FOUR MORE RALLIES

The education campaign is progressing. More than half of the amount had been raised in the state when half the time was gone. Our churches are responding gloriously.

At North Bennett last Sunday the faithful members responded heroically and gave \$35.00. Pastor Bagley raised at Trigg Mountain \$25.25 and they will get some more. Bro. J. Vann and Pastor Long raised \$12.00 at Long Cove. Pastor J. S. Smith and Bro. Hunt raised \$10.30 at the Little Pompey Mountain church. Total raised to date in Mills county \$795.00.

There will be a rally at Sims Creek this Saturday and Sunday rallies will be held the 2nd Sunday and Saturday before at Blanket Springs, Pompey, Priddy and Mt. Olive. Let's work to a glorious finish.

The work of father's clubs in fostering greater interest in the schools and in taking greater responsibility for citizenship, suggested by Charlotte M. Hall in the Household department of Farm and Ranch this week is worthy of the attention of fathers all over the country. The men who manage farms, rear their children and live among the neighbors should take greater interest in the public school; they should become better acquainted with the teachers in their schools; they should take a greater personal interest in their children with a sincere desire to relieve their wives of some of the responsibility and be a greater influence for good citizenship. Farming should not occupy all of our thoughts nor should the crops and the animals be our masters. We should take time to build up our homes, train the children for efficiency and do our duty as citizens in the community. A club that would require meetings occasionally to call attention to those duties that we owe our families and our neighbors should be of much benefit. People today need a higher conception of home life; greater interest in humanity and a higher regard for the church, the school, society and those who bear the responsibility for the administration of government.—Farm and Ranch

The opening of Henry Martin's dry goods store was the occasion for quite a social event last Monday night. Music and readings were on the program, fruit punch was served and there was a pleasant time for the large gathering. Many complimentary remarks were made concerning Mr. Martin's store and the artistic arrangement of the goods. Misses Grundy & Harrison also came in for a good share of the favorable comment, because of their pretty display of spring millinery.

NEW CHURCH BUILDING

The members of the Nazarine church are having a house of worship erected on the lot they recently purchased at the corner of Hutchings and First streets, just west of Dr. Calaway's home. The members of this denomination are certainly to be commended for their untiring efforts, their liberality and their devotion to the cause they represent. The building will be completed in a short time.

BE PREPARED

Saving Means Individual Preparedness

The most vital question in America today is individual preparedness. Not merely national preparedness for war, but individual preparedness for anything that may come up—individual preparedness to live useful, honest, successful lives for the benefit of ourselves, of humanity and of posterity.

Although the United States is a prosperous nation, we are not a prosperous people individually; for one person out of every ten who dies in any of the large cities is buried in a potter's field.

Statistics show that in the United States there are only 108 who save money out of every 1,000 population, while in Switzerland there are 554 in every 1,000.

GOLDTHWAITE NATIONAL BANK

PROCLAMATION

March 13 to 18, 1916, has been designated by the Civic League of Goldthwaite as "Clean-Up Week" for this city. During that week all citizens are urged and expected to clean up their premises and vacant lots and to co-operate with the League in every way possible for the betterment of the civic conditions of Goldthwaite.

The city administration will assist in the movement by supplying wagons to haul away all trash piled or boxed in a convenient place on the streets or alleys. The wagons will be employed for two days, March 17 and 18, and those who desire trash hauled should notify the mayor or some member of the council or the city marshal, giving location of the trash to be hauled.

By the term "trash" is meant all tin cans, scrapings from yards and waste generally, but does not mean rocks, ashes, scrapings from barn yards, dead animals and such refuse as should be hauled by the scavenger.

By co-operation of all the citizens with the city officials and the Civic League Goldthwaite can be made one of the most beautiful and sanitary towns in Texas. To this end I solicit the aid of the citizenship.

TO TAKE THE INSANE OUT OF THE JAILS

Governor Ferguson said during his speech at Llano the other day that he would ask the next Legislature to appropriate sufficient funds to take the insane out of the jails, even if \$500,000 should be needed. There is a positiveness and a definiteness to that promise that have been wanting to the many like it we have had in the past. Several of Governor Ferguson's predecessors have promised to take the insane out of the jails, but in a vague and cautious way that gave a hollow ring to the pledge. Governor Ferguson makes it emphatically and unqualifiedly.

It will not require \$500,000 to take all the insane out of the jails and keep them out, for a long time at least. If the buildings of the Rusk penitentiary are made over into a hospital for the negro insane, the cost will be much less than the amount stated by the Governor. This would probably be the best disposition of the matter. The buildings are easily adaptable, and Rusk, while not ideally located, is fairly well so. If these buildings are made over into a hospital for the negro insane, the room that would be vacated in the other three hospitals would probably meet all the demands for several years.

The people will not grudge the spending of \$500,000 for this purpose if it should be necessary. It is but little their fault that there are so many insane in the jails, for the reason that they have been assured by every Governor, except the present one, for the last eight or ten years, that the insane had been taken out of the jails. Their chief fault has been that of credulity; they have too readily believed what it suited the interest of politicians to tell them. It is not the least of Governor Ferguson's merits that he has the candor to acknowledge that many of the insane are still kept in the jails.—Dallas News.

Dry weather is reported to be doing damage to the small grain crops in some parts of the west and north-west.

Every citizen who fails to do his part in public enterprises and in movements for the public good makes the burden heavier for someone else.

A young married woman of Fort Worth has admitted to the county attorney that she shot and killed W. L. Warren, the hotel man, whose lifeless body was found by the roadside ten miles from Fort Worth a few weeks ago. The case has baffled the officers and detectives and no clue had been secured by them. The woman claims the man assaulted her two years ago and she lured him to the place of the killing and that her husband accompanied her. If her story is true there will be few to condemn her act.

Every home, however small, should plant something beautiful for summer. Even if you are renting, you should plant a few cheap season flowers. They will cost you but a few cents, and will add to the joy of living through the summer. They will not only give pleasure to you, but to all your neighbors and to the chance visitors that pass your way. Now is the time to do it. The seed may be bought at almost any of the store Ugly yards may be made pretty for the summer at the cost of a few postage stamps and a few hours labor.—Garland News.

It has been stated with some degree of assurance that Gen. Felix Diaz has gone to Mexico to begin a revolution against the Carranza regime and there is reason to be hopeful that there are better days ahead for Mexico because of his action. If there is a man on earth who can bring order to that distressed and blood-drenched country that man is Felix Diaz. Bearing as he does a name that might well be used to "conjure" with in Mexico, he is a soldier of courage as well as judgment and force. The overthrow of Madero, as regrettable as it was, must be admitted to have been by his action. Making his escape from a prison in Vera Cruz he gathered about him a mighty force in a few days and in less than a month's time the government was overthrown and Madero was dead. However, the assassination of Madero was not chargeable to him, but to the detestable Huerta. Felix Diaz is a soldier and a statesman, not a murderer and if he once gains the reins of government in his country there will not be another revolution there for a hundred years.

The man with the hoe is the man of the hour. Everybody is interested in what the farmer is going to plant and how he is going to plant it. However, Mr. Farmer knows his own business pretty well, and while it is all right for those in position to advise, to make suggestions, he is going to do the very best he can with the opportunities at hand. The seasons must be right, and the pests that destroy certain crops must be brought into account in raising crops. Editors, merchants and others know all right what would be the safe things to raise, but the real proposition is whether or not the farmer is going to be able to do this. Raising corn, good gardens, melons, vegetables and other products along with chickens and turkeys is mighty easy to do on paper and in speeches, but when it comes to the actual tryout there are lots of things to take into consideration. Most of the farmers in the South have learned the lesson of failure through raising too much cotton, and if there is any other recourse the greater per cent of the farms will be cultivated after the most approved style of diversification. The Record has faith in the good common sense of the farmers and believes they will do just the very best they can for themselves and everybody else.—Hamilton Record.

Allison Estep, eldest son of Mr. and Mrs. Newt, Estep, was seriously injured Monday afternoon while trying to remove a bullet which had lodged in the barrel of a 22 target rifle. Not knowing that the owner had previously attempted to remove the ball by inserting a loaded cartridge which had failed to fire, young Estep held the barrel in the forge at his father's blacksmith shop, when the cartridge exploded, the bullet entering his abdomen.

What might have been a fatal accident was averted Saturday of last week by the presence of mind of Mrs. U. M. Sanderson when the clothing of her little daughter, Lena Grace, caught on fire. The child, with a neighboring friend, was upstairs playing in a room with a fireplace. Her clothing caught from the open fire, and she ran down the stairway calling for help and causing the flames to spread. Mrs. Sanderson, alarmed by the child's cries, ran to meet her, and commenced at once to smother the flames with her hands, and after they were partially under control, completed the work with wet cloths.—Star.

BEAUTIFY THE CITY

March is the month. Let's make the 13th to 18th the week to clean up. This is for a specific purpose and to make Goldthwaite beautiful we must first make the town clean.

To be happy, we must live in touch with God and nature and this movement to beautify the town should be encouraged.

Representatives from the Self Culture club, the Parents-Teachers association, the Art and Civic club have been conferring and devising ways and means of making Goldthwaite beautiful and with the assurance of the hearty co-operation of the City Council and the Commercial club we will surely succeed. This organization thus formed will be known as the 'Civic League' with the following officers: Mrs. J. A. Gillespie, chairman; Mrs. J. C. Street, secretary; Mrs. W. H. Trent, treasurer.

In order to systematize the work of the Civic League the city is divided into six sections and a supervisor appointed over each, as follows:

First section east of railroad—Railroad on the west, Fourth street on south, city limits on north and east—Mrs. W. E. Miller, supervisor.

Second section east of Railroad—Railroad on west Fourth street on north city limits on south and east—Mrs. C. M. Burch, supervisor.

Third section—Railroad on east Fourth street south, Reynolds street west, city limits north—Mrs. Walter Fairman, supervisor.

Fourth section—Reynolds street east, Fourth street south, city limits north and west—Mrs. J. C. Street, supervisor.

Fifth section—Fourth street north, Reynolds street east, city limits south and west—Mrs. E. B. Anderson, supervisor.

Sixth section—Fourth street north Reynolds street west, railroad east, city limits south—Mrs. O. H. Yarbrough, supervisor.

The co-operation of every man, woman and child is asked in this clean-up campaign to aid the authorities in making Goldthwaite cleaner, healthier and, therefore, a happier city.

Two prizes have been offered of \$5.00 each for the largest trash pile and the cleanest section. For information apply to the supervisor of your section. REPORTER.

WEALTH IN BEGGING

Current literature—a phrase politely to designate the present day magazine and newspaper press—offers many instances of wealth in beggary. Sometimes it takes Death to reveal the store of treasure that has been gathered in from the gullible public, as proof of its kindness of heart and the strain upon its sympathy. Sometimes it is merely the zeal of a suspicious policeman that gives a peep into beggar's money bags. It was such a case as that that showed up a New York beggar, preying upon the people with piteous tale given color by the appearance of misery of his thirteen year old son, as well as of himself. Brought to court, the man was shown to own considerable property in Pennsylvania whence he migrated to New York when the thirst for gain overcame him. The boy testified to five to seven dollars being a normal day's take, with Saturday's offerings ranging from ten to fifteen dollars.

The tale probably has a moral. Most experiences in life point to a practical lesson, even if the lesson is not learned, or recognized as existing. Just what the lesson is in the present case is hard to say. It is not to steel the heart against the appeal for help. It is not to ignore need. It is not to cultivate suspicion, nor to be selfish. Perhaps it is not to be taken in and to be saved from this perhaps the best agency is a watchful police that keeps the property owning beggar off the streets.—New Bedford Standard.

RANK FOOLISHNESS

You occasionally see it stated that colds do not result from cold weather—that is rank foolishness. Were it true colds would be as prevalent in midsummer as in midwinter. The microbe that causes colds flourishes in damp, cold weather. To get rid of a cold take Chamberlain's Cough Remedy. It is effective and is highly recommended by people who have used it for many years as occasion required, and know its real value. Obtainable everywhere. (adv)

FOR BETTER SEEDS

Few people who have given the subject thought will question the fact that occasionally the buyer of seed is imposed upon, just as the buyer of nursery stock, livestock and merchandise of all kinds is sometimes imposed upon. But thanks to ethics in advertising and business in general the man who imposes upon his customers soon has no customers and hence no business.

A pure seed law properly drawn and enforced by competent authorities would safeguard the unsuspecting and help protect the honest grower and dealer. But many of these laws for inspection and regulation fail to give the desired results. They create new offices which mean more expense and they sometimes discriminate against the man who must begin in a very small way.

It is encouraging to note that more farmers are interested in producing good seed than usual. Those who grow a few bushels of corn, cotton, Sudan, sweet potatoes, sorghum, peanuts, peas, etc, for seed find the business fascinating and profitable. This may help them reduce the cotton acreage and get their affairs upon a cash basis. To require each to have a seed laboratory of his farm inspected for weeds might be a detriment to the pure seed industry. Some of the 'weeds' we have been so alarmed about are or more friendly terms with farmers now, since we have learned their value as farm crops. Many farmers are making money because Johnson grass got a hold on their farms, some are finding that sweet clover is a very valuable crop. Bermuda by its persistence is gaining friends.

We do not want weed seeds with seeds we plant, but we must be very careful how we pass laws and authorize inspectors. Let us be fair to growers, planters and dealers in any laws that we pass.—Farm and Ranch

CAUTION

With a shortage of ships to move our cotton to foreign shores: with no indications of the end of the war; with the Nation stirred over preparedness for eventualities; with the buying power of the entire world gradually lessening day by day, it becomes our duty to issue this formal warning as the time of planting cotton is at hand.

Let everyone encourage the firmness to be on the safe side by raising plenty of food and food for the community as well as for himself, his family and his livestock. (A calf a pig, chickens and a garden often mean the difference between want and money ahead). Economical and safe living for all as well as 'safe farming' must be the rule if prosperity is to abide with us.

Six cent cotton this fall would mean disaster in the cotton states. Low price follows over supply as certainly as the day the night. High prices and prosperity over the South this year proves what voluntary reduction of cotton acreage does. Any marked increase in acreage over last year is going to result in a great loss to Southern cotton producers, merchants and bankers, and will similarly affect all allied businesses and professions.—Conference of Cotton State Bankers.

BUSBY'S MINSTRELS

Minstrelsy, a la circus style, delighted a large audience of Ogden people last evening, the event being the visit of J. M. Busby's big minstrel show under canvas. The show was given a most liberal patronage, which it merited in every sense of the word.

Mr. Busby has assembled a big company of colored people who are 'tubbling over' with minstrel songs and music. The show carries its own band and orchestra, in addition to a large number of singers and good dancers. The big minstrel forepart is of course the feature, but the olio is a program of specialists which are most entertaining. While many no doubt can not conceive of a staged production under canvas, they have but to witness a performance such as that given by the Busby company to appreciate not only the possibility, but the high grade success which has been attained by this gentleman in his tented minstrel show.—Ogden Morning Examiner, Goldthwaite, Monday, March 6, (Advertisement)

Houston, Texas.—In an interesting letter from this city, Mrs. S. C. Burton writes as follows: "I think it is my duty to tell you what your medicine, Cardui, the woman's tonic, has done for me.

I was down sick with womanly trouble, and my mother advised several different treatments, but they didn't seem to do me any good. I lingered along for three or four months, and for three weeks, I was in bed, so sick I couldn't bear for any one to walk across the floor.

My husband advised me to try Cardui, the woman's tonic. I have taken two bottles of Cardui, am feeling fine, gained 15 pounds and do all of my housework. Friends hardly know me, I am so well."

If you suffer from any of the ailments so common to women, don't allow the trouble to become chronic. Begin taking Cardui to-day. It is purely vegetable, its ingredients acting in a gentle, natural way on the weakened womanly constitution. You run no risk in trying Cardui. It has been helping weak women back to health and strength for more than 50 years. It will help you. At all dealers.

BUSINESS CHANGES

B. A. Harris this week sold his stock of merchandise to W. A. L. Craves, who will move the stock to Mullin. In the deal Mr. Harris became owner of an irrigated farm on Browns creek, five miles north of this city. Mr. Harris will move to San Angelo in a few days and it is likely he will soon be engaged in some line of business there. Mr. Graves was engaged in the drug business here a few years ago and has an extensive acquaintance over the county and all wish for him the best of fortune.

Moving His Stock

Floyd Mullin this week moved his Variety store from the Urquhart building on Parker street to the building heretofore occupied by B. A. Harris, on the north side of the square. This is a good stand and Floyd is a "live wire" in business, therefore, he is sure to continue to do a good business.

A New Store

J. D. Urquhart has bought a stock of racket goods, wall paper and other lines and will open a store in his building that has been occupied by Mullin's variety store for a long time. Mr. Urquhart is experienced in this line of business, having formerly conducted a Racket store in the same building. He is a good business man and will be sure to get his share of the trade.

T. H. Irwin arrived from Runnels county Wednesday night for a visit to relatives and friends. He reports that rain is badly needed in that section in which he lives.

Mrs. A. E. Sherman returned the first of the week from St. Louis, Cincinnati and other cities. She bought goods for McKinley-Comigan Co. and also visited her mother for a few days.

Rev. J. A. Crutchfield, a minister of prominence in the Methodist church and a writer of note, visited his relatives, the McBride family, in this city the first of the week and filled the pulpit in the Methodist church Sunday morning at the 11 o'clock service and again at night. He is a man of ability and long experience in the ministry and has traveled extensively. He is the author of many poems and quite a number of the people availed themselves of the opportunity to buy some of his books during his visit.

The commissioners' court of this county last week performed the arduous duty of appointing road overseers for the various road precincts of the county. There is indeed, a strange infatuation with American people of staying with ancient manners and customs without any regard for convenience, comfort or economy. The system of working public roads by the process of appointing road overseers and designating certain individuals within the precinct to perform road duty, if it ever had any merit, was obsolete many years ago. This is no criticism of the commissioners' court of this county. It's the system, Sun-of-a-Gun now recalls that he heard Hon. Phil Clements, now democratic postmaster at Goldthwaite, some years ago say that research had disclosed to him the fact that this method of road work had its origin away back in the feudal days of England. We have worked with the volunteer road gangs ourself. To cut out the brush so that a wagon or horsebacker could wind his way thru was about the acme of proficiency those days. We suppose it's the same today. There was usually a struggle to see who would get the job of leading horses for a couple of other hands, while they walked leisurely down the road with an axe or weeding hoe on one shoulder and argued religion or talked popular politics. The state legislature that wipes the present general road law off the statute books will be a public benefactor, if it does nothing else. Every county in the state of Texas that has good roads also has a special road law. Why not bury the dead?—San Saba News.

ENDORSEMENT OF T. M. WHITE of Hamilton for Representative 94th District, Composed of Hamilton and Mills Counties:

We, the undersigned citizens of Hamilton county, realizing the importance of this legislative district being represented in the next legislature by one in accord with the idea of the development of Texas, and by one of sufficient mental training and practical business experience to deal with the important legislation to arise, hereby endorse the candidacy of T. M. White of Hamilton for the office.

We believe, from the fact that Hamilton county conceded the candidate to Mills county for the past two elections, entitles Hamilton county to name the candidate this time, and that the office should be filled in rotation, and that no contest should arise as between the two counties for the best interest of the district.

To those not acquainted with Mr. White we would say that as a citizen and business man among us for a number of years, we have found him upright and honorable, measuring up to all of the requirements of a good citizen, of a strong and analytical mind and a firm believer in a square deal, and believe in him the district would have a representative who would have the ability and moral courage to reflect credit on the constituency sending him, and that the interests of the district would be handled in an able manner.

The "Dodge" Car---\$850 Delivered

There has been no effort by Dodge Brothers to produce a car that would sell at a low price, but there has been a genuine interest in building a car in which the material, the design and the manufacturing would represent the highest quality at a moderate cost to the purchaser. Read what these owners say about the "Dodge":

TRINITY MOTOR COMPANY, Dallas, Texas.

DEAR SIRS—I have run my Dodge Brothers Car 35,000 miles since June 15th, 1915. I get from 600 to 700 miles on one gallon of oil, and from 18 to 20 miles on one gallon of gasoline, and about 15,000 miles on United States Tires. Am well pleased with the car and think it the best car made for the money.

Yours truly,
H. L. MCGREGOR, Oak Cliff.

TRINITY MOTOR COMPANY, City.

GENTLEMEN—I have run my Dodge something over 8000 miles. Cannot say how many miles on gallon of gas or oil. If I were going to buy another auto, I would most certainly buy a Dodge. The longer I keep the Dodge the better I like it.

Truly,
REV. O. F. SENSABAUGH, Southern Methodist University.

SANE FARMING

When the farmers of the South adopt the system suggested by Bradford Knapp of producing feedstuffs sufficient to take care of livestock and grow vegetables and meat with which to supply the table, the day of emancipation is come. By resort to this habit the acreage devoted to cotton will necessarily be reduced so that the total production of that crop can be kept within the bounds of the law of supply and demand. Then by resort to the plan of warehousing cotton, which will admit of feeding the supply slowly to demand instead of rushing pell mell into the markets, a price can be maintained that will permanently yield a profit on cotton production. The warehouse system, in the very nature of things, is not devoid of defects. It is new and an experiment, but it is an experiment the principle of which is not new and which is of economic soundness. If the country needed any demonstration of the soundness of a system which would bring about a rational marketing of cotton, it has but to mark and study the example of the California Fruit Exchange.

There is no more reason why the farmer should not be a business man, for that he can succeed without resort to business principles, than that a merchant should hope to succeed without steady adherence to fundamental business principles. The farmer has just as much intelligence as any other citizen. He is just as capable of becoming a common sense business man as anybody. When he becomes a business man a larger percentage of him will succeed than is true of men in other vocations of life. Moreover, when the farmer becomes a business man he will contribute in larger measure to the aggregate sum of humane happiness than other men.—Fort Worth Star-Telegram.

Jerusalem Artichokes for sale.—J. H. Allen, sr.

S. P. Sullivan and wife were visitors to Dallas this week.

Syrup Buckets—I will pay 5 cents for clean syrup buckets in good condition with lids. Deliver them to J. M. Bateman's store any time next week.—E. P. White.

John Driskill, jr., is very sick with pneumonia at the family home in this city. A trained nurse is with him, and his condition is quite serious. His brother George is also sick, but is somewhat improved since the first of the week.

Fred Faulkner, who has been employed in B. A. Harris store for some time, has accepted a position with W. A. L. Graves at Mullin. He is a fine young man and is worthy of every confidence. Mr. Graves could not have employed a better man.

If it is interesting, amusing or edifying to any one to write anonymous communications they certainly have the privilege of doing so, but we will never publish a letter of that kind. This week we received two well written and interesting communications, but the writers did not make their identity known, hence the letters went to the waste basket. The Eagle always appreciates communications and only publishes the name of the writer when it is desired by such writer, but we must and will know who does the writing before we publish a letter, no matter how interesting it may be and of how much importance we may deem it.

MONUMENT SALE

A nice lot of Monuments and Markers at Close Prices. Can save you 15 to 25 per cent and give the very best material and the highest grade work. How? By eliminating the agent-commission-business, which means that amount saved for the buyer. Agents will tell you their firms can buy marble or granite cheaper than your home dealer and make you a better price, which is false and misleading, as we dealers pay exactly the same price for the same grade of stock. COMMERCIAL CLUB

The next meeting of the Commercial club will be held next Tuesday night in the court house. Every business man, as well as all others interested in the welfare of the town and county, should attend the club meeting.

Some of the progressive and enterprising business men and property owners of the town have subscribed to a fund to be used by the club in road work and for such other purposes as the board of directors may determine. This fund will be of vast benefit in carrying out the purposes of the club and those who have not subscribed to it should see Will H. Trent or J. C. Street at once and subscribe.

The Farmers Union will hold a joint meeting with the club on the night of March 18, in the court house. It is the purpose of those who arranged for this meeting to have matters of vital interest to the county discussed and plans inaugurated for the general good. The business men and farmers can bring about results when they work together that neither can attain without co-operation of the other. The plan to have this joint meeting is one of the best yet inaugurated by either organization and the Eagle hopes the meeting will be well attended. It is likely a program will be prepared in time for publication in the next issue of this paper.

The Proof is Here the Same As Everywhere.

For those who seek relief from kidney backache, weak kidneys, bladder ills, Doan's Kidney Pills offer hope of relief and the proof is here in Goldthwaite the same as everywhere. Goldthwaite people have used Doan's and Goldthwaite people recommend Doan's, the kidney remedy used in America for fifty years. Why suffer? Why run the risk of dangerous kidney ills—fatal Bright's disease. Here's Goldthwaite proof, investigate it.

Mrs. W. Taylor, Goldthwaite, says: "My kidneys were inactive and annoyed me greatly. I also suffered from spells of backache. I used Doan's Kidney Pills, procured from Clements Drug Store, and they regulated the action of my kidneys and relieved the pain in my back. I have every reason to believe that Doan's Kidney Pills act just as represented. Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Taylor had. Many counties are giving special attention to road work and the time is not far distant when Texas will be known as the state of good roads.

John C. Hicks has accepted a position with McKinley-Corrigan Co. in their grocery department. He is a popular business man and experienced in the grocery line.

Burglars entered a mail van on the ferry from the Jersey Central station to New York City Sunday morning and stole several sacks of mail. It is supposed that a large amount of money was secured by the robbers.

W. H. Linkenhager late of Waco, who has purchased a valuable farm a short distance north of this city, called Saturday and had his name enrolled as a regular reader of the Eagle. He and his good family have a hearty welcome to Mills county and we hope their stay will be long and pleasant.

Erath county is doing a fine work in road improvement. The counties are coming back to the principles which this writer has advocated many years. Instead of issuing a great lot of bonds and entailing a heavy debt upon future generations to pay, Erath county is merely converting its regular fifteen cent tax into a real construction fund, instead of frittering it away in mere temporary improvement which is washed away as fast as every rain comes. The county had already done about \$12,000 worth of road construction, merely issuing warrants against the regular annual road fund.—Comanche Vanguard.

—If you are buying land, require the seller to furnish you an abstract of his title, so you may know you are getting a good title. If you contemplate selling your land, have an abstract thereto prepared first, so you will know what kind of title you can make to it, as the purchaser is almost sure to want to know. I have the only complete set of abstracts of the land titles of Mills county and will make your abstracts for a reasonable charge and will help you cure your titles if defective.—E. B. Anderson.
