R. M. Hodge of Trigger Mountain community was among his friends in this city last Saturday.

Judge E. B. Anderson and family returned Tuesday morning from a visit to relatives in the coast country.

Jas. Rahl spent the first of the week in San Antonio, attending the meeting of the grand lodge of Odd Fellows.

A considerable amount of cotton has been brought to this market this week. Goldthwaite has come to be an all-the-year-round cotton market.

The notice of the election of two trustees for each of the rural schools of the county appears in this issue over the signature of Judge Dalton, who is ex-officio superintendent of schools in the county.

Miss Emma Harrison has been assisting in the postoffice this week, during the absence of Duke Clements who has been assisting in building a residence on his brother's farm in Trigger Mountain community.

T. T. Nichols, one of the delegates from Goldthwaite Woodmen camp to the state meeting of the order at Fort Worth, made a side trip to Hopkins county to visit relatives and returned home Tuesday morning.

Sol Camp and son have sold turnip greens to the amount of \$6 to \$12 per day during the past two weeks and have \$100 worth yet to sell. They have a through meal ticket for this year. Turnip greens will carry them to strawberries, this to blackberries and beans, these to Elberta peaches, this to tomatoes and sweet potatoes, these to peas and hogs and on to cotton season. His last years cotton crop has not been ginned. It is sweating in the bin. He did not have to have it ginned. He had reduced his cotton acreage every year since the advent of the boll weevil and will plant very little cotton this year. When it costs more to raise cotton than it is worth, he believes it is best to raise more profitable crops.—Sulphur Springs News-Telegram.

A FINE AVERAGE

Mr. O. H. Robbins, county farm demonstrator, has received returns from cotton seed sent to the A. & M. college for tests as to germination, and the result is highly satisfactory to Mr. Robbins and those who furnished the seed, while it makes a good showing for Mills county. An equal number of seed were furnished by four parties from as many localities and the result shows as follows:

Seed supplied by A. B. Bledsoe, Big Valley—Germinated, 141; sound but not germinated, 8.
Seed supplied by Thos. J. Harrison, South Bennett—Germinated, 119; sound but not germinated, 9.
Seed supplied by W. E. Gray, Bethel—Germinated, 140; sound but not germinated, 5.
Seed supplied by J. S. Sealy, Goldthwaite—Germinated, 151; sound but not germinated, 11.

The remainder of the seed either rotted in the ground or were lost by the assistant agronomist, Prof. H. H. Jobso.

THANKS FOR HELP

We desire to express our gratitude to the good people of Mills county who so generously assisted us after the destruction of our home by fire last week. Before the walls of the house had been consumed we had offers of help and the kind and generous people continue their assistance in a substantial way and we were forced to know and realize that no better people live on the face of the earth than the people among whom we live. It has been truly said that Mills county citizens are "all white through and through" and their generosity is only limited by their ability. May the Giver of All Good shower blessings upon those who so kindly and cheerfully and freely helped us.

LET MEN BE FREE

Look it that your communities your great cities, do not impose too arbitrary standards upon the men whom you wish to use. Do not reduce men to standards. Let them be free. Do not compel them by conventions. Let them wear any clothes they please and look like anything they choose; let them do anything that a decent and an honest man may do without criticism; do not laugh at them because they do not look like you, or talk like you, or think like you. They are freer for that circumstance, because, as an English writer has said: "You may talk of the tyranny of Nero and Tiberius, but the real tyranny is the tyranny of your next door neighbor. There is no tyranny like the tyranny of being obliged to be like him" of being considered a very singular person if you are not; of having men shrug their shoulders and say, "Singular young man, sir, singular young man; very gifted, but not to be trusted." Not to be trusted because unlike their own trustworthy self! You must take your leaders, in every time of difficulty, from among absolutely free men who are not standardized and conventionalized, who are at liberty to do what they think right and say what they think true; that is the only kind of leadership you can afford to have.—Woodrow Wilson.

ACT QUICKLY

Delay Has Been Dangerous in Goldthwaite

Do the right thing at the right time.

Act quickly in time of danger. In time of kidney danger, Doan's Kidney Pills are most effective.

Plenty of evidence of their worth. Mrs. Mollie Pierce, Brady Ave. Brownwood, Texas, says: "For nearly a year I endured torture. The physicians did not know what ailed me and said that I would have to undergo an operation. I came to Brownwood for that purpose, but the change made me feel better and I put off the operation. I soon got to feeling bad again, however, and suffered from intense pains across my back. I saw Doan's Kidney Pills advertised and sent for a box. The third day after I began using them, I passed three gravel stones and I soon got well." (Statement given May 30, 1908.) Over three years later Mrs. Pierce said: "Since I used Doan's Kidney Pills I have no further sign of kidney trouble."

Price 50c. at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Pierce had. Foster-Milburn Co., Props., Buffalo, N. Y. (adv.)

Get a bottle of Sloan's Liniment for 25c. of any druggist and have it in the house—against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. GRANDMA BROWN PASSES AWAY

Mrs. L. E. Brown died at the home of her son, Bill Brown, near Pidcoke, Monday, March 8, 1915. She had been in ill health the past five or six years and for the last few months had been confined wholly to her room. For a number of years her home was in Killeen where she had many friends and acquaintances. It was a pleasure for friends to talk with her and her memory for her advanced years was remarkable. Being a great reader and observer, her conversations were enlightening and interesting. Her disposition was sunny, cheerful and humoristic, which made her interesting to young people as well as older ones.

She was the daughter of Judge Hudson Allen. Born in the state of Tennessee, April 13, 1828, she would therefore have been 87 years of age the thirteenth of next month. Her parents moved to Mississippi soon after her birth where she was reared and married and soon thereafter moved to Texas. In young girlhood she united with the Christian church and throughout life was true and faithful to her church.

She was the mother of eight children, four sons and four daughters, all of whom are living but it was possible for only four to be present at her burial.

Funeral services were held by Elder A. J. McCarty Tuesday afternoon at two o'clock and interment was had at the Copperas Cove cemetery.

Mrs. J. W. Pace of this city is a daughter of deceased and her many friends sympathize with her in the death of her parent, for a mother, no matter how aged, never loses love and interest for her child.—Killeen Herald.

Mrs. Brown was an aunt of Mr. J. H. Allen, sr., of this city and he and his family have the sympathy of all of their friends in their bereavement.

She was stricken with apoplexy some weeks ago and Rev. and Mrs. Haralson were summoned to her bedside and reached that place several days before her death.

I have the only complete set of abstracts of the land titles of Mills county and will make your abstracts for a reasonable charge and will help you cure your titles if defective.—E. B. Anderson.

SMILING BILLIE ON THE WING

Why not fly? Airships though fleet of wing cannot carry a fellow beyond the influence and power of woman's tongue and pen; and it invariably falls to my lot to make such blunders as to put me on the defensive. I am in the coils of a predicament and being young and bashful I hardly know whether to retreat or accept the challenge of Mother's Dish Washer to stop newspaper letter writing and direct my letters to her at Ignorant Hill where she will give me her age and not make it known to the public. In her last week's communication she claimed that Billie's remark brought blushes to her maidenish face and wanted to prove by Violet and Daisy that he said enough to cause a maiden to blush, but later she wanted Billie to understand that she is anything but a spring chicken and rapidly advancing on to old age. Now if that wouldn't put a barrier in a fellow's way of Billie's bashful disposition I can't conceive of what would. I was at first led to believe that the one calling me "Dear" was a blushing maiden, but now I am invited to Ignorant Hill as the only way to get her true age, which may prove to be an old maid of more than 60 summers. Why! what a contrast for nothing but a boy to try to unravel. Where shall I go? To whom shall I flee for help? The sun, moon and stars may vary, but old maids are past finding out, especially where they have Daisies and Violets at their command. We are glad, however, that neither of these have yet expressed themselves, and should they decide that Billie has transcended the bounds of true etiquette and given Mother's Dish Washer the right to complain, poor boy, he is doomed to retirement from the staff of correspondents and will again go into seclusion, where he has been for a long time and from whence only come out at the instance of Dish Washer, who spoke of him as being "Dear" which awoke him from his long retirement and feeling that he must say and do something to show his appreciation of being "Dear" to some one. Alas! alas! the storm broke loose in all its fury and the poor boy left a victim to he knows not what. My dear Miss Dishwasher, won't you please forgive a poor country boy for anything he might have said to bring blushes to your face, and just keep on writing, as according to your own statement you have not been very successful at anything else you have undertaken, unless it has been dishwashing and newspaper corresponding.

Smiling Billie wishes you happiness, success and all else that one loving heart can wish for another. Your Dear SMILING BILLIE.

DISEASES OF FRUIT TREES

The following information and formulas have been frequently requested and as they may serve beneficial to the general public are placed in our county paper. The information here given is taken from bulletins issued by the department of agriculture.

The common diseases of fruit trees in this section with which the grower should be familiar are pear blight, crown gall, black knot, Texas root rot.

Pear Blight—This disease usually appears on the tip of new twigs. It develops about the time the blossoms appear. Soon after this period the tips of the newly developed twigs begin to wilt and they soon turn dark, resulting in the death of the twigs attacked. This disease can be completely eradicated if prompt measures are taken. The essential thing to do is to prune out all the twigs and limbs infected with the disease. Do this during the period of the tree's dormancy and there is not likely to be any source of infection the following season. Pruning during the growing season has not proven reliable.

Crown Gall—Crown Gall is doubtless a bacterial disease. It affects a great many new plants, and is very disastrous to the apple, peach, plum, pear, cherry, grape, blackberry and pecan, as well as a large list of other plants of minor importance. It differs, somewhat, in form and appearance on the different plants. The gall is generally located on the root of the host plant near the surface of the soil in the region of the collar. It sometimes develops above the surface, or on small roots below the surface. It is known to be infectious. This disease is very difficult to control. Removal of the gall with the affected tissues and the use of antiseptic washes has proven successful in some instances. But the difficulty of removing all the diseased tissues can hardly be surmounted. Prevention in this instance should be restored to. Injury to the growing trees at, or near the surface of the ground should be avoided, as the disease is liable to establish itself through the wounds.

Texas Root Rot—This is the disease that attacks cotton so badly in the sections of the state. It is a well known fact that fruit trees planted in soils where this fungus exists are soon killed. It is a difficult matter to control this disease when once thoroughly established. The advice given by all scientists is to avoid where cotton dies when one seeks a location for an orchard. Cultural methods are advised in the control of this disease. Deep plowing, which will bury the spores or expose them to the light and dryness of the atmosphere, has been recommended as a remedy to eradicate it from the soil. The planting of resistant crops for several years, to be cultivated clean, is also recommended.

O. H. ROBBINS,
Special Agent.

PLATFORM SCALES

In obedience to the demand made upon me by the farmers and the requirement of my official duties, I have installed platform scales on the east side of the public square in Goldthwaite, where grain and other products other than cotton can be weighed for the public. These scales have been installed at a considerable cost to me, but when the demand was made I felt that I had no right to disregard it. I will be ready and willing at all times to serve the public as weigher of all kinds of products. These scales have been tested by the county judge and found to be accurate.

Public Weigher.

WHY BUY

THE UNITED STATES CREAM SEPARATOR

The Interlocking Sectional Type differs vastly from the "disc" or any other separator construction. It is the modern product of new and better ideas, and is manufactured under the latest cream separator patents. Antiquated, abandoned principles of construction have no place in its makeup.

The Interlocking U. S. is the perfected product of over twenty-five years experience in building cream separators.

It takes years of experience to develop a Cream Separator of highest efficiency. A large number in our factory have this experience, having made a life study of the U. S.

It is made in the United States. You can get repairs if needed.

It is safe for women and children. All the gears are completely enclosed.

When buying the U. S. you get a separator more improved and up-to-date than others, for example:

The U. S. is the first to use the oil-splash system. The U. S. oils all the gears. Imitators oil only part of the gears.

The U. S. is the first to have a Mechanical Washer. Others are spending large sums to invent one equally effective.

The U. S. is the first to have a non-rusting bowl chamber liner. We predict others will copy it in years to come.

The patented U. S. Interlocking Skimming device has proved a better skimmer than "disc" bowls. It would be imitated if not patented.

The U. S. adjustable neck-bearing controls the running of the bowl. Others would use it if they could, but patents prevent.

The gears revolve on the shafts and in the middle between bearings. Get a mechanic's opinion on this point.

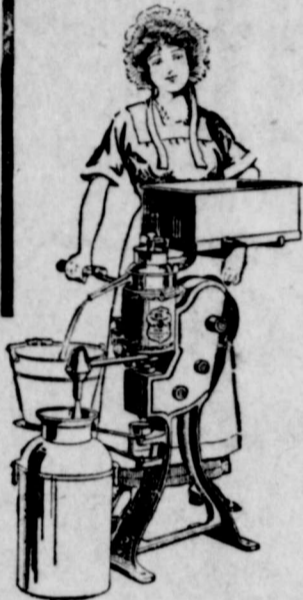

The U. S. skims Nature's way, cream at the top, milk at the bottom. As yet we've never heard of anyone who has improved on Nature. Have you?

When a better Cream Separator is made, it will be a U. S.

Come in—Look the U. S. over.

A FINE OFFICE

D. H. Trent & Son have installed their furniture in their new office at the opposite corner of the block from the Trent Bank, and are now located for business at that place. This office is planned after the order of a bank and is conveniently arranged with plenty of desk room for the management as well as the customers. Messrs. Trent do an immense business in the way of loans and buying commercial and real estate paper and it is decidedly advantageous to the city and county to have so strong a firm here and the provisions they have made for their office proves that they have no thought of discontinuing their business at this place.

OIL PAINTING FREE

It is my purpose to hereafter present each of my customers with an oil painting that will be an ornament to the interior of their homes. These pictures are painted in Goldthwaite and those who have seen my work in this line can testify as to its merit. I want to help to make the homes of this city and county brighter and more comfortable by adding a coat of paint or some new and attractive designs in wall paper. Those who expect to have work done in this line are invited to call at my office at Randolph's lumber yard and select samples and inspect my pictures. If it is not convenient to call at the office, a phone message will bring me to them with samples.

NOTICE TO TAXPAYERS

All persons who are due state and county taxes for 1914 are notified that such taxes must be paid before April 1, 1915, or an additional penalty of \$2.50 and 6 per cent interest will be added under the law governing the collection of delinquent taxes. This penalty and interest is in addition to the 10 cents on the dollar penalty that has already accrued and the collector has no choice in the matter, but must add it when he issues a receipt.

J. H. BURNETT,
Sheriff and Tax Collector of Mills County.

IF WE HAD THE TIME

What great things we would do if only we had the time. We would study music, or learn stenography, or write a book; we'd find out about this, look up that, answer the long past due letter, go to see that neglected cousin, aunt or grandmother—we would all of us do some of these and some of us all of them if we only "had time." How many of our failures and shortcomings do we shroud in that excuse about having the time. When we fail to post that letter, when we fail to call up somebody as promised, when we fail to do an errand or that favor "we did not have the time" glides easily and speciously out of our mouths. How many heartaches has it caused and many failures. Consider the poets in the embryo who have not "had the time" to develop their art to a proper expression; or the artists who "have not had the time" to study the technique necessary to the painting of a great picture; or the dramatist who falls a little short of being successful because he has not had time to learn the essentials of his craft. It is a long list that would be extended indefinitely to the business man, who makes a failure of his enterprise because he has not had the time to give to it, or the brick mason who loses his job because he never had the time to learn his trade properly.

It is a convenient excuse we all use for failures, large or small. And, oddly enough, the busiest man is the man who uses it least. The number of men of affairs who find time to study French, play golf, grow roses and read the newspapers is legion, while the whittler in the grocery store never had the time to learn to read. One road to success seems to be to "take the time."

R. M. THOMPSON, Editor

The death of Mrs. John D. Rockefeller occurred at the family residence near Tarrytown, N. Y., last Friday. She had been ill for a year, but her condition was not of a nature to alarm the family and there was no one with her but her sister at the time of her death, her husband and son being in Florida.

A young lady at Marblehead, Mass., who was born blind twenty-one years ago, suddenly received her sight Sunday, without an operation or any known cause. She was engaged in some household duties when suddenly the light burst upon her. The shock made her ill for several days, but her sight remained clear and perfect.

In a suit for damages in New York, occasioned by the destruction of a shipment of eggs that had been treated with a solution of boracic acid, a chemist of note testified that it would be possible to keep eggs a hundred years by means of the acid. Cake made with eggs that were ten years old was served to the jury in the case.

One of the most daring aviators the world has known was killed Sunday in San Francisco, when Lincoln Beachey's monoplane fell a distance of 3,000 feet, while he was entertaining an immense throng at the Panama-Pacific exposition. The machine fell in the bay and the aviator being strapped to it was drowned before he could be rescued.

There is no better evidence of the prosperity of a country than the prosperity of its business men. There is no better evidence of the prosperity of business men than the liberality of their advertising in their country paper. Look over the pages of the Eagle and you will be convinced of the prosperity of the country in general and the business men of Goldthwaite.

An immense tank of gasoline on the Central railroad track at Fort Worth exploded Monday night, injuring three railroad employes and doing considerable damage. The tank was leaking and the fumes from the gasoline reached a lighted lantern fifty feet away and instantly the flame was communicated to the big tank. The explosion took place a few minutes before a passenger train was due to pass the tank on an adjoining track.

The war in Europe, like that of Mexico appears to have no prospects for termination. The only condition that could end the European war would be the utter exhaustion of one or the other side, while in Mexico the termination must be brought about by some outside power. No power is large enough or strong enough to intervene in Europe and force a cessation of hostilities, but the nations involved in the conflict will have to settle the trouble in their own way. There is little doubt that finally the Mexican situation must be taken in hand by the United States government, but there are many few citizens of this country who want to see this government undertake the task.

Texas now has the compulsory education law and we will learn by actual experience whether or not such a law is beneficial. A number of states have a similar law and none of them have ever abandoned the system, as far as the Eagle is informed, after once they have tried it. Public education is a public benefit and it is in the interest of the state to have an educated citizenship. While this law savors somewhat of paternalism, it is a fact that many children have been deprived of an opportunity to secure an education by their parents or guardians forcing them to remain away from the public school and work. True the new law will be rather hard on some who actually need the services of their children, or who are not able to properly support their children in school for five months in the year, but such cases are isolated and the great mass of the citizenship of the state will suffer no considerable inconvenience from the law.

CURLEY HEAD.

SOUTH BENNETT

(Too late for last week.)

Editor Eagle:

We have decided this morning when we looked out and saw this earth covered with snow, springtime hasn't begun yet. We have had a few days of spring weather, which made the farmers talk of planting corn. Some have planted. Think I hear some one say "There's time enough yet."

Bro. Roberson filled his regular appointment here at this place Sunday. Not very many out, it was so cold.

The Sunday school is getting along fine. Mr. Will Moreland is certainly a faithful superintendent. He is always present, unless he has sickness in his home. Would enjoy to see more of the mothers and fathers take a part. The young people would take more interest. We need their help.

A number of the young folks went to the box supper at Kelly's school house Friday night. Reported a jolly time.

Miss Pearl Wheat has gone to Oklahoma to visit her brother.

Miss Lottie Blackburn spent last week with Miss Ethel Covington at Pleasant Grove.

Mrs. Eddie Dannels from Winters is visiting her brother, Mr. Sam Carroll.

Mr. and Mrs. Emsy McLean visited Mr. John Carter and family at Center City Sunday.

Wash McLean and wife from Priddy visited Mr. C. D. McLean and family Friday and Saturday.

Singing at J. W. Hill's was enjoyed by all that were present Sunday night.

Mr. Wheat bought two fine Jersey cows this week.

The Crochet and Embroidery club will meet at Mr. L. G. Blackburn's next Wednesday evening. Everybody has an invitation to join this lively band of young folks.

I will ring off this time.

TO THE HOUSEWIFE

Madam, if your husband is like most men he expects you to look after the health of yourself and children. Coughs and colds are the most common of the minor ailments and are most likely to lead to serious diseases. A child is much more likely to contract diphtheria or scarlet fever when it has a cold. If you will inquire into the merits of the various remedies that are recommended for coughs and colds, you will find that Chamberlain's Cough Remedy stands high in the estimation of people who use it. It is prompt and effectual, pleasant and safe to take, which are qualities especially to be desired when a medicine is intended for children. For sale by all dealers. (adv.)

D. 1915, the same being the first Monday in May, 1915, then and there to answer the plaintiffs first amended original petition filed in said Court on the 5th day of March, A. D. 1915, in a suit numbered on the docket of said Court No. 1419, wherein Henry Morris, F. L. Sheldon, James, Soules, E. W. Second: A part of the Gabriel Slaughter 160 acre pre-emption survey, patented to him by Patent No.

192, Vol. 25 dated Jan. 5, 1893 and meted and bounded as follows: Beginning at the S W Corner of the George McKee 640 acre survey, thence N 19 W with the W boundary line of the McKee survey, at 1049 vrs to the N E Corner of the Gabriel Slaughter survey, thence S 71 W 512 vrs. to its N W corner, thence S 19 East 477 2.3 vrs. to North West corner of the Peck tract out of said survey, thence South 74 1.4 East 369 vrs. to corner of Live Oak tree at Peck's N. E. Corner, thence S 30 E along Peck's E line 180 vrs to a bend in the fence at North end of a high bluff, thence S 54 E along crest of the bluff and Peck's E line 55 vrs a spanish oak tree for corner, thence S 10 E along Peck's E line 250 vrs to a corner, thence S 20 E with Peck's fence, 120 vrs to a corner thence S with Peck's E line 85 vrs to a corner in S line of the Gabriel Slaughter survey, thence N 71 E with south line of said survey 303 vrs. to corner in E line of Star and Lampasas public road, thence N 5 1.2 W along W side of Public road 183 vrs to where it crosses S line of George McKee survey, thence S 71 W with McKee S line 180 vrs to the beginning containing 79 2.10 acres of land.

Plaintiffs further aver, that they and those whose estate they have, claiming to have good and perfect title to the above described tracts of land, now have and have had peaceable, the land claimed, and open notorious and adverse possession of the same, cultivating, using and enjoying the same and by actual enclosure for a period of more than ten years after the defendants cause of action accrued, and next before the commencement of this suit.

Plaintiffs further say that the exact nature, extent and character of the defendants claim to the above described tracts of land is unknown to them, and pray for judgment for the title and possession of the said land, and that they be quieted in the possession thereof, etc.

Herein fail not, but have before the said Court on the first day of the next term thereof this writ with your return thereon showing how you have executed the same.

J. C. STREET

The "unwritten law," which has hitherto been good for the liberty of all murderers who plead it, received a slight setback in Fort Worth last week. A man who had shot the day lights out of another man and then pled the unwritten law was actually given a five year sentence to the penitentiary. The evidence adduced at the trial showed that the killer's wife had written the man who was killed a letter. This was considered sufficient provocation for the taking of human life so the man who received the letter was pumped full of lead while he was at his place of business. In our desire to throw proper safeguards around the home, we of the South have turned scores of red-handed murderers loose on the unwritten law plea. The killers have learned that the "unwritten law" is an open sesame to liberty, and when they shoot a man to death they then manufacture pleas of the invasion of their homes.—Honey Grove Signal.

Up to the time the Eagle was put to press the county clerk had not issued a single "pair" of marriage license for a week.

Friends here of Henry Grisham have learned that he is a candidate for alderman in Brownwood and they are wishing him success.

SPECIAL APPROPRIATIONS

A report from Austin says that the legislature has passed a bill which becomes law when signed by the governor appropriating \$25,000 for the extermination of the rats in Texas, especially along the Mexican border and the various ports of the state. The money will be spent under direction of the state department of health. The particular reason for attempting the extermination of rodents is to prevent the possible entrance into Texas of the bubonic plague which recently prevailed at New Orleans.

Twenty five thousand dollars has been appropriated by this session of the legislature to be expended in the eradication of foot and mouth disease among livestock and also to prevent the introduction of the disease in Texas.

Four thousand dollars also has been appropriated to fight charbon among livestock. These funds are to be expended by the state health department.

In discussing the drug law recently enacted by the congress of the United States which became effective the first day of this month, the Dallas News uses strong language and states the facts clearly. The News says in part: The Harrison Anti-Drug Act has been hailed as the most beneficent enactment that has come from any legislative body in many years. But the Harrison Anti-Drug Act, although it has been in effect only two weeks, has probably caused more human misery than any enactment that has ever come from any legislative body. The paradox needs no explanation. The effect of the Harrison act is to deprive victims of the drug habit of a stimulant with a suddenness and absolute-ness that threatens to dethrone the reason of those it does not slay. Whether this immediate consequence was foreseen by the authors of the act is questionable. If not, a benevolent purpose unguided by reason betrayed them into blundering. But it may be that they foresaw the consequence and invited it as a means of forcing State and municipal authorities into the performance of a duty they have long shirked. If this effect was foreseen, and if this effect shall be realized, then the wisdom of this enactment will rival its beneficent motive. Otherwise the deaths, the suicides, the crimes and insanities that will be attributable to it will afford reason to question both its wisdom and its beneficence. A persistently strict enforcement of this act will doubtless result in diminishing very perceptibly the number of "dope fiends." But it will diminish the number chiefly by relegating them to graves, penitentiaries and madhouses."

STORE DEPARTMENT

J. M. McCAIN, MANAGER

Meeting P. O. L. . Nov. 17th. 1914

Mr. Joe Satalee, Agt.,

Texas Oil Co.,

Lake Charles, La.

Dear Joe:-

Today my Hudson 33 Roadster is three years old, and have never had the valves ground, or any part of the engine worked on, except cleaning of Plugs once.

I have used your Texaco Motor Oil, and Gasoline, on this car all together, and have saved an average of Ten Dollars per month on Garage bills, and know your oil is the cause of it.

Sincerely,

Joseph Satalee

THE "ZONE," THE PLAYGROUND OF THE PEOPLE OF THE WORLD
AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION

Through the center of the Zone, the amusement section at the Panama-Pacific International exposition at San Francisco, runs a broad avenue three thousand feet in length. It is not unusual for this entire avenue to be jammed with entertainment seekers who are busy patronizing the one hundred concessions on the Zone. An exact reproduction of the Panama canal is one of the popular and instructive features, there being a constant line both day and night of people eager to see the workings of the miniature canal. The premier showmen of America have assembled here their finest offerings of amusement, edification and instruction.

The increase in the length of human life during that last half century indicates that the world is growing better. The most incredible improvement has been effected from an average longevity of about thirty years in 1875 to a little over 50 years in 1915. We are living longer than the ancients lived because we are more careful as to the details of our daily lives. In other times people were fatalists as regards death. They believed that a million years before they were born their deathbeds were prepared for them and the dates fixed, hence there was little use of trying to forestall the grim ferryman and his silent boat to seek by any inconvenient means to head off the black camel. The result was that men and women died quite resignedly in their 40s and 50s, calling it the will of God as written in the book of fate since the foundation of the world. Of course that was an extremely egotistical view to take, as well as one difficult for the doctors to counteract. Also, of course, an occasional hardy person lived on and on through all sorts of scourges and epidemics, becoming in due course an oldest inhabitant and a landmark. But the average of life was one of few years and many ailments. The people then had no knowledge of germs, and they magnified a pneumonia bacillus, for example, into a judgment of God. They lost their teeth early and took on indigestion. From indigestion they took rheumatism, and from rheumatism they went by regular stages to scrap pile. The old-timer's idea of a bath was to slosh a little water onto himself at the horse trough after dark once or twice during a long winter and to take a few turns in a duck pond a few times during a hot summer. Hence they dusted back to dust without much ado over it, and the green grass grew all around. It was while that sort of thing was going on that the life insurance companies perfected their mortality tables, by the way, and the tables are still in use. Consequently the life insurance business has grown right profitable. But it is all right. If we live longer than the ancients we ought to be willing to pay for it.—Dallas News.

MULLIN

Editor Eagle:

We have been silent for some time and would likely remain so but the editor of the Eagle visited Mullin last Sunday eve and made such a good talk at our Sunday School meeting that we feel like saying something. Not only did Bro. Bob. come down, but his wife and daughter, Bro. Forester and wife, Mr. Will Trent and wife, Mr. Owen Yarborough and wife, Mr. and Mrs. Fred Wilson, Mr. and Mrs. J. C. Darroch, Mr. and Mrs. J. M. Hicks, Mr. and Mrs. Walter Fairman and possibly others whom we now fail to call to mind. Bro. Forester also held the audience spell bound with a telling speech. Us Mullin people certainly appreciate the good talks from these two brethren as well as those who came with them to hold up their hands, all of whom looked like they were really proud of Bro. Bob. and their preacher. Our own Bro. Clark was at his best and seemed to appreciate the fact that he had associated with him in this Sunday School Conference a preacher equal to him in good looks and ability. We don't know whether Bro. Forester has ever had a knife presented him or not, Bro. Clark is one on him and to cap the climax his was given to him by Frank Shelton. Those of you who have seen Frank know what that means.

Our conference was a success and we had with us Mrs. Hooper from Indian Creek, who gave us two very helpful talks.

We had an election last Saturday to determine whether or not our little city would remain incorporated, which resulted in two to one and five over in favor of incorporation. We presume this settles that job for some times to come, and the next thing will be something else.

McGuire Co., of Mullin sold out last Monday and will move to some other point.

Mr. Bell, who has been among us for sometime as a business man of Mullin, sold his grocery to D. J. Lockett, who will continue business at the same place. Mr. Bell made many friends while here and got unto himself the name of being a hustling, fair dealing grocerman. We are sorry to lose him.

We are somewhat interested in the discussion of who is and who ain't by Mother's Dishwasher and Smiling Billie. Having once been young and having had some experience such as poor Billie is now contending with, if we thought it safe would venture a few words in his behalf, but not knowing all parties concerned, we will give them the field. The program at present looks as though it's best for a fellow to keep mum, even if he is called "Dear" through the press. Billie, my boy, stand your ground if you die hard.

What's the matter with Uncle John? More anon. H. C. COBB.

H. D. Barrow has built a contrivance for raising his automobile wheels in his garage that is one of the best arrangements of the kind we can imagine. It is made of two parallel sills on which a roller is placed and kept in position by a cross piece at either end. Two pieces of timber fastened together are placed on top of the roller. When he runs the car into the garage the front axle strikes the timbers and the roller carries it along until the rear wheels are elevated, when the car comes to a stop. It will be worth the time of any auto owner to visit Mr. Barrow's garage and inspect the contrivance.

J. C. Evans was here from San Saba the first of the week looking after business matters and meeting with his friends. He and his family are held in high esteem by the people here and we would all be mighty glad if they would again make their home at this place.

L. O. Hicks & Son state they expect to move their grocery stock into the building occupied by the dry goods store as soon as Mr. Burck gives possession of the house.

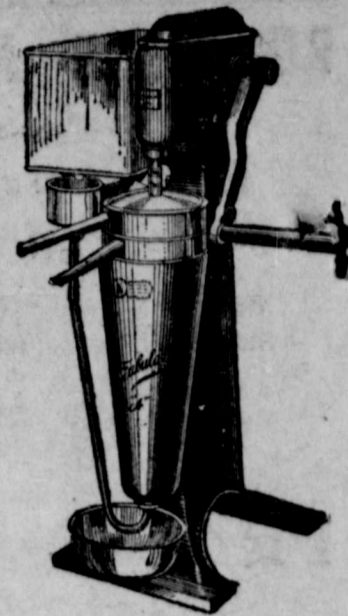

Thresher for Sale—A Case thresher, 28 inch cylinder, for sale at a bargain or will trade for stock. Apply to W. F. Hearne & Sons, Payne.

DESTRUCTIVE FIRES

Indian Gap and Pottsville Almost Wiped Off the Map.

Fire at Indian Gap Sunday at 2 o'clock destroyed the greater portion of the business section of the town. The losers by the fire, as far as the Eagle has been able to learn, are: The German-American bank, Mills County Hardware company, J. I. Mayfield, Monig Drug Co., Yarbrough Drug store, I. O. O. F. hall, W. O. W. hall and W. S. Barnes' residence. The fire is supposed to have been of incendiary origin, but it is not known here what grounds there are for the supposition. The combined insurance only amounted to \$6,000, while the loss totals \$10,000.

The business portion of Pottsville was almost completely destroyed by fire yesterday morning at 4 o'clock and this fire is also supposed to have been by incendiary. The total loss is estimated at \$12,000, with \$7,000 insurance. The losers in the Pottsville fire, as far as the Eagle has been able to learn are: Pottsville telephone exchange, Smitherman barbershop, H. E. Whittenton dry goods store, Postoffice, R. B. Koen grocery store, W. W. Moore dry goods store.

THE FOUNTAIN AT THE PANAMA-PACIFIC INTERNATIONAL EXPOSITION THAT SYMBOLIZES THE BUILDING OF THE PANAMA CANAL

The labor that went into the building of the Panama canal is symbolized in the Fountain of Energy, by A. Stirling Calder. This heroic sculpture stands in the center lagoon of the three lagoons of the South Gardens and faces the main entrance gates. The waters were first released on opening day, February 20, coincidentally with the opening of the portals of the exhibit palaces and by the same means: the electric spark transmitted across the continent when President Woodrow Wilson opened the great exposition at San Francisco by wireless.

The Santa Fe company has not yet made public the particulars relative to building the new depot, but it is known that arrangements are being perfected for the building

C. B. Mohler, the courteous and affable manager of the Rural telephone business here, has the Eagle's thanks for substantial favors this week.

A report from Austin says: "Unless Governor Ferguson changes his mind there will be a special session of the legislature. He stated tonight that he did not favor more than one special session and it is in anticipation of this end that he has postponed calling the special session until about May first. In that one special session Governor Ferguson will have the appropriation bill submitted and it is very likely that the proposed amendment to the Robertson insurance law and the one board plan may also be added subjects."
