DO IT NOW

If with pleasure you are viewing any work a man is doing,
If you like him or you love him, tell him now;
Don't withhold your approbation till the parson makes oration
As he lies with snowy lillies o'er his brow;
For, no matter how you shout it, he won't really care about it;
He won't know how many teardrops you have shed;
If you think some praise is due him, now's the time to slip it to him,
For he cannot read his tombstone when he's dead!
—Masonic Observer, Minneapolis.

Pay as you go. This is golden advice that will keep the business world moving, the wheels of industry from rusting out, and the money will surely come back to you. It should not be forgotten that the world is round. Stand the people all in a line and they will reach around the world, the last touching the first. Now pay your neighbor on the right the dollar you owe him and he will pay his neighbor on the right and so the dollar will travel until it will come around again to your hand from your neighbor on your left. Try it. We make no charge for this receipt for the hard times.—Ex.

When merchants and business men in a town patronize mail order houses, send away their money for printing and other things they use that can be done in town just as well, what can one expect of the plain people who are lured by the catalogue pictures and promises? If we expect to build a town we must pull together to discourage the mail order evil, which is daily growing even if we have to seemingly sacrifice a dollar or two to do so. The two dollars spent at home come back to us whereas the dollar seventy-five cents we may pay for the same article in the city, is gone forever and forever.—Cleburne Enterprise.

Senate Joint Resolution No. 3

A proposed amendment to the Constitution of the State of Texas, amending Article 5, Section 2 of the Constitution of said State, so as to provide that the Supreme Court of this State shall consist of a Chief Justice and four Associate Justices, describe their qualifications, tenure of office and compensation.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 2, of Article 5, of the Constitution of the State of Texas be amended so as to hereafter read as follows:

Section 3. The Supreme Court shall consist of Chief Justice and four Associate Justices, any three of whom shall constitute a quorum, and the concurrence of three judges shall be necessary to the decision of a case. No person shall be eligible to the office of Chief Justice or Associate Justice of the Supreme Court unless he be at the time of his election a citizen of the United States, and of this State, and unless he shall have attained the age of thirty years and shall have been a practicing lawyer or a Judge of a Court, or such lawyer and judge together, at least seven years. Said Chief Justice and Associate Justices shall be elected by the qualified voters of the State at a general election, shall hold their offices six years, or until their successors are elected and qualified and shall each receive an annual salary of five thousand dollars until otherwise provided by law. In case of a vacancy in the office of Chief Justice of the Supreme Court, the Governor shall fill the vacancy until the next general election for said officers; and at such general election the vacancy for the unexpired term shall be filled by election by the qualified voters of the State. The Judges of the Supreme Court who may be in office at the time this amendment takes effect shall continue in office until the expiration of their term of office under the present Constitution, and until their successors are elected and qualified.

Immediately after the adoption of this amendment the Governor of this State shall call an election for the purpose of electing two Associate Justices of the Supreme Court, one of whom shall, when elected, hold said office for four years and one of whom, when elected, shall hold said office for six years, and the question of which of them shall hold for four years and which of them hold for six years shall be determined by lot, as now provided by law.

Sec. 2. The Governor of this State is hereby directed to issue the necessary proclamation, ordering an election to determine whether or not said Constitution amendments will be adopted, and have the same published, as required by the Constitution and the laws of this State. Said election shall be held on the fourth Saturday in July, 1915, and the sum of Five Thousand Dollars (\$5,000.00), or so much thereof as necessary, is hereby appropriated from any fund in the State Treasury not otherwise appropriated to defray the expenses of printing said proclamation and of holding said election.

Prof. C. G. Hallmark has been re-elected superintendent of the Kenedy schools, the appointment being made at a recent meeting of the school board and for a period of two years. The work of Supt. In connection with his school work Prof. Hallmark finds time to take part in the commercial affairs of the town and is a great believer in the development of the many resources of this section. DENTON NORMAL NOTES

Editor Eagle:

An unusual number of interesting events have taken place at the North Texas Normal college recently.

On April 1 and 2 the Normal was hostess for the Texas Inter Collegiate Press Association. Representatives were present from a large number of and leading colleges and universities of the State. Complimentary to the visitors, a reception was given by the Junior class in Domestic Science on the afternoon of the first; a reading by Mrs. R. A. Cooke of Dallas was given the same evening, and on the following afternoon, the city of Denton tendered the Association an automobile drive over the city, ending with a brief visit at the College of Industrial Arts where refreshments were served. The programs of the association were interesting and instructive. Among the principal speakers were Mr. E. B. Bentley, of T. C. U., President F. M. Bralley of C. I. A.

Following last year's precedent, a minstrel show was given on April 1 for the benefit of the Athletic association. The play was an original production by local talent and represented a conference of the belligerent nations, with minstrel features very cleverly introduced.

On the evening of the 10th annual debate with our sister Normals took place. This is regarded as one of the most interesting occasions of the college year, and never fails to arouse much school spirit. The enthusiasm was unusually great this year because of a double victory, which gives our school the enviable record of three successive double victories. The affirmative side of the question "Resolved, That the Monroe doctrine should be abandoned" was represented by Phil Peters and W. B. Ferguson, against San Marcos, this debate being held in Denton; the negative by B. F. Lowrie and W. F. Millam against Sam Houston, the debate taking place at Huntsville.

We are now looking forward to April 21, which we have grown to regard as Field Day in our college. This is the day which we give to athletics, contests of all sorts concluding with a base ball game.

Our base ball team has been doing fairly good work this spring. Their first victory of especial note was a 3 to 1 score in a game with Decatur Baptist College on April 12th.

The girls of the Camp Fire organizations are enjoying their rural tramps, especially since the coming of spring. The Wohelo Camp enjoyed sunrise breakfast at the city park last Monday morning.

The young Women's Christian association will have their vesper service on the lawn Saturday afternoon. Following this an informal reception will be given in honor of the new members. MABLE SULLIVAN.

Why I Should Use A One-Seed-Drop "Mr. Bill" Planter?

BECAUSE:

FIRST: I can plant my seed in a straight row, which will enable me to do chopping or thinning with a saving of at least one-half over the old way.

SECOND: It insures me more healthy plants, because they are not crowded so badly in the row.

THIRD: I save from Twenty-five Cents to One Dollar per acre in good seed from the fact that I do not have to plant sixteen stands as I did in using the old style drop; and yet if I wish I can plant as much as I did in the old way.

House Joint Resolution No. 9.

A Joint resolution to amend Article 7 of the Constitution of the State of Texas, by adding thereto Section 3b, authorizing the Legislature to provide by law for the creation of a student's loan fund in each county in connection with the public schools thereof.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Article 7 of the Constitution of the State of Texas be amended by adding thereto a new section to be known as section 3b, which shall read and be as follows, to-wit:

Sec. 3b. The Commissioners' Court of each county in this State shall have the power, and is hereby authorized, when a majority of the qualified voters of such county shall vote to create such fund, to create a fund to be known as a "Students' Loan Fund," for the purpose of enabling students of the public free schools of said county to borrow money to be used in their education for the purpose of graduating from the county public schools and after graduation to continue their education in any higher State institution of learning, such fund to be created and administered by the Commissioners' Court of each county as may be provided by law.

Sec. 2. And the Legislature may authorize an additional ad valorem tax to be levied and collected within such county for the purpose of raising said students' loan fund, said tax not to exceed in any one year twenty cents (20c) on the one hundred dollars (\$100.00) valuation of the property subject to taxation in each county; provided, that a majority of the qualified tax paying voters of the county voting at an election to be held for that purpose shall vote such tax. Provided, that if the tax is adopted, after it has been enforced for two years, an election may be held, on the order of the commissioners' court to determine whether or not said tax shall be repealed; and provided, further, that it shall be the duty of the Commissioners' Court to order such election upon a petition so to do by twenty-five per cent of the qualified tax paying voters of the county.

RHEUMATISM YIELDS QUICKLY TO SLOAN'S

You can't prevent an attack of Rheumatism from coming on, but you can stop it almost immediately. Sloan's Liniment gently applied to the sore joint or muscle penetrates in a few minutes to the inflamed spot that causes the pain. It soothes the hot, tender, swollen feeling and in a very short time brings a relief that is almost unbelievable until you experience it. Get a bottle of Sloan's Liniment for 25c of any Druggist and have it in the house against Colds, Sore and Swollen Joints, Lumbago, Sciatica and like ailments. Your money back if not satisfied, but it does give almost instant relief. (adv.)

Plaintiffs further say that the exact nature, extent and character of the defendants claim to the above described tracts of land is unknown to them, and pray for judgment for the title and possession of the said land, and that they be quieted in the possession thereof, etc.

Herein fail not, but have before the said Court on the first day of the next term thereof this writ with your return thereon showing how you have executed the same.

House Joint Resolution No. 4.

A joint resolution of the Legislature of the State of Texas proposing and submitting to a vote of the people of Texas an amendment to section 9, Article 8, of the Constitution, authorizing the levy and collection of a special road tax not to exceed fifty cents on the one hundred dollars of valuation of property in any county, subdivision or subdivisions, or defined district thereof, when same has been authorized by a majority of the qualified electors voting at an election held for that purpose, and making an appropriation for carrying out the provisions of this resolution.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 9, Article 8, of the Constitution of the State of Texas be amended so as to hereafter read as follows, to-wit:

Section 9. The State tax on property, exclusive of the tax necessary to pay the public debt, and of the taxes provided for the benefit of the public free schools shall never exceed thirty-five cents on the one hundred dollars valuation; and no county, city or town shall levy more than twenty-five cents for city or county purposes, and not exceeding fifteen cents for roads and bridges, and not exceeding fifteen cents to pay jurors, on the one hundred dollar valuation, except for the payment of debts incurred prior to the adoption of the amendment, September 25, 1893, and for the erection of public buildings, streets, sewers, water works and other permanent improvements, not to exceed one dollar on the one hundred dollars valuation in any one year, and except as is in this Constitution otherwise provided; and the Legislature may also authorize an additional annual ad valorem tax to be levied and collected for the further building and maintenance of the public roads; provided, that a majority of the qualified property tax paying voters of the county or of any political subdivision or subdivisions of the county, or of any defined district now or hereafter to be described and defined within any county, who has been assessed a property tax and paid said tax for the next year prior to the time he offers to vote, voting at an election held for that purpose, shall vote such tax, not to exceed fifty cents on the one hundred dollars valuation of property subject to taxation in such county, political subdivision or subdivisions, or described or defined district. And the Legislature may pass local laws for the maintenance of the public roads and highways, without the local notice required for special or local laws.

Sec. 2. The foregoing amendment to Section 9, Article 8, of the Constitution of Texas shall be submitted to the qualified electors of this state for adoption or rejection at an election to be held on the fourth Saturday in the month of July, 1915. All voters on this proposed amendment at said election who favor its adoption shall have printed or written on their ballots the following: "For amendment to Section 9, Article 8, of the Constitution, authorizing the levy and collection of a special road tax not to exceed fifty cents on the one hundred dollars valuation of property in any county, subdivision or subdivisions, or defined district thereof, when same has been authorized by a majority of the qualified electors at an election held for that purpose." Those voting against its adoption shall have written or printed on their ballots the following: "Against the amendment to Section 9, Article 8, of the Constitution, authorizing the levy and collection of a special road tax not to exceed fifty cents on the one hundred dollars valuation of property in any county, subdivision or subdivisions, or defined district thereof, when same has been authorized by a majority of the qualified electors at an election held for that purpose."

Sec. 3. The Governor of the State is hereby directed to issue his necessary proclamation ordering this election, and have same published as required by the Constitution and laws of this State. The sum of five thousand dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the State Treasury not otherwise ap-

propriated to defray the expenses of publishing and proclamation and printing of tickets and necessary blanks to use in said election.

LOOKING GOOD

"Things are looking mighty good!" Buds are bursting into blossoms, seeds are sprouting in the ground, and the farmer boy is whistling as he makes his usual round; in the glen he hears the chorus of his feathered songsters sweet, and he knows soon comes the harvest, and there'll be good things to eat for the millions of earth's hungry grown in our own country great. Those with courage and good judgment have forgot the hard times howl, and a smile now wreathes their faces; in fact they never wear a scowl, for they have the grit that does things at a time it helps the most—no occasion is neglected, no opportunity is lost. They're the men who build great cities, and promote the common weal, while the fearful and the halting still hold back and whine and squeal 'bout "hard times," also "tight money" and a hundred foolish things, while the man with nerve and "get there" goes about his work and sings of the good times now before us and still better now at hand. Grab a horn and go to blowing—"hump yourself to beat the band and you soon will find a difference—you'll see glory in this land; in this land of milk and honey where the people are the best, and the pessimist and groucher never find a moment's rest, but the booster and the builder now and ever shall be blest. Things are better, and you know it lest you have a head of wood—yes, you know as well as we do—Things are looking mighty good!"

Opportunity is waiting; it's now knocking at your door. If you halt you're taking chances; it may not come any more at a time you could improve it like the present—do it now. If you show the proper spirit fate will to your courage bow. Go right to it and "Raus mit 'em!" Let the other fellow sit, burning daylight, simply waiting while his business chances flit by like birds on wing at sunset making for their woodland home. You must up and do the business. Why should chances ever come if you hold back trembling, fearing, looking blue and feeling bum?" Don't postpone the time for starting—this "manana" stuff won't go; it's the refuge of the slug-gard, and a thing you should not know. Now's the time to put your shoulders to the wheel and give a push; soon the stream of trade will quicken and go forward with a rush. Even now the current's moving; you can see it if you would. Don't refuse to join the movement—things are looking mighty good.—Dallas News.

ACCIDENTALLY POISONED

Messrs, Hugh, Moore, Otis and Alvin Carothers were accidentally poisoned Tuesday at noon at the home of Capt. S. M. Carothers at San Saba Peak, where some of them had been "batching." After eating dinner they all became sick and for a time it was feared there would be serious results, but physicians were summoned and after twelve hours of careful attention they were all reported to be out of danger.

It is not known how the poison came to be in the food, but as soon as the men felt the effect of the poison they gave some of the bread to a cat and the animal became violently sick immediately, proving conclusively that the poison was in the bread. The indications were of strychnine, but no poison of any kind had been about the place, as far as any of the occupants knew. The scrapings from the bread tray have been sent away for analysis and it is likely some definite conclusion can be reached relative to the accident when the chemist makes the analysis. The men are all getting along nicely and will soon be fully recovered.

W. J. Conner of Browns creek community tells of a mesquite tree which he planted in Bexar county twenty-four years ago. He set a post in the ground at that time and it is now a tree 18 inches in diameter and some of its branches are extremely long for a tree of that kind.

Good rains have fallen in this county this week and there is now mighty little doubt about the grain crop. Perhaps another rain will be needed before the grain ripens, but with the present season in the ground we are assured a good grain crop and the corn will make great headway, while cotton will be fine as a result of the rains of the past week. There was some hail, but very little damage was done, except in a small section where fruit and gardens were damaged considerably.

Several of the convicted election defrauders of Terre Haute, Ind., have been placed in the federal prison at Leavenworth, Kas., and others are to follow. The mayor of the city was one of the gang and received a sentence of six years and was fined \$2000 in addition.

The supreme court of the United States decided against Leo M. Frank, the Jew convicted in Atlanta, Ga., for the murder of a girl who was employed in the pencil factory where he was superintendent. The fight will be continued in his behalf to the extent of appealing to the president, since many believe the man innocent.

The trial of ex-county judge Frye of Young county together with his brother and two other parties charged with murder resulted in a verdict of acquittal at Wichita Falls last Saturday, the case having been transferred there from Young county on a change of venue. The case grew out of a shooting at the court house in Graham some months ago.

Cotton quotations have been going steadily up for some time and reached the high market of the season last Saturday, when Houston and Galveston quoted 10 cents per pound, middling basis. This increase will benefit the farmers some, as quite a lot of cotton is still in the hands of the producers, but it will also have a tendency to increase the cotton acreage.

Courtesy is a virtue which is becoming to a mendicant as to a sovereign. It is the grace which wins love and friendship, which gains concessions for the one who practices the art. Courtesy is a virtue which one cannot put on for special occasions, it must be worn as an every-day garment, must be a part of the one who would use it as a stock in trade to gain happiness, the one great aim of every life.—Hamilton Record.

Hon. Cone Johnson, solicitor general for the state department of the federal government, was in Texas for several days and in an interview in Dallas Saturday stated he believed the European war would come to an end by the fall season; that all sides would be exhausted by that time, both as to men and supplies, and the inference would be that he expected the outcome to be a "dog fall." Mr. Johnson is in better position to judge of the matter than almost any other man in this country, as he deals directly with the countries involved in the war, having compiled the state papers in cases involving the neutrality of this country and necessarily knows of the conditions and opinions existing in those countries.

In a statement published over his signature in answer to criticisms over his lecture engagements, Col. Wm. J. Bryan gives reason to believe that he expects the terrible war in Europe to end at no far distant day. He says he lectures to secure funds with which to meet his expenses that cannot be met by the salary attached to the office he holds and shows that he has taken less than half of the time allowed government employees for vacation during each of the years he has been a member of the president's cabinet. He says in part: "The Mexican situation kept me at the department during the summer of 1913 and the European situation during the summer of 1914. It is not, however, unreasonable to hope that normal conditions may be restored before my term expires, and that I may be permitted to indulge in the relaxation which rules contempt late—and I find both relaxation and inspiration, as well as additions to my income in meeting the people face to face, in talking to them about matters which I deem of importance, and in drawing from them the strength and encouragement which association with the people alone can give."

PICKENS SPRINGS NEWS.

Editor Eagle:

Here I come again, the same Dish Washer in the same blundering way and if the waste basket is pushed out of my way will say:

Everybody seems to be enjoying the nice spring days.

Last week's warm sunshine and the return of the song bird leads us to the conclusion that Jack Frost has bid us "adieu" for a short season and Mother Snow has gone on her vacation to the north.

Bro. Vann filled his appointment at this place Sunday.

D. D. Kemper and family, also Rev. Hunt and wife of Mullin were welcome guests of our Sunday school Sunday.

Willie Garner of the Trigger Mountain was the driver of a new car down to this place Sunday. Mr. Garner is one of our Sunday school teachers and is almost like home folks to us people down here.

Quite a crowd enjoyed a picnic at the school house Friday, that being the close of school. Miss Willie Watson, our faithful teacher, returned to her home in Mullin Friday afternoon with many invitations to visit with us people again.

Floyd Burkett and wife also Jerry Davis and wife were guests at the Petty home Sunday.

Miss Mary Petty visited in the Duren community Saturday.

Miss Pearl Malone of Goldthwaite was visiting in our midst Sunday.

Miss Katie Harmon spent Sunday with Misses Dovie and Lillie Wrinkle. Miss Etta Goodwin was one of the out of town guests who met with the Mullin Embroidery and Crochet club at the Curtis home Thursday afternoon.

Mrs. Verna Williams was a Mullin visitor Saturday.

Miss Oma Smith was one of Goldthwaite's pleasant visitors Thursday.

Well, Star Reporter, no doubt Star is a beautiful scene and of course Miss Joan isn't giving us a false mental picture of Pompey Creek and am sure both of you live on beautiful scenes.

Many thanks to you writers for your invitations to write again.

My, but won't we all enjoy Billie's letter when he returns from Europe, but mamma said she thought it an act of impoliteness for me to invite him back to the band of Eagle writers, and as Miss Joan has said she and Billie were acquaintances of long past and by gone days we will ask that she, through the Eagle's columns, give Billie a cordial invitation to join our band of jolly writers again.

I also wish to express to Miss Joan my many thanks for her sincere sympathy for me "the so solemnly rejected Dish Washer", and also are my many thanks extended o'er the Plainview road to Miss Kate for her assistance and Miss Kate should you ever get into such a tight place and feeling you haven't hardly room to back out, Mother's Dish Washer will in her blundering way, "lend her aid."

By giving my best wishes to Miss Dupli-Kate and the courteous De-Billie, I will say adieu. I am the unfortunate

MOTHER'S DISH WASHER.

COLOR OF MAN'S HAIR CHANGED

An incident considered most remarkable occurred to Merchant Mack Stewart within the last two days. Mr. Stewart is a man some forty-five years of age and had perfectly black hair, except slightly streaked with grey in the temples. Within the last two days his black hair has turned perfectly red or what is termed auburn, the grey streaks remaining as before.

Mr. Stewart was for many years employed in railroading and he asserts that during Wednesday night he had a very vivid dream of again being in the railroad service and clambering along on the top of a string of cars in motion, that suddenly in the dream the train entered a bridge or stone tunnel and that the top of this entrance struck him, crushing his skull. The vividness of the dream caused him to awaken in a startled and much excited manner and he says his head pained fearfully. The following morning his hair had begun to turn a red color and by this morning it had completely changed to a bright golden.—Dublin Progress.

HAMILTON
Rev. Turner, pastor of the Baptist church, informs us that they have engaged Rev. F. S. Groner of Waco to conduct a revival in Hamilton beginning the fourth Sunday in May. An evangelistic singer will be secured to help in the meeting.

Monday night at the Misener Hotel a farewell reception was held by the doctors of Hamilton and their wives to express the regard and esteem in which Dr. W. B. Everett and family who leave this week for Sterling City, their future home, are held by the medical fraternity here.

Joe Poston lost his barn and all its contents, valued at \$1800, by fire Saturday night. The fire was discovered by Mr. and Mrs. Poston at about the same time, the light shining in at their west window waking them from their slumbers about 12 o'clock. As they live over a mile from town there was no chance for the fire company to do anything after the alarm was given. Mr. Poston not only lost his barn but he lost eight or ten sets of harness, a surry, a buggy, a Ford automobile nearly new, about 100 bushels of oats 50 bushels of corn and 50 bales of hay.

Mr. M. H. Wolfe of Dallas preached three strong sermons at the Baptist church Sunday. He is a successful business man and is deeply interested in the affairs of his church Sunday afternoon he addressed his remarks more especially to men, though there were quite as many ladies in the audience as gentlemen. His talk was for the most part practical and set forth the duty every man owes to use his talents and means for the upbuilding of religion and the salvation of mankind. He declared that it was the lives of men that he was especially interested in saving, and he was not concerning himself so much for the salvation of souls; therefore he appealed to them to devote their lives to God's service.—Herald.

Fruit growers in this section of the country say that, though a little short we have excellent prospects for a good crop.

The home of Mr. and Mrs. W. C. Odom was almost entirely destroyed by fire early last Tuesday morning. The fire caught from a defective flue in the ceiling of the house and had gained considerable headway before it was discovered.

Mrs. P. T. Willis, who came here two weeks ago from Priddy, died at the home of her sister, Mrs. R. A. Slack, Wednesday night, and her remains were carried to her home where funeral services were held at Priddy Thursday afternoon.

Tuesday night the Marketing Association shipped four cars of hogs on a special train to St. Louis. Members of the association decided that they would be able to get a better price for their hogs on the St. Louis markets than they had been getting at Fort Worth, so the last shipment was sent there.—Chief.

Uncle Columbus Townsen was here the first of the week on a visit to his nephew, Dr. J. B. Townsen, and family.

The Reporter is informed by Will Sprull that Oil Expert Davidson will be in Lometa within the next ten days for the purpose of inspecting the country and with a probable view of operating in this vicinity for oil.

W. P. Holland, a brother of Mrs. J. J. Connell, came in Saturday night from Roswell, N. M., and will remain here until next Wednesday when he will return to his home, accompanied by Mrs. Connell and children who for a time will make their home there.

Wm. Blair, of Tulsa, Oklahoma, was here this week to receive something over 2000 head of cattle recently purchased of A. A. Hufstutler. The cattle were known as the Bryson and Barker steers, and were dipped Monday preparatory to being shipped to Oklahoma.—Reporter.

BROWNWOOD

J. M. Sandlin, claim agent for the Santa Fe here, has returned from Eastland, where he spent a few days awaiting developments in the conditions of C. B. Poe, who was injured by Dan Sandlin in a difficulty near Carbon Friday. Poe was badly hurt when Sandlin struck him in the head with a hammer.

County Attorney Ed Wilson and Attorney Mark McGee spent Saturday in May prosecuting a case in justice W. H. Campbell's court. The case was an interesting one, and resulted in conviction. The complaint was made under the state law prohibiting fishing or other trespassing on enclosures of land of less than two thousand acres. This law provides that such trespassing is a violation of law whether such enclosures are posted or not; on tracts larger than two thousand acres it is necessary to post notices prohibiting trespassing.

The will of the late Mrs. Mattie R. Coggin, has been probated, and the inventory of property was filed with County Clerk Byrd Saturday afternoon. The inventory was made by the executor, Judge Poindexter of Cleburne, and by Will A. Bell and R. D. McClelland, appointed by the court for that purpose. The total value of the estate is approximately \$284,160.00. Of this amount approximately \$119,950 is in real estate, the bulk of it in Brown county; personal property amounts to approximately \$79,312, of which \$55,800 is stock in the Coggin National Bank, and a large part of the remainder is stock in various corporations in Brownwood and elsewhere; approximately \$85,000 of the remainder is in claims of the estate, in the form of promissory notes maturing at various times, with various interests, credits and debits which will change this total to some extent.—Bulletin.

A joint resolution proposing an amendment to Article 7, Section 10, 11, 12, 13, 14 and 15 of the Constitution of the State of Texas, providing for the establishment and separate maintenance of the University of Texas and fixing its permanent location in Travis county, providing for the permanent location of the medical branch of the University of Texas in Galveston County; providing for the establishment and maintenance of the Agricultural and Mechanical College of Texas as an independent college, and providing for its permanent location in Brazos county; providing for the establishment and separate maintenance of the College of Industrial Arts and fixing its permanent location in Denton County; authorizing the establishment of junior agricultural colleges subsidiary to and under the government of the Agricultural and Mechanical College Board; establishing the Prairie View State Normal and Industrial College, and declaring it a branch of Agricultural and Mechanical College, and fixing its permanent location at Prairie View, in Waller County; making an equitable division of the State permanent endowment fund between the University of Texas, the Agricultural and Mechanical College of Texas and the Prairie View State Normal and Industrial College; making an appropriation to defray the expenses of advertising the Governor's proclamation and submitting same to a vote of the people.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 10, 11, 12, 13, 14 and 15, Article 7, of the Constitution of Texas, be amended so as to hereafter read as follows:

Section 10. The University of Texas is hereby established and permanently located in Travis County, and shall be a university of the first class. The Legislature shall provide for its organization and for its development, maintenance and permanent improvement shall make by appropriation and otherwise such provision as may be necessary for the promotion of literature and the arts and sciences, pure and applied, in a university of the first class. The affairs of the University of Texas shall be administered by its own governing board as provided by law. The present members of the board shall continue in office until the expiration of their respective terms. The location herein made of the University of Texas shall in no way affect the location of the medical branch thereof situated in Galveston County.

Sec. 11. All lands and other property granted by the Republic of State of Texas to the University of Texas, or the University of Texas and its branches, except the lands transferred by Section 13 of this Article to the Agricultural and Mechanical College of Texas, and to the Prairie View State Normal and Industrial College, shall together with the proceeds of the sale of such lands, constitute the permanent university fund. All the income derived therefrom shall be the available fund, and shall be applied to the support and development of the University of Texas and to meet its obligations. The proceeds from the sale of University lands shall be invested as authorized by law for the investment of the permanent school fund. The one-tenth of the alternate sections of lands granted to railroads, reserved by the State which was set apart and appropriated to the establishment of the University of Texas by an act of the Legislature of February 11, 1858, entitled "An Act to establish the University of Texas" shall not be included in or constitute a part of the permanent university fund.

Sec. 12. The Agricultural and Mechanical College of Texas is hereby established and permanently located in Brazos County and separated from the University of Texas and constituted an independent college. The Legislature shall provide for the organization of said college and for its development, maintenance and permanent improvement, shall make by appropriation and otherwise such provision as may be necessary to accomplish the purpose of said institution, which, without excluding classical and cultural studies, shall be to teach and develop those branches of learn-

ing which relate to agriculture and the natural sciences connected therewith, the various branches of engineering, the mechanical arts and military sciences and tactics. The affairs of the Agricultural and Mechanical College shall be administered by its own governing board as provided by law. The present members of the board shall continue in office until the expiration of their respective terms. The Prairie View State Normal and Industrial College for Colored Youths is hereby established and its government and control shall continue under the governing board of the Agricultural and Mechanical College of Texas. Provided the Legislature may establish junior agricultural colleges subsidiary to the Agricultural and Mechanical College and under the control of the Agricultural and Mechanical College Board.

Sec. 13. Of the land heretofore set apart to the University and to the University and its branches by the State of Texas, and remaining unsold, there are hereby transferred to and made a part of the permanent fund of the Agricultural and Mechanical College of Texas six hundred thousand acres of land of average value; there are hereby transferred as a permanent fund to the Prairie View State Normal and Industrial College one hundred and fifty thousand acres of land of average value; and all of the remainder of the said land shall constitute a part of the permanent fund of the University of Texas. The Legislature shall provide for the division of the land as specified herein. The land herein set apart to the University, the Agricultural and Mechanical College of Texas and the Prairie View State Normal and Industrial College may be sold under such regulations, at such times and on such terms as may be prescribed by law. The Legislature shall provide for the prompt collection, at maturity of all debts due on account of the sale of said lands, and in no event shall any relief be granted to any purchaser.

Sec. 14. All lands and other property heretofore granted or herein granted to the Agricultural and Mechanical College, together with the proceeds of the sale of such lands, shall constitute its permanent fund. All the income derived therefrom shall be the available fund and shall be applied to the support and development of the Agricultural and Mechanical College and to meet its obligations. The proceeds from the sale of the Agricultural and Mechanical College lands shall be invested as authorized by law for the investment of the permanent school fund.

Sec. 15. The College of Industrial Arts for White Girls located at Denton, in Denton County, Texas, is hereby established and recognized as an independent college, and the Legislature shall provide for its organization, maintenance, development and permanent improvement and shall make, by appropriation and otherwise, such provision in addition to that heretofore made as may be necessary for the establishment and maintenance of a first class college, for the education of white girls in the literary branches, the arts and sciences and the practical industries of the age. The college shall have its own governing board, which shall designate the officers of administration and instruction, and other employees, determine their salaries, establish departments, subdivisions, libraries and laboratories and other agencies of education consistent with the objects of the college and perform such other duties as the Legislature may prescribe.

Sec. 2. The Governor of this State is hereby directed to issue the necessary proclamation and have same published as required by the Constitution and the laws of this State. The sum of five thousand (\$5,000) dollars, or so much thereof as may be necessary, is hereby appropriated to defray the expenses of publishing said proclamation and the expenses of submitting this resolution to a vote of the people.

Sec. 3. The foregoing amendment to Article 7, Sections 10, 11, 12, 13, 14 and 15 of the Constitution of the State of Texas, shall be submitted to the qualified electors of this State for its adoption or rejection at an election to be held on the fourth Saturday in July, A. APRIL SHOWERS BRING MAY FLOWERS

No more certainly that bank deposits bring the flowers of business happiness.

Have you ever stopped to think that the habit of setting aside a part of your income and entrusting it to a bank, there to thrive and increase, is watering the soil of the future years so that they will be productive of the good things of life, instead of a barren waste?

April is a month of promise, but always REMEMBER that the chill of December is coming.

A Deposit account with our Bank will temper the chill and make your future bright and prosperous.

House Joint Resolution No. 1, a joint resolution proposing an amendment to Section 2, of Article 6, of the Constitution of the State of Texas, by adding thereto a provision authorizing a qualified voter to vote for State Officers, or on any proposition submitted to the voters of this State in a precinct other than the precinct of his residence under certain conditions, and making an appropriation therefor.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 2, of Article 6, of the Constitution of the State of Texas be so amended as to hereafter read as follows:

Sec. 2. Every male person subject to none of the foregoing disqualifications, who shall have attained the age of twenty-one years, and who shall be a citizen of the United States, and who shall have resided in this State one year next preceding an election, and the last six months within the district or county in which he offers to vote, shall be deemed a qualified elector, and every male person of foreign birth, subject to none of the foregoing disqualifications, who shall have become a citizen of the United States in accordance with the Federal naturalization laws, and shall have resided in this State one year next preceding such election and the last six months in the county in which he offers to vote, shall also be deemed a qualified elector; and all electors shall vote in the election precinct of their residence; provided, that electors living in any unorganized county may vote at any election precinct in the county to which such county is attached for judicial purposes; and providing further, that any voter who is subject to pay a poll tax under the laws of the State of Texas shall have paid said tax before he offers to vote at any election in this State, and holds a receipt showing his poll tax paid before the first day of February next preceding such election. Or, if said voter shall have lost, or misplaced said tax receipt, he shall be entitled to vote upon making affidavit before any officer authorized to administer oaths that such tax receipt has been lost. Such affidavit shall be made

in writing and left with the judge of the election. If any qualified voter in this state shall have personally paid his poll tax in the county and precinct of his residence, or secured an exemption certificate showing that he is exempt from paying a poll tax, he shall be permitted to vote in the county in which he may be on election day on any proposition, which may have been submitted to the voters of the entire State, and for any office to be filled by the voters of the entire State; also for members of either branch of the Legislature and Congress and judicial officials; provided, no voter shall vote for members of either branch of the Legislature, Congress, or judicial officials outside of the legislative, congressional or judicial district of such voter's residence, and nothing hereina shall permit a voter to vote at any place other than his residence, if he be within the county of his residence on election day. Any person offering to vote in any county other than the county of his residence shall deliver to the election managers his poll tax receipt or exemption certificate, who shall retain same until the following day and then mail same to the person depositing same to any address he may name; and in addition to depositing the poll tax receipt or exemption certificate, such person so offering to vote shall make an affidavit:

(1) That he is absent from home, and it will be impossible for him to return to the precinct of his residence in time to vote; (2) that he has not voted at any other election precinct on that day, and will not offer to vote at any other precinct in this State; (3) that he personally paid his poll tax within the time provided by law, or personally secured the certificate of his exemption from the payment of a poll tax.

Sec. 3. The foregoing constitutional amendment shall be submitted to a vote of the qualified electors for members of the Legislature at an election to be held throughout the State of Texas on the fourth Saturday in July, 1915, the same being the twenty-fourth day of July, 1915, and the Governor of this State is hereby directed to issue the necessary proclamation for said election,

and to have same published, as required by the Constitution and laws of this State. Those favoring the amendment shall have written or printed on their ballots the words: "For amendment to Section 2, of Article 6, of the Constitution, authorizing qualified voters to vote in precincts other than the precinct of their residence under certain conditions." Those opposing the amendment shall have written or printed on their ballots the words: "Against amendment to Section 2, of Article 6, of the Constitution, authorizing qualified voters to vote in precincts other than the precinct of their residence under certain conditions."

Sec. 4. No legislation shall be necessary to put into effect this article of the Constitution, but when adopted same shall be self-enacting.

Sec. 5. The sum of five thousand (\$5,000.00) dollars, or so much thereof as may be necessary, is hereby appropriated out of any funds in the State Treasury not otherwise appropriated, to defray the expenses of such proclamation, publication and election.

Senate Joint Resolution No. 18

A Joint Resolution proposing and submitting to a vote of the people of Texas an amendment to Section 52 of Article 3 of the Constitution, authorizing the issuance of bonds for public improvements, and levying of a tax to pay the interest and sinking fund on same, and for maintenance.

Be it resolved by the Legislature of the State of Texas:

Section 1. That Section 52, of Article 3, of the Constitution of the State of Texas be amended so as hereafter to read as follows, to-wit:

Section 52. The Legislature shall have no power to authorize any county, city, town or other political corporation or subdivision of the State, to lend its credit or to grant public money or thing of value in aid of, or to, any individual, association or corporation whatsoever, or to become a stockholder in such corporation, association or company, provided, however, that under legislative provision any county, any political subdivision of a county, or any defined district now or hereafter to be described and defined within the State of Texas and which may or may not include towns, villages, or municipal corporations, upon a vote of two-thirds majority of the resident property tax payers voting thereon who are qualified electors of such district or territory to be affected thereby, in addition to all other debts may issue bonds or otherwise lend its credit in any amount not to exceed one-fourth of the assessed valuation of the real property of such district or territory; except that the total bonded indebtedness of any city or town shall never exceed the limits imposed by other provisions of this constitution; and levy and collect such taxes to pay the interest thereon and provide a sinking fund for the redemption thereof as the Legislature may authorize, and in such manner as it may authorize the same, for the following purposes, to-wit:

(a) The improvement of rivers, creeks and streams to prevent overflows, and to permit of navigation thereof, or irrigation therefrom, or in aid of such purposes.

(b) The construction and maintenance of pools, lakes, reservoirs, dams, canals and waterways for the purposes of irrigation, drainage or navigation, or in aid thereof.

(c) The construction, maintenance and operation of macadamized, graveled or paved roads and turnpikes, or in aid thereof.

Provided, however, that under legislative enactment any defined district now or hereafter to be described and defined within the State of Texas, which may be formed for the purpose of reclaiming and improving overflowed and swamp lands in this State and maintaining the improvements thereof, may, upon vote of two-thirds majority of the resident property tax payers voting thereon who are qualified electors of such district or territory, in addition to all other debts, issue bonds or otherwise lend its credit in any amount not to exceed fifty per cent of the assessed valuation of the real property in such district or territory.

Provided, further, that where a county, district or other political subdivision has issued bonds for improvements for the purposes named in this Section, the Legislature may authorize the levy and collection of taxes for the maintenance of such improvements, not to exceed fifty cents on the hundred dollars valuation in any one year.

Sec. 2. The foregoing amendment of Section 52 of Article 3, of the Constitution of Texas, shall be submitted to the qualified electors of this State for its adoption or rejection, at a special election hereby ordered for the Fourth Saturday in July, A. D. 1915, the same being the 24th day of said month. All voters on this proposed amendment at said election who favor its adoption shall have printed or written on their ballots the following: "For amendment of Section 52 of Article 3, of the Constitution, authorizing the issuance of bonds for levee, drainage, road and other public improvements, and for taxes therefor," these voting against its adoption shall have printed or written on their ballots the following: "Against the amendment of Section 52 of Article 3 of the Constitution, authorizing the issuance of bonds for levee, drainage, road and other improvements, and for taxes therefor."

WHO PAYS THE FREIGHT

Editor Eagle:

A question of importance to the ginners and farmers of Texas is House Bill No. 4, as passed by the second called session of the thirty-third Texas legislature, known as the permanent warehouse and marketing law. Sec. 4 says: "All public gins shall be charged with a public use, shall be required to obtain a license and give bond in the sum of \$1.00 for each bale ginned by said gin the next preceding season, provided in no event shall a bond of more than \$2,500.00 be required of any one, for each gin he may own. The conditions and obligations in the bond shall be that the cotton taken from each bale is true, fair and correct samples of the cotton in the bale, that the cotton has been carefully ginned, that no foreign matter or substance nor has any water or anything that would increase the weight thereof been placed therein during the process of ginning or thereafter while said cotton was in the possession of the ginner. And that all gins separate the dirt from the seed, (smells of oil).

Sec. 5 says: "Each licensed and bonded ginner under this act shall take from each bale of cotton ginned by him three fair, true and correct samples of cotton weighing not more than 5 1.3 ounces each, placing them in separate receptacles and seal the same so that they may not be opened except by cutting, one of which to be kept the other two to be delivered to the owner. Samples to bear a certificate under the signature of the ginner, that said samples are true, correct and fair, that the owner and the ginner's names and the name of the person on whose land the cotton was raised and the number and weight of the bale at the gin.

Sec. 6 "Each and every bale ginned by a public gin shall be wrapped in bagging so as to completely cover same and leave none of the cotton exposed.

We as ginners do not object to any law that would help the cotton farmer, for he is always willing to pay for what he gets and we would cease to exist, if it was not for him. There is not one word in the law

that will prohibit the cotton buyer from sampling the cotton as heretofore. He can cut it between every tie if he so desires. Not a thing to keep him from it. They do and will cut your cotton between every tie, so what's the use to pay for this extra wrapping?

Then suppose Mr. Farmer takes the little 5 1.3 oz. samples of half dozen bales to the buyers and four or five of them look at the samples by cutting them open and he decides to not sell, returns at some future date and by this time they are all "mussed up" so that they are not true, correct and fair, there is not one word in the law requiring the ginner to grade this sample or requiring the buyer to take this gin weight. So this sampling is all "bosh."

Now, there is not one gin in a thousand that has the old sweat box press, where a man tramps the cotton in order to get a bale in it and has to use water to make the cotton stick. No we are not that antiquated. As to putting any thing in a bale to increase the weight, will say we have a law prohibiting the putting of foreign substance or the plating of a bale of cotton. As to separating the dirt from the seed; Well we "know something on that." You let a gin man try that and he will get docked at the oil mill from \$100 to \$500. Thereafter he will scoop his dirt outside the gin house instead of the seed bin. So that part of the law as pertaining to the ginning, wrapping and sampling of cotton is all "bumcombe." Yours truly,

T. E. HAMILTON

OSCAR WEATHERS DEAD

The spirit of Oscar Weathers took its flight yesterday morning at 6 o'clock, causing grief for his relatives and a large circle of friends. Oscar was one of the most popular young men ever reared in Goldthwaite. He was always pleasant, jovial and good natured, with a kindly greeting for those he met. He was engaged in business here for several years and later moved to El Paso and then to Mineral Wells. He contracted tubercular trouble some years ago and his constitution was soon undermined and he rapidly declined. A few months ago he came to his mother's home in this city and it was hoped the careful nursing and constant attention by relatives, physicians and friends could restore him, but every effort was in vain and for some weeks it was known that the end was near. The many expressions of sorrow heard when the announcement of his death was made, proved that he was held in high esteem by everybody.

Funeral services were held yesterday afternoon at 4:30 o'clock and despite the mud and disagreeable weather, there was a large assembly in attendance upon the sad service.

BUSINESS CHANGE

Floyd Mullin has purchased the Racket Store from W. W. Condon, the deal having been closed this week. An inventory of the goods has been made and all the details concluded and it is expected the new proprietor will take charge today. He has been employed in the hardware and furniture store of Bodkin, Hurdle & Co. for several years and is well known to the people of this trade territory, as well as being trained in business affairs. The store has been liberally patronized heretofore and will lose none of its popularity under the new management.

Mr. Condon has purchased T. W. Butler's farm, about three miles south of this city, but will not get possession of it until the fall, after the crops are gathered. He will continue to reside in this city and do painting and paper hanging for his customers.

MULLIN

From the Enterprise: Mrs. R. F. Williams and daughter, Miss Ollie, spent Sunday the guests of relatives in Zephyr.

Miss Ruth Ford of Goldthwaite spent Saturday in Mullin the guest of her friend, Mrs. Walter Kemp.

Mrs. J. A. Rodgers went to Temple Sunday morning for a visit with her daughter, Mrs. Hays Burgess.

Rev. L. L. Hays and daughter, Miss Addie, of the Trigger mountain community, went to Brownwood Tuesday, returning home that night.

Twenty odd members of The Get Together organization went from here to Democrat Friday night and organized a Get Together club there.

J. T. Allen, manager of the Randolph & Allen firm, states that they have paid over \$1,000 cash for creams since the first of January. This is not a bad statement by any means.

Mrs. John Bell of the Pompey community, was carried to Temple Monday night for a surgical operation. Reports from there last night state that her condition is encouraging.

J. B. Scoggin, that well known farmer, and democrat, of the Pompey section, is improving from a severe attack of kidney trouble that came pretty near costing him his life a few weeks ago. While he is yet unable to do much work, he is gradually improving.

At twelve o'clock today the residence of F. C. Hensley, in the eastern section of the city, was struck by lightning and considerable damage done. A number of boards were torn from the wall and the paper badly damaged in one of the rooms. Fortunately none of the family were injured.

A special from Austin says: Notaries public to the number of approximately 17,000 appointed by Governor Ferguson during the last few days of the regular session of the Thirty-fourth legislature and confirmed by the senate are exempt from the placing of a war revenue tax stamp on their official bonds, according to announcement by Internal Revenue Collector A. S. Walker. These notaries are now qualifying and are required to give an official bond, and the question came up as to whether or not this bond should bear a war tax. A ruling was sought by Collector Walker from the United States treasury department, which held that these bonds were not required to be stamped.

MR. G. W. SIMPSON

"Gone but not forgotten."

Yes, our friend Mr. G. W. Simpson is gone, but the influence of his holy Christian character abides with us still and shall ever abide with us. On April 14, 1915, at 1:55 p. m., at his residence in South Bennett community, he calmly and peacefully fell asleep in Jesus.

Mr. G. W. Simpson was born in Virginia Feb. 29, 1849, but came to Texas in early manhood. After stopping in Johnson county a short period he moved to Mills county, where he resided until his death. Mr. Simpson was a man of superior intelligence. Though having passed the sixty-sixth mile stone, he possessed those graces of character that adorn and beautify Christian manhood. He had a deep religious experience, strongly believing in the providence of God. He was a member of the Christian church and had been for several years before his death. Mr. Simpson leaves a wife and ten children—nine boys and one girl—besides a host of friends to mourn his loss.

The funeral service was conducted by Rev. Dyches and Hays. He was laid to rest in the South Bennett cemetery, beside his beloved sister, who was laid to rest there less than a year ago. The high esteem in which Mr. Simpson was held was shown by the gathering of friends for the last view of his remains. Also the Farmers Union showing their respect by marching in double file to the cemetery.

God has called from us our loved one.

We have seen him leave our side.

With our Savior we shall meet him.

When we, too, have crossed the tide.

Of that bright celestial city.

He had caught such radiant gleam Of its towers like dazzling sunlight.

With its sweet and peaceful dreams. He is waiting by the river.

We are watching by the shore. Till we hear the song of angels.

In the bright celestial city We shall dwell forevermore.

Written by a true friend.
