#### CAMP TRAVIS

Men of Camp Travis organizations receive many letters urging their return on furloughs to their homes for all sorts of purposes even the slightest pretext being made the subject of these communications. Parents and friends should consider that the only effect of such appeals is to make the men restive and dissatisfied. In the interest of the efficiency of the work here, it has been necessary to establish the strictest system of investigation into the circumstances of every request for furlough before it is granted. Leave to go home is given only in cases of extreme necessity. It need scarcely be said that those who absent themselves from duty without such leave are dealt with sternly and with dispatch. In cases of extreme emergency requiring the presence of the soldier at his home, a certificate from a public official or physician cognizant with the facts should accompany the letter or telegram. These regulations are promulgated, not as a means of disciplinary tyranny, but as indispensable measures in the serious business of war and preparation for war.

Private Alvin N. Oglesby has been detailed as student cook of company F and his first attempts are highly praised by all the members. We hope to soon see him detailed as regular cook.

Private A. F. King of the Supply Co. 345th Field Artillery, Camp Travis, Texas, has just received a temporary promotion as first class kitchen police. Owing to the illness of one of the company cooks, King is taking his place. Although it was a joke for a while, King is making good as he has always done in any branch of service.

Rev. G. A. Jarrett and wife were among the visitors from Big Valley the early part of the week.

J. H. Clifton of Star was looking after business matters in this city the early part of the week.

T. P. Reed was one of the good men of Big Valley who had business in this city the early part of the week.

Misses Nora and Callie Ross of this city spent last week's end visiting relatives and friends at Caradan.

The light rain Monday morning could not be characterized as a season, by any means, but it helped the small grain prospects a lot.

L. B. Burnham and Tom Haffstutler were two of the prominent men of the southern part of the county who were looking after business in this city and investigating the oil situation Tuesday.

The Eagle is always glad to publish reports of local events in which the general public would have an interest and announcements of meetings where the object is patriotic or for the general good. Reporters of clubs and other organizations are invited to send in their reports as often as they like.

The mass meeting called by Rev. Callihan to be held in the court house next Monday evening should be well attended, for the people of this community certainly should formulate plans to protect themselves and their neighbors from unworthy beggars, as well as outline plans for the assistance of any who may come to the community poor and needy.

#### SCHOOL COLUMN

There will be a patriotic program rendered by the school children Friday evening, the 22nd at 3 o'clock in the school auditorium and immediately following this a flag raising. There will also be patriotic talks by citizens of the town. We invite everybody to be present on this occasion.

A wonderful improvement has been made on the school grounds by the children working at recess and after school hours. The school children have shown great interest and willingness to help make the place where they have to spend their days more attractive and they deserve credit for this pride.

The Parent-Teachers club has recently added some \$40. worth of good books to the school library, which is evidence of their interest in the school and the willingness to co-operate with the teachers in an effort to have a good school. XX

#### AN EXPLANATION AND APOLOGY

There is nothing I believe in stronger than absolute fairness. I believe when a man makes a mistake he should be man enough and considerate enough to acknowledge the same. Last week I wrote a word of appreciation of Dr. Calaway and in that I mentioned the devotion of his fellow physicians, but failed to name one of the most loyal, Dr. Logan. He came at every call and many times when not on a special call. It is nothing but fair to him and I know in accord with Dr. Calaway's children's wishes than an expression of appreciation be made. The mistake was purely an oversight and unintentional. W. R. WHITE

Miss Minnie Taff spent part of the week in Brownwood.

Sam Sullivan and wife made an automobile trip to Gatesville and Waco this week.

C. B. Mohler spent a part of the week at Mullin, looking after telephone business.

T. A. Gardner and family of Center City visited friends and relatives in this city Sunday.

Rabe Calaway, accompanied by a party of oil prospectors, came in from Petrolia the early part of the week, to look over the Mills county field.

E. M. Thompson, formerly engaged in the hotel business in this city and now in the same line at Abilene, has been here this week, looking after business matters.

T. T. Nickols returned Monday from Pictou, Hopkins county, where he went to accompany his father, two brothers and brother-in-law home. His father bought a Ford car while here and Mr. Nickols "drove" it home for him.

R. H. Freeman and wife left Tuesday for Blum to spend some days with relatives and he will then likely enter the army medical corps for foreign service. Mr. Freeman was prescription clerk in Miller & Son's drug store for several months and he and his wife made many friends here who regretted their departure.

The Red Cross sewing room has been moved from the Self-Culture club room on 2nd floor of the court house to the room set apart for the Commercial club in the basement. This puts the sewing room nearer to the laundage making room and is, therefore, much more convenient for the ladies engaged in this most laudable work.

#### COMMUNITY CO-OPERATION

(Copyrighted Farm and Ranch-Holland's Magazine)

Both of these results are desirable—a standard article and a fair price. Either one is to be desired by the consumer. But when both go hand in hand they form the ideal combination.

These results are brought about by advertising the product and then identifying it by means of a trade-mark or brand name.

When a product becomes known to the consuming public through advertising, it tends to become standardized. Being produced on a large scale, it naturally follows that there comes to be a uniformity of quality of the different units. Each unit is exactly the same as every other unit bearing that label.

People come to know just what this product is. It stands for something definite. It represents a definite value characteristic of this particular product. It becomes standardized.

In addition to this, the very fact that it does become standardized and known makes possible a greater market for it. This greater market makes possible the economies of large scale production. That is, a manufacturer who produces 10,000,000 units of a product can produce each unit more cheaply than the manufacturer who produces but 10,000 units, thru having more improved machinery, being able to carry the specialization of labor to a greater degree, having less waste and having more units of production to bear the expense of general management and overhead.

The result of this large scale production is a lower price to the consumer per unit.

 E. M. GEESLIN

**A SERIOUS ACCIDENT**

Mr. C. A. Head was accidentally shot while riding in his pasture in Center City community Thursday morning and the wound is quite serious and painful. He had a gun strapped to his saddle horn and while going up the creek bank his horse stumbled and fell with him. In some way the gun was discharged and the load struck Mr. Head in the calf of his leg. He was unable to get home without assistance and by the time his sons reached him and carried him home he had lost considerable blood. Physicians were summoned from the city and gave him prompt attention and he is getting along as well as could be expected, altho it can not be determined at this time the exact extent of the injury.

Mr. Head is one of Mills county's best men. He stands for everything that is for the betterment of the country and his fellow man and has the confidence of everybody. The report of his injury was received with genuine regret by the people who know him.

**COMMISSIONERS COURT**

Commissioners court has been in session all the week and the minutes showed the following business to have been transacted up to yesterday afternoon:

N. Daniel was allowed \$15.

The report of a jury of view on a road in Antelope Gap community was received and approved. R. D. Evans, Henry Brister, John Kuykendall, Enoch Godwin and Fred Conradt constituted the jury of view.

A petition for an extension of the mail route road a short distance in Big Valley was granted.

The treasurer's report was approved.

The road overseers are to be named at the February term and it is supposed a special session will be held for that purpose.

Wanted—The Eagle wants a boy or young man not subject to the draft to learn the printing business, including the operation of a linotype machine. Reasonable pay and a permanent position. Must have a fair knowledge of grammar and spelling.

**PATRIOTIC SERVICE**

**The Governor Issues Proclamation To Teachers**

Austin, Texas.—On behalf of the War Department Governor Hobby is taking this method of emphasizing to school teachers who live in the city and towns where local boards are located, the urgent importance and immediate value of their prompt response to a second call for their assistance which has just been made by the president.

"The classification work now in progress is a man-power census of the 10,000,000 young men in the United States who were of military age on June 5th," said Governor Hobby today. "The answers of these men, given in their Questionnaires, revealed not only their physical and financial condition, but show as well the lines of industry in which they are skilled.

"As the war progresses the need for skilled men in the various lines of industry which enter into the successful prosecution of the war, becomes daily more pressing. At the outset of the classification work it had been thought that the tabulation and card-indexing of this information in relation to such men could wait completion of the classification. The military situation is so pressing and the needs for skilled men so great, that the War Department has found it imperative to forthwith begin the preparation of a practicable card index of the industrial capabilities of every registrant.

"The volume of work which the local boards themselves and their clerical staffs are now handling is so great as to preclude the possibility of the compiling of this information by them at this time. Nor can every person who is willing to give gratuitous service to the government do such work.

"In its extremity, the government has called upon the school teachers of America for assistance. The War Department is furnishing direct to each local board in the state a supply of index cards on which is desired that 47 separate entries be made regarding each registrant who is skilled in industrial lines. The task which the school teachers are asked to immediately render is the transcribing to these cards of the detailed information regarding each registrant as given in his questionnaire, after the registrant has been finally classified by his local board. The cordial response of school teachers to this call will mean that almost immediately there will begin going forward to the War Department a concise and readily available record of the capabilities of each man and as the needs of the armies in France necessitate or call for skilled industrial labor for service at home make immediate action imperative, the War Department will have at hand the detailed information which will enable it to at once locate any man or number of men who may be needed.

"The president's call to school teachers for this service is being transmitted to them by the local boards, thru the superintendents of schools in counties, cities and towns thru the principals of high schools. It is appreciated that not every school teacher in

the state of Texas can respond, but teachers in the towns and cities where local boards are located can do so and I am confident they will be glad to render the service asked. During the first two weeks of December, when preparations for the classification were in progress, they were called upon to assist the local boards in preparing the Questionnaires for mailing to registrants and the records of the local boards for handling the Questionnaires as the same were returned by registrants. They second call for their help is in the nature of national recognition of teachers as a class, and while the achievement of the result asked by the government will mean hard work and close application, school teachers are eminently qualified to perform this war service and I am confident the school teachers of the state of Texas will make a general response. As the representative of the War Department in the state of Texas in connection with the classification of registrants under the Selective Service Law, I am asking their cordial response to the president's call and their co-operation in the work at hand, I desire to request that they get in touch as soon as possible with the local board nearest their place of residence."

**DISSOLUTION**

The firm of Frizzell & Taff has been dissolved and all persons indebted to said firm are requested to make settlement at once. Books and accounts are in charge of W. E. Pardue at the grain house. G. H. FRIZZELL, JOE TAFF

**ROCK SPRINGS**

Editor Eagle:

I have been absent a long time so will send in a few dots.

We are still existing despite the cold dry winter and as other flowers have dormant seasons Violet has had one too.

W. J. and J. O. Stark and J. W. Roberts are all on the sick list this week.

Our school is progressing nicely. We have just finished our mid-term examinations and have started on the last term. We hope to do good work in future.

Judge Weaver visited our school last week and gave us an interesting talk.

The death messenger came into our community last Friday afternoon and took from us our neighbor and friend, Mr. Bertram White. He was sick not quite two weeks with pneumonia and all was done for him that human hands could do, but to no avail. He left a wife and two little girls and quite a number of other relatives and friends. We extend to them our heart-felt sympathy.

Since our last report a young gentleman has arrived at the Traylor home to stay.

Mr. W. A. Cooke received news that his little daughter Nellie D., who is at Winters has pneumonia.

There was singing at Mr. T. Robertson's last Sunday evening.

Mrs. Docia Godwin has gone to Fort Worth to take a business course in Brantley-Draughor's business college.

Mr. Tom Nickols parents visited him this week.

Mrs. Westerman has been dangerously ill the past week, but is improved.

For pear burning I have the  
oil. See me before you buy.—A.  
F. Evans

Mrs. Ola Berry left yester-  
day for Austin to enter a  
business college.

Everything in hardware, furni-  
ture and undertakers supplies—  
Sullivan & Trent

For Sale—A 5-passenger Ford  
in good condition, 1916 model.  
For price, etc., see or phone me.  
—W P Hutchingson

Mrs. W T Jattle and children  
have been here from Hamilton  
this week, visiting her parents  
and other relatives

M. F Wallace, one of the good  
men of Mullan, was looking af-  
ter business in this city the mid-  
dle of the week.

Mrs. Bedford McBride went to  
Fort Worth yesterday to visit  
her husband, who is a sergeant  
in the army at Camp Bowie.

Several trains loaded with sol-  
diers and artillery passed over  
the Santa Fe going west Thurs-  
day night, but the destination  
could not be learned.

For rent—A three room resi-  
dence on Front street, convenient  
to business part of town. Can  
furnish one or more rooms if de-  
sired. For information apply at  
this office.

R. W. Barr of San Angelo, who  
was seriously sick with pneu-  
monia for several days at the  
home of J S Livingston, a short  
distance south of this city, was  
sufficiently recovered to re-  
turn to his home yesterday. Mrs.  
Barr and O N Hamilton and  
family of Star, went through  
the country in the Barr auto-  
mobile and the Hamiltons will  
spend some days there visiting.

**Why  
Suffer?**

Mrs. J. A. Cox, of Al-  
derson, W. Va., writes:  
"My daughter . . . suf-  
fered terribly. She could  
not turn in bed . . . the  
doctors gave her up, and  
we brought her home to  
die. She had suffered so  
much at . . . time. Hav-  
ing heard of Cardui, we  
got it for her."

**CARDUI**  
The Woman's Tonic

"In a few days, she be-  
gan to improve," Mrs.  
Cox continues, "and had  
no trouble at . . . Cardui  
cured her, and we sing  
its praises everywhere."  
We receive many thou-  
sands of similar letters  
every year, telling of the  
good Cardui has done for  
women who suffer from  
complaints so common to  
their sex. It should do  
you good, too. Try  
Cardui. E-77

**ALL CAN HELP**

**Vital Importance of War  
Gardens**

The nation is recognizing the  
War Garden as an important fac-  
tor in giving every man, woman  
and child who can procure a small  
plot of ground an opportunity  
to help win the war.

Meats of all kinds are daily  
becoming more unobtainable, and  
the necessity of sending as great  
an amount of wheat, animal fats  
and sugar as possible to Europe  
is more pressing.

The shortage of agricultural  
labor, both skilled and unskilled,  
will become increasingly more  
apparent during the year and  
it is, therefore, highly desirable  
to adopt some method of provid-  
ing more feedstuffs than  
can be produced by the women,  
children and old men of the  
country.

The medical profession has  
for years been telling the pub-  
lic that the American people  
have the habit of using too much  
meat for their own good. If the  
advice of physicians is empha-  
sized by conditions imposed by  
the war, we shall soon become  
a vegetarian people, for the War  
Garden is the solution of the  
problem of an ample family food  
supply.

Almost every family living in  
town that has a back yard can  
produce eight or ten varieties of  
vegetables that will lessen the  
outlay for feed \$20 to \$30, while  
every family living in the coun-  
try can have a garden that will  
not only meet its own needs for  
vegetables, but will actually  
provide an excess that can be  
profitably sold.

It is not necessary to have a  
large garden, but it should be  
planted with a view to growing  
vegetables of some kind through-  
out the year. This can be done  
by providing for what is known  
as succession and companion  
chopping.

As soon as it can be done,  
ground for the garden should be  
spaded or plowed from ten to  
twelve inches deep. Fertilizer of  
any kind that may be available  
should be thoroughly worked in-  
to the soil, and completely pul-  
verized, loose, loamy plantbed  
should be made. The time for  
planting and cultural directions,  
generally, are printed on each  
package of garden seeds, and in  
almost every neighborhood there  
may be found one or more prac-  
tical gardeners who have been  
successful in growing good gar-  
dens, and who are always ready  
and willing to advise and assist  
the amateur. In addition to such  
assistance, bulletins from the  
United States department of  
Agriculture at Washington, from  
Washington, from the State De-  
partment of Agriculture at Aus-  
tin, from the University of Texas  
and from the A. & M. College  
may be obtained by anyone who  
will write for them. The Texas  
Industrial Congress at Dallas  
has a garden bulletin, prepared  
especially for use with reference  
to Texas soils and climates, a  
copy of which will be sent to  
anyone desiring it.

The Texas Food and Feed  
Production Campaign, with head-  
quarters at Austin, is forming a  
Patriotic Garden League of  
Texas, with the hope of enroll-  
ing 100,000 members who are  
willing to sign the following  
pledge: "I will do my best. I  
want to help win the war and  
will plant a garden. Please en-  
roll me as a member of the Pa-  
triotic Garden League of Texas."

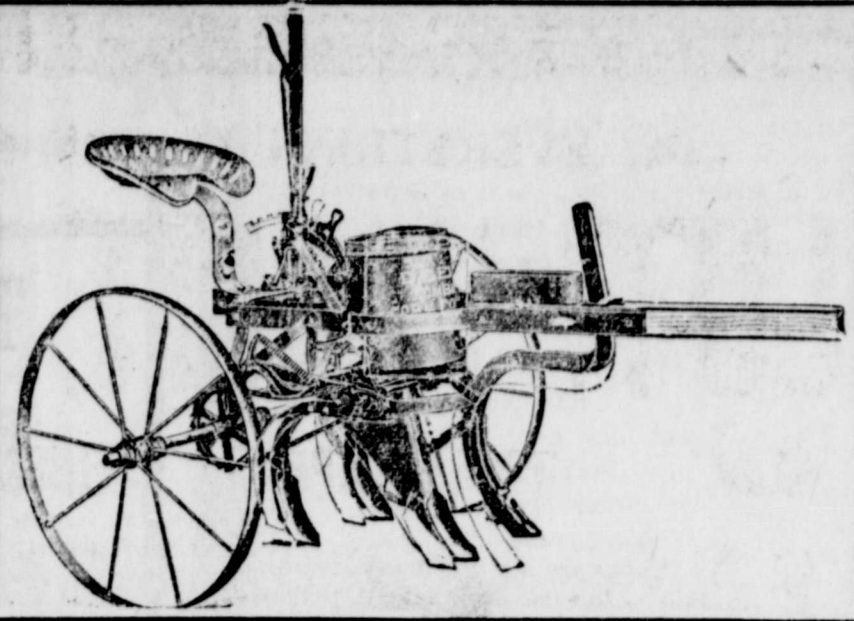

Anyone patriotic enough to  
want to render this service to his  
country should write at once to  
Austin, asking to be enrolled as  
a member of the League.

"Food will help win the war  
and a garden in every home is  
a war measure of first impor-  
tance."

**CHURCH NOTICE**

Prof. F. Willard Taylor of  
Mullan will preach at the Baptist  
Church Sunday morning. Pastor  
will be back for Sunday night  
service.

**SEED SOWING**

Is an important business with the farmer. It is necessary that he  
have the proper seed and that they be planted properly. In order  
that the planting and cultivating be done in a way to get best re-  
sults, it is necessary to have First-Class Implements—and the

**JOHN DEERE LINE**

covers this requirement exactly. We can supply your every need  
in this department. Let us show you what we can do for you.

**Bodkin, Hurdle & Co**

Full Stock of Coffins—All Sizes and Different Grades

**HOME OWNERSHIP**

If ever there was a time more  
favorable than another for men  
without homes to buy and be-  
gin to husband their earnings  
till they can pay for them, cer-  
tainly no one will dispute that  
it is the present. Those who  
have enough cash to  
make a small payment on a  
farm and has equipment neces-  
sary for farming would do well  
to search for some one who is  
willing to sell on such conditions.  
The hope of paying for a farm  
and living in one's home is a  
powerful stimulus in causing one  
to save and make such invest-  
ments.

The great demand for all kinds  
of crops and livestock should en-  
courage many to buy farms and  
the seasons and their thrift and  
industry to enable them to make  
the payments. There is certainly  
no likelihood that market con-  
ditions will be as they were a few  
years ago, at least for many  
years. At present it seems likely  
that land values will continue to  
advance beyond their reach.

Whether in war or in peace  
our country is profoundly inter-  
ested in making it possible for  
farmers to own their own homes.  
As home owners farmers are in  
better position to assist the state  
and the nation than those who  
have no homes. Tenants should  
have as their goal owning a home  
for there is no higher nor holier  
ambition.

While most people are anxious  
to own their homes tenants may  
be of great benefit to the state  
and the nation. Their co-opera-  
tion and assistance to the land  
owners and the community should  
be worth much.

Let us not forget that thrift,  
industry and economy are far  
more important than state or  
national aid. While the state and  
the nation might and should give  
encouragement for home owning  
no one should depend upon aid  
from those resources.—Farm and  
Ranch.

**YOU WANT THE BEST**

If this applies to good things to eat  
properly prepared you should come  
to the Recad Restaurant, the Hun-  
sry Man's Delight, where every-  
thing is served in the most appeal-  
ing style and our prices are always  
right. J. W. RICHARDS Proprietor.

—Racket Store.

County Clerk Summy issued  
marriage license since the last  
report to George Dewey Mathis  
and Miss Minnie Faubion, C. A.  
Woolsey and Miss Cynthia Cook.

Friday, Feb. 22, Washington  
birthday, will be observed by  
the post office and rural carriers  
No service after 9:15 a. m.

The firm of Frizzell & Taff  
grain dealers, has been dissolv-  
ed, Mr Frizzell purchasing Mr.  
Taff's interest in the business  
and he will continue in the same  
line at the old stand, known as  
the Pardue elevator, near the  
Depot.

Mrs. W. W. Westerman, who  
has been very sick for some  
time, was somewhat improved  
this week and was carried to the  
home of her daughter in Loneta,  
with the hope of the change  
being beneficial.

No 4 rural mail route out of  
Gulthwaite has been extended  
in the Payne community to take  
in the Hearne plantation, which  
gives the carrier three and one-  
half miles longer route.

The income tax collector will  
be in Mullan next Saturday and  
Monday. He will be in Gold-  
thwaite Tuesday, Wednesday  
and Thursday, Feb. 26, 27, 28.

"Remember the Tuscania" will be the battle cry of vengeance and the battle cry of victory.

The Texas wheat prospects have been greatly improved by the recent snows and showers. Especially is this true of the crop in the west and Panhandle country.

Have you bought a War Savings Stamp? If not, why not? Any bank, postoffice and numerous other business institutions and patriotic organizations can supply you.

It is announced that the scarcity of ammonia causes apprehension of a shortage of ice next summer. The ammonia is used in the high explosives and the supply must be conserved. Lake ice is being stored in large quantities, to augment the manufactured supply.

A court martial of 40 negro soldiers charged with being implicated in the riot in Houston some months ago will begin at Fort Sam Houston, San Antonio, next week. Already 13 of the outlaw "niggers" have paid the penalty of their riot with their lives and 40 others have been given prison sentences.

It is erroneous to imagine that the conservation of food requirements promulgated by those in authority are for our observance if it pleases us and to be disregarded if we like. These rules must be rigidly obeyed and that fact may as well be understood now as after some of the people have been given trouble over it.

Plant a "war garden." If all who have the necessary soil and the time to cultivate a garden will give that much time and energy to the needs of the country results will be decidedly beneficial in the matter of saving the food supply. America must produce a sufficient supply of food stuff for the people of the allied nations of Europe, or at least a large portion of the food they need, as well as enough for home consumption. Everybody can help some by planting and cultivating a garden, which will enable them to more nearly "live at home" and the food they would otherwise buy can go to those who need it.

There can be no denying the fact that the separate peace made by Russia is detrimental to the allies, but the conditions brought about by this dishonorable act of the revolutionists of Russia is not of so great importance as might be thought, if no investigation of the situation was made. The release of the German prisoners held in Russia develops that many were civilians and many more were in ill health because of the lack of food, shelter and care given them in the prison camps. The food supply gained by Germany in the making of the peace was not considerable and such as there is of it is in remote sections of the country. True, the German forces required for the eastern front can be withdrawn to a considerable extent, but the entire front can not be abandoned, since a renewal of hostilities may develop as suddenly as did the Russian revolution. Taken all together, the most beneficial results to Germany is the influence on the people of that nation both in and out of the army, by increasing their hopes and encouraging them to stronger efforts and further sacrifices.

## DEEP WELLS

### A Visit To Brownwood Oil Field

Editor Eagle:

The writer visited the oil city (formerly known as Brownwood) last week and took in a few of the sights as well as some of the "hot air" which is quite as abundant as the oil.

The city has quite a congregation of investors and promoters and they seem to continue to come. Several women are among the promoters that came from Oklahoma and other places.

There are a great many shallow wells, but no deep ones. The deep wells that have been started seem to lie west and northwest of town. There is a derrick erected for a deep well on a ridge down the R. R. crossing near Ricker. This is some four or five miles this side of town and the only indications I saw of drilling east of town.

The excitement seems to be spreading to territory northwest of town, where a few deep wells have been started. None of these wells have been brought in yet, altho the Bulletin of Saturday reported a well in that direction had been brought in. I received this information from a man who claimed he had been on the ground since last August. He said he saw in the Bulletin Saturday where this well had been brought in and got in his car on Sunday and went out to confirm the report and found there was no oil in or about this well.

I repeated some things I had heard to this man and he cautioned me that I must take things I heard with a grain of salt. Yes, it requires salt, sometimes, to save the situation in Brownwood, but no more than usually required at such places.

The wells on which, I think I got reliable information seem to produce from 5 to 10 barrels per day.

The shallow field seems to be pretty well explored. Deep wells are not expected to be brought in before some time next summer, altho there are occasionally wild rumors about them being brought in. The permanent situation seems to depend on the deep wells. If they come in good and strong no telling how strong the excitement will grow. If they happen to be "dusters" it looks like the bubble might be punctured and disappear quicker than it came in existence as to anything but the shallow field.

There is just one thing that was a little disappointing to me and that was that interest was not growing in our direction much. However, some operators wanted some cheap territory along with their high priced territory and occasionally territory from our county was taken over by this class of investors. Their choice, however, seemed to lie in the northwest and west sections of the county.

One thing I learned, however, and that was that it was the opinion of at least one good business man that owing to the time required to drill deep wells and the possible extent of the field if deep oil was found that development would hardly be under good headway in less than five years.

A. J. HARRISON

### LOYALTY TO THE STATE

It is a good indication of patriotism for people to be proud of their state, believe it has opportunities equal to those of other states and be willing to say a word for the state that protects them and their property. Such citizens are too few. The state needs more loyal, patriotic, satisfied citizens, the county and neighborhood should have more residents of this character.

Every citizen should be loyal to his state. He should be loyal to the county and neighborhood in which he lives. One may not

be able to approve all his county and neighborhood does, as there are always men in government and private affairs that disregard the ethics of society and citizenship. Yet it is possible and highly desirable for honorable, upright men to be in harmony with the majority and thus be able to approve the work of their neighbors.

The fact that some people cannot live in harmony with the ideals and sentiments of their neighbors is responsible for many of the difficulties in co-operation. Some refuse to take part in co-operative work designed to benefit the neighborhood because their neighbors also have part in this work. In other words it is jealousy and selfishness that prevents such people from taking part in good work for community building. A community where many of these people are is seldom prosperous or desirable for newcomers to seek.

State and county pride should be strong enough and settled to enable the majority of the people to get together on reform in politics. Men should place their state, county and neighborhood above political differences and political intrigue; they should be more concerned about the men who are selected as leaders than the party or the division of the party to which they belong; they should be jealous of the reputation of their state and the example set before the young men of the country. To authorize as governor or other public officer any but clean, honorable, intelligent men is a reflection upon the voters of a state and the injury almost irreparable.—Farm and Ranch

### NOTICE TO FARMERS AND STOCK RAISERS!

The time of year is at hand when your stock is more liable to sickness. As we have at present a good deal of sickness among stock, I urge every stock raiser and farmer to close attention and at any time he notices any ailment among his stock phone me, as my advice is free over the phone and probably I could be of great help to the owner of the animal, as in many cases "a stitch in time saves nine."

Don't let your stock get sick and go on for 3 or 4 days without medical aid. When they show some ailment, phone me. It costs nothing to ring me and give me the symptoms and in many cases I can save you money and be of great benefit to your stock. Don't wait till the animal is most dead and then go to treating it, as the time to treat anything—man or beast—is at the first attack. Get after it in time. Give your stock a purgative and cleanse their systems of the accumulated poisons. Arouse their livers and get the digestive organs to handle their food.

The Tick Fever season is near at hand and I urge all cattlemen and farmers to have their cattle vaccinated against this fever. Don't do like some of my customers last year—wait till they lost 2 or 3 good cows and then call me and have the rest of them vaccinated. Have it done before they take the fever, for my medicine has been demonstrated on thoroughly here and every man knows it will prevent Tick Fever. I vaccinated several thousand head of cattle last year and they never had any more tick fever, so there isn't any guesswork about my medicine. It does the work.

If I vaccinate your cattle and within 6 months one of them takes Tick Fever, I will furnish you a treatment of medicine free of charge. If that isn't fair, what is? The first of February is the time to vaccinate against Tick Fever. I keep in stock a nice line of high-grade veterinary medicines and do a general veterinary practice. Calls answered day or night.

### MRS MORRIS HAS GAINED 20 POUNDS

#### Friends See Great Change in Her Condition Since Taking Tanlac

"I have gained twenty pounds or more and anyone who knew the dreadful condition I was in can readily see the wonderful change Tanlac has made in me," said Mrs. N. F. Morris, who resides at 910 East Missouri st., El Paso, Texas, after using five bottles of the "Master Medicine."

"No one," she continued, "except those afflicted the same way can have but a faint idea of the wonderful suffering I went thru for seven years. I had indigestion, a bad stomach and rheumatism in my back and shoulders. Many a day, and even months at a time, I have lived most altogether on liquids. Occasionally for breakfast I was allowed a glass of milk and a little stale bread toasted, and I got so I couldn't even take that, I couldn't even drink water without it causing me trouble. I was often so sick and nauseated I felt like I would die and some days there wasn't an hour but what I would have a vomiting spell, and while in this fix I was completely exhausted. The gas on my stomach made my heart beat so fast it seemed like it would jump out of my body and I just had to struggle for breath. I was very nervous, couldn't sleep at night and felt tired and worn out all the time. I had fearful headaches and really, I never knew what it was to be free from suffering."

"I spent three months in one hospital and was told my trouble was caused by either gallstones or appendicitis, but I came back to El Paso and kept getting worse. My suffering was so terrible I didn't much care whether I lived or not, and I had become discouraged and down-hearted. Then I went to a hospital and had my appendix removed, but still suffered the same way and became more despondent than ever. My husband and family paid out hundreds of dollars trying to get something to help me and just to think a few bottles of Tanlac have done more than everything else certainly seems remarkable to me. Tanlac seemed to go right to the seat of my trouble and in a few days I had a good appetite and commenced to gain in weight and strength. My rheumatism and nervousness are gone and I sleep good every night, and my appetite is so great I have to guard myself to keep from eating more than I should. I am still taking Tanlac, but have already gotten so stout and healthy looking that I don't get any more sympathy. I'm talking Tanlac all the time and my friends often speak of how much better I look."

Tanlac is sold in Goldthwaite by L. E. Miller & Son, in Mullin by J. R. Clark, in Regency by Keeling & Keeling, in Priddy by G. H. Spiser and in Star by Star Drug Co. (adv)

#### MASS MEETING

After discussing the matter with some of the leading citizens of the town, I have decided to call a mass meeting at the district court room Monday evening at 7:30 o'clock, to discuss the subject of a federated charity organization for the town and outline plans for the work. It is necessary that concert of action be had in order that those in need from time to time be given assistance and the public be protected against unscrupulous and unworthy individuals who prey upon the generosity of the people.

I trust that every church, lodge and other organization intended to be helpful to the world will be represented in this mass meeting, in order that all may have part in the work to be outlined.  
W. G. CALLIHAN,  
Pastor M. E. Church.

#### LEARN TO SAVE

Columbus discovered a fruitful soil which the American people have skinned ever since it was discovered. They have not only robbed the soil, but they wasted, world without end, what they have taken out of it.

Meantime, the war-emergency forces upon the country a much needed lesson in frugality, a desideratum second only to that of winning the war, and the lesson comes none too soon.

Among the ways to save the soil is by deep-plowing, by planting cover crops, and by terracing. That the Texas farmer of late years is giving more attention to keeping up and building up his soil is visible to the naked eye from the ear window.

And the little show along the line of conservation of soil-fertility the Texas farmer has made, is but a hint of what he will do in the years to come.

Bread and meat scraps, fruit and vegetable peelings, etc., should be fed to pigs and poultry instead of dogs.

From the cities and towns, tons-upon-tons of garbage are hauled to the dump, and it is estimated that ten per cent of it is worth saving as feed for pigs and poultry.

Dietitians agree that as a health-saver, the frying pan is a failure. Therefore, it appears both health and fats may be conserved by using the frying-pan less, and the stew-kettle and broiler more.

When rabbits are a pest, which they generally are, two rabbits may be killed with one stone, by adding the farm of the pest, and at the same time saving other meats. Our State Agricultural Department will be glad to send a leaflet how to make even a John rabbit tickle the appetite.

Great saving may be made by a careful handling, especially of perishable crops and this one year we cannot afford to divide with the insects.

The surplus orchard and garden stuff should be saved by canning, preserving and drying. In some portions of Texas vast quantities of wild berries and other fruits annually go to waste, and the saving means living and good health.

In harvesting his crops, the Southern farmer has never been a careful gleaner. He should get all the coming season and especially if he cannot follow with live stock.—Agricultural Bulletin

#### PLANT PEANUTS

Every farmer in Mills county should plant some peanuts.

Last year's crop was valued at more than thirty-six million dollars. Under an Austin date line of January 19th the Manufacturer's Record had the following article: "Perhaps the most significant feature of the crop estimate just issued by the United States Department of Agriculture for Texas is that it gives the value of the peanut crop of the state in 1917 at \$36,120,000. It shows that the acreage of peanuts increased from 275,000 acres in 1916 to 800,000 acres in 1917. In this connection it is interesting to note that every indication points to at least 1,500,000 acres being planted in peanuts this year in this state."

The peanut crop had an average value of \$30.20 per acre.

GEO. W. McDANIEL,  
Emergency and Demonstration Agent, Mills County.

#### ASTOUNDING REPORT FOR GOLDTHWAITE

The wife of a merchant had stomach trouble so bad she could eat nothing but toast, fruit and hot water. Everything else would sour and ferment. One spoonful buckthorn bark, glycerine, etc., as mixed in Adler-ika relieved her instantly. Because Adler-ika flushes the entire alimentary tract it relieves any case constipation, sour stomach or gas and prevents appendicitis. It has the quickest action of anything we ever sold.

### THE NATIONAL BANK

W. E. MILLER, President.

Officers report another anti-draft plot in Abilene. Several suspects have been arrested.

Governor Hobby has issued a proclamation to the boys and girls of Texas urging them to give assistance in the organization of junior Red Cross societies in all the schools.

An inspector burned a considerable quantity of cotton seed at Caldwell this week, because of the presence of pink boll worms in them. The seed had been shipped to that place for planting.

Plans have been completed for the University Baptist church building at Austin, to cost \$100,000. It will be constructed of brick and stucco and will be located near the state university grounds.

Police officers of Fort Worth announce a renewed effort to stop automobile speeding in that city. The number of tragedies reported from that place as a result of reckless driving should certainly cause officers to be vigilant and citizens should be careful.

Fuel Administrator Garfield has suspended the order requiring factories and department stores in certain districts to close on Mondays as a method of fuel conservation. The warmer weather, which has reduced the demand for fuel and benefited railroad traffic as well, is responsible largely for the change in the order.

The attorney general's department has promulgated a ruling that a special session of the Texas legislature can ratify the proposed prohibition amendment to the federal constitution without the governor submitting the matter to the legislative body. It is also held that the governor has no veto power in the premises, as it is a matter outside his jurisdiction.

Eleven citizens of Fayetteville including the mayor, were arrested by federal authorities Monday for displaying a German flag over their club house. The men were all carried to Houston and released on bonds aggregating \$69,000. They claim the raising of the flag was a mistake and nobody is inclined to doubt it being a real bad "mistake," but just how innocent they were in making this mistake they will be called on to prove in federal court.

This is the **Black Silk Stove Polish** YOU Should Use

It's different from others because more care is taken in the making and the materials used are of higher grade.

**Black Silk Stove Polish**

Makes a brilliant, silky polish that does not rub off or dust off, and the shine lasts four times as long as ordinary stove polish. Used on sample stoves and sold by hardware and grocery dealers.

All we ask in a trial. Use it on your cook stove, your parlor stove or your gas range. If you don't find it the best stove polish you ever used, your dealer is authorized to refund your money. Insist on Black Silk Stove Polish. Made in liquid or paste—one quality.

**Black Silk Stove Polish Works**

Sterling, Illinois

The Black Silk Air-Drying Iron Enamel on grates, registers, stove-pipes—Prevents rusting. The Black Silk Metal Polish for silver, nickel or brass. It has no equal for use on automobiles.

**"A Shine in Every Drop"**

## TUSCANIA TORPEDGED

The United States transport Tuscania, having on board about 2400 soldiers, which was torpedoed and sunk off the Irish coast last week was at first thought to have no Texans and especially no Mills county boys aboard, but later developments proved this information to be erroneous. Sam Tullos of this city, Joseph Walker of Big Valley and W. H. Venable of Center City were all on the ship, but none were lost, altho the two last named were either injured or sick, as they were reported among those in the hospital. It was thought for a time that Rufus Taff of Shaw Bend, San Saba county, was among the soldiers on the vessel and was lost, but information has been received that he was removed from the vessel at Halifax, Nova Scotia, because of illness and, therefore, did not reach the submarine zone.

It will likely be some days before the list of survivors is secured, but it is known that fully 159 went down in the disaster or died as a result of it. Most of the bodies were recovered and were buried with military honors.

### HELPING THE NEEDY

We say amen to Brother Callan's suggestion about intelligently helping the poor and needy. I find the people of Goldthwaite with hardly an exception are very charitable. All they need is the ease presented to them.

However, without organization it is impossible to distribute the burden fairly. The men most accessible are the ones we usually approach, consequently they bear most of the burden.

To help the unworthy is not only an injustice to the worthy, but is an encouragement to the unworthy to remain as such. I understand there is to be a mass meeting in the court house, district court room, at 7:30 Monday night. I bespeak for that a large attendance. Surely there can be the utmost co-operation in so noble a work.

W. R. WHITE,  
Pastor Baptist church.

Everything in hardware, furniture and undertakers supplies—Sullivan & Trent

Mrs C M Burch will take orders for the Goldthwaite Nursery for shrubbery and trees. Place orders as early as possible. (Advertisement)

Mr. and Mrs. T F Toland left Saturday night for market to buy spring goods for Little & Sons stores at Hamilton, Lometa and this place. They were accompanied by W T Little of the Hamilton house.

Now is the time to do your hog and goat fencing. DO IT NOW and buy your fence from Barnes & McCullough. They carry a large stock of these fences and their prices are absolutely correct. (adv)

Mrs L E Miller, president of the Cemetery Association, announces a meeting at the rest room of the court house Monday afternoon at 4 o'clock, at which time officers for the ensuing year are to be elected. All members are urged to attend.

Wanted—The Eagle wants a boy or young man not subject to the draft to learn the printing business, including the operation of a linotype machine. Reasonable pay and a permanent position. Must have a fair knowledge of grammar and spelling.

H O Porter was seriously and painfully injured by being knocked down by a horse, which struck him with at least one of his feet, Wednesday morning at the stock lot, south of the square. He was rendered unconscious for a time, but is now getting along nicely and will soon be fully recovered from the injury.

### OIL PROSPECTS

#### Leases Being Made and Several Wells To be Sunk

There are many people who believe Mills county will be one of the best oil producing fields in Texas and some of them are backing their judgment with their money.

This week prospectors have been here from various sections of this and other states and a number of oil leases have been made, in addition to those already recorded. In some cases, perhaps, the leases were secured for speculative purposes, but there are a number of combinations intending to sink wells.

An Oklahoma firm this week contracted with people of Ryeg Valley section to begin drilling in 90 days and a forfeit of \$1000 has been posted as a guarantee of good faith.

J V Cockrum has a contract with a drilling firm to sink one well and conditionally four wells are to be drilled by this firm, under the direction of Mr. Cockrum.

W C Dew has a contract with Goose Creek parties to drill a well on his ranch west of Mullin and a telegram from the parties a few days ago gave assurance of good faith and the intention of beginning work as soon as possible.

Other deals have been made and are in process of making, but the above should give reasonable assurance that there is something more than "hot air" about the oil situation.

#### THAT COURT HOUSE FIRE

I noticed in last week's issue of the Eagle an article signed Town Woman, in which he or she said something about heating up the court house on Sunday, and as that might leave a false impression in the minds of some I will tell how this came about:

This was at the end of tax paying time and the collector's office had more work than could be done by working day and night to make the report and interest on the tax money was being lost until the report was made, so the collector asked me for a fire. The exemption board was also very busy at this time and as it was cold needed a fire, so the collector and myself are entirely responsible. Any thinking person will know that under such conditions we were in the right, but I wanted to explain for fear some folks would be misled. G. G. CLEMENTS, Janitor Court House.

#### EXCLUSIVE AGENCY

I have given R. E. Clements the exclusive agency on Logan's Black Pills, Logan's Itch and Eczema Ointment and Logan's Catarrh Relief. J. H. LOGAN, M. D.

Announcement has been received here of the marriage of Miss Bazie Fritz to Mr. James E. Schott at Greenville on Sunday, Feb 3 Miss Bazie resided here several years of her childhood while her father, Mr. J. W. Butz, was Santa Fe agent at this place. She is kindly remembered by many friends and former associates, who are delighted to extend congratulations and good wishes.

## FOOD AND FEED

### Campaign To Open Monday With a Number of Good Speakers.

In conformity with the policy of the agricultural department of the state and nation, I have outlined a campaign on food and feed production and conservation. The department has agreed to furnish a number of speakers and several patriotic and public spirited citizens of the county have volunteered their services to assist in this campaign, which will open Monday morning.

All speakers and those who are to furnish cars are requested to meet at the court house Monday morning at 8 o'clock and routes for the different speakers will be outlined. Following is a list of the appointments for speaking and others may be added, if the necessary arrangements can be made. The meetings in every case will be held in the public school buildings and the citizens of the various communities are invited and requested to be present:

#### Monday

Ridge, 9:30 a. m.  
Buffalo, 11 a. m.  
Regency, 2 p. m.  
Big Valley No. 23, 1:30 p. m.  
Big Valley No. 27, 3 p. m.

#### Tuesday

Liberty, 9:30 a. m.  
Cave Oak, 10:30 a. m.  
Center City, 11:30 a. m.  
Star, 2 p. m.  
Rock Springs, 1:30 p. m.  
Ratler, 2:30 p. m.  
Trigger Mountain, 9:30 a. m.  
Mullin, 11 a. m.  
Prairie, 1:30 p. m.  
Pickens Springs, 3:30 p. m.

#### Wednesday

Midway, 9:30 a. m.  
Washboard, 11:30 a. m.  
Priddy, 1:30 p. m.  
North Brown, 3:30 p. m.  
Payne, 9:30 a. m.  
Pleasant Grove, 11 a. m.  
Cedar Knob, 11 a. m.  
Antelope Gap, 2:30 p. m.  
Blanket Springs, 10:30 a. m.  
Pompey Creek, 2:30

#### Thursday

Miller Grove, 10 a. m.  
Williams Ranch, 2:30 p. m.

The campaign will close with a general mass meeting in the court house at 2 o'clock Friday afternoon, at which all the speakers who engaged in the campaign are requested to be present and the citizens generally are invited. GEO. W. McDANIEL, Emergency Co. Dem., Mills Co.

Capt. Vernon Castle, the noted aerial navigator and instructor in the operation of flying machines at Fort Worth field, was killed in an accident at that place yesterday morning.

# Build Now!

**B**uying lumber and hog wire at this time is the best investment you ever made. There are several very good reasons.

**U**nusual conditions make it possible to get twice as much lumber and hog wire as you did in 1914 for the same amount of farm produce.

**I**nvestment in lumber and hog wire and the placing of new buildings on your property will increase its value out of all proportion to the cost.

**L**umber---the world's greatest building material---and hog wire have advanced much less than any other material used for building.

**D**ouble value can be had without sacrificing quality ---and the lumber and hog wire of today are better than ever before.

**N**othing is more important than conservation at this time, and all grain, stock and implements must be properly sheltered.

**O**pportunity---such as you have NOW---may never come again. After the war, lumber and hog wire prices may be higher.

**W**e are giving you this information in the right spirit ---with a desire to see you buy when you can get more for your farm produce.

## BARNES & McCULLOUGH

# Build Now!

### KEEP BUSINESS GOING

There is a danger that many people will misunderstand the conservation orders and the efforts of the public officials and the press and instead of conserving will destroy in many instances. True, it is desired that the resources of the people in general and the individuals be carefully managed and economically used, but it by no means proposes the destruction of business. Just use ordinary business judgment in the expenditure of money and in creating indebtedness, observing the meatless and wheatless days as required, but don't "cut out" every line of enterprise and industry. Conservation should not be allowed to reach the stage of a panic, else it will thwart the very purpose for which all efforts are being exerted.

## ....Second-Hand Store....

**I Will Trade New Furniture For Second-Hand Goods. My Terms Are: Cash and A Small Profit.**

If I haven't what you want I will order it for you. I am in the market to buy anything you have to sell and will give you more for it than anybody else. I will also have my insurance business and will appreciate a share of your business. See me before you buy or sell.

J. T. Prater has received the sad announcement of the death of his sister, Mrs. M. J. Baskin, at Murrycross, Ala., which occurred last Saturday. Mrs. Baskin visited her brother and family here some years ago and is kindly remembered by those who met her, Mr. Prater and family have the sympathy of friends.

### NOTICE IN PROBATE

The State Of Texas  
To the Sheriff or any Constable of Mills County—Greeting:  
You are hereby commanded, that you cause to be published in a newspaper printed in Mills County, for twenty days before the return day hereof, a true copy of the following notice:  
The State of Texas:  
To all persons interested in the estate of J. D. Chesser, deceased, J. S. Chesser, of Mills County, Texas, has filed an application in the said County Court of said county, on the 4th day of February, A. D. 1918, for Letters of Administration to be issued to him upon the said estate, which will be heard by said court on the 4th day of March, A. D. 1918, at the Court House thereof, in the city of Goldthwaite, at which time and place all persons interested in said estate may appear and answer said application if they desire to do so.  
Herein fail not, but have you before said court, on the first day of the next term thereof, this writ, with your return thereon, showing you have executed same.  
Witness my hand and the seal of the County Court of said county at office in Goldthwaite, this 9th day of February, A. D. 1918. W. B. SUMMY,  
Clerk County Court, Mills County, Texas. (Seal)

### FOUR GENERATIONS

Mills County Represented In Family Reunion in Fort Worth

The above is a picture of Mrs. E. F. Coats of South Bennett, her daughter, Mrs. T. P. Brashear and Mrs. Brashear's daughter, Mrs. Kimsey, together with Mrs. Kimsey's baby daughter. The last named three live in Fort Worth, but Mrs. Brashear was reared in this county and Mrs. Kimsey lived here during several years of her childhood and

has visited in the county in later years. The family moved from here to Fort Worth several years ago.

The family reunion, at which this picture was taken, was held at the Brashear home during Christmas week.

Mrs. Coats, the only one of the four who lives in Mills county, is 70 years of age, but is stout and active. She was born in Indiana and reared in Iowa, but moved to Mills county in 1873. The family is one of the most highly esteemed of the county.

Will Rahl and family moved to Brownwood this week, where he is employed as manager and buyer for Looney Mercantile Co. Their many friends here regretted their departure and wish for them happiness and prosperity in their new home.

**CALOMEL SALIVATES AND MAKES YOU SICK**

Acts like dynamite on a sluggish liver and you lose a day's work.

There's no reason why a person should take sickening, salivating calomel when a few cents buys a large bottle of Dodson's Liver Tone—a perfect substitute for calomel.

It is a pleasant, vegetable liquid which will start your liver just as surely as calomel, but it doesn't make you sick and can not squalid.

Children and grown folks can take Dodson's Liver Tone, because it is perfectly harmless.

Calomel is a dangerous drug. It is mercury and attacks your bones. Take a dose of nasty calomel today and you will feel weak, sick and nauseated tomorrow. Don't lose a day's work. Take a spoonful of Dodson's Liver Tone instead and you will wake up feeling great. No more biliousness, constipation, sluggishness, headache, coated tongue or sour stomach. Your druggist says if you don't find Dodson's Liver Tone acts better than horrible calomel your money is waiting for you.

**PLENTY OF PROOF**

From People You Know—From Goldthwaite Citizens

The greatest skeptic can hardly fail to be convinced by evidence like this. It is impossible to produce better proof of merit than the testimony of residents of Goldthwaite, of people who can be seen at any time. Read the following case of it:

D. Y. Fox, deputy city marshal, Goldthwaite, says: "My back caused me much suffering and I had rheumatic pains in my legs and arms. My kidneys often acted irregularly. I got Doan's Kidney Pills from Clements' Drug Store for those ailments and they always relieved the rheumatic pains as well as backache and regulated my kidneys. As a rule I have Doan's Kidney Pills in my house, as I know I can depend on them."

Price 60c at all dealers. Don't simply ask for a kidney remedy—Get Doan's Kidney Pills—the same that Mr. Fox used. Foster-Milburn Co., Mfgs., Buffalo, N. Y. (Advertisement)

**FROM THE BACK-WOODS**

Editor Eagle:

I am so anxious to endorse what the Town Woman and All Wright said in last week's Eagle, also some of the ideas advanced by Messrs Dew, Burkett and Cobb in their article "As You Like It." If I am rightly informed, the coal used at the court house is purchased with the funds of the county, put there for the use of our county officials during the six working days and not to be burned for the pleasure of a select few. Say, Mr. Editor, what would that bunch do if a lot of us backwoods-men were to come into town next Sunday morning with our pockets full of dominoes and demand the keys of our court house—take our coal and make up fires to suit our selfish ways and tell the black smoke to go forth to advertise to the good people of Goldthwaite that we big county licks were on hand, law or no law? Would we get the keys? No! Not the keys to our own house, to burn our own coal on the Lord's day, when we are ashamed to work out on the farm? No siree Bob! You backwoods-men can't run that over us county officials. We are here elected by the people to enforce the law and it would be wrong to admit you into the people's court house to burn the people's coal on Sunday, when you should be at home with your families. In this neck of the woods we give three cheers to the Town Woman and our next move will be to ascertain who these guardians of our county affairs are who are burning our coal in these perilous times. If we country hayseeders can't use it because it is wrong we want to know if you use it and burn our fuel without our consent can you honestly and sincerely blame us for hooking up with All Wright, Cobb, Dew, Burkett and that brave Town Woman to see that we get some one to look after our affairs who will let our county court house stand as a monument (to our children and the passers by) to the Sabbath reverence, as well as a temple of justice? Let-er-go-Bill.

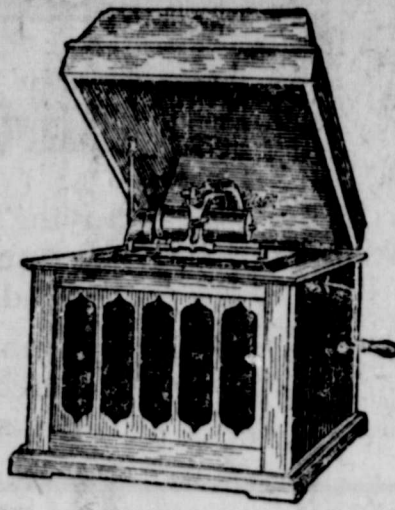

JOHNATHAN DOOLITTLE

P. S.—Mr. Doolittle wishes to add a postscript. Suppose we have a picnic, a cornshucking, a peobergrabbing or sich like to give these Sabbath burners of the people's coal a chance to again tell us of their Democracy, loyalty, patriotism and love for the good people of Mills county. If we should, boys, please wash the coal smut from your hands I will sign DOOBIGGIE.

**PRIMROSE**

Yes, they have cut it 5 per cent and 'tis still the best you can get and every time you use a sack you contribute 5 per cent to help lick the Kaiser.
