and officers together with immediate members of the family left at once for the scene. At first there were suspicions of foul play, but later developments proved these untrue.—Chief.

HAMILTON.

T. K. Rea and F. R. ewe of the Indian Gap country have formed a partnership and will engage in the nursery business.

Mrs. W. W. Kowler and her beautiful little daughter, Mabel, went to Purmela Friday to visit her brother, O. S. Strickland, and family.

Prof. J. E. Corrigan, county chairman of the Tom Ball club, is in receipt of a letter informing him that a club of sixty four members was organized in the Carlton precinct last Saturday.

Mrs. R. A. Kooker, who came in last Thursday, was called back to Chicago Friday by a message stating that Dr. Kooker's condition would not admit of his leaving the hospital as he had expected.

Dr. C. H. McCullom, well known throughout Hamilton county, and who for the past year has been taking a post graduate course in medicine and surgery in Vienna, Austria, writes the Record to change the address of his paper to London, England.—Record.

LAMPASAS

Friends and neighbors have procured a rolling chair for Floyd Walser, who has been paralyzed for several years.

Jesse Estill of Austin has been employed as manager of the Lampasas baseball team, which is now undergoing organization, preparatory to the opening of the season of the Central Texas League which represents eight towns.

Little Alexzine Hendrix met with a painful accident Saturday afternoon, falling with both hands on the kitchen stove when it was very hot. The fingers were badly burned, but the little one has proper attention, and it is thought she will not be disfigured by the burn, and that she will have good use of her hands.

Ernest Griffin, son of S. L. Griffin, is suffering from a broken leg, the fracture being between the knee and ankle, and both bones being broken. The accident occurred at a social gathering at the Oak Ridge school house on the night of the 16th, when he and one of the neighbor boys were engaged in a friendly scuffle. He had proper attention and will soon be all right again.—Leader.

A wise man loves a smooth road. The strictest business policy should be applied in road construction.

The rich and poor are equally blest when they travel over good roads.

Patriotism is accelerated by improved highways and pauperism is encouraged by bad ones.

Farmers are voting for themselves, their wives and children when they vote for improved roads.

Next to permanent road building comes a systematic and intelligent use of the split log drag.

MEETING CLOSED.

One of the Greatest Revivals in the History of Goldthwaite Ends.

The revival which was conducted by Evangelist A. P. Lowrey, assisted by his wife and Mr. W. B. Woodruff closed last Sunday night, after continuing two weeks.

If we were to estimate the results of the meeting by the number of converts and reclamations the showing would be wonderful, there having been about 175 in this list, but the benefits were far greater for the churches were stimulated and church members were revived to an extent seldom known. The fact that more than 100 business men assembled in prayer meetings in some of the business houses on more than one occasion during the meeting and that large numbers assembled in these meetings each day showed the extent to which the community was interested.

The congregations Sunday morning, afternoon and night were unprecedented, all available seats under and around the tent were taken and vehicles were occupied all around the place, as well as people standing in groups in hearing distance of the evangelist.

At the morning service Sunday, an offering was taken for the evangelist and his helpers and people of all denominations represented in the congregation contributed liberally. The total contributions amounted to \$382, besides something more than \$100 having been contributed for incidental expenses.

This was one of the greatest meetings ever held in Goldthwaite and every denomination taking part in the meeting received a number of new members and all were benefited.

Rev. Lowrey and wife left Monday night for their home in Fort Worth to remain a few days and will then go to Madisonville to begin another meeting Sunday. Mr. Woodruff left Sunday night for his home at Palacios to spend a few days with his family and will then join the evangelist in the Madisonville meeting.

FIRE AT HAMILTON

A telephone message was received in this city yesterday telling of a fire at Hamilton in which the Herald printing office, the telephone office and the pool hall were destroyed. The information was meagre and we could not learn the amount of the loss or the cause of the fire, further than that it started in the pool hall. The Herald office was one of the best equipped printing plants in this part of Texas and the building was also the property of the owner of the Herald, Mr. Boynton.

SUICIDE IN LAMPASAS

Astonishment prevailed Wednesday morning about 7:21 when it was learned that J. R. Pickett of Kempner, who has been on trial in the district court here since Monday for the murder of Ed Smith near Kempner had killed himself at the Wachendorfer hotel. He had eaten breakfast and retired to his room when the event occurred. A Mrs. Oliver of Temple, a cousin, had just arrived and went into his room. Just at this time he took an automatic pistol and fired one shot through the floor and another through his head, death resulting instantly.

Public opinion freely expressed on the streets lead to the belief that he would have been freed by the court from the charge which was pending, as there were many circumstances which tended to show self defense, but Mr. Pickett was a very nervous man and had brooded over the possibilities of the case until he was temporarily off his balance. Since the time of the difficulty he had made his home with his brother, the entire family having moved to the old homestead of the parents. This is thought to have been done on account of his exceedingly nervous condition.—Lampasas Leader.

FERGUSON CLUB FORMED.

After four days circulation of subscription lists, a "Jim Ferguson Club" was organized in Goldthwaite on Wednesday night April 29, 1914, with about four hundred and fifty members. Capt. Dan Bush was elected permanent chairman and Dr. Em. Wilson was elected permanent secretary.

District chairmen were appointed at almost all the voting places in the county, and a complete plan by which a thorough canvass of the county was perfected. DAN BUSH, Chairman. Em. WILSON, Sec.

HOLINESS MEETING

All is in readiness for the Holiness meeting which was scheduled to begin last night. Rev. I. M. Ellis of Hamlin, who is to do the preaching, was expected to arrive last night and the services will be continued through next week and perhaps longer. The Christian people of all denominations and the public generally have a cordial invitation to attend the meeting and take part in the services.

District court will convene in this city Monday and will continue for three weeks, if necessary. However, there are not many cases on the docket and it is believed the business of the term can be completed in a few days.

Monroe Simms, who had the misfortune to fall from a railroad car which he was unloading some weeks ago and hurt his neck badly, is again able to be about, although it will be some time before he can take charge of his business, as his neck is yet quite sore and he now has to move with caution.

J. H. Blackburn of South Bennett leased his farm to Mr. Simpson and loaded his household goods this week and moved to Pampa, in the Panhandle country. He will be employed on a ranch, in which line of work he spent a good many years. He and his good family have the good wishes of many friends in this county.

The letter from Dr. M. L. Brown, published in another column of this paper, will be appreciated by the people of this community, for it proves that he still takes interest in his friends here. He was a leading citizen of this town for more than twenty years and his efforts were always for the betterment of the town and the advancement of the people.

Dr. Philips is expected to arrive in a few days from Oklahoma to take up the practice of medicine in this city.

Quite a number of old soldiers will leave on tonight's train for Jacksonville, Fla., to attend the reunion and visit in the old states.

J. M. Arnold, who is a candidate for railroad commissioner, has been relieved as railroad agent at this place, in order that he may devote his entire time to his campaign. His position has been taken by G. B. Dolan, late transportation inspector of the Beaumont branch of the Santa Fe, who will arrive today and he and his wife will occupy Mr. Arnold's residence on Parker street. Mrs. Arnold and children will go to Oklahoma to spend the summer with her mother, while Mr. Arnold is looking after his political campaign. While we all regret to lose these good people as citizens, we are hoping for his success in the July primaries.

Friends here of Noah Karnes are distressed over his serious condition in the sanitarium in Waco. He left here some days ago for Marlin to try the effects of the hot baths, hoping to regain his health, but he was not benefited and Wednesday his wife and son Charley, together with his brothers, A. D. and F. M. Karnes, were summoned to Waco by his attending physicians. They found his condition extremely critical, with slight hope for his recovery. The physicians advised that an operation might prove beneficial, but they thought it extremely doubtful. They have not fully determined the cause of the trouble, but think it probable that he has a cancer of the bladder. His relatives here are in constant communication and it is hoped they will hear more encouraging news in the next few days, but the worst is feared.

RETIRE FROM BUSINESS.

The building in which Hudson & Rahl have conducted a meat market for more than twenty years is being torn away to make room for a modern stone building and Messrs. Hudson and Rahl have retired from business. This change marks the removal of one of the oldest firms from the business circles and one of the oldest business houses from Fisher street.

The new building, which will be erected by A. J. Harrison, the owner of the property, will be occupied by McKinley-Corrigan Company's hardware and vehicle department. It will be connected with their main store by means of an archway and will give them an immense floor space for their business.

It is not known what business Messrs. Hudson and Rahl will engage in hereafter but it is sure they will remain here, which fact is a satisfaction to their many friends and the friends of their families.

CITATION IN TAX SUIT

STAR.

Cotton planting is the order of the day, between showers.

Corn and oats are looking very fine, and the same can be said of wheat and barley as well as of maize and cane, and with continued good prospects the future grows rosier all the time.

Our school closed last Tuesday, after one of the most successful terms in the history of Star. There was talk of holding a month of subscription school, but it was thought better not.

The Star Music Club met in regular session last Friday night. The meeting being a business meeting, the attendance was not as large as desired. Plans for the club's future were discussed and the amendments offered were voted upon, which resulted in their being put on the table for future consideration.

Evant Brooks, the copular and handsome cashier of the Evant State bank, accompanied by Miss Ruth Ensor, who is teaching music there, was in this community one day this week.

Henry Morris is having his place improved considerably. He has lately put up a new picket fence for his front yard and is also working up the sidewalk.

Rolla Livingston and Luther Teague have improved the appearance of their places by moving back the fence in front of them, lining it up with the rest of the street.

Rev. L. N. Myers left Thursday morning for Mullin to attend the district conference of the Methodist church.

W. F. Stephens has put up a nice yard fence in front of his house a short distance east of Star.

On account of the rain there were no services at the church last Sunday morning. It was Brother Myers' day to preach. The young people enjoyed singing at the church house in the evening, but the weather prevented church services again at night. The services at the Christian church in the evening were not hindered by rain.

The Woodmen met in regular session last Saturday night. Plans for a picnic in July were discussed. All Woodmen are requested to be present at the next meeting. We may open a keg of nails.

The young people enjoyed a party with Miss Arie Slaughter as hostess at the hospitable home of J. F. Slaughter last Saturday night. All had a most enjoyable time.

The school board has contracted with Prof. W. A. Jeter, Mrs. D. I. Hawkins and Miss Donald Oldfield to teach our school again next year. Another teacher will also be secured. We are certainly glad that we are able to know that we have these good teachers for our next term.

THEY ALL DEMAND IT

Goldthwaite, Like Every City and Town in the Union Receives it.

People with kidney ills want to be cured. When one suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve, but do not cure. Doan's Kidney Pills have brought lasting results to thousands. Here is Goldthwaite evidence of their merit:

J. Taff, prop. Taff Hotel, Goldthwaite, Texas, says: "For two years I had attacks of backache, often being unable to get about. When stooping, like a flash of lightning, a pain shot through my kidneys and I was unable to move. Doan's Kidney Pills, procured at Clements' Drug Store, relieved me. Nothing has occurred to change my high opinion of Doan's Kidney Pills. I willingly confirm the statement I gave praising them some years ago."

HORSE OWNERS.

The horse is the principal motive power of the farm and therefore requires the best attention. If he does not thrive or eat well, have his teeth attended to. Bad teeth and improper mastication causes more disturbance than any other trouble; causes acute indigestion, colic and diseases of the alimentaries and many other troubles. A stitch in time may save the worth of your horse. Spend a few dollars on your horse before he gets down or is disabled. Bring your horse to me and have him examined and treated. I will be in Goldthwaite the second Saturday in each month to do all classes of veterinary work. Examination free.—Dr. O. M. Walters, Veterinary Surgeon and Dentist, San Saba, Texas.
